Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 8th day of June 1960.

Section 302.32(b) of Part 302 of the Procedural Regulations currently includes a requirement that pamphlets, charts, and other written data which will be presented to the Board at oral argument shall be served on all parties and eight copies transmitted to the Docket Section at least five days before the argument. However, this section at present excludes from the requirement "maps and enlargements of exhibits, or charts included in briefs."

Proper procedure appears to require that all parties should be aware of all materials that are to be presented at oral argument. Consequently, the Board is promulgating this regulation which will require parties who intend to present materials to the Board at oral argument to file and serve all such materials in advance of the argument. This requirement will extend to maps, and charts included in briefs, which are currently excepted from the filing and service requirement. The only exception that will be continued relates to enlargements of exhibits intended to be placed on an easel and used for demonstration at the oral argument. However, the item which has been enlarged will in its original form be subject to the filing and service requirement.

Therefore, under this new regulation, the Board and all parties will be cognizant of all materials which are proposed for submission to the Board at oral argument and will have sufficient time for their review. If a party chooses to present such materials to the Board at oral argument for the information and assistance of the Members in following the argument, it appears to the Board that the other parties to the proceeding should be accorded like treatment. It frequently occurs that parties, who do not have a particular map before them, are unable to follow oral argument based on reference to that map. The rule will require the timely service of such an item to insure knowledge thereof by the parties.

Under the proposed rule, the transcript of the oral argument will become much more intelligible to the reader. At the present time it is extremely difficult for a reader to fully comprehend a transcript in which reference is made to oral argument materials since he is unable to refer to them readily in the course of his reading.

Since this amendment is not a substantive rule but one of agency procedure, notice and public procedure hereon are not required.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends § 302.32 of Part 302 of the Procedural Regulations (14 CFR Part 302), effective July 13, 1960, by deleting the present paragraph (b) and inserting in lieu thereof a new paragraph (b) to read as follows:

§ 302.32 Oral argument before the Board.

* * * * *

(b) Pamphlets, charts, and other written data may be presented to the Board at oral argument only in accordance with the following rules: All such material shall be limited to facts in the record of the case being argued. All such material shall be served on all parties to the proceeding and eight copies transmitted to the Docket Section of the Board at least five (5) days in advance of the argument. As used herein, "material" includes, but is not limited to, maps, charts included in briefs, and exhibits which are enlarged and used for demonstration purposes at the argument, but does not include the enlargements of such exhibits.

(Sec. 204(a), 72 Stat. 743; 49 U.S.C. 1324. Interpret or apply sec. 1001, 72 Stat. 788; 49 U.S.C. 1481)

By the Civil Aeronautics Board.

[SEAL] MABEL MCCART,
Acting Secretary.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 7499 c.o.]

PART 13—PROHIBITED TRADE PRACTICES

Heckethorn Manufacturing & Supply Co.

Subpart—Discriminating in price under sec. 2, Clayton Act—Price discrimination under 2(a): § 13.715 *Charges and price differentials.*

(Sec. 6, 38 Stat. 722; 15 U.S.C. 46. Interpret or apply 49 Stat. 1527; 15 U.S.C. 13) [Cease and desist order, Heckethorn Mfg. & Supply Co., Dyersburg, Tenn., Docket 7499, April 14, 1960]

This proceeding was heard by a hearing examiner on the complaint of the Commission charging manufacturers in Dyersburg, Tenn., with discriminating in price in violation of section 2(a) of the Clayton Act, by selling its automotive shock absorbers, seat cushions and other products to some purchasers at lower prices than to their competitors.

Following acceptance of a consent agreement, the hearing examiner made his initial decision and order to cease and desist which became on April 14 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondent Heckethorn Manufacturing & Supply Company, a corporation, and its officers, representatives, agents and employees, directly or through any corporate or other device, in, or in connection with, the sale of automotive shock absorbers, seat cushions and other automotive parts and accessories in commerce, as commerce is defined in the Clayton Act, do forthwith cease and desist from discriminating, directly or indirectly, in the price of such products of like grade and quality by selling to any one purchaser at net prices lower than the net prices charged to any other purchaser who, in fact, competes with the purchaser paying the lower price in the resale or distribution of respondent's products.

It is further ordered, That the allegation of a substantial lessening of competition or tendency toward monopoly in the line of commerce in which the respondent is engaged be dismissed.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondent herein shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist.

Issued: April 14, 1960.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

[F.R. Doc. 60-5378; Filed, June 13, 1960; 8:48 a.m.]

[Docket 7516 c.o.]

PART 13—PROHIBITED TRADE PRACTICES

Marlun Manufacturing Co., Inc., et al.

Subpart—Advertising falsely or misleadingly: § 13.155 *Prices;* § 13.155–40 *Exaggerated as regular and customary;* § 13.155–45 *Fictitious marking;* § 13.155–60 *List or catalog as regular selling.* Subpart—Furnishing means and instrumentalities of misrepresentation or deception: § 13.1055 *Furnishing means and instrumentalities of misrepresentation or deception.* Subpart—Discriminating in price under Sec. 2, Clayton Act—Payment for services or facilities for processing or sale under 2(d): § 13.824 *Advertising expenses.* Subpart—Misrepresenting oneself and goods—Prices: § 13.1805 *Exaggerated as regular and customary;* § 13.1810 *Fictitious marking.*

(Sec. 6, 38 Stat. 722; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719 as amended; sec. 2, 49 Stat. 1527; 15 U.S.C. 45, 13). [Cease and desist order, Marlun Manufacturing Company, Inc., et al., Woodside, Long Island, N.Y., Docket 7516, April 14, 1960]

In the Matter of Marlun Manufacturing Company, Inc., a Corporation, and Emanuel Sado and Maurice Sado, Individually and as Officers of Said Corporation

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a manufacturer of its "Black Angus" electric broiler rotisseries in Woodside, Long Island, N.Y., with discriminating in price by making promotional payments to certain wholesalers but not to all their competitors on proportionally equal terms; and with representing falsely in brochures, price lists and catalogue sheets distributed to dealer customers and in newspaper and magazine advertising, that the excessive prices set forth were their customary retail prices.

Accepting a consent agreement, the hearing examiner made his initial decision and order to cease and desist which became on April 14 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents, Marlun Manufacturing Company, Inc., a corporation, and its officers, and Emanuel Sado, individually and as an officer of said corporation, and said respondents' agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale or the sale of rotisseries in commerce, as "commerce" is defined in the Federal Trade Commission Act and in the Clayton Act, as amended, do forthwith cease and desist from:

1. Paying, or contracting for the payment of, anything of value to or for the benefit of any customer of respondents as compensation or in consideration for advertising, display, wages of clerks, or any other services or facilities furnished by or through such customer in connection with the handling, processing, sale, offering for sale, or distribution of respondents' products, unless such payment or consideration is affirmatively offered on proportionally equal terms to all other customers competing in the resale of such products with the favored customer.

2. Representing, directly or by implication, that any price is the retail price of their rotisseries which is in excess of the price at which the rotisseries are regularly and customarily sold at retail in the trade area or areas where the representations are made, or that the prices at which such rotisseries are being offered for sale constitute reductions from the prices at which they are regularly or customarily sold in the trade area or areas where the representations are made, or that the amount of such reductions constitutes savings to purchasers.

3. Providing distributors and retailers of their rotisseries with materials by or through which they may mislead and deceive the purchasing public as to the regular and customary retail prices of their products.

It is further ordered, That the complaint in its entirety be and hereby is dismissed as to Maurice Sado, individually and as an officer of the respondent corporation.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents Marlun Manufacturing Company, Inc., a corporation, and Emanuel Sado, individually and as an officer of said corporation, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: April 14, 1960.

By the Commission.

PART 13—PROHIBITED TRADE PRACTICES

Stern Brothers

Subpart—Advertising falsely or misleadingly: § 13.155 *Prices:* § 13.155–40 *Exaggerated as regular and customary;* § 13.155–85 *Sales below cost.* § 13.285 *Value;* § 13.235 *Source or origin:* § 13.235–60 *Place;* § 13.235–60–(e) *Imported products or parts as domestic.* Subpart—Invoicing products falsely: § 13.1108 *Invoicing products falsely;* § 13.1108–45 *Fur Products Labeling Act.* Subpart—Misbranding or mislabeling: § 13.1185 *Composition;* § 13.1185–30 *Fur Products Labeling Act;* § 13.1212 *Formal regulatory and statutory requirements;* § 13.1212–30 *Fur Products Labeling Act.* Subpart—Misrepresenting oneself and Goods—Prices: § 13.1805 *Exaggerated as regular and customary;* § 13.1822 *Sales below cost.* Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 *Formal regulatory and statutory requirements:* § 13.1852–35 *Fur Products Labeling Act.*

(Sec. 6, 38 Stat. 722; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 719; 15 U.S.C. 45, 69f) [Cease and desist order, Stern Brothers, New York, N.Y., Docket 7550, April 14, 1960]

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a New York City department store with violating the Fur Products Labeling Act by labeling certain fur products falsely as to the animal producing the furs; by setting forth the name "United States" on invoices of furs of foreign origin; by advertising in newspapers which falsely represented fur products to be "prices below wholesale" and "nationally advertised from" certain prices which were not the usual prices in the trade area concerned, and made claims as to prices and values without maintaining adequate records as a basis therefor; and by failing in other respects to comply with requirements of the Act; and to cease such unfair trade practices as in advertising designating as "reg.", "regularly" and "usually", amounts in excess of its current selling prices.

Following acceptance of a consent agreement, the hearing examiner made his initial decision and order to cease and desist which became on April 14 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondent Allied Stores Corporation, a corporation, trading as Stern Brothers, its officers, representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction into commerce, or the sale, advertising, offering for sale, transportation or distribution in commerce, of fur products; or in connection with the sale, advertising, offering for sale, transportation or distribution of fur products which are made in whole or in part of fur which has been shipped and received in commerce, as "commerce," "fur" and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

1. Misbranding fur products by:

(a) Failing to affix labels to fur products showing in words and figures plainly legible all of the information required to be disclosed by each of the subsections of section 4(2) of the Fur Products Labeling Act.

(b) Falsely or deceptively labeling or otherwise identifying any such products as to the name or names of the animal or animals that produced the fur from which such product was manufactured.

(c) Setting forth on labels affixed to fur products information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder mingled with non-required information.

(d) Failing to affix labels to fur products showing the item number or mark assigned to a fur product.

2. Falsely or deceptively invoicing fur products by:

(a) Failing to furnish to purchasers of fur products an invoice showing all the information required to be disclosed by each of the subsections of section 5(b)(1) of the Fur Products Labeling Act.

(b) Setting forth on invoices pertaining to fur products the name "United States" as the country of origin of the furs contained in fur products when such is not the fact.

(c) Setting forth information required under section 5(b)(1) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder in abbreviated form.

(d) Failing to furnish to purchasers of fur products an invoice showing the item number or mark assigned to a fur product.

3. Falsely or deceptively advertising fur products through the use of any advertisements, representation, public announcement, or notice which is intended to aid, promote, or assist directly or indirectly, in the sale, or offering for sale of fur products, and which:

(a) Represents, directly or by implication, that the prices of fur products are "priced below wholesale" or words of similar import, when such is not the fact.

(b) Represents, directly or by implication, that certain amounts are nationally advertised prices or words of similar import, when such is not the fact.

(c) Misrepresents in any manner the savings available to purchasers of respondent's fur products.

4. Making price claims and representations in advertisements respecting prices and values of fur products unless respondent maintains full and adequate records disclosing the facts upon which such claims or representations are based.

It is further ordered, That respondent Allied Stores Corporation, a corporation, trading as Stern Brothers, its officers, representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of merchandise, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication:

(a) That any amount is respondent's usual and regular price of merchandise when it is in excess of the price at which said merchandise has been usually and regularly sold by respondent in the recent regular course of its business.

(b) That any saving is afforded from respondent's price in the purchase of merchandise unless the price at which it is offered constitutes a reduction from the price at which the merchandise has been usually and customarily sold by respondent in the recent regular course of its business.

2. Misrepresenting in any manner the amount of savings available to purchasers of respondent's merchandise, or the amount by which the price of said merchandise is reduced from the price at which it is usually and customarily sold by respondent in the normal course of its business.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondent Allied Stores Corporation, a corporation, trading as Stern Brothers, shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist.

Issued: April 14, 1960.

(Sec. 6, 38 Stat. 722; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Television and Appliance Credit Corp., et al., Hollywood, Cal., Docket 7591, April 7, 1960]

In the Matter of Television and Appliance Credit Corporation, a Corporation, and Sidney Morey, Aaron Shaw, and Frank Chesler, Individually and as Officers of Said Corporation

The complaint in this proceeding charged Hollywood, Cal., sellers of questionnaire forms to be used to obtain information concerning delinquent debtors, with representing falsely that their company was a casting service and offered employment in motion pictures to recipients who answered their questionnaires, and that their skiptracer forms had been cleared and approved by the postal authorities and the Federal Trade Commission.

After acceptance of a consent agreement, the hearing examiner made his initial decision and order to cease and desist which became on April 7 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents, Television and Appliance Credit Corporation, a corporation, and its officers, and Sidney Moray, Aaron Shaw and Frank Chesler, individually and as officers of

said corporation, and respondents' representatives, agents, and employees, directly or through any corporate or other device in connection with the business of obtaining information concerning delinquent debtors, or the offering for sale, sale or distribution of forms or other material for use in obtaining information concerning delinquent debtors or in the collection of, or attempting to collect accounts in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using, or placing in the hands of others for use, any forms, letters, questionnaires, or other materials, printed or written, which do not clearly reveal that the purpose for which information is requested is that of obtaining information concerning delinquent debtors.

2. Representing in any manner that respondents are in the business of a casting service for the motion picture or television industry.

3. Representing in any manner that respondents offer employment to the persons to whom respondents' forms are sent to appear in motion pictures.

4. Representing in any manner that respondents' skip-tracer forms have been cleared or approved by the Postal Authorities, the Federal Trade Commission, or by any other government agency, or representing that said forms, or the use thereof, are not in violation of the Federal Trade Commission Act, when such is not the fact.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: April 7, 1960.

Subpart—Advertising falsely or misleadingly: § 13.70 *Fictitious or misleading guarantees;* § 13.125 *Limited offers or supply;* § 13.155 *Prices:* § 13.155–5 *Additional charges unmentioned;* § 13.175 *Quality of product or service;* § 13.235 *Source or origin:* § 13.235–60 *Place;* § 13.235–60(c) *Foreign, in general;* § 13.285 *Value.*

(Sec. 6, 38 Stat. 722; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Velox Service, Inc., et al., New York, N.Y., Docket 7649, April 27, 1960]

In the Matter of Velox Service, Inc., a Corporation, Thoresen, Inc., a Corporation, and Nelson Torelli and Caesar Torelli, Individually and as Officers of Each of Said Corporations

The complaint in this case charged two affiliated New York City mail order distributors of general merchandise with such false advertising as misrepresenting the country of origin of Japanese knives and their availability and price, guarantees of watches, performance, quality and value of razor blades, etc.

Accepting a consent agreement, the hearing examiner made his initial decision and order to cease and desist which became on April 27 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents Velox Service, Inc., a corporation, and its officers, and Thoresen, Inc., a corporation, and its officers, and Nelson Torelli and Caesar Torelli, individually and as officers of each of said corporations, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of hunting knives, watches, razor blades and other articles of merchandise, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using the expression "Black Forest Hunting Knife" as descriptive of knives without conspicuously revealing in immediate connection therewith the name of the country other than Germany in which said knives are manufactured; or using any other words or pictures which represent, directly or indirectly, that any of the aforesaid articles of merchandise were manufactured in a country other than the true country of origin without conspicuously revealing in immediate connection therewith, the true country of origin of said articles of merchandise;

2. Representing, directly or indirectly, that the number or quantity of said articles of merchandise available to the purchaser is limited or restricted unless such is the fact;

3. Representing, directly or indirectly, that any price not the total price of an article or combination of articles of merchandise is the total price;

4. Representing directly or indirectly, that said articles of merchandise are guaranteed unless the nature and extent of the guarantee and the manner in which the guarantor will perform thereunder are clearly and conspicuously disclosed;

5. Representing, directly or indirectly, that razor blades give a specified number of shaves or perform or have a quality or value equal to higher priced razor blades unless such is the fact.

By "Decision of the Commission", etc. report of compliance was required as follows:

It is ordered, That respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: April 27, 1960.

By the Commission.

Title 24—HOUSING AND HOUSING CREDIT

Chapter II—Federal Housing Administration, Housing and Home Finance Agency

MISCELLANEOUS AMENDMENTS TO CHAPTER

The following miscellaneous amendments have been made to this chapter:

SUBCHAPTER B—PROPERTY IMPROVEMENT LOANS

PART 204—TITLE I MORTGAGE INSURANCE; RIGHTS AND OBLIGATIONS OF MORTGAGEE UNDER INSURANCE CONTRACT

Part 204 is amended by adding a new § 204.4a as follows:

§ 204.4a Voluntary termination of insurance.

Any contract of insurance meeting the requirements of this part may be voluntarily terminated in accordance with the provisions of section 229 of the Act. Voluntary terminations of insurance contracts shall be subject to the applicable provisions of Part 222 of this chapter.

(Sec. 2, 48 Stat. 1246, as amended; 12 U.S.C. 1703. Interprets or applies sec. 8, 64 Stat. 48, as amended; 12 U.S.C. 1706c)

PART 222—MUTUAL MORTGAGE INSURANCE, RIGHTS AND OBLIGATIONS OF THE MORTGAGEE UNDER THE INSURANCE CONTRACT

In § 222.3 paragraph (d) is amended to read as follows:

§ 222.3 Adjusted insurance premiums and termination charge.

* * * * *

(d) *Voluntary terminations.* (1) Upon request by the mortgagor and mortgagee and submission of the mortgage note for cancellation of the insurance endorsement, the Commissioner may terminate the insurance contract on any insured mortgage. In the event of such voluntary termination, the mortgagee shall pay a termination charge of 1 percent of the original principal amount of the mortgage.

(2) In no event shall the termination charge exceed the aggregate amount of premiums which would have been payable if the mortgage had continued to be insured until maturity.

(3) The insurance contract may be voluntarily terminated in accordance with this paragraph without payment of a termination charge if:

(i) The mortgage is delinquent and termination of insurance is for the purpose of avoiding foreclosure provided the transaction is approved by the Commissioner; or

(ii) Foreclosure proceedings have been instituted.

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interprets or applies sec. 203, 52 Stat. 10, as amended; 12 U.S.C. 1709)

SUBCHAPTER H—WAR HOUSING INSURANCE

PART 277—WAR HOUSING INSURANCE; RIGHTS AND OBLIGATIONS OF MORTGAGEE UNDER INSURANCE CONTRACT

Part 277 is amended by adding a new § 277.3b as follows:

§ 277.3b Voluntary termination of insurance.

Any contract of insurance meeting the requirements of this part may be voluntarily terminated in accordance with the provisions of section 229 of the Act. Voluntary terminations of insurance contracts shall be subject to the applicable provisions of Part 222 of this chapter.

(Sec. 607, 55 Stat. 61, as amended; 12 U.S.C. 1742. Interprets or applies sec. 603, 55 Stat. 56, as amended; 12 U.S.C. 1738)

SUBCHAPTER N—NATIONAL DEFENSE HOUSING INSURANCE

PART 295—NATIONAL DEFENSE HOUSING INSURANCE; RIGHTS AND OBLIGATIONS OF MORTGAGEE UNDER INSURANCE CONTRACT

Part 295 is amended by adding a new § 295.4a as follows:

§ 295.4a Voluntary termination of insurance.

Any contract of insurance meeting the requirements of this part may be voluntarily terminated in accordance with the provisions of section 229 of the Act. Voluntary terminations of insurance contracts shall be subject to the applicable provisions of Part 222 of this chapter.

(Sec. 907, 65 Stat. 301; 12 U.S.C. 1750f. Interprets or applies sec. 903, 65 Stat. 298, as amended; 12 U.S.C. 1750b)

Issued at Washington, D.C., June 8, 1960.

JULIAN H. ZIMMERMAN, *Federal Housing Commissioner.*

Title 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 688—ARTIFICIAL FLOWER, DECORATION, AND PARTY FAVOR INDUSTRY IN PUERTO RICO

Wage Order Giving Effect to Recommendations

Pursuant to section 5 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1062, as amended; 29 U.S.C. 205), the Secretary of Labor by Administrative Order No. 531 (25 F.R. 3178), as amended by Administrative Order No. 533 (25 F.R. 4330), appointed and convened Industry Committee No. 47–C and referred to it and duly noticed a hearing on the question of the minimum wage rate or rates to be paid under section 6(c) of the Act to employees in the artificial flower, decoration, and party favor industry in Puerto Rico as defined in Administrative Order No. 531, who are engaged in commerce or in the production of goods for commerce.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the committee filed with the Administrator a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1064, as amended; 29 U.S.C. 208), Reorganization Plan No. 6 of 1950 (64 Stat. 1263, 3 CFR 1950 Supp., p. 165), General Order No. 45–A (15 F.R. 3290) of the Secretary of Labor, the recommendations of the committee are hereby published in this order amending 29 CFR Part 688, effective June 30, 1960, to read as follows:

Sec.
688.1 Definition.
688.2 Wage rate.
688.3 Notices.

AUTHORITY: §§ 688.1 to 688.3 issued under sec. 8, 52 Stat. 1064, as amended; 29 U.S.C. 208. Interpret or apply sec. 5, 52 Stat. 1062, as amended; 29 U.S.C. 205; sec. 6, 52 Stat. 1062, as amended; 29 U.S.C. 206.

§ 688.1 Definition.

The artificial flower, decoration, and party favor industry in Puerto Rico, to which this part shall apply, is defined as the manufacture of flowers, buds, berries, foliage, leaves, fruits, plants, stems, and branches which are commonly or commercially known as artificial; and the manufacture of party favors and ornaments and decorations for holidays, except those made of molded plastic or metal other than metallic chenille, foil or tinsel.

§ 688.2 Wage rate.

Wages at a rate of not less than 70 cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938 by every employer to each of his employees in the artificial flower, decoration, and party favor industry in Puerto Rico, who is engaged in commerce or in the production of goods for commerce.

§ 688.3 Notices.

Every employer subject to the provisions of § 688.2 shall post in a conspicuous place in each department of his establishment where employees subject to the provisions of § 688.2 are working such notices of this part as shall be prescribed from time to time by the Administrator of the Wage and Hour Division of the United States Department of Labor, and shall give such other notice as the Administrator may prescribe.

Signed at Washington, D.C., this 9th day of June 1960.

CLARENCE T. LUNDQUIST, *Administrator.*

Title 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—Office of Civil and Defense Mobilization

[Defense Manpower Policy 4]

DMP 4—PLACEMENT OF PROCUREMENT AND FACILITIES IN AREAS OF PERSISTENT OR SUBSTANTIAL LABOR SURPLUS

Revision

1. *Introduction.* Success of the defense program depends upon efficient use of all our resources, including manpower and facilities, which are preserved through practice of the skills of both management and workers.

A primary aim of Federal manpower policy is to encourage full utilization of existing production facilities and workers in preference to creating new plants or moving workers, thus assisting in the maintenance of economic balance and employment stability. When large numbers of workers move to already tight areas, heavy burdens are placed on community facilities—schools, hospitals, housing, transportation, utilities, etc. On the other hand, when unemployment develops in certain areas, unemployment compensation costs increase and plants, tools, and workers' skills remain idle and unable to contribute to our defense program.

2. *Purpose.* It is the purpose of this Defense Manpower Policy No. 4 to direct attention to the potentialities of areas of persistent or substantial labor surplus, hereafter referred to as labor surplus areas, for the placement of procurement contracts or the location of new plants or facilities, and to assign responsibilities to specified departments and agencies of the Government to carry out the policy stated below.

2. *Policy.* It is the policy of the Federal Government to encourage the placing of contracts and facilities in areas of persistent or substantial labor surplus, with first preference being given in areas of persistent labor surplus, and to assist such areas in making the best use of their available resources in order to achieve the following objectives:

(a) To preserve management and employee skills necessary to the fulfillment of Government contracts and purchases;

(b) To maintain productive facilities;

(c) To improve utilization of the Nation's total manpower potential by making use of the manpower resources of each area;

(d) To help assure timely delivery of required goods and services and to promote readiness for expanded effort by locating procurement where the needed manpower and facilities are fully available.

4. *Implementation.* By virtue of the authority vested in me by Executive Order 10480 and Executive Order 10773, as amended, and to carry out the purposes and policy objectives set forth above, the following assignments of responsibilities are made to the specified departments and agencies of the Government:

(a) The Department of Labor shall:

(1) Classify areas having a persistent or substantial surplus of labor, under standards to be established by the Secretary of Labor.

(2) In cooperation with the States and labor surplus areas, provide labor market data and related economic information in efforts to assist in the initiation of industrial expansion programs in these areas.

(3) Identify skills which are in surplus supply within such areas and make this information available to firms requiring such skills and interested in establishing new plants and facilities.

(4) Identify occupations and skills for which labor will be needed by new or expanding industries; and, in collaboration with other governmental agencies, make assistance available to area institutions and manpower users in developing on-the-job apprentice or other training programs for developing skills of the workforce.

(b) All procurement agencies shall:

(1) Use their best efforts to award negotiated procurement contracts to contractors who will perform a substantial proportion of the production on those contracts within labor surplus areas, giving first preference to contractors performing in persistent labor surplus areas, to the extent that procurement objectives will permit: *Provided*, That in no case will price differentials be paid for the purpose of carrying out this policy.

(2) Where deemed appropriate, set-aside portions of procurements for negotiation at prices no higher than those paid on the balance of these procurements exclusively with firms which will perform or cause to be performed a substantial proportion of the production on these contracts within labor surplus areas, giving first preference to firms in persistent labor surplus areas: *Provided further* that firms which will perform in areas not meeting the minimum size qualifications for classification by the U.S. Department of Labor shall be eligible for participation in set-asides, if these firms submit a certificate issued by the U.S. Department of Labor that a persistent or substantial labor surplus exists in the area in accordance with standards and procedures prescribed by the U.S. Department of Labor.

(3) Assure that firms in labor surplus areas which are on appropriate bidders' lists will be given the opportunity to submit bids or proposals on all procurements for which they are qualified. Whenever the number of firms on a bidders' list is excessive, there will be included a representative number of firms from labor surplus areas.

(4) In the event of tie bids or offers on any procurement, award the contract to the firm which will perform in a labor surplus area, other things being equal, giving first preference to firms in persistent labor surplus areas.

(5) Encourage prime contractors to award subcontracts to firms which will perform a substantial proportion of the production on those subcontracts in labor surplus areas, particularly in areas of persistent labor surplus.

(6) The preferential actions described in this policy shall be in addition to other such actions to which firms may be entitled because of performance in substantial labor surplus areas, such as additional preference under the "Buy American Act."

(7) Cooperate with the other agencies listed herein in achieving the objectives of this policy.

(c) The Department of Commerce shall:

(1) In cooperation with State development agencies, the Department of Defense, the General Services Administration, and the Small Business Administration, assist manufacturers in areas of persistent labor surplus in obtaining Government procurement business by (a) providing such firms with timely information on proposed Government procurements; (b) maintaining current information on the manufacturing capabilities of labor surplus area firms with respect to Government procurement and disseminating such information to Federal procurement agencies.

(2) Urge firms planning new production facilities (where Federal assistance or interests are involved) to consider the industrial location advantages of labor surplus areas.

(3) Provide technical advice and counsel to groups and organizations in labor surplus areas on planned industrial parks, industrial development organizations, expanding tourist business, and available Federal aids.

(d) The Small Business Administration shall make available to small business concerns in labor surplus areas all of its services, endeavor to insure opportunity for maximum participation by such concerns in Government procurement, and give consideration to the needs of these concerns in the making of joint small business set-asides with Government procurement agencies.

(e) There is hereby created within the Office of Civil and Defense Mobilization a Surplus Manpower Committee:

(1) This Committee shall be chaired by the Deputy Assistant Director for Manpower of the Office of Civil and Defense Mobilization and shall include representation from the Department of Defense (including the three military departments), Department of Commerce, Department of Labor, General Services Administration, and Small Business Administration.

(2) The Committee shall advise the Director of the Office of Civil and Defense Mobilization and its member agencies on policies, procedures, and activities in existence or needed to carry out the purpose of this policy.

(3) When an entire industry, which sells a significant proportion of its production to the Government, is generally depressed or has a significant proportion of its production units located in areas of persistent or substantial labor surplus, the Committee may make appropriate recommendations relative to that industry in lieu of recommendations relative to specific geographical areas. In such cases, after notice to and hearing of interested parties, the Director of the Office of Civil and Defense Mobilization will give consideration to appropriate measures applicable to the entire industry.

(f) The Regional Directors of OCDM shall, with the advice and assistance of the Regional Civil and Defense Mobilization Boards, recommend actions considered desirable to carry out the purposes of this policy to the Chairman of the Office of Civil and Defense Mobilization Surplus Manpower Committee.

(g) All Federal departments and agencies shall give consideration to labor surplus areas, particularly to persistent labor surplus areas, in the selection of sites for Government-financed facilities expansion, to the extent that such consideration is not inconsistent with essential economic and strategic factors that must also be taken into account.

(h) All agencies assigned responsibilities under this policy shall submit such reports on their activities as may be requested in connection therewith to the Office of Civil and Defense Mobilization, and shall submit such additional information as may be necessary.

(i) All existing notifications of labor surplus areas issued by the U.S. Department of Labor pursuant to Defense Manpower Policy No. 4, dated November 4, 1953, as amended July 29, 1955, continue in force. Notifications No. 38, 39, 53, 57, and 58, dealing with the placement of procurement with the textile, shoe, apparel, shipbuilding, and petroleum and petroleum products industries, are continued in effect to the extent that they are not inconsistent with this revised policy.

Effective date. This revised policy shall take effect on July 6, 1960.

LEO A. HOEGH,
Director.

Title 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 5—THE BOARD ON WAIVERS AND FORFEITURES AND COMMITTEES ON WAIVERS IN FIELD OFFICES

Instructions Relating to Forfeiture Laws

Part 5, Chapter I of Title 38 of the Code of Federal Regulations is amended by adding § 5.50 as follows:

§ 5.50 Instructions relating to forfeiture laws.

(a) *Effects of the law.* Public Law 86-222 amends Title 38 of the United States Code by amending sections 3503 and 3504 pertaining to forfeitures and by adding a new section numbered 3505 relative to forfeiture for subversive activities. Purposes of the amendments are:

(1) To eliminate administrative forfeiture in any case of an individual who was residing in a State (as defined in 38 U.S.C. 101(20)) at the time the act or acts occurred on account of which benefits would be forfeited for fraud or treason except for this law, unless such individual ceases to be a resident of, or domiciled in, a State before the expiration of the period during which criminal prosecution could be instituted. Forfeitures which occurred before September 1, 1959, are not affected. Also excepted are past and future actions based on an act or acts which occurred in the Philippine Islands prior to July 4, 1946.

(2) To provide that there wil be no new apportionment awards to dependents after September 1, 1959, in cases forfeited for either fraud or treasonable acts regardless of when the forfeiture was declared. The law does not require discontinuance of apportionment awards on the rolls on that date.

(3) To provide in 38 U.S.C. 3505 for the automatic forfeiture of gratuitous benefits payable to any person when he is convicted of subversive activities.

NOTE: The term "foreign case" means one in which the individual who performed the act in question did not live in a State at the time the act occurred. It also includes one in which the individual ceased to be a resident of, or domiciled in, a State before the expiration of the period during which criminal prosecution could be instituted. Philippine cases are also "foreign cases".

(b) *Board on Waivers and Forfeitures; jurisdiction and procedures.* (1) The Board on Waivers and Forfeitures has exclusive jurisdiction to declare a forfeiture for fraud (38 U.S.C. 3503) and treasonable acts (38 U.S.C. 3504) in foreign cases. Cases submitted under 38 U.S.C. 3504 in which a forfeiture is declared will no longer require review and concurrence by the Director, Compensation and Pension Service or the General Counsel.

(2) Automatic forfeitures provided by 38 U.S.C. 3505 will be administratively effectuated by the Board on Waivers and Forfeitures. When first notice of an indictment, conviction, or acquittal under this section is received in Central Office the Board on Waivers and Forfeitures will inform the Chief Attorney of the apropriate field office in order that payment of any gratuitous benefits may be discontinued or resumed, as appropriate.

(3) All future decisions requiring action by an operating activity will be referred to the field office through the Chief Attorney.

(c) *Effective dates*—(1) *Public Law 86-222.* The provisions relative to forfeiture are effective September 1, 1959, date of enactment of the law.

(2) *Discontinuances.* (i) Upon receipt of notice that the Chief Attorney is submitting a foreign case to the Board of Waivers and Forfeitures for fraud or treasonable acts, or upon notice from the Chief Attorney of an indictment for subversive activities, payments will be discontinued date of last payment pending further disposition.

(ii) Upon receipt of notice from the Chief Attorney that the Board on Waivers and Forfeitures has declared or effectuated a forfeiture, payments will be discontinued the date of award or date preceding the commission of the act resulting in the forfeiture, whichever is later.

(3) *Resumptions.* (i) Upon return of a case from the Board on Waivers and Forfeitures and information from the Chief Attorney that no forfeiture was declared, or upon receipt of notice from him of acquittal (subversive activities), payments will be resumed promptly effective date of discontinuance if otherwise in order.

(ii) Where an individual who has forfeited benefits is pardoned by the President, the rights to benefits will be restored as of the date of pardon, if claim is filed within 1 year from that date; otherwise benefits will be restored from the date of filing claim. The award will note prior action and any overpayment in the case will be liquidated before payments are resumed by the finance activity.

(d) *Prior decisions and old cases*—(1) *Prior decisions.* All decisions invoking forfeiture of benefits made by the Board on Waivers and Forfeitures prior to September 1, 1959, remain in full force and effect, unless reversed on appeal.

(2) *Apportionment awards*—(i) *No running award.* The law provides that no apportionment award shall be made in any case after September 1, 1959. No new award, therefore, will be approved in any case after that date.

(ii) *Running award.* Apportionment awards on which payments were being made on September 1, 1959, may be continued. None will be increased above the amount being paid on September 1, 1959. Such awards may be reduced, discontinued and reinstated; Examples: an award may be resumed following discontinuance for failure of a fiduciary to render prompt accounting, or following failure of a payee to return an income questionnaire. If an award is reduced or discontinued because a child became 18 years of age, it may be reinstated subsequently if the child begins an approved course of instruction. Where a wife receiving an apportionment award for herself and a child or children dies, an apportionment award may be made for the child or children even though the wife died on or after September 1, 1959. (Instruction 1, 38 U.S.C. 3503, 3504, and 3505, Public Law 86-222.)

(72 Stat. 1114; 38 U.S.C. 210)

This regulation is effective June 14, 1960.

[SEAL] BRADFORD MORSE,
Deputy Administrator.

Title 45—PUBLIC WELFARE

Chapter III—Bureau of Federal Credit Unions, Social Security Administration, Department of Health, Education, and Welfare

REVISION

Notice of proposed rule making, public procedures thereon, and delay in effective date in the issuance of the following additions and revisions have been omitted because of the following findings and reasons:

Part 300—Definitions, is new. Chapter III is revised to take full advantage thereof by eliminating verbiage.

In addition, certain technical amendments are made to eliminate obsolete provisions, eliminate certain requirements, and to conform the rules and regulations to certain requirements of the Federal Credit Union Act, as amended. For example, in Part 301, § 301.5 (a) and (b), reference to the Division of Field Operations is omitted to reflect changes in the organization of the Bureau; and in §§ 301.12 and 301.13, the requirement for reports on Forms FCU-110 Rev. and FCU-109 Rev., respectively as of June 30 of each year has been eliminated. In Part 302, §§ 302.2 and 302.3 are amended to require the transfer of funds to the Regular Reserve and to the Special Reserve for Delinquent Loans, as the case may be and as may be required by statute and by rule and regulation, at the end of each dividend period before the declaration of any dividend. This latter amendment is necessitated by the provision of the Federal Credit Union Act, as amended, Public Law 86-354, approved September 22, 1959, 73 Stat. 628, et seq., 12 U.S.C. 1763, which authorizes either annual or semi-annual dividends after provision for the required reserves.

In view of the editorial and technical nature of these amendments and revisions, the Director finds that advance notice and public procedure thereon are impracticable, unnecessary, and contrary to the public interest.

Chapter III of Title 45 of the Code of Federal Regulations is revised to read as follows:

PART 300—DEFINITIONS

§ 300.1 Definitions.

As used in this chapter:

(a) The term, "Bureau," means the Bureau of Federal Credit Unions, Social Security Administration, Department of Health, Education, and Welfare.

(b) The term, "Director," means the Director of the Bureau of Federal Credit Unions.

(c) The term, "Regional Representative," means the representative of the Bureau in the designated geographical area in which the office of the Federal credit union is located.

(d) The term, "Regional Office," means the office of the Bureau located in the designated geographical area in which the office of the Federal credit union is located.

(e) The term, "Act," means the Federal Credit Union Act (73 Stat. 628, 12 U.S.C., 1751–1772).

(f) The term, "State," means a State of the United States, the District of Columbia, any of the several Territories and possessions of the United States, the Panama Canal Zone, and the Commonwealth of Puerto Rico.

(1088 Stat. 1221, as amended; 12 U.S.C. 1766)

PART 301—ORGANIZATION AND OPERATION OF FEDERAL CREDIT UNIONS

Sec.

301.1 Organization of Federal credit unions.
301.3 Standard form of bylaws.
301.4 Amendment of bylaws and charters.
301.5 Other applications.
301.6 Fee for supervision.
301.7 Fee for examination.
301.8 Fee for examination of Federal credit unions in liquidation.
301.9 Loans by Federal credit unions to other credit unions.
301.10 Establishment of cash funds for making change.
301.11 Election report.
301.12 Supervisory committee audit report.
301.13 Financial and statistical and other Reports.
301.14 Accounting Manual for Federal Credit Unions.
301.15 Credit Manual.
301.16 Supervisory Committee Manual for Federal Credit Unions.
301.17 Federal Credit Union Handbook.
301.18 Petitions.
301.19 Retirement benefits for employees of federal credit unions.
301.20 Surety bond coverage for Federal credit unions.
301.21 Payment or amortization of loans.
301.22 Selling checks and money orders.
301.23 Cashing checks and money orders.

AUTHORITY: §§ 301.1 to 301.20 issued under sec. 21, 73 Stat. 635, 12 U.S.C. 1766; § 301.21 issued under sec. 8(5), 73 Stat. 630; 12 U.S.C. 1757 8(5); §§ 301.22 and 301.23 under sec. 8 (12, 73 Stat. 631; 12 U.S.C. 1757 8(12)).

§ 301.1 Organization of Federal credit unions.

(a) Persons desiring to form a Federal credit union shall submit, in duplicate, on forms prescribed by the Bureau, a proposed organization certificate (Form FCU 103B). The certificate shall be subscribed to before an officer competent to administer oaths by not less than 7 natural persons who have a common bond of occupation, or association, or are within a well-defined neighborhood, community, or rural district, and shall specifically state:

(1) The proposed name of the association.

(2) The location of the proposed Federal credit union and the territory in which it will operate.

(3) The names and addresses of the subscribers to the certificate and the number of shares subscribed by each.

(4) The par value of the shares, which shall be $5 each.

(5) The proposed field of membership, specified in detail.

(6) The term of the existence of the corporation, which may be perpetual.

(7) The fact that the certificate is made to enable such persons to avail themselves of the advantages of the Federal Credit Union Act, as amended.

Copies of the form of organization certificate may be obtained from the Washington Office of the Bureau or from any Regional Office.

(b) The proposed organization certificates shall be submitted to the Regional Representative together with a check or money order payable to the Bureau of Federal Credit Unions in the amount of $25.00 in payment of the investigation fee of $20.00 and charter fee of $5.00. The Regional Representative will investigate and make recommendations as to whether the proposed organization certificate conforms to the Act; as to the general character and fitness of the subscribers thereto; and as to the economic advisability of establishing the proposed Federal credit union. The report and recommendation of the Regional Representative shall be forwarded to the Bureau in Washington, D.C. The Director shall consider the proposed organization certificate and the recommendations of the Regional Representative and shall approve or disapprove the proposed organization certificate. The organization certificate, if approved, shall be the charter of the Federal credit union. If the organization certificate is disapproved, the incorporators shall be notified of the basis for such action and the charter fee of $5.00 shall be returned to them. Under no circumstances shall the investigation fee of $20.00 be returned.

§ 301.3 Standard form of bylaws.

(a) Proposed bylaws, in form and content approved by the Director, shall be submitted by the incorporators to the Director for his approval at the time of submitting an organization certificate to the Regional Representative.

(b) Specimen copies of the standard form of bylaws (FCU 503–C) may be obtained from the Regional or Washington Offices of the Bureau.

§ 301.4 Amendment of bylaws and charters.

Amendments to the bylaws of a Federal credit union may be adopted and amendments to the charter requested as provided in the bylaws. No amendment of the bylaws or of the charter shall become effective, however, until approved in writing by the Director.

§ 301.5 Other applications.

(a) Except as otherwise provided by rule or regulation of the Bureau all applications, requests, and submittals regarding Federal credit unions, for which no form of application has been prescribed by the Bureau, shall be in writing, signed by the applicant or his duly authorized agent, and shall contain a statement of the action requested, the reasons and facts relied upon as the basis for such requested action, and the applicant's interest in the matter. The application, request, or submittal shall be addressed to the Regional Representative or to the Bureau of Federal Credit Unions in Washington, D.C. The applicant shall furnish such other pertinent information as may be required by the Director.

(b) Unless otherwise provided in these regulations, all applications regarding Federal credit union matters shall be investigated and reviewed by the Regional Representative. The report and recommendations of the Regional Representative as to the application shall be transmitted to the Bureau in Washington, D.C. Notice of the action of the Director shall be promptly transmitted to the applicant together with a statement as to the basis for the action.

§ 301.6 Fee for supervision.

(a) *Extent of fee.* (1) Not later than January 31 of each calendar year, each Federal credit union shall pay to the Bureau, for the preceding calendar year, a supervision fee in accordance with the graduated scale set forth in subparagraph (2) of this paragraph on the basis of assets as of December 31 of such preceding year, but such fee shall in no event be less than $10.00: *Provided, however*, That no such annual fee shall be payable by such an organization with respect to the year in which its charter is issued or the year in which final distribution is made in liquidation of the credit union or the charter is otherwise canceled.

(2) Scale of supervision fees:

Total assets	*Maximum fee*
$500,000 or less	20 cents per $1,000.
Over $500,000 and not over $1,000,000	$150, plus 25 cents per $1,000 in excess of $500,000.
Over $1,000,000 and not over $2,000,000	$275, plus 20 cents per $1,000 in excess of $1,000,000.
Over $2,000,000 and not over $5,000,000	$475, plus 15 cents per $1,000 in excess of $2,000,000.
Over $5,000,000	$925, plus 10 cents per $1,000 in excess of $5,000,000.

Provided, however, That no fee shall be payable with respect to the last fractional part of $1,000 of total assets.

(3) Definition of assets:

(i) The term, "assets," as used in this section shall mean all items properly coming within the classification of asset accounts as stated in the Accounting Manual for Federal Credit Unions, FCU–544, as revised.

(ii) The term, "total assets," as used in this section shall mean the sum of all assets.

(b) *Supervision fee certificate.* The treasurer of each Federal credit union shall certify as to the correctness of the Supervision Fee Certificate, Form FCU–511 Rev. He shall send, not later than January 31 of each year, the original Supervision Fee Certificate and as many copies as the Bureau may request, together with a check in payment of the supervision fee stated on the Supervision Fee Certificate to be due, to the Bureau of Federal Credit Unions in Washington, D.C. Copies of the Supervision Fee Certificate form may be obtained from any Regional Office.

(c) *Checks in payment of supervision fees.* All checks in payment of supervision fees shall be made payable to the Bureau of Federal Credit Unions.

(d) *Audit of supervision fee computation and payment.* Whenever the Bureau makes a regular or special examination of a Federal credit union, the employee of the Bureau making the examination will audit the computation and payment of annual supervision fee(s) for the years which have elapsed since the last previous audit. Such employee shall adjust any errors in computation and the Federal credit union shall deliver to such employee a check payable to the Bureau of Federal Credit Unions to cover the amount of any underpayment of the supervision fee(s). The decision of the employee of the Bureau as to the amount due shall be final and conclusive: *Provided*, That the Federal credit union may make the supplementary payment subject to the results of an appeal from the employee's decision to the Regional Representative: *Provided further*, That the Federal credit union shall file such appeal within 30 days from the date of the employee's decision. If the audit discloses that an overpayment has been made, the employee of the Bureau is authorized to advise and assist the Federal credit union to prepare and file a request for a refund of the amount of overpayment. Such request should be addressed to the Regional Representative.

§ 301.7 Fee for examination.

(a) Each Federal credit union shall pay the Bureau a fee for each examination in accordance with the schedule of fees fixed from time to time by the Director.

(b) In establishing such fees, the Director shall consider the anticipated aggregate cost of the examination program including supervision, salaries, travel and all other items which affect the cost of the examination program.

(c) The fee for examinations of Federal credit unions with assets of less than $25,000 shall not exceed 50 cents per hundred dollars of assets as of the effective date of the examination. The Director may establish a minimum fee for examination which shall not exceed $25.00. The Director may waive the fee for an examination within twelve months after the date a charter is approved if the payment would, in the opinion of the Director, cause a hardship.

(d) Each Federal credit union shall be notified at least 30 days prior to the effective date of any schedule of fees fixed pursuant to this section. Upon receipt of such notification interested persons may submit written data, views, or arguments for consideration by the Director, and the Director may, after consideration, make such revisions in the proposed schedule or such change in the effective date as he deems appropriate. Each Federal credit union shall be notified of such revision or change not less than 15 days prior to the final effective date.

§ 301.8 Fee for examination of Federal credit unions in liquidation.

Federal credit unions in liquidation may be examined prior to or following completion of liquidation. A fee assessed in accordance with the most recent schedule of examination fees prescribed by the Director as provided in § 301.7 shall be paid for each such examination.

§ 301.9 Loans by Federal credit unions to other credit unions.

On authorization of its board of directors, or a duly appointed executive committee, a Federal credit union may invest its funds in loans to other Federal credit unions or to State chartered credit unions in the total amount not exceeding 25 percent of its paid-in and unimpaired capital and surplus. The terms of such loans shall not exceed one year and the rate of interest shall not exceed 6 percent per annum. Prior to making the loan, the Federal credit union shall require the borrowing credit union to furnish the following:

(a) A current financial and statistical report;

(b) A copy of the latest supervisory committee audit report;

(c) A certified copy of the resolution of the board of directors or the executive committee authorizing such borrowing; and

(d) A certificate from the secretary of the credit union that the persons negotiating the loan and executing the note are officers of the credit union and are authorized to act in its behalf, and that such borrowing does not exceed the maximum borrowing power of the borrowing credit union.

§ 301.10 Establishment of cash funds for making change.

The board of directors of a Federal credit union may establish a permanent cash fund in an amount not to exceed $500 for the purpose of making change and cashing checks. On all cash funds established in excess of $500, except temporary funds which shall not be retained longer than 3 banking days, the board of directors shall obtain prior written permission of the Regional Representative.

§ 301.11 Election report.

Each operating Federal credit union shall file annually with the Regional Representative, within 10 days after the election or appointment of officials, a report setting forth the names and addresses of its officials. Copies of the standard form of report prescribed by the Bureau (Form FCU–2) may be obtained from the Regional Representative or from the Bureau in Washington, D.C.

§ 301.12 Supervisory committee audit report.

The supervisory committee of every Federal credit union shall audit the affairs of its credit union at least quarterly and shall promptly make a report of each audit to the board of directors of the Federal credit union. This report shall be on Form FCU–110 prescribed by the Bureau in the Supervisory Committee Manual for Federal Credit Unions. A copy of this report for the period ending December 31 of each year shall be filed by the supervisory committee with the Regional Representative, not later than the following January 31.

§ 301.13 Financial and statistical and other reports.

(a) Each operating Federal credit union shall file in the Regional Office on or before January 15 of each year an annual Financial and Statistical report on Form FCU–521 as of the previous December 31. Form FCU–521 is furnished to all Federal credit unions by the Bureau, and copies may be obtained from any Regional Office.

(b) When it is deemed necessary or desirable and upon written notice from the Director, Federal credit unions shall file, in accordance with instructions contained in such notice as to time and place, such Financial and Statistical or other reports as of such date or dates as shall be prescribed in such notice.

(c) When it is deemed necessary because of the condition of the Federal credit union and upon written notice from the Director or Regional Representative, the Federal credit union shall file, in accordance with the instructions contained in such notice as to time and place, Financial and Statistical reports including reports on Form FCU–109, as of such date or dates as shall be prescribed in such notice.

§ 301.14 Accounting Manual for Federal Credit Unions.

(a) The Bureau has promulgated for use by Federal credit unions the Accounting Manual for Federal Credit Unions (Form FCU–544). A copy of this manual is furnished to each Federal credit union at the time the approved organization certificate is delivered to the incorporators by the Bureau. This manual specifies the type of records to be maintained and the accounting forms to be used by each Federal credit union. Variations in prescribed accounting records may be approved by the Bureau on presentation of convincing evidence of convenience or advantage. The Federal credit union shall obtain such approval prior to adopting a revision of any prescribed accounting form. On receipt of a request in writing from a Federal credit

union for approval of a variation in prescribed accounting forms, the Regional Representative shall furnish information and instructions concerning the proposed variation in the prescribed accounting forms and records.

(b) The following standard accounting records are prescribed for use by Federal credit unions:

Bank Reconcilement (Form FCU–106).
Cash Received Voucher (Form FCU–105).
Dividend Record (Form FCU–112).
Financial and Statistical Report (Form FCU–109).
General Ledger (Form FCU–102).
Individual Share and Loan Ledger (Form FCU–103).
Individual Share and Loan Ledger (Optional Forms FCU–103A, 103D, and 103G).
Journal and Cash Record (Form FCU–101).
Journal and Cash Record (continuation sheet) (Form FCU–101A).
Member's Passbook (Form FCU–107).
Member's Statement of Account (Form FCU–107G).
Trial Balance of General Ledger Accounts (Form FCU–116).

§ 301.15 Credit Manual.

The Bureau has promulgated a manual of instructions for credit committees, loan officers, and other officials and employees of Federal credit unions (Form FCU–545). A copy of this manual is furnished to each Federal credit union at the time the approved organization certificate is delivered to the incorporators by the Bureau.

§ 301.16 Supervisory Committee Manual for Federal Credit Unions.

The Bureau has promulgated a manual of procedure for supervisory committees of Federal credit unions (Form FCU–545). A copy of this manual is furnished to each Federal credit union at the time the approved organization certificate is delivered to the incorporators by the Bureau.

§ 301.17 Federal Credit Union Handbook.

The Bureau has promulgated a manual of instructions for directors and officers of Federal credit unions (Form FCU–543). A copy of this handbook is furnished to each Federal credit union at the time the approved organization certificate is delivered to the incorporators by the Bureau.

§ 301.18 Petitions.

Any interested person may petition the Director for the issuance, amendment, or repeal of any regulation by submitting such petition in writing together with a complete and concise statement of the petitioner's interest in the subject matter and the reasons why the petition should be granted. Such petition shall be submitted to the Bureau in Washington, D.C.

§ 301.19 Retirement benefits for employees of Federal credit unions.

Federal credit unions may make provision for reasonable retirement benefits for employees and for officers who are compensated in conformance with the Act and the bylaws, but no Federal credit union shall undertake to administer its own retirement plan.

§ 301.20 Surety bond coverage for Federal credit unions.

(a) The board of directors of each Federal credit union shall, at least semi-annually, carefully review the bond coverage in force in order to ascertain its adequacy in relation to the exposure and to the minimum requirements fixed from time to time by the Director.

(b) All surety bonds must provide for faithful-performance-of-duty coverage for any officer or employee while performing any of the duties of the treasurer as prescribed in the Act, the bylaws, or rules and regulations of the Bureau.

(c) No form of surety bond shall be used except as is approved by the Director. Credit Union Blanket Bond, Standard Form No. 23 of the Surety Association of America (revised to May 1950), plus Faithful Performance Rider (for use with this form to broaden Insuring Clause (A), Revised to May 1950) shall be considered as the minimum coverage required and is hereby approved. Credit Union Blanket Bond—BFCU Optional Form No. 576 plus Faithful Performance of Duty Rider—Form BFCU 576F is also approved. No other bond form may be used unless specifically approved in writing by the Director. No form of surety bond is approved for use by a Federal credit union having its office outside of the continental United States unless by the terms of the bond or by an appropriate rider attached thereto the provisions of the bond are made applicable within the jurisdiction in which the office of such Federal credit union is located.

(d) All sureties writing Federal credit union bonds must hold a certificate of authority from the Secretary of the Treasury under the act of Congress approved July 30, 1947 (6 U.S.C., secs. 6–13) as an acceptable surety on Federal bonds in the State or jurisdiction concerned.

(e) The schedule of coverage set forth in paragraph (f) of this section shall not be deemed to cover cash funds of $1,000 or more. In cases where the cash fund (either temporary or permanent) is $1,000 or more, additional coverage to the full extent of the change fund shall be required.

(f) The following schedule shall be deemed as the minimum requirements only:

Assets:	Minimum coverage
$0,000 to $5,000	$1,000
$5,001 to $10,000	2,000
$10,001 to $20,000	4,000
$20,001 to $30,000	6,000
$30,001 to $40,000	8,000
$40,001 to $50,000	10,000
$50,001 to $75,000	15,000
$75,001 to $100,000	20,000
$100,001 to $150,000	30,000
$150,001 to $200,000	40,000
$200,001 to $300,000	50,000
$300,001 to $400,000	60,000
$400,001 to $500,000	70,000
$500,001 to $750,000	85,000
$750,001 to $1,000,000	100,000
Over $1,000,000	(1)

[1] $100,000 plus $50,000 for each additional million or fraction thereof of assets.

It shall be the duty of the board of directors of each Federal credit union to provide proper protection to meet any circumstance by obtaining adequate bond (and insurance) coverage in excess of the above minimum schedule.

(g) The Director may require additional coverage for any Federal credit union when, in his opinion, the surety bonds in force are insufficient to provide adequate surety coverage and it shall be the duty of the board of directors of the Federal credit union to obtain such additional coverage within thirty days after the date of written notice.

§ 301.21 Payment or amortization of loans.

(a) Within the limits of the Act and such further limits as may be imposed by the board of directors pursuant to the Act and the bylaws, the credit committee, or a duly appointed and authorized loan officer, of a Federal credit union, in arriving at the terms of payment or amortization of an approved loan to a member, shall take into account, among other factors deemed relevant, the source of funds and the regularity and frequency of receipt of funds which the borrower proposes to utilize for the purpose, the borrower's other commitments and anticipated needs over the loan period, and the best interests of the credit union.

(b) Pursuant to the bylaws, the board of directors of a Federal credit union by resolution may require that all loans approved by the credit committee, or by a duly appointed and authorized loan officer, or that certain classes of such loans, shall provide for payment or amortization by periodic, substantially equal, payments of principal which are to be made at intervals shorter than 12 months and which are sufficient to retire the loan at its maturity.

(c) Subject to any limitations imposed by the board of directors as provided for by paragraphs (a) and (b) of this section, the credit committee, or a duly appointed and authorized loan officer, may approve loans with maturities of one year or less which provide for retirement thereof by a single payment of the principal at maturity.

(d) (1) Subject to any limitations imposed by the board of directors as provided for in paragraphs (a) and (b) of this section, loans with maturities in excess of one year approved by the credit committee, or a duly appointed and authorized loan officer, shall provide for payment or amortization by periodic, substantially equal, payments of principal which are to be made at intervals of not greater than 12 months and which are sufficient in amount to retire such loans at maturity.

(2) Notwithstanding the provisions of subparagraph (1) of this paragraph, and subject to any limitations imposed by the board of directors as provided for by paragraphs (a) and (b) of this section, loans with maturities in excess of one year but not in excess of thirty months, may provide for retirement by a single payment of principal at maturity or by payments at intervals greater than 12 months where the credit committee finds that such terms are justified by the needs and condition of the borrower after taking into account, among other factors deemed relevant, his current commitments, the source or sources of the funds from which he plans and proposes to make such payment or payments, the regularity, frequency and reasonably predictable nature of the receipt of such funds, and the best interests of the credit union: *Provided*, That the payment or payments so provided for shall be scheduled to coincide with the anticipated receipt of the funds intended to be used therefor: *And provided*, That the findings of the credit committee shall be in writing signed by the chairman of the committee and retained in the borrower's loan file.

(e) All loans shall provide for the payment of interest with each payment of principal: *Provided however*, That no loan shall provide for the payment of interest less frequently than at intervals of twelve months.

§ 301.22 Selling checks and money orders.

(a) A Federal credit union may undertake to sell negotiable checks (including travelers checks) and money orders to its members only, for a fee which does not exceed the direct and indirect costs incident to providing such service, when it is determined by the board of directors that the provision of such service will not have any adverse effect upon the accomplishment by the credit union of its basic purpose of promoting thrift among its members and of providing to them a source of credit for provident and productive purposes.

(b) A Federal credit union which undertakes to provide this service shall:

(1) Have adequate physical facilities to handle and safeguard the cash funds to be used in connection therewith;

(2) Establish and maintain effective internal controls for the handling of and accounting for the cash funds and fees to be received and charged in connection therewith;

(3) Establish and enforce reasonable rules covering the kinds of negotiable checks (including travelers checks) and money orders, and the maximum amounts thereof, that it will sell to members;

(4) Establish and enforce reasonable rules and procedures to assure that the service will be provided to members of the Federal credit union only, including the identification of any member who requests the service;

(5) Obtain, and maintain in force and effect, any additional surety bond and insurance coverage required thereby;

(6) Determine that the fee charged does not exceed the direct and indirect costs incident thereto.

(c) The board of directors of a Federal credit union which has undertaken to provide this service shall review its operation from time to time to make certain that it is not having any adverse affect upon the accomplishment by the credit union of its basic purpose, and that the requirements of paragraph (b) of this section are being fulfilled on a current basis. Controls, rules and procedures established pursuant to paragraph (b) of this section may be amended by the board of directors from time to time to provide new or increased safeguards against loss, and to meet the best interests of the credit union and its members.

(d) The fees or commissions which a Federal credit union may receive pursuant to a contract with a third party providing for the sale of negotiable checks (including travelers checks) and money orders furnished by the third party, shall be deemed to be not in excess of the direct and indirect costs incident to providing this service.

(e) No fee shall be charged by a Federal credit union to a member for a check drawn by it on its own bank account in connection with the withdrawal by the member from a share account, or in connection with the disbursement of the proceeds of a loan.

§ 301.23 Cashing checks and money orders.

(a) A Federal credit union may undertake to cash checks and money orders for its members only, for a fee which does not exceed the direct and indirect costs incident to providing such service, when it is determined by the board of directors that the provision of such service will not have any adverse effect upon the accomplishment by the credit union of its basic purpose of promoting thrift among its members and of providing to them a source of credit for provident and productive purposes.

(b) A Federal credit union which undertakes to provide this service shall:

(1) Have adequate physical facilities to handle and safeguard the cash funds to be used in connection therewith;

(2) Establish and maintain effective internal controls for the handling of and accounting for the cash funds to be used and the fees to be charged in connection therewith;

(3) Establish and enforce rules covering the kinds of checks and money orders, and the maximum amounts thereof, that will be cashed;

(4) Establish and enforce rules and procedures to assure that the service will be provided to members of the Federal credit union only, including the identification of any member who requests the service;

(5) Obtain, and maintain in force and effect, any additional surety bond and insurance coverage required thereby;

(6) Determine that the fee charged does not exceed the direct and indirect costs incident thereto.

(c) The board of directors of a Federal credit union which has undertaken to provide this service shall review its operation from time to time to make certain that it is not having any adverse effect upon the accomplishment by the credit union of its basic purpose, and that the requirements of paragraph (b) of this section are being fulfilled on a current basis. Controls, rules and procedures established pursuant to paragraph (b) of this section may be amended by the board of directors from time to time to provide new or increased safeguards against loss, and to meet the best interests of the credit union and its members.

(d) No fee shall be charged by a Federal credit union to a member as for the cashing of a check or money order when such check or money order is used in whole or in part for payment of a loan, payment of interest, payment of any obligation to the credit union, or the purchase of shares. Nor shall any fee be charged to the member for the cashing of a check or money order drawn by the Federal credit union on its own bank account and issued to the member in connection with a withdrawal by the member from a share account or in connection with the disbursement of a loan.

PART 302—RESERVES

Sec.
302.1 Reserves in general.
302.2 Regular Reserve.
302.3 Special Reserve for Delinquent Loans.

AUTHORITY: §§ 302.1 to 302.3 issued under sec. 21, 73 Stat. 635; 12 U.S.C. 1766.

§ 302.1 Reserves in general.

Federal credit unions shall establish and maintain such reserves as may be required by the Act, or by regulation, or in special cases by the Director on his finding that the reserves of the Federal credit union concerned are insufficient.

§ 302.2 Regular Reserve.

(a) The treasurer shall transfer to a reserve to be known as the Regular Reserve (1) as of the close of business each month all entrance fees, transfer fees and late charges collected during the month; (2) as of the end of each dividend period 20 percent of the net earnings for that period before the declaration of any dividend: *Provided, however*, That when the Regular Reserve thus established shall equal 10 percent of the total amount of members' shareholdings, transfers of net earnings to the Regular Reserve may be limited to the amount necessary to maintain the Regular Reserve equal to 10 percent of the total amount of members' shareholdings; and (3) recoveries on items previously charged to the Regular Reserve.

(b) A Federal credit union may charge to its Regular Reserve losses on uncollectible loans to members and to other credit unions (including unrecovered collectible costs).

(c) (1) A Federal credit union may charge to its Regular Reserve losses other than those resulting from uncollectible loans to members or to other credit unions provided that each such charge has been approved in advance by the Director. In determining whether such charges shall be approved, the Director will be guided by the nature of the loss and the financial condition of the Federal credit union concerned as indicated by: The amount of loan delinquency and estimated losses on outstanding loans, current and prospective net earnings, and similar facts which may affect its operations and development.

(2) Applications for approval to charge such losses to the Regular Reserve shall be made in writing to the Regional Representative. The application shall: (i) Be authorized by the

board of directors of the Federal credit union; (ii) state the amount and nature of the loss; and (iii) describe fully the causes of the loss; and (iv) be accompanied by a copy of the Federal credit union's current financial and statistical report (Form FCU–109) and a copy of the current schedule of delinquent loans. The Regional Representative may request such additional information concerning the financial condition, operating practices, and management of the Federal credit union as he may deem necessary in a particular case.

(3) The Regional Representative will investigate each such application and will make a recommendation as to whether it should be approved or disapproved. The application and recommendation of the Regional Representative shall be forwarded to the Bureau in Washington, D.C. The Director shall approve or disapprove the application. The Regional Representative will be informed of the Director's action on the application and will notify promptly the Federal credit union concerned.

§ 302.3 Special Reserve for Delinquent Loans.

(a) The Regular Reserve of each Federal credit union shall be supplemented by a special reserve to be known as the Special Reserve for Delinquent Loans, which shall be equal to the excess of the sum of 10 percent of the unpaid balances of loans delinquent more than two months and less than six months, plus 25 percent of the unpaid balances of loans delinquent from 6 months to less than 12 months, and plus 80 percent of the unpaid balances of loans delinquent 12 months or more over the balance in the Regular Reserve. In the event it is necessary to supplement the Regular Reserve by a Special Reserve for Delinquent Loans, the transfer to the Special Reserve for Delinquent Loans shall be made as of December 31 of each year, and as of June 30 of each year if dividends are to be paid semiannually, from Undivided Earnings before any distribution of dividends. The maintenance of a Special Reserve for Delinquent Loans shall not eliminate the necessity for transferring net earnings as of the end of each dividend period to the Regular Reserve as required by paragraph (a) of § 302.2. In the event the required transfer exceeds the balance of Undivided Earnings, only the balance of Undivided Earnings shall be transferred to the Special Reserve for Delinquent Loans.

(b) When, as of the end of any dividend period, the amount in the Special Reserve for Delinquent Loans exceeds the amount required by the regulations in this part, the board of directors of the Federal credit union may authorize the transfer of the excess to Undivided Earnings.

(c) Upon written application by the board of directors of a Federal credit union, the Director may waive, in whole or in part, the requirement for the maintenance of the Special Reserve for Delinquent Loans contained in paragraph (a) of this section. Such applications shall be addressed to the Regional Representative.

PART 310—VOLUNTARY LIQUIDATION OF FEDERAL CREDIT UNIONS

Sec.

310.1 Approval of liquidation.
310.2 Notice of liquidation to Bureau of Federal Credit Unions.
310.3 Transaction of business during liquidation.
310.4 Notice of liquidation to members.
310.5 Notice of liquidation to creditors.
310.6 Report at commencement of liquidation.
310.7 Reports during periods of liquidation.
310.8 Examinations of Federal credit unions in voluntary liquidation.
310.9 Responsibility for conduct of voluntary liquidations.
310.9a Partial distribution.
310.10 Completion of liquidation.
310.11 Distribution of assets.
310.12 Final report.
310.13 Retention of records.
310.14 Cancellation of charter.
310.15 Further instructions and information.

AUTHORITY: §§ 310.1 to 310.15 issued under sec. 21, 73 Stat. 635; 12 U.S.C. 1766.

§ 310.1 Approval of liquidation.

A Federal credit union may go into voluntary liquidation on approval of a majority of its members in writing or by a vote in favor of such liquidation by a majority of the members of the credit union at a regular meeting of the members or at a special meeting called for that purpose. Where authorization for liquidation is to be obtained at a meeting of members, notice in writing shall be given to each member at least 7 days before such meeting and the minutes of the meeting shall show the number of members present and the number that voted for and against liquidation. If approval by a majority of all members is not obtained at the meeting of members, authorization for voluntary liquidation may be obtained by having a majority of members sign a statement in substantially the following form:

We the undersigned members of the ---------- Federal Credit Union, Charter No. ------, hereby request the dissolution of our credit union.

§ 310.2 Notice of liquidation to Bureau of Federal Credit Unions.

Within 10 days after the decision of the board of directors to submit the question of liquidation to the members, the president shall notify the Regional Representative thereof in writing, setting forth in detail the reasons for the proposed action. Within 10 days after the action of the members on the question of liquidation, the president shall notify the Regional Representative in writing as to whether or not a majority of the members approved the proposed liquidation.

§ 310.3 Transaction of business during liquidation.

Immediately on decision by the board of directors of a Federal credit union to seek approval of the members for liquidation, payments on shares, withdrawal of shares (including any transfer of shares to loans and interest), making investments of any kind, and granting of loans shall be suspended pending action by members on the proposal to liquidate, and on approval by a majority of the members of such proposal, payments on shares, withdrawal of shares (including any transfer of shares to loans and interest), making investments of any kind, and the making of loans shall be permanently discontinued. Necessary expenses of operation shall, however, continue to be paid on authorization by the board of directors or liquidating agent during the period of the liquidation.

§ 310.4 Notice of liquidation to members.

Immediately on decision by the board of directors, a notice of such decision shall be handed to each member or mailed to his last known address together with a request that the member furnish his passbook or confirm in writing the shares held by him in the Federal credit union and the loans owed by him to the Federal credit union.

§ 310.5 Notice of liquidation to creditors.

On approval of a majority of the members of a Federal credit union of a proposal to liquidate, the board of directors of the Federal credit union shall immediately have prepared and mailed to all creditors a notice of liquidation containing instructions to them to present their claims to the Federal credit union within 90 days for payment.

§ 310.6 Report at commencement of liquidation.

At the commencement of voluntary liquidation of a Federal credit union, the treasurer or agent conducting the liquidation shall file with the Regional Representative a financial and statistical report on form FCU–109, and a schedule showing the name, book number, share balance, and loan balance of each member.

§ 310.7 Reports during period of liquidation.

Federal credit unions in the process of voluntary liquidation shall file with the Regional Representative a financial and statistical report on form FCU–109 as of December 31 within 10 days after such date. Additional reports, as determined by the Regional Representative to be necessary, shall be furnished promptly on written request.

§ 310.8 Examinations of Federal credit unions in voluntary liquidation.

When deemed advisable by the Regional Representative, an examination of the books and records of a Federal credit union may be made prior to, during, or following completion of voluntary liquidation. A fee for each such examination shall be assessed at the rate currently in effect for examinations of operating Federal credit unions as provided in §§ 301.7 and 301.8 of this chapter.

§ 310.9 Responsibility for conduct of voluntary liquidations.

The board of directors of a Federal credit union in voluntary liquidation shall be responsible for conserving the assets, for expediting the liquidation, and for equitably distributing the assets

to members. The board of directors shall determine that all persons handling or having access to funds of the Federal credit union are adequately covered by surety bond. The board of directors shall appoint a custodian for the Federal credit union's records that are to be retained for 5 years after the charter is canceled. The board of directors may appoint a liquidating agent and delegate part or all of these responsibilities to him and may authorize reasonable compensation for his services; any such liquidating agent shall be bonded for faithful performance of his duties. The supervisory committee shall be responsible for making periodic audits of the credit union's records, at least quarterly, during the period of liquidation.

§ 310.9a Partial distribution.

With the written approval of the Regional Representative, a partial distribution of the credit union's assets may be made to its members from cash funds available on authorization by its board of directors, or by a duly authorized liquidating agent whose appointment specifically includes such authority.

§ 310.10 Completion of liquidation.

When all assets of the Federal credit union have been converted to cash or found to be worthless and all loans and debts owing to it have been collected or found to be uncollectible and all obligations of the Federal credit union have been paid, with the exception of amounts due its members, the books shall be closed and the pro rata distribution to members computed. The amount of gain or loss shall be entered in each member's share account and should be entered in his passbook or statement of account.

§ 310.11 Distribution of assets.

Promptly after the pro rata distribution to members has been computed, checks shall be drawn for the amounts to be distributed to each member who has surrendered his passbook or has given a written confirmation of his balance. The checks shall be mailed to such members at their last known address or handed to them in person. The passbooks or written confirmations submitted by members to verify balances shall be retained with the credit union records. The Regional Representative shall be notified promptly of the date final distribution of assets to the members is started.

§ 310.12 Final report.

Within 120 days after the final distribution to members is started, the Federal credit union shall furnish to the regional office the following:

(a) A schedule of unpaid claims, if any, due members who failed to surrender their passbooks or confirm their balances in writing during liquidation or due members or creditors who failed to cash final distribution checks within the said 120 days, shall be prepared on Form FCU–61d or its equivalent; this schedule shall be accompanied by a certified check or money order payable to the Bureau of Federal Credit Unions in the exact amount of the total of these unpaid claims. The Bureau will deposit said funds in a special account with the Chief Disbursing Office of the Treasury of the United States where they will be held for the account of the individuals named on said schedule. Each such individual, or any authorized person on his behalf, may submit to the Bureau a written claim for the amount of such funds held for him.

(b) A copy of a schedule showing the name, book number, share balance at the commencement of liquidation, pro rata share of gain or loss, and the amount distributed to each member on Form FCU–61d.

(c) A summary report on liquidation in duplicate on Form FCU–61f.

(d) The Certificate of Dissolution and Liquidation on Form FCU–61e signed under oath by the board of directors or agent who conducted the liquidation and made the final distribution of assets to the members.

(e) The name and address of the custodian of the Federal credit union's records.

(f) The charter of the Federal credit union.

§ 310.13 Retention of records.

All records of the liquidated credit union necessary to establish that creditors were paid and that members' shareholdings were equitably distributed shall be retained by a custodian appointed by the board of directors of said Federal credit union for a period of 5 years following the date of cancellation of the charter.

§ 310.14 Cancellation of charter.

On proof that distribution of assets has been made to members and within one year after receipt of the Certificate of Dissolution and Liquidation (form FCU–61e), the Director shall cancel the charter of the Federal credit union concerned.

§ 310.15 Further instructions and information.

Further detailed instructions and information pertaining to voluntary liquidations may be obtained from the Washington or Regional Offices of the Bureau.

PART 315—INVOLUNTARY LIQUIDATION OF FEDERAL CREDIT UNIONS

Sec.

315.1 Basis for involuntary liquidation.
315.2 Suspension or revocation of charter.
315.3 Order directing involuntary liquidation.
315.4 Immediate suspension or liquidation.
315.5 Involuntary liquidation and appointment of liquidating agent.
315.6 Cancellation of charter.

AUTHORITY: §§ 315.1 to 315.6 issued under sec. 21, 73 Stat. 635, 12 U.S.C. 1766.

§ 315.1 Basis for involuntary liquidation.

The charter of any Federal credit union may be suspended or revoked, the Federal credit union placed in involuntary liquidation and a liquidating agent therefor appointed upon the finding by the Director that the organization is bankrupt, or insolvent, or has violated any provisions of its charter, its bylaws, the Act, or any regulation issued by the Bureau, or that such suspension or revocation and liquidation is in the best interests of the membership of the Federal credit union concerned.

§ 315.2 Suspension or revocation of charter.

Except as otherwise provided for by the regulations in this part, the Director before suspending or revoking the charter of a Federal credit union and placing the Federal credit union in liquidation, may cause to be served on the Federal credit union concerned a notice of intention to suspend or revoke the charter, a statement of the reasons for such proposed action and an order directing the Federal credit union concerned to show cause why its charter should not be suspended or revoked. Service of the order to show cause shall be either by mail addressed to the Federal credit union concerned at the last address of its office as shown by the records of the Bureau or by delivery to any officer or member of the board of directors of the Federal credit union. The order shall be returned to the Regional Representative. No oral hearing shall be held on such order to show cause, but the Federal credit union concerned may file with the Regional Representative, within the period of time specified in the order to show cause, a statement in writing setting forth the grounds and reasons why its charter should not be suspended or revoked. This statement shall be accompanied by a certified copy of a resolution of the board of directors of the Federal credit union concerned authorizing the filing of the statement. If no statement is received within the period of time specified in the order, or if the proffered reasons why the charter should not be suspended or revoked are found to be insufficient by the Director, he may order that the charter be suspended or revoked and may order the Federal credit union placed in involuntary liquidation. If the Federal credit union is ordered to be liquidated, the Director shall designate the liquidating agent in the order directing the liquidation. A copy of the order directing the suspension or revocation and, where proper, of the order directing the involuntary liquidation and of the appointment of a liquidating agent and a statement of the findings on which the order is based shall be served on the Federal credit union concerned. Such service shall be either by mail addressed to the Federal credit union concerned at the last address of its office as shown by the records of the Bureau or by delivery to any officer or member of the board of directors of the Federal credit union concerned.

§ 315.3 Order directing involuntary liquidation.

In the event that the Director does not order the Federal credit union placed in involuntary liquidation at the time he orders its charter suspended or revoked (see § 315.2), the Director may, at any time prior to the cancellation of the suspension or the annulment of the revo-

cation, order the Federal credit union concerned to show cause why it should not be placed in involuntary liquidation. Service of the order to show cause shall be either by mail addressed to the Federal credit union concerned at the last address of its office as shown by the records of the Bureau or by delivery to any officer or member of the board of directors of the Federal credit union concerned. The order shall be returned to the Regional Representative. No oral hearing shall be held on such order to show cause, but the Federal credit union concerned may file with the Regional Representative within the period of time specified in the order to show cause, a statement in writing setting forth the grounds and reasons why it should not be placed in involuntary liquidation. This statement shall be accompanied by a certified copy of a resolution of the board of directors of the Federal credit union concerned authorizing the filing of the statement. If no statement is received within the period of time specified in the order, or if the proffered reasons why the Federal credit union should not be placed in involuntary liquidation are found to be insufficient by the Director, he may order that the Federal credit union be placed in involuntary liquidation and may appoint a liquidating agent. A copy of the order directing the involuntary liquidation and appointment of a liquidating agent and a statement of the findings on which the order is based shall be served on the Federal credit union concerned. Such service shall be either by mail addressed to the Federal credit union concerned at the last address of its office as shown by the records of the Bureau or by delivery to any officer or member of the board of directors of the Federal credit union.

§ 315.4 Immediate suspension or liquidation.

In any case where the Director shall find that a Federal credit union is insolvent or that the interests of its members require immediate action or that the issuance of the order to show cause provided for in §§ 315.2 and 315.3 will not serve any purpose, the Director may order the suspension or revocation of the charter and the involuntary liquidation of the Federal credit union and the appointment of a liquidating agent therefor without prior notice to the Federal credit union of such action and without prior issuance of the order to show cause provided for in § 315.2 or § 315.3.

§ 315.5 Involuntary liquidation and appointment of liquidating agent.

On receipt of a copy of the order placing the Federal credit union in involuntary liquidation, the officers and directors of the Federal credit union concerned shall deliver to the liquidating agent possession and control of all books, records, assets, and property of every description of the Federal credit union, and the liquidating agent shall proceed to convert said assets to cash, collect all debts due to said Federal credit union and to wind up its affairs in accordance with the provisions of section 21 of the Act (12 U.S.C. 1766) and the instructions and procedures issued to said liquidating agent by the Regional Representative.

§ 315.6 Cancellation of charter.

On the completion of the liquidation and certification by the liquidating agent that the distribution of the assets of the Federal credit union has been completed, the Director shall cancel the charter of the Federal credit union concerned.

PART 320—DISCLOSURE OF OFFICIAL RECORDS AND INFORMATION

Sec.
320.1 Definitions.
320.2 Inspection of final opinions, orders, and rules.
320.3 Availability of official records and information.
320.4 Information which may be disclosed and to whom.
320.5 Place to apply for disclosure.
320.6 Authority for refusal to disclose.

AUTHORITY: §§ 320.1 to 320.6 issued under sec. 21, 73 Stat. 635; 12 U.S.C. 1766.

§ 320.1 Definitions.

As used in the regulations in this part, the term "person" includes a natural person, guardian, trust or estate, partnership, corporation, or joint stock company. The terms "records" and "information" include all files, documents, reports, books, accounts, opinions, orders, and records, and all information obtained at any time by the Bureau or by any officer or employee of the Department of Health, Education, and Welfare, in the course of discharging the official duties of the Bureau.

§ 320.2 Inspection of final opinions, orders and rules.

All final opinions or orders in the adjudication of cases and all rules issued by the Bureau in the administration of the Act, as amended (12 U.S.C. 1751 et seq.), not relating to matters of internal management, are available for public inspection at the offices of the Bureau of Federal Credit Unions, Washington 25, D.C., or at the appropriate Regional Office of the Bureau, except, those opinions and orders or parts thereof, which the Director may, for good cause, declare to be confidential, in which event such opinion or order or part thereof, will not be cited as a precedent. The provisions of §§ 320.4, 320.5, and 320.6 shall govern the disclosure of any opinion or order, or part thereof, declared confidential by the Director.

§ 320.3 Availability of official records and information.

All records and information of the Bureau, except rules issued in the administration of the Act, as amended, and opinions and orders in the adjudication of cases, are hereby declared to be confidential and no disclosure of any such records or information shall be made directly or indirectly except as hereinafter authorized by the regulations in this part.

§ 320.4 Information which may be disclosed and to whom.

Disclosure of any records or information of the Bureau declared to be confidential is hereby authorized only in the following cases and for the following purposes:

(a) To any Department, Agency or instrumentality of the United States Government where the records or information are required by such Department, Agency or instrumentality in the course of discharging its official duties: *Provided*, That the Director finds that such disclosure is not contrary to the public interest or to any applicable Federal law, or to any rule, regulation, or directive of the Executive branch of the Federal Government.

(b) To the proper Federal law enforcement and prosecuting authorities: *Provided*, That (1) such records or information relate to a violation of a Federal criminal law, and (2) such disclosure is not contrary to any Federal law or to any rule, regulation or directive of the Executive branch of the Federal Government. Neither the Bureau nor any employee of the Bureau may disclose any records or information to any State law enforcement or prosecuting authority unless specifically authorized to make such disclosure by the Director. The Director may authorize the Bureau or an employee of the Bureau to disclose records or information relating to the violation of a State criminal law to appropriate State law enforcement and prosecuting authorities, provided that such disclosure is not contrary to any Federal law or to any rule, regulation or directive of the Executive branch of the Federal Government if the Director determines that such disclosure (i) is not contrary to the public interest and (ii) will neither interfere with nor adversely affect either the performance of the functions, duties, or responsibilities of the Bureau or any investigation or prosecution which may be conducted or contemplated either by the Bureau or by any other Federal department, agency or instrumentality.

(c) To any person properly and directly concerned upon a verified written application by such person showing substantial interest in the said record or information: *Provided*, That the Director finds that such disclosure is not contrary to the public interest or to any Federal law, rule, regulation or directive of the Executive branch of the Federal Government.

(d) To any Federal credit union: *Provided*, That (1) such records or information pertain solely to the affairs of the said Federal credit union, and (2) the records or information are not classified "restricted" by the Bureau.

§ 320.5 Place to apply for disclosure.

Applications for disclosure of records or information shall be addressed to the Bureau of Federal Credit Unions, Social Security Administration, Department of Health, Education, and Welfare, Washington 25, D.C.

§ 320.6 Authority for refusal to disclose.

Any request or demand for records or information, the disclosure of which is forbidden by the regulations in this part, shall be declined upon authority of the regulations in this part. If any officer or employee of the Bureau or of the Social Security Administration or of the Department of Health, Education, and Welfare, is sought to be required, by subpoena or other compulsory process, to produce such record or give such information, he shall respectfully decline to present such record or to divulge such information, basing his refusal on the regulations in this part.

PART 350—CREDIT UNIONS CHARTERED BY THE DISTRICT OF COLUMBIA

Sec.
350.1 Reserves in general.
350.2 Special reserve for delinquent loans.

AUTHORITY: §§ 350.1 and 350.2 issued under 47 Stat. 330, as amended by 67 Stat. 260, 68 Stat. 662, D.C. Code 26–512.

§ 350.1 Reserves in general.

Credit unions organized under the provisions of the District of Columbia Credit Unions Act (D.C. Code 26–501 to 26–518), shall establish and maintain such reserves as may be required by the regulations in this part, or in special cases by the Director on his finding that the reserves of a credit union chartered by the District of Columbia are insufficient.

§ 350.2 Special reserve for delinquent loans.

(a) Each credit union chartered by the District of Columbia shall establish a special reserve to be known as the Special Reserve for Delinquent Loans.

(b) For purposes of this section, the provisions of § 302.3 of this chapter with respect to Federal credit unions shall be deemed to be applicable to credit unions chartered by the District of Columbia, except that wherever reference is made in said § 302.3 to the term, "the Regular Reserve," such term shall be deemed to refer to the regular reserve provided by section 26–512 of the District of Columbia Code.

Effective date. These regulations shall become effective upon the date of publication in the FEDERAL REGISTER.

Dated: May 23, 1960.

[SEAL] J. DEANE GANNON,
Director, Bureau of Federal Credit Unions.

Approved: May 26, 1960.

W. L. MITCHELL,
Commissioner of Social Security.

Approved: June 7, 1960.

ARTHUR S. FLEMMING,
Secretary of Health, Education, and Welfare.

Title 46—SHIPPING

Chapter II—Federal Maritime Board, Maritime Administration, Department of Commerce

SUBCHAPTER J—MISCELLANEOUS

[General Order 89]

PART 355—REQUIREMENTS FOR ESTABLISHING UNITED STATES CITIZENSHIP

Evidence of United States Citizenship of Corporate Applicants for Benefits Under the Merchant Marine Act, 1936, as Amended

A new part, incorporating the text formerly known as Memoranda "A" and "B", and Supplement thereto, together with changes pursuant to Public Law 86–327, September 21, 1959 (73 Stat. 597), is hereby added to Subchapter J of this chapter, reading as follows:

Sec.
355.1 General.
355.2 Requirements regarding evidence of United States citizenship.
355.3 Form of affidavit.

AUTHORITY: §§ 355.1 to 355.3 issued under sec. 204 (49 Stat. 1987, as amended; 46 U.S.C. 1114); Pub. Law 86–327 (73 Stat. 597; 46 U.S.C. 11).

§ 355.1 General.

(a) Under section 2, Shipping Act, 1916, as amended, and section 905(c), Merchant Marine Act, 1936, as amended, no corporation is deemed a citizen of the United States unless it is organized under the laws of the United States or of a State, Territory, District, or possession thereof; its president or other chief executive officer and the chairman of its board of directors are citizens of the United States and no more of its directors than a minority of the number necessary to constitute a quorum are noncitizens (except that in case of corporations under Title VI, of the Merchant Marine Act, 1936, as amended, all directors must be citizens of the United States) and the controlling interest therein is owned by citizens of the United States (or, in the case of a corporation operating any vessel in the coastwise trade, on the Great Lakes, or on bays, sounds, rivers, harbors, or inland lakes of the United States, 75 percent of the interest in such corporation is owned by citizens of the United States).

(b) To satisfy the statutory requirements, an Affidavit of Citizenship of a corporate applicant, by one of its officers duly authorized to execute such affidavit, should be submitted. This affidavit should contain facts from which the corporation's citizenship can be determined. The mere allegations that the corporation is a citizen of the United States, and that the required percentage is owned by citizens of the United States, without the submission of appropriate documentary evidence to substantiate and corroborate such allegations, are not sufficient.

§ 355.2 Requirements regarding evidence of United States citizenship.

The information for inclusion in the affidavits and the documentary evidence in substantiation thereof are as follows:

(a) *Proof of domestic incorporation.* The affidavit, among other things, should contain the following:

(1) The exact name of the company;

(2) Its principal place of business; and

(3) The laws under which the corporation was organized and the date of organization.

A copy of the articles or certificate of incorporation and all amendments thereto, certified by the Secretary of the State where corporation was organized is required as proof of place of incorporation; the By-Laws of the corporation, certified by the Secretary of such corporation is required to be filed along with the aforementioned articles or certificate and the affidavit of citizenship; later amendments to the articles or certificates of incorporation and By-Laws should be filed promptly.

(b) *Proof that the president or other chief executive officer, vice presidents or other individuals who are authorized to act in the absence or disability of the president or other chief executive officer, the chairman of the board of directors, and the required number of directors are citizens of the United States.* Evidence should be submitted in proof of the United States citizenship of persons in the capacities enumerated. In the case of corporations receiving operating-differential subsidy, under Title VI of the Act, all directors thereof must be United States citizens. In case of other corporate applicants, it must be shown that no more than a minority of the number of directors necessary to constitute a quorum are non-citizens. (See Public Law 86–327, Sept. 21, 1959.) Such evidence should include name, address, date and place of birth, nationality, and if citizens of the United States, whether by birth, naturalization, or other basis.

(1) *Birth in the United States.* Evidence of birth in the United States, in the order of its conclusiveness, may be given as follows:

(i) Authenticated birth certificate; or

(ii) Authenticated baptismal certificate, showing baptism shortly after birth; or

(iii) Two affidavits of persons having personal knowledge of the time and place of birth, stating clearly facts from which affiants acquired such knowledge. Affiants may include father, mother, attending physician or midwife, uncle, aunt, older brother, older sister, or close family friend; or

(iv) Photostatic copy of entry in "Family Bible" with certification that it is taken from the "Family Bible"; or

(v) Affidavit of person whose citizenship is involved, stating the date and place of his birth, the source of his knowledge, the nonavailability of proof mentioned in subdivisions (i) to (iv) of this subparagraph, together with reference as to source where proof of his birth may be of record; i.e., Army or Navy

records, Civil Service employment records, census records, etc.

(2) *Naturalisation.* Evidence of naturalization is obtainable from the Department of Justice, Immigration and Naturalization Service. This evidence is available to the Administration, provided the person whose citizenship is involved submits the date, place and the name of the court before which he was naturalized. Such person should also execute an affidavit showing dates and places of residence since naturalization.

(3) *Citizenship by naturalization while a minor.* Any person alleging United States citizenship by virtue of the naturalization of a parent during his or her minority should obtain a certificate of citizenship from the Immigration and Naturalization Service, Department of Justice, which is available at any of its offices, by application therefor on Form N-600 (8 CFR Part 341). This certificate may be presented to the Office of General Counsel, Maritime Administration, Washington, D.C., for sighting and record, or in lieu thereof, the number and date of the certificate together with the place of issue thereof by the Immigration and Naturalization Service should be submitted, which data shall be subject to verification by said Service through inquiry by the Maritime Administration.

(4) *Birth abroad of American parents.* Any person alleging United States citizenship by virtue of being born outside of the United States of American parents, should obtain a certificate of citizenship from the Immigration and Naturalization Service, Department of Justice, which is available at any of its offices, by application therefor on Form N-600 (8 CFR Part 341). This certificate may be presented to the Office of General Counsel, Maritime Administration, Washington, D.C., for sighting and record, or in lieu thereof, the number and date of the certificate together with the place of issue thereof by the Immigration and Naturalization Service should be submitted, which data shall be subject to verification by said Service through inquiry by the Maritime Administration.

(5) *Married women.* If United States citizenship on behalf of a married woman is alleged by virtue of marriage to an American citizen prior to September 22, 1922, there should be submitted:

(i) An authenticated copy of the marriage certificate, and

(ii) Proof of the United States citizenship of the husband. An affidavit should be submitted setting forth what changes, if any, have occurred in the marital status since marriage.

In all other cases, the United States citizenship of a married woman must be established as hereinbefore indicated.

(6) In the event that satisfactory documentary evidence to establish the United States citizenship of individuals named has been filed with the Department of State in connection with the issuance of an American passport, a reference thereto will be sufficient. The individual's full name, date and place of birth, and the date, place of issuance, and the number of the passport should be given.

(c) *Proof that required interest in corporation is owned by citizens of the United States.* The affidavit of citizenship should include a statement of the total number of issued and outstanding shares of all classes of stock, together with a showing as to the voting rights of each class. The required ownership percentage may be shown by one of two methods; namely:

(1) *Individual stockholders.* In the case of a corporation relying on individual stockholders, including natural persons, associations, partnerships, and corporations, the citizenship of natural persons involved should be established in the same manner and as fully as that of the aforementioned officers and directors; the citizenship of associations, partnerships, and corporations involved should be established in the same manner and as fully as that of an applicant association, partnership or corporation.

(2) *Fair inference from residence of stockholders.* In the case of a corporation having to rely on more than thirty (30) stockholders, a fair inference can be made that the required ownership and voting interest is vested in citizens of the United States, if it is established by the stock ledger of the corporation or the records of the registrar or transfer agent that 65 percent or more, in the case of a corporation operating any vessel in the foreign trade (or in the case of a corporation operating any vessel in the coastwise trade, on the Great Lakes, or on bays, sounds, rivers, harbors or inland lakes of the United States, 95 percent or more), of the stock is owned by persons whose addresses are within the United States. The statement should include the number of shareholders who have given addresses in the United States, the number of shares of stock they own and the exact percentage that these shares are of the total issued and outstanding shares of stock. The same statement should be made for each class of stock, showing the voting rights thereof. The submission of these data to the Administration furnishes a basis from which a fair inference can be made (in the discretion of the Maritime Administrator) that since a very large proportion of the total stock and voting stock is in the hands of stockholders residing within the United States, the required percentage of ownership is in citizens of the United States. (See Collier Advertising Service, Inc. v. Hudson River Day Line, 14 Fed. Supp. 335.) If the fair inference rule is applied, the name of any stockholder owning five per centum (5 percent) or more of the total number of shares of stock of each class, if more than one, should be given and proof of United States citizenship submitted therefor. The statement should also set forth that of the shares of stock relied upon to establish that the required ownership and voting interest is vested in citizens of the United States, none is:

(i) The subject of any trust or fiduciary obligation in favor of any person not a citizen of the United States; or

(ii) Subject to a contract or understanding or other arrangement whereby the voting powers may be exercised, directly or indirectly, in behalf of any person who is not a citizen of the United States; or

(iii) By any other means whatsoever, subject to control by any person who is not a citizen of the United States.

(3) If it is not possible to comply with the foregoing the facts should be fully disclosed and special instructions obtained.

(4) Annual filing of data to evidence continuing United States citizenship status is required.

(5) Lenders and/or mortgagees as participants in Title XI (1936 Act) transactions are required, under the mortgage documents executed, to file evidence of continuing United States citizenship.

(6) Nominee stockholders (partnership or corporate) and said lenders and/or mortgagees may obtain form of proof to be submitted from the Office of General Counsel, Maritime Administration.

§ 355.3 Form of affidavit.

The following form of affidavit is prescribed for execution in establishing the United States citizenship of corporations applying for benefits under the Merchant Marine Act, 1936, as amended:

AFFIDAVIT OF UNITED STATES CITIZENSHIP

State of ----------:
County of ----------:

I, ----------, being duly sworn, depose and say:

That I am the (Title of office or offices held) of (Name of corporation), a corporation organized and existing under and by virtue of the laws of the State (or Commonwealth) of ----------, and that I am authorized to execute this affidavit concerning the United States citizenship of said (Name of corporation), an applicant for (Type of benefit applied for), pursuant to the provisions of section or sections (Designate by number) of the Merchant Marine Act, 1936, as amended;

That the information hereinafter set forth in this affidavit is given for the purpose of establishing the United States citizenship of said (Name of corporation) and is made and submitted as a part of the application for (Type of benefit applied for) as aforesaid;

That (Name of corporation) is a corporation organized and existing under and by virtue of the laws of the State (or Commonwealth) of ----------, with its principal executive office and place of business located at (Number, Street, City, and State), and that, as proof of its incorporation under the laws of the State (or Commonwealth) of ----------, there are attached hereto a certified copy of the Certificate or Articles of Incorporation, together with certified copy of corporate By-Laws, and amendments, if any;

That the following persons are the President or other Chief Executive Officer, Vice Presidents or other individuals who are authorized to act in the absence or disability of the President or other Chief Executive Officer, Chairman of the Board of Directors and Directors of said (Name of corporation), the applicant:

Name; Office; Place and Date of Birth

John Doe, President-Director, New York, N.Y., 1-18-1897.

Richard Roe, Secretary-Treasurer—Director, London, England, 3-12-1901.

(The foregoing list should include the officers, whether or not they are also directors, and all directors, whether or not they are also officers. In the case of corporations, other than those under Title VI of the Act, any alien directors should be named and followed by a statement that under the corporate By-laws-------directors are necessary to constitute a quorum and that no more than a minority of the number of directors necessary to constitute a quorum are non-citizens.)

That John Doe is a citizen of the United States by virtue of his birth in the United States as shown in certified copy of birth certificate herewith (if a birth certificate is not available, give other acceptable proof as set forth in § 355.1(b); if passport data are given state the individual's full name and the number, date and place of issue of the passport; passports may be presented to the Office of General Counsel for sighting);

That Richard Roe is a citizen of the United States by virtue of his naturalization; give the Certificate of Naturalization number, date of issue and name and location of the court issuing said Certificate; naturalization certificates may be presented to the Office of General Counsel for sighting; the naturalized citizen should furnish an affidavit setting forth the places and dates of his residence since becoming a naturalized citizen;

That affiant has access to the stock books and records of said corporation; that the said stock books and records have been examined and disclose that, as of ----------, 19--, said (Name of corporation) had issued and outstanding ------ shares of stock of all classes, held by ------ stockholders, said number of stockholders representing the ownership of the entire issued capital stock of said corporation;

(If different classes of stock exist, give the same data for each class issued and outstanding, showing the voting rights for each class.)

Explanatory note. To prove that the required interest (controlling interest for foreign trade, or, in the case of a corporation operating any vessel in the coastwise trade, on the Great Lakes, or on bays, sounds, rivers, harbors, or inland lakes of the United States, 75% thereof) in applicant corporation is owned by citizens of the United States, applicant may select one of two methods. It may (a) establish the United States citizenship of individual owners of such required interest; or (b) if it must rely on more than 30 shareholders, show that, for majority interest, 65% or more (or for 75% interest, 95% or more) of the stock is owned by persons whose addresses are within the United States. Such a showing furnishes a basis from which a fair inference can be made (in the discretion of the Maritime Administrator) that the required ownership is in citizens of the United States.

If the applicant is relying on the citizenship of individual owners (natural persons, associations, partnerships, and corporations) of the required interest, the following statement should be included:

That, in order to establish that the controlling interest (or 75% or more) of the stock in said corporation is owned by citizens of the United States, the applicant selects and relies upon the following owners:

(Here list the stockholders upon which applicant intends to rely, together with the number and class of shares of stock owned by each. A statement should be made at this point setting forth the facts upon which the citizenship of each owner is based; if an individual, attach to the affidavit the appropriate documentary evidence in the same manner as for the above-mentioned officers and directors; if a corporation, the same evidence is required to be furnished as that required for the applicant.)

If the applicant is relying on fair inference from residence within the United States of owners of 65% (or 95%) or more of its stock, the following should be included:

That the registered addresses of ------- holders of ------ shares of stock are shown as being within the United States, said ------ shares of (class) being ------% of the total of ------ shares of issued and outstanding stock (the same statement should be made as to each class of stock, if there is more than one class). Give name of and submit proof of United States citizenship for any holder of 5% or more of the total number of shares issued and outstanding of each class, if more than one; proof of citizenship beyond the second tier of ownership (in the discretion of the Maritime Administrator) is not required unless such ownership is in a parent or major stockholder.

The following statement should conclude each affidavit of citizenship:

That the controlling interest (or 75% of the interest) [1] in said corporation, as established by the data hereinbefore set forth, is owned by citizens of the United States; that the title to a majority (or 75%) [1] of the stock in said corporation is vested in citizens of the United States free from any trust or fiduciary obligation in favor of any person not a citizen of the United States; that such proportion of the voting power of said corporation is vested in citizens of the United States; that through no contract or understanding, is it so arranged that the majority (or more than 25%) [1] of the voting power of said corporation may be exercised, directly or indirectly, in behalf of any person who is not a citizen of the United States; and that, by no means whatsoever, is control of said corporation (or of any interest in said corporation in excess of 25%) [1] conferred upon or permitted to be exercised by any person who is not a citizen of the United States; and

That affiant has carefully examined this affidavit and asserts that all of the statements and representations contained therein are true to the best of his knowledge, information, and belief.

Subscribed and sworn to before me, a Notary Public in and for the State and County aforesaid, this ------ day of ----------, 19---.

NOTE: The reporting requirements of this part have been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

Dated: June 8, 1960.

By order of the Acting Maritime Administrator.

JAMES L. PIMPER,
Secretary.

Proposed Rule Making

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR Parts 608, 609, 610, 611, and 612]

[Administrative Order 834]

VARIOUS INDUSTRIES IN PUERTO RICO

Appointment To Investigate Conditions and Recommend Minimum Wages; Notice of Hearing

Pursuant to authority contained in the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended; 29 U.S.C. 201 et seq.), and Reorganization Plan No. 6 of 1950 (3 CFR, 1950 Supp., p. 165), I hereby appoint, convene, and give notice of the hearings of Industry Committee No. 48–A for the Needlework and Fabricated Textile Products Industry in Puerto Rico; Industry Committee No. 48–B for the Handkerchief, Square Scarf, and Art Linen Industry in Puerto Rico; Industry Committee No. 48–C for the Women's and Children's Underwear and Women's Blouse and Neckwear Industry in Puerto Rico; Industry Committee No. 48–D for the Children's Dress and Related Products Industry in Puerto Rico; and Industry Committee No. 48–E for the Sweater and Knit Swimwear Industry in Puerto Rico.

Industry Committe No. 48–A is composed of the following representatives:

For the public: Paul H. Sanders, Chairman, Nashville, Tenn.; George J. Mintzer, New York, N.Y.; David M. Helfeld, Rio Piedras, P.R.

For the employees: Harry Frumerman, New York, N.Y.; Osiris R. Sanchez-Vasquez, San Juan, P.R.; Henry Schwartz, New York, N.Y.

For the employers: Joseph L. Dubow, New York, N.Y.; Stanley B. Siegel, Bayamon, P.R.; Gus B. Gellmann, Corosal, P.R.

For the purpose of this order, the Needlework and Fabricated Textile Products Industry in Puerto Rico is defined as follows:

The manufacture from any material of all apparel and apparel furnishings and accessories made by knitting, crocheting, cutting, sewing, embroidering, or other processes; and the manufacture of all textile products and the manufacture of like articles in which a synthetic material in sheet form is the basic component: *Provided, however,* That the industry shall not include any product or activity included in the Artificial Flower, Decoration, and Party Favor Industry (29 CFR Part 688), the Button, Jewelry, and Lapidary Work Industry (29 CFR Part 616), the Corsets, Brassieres, and Allied Garments Industry (29 CFR Part 614), the Fabric and Leather Glove Industry (29 CFR Part 603), the Hosiery Industry (29 CFR Part 687), the Men's and Boys' Clothing and Related Products Industry (29 CFR Part 615), the Shoe and Related Products Industry (29 CFR Part 601), the Straw, Hair, and Related Products Industry (29 CFR Part 613), or the Textile and Textile Products Industry (29 CFR Part 699), as defined in the wage orders for these industries in Puerto Rico; or in the Handkerchief, Square Scarf, and Art Linen Industry, the Women's and Children's Underwear and Women's Blouse and Neckwear Industry, the Children's Dress and Related Products Industry, and the Sweater and Knit Swimwear Industry, as defined in this Administrative Order appointing Industry Committees Nos. 48–B, 48–C, 48–D, and 48–E, respectively, for these industries in Puerto Rico.

Industry Committee No. 48–B is composed of the following representatives:

For the public: Paul H. Sanders, Chairman, Nashville, Tenn.; George J. Mintzer, New York, N.Y.; David M. Helfeld, Rio Piedras, P.R.

For the employees: Harry Frumerman, New York, N.Y.; Osiris R. Sanchez-Vazquez, San Juan, P.R.; Henry Schwartz, New York, N.Y.

For the employers: Joseph L. Dubow, New York, N.Y.; Maria Luisa Arcelay, Mayaguez, P.R.; Donald J. Garcia, Sabana Grande, P.R.

For the purpose of this order the Handkerchief, Square Scarf, and Art Linen Industry in Puerto Rico is defined as follows:

The manufacture of plain, scalloped, or ornamented handkerchiefs and square scarves; the manufacture of art linens, including, but not by way of limitation, table cloths, luncheon cloths, altar cloths, napkins, bridge sets, table covers, sheets, pillow cases, and towels; and the manufacture of needlepoint on canvas or other materials: *Provided, however,* That the industry shall not include the outlining or embroidery of lace by machine or the embroidery of any article or trimming by a crochet beading process or with bullion thread.

Industry Committee No. 48–C is composed of the following representatives:

For the public: Paul H. Sanders, Chairman, Nashville, Tenn.; George J. Mintzer, New York, N.Y.; David M. Helfeld, Rio Piedras, P.R.

For the employees: Henry Schwartz, New York, N.Y.; Alberto E. Sanchez, Santurce, P.R.; Jacob S. Sheinkman, New York, N.Y.

For the employers: Joseph L. Dubow, New York, N.Y.; Ruben D. Nazario-Fournier, Yauco, P.R.; Herbert L. Rose, Santurce, P.R.

For the purpose of this order the Women's and Children's Underwear and Women's Blouse and Neckwear Industry in Puerto Rico in defined as follows:

The knitting, or manufacture from woven or knit fabric, of women's, misses', girls', boys' size 6X and under, and infants' underwear and nightwear, including but not by way of limitation, slips, petticoats, nightgowns, negligees, panties, undershirts, briefs, shorts, pajamas, sleepers, and similar articles; and the manufacture of women's and misses' blouses, shirts, waists, neckwear (including collar and cuff sets), and scarves (except square scarves): *Provided, however,* That the industry shall not include any product or activity included in the Corsets, Brassieres, and Allied Garments Industry in Puerto Rico (29 CFR Part 614); or the outlining or embroidery of lace by machine, or the embroidery of any article or trimming by a crochet beading process or with bullion thread.

Industry Committee No. 48–D is composed of the following representatives:

For the public: Paul H. Sanders, Chairman, Nashville, Tenn.; George J. Mintzer, New York, N.Y.; David M. Helfeld, Rio Piedras, P.R.

For the employees: Alberto E. Sanches, Santurce, P.R.; Jacob S. Sheinkman, New York, N.Y.; Joseph Schwartz, Philadelphia, Pa.

For the employers: Joseph L. Dubow, New York, N.Y.; Leonard M. Tuttman, Bayamon, P.R.; Maxwell Feller, Manati, P.R.

For the purpose of this order the Children's Dress and Related Products Industry in Puerto Rico is defined as follows:

The manufacture from woven or knit fabric or from waterproof materials of the following garments: Dresses, blouses, shirts, and similar garments for girls; shirts and blouses for boys, size 6X and under; dresses, creepers, rompers, waterproof pants, diaper covers, bibs, sportswear, and play apparel for infants three years of age or under; and clothing and accessories for dolls: *Provided, however,* That the industry shall not include products manufactured by heat sealing, cementing, vulcanizing, or any operation similar thereto; or the outlining or embroidery of lace by machine, or the embroidery of any article or trimming by a crochet beading process or with bullion thread.

Industry Committee No. 48–E is composed of the following representatives:

For the public: Paul H. Sanders, Chairman, Nashville, Tenn.; George J. Mintzer, New York, N.Y.; David M. Helfeld, Rio Piedras, P.R.

For the employees: Alberto E. Sanches, Santurce, P.R.; Jacob S. Sheinkman, New York, N.Y.; Joseph Schwartz, Philadelphia, Pa.

For the employers: Joseph L. Dubow, New York, N.Y.; George Vargish, Toa Alta, P.R.; Oscar Castro-Rivera, San Juan, P.R.

For the purpose of this order the Sweater and Knit Swimwear Industry in Puerto Rico is defined as follows:

The manufacture of men's, women's, misses', boys', and girls' knit sweaters, shrugs, shoulderettes, boleros, and similar knitwear, and women's, misses', and girls' knit swimwear: *Provided, however,* That the industry shall not include the embroidery of any article or trimming by a crochet beading process or with bullion thread.

I hereby refer to each of the above named industry committees the question of the minimum wage rate or rates to be fixed under the provisions of section 6(c) of the Act in the particular industry with which it is concerned. Each industry committee shall investigate conditions in its industry, and the committee, or any authorized sub-committee thereof, shall hear such witnesses and receive such evidence as may be necessary or appropriate to enable the committee to perform its duties and functions under the Act.

Industry Committee No. 48–A shall convene at 10:00 a.m. on July 11, 1960, in the offices of the Wage and Hour Division, United States Department of Labor, New York Department Store Building, Fortaleza and San Jose Streets, San Juan, Puerto Rico, to conduct its investigation and shall commence its hearings at 2:00 p.m. on the same date at the same place. Following this hearing, Industry Committees Nos. 48–B, 48–C, 48–D, and 48–E shall convene consecutively in the same place in that order at hours designated by the committee chairman to conduct their investigations and to hold their hearings.

In order to reach as rapidly as is economically feasible the objective of the minimum wage prescribed in paragraph (1) of section 6(a) of the Act, each industry committee shall recommend to the Administrator the highest minimum wage rate or rates for the industry which it determines, having due regard to economic and competitive conditions, will not substantially curtail employment in the industry, and will not give any industry in Puerto Rico a competitive advantage over any industry in the United States outside of Puerto Rico, the Virgin Islands, and American Samoa. Where an industry committee finds that a higher minimum wage may be determined for employees engaged in certain activities or in the manufacture of certain products in the industry, the industry committee shall recommend such reasonable classifications within the industry as it determines to be necessary for the purpose of fixing for each classification the highest minimum wage rate that can be determined for it under the principles set forth herein which will not substantially curtail employment in such classifications and will not give a competitive advantage to any group in the industry. No classification shall be made, however, and no minimum wage shall be fixed solely on a regional basis or on the basis of age or sex. In determining whether there should be classifications within the industry, in making such classifications, and in determining the minimum wage rates for such classifications, the committee shall consider, among other relevant factors, the following: (1) competitive conditions as affected by transportation, living, and production costs; (2) the wages established for work of like or comparable character by collective labor agreements negotiated between employers and employees by representatives of their own choosing; and (3) the wages paid for work of like or comparable character by employers who voluntarily maintain minimum wage standards in the industry.

The Administrator shall prepare an economic report for such committees containing such data as he is able to assemble pertinent to the matters referred to those committees. Copies of each such report may be obtained at the national and Puerto Rican offices of the United States Department of Labor as soon as they are completed and prior to the hearings. Each committee will take official notice of the facts stated in the economic report to the extent they are not refuted at the hearings.

The procedure of these industry committees will be governed by Part 511 of Title 29, Code of Federal Regulations. As a prerequisite to participation as witnesses or parties these regulations require, among other things, that interested persons in the present matters shall file pre-hearing statements containing certain specified data, not later than July 1, 1960.

Signed at Washington, D.C., this 9th day of June 1960.

JAMES T. O'CONNELL,
Acting Secretary of Labor.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 26]

MIXED GRAIN

Official U.S. Standards

Pursuant to Section 4 of the Administrative Procedure Act (5 U.S.C. 1003) notice is hereby given that the United States Department of Agriculture has under consideration proposed changes in the Official Grain Standards of the United States for Mixed Grain (7 CFR 26.451–26.453) promulgated under the authority of the United States Grain Standards Act (39 Stat. 482), as amended (7 U.S.C. 71 et seq.).

On June 1, 1959, the Official Standards for Feed Oats and Mixed Feed Oats were canceled, and on August 1, 1959, the Official Grain Standards for Mixed Grain were revised. The revised Mixed Grain Standards provided that wild oats and certain mixtures of cultivated and wild oats should be graded as Mixed Grain.

The Minneapolis Grain Exchange has found that for trading purposes there is still a need for the grade designation "Mixed Feed Oats" to apply to grain which consists of wild oats and certain mixtures of cultivated and wild oats, and they have requested that consideration be given to establishing such grades under the Mixed Grain Standards. It is therefore proposed to revise the Mixed Grain Standards to provide grades for No. 1 Mixed Feed Oats and No. 2 Mixed Feed Oats.

It is proposed that consideration be given to revising the Official Grain Standards of the United States for Mixed Grain to read essentially as follows:

§ 26.451 Terms defined.

For the purposes of the Official Grain Standards of the United States for Mixed Grain:

(a) *Mixed grain.* Mixed grain shall be any mixture of grains for which standards have been established under the United States Grain Standards Act, or any mixture of such grains and wild oats, or wild oats, providing that any of the mixtures do not come within the requirements of any of the standards for such grains, and that any of the mixtures or wild oats do not contain more than 50 percent of foreign material.

(b) *Grades.* Grades shall be "Mixed Grain," "No. 1 Mixed Feed Oats," "No. 2 Mixed Feed Oats," "Sample grade Mixed grain," and special grades provided for in § 26.453.

(c) *Wild oats.* Wild oats shall be the seeds of Avena Fatua and A. sterilis.

(d) *Cultivated oats.* Cultivated oats shall be the seeds of Avena sativa and A. byzantina.

(e) *Mixed feed oats.* Mixed feed oats shall be any Mixed Grain which contains not less than 75 percent of wild oats, or not less than 75 percent of wild oats and cultivated oats in combination, which combination shall include more than 25 percent of wild oats; and which contains not more than 7.0 percent of foreign material, not more than 15.0 percent of damaged kernels, and not more than 3.0 percent of heat-damaged kernels; and which has a test weight per bushel of not less than 29 pounds.

(f) *Foreign material.* Foreign material shall be all matter except wild oats and grains for which standards have been established under the United States Grain Standards Act.

(g) *Damaged kernels.* Damaged kernels shall be all kernels and pieces of kernels of wild oats and grains for which standards have been established under the United State Grain Standards Act, which are heat damaged, sprouted, frosted, badly ground damaged, badly weather damaged, moldy, diseased, or otherwise materially damaged.

(h) *Heat-damaged kernels.* Heat-damaged kernels shall be kernels and pieces of kernels of wild oats and grains for which standards have been established under the United States Grain Standards Act, which have been materially discolored and damaged by heat.

(i) *Stones.* Stones shall be concreted earthy or mineral matter and other substances of similar hardness that do not disintegrate readily in water.

§ 26.452 Principles governing application of standards.

The following principles shall apply in the determination of the grades for mixed grain:

(a) *Basis of determination.* All determinations shall be on the basis of the grain as a whole.

(b) *Percentages.* All percentages shall be determined upon the basis of weight. The percentage of each kind of grain, including wild oats, and foreign material shall be stated in terms of whole percents.

(c) *Moisture.* Moisture shall be determined by the air-oven method prescribed by the United States Department of Agriculture as described in Service and Regulatory Announcements No. 147 (1959 revision) issued by the Agricultural Marketing Service for the kind of grain which predominates in the mix-

ture or determined by any method which gives equivalent results.

(d) *Test weight per bushel.* Test weight per bushel shall be the weight per Winchester bushel as determined by the method prescribed by the United States Department of Agriculture as described in Circular No. 921, issued June 1953, or as determined by any method which gives equivalent results.

§ 26.453 Grades, grade requirements, and grade designations.

The following grades, grade requirements, and grade designations are applicable under these standards:

(a) *Grades and grade requirements for Mixed Grain.* (See also paragraph (c) of this section.)

(1) *Mixed Grain (Grade).* The grade "Mixed Grain" shall be mixed grain with not more than 15.0 percent of damaged kernels, and not more than 3.0 percent of heat-damaged kernels, and which otherwise does not come within the specifications for No. 1 Mixed Feed Oats, No. 2 Mixed Feed Oats, or Sample grade Mixed Grain.

(2) *No. 1 Mixed Feed Oats.* The grade No. 1 Mixed Feed Oats shall be mixed grain which meets the requirements for mixed feed oats; which contains not more than 5.0 percent of foreign material, not more than 10.0 percent of damaged kernels, and not more than 2.0 percent of heat-damaged kernels; which has a test weight per bushel of not less than 32 pounds; and which otherwise does not come within the specifications for "Sample grade Mixed Grain," or "No. 2 Mixed Feed Oats."

(3) *No. 2 Mixed Feed Oats.* The grade No. 2 Mixed Feed Oats shall be mixed grain which meets the requirements for mixed feed oats; which contains not more than 7.0 percent of foreign material, not more than 15.0 percent of damaged kernels, and not more than 3.0 percent of heat-damaged kernels; which has a test weight per bushel of not less than 29 pounds; and which otherwise does not come within the specifications for "No. 1 Mixed Feed Oats" or "Sample grade Mixed Grain."

(4) *Sample grade Mixed Grain.* The grade "Sample grade Mixed Grain" shall be mixed grain which does not meet the requirements for the grades Mixed Grain, No. 1 Mixed Feed Oats, or No. 2 Mixed Feed Oats; or which contains more than 16.0 percent of moisture; or which contains stones; or which is musty, or sour, or heating; or which has any commercially objectionable foreign odor except of smut or garlic; or which is otherwise of distinctly low quality.

(b) *Grade designations for Mixed Grain.* The grade designation for mixed grain shall include the words "Mixed Grain," "No. 1 Mixed Feed Oats," "No. 2 Mixed Feed Oats," or "Sample grade Mixed Grain," as the case may be, and the name of each applicable special grade. In the case of "Mixed Grain (Grade)" and "Sample grade Mixed Grain" the grade designation shall also include the name and approximate percentage of each kind of grain, including wild oats, which constitutes 10 percent or more of the mixture, in the order of predominance and, when applicable, the words "other grains" followed by a statement of the percentage of the combined quantity of those kinds of grains, including wild oats, each of which is present in a quantity less than 10 percent; and the words "Foreign Material" together with a statement of the percentage thereof.

(c) *Special grades, special grade requirements and special grade designations for mixed grain.*—(1) *Tough mixed grain.*—(i) *Requirements.* Tough mixed grain shall be mixed grain which contains more than 14.0 percent but not more than 16.0 percent of moisture.

(ii) *Grade designation.* Tough mixed grain shall be graded according to the grade requirements of the standards applicable to such mixed grain if it were not tough, and there shall be added to and made a part of the grade designation the word "Tough."

(2) *Smutty mixed grain.*—(i) *Requirements.* Smutty mixed grain shall be (*a*) mixed grain in which wheat or rye predominates, and which contains balls, portions of balls, or spores, of smut, in excess of a quantity equal to 14 balls of average size in 250 grams of mixed grain, or (*b*) any other mixed grain which has the kernels covered with smut spores, or which contains smut masses and/or smut balls in excess of 0.2 percent.

(ii) *Grade designation.* Smutty mixed grain shall be graded and designated according to the grade requirements of the standards applicable to such mixed grain if it were not smutty, and there shall be added to and made a part of the grade designation, the word "Smutty."

(3) *Ergoty mixed grain.*—(i) *Requirements.* Ergoty mixed grain shall be mixed grain which contains ergot in excess of 0.3 percent.

(ii) *Grade designation.* Ergoty mixed grain shall be graded and designated according to the grade requirements of the standards applicable to such mixed grain if it were not ergoty, and there shall be added to and made a part of the grade designation, the word "Ergoty."

(4) *Garlicky mixed grain.*—(i) *Requirements.* Garlicky mixed grain shall be (*a*) mixed grain in which wheat or rye predominates, and which contains 2 or more green garlic bulblets, or an equivalent quantity of dry or partly dry bulblets, in 1,000 grams of mixed grain; or (*b*) mixed grain in which grains other than wheat and rye predominate, and which contains 4 or more green garlic bulblets, or an equivalent quantity of dry or partly dry bulblets, in 500 grams of mixed grain.

(ii) *Grade designation.* Garlicky mixed grain shall be graded and designated according to the grade requirements of the standards applicable to such mixed grain if it were not garlicky, and there shall be added to and made a part of the grade designation, the word "Garlicky."

(5) *Weevily mixed grain.*—(i) *Requirements.* Weevily mixed grain shall be mixed grain which is infested with live weevils or other insects injurious to stored grain.

(ii) *Grade designation.* Weevily mixed grain shall be graded and designated according to the grade requirements of the standards applicable to such mixed grain if it were not weavily, and there shall be added to and made a part of the grade designation, the word "Weevily."

(6) *Blighted mixed grain.*—(i) *Requirements.* Blighted mixed grain shall be mixed grain in which barley predominates and which, as a whole, contains more than 4 percent of barley damaged or materially discolored by blight and/or mold.

(ii) *Grade designation.* Blighted mixed grain shall be graded and designated according to the grade requirements of the standards applicable to such mixed grain if it were not blighted, and there shall be added to and made a part of the grade designation, the word "Blighted."

(7) *Treated mixed grain.*—(i) *Requirements.* Treated mixed grain shall be mixed grain which has been scoured, limed, washed, sulfured, or treated in such a manner that its true quality is not reflected by the grade "Mixed Grain," "No. 1 Mixed Feed Oats," "No. 2 Mixed Feed Oats," or "Sample grade Mixed Grain."

(ii) *Grade designation.* Treated mixed grain shall be graded and designated according to the grade requirements of the standards applicable to such mixed grain if it were not treated, and there shall be added to and made a part of the grade designation, a statement indicating the kind of treatment.

Public hearings will not be held on this proposal to revise the Official Grain Standards of the United States for Mixed Grain under the provisions of section 4 of the Administrative Procedure Act (5 U.S.C. 1003), but all persons who desire may submit written data, views, or arguments in connection with the aforesaid proposal to the Director, Grain Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D.C., to be received by him not later than July 15, 1960. All documents should be filed in duplicate. Consideration will be given to the written data, views, and arguments received by the Director and to other information available in the United States Department of Agriculture before a decision is made as to whether the proposed revision shall be promulgated.

Done at Washington, D.C., this 8th day of June 1960.

ROY W. LENNARTSON,
Deputy Administrator.

[7 CFR Part 973]

[Docket No. AO-178-A11]

MILK IN MINNEAPOLIS-ST. PAUL MARKETING AREA

Decision on Proposed Amendments to Tentative Marketing Agreement and to Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Minneapolis, Minnesota, on March 3, 1960, pursuant to notice thereof issued on January 11, 1960 (25 F.R. 311) and an amended notice of hearing issued February 16, 1960 (25 F.R. 1491).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Agricultural Marketing Service, on May 17, 1960 (25 F.R. 4473) filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

Preliminary statement. The hearing on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreement and to the order, were formulated, was conducted at Minneapolis, Minnesota, on March 3, 1960, pursuant to notice thereof which was issued January 11, 1960 (25 F.R. 311) and an amended notice of hearing issued February 16, 1960 (25 F.R. 1491).

The material issues on the record of the hearing relate to:

(1) Revision of pool plant delivery performance requirements;

(2) Modification of the stated differentials and "supply-demand" adjuster in the Class I price formula;

(3) Revision of the basic price formula and price formula for Class II milk;

(4) Revision of the price for "excess milk" under the base-excess payment plan;

(5) An increase in the maximum rate of assessment for marketing services to producers who are not members of a cooperative association;

(6) The classification of skim milk and butterfat in sour cream and similar products with various brand designations;

(7) Diversion of certain milk at the Class I price;

(8) Inclusion of a "Louisville plan" of adjusting producer payments seasonally;

(9) An increase in the maximum rate of administrative assessment; and

(10) Several changes of language for the purpose of clarification and improved workability of order provisions.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

(1) The pool plant delivery performance requirements should be modified under certain conditions.

Significant changes have taken place in recent years in this market which have caused the Minneapolis-located plant of the largest cooperative in the market to become a supply "balancing," or reservoir, plant with a resulting decrease in function as a regular supply plant. Because of changes in consumer buying habits, five- and six-day bottling by handlers, and bulk tank delivery to the city from nearly all farms of producers, the maintenance of pool status for the cooperative's balance plant on a continuing basis has been made extremely difficult, although the need for such an operation as a means of servicing the market and for the economic handling of milk actually has increased.

At the present time only 29 percent of the bottled milk sold is delivered to homes. The remainder is purchased by consumers at various stores, dairy stores and supermarkets. As the result of the purchasing pattern which has developed, there are wide day-to-day variations in amounts bottled and delivered by handlers which have caused even wider variations to develop in the daily volumes of milk they require from the cooperative's city plant. For example, in a sample week of June 1955, a daily low of 865,000 pounds was delivered to other handlers from this plant, while on the high day for the same week the amount was 1,073,942 pounds, a variation from low to high day of 24 percent. In a week occurring in June 1959 the low day of deliveries to other plants indicated 594,337 pounds and the high day 1,386,495 pounds, or a variation from low to high day of 133 percent. The September 1955 low to high variation was 49 percent compared with a September 1959 variation of 190 percent. In this connection it may be noted that members of this cooperative furnish 75–80 percent of the total market supply of milk for fluid use.

Stated in another way, day-to-day variations in deliveries to other plants from this city plant result in a high-day delivery as much as 30 percent above the daily average quantity for the week, while the low-day delivery may be as much as 40 percent below such daily average. In 1955 the range of the high and low days were each within 10–12 percent of the daily average for the week.

When the bottling handler requires less direct-shipped milk it backs up into this plant for disposal as Class II milk, becoming a receipt of milk at such plant and increases the difficulty of pool plant qualification. The deliveries from such plant to bottling plants count toward pool plant delivery performance, but the plant receives no delivery performance credit for the portion of milk frequently handled at the plant which is direct-shipped from farm to bottling plants on other days of the week or month. Daily variations in receipts at the plant at times have exceeded 900 percent within the month. Without continuing pool status for this plant a large proportion of regular producers would be alternately in and out of the pool on individual days of the month.

Provision should be made, therefore, to enable this plant to receive delivery performance credit with respect to milk direct-shipped to various bottling plants in the city for which this type of plant performs a service operation. It is concluded that the provision proposed will tend to promote the efficient and orderly handling of milk.

(2) The Class I price formula should be revised.

Proposals were submitted which would modify both the supply-demand adjuster contained in the Class I price formula and the stated differentials.

The monthly ratios of supply to demand reflected in the standard, or "normal", percentages of the current supply-demand formula have prevailed in the order since early 1956, except for minor seasonal revisions made effective in September 1957. Such standard percentages were designed to encourage an adequate, but not burdensome, supply of milk, including a working reserve.

In the months of August, September, October and November 1959 Class I milk sales were 74.3, 86.0, 83.4, and 79.1 percent of producer receipts in each month, respectively. Although it was testified that in these months supplemental milk amounting to about 5 percent of total receipts was necessary to fulfill requirements on certain days of the week, only small quantities thereof were actually allocated to Class I milk on a monthly basis. (Official notice is taken of the published Statistical Summary of the market administrator for August–November 1959 which show the allocation of other source milk.)

The receipts and sales data indicate a reasonably good balance between the quantities of milk being supplied by producers and the Class I requirements of the market. Even though slightly higher percentages of producer milk receipts were utilized in Class I milk in the August–November 1959 period than in the same months of 1958, it may not be concluded that this market experienced a shortage of supply in the most recent low production season.

The present Class I formula provides for automatic price changes as shortages may develop and there is no indication in the record that such formula will not meet adequately and promptly any marked change in the supply situation. It is pertinent, perhaps, to point out in this connection that the statute requires the establishment of minimum prices at levels which will tend to equate supplies and sales. On both annual and monthly bases supplies are adequate to the need. It is reasonable to believe that adequate monthly supplies, particularly in a market where there is strong market organization of supplies, may be managed in a manner to fulfill the daily requirements of the market.

It is concluded, therefore, that the supply-demand adjuster should not be revised so as to increase the level of Class I price on the basis of the current supply-demand relationship. It was pointed out in the exceptions that the percentage norm (86) shown for the month of October in § 973.53 of the order contained in the recommended decision was inadvertently misstated. A correction has been made.

It is concluded elsewhere herein that the Class II price should be increased 10.2 cents. Since the Class II price is an alternate basic formula price, the basic formula price level could be affected by such modification and, in turn, affect the Class I price level unless the basic formula price provision is modified also. For the months of January, February, and March 1960 there would have been no impact on the level of the basic formula price resulting from the change in the Class II price formula, although in 1959 the revised formula would have

been the effective basic price formula in seven months. In view of the prior finding that the Class I price should not be increased on the basis of the current supply-demand relationship, the basic formula price provision has been revised to retain the alternative formulas currently in effect.

Another price proposal considered would narrow the seasonal variation in the stated Class I price differentials from 40 cents to 20 cents per hundredweight, but without effecting a significant change in their annual average. In the presence of the base-excess plan the degree of seasonal variation in Class I price differentials becomes less significant as a means of encouraging in improved seasonal pattern of deliveries. Certainly three changes in levels of differentials during the year are not necessary in conjunction with the base-excess plan. There was considerable support in the hearing for two changes in differentials per year, and we see no reason why such price pattern would not work satisfactorily in conjunction with other provisions. The provisions to implement such proposal are adopted to take effect December 1, 1960. In the exceptions it was contended that, on the record evidence, November should be included among the higher differential months. A revision to this effect has been made, with an offsetting adjustment in other months.

(3) The Class II price formula should be revised.

A producer organization proposed an increase of 10.2 cents in the Class II price by means of a reduction in the "make" allowance included in the so-called butter-nonfat dry milk solids formula.

Although cost rates for labor and some other items used in the manufacture of butter and nonfat dry milk solids have increased during recent years, larger-scale operations and increased efficiency of equipment have tended to reduce costs per hundredweight of milk processed. The change in type of container from barrels and drums to bags which has taken place in recent years has effected a cost reduction in packaging of about 7 cents per hundredweight. Individual unregulated plants in the milkshed engaged primarily in butter-nonfat dry milk solids operations paid prices for milk in 1959 up to 29 cents per hundredweight higher than the annual average Class II price. The prices at eight such plants averaged about 16 cents higher in such period. Even though a somewhat lower rate of efficiency may be expected in connection with the disposition of the reserve supplies of a fluid milk market through this type of outlet, the proposed reduction of 10.2 cents in make allowance (or increase in price of like amount) is reasonable and should be adopted.

(4) The level of price for "excess milk" should be reduced.

Under the present order the price for excess milk under the base-excess plan is computed by the addition of 8 cents to the price per hundredweight for Class II milk.

Since practically all milk produced in excess of base in the base-operating months must be disposed of in manufacturing uses, it is concluded that the revised Class II price is an appropriate price for excess milk. Because of the Class II price revision which increases such price, as discussed earlier in this decision, there would be no decrease in actual return to the producer for excess milk as compared with present pricing. In fact, the actual price for excess milk would be slightly higher than under the present basis of pricing.

(5) The maximum rate of assessment for marketing services to producers who are not members of a cooperative association should be increased.

The present maximum rate of assessment for marketing services applicable to non-member milk is 2 cents per hundredweight. Income accruing on the basis of such rate has been insufficient to meet costs of check-weighing and check-testing and the dissemination of market information. A deficit in the marketing services fund was incurred in 1959 and based on latest available costs of testing, a significantly higher maximum rate will be required if such services are to be provided on any reasonable basis. At December 31, 1959, the balance in the fund amounted to only $48.87. Obviously, however, there are practical limitations which are involved, as well as service cost, in setting a maximum rate of assessment.

In the circumstances, it is concluded that the maximum rate of assessment should be increased from 2 to 6 cents per hundredweight of milk.

(6) Sour cream products, such as "Smetana", should be classified as Class I milk.

Sour cream is classified as Class I milk under the present order. Another product similar in form and consistency which is distributed under the name "Smetana" is classified as Class II milk on the basis of an order interpretation. The latter product, however, is so similar as to form, texture, composition, packaging, grade of milk required for processing, and purpose that no practical distinction in pricing under the regulation should be made. This or any similar product required to be made from Grade A milk to be sold in the marketing area should be included in Class I milk, together with sour cream, in order that producers will receive a price commensurate with the costs involved in producing the Grade A milk so used. It was argued in the exceptions that the findings of this paragraph might apply inadvertently to the classification of cottage cheese. There is no intention here to reclassify cottage cheese, which remains a Class II milk product.

(7) Provision should be made to include as pooled milk certain milk disposed of to nonpool plants for fluid disposition.

As previously indicated, the largest cooperative in the market furnishes producer milk to a number of handlers. It also supplies, at the Class I price f.o.b. marketing area, milk for bottling at five relatively small nonpool fluid milk distribution plants located in communities adjacent to the present marketing area. Operators of such nonpool plants do not distribute significant quantities of milk within the marketing area. They rely, however, on pool plants as outlets for the reserve supplies associated with their fluid milk operations. It is customary for the cooperative to deliver milk to such plants from the farm in bulk tanks, but assignment of specific producers to such plants is complicated by the fact that the milk involved is commingled in bulk tanks with other milk customarily delivered directly from farms to pool plants. On any given day of the month the milk of a particular dairy farmer may be received at one of these nearby nonpool fluid milk plants and on another day at a pool plant for disposition in manufacturing uses. The milk of 20–30 dairy farmers is subject to handling in this manner.

In the interest of orderly marketing and to simplify pricing and payment with respect to member milk, the cooperative marketing the milk has proposed that the order provide for the continuous pooling of milk assigned to the nonpool fluid milk plants which, in fact, may be "in and out" of a pool plant on more than one occasion during the month. It is pertinent that such milk would be subject to compensatory payment if not eligible for pooling but yet allocated to Class I in a pool plant.

Provision for the inclusion of such milk in the pool would place the dairy farmers involved, who obviously are intimately associated with the market, on the same uniform price basis as other producers and thus tend to promote orderly marketing. The pooled value of milk would be enhanced since the bulk of the milk concerned is utilized as Class I milk. It is concluded that the proposal should be adopted.

(8) A "Louisville plan" for distributing proceeds to producers should not be adopted.

A proposal was made to adjust producer prices seasonally by deducting a portion of monies accruing from Class I sales in the spring months and adding back such monies in four installments in the fall months.

The net effect of the proposal in terms of dollars payable to producers for Class I milk is a seasonality of Class I returns not substantially different from that which results from the present Class I price differentials. The proposal would provide a somewhat higher return from Class I milk in December, January and February and a somewhat lower return in November. In other months there would be no substantial change from the present order. However, in view of the findings previously made in this decision in connection with the Class I price differentials (which, it may be noted, would increase the differential by 10 cents in December, January and February), the supply-demand adjuster and the base-excess plan, it is concluded that adoption of the proposed Louisville plan would serve no purpose additional to the objectives of the other provisions working in combination and might be adverse to the proposed changes in such other provisions. Therefore, such plan should not be adopted at this time.

(9) The maximum rate of administrative assessment should be revised.

The maximum rate of administrative assessment is 1.5 cents per hundredweight of milk. The monies accruing to cover the administrative expense of order operation will not be sufficient, at such assessment rate, to meet monthly requirements and to maintain a reasonable reserve for contingencies over any substantial period of time. To provide sufficient funds for full enforcement of the order and to meet possible cost increases in order operations, it is concluded that the maximum assessment rate should be increased to 3.0 cents per hundredweight of milk. It is not expected, however, that more than a partial increase from the present rate will be required for administrative expenses in the immediate future.

(10) Certain changes in order language should be made for administrative purposes.

Several of the proposals heard were designed to clarify order language or to facilitate order administration. Among these were proposals to revise the dates on which handler reports are filed, the uniform prices are announced and producer payments are made. It was complained that the time periods allowed for compliance with such order requirements are not sufficient and that compliance therefore is made difficult from a purely mechanical standpoint. The producer organization marketing the bulk of the milk offered the proposals and there was no controversy. It is concluded that they should be adopted to ease this compliance problem.

Another producer proposal would revise the provision for computing on a skim milk equivalent basis the volume of nonfat dry milk solids or condensed skim milk used for fortification and reconstitution in fluid form to those instances when the resulting product is disposed of by a handler. This change thus would permit the disposition of nonfat solids to nonpool plants on an actual weight basis, facilitating such sales of dry solids from producer milk. Since the classification and pricing of milk disposed of in the marketing area is adequately protected through other order provisions, it is feasible to change the regulation in this respect. It is concluded that the proposal should be adopted.

Other minor changes of language of a self-explanatory nature have been made solely for clarification of certain provisions of the order.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties in the market. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings on exceptions. In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in the Minneapolis-St. Paul Marketing Area", and "Order Amending the Order Regulating the Handling of Milk in the Minneapolis-St. Paul Marketing Area", which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which will be published with this decision.

Determination of representative period. The month of April 1960 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the attached order amending the order regulating the handling of milk in the Minneapolis-St. Paul marketing area, is approved or favored by producers, as defined under the terms of the order as hereby proposed to be amended who, during such representative period, were engaged in the production of milk for sale within the aforesaid marketing area.

Issued at Washington, D.C., this 9th day of June 1960.

CLARENCE L. MILLER,
Assistant Secretary.

Order[1] Amending the Order Regulating the Handling of Milk in the Minneapolis-St. Paul Marketing Area

§ 973.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Minneapolis-St. Paul marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(4) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, 3 cents per hundredweight or such amount not to exceed 3 cents per hundredweight as the Secretary may prescribe, with respect to producer milk (including such han-

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

dler's own farm production) and to other source milk which is classified as Class I milk.

Order relative to handling. It is therefore ordered that on and after the effective date hereof, the handling of milk in the Minneapolis-St. Paul marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended, and the aforesaid order is hereby amended as follows:

§ 973.9 [Amendment]

1. Delete § 973.9(b) in its entirety and substitute therefor the following:

(b) (1) Except as provided in subparagraph (2) of this paragraph, any plant from which during any month 50 percent or more of such plant's total receipts for such month from farms of skim milk or butterfat eligible for sale in fluid form as Grade A milk within the marketing area is delivered to (i) a plant(s) which has qualified pursuant to paragraph (a) of this section, (ii) any other plant(s) located within the marketing area from which Class I milk is disposed of within the marketing area on a route(s), or (iii) a governmentally-owned and operated institution which disposes of Class I milk solely for use on its own premises or to its own facilities: *Provided*, That if during each of the months of July, August, September and October 50 percent or more of such plant's receipts of skim milk or butterfat for such month as described above is delivered as provided in this paragraph, it shall be a pool plant through the following June: *And provided further*, That if not less than 30 percent of the total member producer milk of a cooperative association is delivered during each of the months of July, August, September and October as direct-shipped milk to a plant(s) described in paragraph (a) of this section located within the city limits of either Minneapolis or St. Paul, then any deliveries of milk by such cooperative association directly to such plant(s) may be considered, for the purposes of this paragraph, as having been received first at a plant of such cooperative association also located within the city limits of Minneapolis or St. Paul.

(2) Producer milk which was received on more than 45 days during the months of April, May and June at a pool plant qualified under this paragraph, which milk is caused to be delivered from farms to a pool plant(s) described in paragraph (a) of this section during any of the months of July, August, September and October shall be considered for the purposes of this paragraph as having been shipped from thence to the plant(s) described in paragraph (a) of this section: *Provided*, That the producers of such milk are listed on the payroll reports (of the respective plants) submitted pursuant to § 973.32 and appropriately noted on the reports of receipts and utilization submitted pursuant to § 973.30.

2. Delete § 973.11 in its entirety and substitute therefor the following:

§ 973.11 Producer.

"Producer" means any person, except a producer-handler, who produces milk eligible for sale in fluid form as Grade A milk within the marketing area which is either (a) received from the farm at a pool plant, or (b) moved in accordance with the conditions of § 973.44(c) (2) but allotted to a pool plant by listing on the payroll report of such plant pursuant to § 973.32, which milk shall be deemed to be received at such pool plant: *Provided*, That any such person whose milk is received from the farm at a pool plant during any portion of the period July through October, inclusive, but subsequently in such four-month period is received at a nonpool plant (except as provided above in this paragraph) shall not regain status as a producer prior to the next July 1.

§ 973.22 [Amendment]

3. In § 973.22(h) delete "13th" and substitute therefor "15th".

§ 973.30 [Amendment]

4. In § 973.30(a) delete "8th" and substitute therefor "10th".

5. In § 973.30(b) delete "8th" and substitute therefor "10th".

§ 973.41 [Amendment]

6. In the third parenthetical phrase in § 973.41(a) insert after the words "sweet or sour, including" the words "'Smetana' and similar sour cream products and".

§ 973.44 [Amendment]

7. Delete from that portion of § 973.44 preceding paragraph (a) therein the word "transferred" and substitute therefor the word "moved".

8. Delete from § 973.44(b) the cross-reference "paragraph (c) (2) and (3) of this section" and substitute therefor the cross-reference "paragraph (c) (2), (3) and (4) of this section."

9. Delete § 973.44(c) and substitute therefor the following:

(c) As Class I milk if moved to a nonpool plant under any of the following circumstances: (1) by transfer in consumer packages; (2) by a cooperative association directly from the farm of the producer, and the noonpool plant is one from which milk is disposed of in fluid form on routes; (3) by transfer in bulk as any item of § 973.41(a), except cream, and the nonpool plant is located more than 100 miles from the Minnesota Transfer Viaduct over University Avenue in St. Paul, Minnesota; or (4) by transfer in bulk as cream and the nonpool plant is located as described in subparagraph (3) of this paragraph and is a plant from which milk is disposed of in fluid form on routes: *Provided*, That this subparagraph shall not apply in the case of cream transferred in bulk to any plant subject to another marketing agreement or order issued pursuant to the act, if such cream is allocated thereunder in the transferee-plant to a class of utilization other than Class I milk as defined in such other marketing agreement or order.

§ 973.45 [Amendment]

10. Add in the proviso of § 973.45 after the word "disposition" the words "by a handler".

11a. Delete that portion of § 973.51 preceding paragraph (a) therein and sustitute therefor the following:

§ 973.51 Basic formula price.

The basic formula price per hundredweight to be used in determining the Class I price shall be the highest of the prices computed pursuant to paragraphs (a), (b), and (c) of this section:

b. Add the words "per hundredweight" after the phrase "(or field) prices" in § 973.51(a).

c. Add the following as § 973.51(c):

(c) (1) Multiply by 4.24 the simple average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade AA (93-score) bulk creamery butter at New York, as reported by the Department of Agriculture during the preceding month; (2) multiply by 8.2 the weighted average of carlot prices for spray process nonfat dry milk, for human consumption f.o.b. manufacturing plants in the Chicago area, as published by the Department of Agriculture for the period from the 26th day of the second preceding month through the 25th day of the preceding month; (3) add into one sum the amounts obtained in subparagraphs (1) and (2) of this paragraph; and (4) subtract 75.2 cents therefrom.

12. Delete § 973.53 in its entirety and substitute therefor the following:

§ 973.53 Class I price.

Subject to the differentials provided in §§ 973.55 and 973.56(a), the price per hundredweight for Class I milk each month shall be the basic formula price computed pursuant to § 973.51 plus an amount as follows: $1.00 for July, August, September, October, and November; and $.76 for other months: *Provided*, That prior to December 1, 1960, the following shall be added to the basic formula price in lieu of the above amounts: 70 cents for each month until July; $1.10 for July, August, September, and October; and $1.00 for November: *And provided further*, That whenever the current supply-demand ratio varies from that set forth in the table below, the Class I price shall be increased or decreased 1.5 cents for each full percentage point that the current supply-demand ratio is above or below that set forth in the table, but such price shall not be increased or decreased more than 24 cents for any month because of the current supply-demand ratio:

Month to which applicable	Standard percentages	Months used in computing current supply-demand ratio
January	88	October–November.
February	83	November–December.
March	78	December–January.
April	73	January–February.
May	71	February–March.
June	70	March–April.
July	68	April–May.
August	66	May–June.
September	70	June–July.
October	83	July–August.
November	88	August–September.
December	88	September–October.

§ 973.54 [Amendment]

13. In § 973.54 delete the phrase "price for Class II milk" and substitute therefor the phrase "price per hundredweight for Class II milk."

14. Delete from § 973.54 the figure "75.2" and substitute therefor the figure "65".

§ 973.72 [Amendment]

15. Delete from § 973.72(b) the phrase "plus 8 cents".

§ 973.73 [Amendment]

16. In § 973.73 delete "13th" and substitute therefor "15th".

§ 973.77 [Amendment]

17. In § 973.77(d) delete the words "producer" and "producer's" and substitute therefor the words "person" and "person's", respectively.

18. In § 973.77(e) delete the word "producer" wherever it appears and substitute therefor the word "person".

§ 973.80 [Amendment]

19. In § 973.80(a) delete "10th" and substitute therefor "11th".

§ 973.90 [Amendment]

20. In § 973.90 delete the figure "1.5" wherever it appears and substitute therefor the figure "3".

§ 973.91 [Amendment]

21. In § 973.91(a) delete the figure "2" and substitute therefor the figure "6".

[F.R. Doc. 60-5372; Filed, June 13, 1960; 8:47 a.m.]

[7 CFR Part 1011]

[Docket No. AO-299-A1]

MILK IN MICHIGAN UPPER PENINSULA MARKETING AREA

Decision on Proposed Amendments to Tentative Marketing Agreement and to Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Marinette, Wisconsin, on March 7-9, 1960, pursuant to notice thereof issued on February 17, 1960 (25 F.R. 1521).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Agricultural Marketing Service, on May 20, 1960 (25 F.R. 4590), filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

At this hearing, evidence was received with respect to proposed amendments to the order regulating the handling of milk in the Northeastern Wisconsin marketing area as well as the Michigan Upper Peninsula marketing area. This decision will be restricted to issues relating to amendments proposed to the order for the Michigan Upper Peninsula marketing area. Issues relating to amendments proposed to the order for the Northeastern Wisconsin marketing area will be considered in a separate decision.

With respect to the Michigan Upper Peninsula order the issues on the record of hearing relate to:

1. Expansion of the marketing area;
2. The Class I milk price;
3. Pooling; and
4. Allocation of receipts of milk in packaged form priced under another order.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Marketing area.* Menominee County, Michigan, and the town of Peshtigo and the cities of Marinette and Peshtigo in Marinette County, Wisconsin, should be added to the Michigan Upper Peninsula marketing area.

The Michigan Upper Peninsula marketing area presently includes all territory in the upper peninsula of Michigan except Menominee County together with certain territory in Marinette, Florence and Iron Counties, Wisconsin. The city of Menominee, in Menominee County, is the only area in Michigan included in the marketing area of the Northeastern Wisconsin order. The nearby cities of Menominee and Peshtigo and the town (township) of Peshtigo in Marinette County, Wisconsin, likewise are included in the Northeastern Wisconsin marketing area.

The notice of hearing contained proposals to (1) delete the city of Menominee from the Northeastern Wisconsin marketing area and to add all of Menominee County to the Michigan Upper Peninsula marketing area, and (2) to include all of Menominee County, Michigan, and Marinette County, Wisconsin, in the Northeastern Wisconsin marketing area.

At the hearing the proponent of the proposal to expand the Northeastern Wisconsin marketing area to include all of Menominee and Marinette Counties offered no evidence in support of this proposal. It is clear that the cities of Menominee, Marinette and Peshtigo should be included in the same marketing area. Two plants in Menominee and one in Marinette each sell throughout these cities. Another plant that previously processed milk in Marinette has discontinued receiving and processing milk, but distributes milk regulated under the Northeastern Wisconsin order that is received and processed at a plant in Algoma, Wisconsin. Milk is also distributed in Menominee, Marinette and Peshtigo by at least two other handlers regulated under the Northeastern Wisconsin order and by one Milwaukee handler. The Menominee plants each have sales in the present Upper Peninsula marketing area. One small handler presently confines his distribution to portions of Menominee County outside the city limits of Menominee and would be brought under regulation by the proposal to include the entire county in a regulated area.

The three plants located in Menominee and Marinette are the only plants whose regulation would be changed from the Northeastern Wisconsin order to the Michigan Upper Peninsula order if these cities were transferred from one marketing area to another. Forty-two producers supply these plants, thirty-one with farms located in Michigan supply the two Menominee plants and eleven whose farms are in Wisconsin deliver to the Marinette plant. A producer organization representing a number of these Michigan producers supported the proposed transfer of area from Order No. 116 to Order No. 111 on the basis that the economic interests of these producers are more nearly allied with other producers in Michigan than those in Wisconsin and that under the handler pooling provisions of Order No. 111 they would receive better blend prices. Producers supplying one Menominee handler and the Marinette handler would have averaged higher prices on the basis of such handlers' utilizations but the producers supplying the third handler would have averaged lower prices. Substantially all the producers who are members of the cooperative association deliver to this third handler.

Despite the lack of specific proposals that any Wisconsin territory be changed to Order No. 111, affected parties appeared and offered testimony. The position of Menominee and Marinette dealers was that the local area should be considered a single unit regardless of the order to be effective for such area. No objection on the basis of lack of notice was offered to testimony that the cities of Marinette and Peshtigo should be included in the marketing area of Order No. 111 together with Menominee County, Michigan. While the average Class I utilization of the plants presently regulated under Order No. 116 is slightly higher than the average of that market, the volume is such that the resulting effect on the average blend price of the order is not significant. Northeastern Wisconsin producers offered no opposition to the proposed change in the regulation effective for the Menominee-Marinette area.

If present price alignments are maintained there appears to be no substantial economic reason why regulation under Order No. 111 should not apply to all this territory. In view of the expressed desire of the producers involved it is concluded that the area in Marinette and Menominee Counties now in the Order No. 116 marketing area should be included in the Order No. 111 marketing area and that the remaining portion of Menominee County should likewise be included in the Order No. 111 marketing area. In a companion decision it is concluded that the Order No. 116 marketing area should be revised to permit this change.

It was proposed that the territory added be included in Zone I of the marketing area for pricing purposes, which would have increased the Class I price at plants in the area affected. In view of geographic location the present alignment of prices with competing plants under both orders should be maintained. This can be achieved by providing a sub-Zone I(a) at a price ten cents less than that in the present Zone I of Order No.

111 to be applicable in the area presently in the Order No. 116 area and three nearby townships in Menominee County.

2. *Class I price.* The present Class I pricing provisions should be continued for another 18-month period, with provision for a sub-Zone I(a) price ten cents less than that for the present Zone I.

Since the effective date of the order Class I price differentials added to a basic formula price have been at an annual average of 96.7 cents for Zone I comprising five Michigan counties and the Wisconsin portion of the marketing area. For the remainder of the area the Class I price differentials have been 20 cents higher or an average of $1.167. These average differentials have resulted from monthly differentials of $0.75 (Zone I) and $0.95 (Zone II) for March through June; $1.15 and $1.35 July through November; and $0.95 and $1.15 December through February. The effectiveness of this pricing method was limited to the first 18 months of order operation to provide opportunity for review in the light of experience.

Producers proposed that these differentials each be increased 20 cents in all months. In support thereof they cited rising costs of production and emergency feed conditions that have prevailed during the past winter. They also claimed that premiums equal to or in excess of the increase requested have been in effect throughout major portions of the market without oversupplying the market.

Handlers proposed that the Class I price provisions for the entire area be those which have been in effect for Zone I, and that some means be provided to make the area price effective on sales by outside plants whether regulated by another order or not.

The order became effective for pricing purposes December 1, 1958. The record showed data with respect to receipts, sales and prices through January 1960. In order that comparisons with a year ago may be made for a three month period, official notice is taken of similar data released by the market administrator for February 1960. Producers receipts in the period December 1959 through February 1960 were 100.2 percent of those in the same months a year earlier. Class I sales of regulated plants in these months were 99.7 percent of those in the first three months of order operation. While monthly comparisons show somewhat greater variation, it is evident that there has been no substantial change in production or Class I sales during this period.

There is no substantial basis for reducing or eliminating the 20-cent price differential between zones. Producer receipts and Class I sales allocated to such receipts at Zone II plants have increased slightly in the past year while receipts and utilization of Zone I plants have decreased slightly. The price differential is needed to allocate supplies to the areas where needed for Class I use.

In a companion decision on this record it is concluded that no substantial change should be made at this time in the Class I pricing provisions of the order for the Northeastern Wisconsin area on the basis of this record. Substantial volumes of milk are distributed throughout the Michigan Upper Peninsula marketing area by handlers subject to that order. While the limited data available indicate that Class I sales of Order No. 111 handlers have been maintained during the past year at a time when premiums were being paid by many such handlers, this is not sufficient basis to increase at this time the difference between the required minimum prices of the two orders. There is no evidence that these differences are not appropriate to reflect costs of transporting milk in this area. Neither is there any basis to eliminate the difference with respect to Northeastern Wisconsin or other order milk disposed of in the Upper Peninsula area, as requested by handlers.

It is therefore concluded that price alignment between the orders should be maintained at present levels for an additional 18-month period by extension of the present pricing provisions with modification for a Zone I(a) price to apply in the town of Peshtigo and the cities of Peshtigo and Marinette in Marinette County, Wisconsin and the city of Menominee and townships of Menominee, Mellen and Ingallston in Menominee County, Michigan, at ten cents per hundredweight less than the Zone I price. The Zone I price will apply in the remainder of Menominee County.

3. *Pooling.* The type of pooling under the order should not be changed from the present handler pools to a marketwide pool. Neither should provision be made to permit allocation of Class I utilization from distribution plants to supply plants without movement of milk.

The operator of a plant which in several months has been regulated as a supply plant proposed that marketwide pooling be adopted. It was urged that the milk of the 27 producers supplying this plant is required for short season needs of the market but that handler pooling provides no Class I utilization to the plant in summer months.

The geographic distribution of production and population in the Upper Peninsula marketing area makes handler pooling more practicable and equitable than a marketwide pool. The bargaining-type cooperative association supplying the principal distribution plants of the area assures cooperating dealers a supply of milk. This association has four separate producer locals each of which supplies handlers in Sault Ste. Marie, Marquette, Ironwood and Menominee-Iron Mountain, respectively, and operates local association pools in three of these areas, but does not combine the local pools into an association pool. Other cooperative associations process and distribute milk of their members. Milk supplies cannot be readily moved from all producers' farms to plants in all parts of the marketing area. Packaged milk is, however, sold over wide areas by a number of plants.

No producer or cooperative associations supported the proposal for marketwide pooling, and opposition was expressed by the dominant bargaining cooperative and two plant-operating cooperatives. The proposal should not be adopted on the basis of this record.

The same handler also proposed, as an alternative to marketwide pooling, that the order provide that Class I utilization of a distribution plant could be allocated to a supply plant in the months of February through July in amounts commensurate with shipments received from such plant in the preceding months of August through November. Such a proposal might have applicability to a condition where a supply plant had been depended upon regularly to supply substantial short season volumes to a given plant or plants under long term arrangements. No such situation was shown here however. The shipments shown appear to be in the nature of spot shipments. This record does not justify inclusion of the "pass back" or "associate plant" provision proposed.

While the notice of hearing contained a proposal to define "associate producer" and provide means whereby persons so defined might share in Class I utilization of handlers who had discontinued receiving their milk, no evidence was offered in support of this proposal. Its adoption is therefore denied.

4. Provision should be made to deduct from a handler's Class I utilization receipts of fluid milk products processed and packaged in consumer packages priced under another Federal order if the handler does not process and package the item in his fluid milk plant during the month.

Some small handlers without paper packaging facilities in their plants distribute milk processed and packaged in paper cartons in a plant regulated under the Northeastern Wisconsin order. At the same time these Upper Peninsula handlers continue to process and package milk in glass containers. Under present provisions of the order producers delivering to the handler receive credit for all his Class I sales up to the volume of their deliveries. This results in the possibility that both Order No. 111 producers and Order No. 116 producers are paid the Class I price for the same sales.

In view of the extensive distribution of Order No. 116 milk through vendors who receive no milk from producers, there does not appear to be any equitable basis to require that under the circumstances described Class I sales be allocated to local producers if the product or package be one not produced in the regulated plant. Provision should be made to deduct from Class I disposition to be allocated to producers such receipts of fluid milk products disposed of in the original package.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties in the market. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings on exceptions. In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in the Michigan Upper Peninsula Marketing Area," and "Order Amending the Order Regulating the Handling of Milk in the Michigan Upper Peninsula Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which will be published with this decision.

Referendum order; determination of representative period; and designation of referendum agent. It is hereby directed that a referendum be conducted to determine whether the issuance of the attached order amending the order regulating the handling of milk in the Michigan Upper Peninsula marketing area, is approved or favored by the producers, as defined under the terms of the order, as hereby proposed to be amended, and who, during the representative period, were engaged in the production of milk for sale within the aforesaid marketing area.

The month of April 1960 is hereby determined to be the representative period for the conduct of such referendum.

C. T. McCleery is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders (15 F.R. 5177), such referendum to be completed on or before the 30th day from the date this decision is issued.

Issued at Washington, D.C., this 9th day of June 1960.

CLARENCE L. MILLER,
Assistant Secretary.

Order [1] Amending the Order Regulating the Handling of Milk in the Michigan Upper Peninsula Marketing Area

§ 1011.0 **Findings and determinations.**

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Michigan Upper Peninsula marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(4) All milk and milk products handled by handlers, as defined in the order as hereby amended, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, 5 cents per hundredweight or such amount not to exceed 5 cents per hundredweight as the Secretary may prescribe, with respect to (i) all receipts within the month of milk from producers including milk of such handler's own production, and (ii) any other source milk allocated to Class I pursuant to § 1011.46(b) and the corresponding step of § 1011.47.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Michigan Upper Peninsula marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended, and the aforesaid order is hereby amended as follows:

1. Amend § 1011.5 to read as follows:

§ 1011.5 **Michigan Upper Peninsula marketing area.**

(a) "Michigan Upper Peninsula marketing area" (hereinafter referred to as the "marketing area") means all the territory including all municipal corporations within the zones described below in this section.

(b) "Zone 1(a)": The city of Menominee and the townships of Menominee, Mellen and Ingallston, in Menominee, County, Michigan; the town of Peshtigo and the cities of Marinette and Peshtigo in Marinette County, Wisconsin;

(c) "Zone 1": Counties of Delta, Dickinson, Gogebic, Iron, Ontonagon and all territory in Menominee County not included in Zone 1(a), all in the State of Michigan; the town of Niagara and the village of Niagara, in Marinette County; the towns of Aurora and Florence, in Florence County, and the towns of Carey, Kimball, Oma, Pence, Saxon and the cities of Hurley and Montreal in Iron County, all in the State of Wisconsin;

(d) "Zone 2": Counties of Alger, Baraga, Chippewa, Houghton, Keweenaw, Luce, Mackinac, Marquette and Schoolcraft, all in the State of Michigan.

§ 1011.46 [Amendment]

2. Amend § 1011.46(c) to read as follows:

(c) Subtract from the pounds of butterfat remaining in each class the pounds of butterfat in other source milk received during the month in the form of fluid milk products from a plant subject to another marketing agreement or order issued pursuant to the Act as follows:

(1) From Class I, the pounds of such butterfat received in a consumer-

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

packaged form not so packaged in the plant during the month, and disposed of without further processing or packaging; and

(2) In series beginning with the lowest priced utilization, the remaining pounds of such butterfat;

3. Amend § 1011.51 to read as follows:

§ 1011.51 Class I milk price.

Through November 1961, subject to the provisions of § 1011.54, the minimum price to be paid by each handler for milk received at his fluid milk plant from producers or the fluid milk plant of a cooperative association during the month and utilized as Class I milk shall be the basic formula price for the preceding month, plus the applicable amounts specified below for the marketing area zone in which such plant is located. For plants located outside the marketing area and west of Lake Michigan the price (subject to § 1011.55) shall be that specified for Zone 1. For plants located outside the marketing area and east of Lake Michigan the price (subject to § 1011.55) shall be that specified for Zone 2.

Zone	Months of May through June	Months of Jan., Feb., and Dec.	Months of July through Nov.
1(a)	$0.65	$0.85	$1.05
1	.75	.95	1.15
2	.95	1.15	1.35

FEDERAL AVIATION AGENCY

[14 CFR Part 601]

[Airspace Docket No. 60-AN-10]

CONTROL ZONES

Modification

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to Part 601 and § 601.1984 of the regulations of the Administrator, the substance of which is stated below.

The present Iliamna, Alaska, control zone is designated within a 5-mile radius of the Iliamna Airport. The Federal Aviation Agency has under consideration the modification of this control zone by designating a control zone extension 2 miles either side of the south course of the Iliamna radio range extending from the 5-mile radius zone to a point 12 miles south of the radio range. This modification would provide protection for aircraft conducting prescribed instrument approaches to the Iliamna Airport during instrument flight rule conditions.

If this action is taken, the Iliamna, Alaska, control zone would be designated within a 5-mile radius of the Iliamna Airport (latitude 59°45'08" N., longitude 154°54'38" W.), and within 2 miles either side of the south course of the Iliamna radio range extending from the 5-mile radius zone to a point 12 miles south of the radio range. The Iliamna, Alaska, control zone would then be designated in a new section in Part 601, and deleted from § 601.1984, *Five mile radius zones*.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, P.O. Box 440, Anchorage, Alaska. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 7, 1960.

CHARLES W. CARMODY,
Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5355; Filed, June 13, 1960; 8:45 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60-FW-20]

CONTROL ZONES

Modification

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 601.2031 of the regulations of the Administrator, the substance of which is stated below.

The Houston, Tex., control zone is presently designated within a 10-mile radius of the Houston International Airport and within a 5-mile radius of Ellington Air Force Base. The Federal Aviation Agency is considering reducing the size of the Houston control zone by redesignating it within a 5-mile radius of Houston International Airport; within a 5-mile radius of Ellington AFB; within 2 miles either side of the southeast course of the Houston, Tex., radio range extending from the radio range to a point 12 miles southeast; within 2 miles either side of the 043° True bearing from the Pearland nondirectional radio beacon extending from the Ellington AFB 5-mile radius zone to the radio beacon. The modified control zone would provide adequate protection for aircraft conducting currently prescribed instrument approaches to the Houston International Airport and Ellington AFB during instrument flight rule condition.

If this action is taken, the Houston, Tex., control zone would be redesignated within a 5-mile radius of the Houston, Tex., International Airport (latitude 29°38'40" N., longitude 95°16'30" W.), within a 5-mile radius of the Ellington, Air Force Base, Tex. (latitude 29°36'25" N., longitude 95°09'20" W.), within 2 miles either side of the southeast course of the Houston, Tex., radio range extending from the Houston International Airport 5 mile radius zone to a point 12 miles southeast of the radio range station, and within 2 miles either side of the 043° True bearing from the Pearland nondirectional radio beacon extending from the Ellington AFB 5-mile radius zone to the radio beacon.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, P.O. Box 1689, Fort Worth 1, Tex. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 7, 1960.

CHARLES W. CARMODY,
Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5356; Filed, June 13, 1960; 8:45 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60-FW-24]

CONTROL ZONES

Modification

Pursuant to the authority delegated to me by the Administrator (§ 409.13, F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 601.2438 of the regulations of the Administrator, the substance of which is stated below.

The Greenville, Miss., control zone is designated within a 5-mile radius of Greenville AFB and within 2 miles either side of a direct line extending from the AFB to the ILS outer marker. The Federal Aviation Agency has under consideration a request by the Department of Air Force to modify the Greenville control zone by revoking the present extension and designating a new extension within 2 miles either side of the 183° True radial of the Greenville AFB TVOR extending from the 5-mile radius zone to the TVOR. This modification would correct the persent description of the control zone by eliminating the reference to a Greenville AFB ILS which was never installed. In addition, the modification would provide protection for aircraft conducting prescribed TVOR instrument approaches to Greenville AFB under instrument flight rule conditions.

If this action is taken, the Greenville, Miss., control zone would be redesignated within a 5-mile radius of the Greenville Air Force Base (latitude 33°29'00" N., longitude 90°59'00" W.), and within 2 miles either side of the Greenville AFB TVOR 183° True radial extending from the 5-mile radius zone to the TVOR.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, P.O. Box 1689, Fort Worth 1, Tex. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 8, 1960.

CHARLES W. CARMODY,
Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5357; Filed, June 13, 1960; 8:45 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 59-LA-9]

CONTROL AREAS

Modification of Extension

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 601.1357 of the regulations of the Administrator, the substance of which is stated below.

The Fallon, Nev., control area extension is designated within a 10-mile radius of the Fallon radio range station and within 5 miles either side of the north course of the Fallon radio range extending from the radio range station to a point 25 miles north, excluding the portion which lies within the geographical limits of, and between the designated altitudes of Restricted Area R-268, during the restricted area's time of use.

The Federal Aviation Agency has under consideration a proposal by the Department of Navy to redesignate the control area extension to include only that airspace within 5 miles either side of the 146° True radial of the NAAS Fallon TACAN (latitude 39°25'05" N., longitude 118°42'15" W.) extending from the TACAN to 20 miles southeast; within 6 miles southwest and 10 miles northeast of the 146° True radial of the NAAS Fallon TACAN, extending from 20 miles southeast of the TACAN to 54 miles southeast; and that airspace within 5 miles either side of the 037° True radial of the NAAS Fallon TACAN extending from the TACAN to 29 miles northeast, excluding those portions which would coincide with Restricted Areas R-268 and R-270.

The modified control area extension would provide protection for aircraft executing the approved TACAN approach and missed approach procedure at NAAS Fallon and for aircraft holding on the 146° True radial of the NAAS Fallon TACAN between 10,000 feet MSL and 24,000 feet MSL. The holding fix is a point 25 nautical miles from the TACAN on the 146° True radial.

If this action is taken, the Fallon, Nev., control area extension would be redesignated within 5 miles either side of the 146° True radial of the NAAS Fallon TACAN, extending from the TACAN to 20 miles southeast; within 6 miles southwest and 10 miles northeast of the 146° True radial of the NAAS Fallon TACAN, extending from 20 miles southeast of the TACAN to 54 miles southeast; and the airspace within 5 miles either side of the 037° True radial of the NAAS Fallon TACAN, extending from the TACAN to 29 miles northeast, excluding those portions which coincide with Restricted Areas R-268 and R-270.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, 5651 West Manchester Avenue, P.O. Box 90007, Airport Station, Los Angeles 45, Calif. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 7, 1960.

CHARLES W. CARMODY,
Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5359; Filed, June 13, 1960; 8:46 a.m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 13374; FCC 60-669]

TABLE OF ASSIGNMENTS, TELEVISION BROADCAST STATIONS

Order Extending Time for Filing Comments

In the matter of amendment of § 3.606 *Table of assignments*, Television Broadcast Stations (Grand Rapids, Cadillac,

Traverse City and Alpena, Michigan), Docket No. 13374.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 8th day of June 1960;

In an order adopted on March 30, 1960, and released April 4, 1960, the Commission extended time for filing comments in the instant proceeding. That extension was deemed desirable inasmuch as the instant proceeding involves proposals to assign a VHF channel at substandard separations under conditions set out in the Notice of Proposed Rule Making adopted January 4, 1960, in Docket 13340 (Interim Policy on VHF Television Channel Assignments and Amendment of Part 3 of the rules concerning Television Engineering Standards), and the Commission had on the same day also extended time for filing comments in that proceeding.

The Commission today adopted a Notice announcing that the field strength curves issued May 5, 1960, in Docket 13340 will be modified and reissued as soon as they can be prepared and printed, and extended the time for filing comments in that proceeding. The curves for Channels 2–6 will be the same as the May 5th curves which were intended for use on all VHF channels, but the revised curves for Channels 7–13 will not be the same as the May 5th curves. Among the alternative proposals in the instant proceedings are proposals to assign channels in the upper VHF band and comments filed may require reference to the revised upper VHF curves.

Accordingly, it is ordered, That the last dates for filing comments and reply comments in this proceeding are extended to September 1, 1960, and September 16, 1960, respectively.

Released: June 9, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 60-5391; Filed, June 13, 1960; 8:50 a.m.]

PROPOSED RULE MAKING

[47 CFR Part 3]

[Docket No. 13340; FCC 60-668]

VHF TELEVISION CHANNEL ASSIGNMENTS AND ENGINEERING STANDARDS

Notice of Extension of Time for Filing Comments

In the matter of Interim policy on VHF Television Channel Assignments and amendment of Part 3 of the rules concerning Television Engineering Standards, Docket No. 13340.

On January 4, 1960, the Commission adopted a notice of proposed rule making in the above entitled matter which among other things, proposed to revise the Field Strength Charts of the rules on the basis of additional data and measurements obtained since the original charts were adopted. The revised charts were shown in that document.

On May 5, 1960, the Commission issued a further notice of proposed rule making proposing a single set of Field Strength Charts for both the upper and lower VHF television bands, in lieu of the two sets of charts originally proposed. This latter proposal was based on a recommendation by the Radio Propagation Advisory Committee (RPAC) composed of industry and Government engineers. Preliminary examination of the available data supported this proposal.

The data have been meanwhile reviewed by RPAC and there is general agreement that the measurements and data obtained on tropospheric signals show rather conclusively that these signals are not significantly frequency sensitive in the VHF television broadcast bands and a single set of curves may be drawn for all VHF television channels. The data and measurements with respect to groundwave signals are not so conclusive. Further study and analysis is needed to establish definitely the relation of frequency to groundwave propagation.

The single set of curves proposed in the May 5th, 1960, notice were derived by merging the groundwave curves based on close-in measurements, with the tropospheric measurements made at greater distances. The resulting curves are substantially the same as would be developed if the new tropospheric data curves were merged with the low VHF curves (Ad Hoc curves) of our present rules. Consequently, the revised curves issued with our May 5th, 1960, notice are still valid for the low VHF channels. In view of the fact that the further study of the available data for the high VHF channels may take considerable time and perhaps require additional measurements, we believe that consistent treatment should be given the high VHF curves. Therefore, revised curves derived by merging the present high VHF Ad Hoc groundwave curves with the new and accepted tropospheric curves, will be prepared and issued in a Further Notice of Proposed Rule Making in Docket No. 13340. At the same time, the May 5th curves will be reissued and limited to use for the low VHF channels. These curves will be issued as soon as they can be prepared and printed.

Since this will go beyond the present expiration date for filing comments in Docket No. 13340, the Commission is extending the dates for filing comments and replies to comments in order to allow computation of pertinent data based upon the revised curves. Data prepared for low VHF channels and based upon the May 5th curves will still be valid. Data and comments for high VHF stations should be held in abeyance until the revised high VHF curves are issued.

Accordingly, it is ordered, This 8th day of June 1960, that the time for filing comments herein is extended from June 20, 1960, until September 1, 1960; and that the time for filing reply comments is extended from July 5, 1960 until September 16, 1960.

Released: June 9, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[Order 2823, Amdt. 1]

LAND DISTRICTS AND LAND OFFICES IN ALASKA

Reestablishment of Boundaries

Section 3 of Order No. 2823 (22 F. R. 6366) is amended to adjust the boundary between the Anchorage and Fairbanks Land Districts to conform with township lines rather than boundaries generally following judiciary divisions of the District Court for Alaska. The amended section reads as follows and shall become effective July 1, 1960.

SEC. 3. *Anchorage and Fairbanks land district boundaries reestablished.* (a) The boundary line between the Anchorage and Fairbanks Land Districts is hereby established as follows:

Beginning at the intersection of the 1st Standard Parallel South, Copper River Meridian and the Alaska-Canada Boundary, in latitude 61°28'16.295" N., longitude 141°00' W., thence West approximately 35 miles along the 1st Standard Parallel South, Copper River Meridian, to the Standard Corner of T. 4 S., Rs. 18 and 19 E., Copper River Meridian; in longitude 142°02'56.404" W., thence North approximately 24 miles to the Copper River Meridian Base Line, in latitude 61°49'-04.004" N., thence West approximately 17 miles to the Standard Corner of T. 1 N., Rs. 15 and 16 E., Copper River Meridian, in longitude 142°33'44.669" W., thence North approximately 24 miles to the 1st Standard Parallel North, Copper River Meridian, in latitude 62°09'51.649" N.; thence East approximately 1 mile to the Standard Corner of T. 5 N., Rs. 15 and 16 E., Copper River Meridian, in longitude 142°31'51.708" W.; thence North approximately 24 miles to the 2nd Standard Parallel North, Copper River Meridian, in latitude 62°30'39.231" N.; thence West approximately 5 miles to the Standard Corner of T. 9 N., Rs. 14 and 15 E., Copper River Meridian, in longitude 142°41'10.480" W.; thence North approximately 6 miles to the Corner of Ts. 9 and 10 N., Rs. 14 and 15 E., Copper River Meridian, in latitude 62°35'-51.116" N.; thence West approximately 12 miles to the Corner of Ts. 9 and 10 N., Rs. 12 and 13 E., Copper River Meridian, in longitude 143°03'39.912" W.; thence North approximately 6 miles to the Corner of Ts. 10 and 11 N., Rs. 12 and 13 E., Copper River Meridian, in latitude 62°41'02.998" N.; thence West approximately 12 miles to the Corner of Ts. 10 and 11 N., Rs. 10 and 11 E., Copper River Meridian, in longitude 143°26'-09.344" W.; thence North approximately 12 miles to the 3rd Standard Parallel North, Copper River Meridian, in latitude 62°51'-26.749" N., thence West approximately 60 miles to the Copper River Meridian in longitude 145°18'36.503" W.; thence South along the Copper River Meridian approximately 24 miles to the 2nd Standard Parallel North, in latitude 62°30'39.231 N.; thence West approximately 12 miles to the Standard Corner of T. 9 N., Rs. 2 and 3 W., Copper River Meridian, in longitude 145°41'05.925" W.; thence North, approximately 6 miles to the Corner of Ts. 9 and 10 N., Rs. 2 and 3 W., in latitude 62°35'51.116" N.; thence West approximately 18 miles to the Corner of Ts. 9 and 10 N., Rs. 5 and 6 W., Copper River Meridian, in longitude 146°14'50.083" W.; thence North approximately 6 miles to the corner of Ts. 10 and 11 N., Rs. 5 and 6 W., Copper River Meridian, in latitude 62°41'02.998" N.; then West approximately 30 miles to the closing corner of Ts. 10 and 11 N., Copper River Meridian on the 3rd Guide Meridian East, Seward Meridian, in longitude 147°06'17.941" W.; thence North approximately 15 miles to the 8th Standard Parallel North, Seward Meridian, in latitude 62°53'58.830" N.; then West approximately 5 miles to the Standard Corner of T. 33 N., Rs. 11 and 12 E., Seward Meridian, in longitude 147°16'06.034" W.; thence North approximately 4 miles to the closing corner of T. 33 N., Rs. 11 and 12 E., Seward Meridian, in latitude 62°57'29.836" N., identical with the South Boundary of T. 22 S., of the Fairbanks Meridian; thence West approximately 5½ miles along the South boundary of T. 22 S., R. 2 E. of the Fairbanks Meridian to the Corner of T. 22 S., Rs. 1 and 2 E., Fairbanks Meridian; in longitude 147°26'56.806" W.; thence North approximately 6 miles to the Corner of Ts. 21 and 22 S., Rs. 1 and 2 E., Fairbanks Meridian, in latitude 63°02'41.751" N.; thence West approximately 18 miles to the Corner of Ts. 21 and 22 S., Rs. 2 and 3 W., Fairbanks Meridian, in longitude 148°01'24.052" W.; thence North approximately 6 miles to the Corner of Ts. 20 and 21 S., Rs. 2 and 3 W., Fairbanks Meridian, in latitude 63°07'58.612 N.; thence West approximately 24 miles to the Corner of Ts. 20 and 21 S., Rs. 6 and 7 W., Fairbanks Meridian, in longitude 148°47'-20.379" W.; thence North approximately 12 miles to the corner of Ts. 18 and 19 S., Rs. 6 and 7 W., Fairbanks Meridian, in latitude 63°18'17.323" N.; thence West approximately 18 miles to the Corner of Ts. 18 and 19 S., Rs. 9 and 10 W., Fairbanks Meridian, in longitude 149°21'47.624" W.; thence North approximately 4 miles to the Closing Corner of T. 18 S., Rs. 9 and 10 W., Fairbanks Meridian, at intersection with the Southerly boundary of U.S. Survey No. 2177 (Mt. McKinley National Park); thence approximately South 63°54' W. approximately 93 miles on a right line along the Southerly boundary of U.S. Survey No. 2177 to Corner No. 5 of U.S. Survey No. 2177, identical with the summit of Mt. Russell, in latitude 62°47'-55.984" N., longitude 151°52'55.927" W., from which forward azimuth to Corner No. 6 is N. 62°38'13.252" E., (back azimuth S. 65°11'43.474" W.); thence N. 17°52'02" W. on the forward azimuth to Corner No. 4, approximately 1¼ miles along the Westerly boundary of U.S. Survey No. 2177 to the Closing Corner of Ts. 31 and 32 N., R. 14 W., Seward Meridian, in latitude 62°49'-46.958" N.; thence West approximately 9 miles between Ts. 31 and 32 N., Seward Meridian, to the Corner of Ts. 31 and 32 N., Rs. 15 and 16 W., Seward Meridian, in longitude 152°10'21.091" W.; thence South approximately 12 miles to the Corner of Ts. 29 and 30 N., Rs. 15 and 16 W., Seward Meridian, in latitude 62°38'23.208" N.; thence West approximately 18 miles to the corner of Ts. 29 and 30 N., Rs. 18 and 19 W., Seward Meridian, in longitude 152°44'08.108" W.; thence South approximately 6 miles to the 7th Standard Parallel North, Seward Meridian, in latitude 62°33'11.310" N.; thence West approximately 5 miles to the Closing Corner of T. 28 N., Rs. 19 and 20 W., Seward Meridian, in longitude 152°52'56.447" W.; thence South approximately 24 miles to the 6th Standard Parallel North, Seward Meridian, in latitude 62°12'23.745" N.; thence West approximately 5 miles to the Closing Corner of T. 24 N., Rs. 20 and 21 W., Seward Meridian, in longitude 153°01'33.274" W.; thence South approximately 24 miles to the 5th Standard Parallel North, Seward Meridian, in latitude 61°51'36.108" N.; thence East approximately 1¼ miles to the Closing Corner of T. 30 N., Rs. 20 and 21 W., Seward Meridian, in longitude 152°59'06.094 W.; thence South approximately 24 miles to the 4th Standard Parallel North, Seward Meridian in latitude 61°30'48.407" N.; thence West approximately 11 miles to the Closing Corner of T. 16 N., Rs. 22 and 23 W., Seward Meridian, in longitude 153°18'14.157" W.; thence South approximately 24 miles to the 3rd Standard Parallel North, Seward Meridian in latitude 61°10'00.641" N.; thence West approximately 5 miles to the Closing Corner of T. 12 N., Rs. 23 and 24 W., Seward Meridian, in longitude 153°26'19.047" W.; thence South approximately 24 miles to the 2nd Standard Parallel North, Seward Meridian, in latitude 60°49'12.809" N.; thence West approximately 18 miles to the Standard Corner of T. 9 N., Rs. 26 and 27 W., Seward Meridian, in longitude 153°58'15.530" W.; thence North approximately 6 miles to the Corner of Ts. 9 and 10 N., Rs. 26 and 27 W., Seward Meridian, in latitude 60°54'24.773" N.; thence West approximately 36 miles to the Corner of Ts. 9 and 10 North, Rs. 32 and 33 W., Seward Meridian, in longitude 155°02'06.497" W.; thence South approximately 6 miles to the 2nd Standard Parallel North, Seward Meridian, in latitude 60°49'12.809" N.; thence

West approximately 10 miles to the Closing Corner of T. 8 N., Rs. 34 and 35 W., Seward Meridian, in longitude 155°19'34.124" W.; thence South approximately 12 miles to the Corner of Ts. 6 and 7 N., Rs. 34 and 35 W., Seward Meridian, in latitude 60°38'48.869" N., thence West approximately 60 miles to the Corner of Ts. 6 and 7 N., Rs. 44 and 45 W., Seward Meridian, in longitude 157°04'-54.186" W.; thence North approximately 6 miles to the corner of Ts. 7 and 8 N., Rs. 44 and 45 W., Seward Meridian, in latitude 60°44'00.941" N.; thence West approximately 18 miles to the Corner of Ts. 7 and 8 N., Rs. 47 and 48 W., Seward Meridian, in longitude 157°36'30.169" W.; thence South approximately 18 miles to the 1st Standard Parallel North, Seward Meridian, in latitude 60°28'-24.913" N.; thence West approximately 56 miles to the Closing Corner of T. 4 N., Rs. 57 and 58 W., Seward Meridian, in longitude 159°15'30.726" W.; thence South approximately 24 miles to the Seward Base line in latitude 60°07'36.950" N.; thence West approximately 26 miles to the Closing Corner of T. 1 S., Rs. 62 and 63 W., Seward Meridian, in longitude 160°00'54.682" W.; thence South approximately 24 miles to the 1st Standard Parallel South, Seward Meridian, in latitude 59°48'48.921" N.; thence West approximately 14 miles to the Closing Corner of T. 5 S., Rs. 65 and 66 W., Seward Meridian in longitude 160°24'59.092" W.; thence South approximately 24 miles to the 2nd Standard Parallel South, Seward Meridian, in latitude 59°26'00.824" N.; thence West approximately 1½ miles to the Closing Corner of T. 9 S., Rs. 66 and 67 W., Seward Meridian, in longitude 160°26'23.061" W.; thence South approximately 12 miles to the Corner of Ts. 10 and 11 S., Rs. 66 and 67 W., Seward Meridian, in latitude 59°15'36.751" N.; thence West approximately 12 miles to the Corner of Ts. 10 and 11 S., Rs. 68 and 69 W., Seward Meridian, in longitude 160°48'35.699" W.; thence South approximately 12 miles to the 3rd Standard Parallel South, Seward Meridian, in latitude 59°05'12.661" N.; thence West approximately 19½ miles to the Closing Corner of T. 12 S., Rs. 72 and 73 W., Seward Meridian, in longitude 161°21'45.776" W.; thence South approximately 24 miles to the 4th Standard Parallel South, Seward Meridian, in latitude 58°44'24.429" N.; thence West approximately 16 miles along the 4th Standard Parallel South, Seward Meridian, to the line of mean high tide, Kuskokwim Bay.

(b) The Land Offices at Anchorage and Fairbanks are continued; however, the business and necessary archives pertaining to the boundary changes shall be transferred to the respective Land Offices.

FRED A. SEATON,
Secretary of the Interior.

CIVIL AERONAUTICS BOARD

[Docket 9214 etc.]

REOPENED NEW YORK-SAN FRANCISCO NONSTOP SERVICE CASE

Notice of Hearing

Notice is hereby given, pursuant to the Federal Aviation Act of 1958, as amended, that hearing in the above-entitled proceeding is assigned to be held on July 6, 1960, at 10:00 a.m., e.d.s.t., in Room 911, Universal Building, Connecticut and Florida Avenues NW., Washington, D.C., before Examiner Edward T. Stodola for the limited purposes of ascertaining the relevant facts and determining (a) whether any party to the Board's proceeding violated the Board's Principles of Practice, and, if so, (b) whether the Board's rules were so violated as to require a setting aside of the order of certification. See Order E-15342.

Dated at Washington, D.C., June 9, 1960.

ATOMIC ENERGY COMMISSION

[Docket No. 50-38]

MARTIN CO.

Notice of Issuance of Amendment to Utilization Facility License

Please take notice that no request for a formal hearing having been filed following the filing of the proposed action with the Office of the Federal Register on May 20, 1960, the Atomic Energy Commission has issued amendment No. 7 to Facility License No. CX-7. The amendment authorizes The Martin Company, as requested in its application for license amendment dated May 5, 1960, to conduct experiments which involve the use of components consisting of homogeneous dispersions in plastic of uranium, stainless steel, and boron, in Test Cell No. 2 of its Critical Experiments Facility located near Middle River, Maryland. Notice of the proposed action was published in the FEDERAL REGISTER on May 21, 1960, 25 F.R. 4523.

Dated at Germantown, Md., this 7th day of June 1960.

For the Atomic Energy Commission.

R. L. KIRK,
Deputy Director, Division of Licensing and Regulation.

FEDERAL RESERVE SYSTEM

NEW HAMPSHIRE BANKSHARES, INC.

Order Approving Application Under Bank Holding Company Act

In the matter of the application of New Hampshire Bankshares, Inc. for prior approval of acquisition of voting shares of The Peoples National Bank of Claremont, Claremont, New Hampshire.

There having come before the Board of Governors pursuant to section 3(a)(2) of the Banking Holding Company Act of 1956 (12 U.S.C. 1843) and section 4(a)(2) of the Board's Regulation Y (12 CFR 222.4(a)(2)), an application on behalf of New Hampshire Bankshares, Inc., Nashua, New Hampshire, for the Board's prior approval of the acquisition of up to 60 percent of the 2,000 outstanding voting shares of The Peoples National Bank of Claremont, Claremont, New Hampshire; a Notice of Tentative Decision referring to a Tentative Statement on said application having been published in the FEDERAL REGISTER on May 18, 1960 (25 F.R. 4403); the said notice having provided interested persons an opportunity, before issuance of the Board's final order, to file objections or comments upon the facts stated and the reasons indicated in the Tentative Statement; and the time for filing such objections and comments having expired and no such objections or comments having been filed;

It is hereby ordered, For the reasons set forth in the Board's Statement[1] of this date, that the said application be and hereby is granted, and the acquisition by New Hampshire Bankshares, Inc. of up to 60 percent of the 2,000 outstanding voting shares of The Peoples National Bank of Claremont, Claremont, New Hampshire, is hereby approved, provided that such acquisition is completed within three months from the date hereof.

Dated at Washington, D.C., this 6th day of June 1960.

By order of the Board of Governors.

[SEAL] MERRITT SHERMAN,
Secretary.

[F.R. Doc. 60-5362; Filed, June 13, 1960; 8:46 a.m.]

FEDERAL POWER COMMISSION

[Docket No. E-6994]

CENTRAL HUDSON GAS & ELECTRIC CO.

Order To Show Cause

JUNE 7, 1960.

The 1958 and 1959 Annual Reports (FPC Form No. 1) of Central Hudson Gas & Electric Company (Company), a New York Corporation with its principal place of business at Poughkeepsie, New York, together with Company's books of account, indicate that Company is currently accounting and reporting certain charges and credits arising from accounting procedures for deferred taxes on income in a manner contrary to the requirements of the Commission's Uniform System of Accounts Prescribed for Public Utilities and Licensees. Company's 1958 and 1959 Annual Reports were filed with this Commission on May 1, 1959, and May 2, 1960, respectively. Company's books and records were examined by this Commission's staff during a field study conducted in February 1960.

Company is a public utility within the meaning of that term under the Federal Power Act.

In Company's Annual Report to the Commission for 1958 p. 13, Comparative Balance Sheet, there is included the credit amount of $1,263,541 in Account 271, Earned Surplus. That amount represents Company's accumulated annual provision, as of December 31, 1958, for Federal income taxes deferred pursuant to section 167 of the Internal Revenue Code of 1954.

In reporting[2] this credit amount of $1,263,541 which relates to both electric and gas utility facilities as of December 31, 1958, Company's Annual Report at pp. 14 and 14-A, Notes to Balance Sheet, and p. 23 of Company's annual report to stockholders (which annual report is required to be appended as a part of the Commission's FPC Form No. 1), indicate that at various times prior to April 1, 1959, this credit amount was transferred from Account 271, Earned Surplus to Account 266, Accumulated Deferred Taxes on Income—Liberalized Depreciation, and then retransferred from Account 266 to Account 271. Both the transfer and retransfer are reported to have been "effective" January 1, 1959. Company's 1959 Annual Report to this Commission shows the credit balance of $1,263,541 as a part of Company's Account 271, Earned Surplus as of December 31, 1959.

During this same period, 1958-1959, Company's books of account, as contradistinguished from Company's Annual Reports to this Commission show the credit of $1,263,541 to be included in an account principally numbered and titled Account 242.21, Other Deferred Credits—Accumulated Deferred Taxes Liberalized Depreciation.[1] Company's adjusting journal entries effecting the afore-mentioned transfer and retransfer upon its books of account show those transfers as involving only Account 271 and Account 242.21, with mention of Account 266 entirely omitted.

Also, effective January 1, 1959, Company discontinued its prior action in following deferred tax accounting for liberalized depreciation practices of Company pursuant to section 167 of the Internal Revenue Code of 1954. The Company's action in this regard was reported to the Commission by letter dated April 20, 1959 and at p. 14-A of the Company's 1958 Annual Report to this Commission. Company had elected to follow liberalized depreciation practices commencing in 1954. Its annual charges to income for the above federal income taxes thus deferred, as shown per Company books of account, have been made to an account principally numbered and titled Account 539.12 Provision For Deferred Taxes—Liberalized Depreciation.[3] Company's monthly provisions for deferred federal income taxes during the year 1958 included in the afore-mentioned $1,263,541, total $473,631.

In addition to Company's liberalized depreciation practices, Company currently accounts and reports certain charges and credits arising from accounting procedures for accelerated amortization practices of Company pursuant to Section 168 of the Internal Revenue Code of 1954.[4]

Company's Annual Report for 1958, substitute p. 13,[4] shows the credit balance of $1,742,265 in Account 266, Accumulated Deferred Taxes on Income—Accelerated Amortization. That amount is reported as representing Company's accumulated annual provision, to December 31, 1958, for Federal income taxes deferred pursuant to Section 168 of the Internal Revenue Code of 1954. However, as in the case of Company's accumulated annual provision for deferred income taxes pursuant to Section 167 of the 1954 Internal Revenue Code. Company's books of account show this credit balance to be included in a balance sheet account other than Account 266; namely, an account principally numbered and titled Account 242.21, Other Deferred Credits—Accumulated Deferred Taxes Accelerated Amortization.[5] Company's adjusting journal entries establishing this credit balance of $1,742,265 show the transfer of that amount to Account 242.21 from Company's Account 271 with mention of Account 266 entirely omitted.

As of December 31, 1959 the corresponding credit balance of Company's accumulated annual provision for deferred income taxes pursuant to Section 168 of the Internal Revenue Code of 1954 is $2,032,104. In Company's 1959 Annual Report (FPC Form No. 1), this amount is included in Account 266. On Company's books of account it appears in the previously described "Account 242.21 Other Deferred Credits—Accumulated Deferred Taxes Accelerated Amortization."

Company's annual charge to income for the above Federal income taxes thus deferred, as shown per Company books of account, have been to an account principally numbered and titled Account 538.30 Provision for Deferred Income Taxes—Accelerated Amortization.[6] For the years 1958 and 1959 Company's monthly charges total $414,980 and $289,839, respectively.

Together Accounts 507 A and B and 266 constitute the income and balance sheet accounts, respectively, prescribed by this Commission's Order No. 204 (19 F.P.C. 837) as the appropriate accounting classification for Federal and State income taxes deferred by reason of liberalized depreciation and accelerated amortization practices under sections 167 and 168 of the Internal Revenue Code of 1954 and appropriate State authorization. Among other things, that order finds that surplus, even though restricted, is not an appropriate balance sheet classification for accumulated annual provision for deferred income taxes; and provides, specifically with respect to Account 266.1 Accumulated Deferred Taxes on Income—Accelerated Amortization, and Account 266.2, Accumulated Deferred Taxes on Income—Liberalized Depreciation, that:

Account 266.1:

A. This account shall be credited and Account 507-A, Provision for Deferred Taxes on Income, shall be debited with an amount equal to that by which taxes on income payable for the year are lower because of the use of accelerated (5-year) amortization of certified defense facilities in computing such taxes, as permitted by section 168 of the Internal Revenue Code of 1954 (section 124A of previous Internal Revenue Code), as compared to the depreciation deduction otherwise appropriate and allowable for tax purposes according to the straight line or other nonaccelerated depreciation method and appropriate estimated useful life for such property.

B. This account shall be debited and Account 507-B, Taxes on Income De-

[1] A memorandum notation "Account 266, Accumulated Deferred Taxes on Income—Liberalized Depreciation" further appears on the ledger account of Company as titled and referred to above.

[2] A memorandum notation "Account 507-A Provisions for Deferred Taxes on Income" further appears on the ledger account of Company as titled and referred to above.

[3] Formerly section 124-A of the Federal Internal Revenue Act of 1950.

[4] Transmitted by letter of Company dated March 16, 1960 in response to a Commission staff "letter request" dated March 10, 1960.

[5] A memorandum notation "Account 266, Accumulated Deferred Taxes on Income—Accelerated Amortization" further appears on the ledger account of Company as titled and referred to above.

[6] A memorandum notation "Account 507-A Provisions for Deferred Taxes on Income" further appears on the ledger account of Company as titled and referred to above.

ferred in Prior Years—Credit, shall be credited with an amount equal to that by which taxes on income payable for the year are greater because of the use in prior years of accelerated (5-year) amortization of certified defense facilities instead of non-accelerated or non-liberalized depreciation otherwise appropriate for income tax purposes, and deferral of taxes in such prior years as described in paragraph A, above. Such debit to this account and credit to Account 507–B shall, in general, represent the effect on taxes payable for the current year of the unavailability of a depreciation deduction for tax purposes, or a reduced amount, with respect to any depreciable property for which accelerated amortization was used in prior years, as compared to the depreciation deduction otherwise available and appropriate for such property, considering its estimated useful life, according to the depreciation method ordinarily used by the utility for similar property in computing depreciation for tax purposes by a nonaccelerated or nonliberalized depreciation method.

D. • • • If, however, deferred tax accounting is initiated with respect to any certified defense facility, the accounting shall not be suspended or discontinued on the property covered by that certificate, without approval of the Commission.

E. The utility is restricted in its use of this account to the purposes set forth above. It shall not transfer the balance in this account or any portion thereof to surplus or make any use thereof except as provided in the text of this account without prior approval of the Commission. • • •

Account 266.2:

A. This account shall be credited and Account 507–A, Provision for Deferred Taxes on Income, shall be debited with an amount equal to that by which taxes on income payable for the year are lower because of the use of liberalized depreciation in computing such taxes, as permitted by section 167 of the Internal Revenue Code of 1954, as compared to the depreciation deduction otherwise appropriate and allowable for tax purposes for similar property of the same estimated useful life according to the straight line or other nonliberalized method of depreciation.

B. This account shall be debited and Account 507–B, Taxes on Income Deferred in Prior years—Credit, shall be credited with an amount equal to that by which taxes on income payable for the year are greater because of the use in prior years of liberalized depreciation for income tax purposes, and deferral of taxes in such prior years as described in paragraph A above. Such debit to this account and credit to Account 507–B, shall, in general, represent the effect on taxes payable for the current year of the smaller amount of depreciation permitted for tax purposes for the current year with respect to any depreciable property for which liberalized depreciation was used in prior years, as compared to the depreciation deduction otherwise appropriate and available for similar property of the same estimated useful life according to the straight line or other nonliberalized depreciation method ordinarily used by the utility in computing depreciation for tax purposes.

• • • • •

D. • • • If however, deferred tax accounting is initiated with respect to any property such accounting shall not be discontinued on that property, without approval of the Commission.

E. The utility is restricted in its use of this account to the purposes set forth above. It shall not transfer the balance in the account or any portion thereof to surplus or make any use thereof except as provided in the text of this account without prior approval of the Commission • • •.[1]

Correspondence between Company representatives and this Commission's staff has failed to show any justification for Company's departure from the requirements of this Commission's Uniform System of Accounts as indicated above. Moreover, Company representatives have indicated that Company proposes to continue the afore-mentioned accounting practices.

In view of the foregoing, it is necessary and appropriate for the purposes of the Federal Power Act (particularly sections 301(a), 304, 309 and 311 thereof), that Company show cause, if there be any, for its past and continuing departure from the requirements of this Commissions Uniform System of Accounts; all in the manner hereinafter provided.

The Commission orders: Company shall show cause, if there be any, under oath and in writing within 60 days from the issuance of this order, why the Commission should not find and determine:

(1) That Company is accounting for and reporting financial data relative to deferred taxes on income otherwise than by the use of the Commission's Prescribed Accounts 507 and 266, all as indicated above; and therefore that it has and continues to violate the accounting and reporting requirements prescribed by the Commission through its Uniform System of Accounts;

(2) That this action by Company constitutes a willful and knowing violation of the Federal Power Act;

(3) That the Company be required to make, keep, preserve and report its accounts in the manner prescribed by this Commission in its Uniform System of Accounts Prescribed for Public Utilities and Licensees; and

(4) That the Company be ordered to file such substitute pages of its Annual Reports for 1958 and 1959 (FPC Form No. 1) to make the accounting and reporting of accumulated deferred taxes on income therein consistent, and in compliance with the requirements therefor as prescribed by the Commission.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File No. 24SF–2648]

AUTOMATION-ENGINEERING CORP.

Order Temporarily Suspending Exemption, Statement of Reasons Therefor, and Notice of Opportunity for Hearing

JUNE 8, 1960.

I. Automation-Engineering Corporation (issuer), a Delaware corporation, filed with the Commission on October 7, 1959 a notification on Form 1–A and an offering circular relating to an offering of 150,000 shares of its $1.50 par value capital stock at $2 per share for an aggregate offering of $300,000 for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) and Regulation A promulgated thereunder.

II. The Commission has reasonable cause to believe that:

A. The terms and conditions of Regulation A have not been complied with in that the notification fails to disclose that S & M Lamp Co., advanced Manufacturing, Inc. and Flasher Electronics Corp. are each affiliates of the issuer.

B. The offering circular contains untrue statements of material facts and omits to state material facts necessary in order to make the statements made, in the light of the circumstances under which they are made, not misleading, particularly with respect to:

1. The failure to disclose adequately the relationship and interest of the issuer and its officers and directors in S & M Lamp Co., Northwest Land & Timber, Inc., Flasher Electronics Corp. and Advanced Manufacturing, Inc.;

2. The failure to set forth profit and loss statements for S & M Lamp Co., Electronics Corp. and Advanced Manufacturing, Inc.;

3. The failure to set forth consolidated financial statements of the issuer and its wholly owned subsidiary, Northwest Land & Timber, Inc.;

4. The failure to disclose the cash investment of the issuer's president in Northwest Land & Timber, Inc.;

5. Statements concerning the valuation of assets of Northwest Land & Timber, Inc.

C. The offer would be made in violation of Section 17 of the Securities Act of 1933, as amended.

III. *It is ordered*, Pursuant to Rule 261 of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any persons having any interest in the matter may file with the Secretary of the Commission a written request for hearing within thirty days herefrom; that within twenty days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 70–3886]

BLACKSTONE VALLEY GAS AND ELECTRIC CO.

Notice of Filing of Declaration Regarding Proposed Issuance of Short-Term Notes to Banks

JUNE 7, 1960.

Notice is hereby given that Blackstone Valley Gas and Electric Company ("Blackstone"), an exempt holding company and a public-utility subsidiary of Eastern Utilities Associates, a registered holding company, has filed with this Commission a declaration, pursuant to the Public Utility Holding Company Act of 1935 ("Act"), regarding its proposal to issue and sell short-term notes to banks; and has designated sections 6(a) and 7 of the Act and Rules 50(a)(2) and 42(b)(2) as applicable to the proposed transactions.

All interested persons are referred to the declaration on file at the office of the Commission for a statement of the transactions therein proposed, which are summarized as follows:

Blackstone estimates that at July 1, 1960 it will have outstanding an aggregate of $1,700,000 face amount of short-term notes held by banks, and that to meet its construction requirements through December 31, 1960 it will need an estimated additional $1,000,000.

During the period July 1, 1960 to December 31, 1960, Blackstone proposes to issue notes, from time to time, in the aggregate maximum face amounts, to the following banks:

Industrial National Bank of Providence, Providence, R.I.	$1,350,000
Rhode Island Hospital Trust Co., Providence, R.I.	1,350,000
Total	2,700,000

The proposed borrowings are to be evidenced by unsecured notes, maturing in less than nine months from date of issuance, bearing interest at not in excess of the prime rate effective at the date of the borrowing, and prepayable in whole or in part without penalty. It is contemplated that the first borrowings under the authorization here requested will be made on July 1, 1960.

The proceeds from the notes will be used to pay, from time to time, outstanding short-term notes at or prior to maturity, and to pay for construction expenditures. If any permanent financing is done before the maturity of said notes the proceeds are to be applied to the partial or total prepayment of declarants short-term indebtedness then outstanding, and the short-term notes which may be outstanding at any one time hereunder shall, thereafter, be reduced by the amount of the proceeds so applied; except that such reduction shall not limit the amount of short-term indebtedness permitted by the provisions of section 6(b) of the Act.

The declaration states that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions; and that no commissions, fees, expenses, remuneration, other than legal fees and disbursements of counsel, are to be paid, and that the fees and expenses of counsel are to be supplied by amendment to the declaration.

Notice is further given that any interested person may not later than June 23, 1960, request in writing that a hearing be held in respect of the declaration, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the declaration which he desires to controvert, or he may request that he be notified should the Commission order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. At any time after said date, the Commission may permit the declaration, as filed or as it may be amended, to become effective, as provided in Rule 23 promulgated under the Act, or the Commission may grant exemption from its rules and regulations under the Act, as provided in Rules 20(a) and 100 thereof, or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

MARKO MINING & MILLING CO., INC.

Order Temporarily Suspending Exemption, Statement of Reasons Therefor, and Notice of Opportunity for Hearing

JUNE 7, 1960.

I. Marko Mining & Milling Co., Inc. (issuer), a Nevada corporation, 116 South Fourth Street, Las Vegas, Nevada, filed with the Commission on December 15, 1959, a notification on Form 1–A and an offering circular relating to an offering of 300,000 shares of its $1 par value common stock at $1 per share for an aggregate of $300,000 for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) thereof and Regulation A promulgated thereunder.

II. The Commission has reasonable cause to believe that:

A. The terms and conditions of Regulation A have not been complied with in that the notification fails to disclose that Great Basin Consolidated Mines, Inc., a Nevada corporation, is an affiliate of the issuer.

B. The offering circular omits to state material facts necessary in order to make the statements made, in the light of the circumstances under which they are made, not misleading, particularly with respect to the failure to disclose the existence of Great Basin Consolidated Mines, Inc., a company organized by and having the same controlling persons as the issuer and having the same business purpose as the issuer.

C. The offering is being and will be made in violation of section 17 of the Securities Act of 1933.

III. *It is ordered*, Pursuant to Rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for hearing within thirty days after the entry of this order; that within twenty days after receipt of such request the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission, for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration

[Docket No. 13513; FCC 60M-991]

NATIONAL AMBULANCE & OXYGEN SERVICE, INC.

Order Changing Place of Hearing

In the matter of National Ambulance & Oxygen Service, Inc., Rochester, New York, Docket No. 13513; order to show cause why the license for Special Emergency Radio Station KED-379 should not be revoked, or, in the alternative, why a cease and desist order should not be issued.

The Chief Hearing Examiner having under consideration a request by respondent, filed May 25, 1960, for a change in place of hearing in the above-entitled proceeding;

It appearing that by order released May 25, 1960, hearing in this proceeding was scheduled to be held in Washington, D.C.;

It appearing further according to allegations herein, that the cost of producing witnesses at a hearing held in Washington, D.C., would be prohibitive to respondent;

It appearing further that the Commission's Safety and Special Radio Services Bureau, by pleading filed June 6, 1960, states that it does not oppose respondent's request;

It appearing further that the instant request is supported by a showing of good and sufficient cause;

It is ordered, This 7th day of June 1960, that the request is granted and that the place of hearing in the above-entitled proceeding is changed from Washington, D.C., to Rochester, N.Y.

Released: June 8, 1960.

INTERSTATE COMMERCE COMMISSION

[Notice 328]

MOTOR CARRIER TRANSFER PROCEEDINGS

JUNE 9, 1960.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC 63027. By order of June 6, 1960, the Transfer Board approved the transfer to Ardevco, Inc., doing business as Harry's Transfer and Storage Co., American National Van & Storage Co., Bunnell Transfer Co., Southside Transfer Co., and Arcadia Van Lines, 4641 Huntington Drive, North, Los Angeles, Calif., of the operating rights set forth in Certificate No. MC 111471, issued by the Commission February 21, 1950, to Wendell H. Brown, doing business as American National Van & Storage Company, 4641 Huntington Drive, North, Los Angeles, Calif., authorizing the transportation, over irregular routes, of household goods, as defined by the Commission, between Altadena and Pasadena, Calif., on the one hand, and, on the other Los Angeles and Los Angeles Harbor, Calif.

No. MC-FC 63301. By order of June 8, 1960, the Transfer Board approved the transfer to Ellingwood Trucking Company, a corporation, Littleton, N.H., of Certificate No. MC 55417 issued May 21, 1943 to Ismond David Ellingwood, doing business as I. D. Ellingwood General Trucking, Groveton, N.H., authorizing the transportation of household goods, as defined by the Commission, over irregular routes, between Groveton, N.H., and points in New Hampshire and Vermont within 50 miles of Groveton, on the one hand, and, on the other, points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, and New Jersey; and machinery, forest products, livestock, building materials, groceries, agricultural commodities and supplies for farms, between St. Johnsbury, Vt., and points in Coos County, N.H., and Essex County, Vt. Horace F. Kinne, Sr., 2 Green Street, Littleton, N.H., for transferee, and Ismond David Ellingwood, Dba I. D. Ellingwood General Trucking, 8 Rich Street, Groveton, N.H., for Transferor.

FOURTH SECTION APPLICATIONS FOR RELIEF

JUNE 9, 1960.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 36311: *Commodities between points in Texas.* Filed by Texas-Louisiana Freight Bureau, Agent (No. 386), for interested rail carriers. Rates on bags or bagging, urea, softeners, aluminum cable and paper scrap in carloads between points in Texas over interstate routes through adjoining states.

Grounds for relief: Intrastate competition and maintenance of rates from and to points in other states not subject to the same competition.

Tariff: Supplement 103 to Texas-Louisiana Freight Bureau tariff I.C.C. 865.

FSA No. 36313: *Cement—Ward Spur, Tex., to southern territory.* Filed by Southwestern Freight Bureau, Agent (No. B-7812), for interested rail carriers. Rates on cement and related articles, in carloads, as described in the application from Ward Spur, Tex., to points in southern territory, also Mississippi River crossings, Memphis, Tenn., and South and to Louisville, Ky.

Grounds for relief: Market competition.

Tariff: Southwestern Freight Bureau tariff I.C.C. 4360.

AGGREGATE-OF-INTERMEDIATES

FSA No. 36312: *Commodities between points in Texas.* Filed by Texas-Louisiana Freight Bureau, Agent (No. 387), for interested rail carriers. Rates on pipe or tubing, bags or bagging, urea, softeners, aluminum cable and paper scrap, in carloads from, to, and between points in Texas, over interstate routes through adjoining states.

Grounds for relief: Maintenance of depressed rates established to meet intrastate competition without use of such rates as factors in constructing combination rates.

Tariff: Supplement 103 to Texas-Louisiana Freight Bureau tariff I.C.C. 865.

By the Commission.

FEDERAL REGISTER

Telephone WOrth 2-3261

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Office of the Federal Register, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D.C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

Title 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[1960 C.C.C. Grain Price Support Bulletin 1, Amdt. 1]

PART 421—GRAINS AND RELATED COMMODITIES

Subpart—General Provisions 1960-Crop Price Support Programs for Grains and Related Commodities

MISCELLANEOUS AMENDMENTS

The regulations issued by the Commodity Credit Corporation and the Commodity Stabilization Service (25 F.R. 2380) and containing regulations of a general nature with respect to price support programs for certain grains and other commodities produced in 1960 are amended as follows:

1. Section 421.5003 is amended to provide that recourse loans may be made to a person only after such person has received $50,000 in nonrecourse loans on the commodity so that the amended section reads as follows:

§ 421.5003 Method of price support.

Nonrecourse price support will be made available through nonrecourse farm storage and nonrecourse warehouse storage loans and through purchase agreements. Recourse price support will be available only through recourse loans. Price support in excess of $50,000 on the 1960 crop of any grain commodity, except dry edible beans, for which a person has not made the reduction in production required in the "Regulations Relating to the $50,000 Limitation", shall be made only through recourse price support loans. Recourse loans may be made to a person only after such person has received $50,000 in nonrecourse price support on the commodity.

§ 421.5008 [Amendment]

2. Section 421.5008 is amended to add a new paragraph (g) to read as follows:

(g) *Application for nonrecourse price support.* An Application for Nonrecourse Price Support–1960 Grain Commodities (Form CCC–114) shall be filed by (i) each producer approved for price support on a grain commodity (except dry edible beans) who has not been approved for an exemption from the limitation on nonrecourse price support for the commodity and who has an interest in the 1960 production of the commodity on more than one farm and (ii) by any other producer who may be requested by the county office.

3. Section 421.5012 is amended by deleting the last sentence thereof so that the amended section reads as follows:

§ 421.5012 Interest rate.

Loans shall bear interest from the date of disbursement of the loan at the rate announced in a separate notice published in the FEDERAL REGISTER.

4. Section 421.5019 (a) is amended by deleting the entire paragraph and substituting in place thereof the following:

§ 421.5019 Liquidation of loans and delivery under purchase agreements.

(a) *General.* (1) The total settlement value of any grain commodity, except dry edible beans, delivered under nonrecourse loans and purchase agreements, by a person who has not qualified for unlimited nonrecourse price support on such commodity, when added to the amount of nonrecourse price support on the commodity extended to such person which has been satisfied other than by deliveries, shall not exceed $50,000. (The rules provided in the "Regulations Relating to the $50,000 Limitation" shall be applied to determine whether certain individuals or legal entities are to be treated as one person or as separate persons for the purpose of applying this $50,000 limitation.) Settlement shall be made on the basis provided in subparagraph 2 of this paragraph (except in the case of dry edible beans) if, in the absence of fraud,

(i) There is delivered under a farm-storage loan or purchase agreement a quantity of the commodity which, if accepted by CCC as a delivery under nonrecourse price support, would result in a person receiving nonrecourse price support on the commodity in excess of $50,000, or

(ii) There is under pledge, in connection with a warehouse storage loan, a quantity of a commodity, which if the Corporation were to accept title thereto in settlement under nonrecourse price support, would result in a person receiving nonrecourse price support on the commodity in excess of $50,000, or

(iii) The loan or purchase agreement has resulted in a person receiving nonrecourse price support on the commodity in excess of $50,000 and in the case of subdivision (i), (ii) or (iii) of this subparagraph such person has not qualified for unlimited nonrecourse price support on the commodity. Such settlement shall be made basis point of delivery to CCC in case of a farm-storage loan or a purchase agreement, or basis point of storage while under pledge in the case of a warehouse storage loan.

(2) In such event, CCC shall: (i) Make available to the producer to whom the loan or purchase agreement has been made a quantity of the Commodity which has a settlement value equal to the excess above $50,000; (ii) sell the quantity of excess commodity at market price for the producer's account and settle with him on the basis of the net proceeds, or (iii) when it is not practicable to effect full settlement as provided in subdivisions (i) and (ii) of this subparagraph, the Corporation may accept the quantity of excess commodity at the market value, as determined by the Corporation, on the date of delivery (or on the maturity date in the case of warehouse storage loans), or the price support value, whichever is lower. The Corporation, however, shall not accept the delivery of any excess commodity from a producer, or accept a pledge of an excess commodity where it is practicable to determine at the time of delivery or pledge the quantity of the commodity which would cause nonrecourse price support extended to a person on the commodity to exceed $50,000. In the absence of fraud, the producer shall refund to the Corporation, promptly upon demand, the total amount of any nonrecourse price support received by a person in excess of $50,000 on the commodity as a result of a loan or purchase agreement to the producer, plus all costs incurred by the Corporation on the excess commodity, together with interest thereon, less the amount due the producer under this paragraph. The rate of interest payable by the producer on such amounts shall be 6 per centum per annum from the date of disbursement, except that if any of such amounts are repaid on or before the maturity date for nonrecourse warehouse storage loans on the commodity, the rate of interest thereon shall be 3½ per centum per annum from the date of disbursement. In the case of joint loans, the term "producer" as used in this subparagraph (2) shall refer to the producer whose share of the joint loan has resulted or would result in a person receiving nonrecourse price support in excess of $50,000.

§ 521.5019 [Amendment]

5. Section 421.5019(b)(1) is amended by deleting the entire subparagraph and substituting in place thereof the following:

(b) *Nonrecourse farm-storage loans.* (1) The producer is required to pay off his nonrecourse loan on or before maturity or to deliver the commodity in accordance with instructions issued by the county office; he may, however, pay off his loan and redeem his commodity at any time prior to the delivery of the commodity to CCC or removal of the commodity by CCC. If the producer desires to deliver the commodity, he should, prior to maturity, give the county office notice in writing of his intention to do so. If the producer does not repay his loan or deliver the commodity as provided above, CCC shall have the right to sell or acquire title to the commodity in accordance with the provisions of the Producer's Note and Supplemental Loan Agreement and

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

§ 421.5020(a). If, either before or after maturity, the commodity is going out of condition or is in danger of going out of condition, the producer shall so notify the county office, and confirm such notice in writing. If the county committee determines that the commodity is going out of condition or is in danger of going out of condition and that the commodity cannot be satisfactorily conditioned by the producer, and delivery cannot be accepted within a reasonable length of time, the county committee shall arrange for an inspection and grade and quality determination. When delivery is completed, settlement shall be made on the basis of such grade and quality determination or on the basis of the grade and quality determination made at the time of delivery, whichever is higher. In the event the farm is sold, there is a change of tenancy, the producer dies or the commodity is threatened with damage by flood, the commodity may be delivered before the maturity date of the loan, upon prior approval by the county committee, or may be delivered before the maturity date of the loan for other reasons upon authorization of the Executive Vice President, CCC. Settlement will be made on the grade, quality and quantity delivered by the producer, as determined by the county committee, in accordance with the provisions of the Producer's Note and Supplemental Loan Agreement and applicable commodity supplement. Delivery of commodities in bulk will be accepted only from the bin(s) in which the commodity under loan is stored. The maximum quantity eligible for delivery in cases where a loan has been made on part of the commodity in the bin shall be the quantity on which the loan was made plus any normal overrun established by the State committee. In the case of commodities stored in bags, only the quantity contained in the bags included in the lot placed under loan may be delivered.

6. Section 421.5022 is amended to correct the address of the Minneapolis CSS Commodity Office so that amended section reads as follows:

§ 421.5022 CSS Commodity Offices.

The CSS Commodity offices and the area served by them are shown below:

Evanston, Illinois, 2201 Howard Street: Connecticut, Delaware, Illinois (except for rice), Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia.

Dallas 1, Texas, 500 South Ervay Street: Alabama, Arkansas, Florida, Georgia, Illinois (for rice only), Louisiana, Mississippi, Missouri (for rice only), New Mexico, North Carolina, Oklahoma, South Carolina, Tennessee, Texas.

Kansas City 11, Missouri, 560 Westport Road: Colorado, Kansas, Missouri (except for rice), Nebraska, Wyoming.

Minneapolis, 10, Minnesota, 6400 France Avenue, So.: Minnesota, Montana, North Dakota, South Dakota, Wisconsin,

Portland 8, Oregon, 1218 Southwest Washington Street: Arizona, California, Idaho, Nevada, Oregon, Utah, Washington.

(Sec. 4, 62 Stat. 1070, as amended; sec. 5, 62 Stat. 1072 secs. 101, 105, 301, 401, 405, 63 Stat. 1051, as amended, 73 Stat. 178; 15 U.S.C. 714 b and c; 7 U.S.C. 1441, 1447, 1421, 1425)

Issued at Washington, D.C., this 10th day of June 1960.

CLARENCE D. PALMBY,
Acting Executive Vice President,
Commodity Credit Corporation.

[F.R. Doc. 60-5465; Filed, June 14, 1960; 8:52 a.m.]

Title 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

SUBCHAPTER C—REGULATIONS AND STANDARDS UNDER THE FARM PRODUCTS INSPECTION ACT

PART 56—GRADING AND INSPECTION OF SHELL EGGS AND UNITED STATES STANDARDS, GRADES, AND WEIGHT CLASSES FOR SHELL EGGS

Miscellaneous Amendments

Notice of the proposed issuance of amendments to the Regulations Governing the Grading and Inspection of Shell Eggs and United States Standards, Grades, and Weight Classes for Shell Eggs was published in the FEDERAL REGISTER of April 27, 1960 (25 F.R. 3652). The regulations hereinafter promulgated are issued pursuant to authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U.S.C. 1621 et seq.).

The amendments provide for billing for the relief grader rendering resident service, on the basis of salary of the grader regularly stationed at the plant. The relief grader's added salary cost will be recovered by increasing the charge for fringe benefits. The fringe benefit factor is also increased to cover the cost to the Government due to the enactment of the Federal Employees' Health Benefits Act of 1959. The amendments also provide that a grader may apply official identification stamps to shipping containers if they do not bear any statement that is false or misleading, and also include a listing of Fresh Fancy Quality Grade under the heading U.S. Consumer Grades and Weight Classes to conform with earlier amendments with respect to the Fresh Fancy Quality program. The amendments hereinafter set forth are essentially the same as were published in the aforesaid notice.

Good cause is hereby found for making the amendments effective July 1, 1960, for the reasons that: (1) Publication of a notice and public participation in rule-making procedure with respect to the foregoing amendments were given; (2) the costs of performing the service are increased due to the enactment of the Federal Employees' Health Benefits Act of 1959; the costs of such benefits will commence as of July 1, 1960, and the Agricultural Marketing Act of 1946 requires that fees charged for performing the service shall, as nearly as may be, cover the costs thereof; and (3) additional time is not required to comply with these amendments.

The amendments hereinafter set forth are hereby promulgated to become effective July 1, 1960.

The amendments are as follows:

1. Change § 56.36 to read:

§ 56.36 Approval of official identification.

Any label or packaging material which bears any official identification shall be used only in such manner as the Administrator may prescribe. No label or packaging material bearing official identification may be used unless finished copies or samples of such labels and packaging material have been approved by the Administrator, except that a grader may apply official identification stamps to shipping containers if they do not bear any statement that is false or misleading. No label bearing the official identification shall be printed for use until the printer's final proof has been approved by the Administrator; and no label bearing any official identification shall be used until finished copies or samples of such label have been approved by the Administrator. A label which bears official identification shall not bear any statement that is false or misleading. If the label is printed or otherwise applied directly to the container, the principal display panels of such container shall for this purpose be considered as the label. The label shall contain the name and address of the packer or distributor of the product, the name of the product and a statement of the net contents of the container.

§ 56.37 [Amendment]

2. Change the last sentence of § 56.37 to read: "When eggs have been graded pursuant to this part and are packaged, the grade mark affixed to each such package shall have stamped thereon either the date of grading or an expiration date not to exceed 10 days from the date of grading, including the day of grading unless the grade mark is printed on the carton, in which case the date shall be legibly applied to the carton in a manner satisfactory to the Administrator."

§ 56.46 [Amendment]

3. Change § 56.46(c) to read:

(c) If an applicant requires that any grading service be performed on a holiday, Saturday, Sunday, or between the hours of 6:00 p.m. and 7:00 a.m. Monday through Friday, he shall be charged for such service at the rate of $6.00 per hour.

§ 56.52 [Amendment]

4. Change § 56.52(a) to read:

(a) *Charges.* The charges for grading of shell eggs shall be paid by the applicant for the service and shall include such of the items listed in this section as are applicable. Payment for the full cost of the grading service rendered to the applicant shall be made by the applicant to the Agricultural Marketing Service, United States Department of Agriculture (hereinafter referred to as "AMS"). Such full costs shall comprise such of the items listed in this section as are due and included, from time to time, in the bill or bills covering the period or periods during which the grading service was rendered. Bills will be rendered by the 10th day following the end of the month in which the service was rendered and are payable upon receipt. A charge will be made by AMS in the amount of one (1) percent per month, or fraction thereof, of any amounts remaining unpaid after 30 days from the date of billing.

(1) A charge of $5.00 per hour plus actual costs to AMS for per diem and travel costs incurred in rendering service not specifically covered in this section; such as, but not limited to initial surveys;

(2) A charge of $100 for the final survey and the inauguration of the grading service including the assignment of one grader;

(3) A charge equal to the salary cost paid to each grader assigned to the applicant's plant by AMS: *Provided,* no charge is to be made for salary cost of any assigned grader of the designated plant while temporarily reassigned by AMS to perform grading service for other than the applicant, except when the assigned grader is performing service for the Department of Defense on products accepted for delivery by the applicant to the Department of Defense, in which case the applicant will be given credit for the service rendered, based on a formula concurred in jointly by the Departments of Defense and Agriculture;

(4) A charge for the relief grader at the rate of the regular grader's salary and the actual travel expenses and per diem paid by AMS to any grader whose services are required for relief purposes when regular graders are on annual or sick leave;

(5) A charge for the actual cost to AMS of any travel or per diem incurred by each grader assigned to the plant while in the performance of grading service rendered the applicant;

(6) A charge to cover the actual cost to AMS of the travel (including the cost of movement of household goods and dependents) and per diem with respect to each grader or inspector who is transferred (other than for the convenience of AMS) from an official station to the designated plant;

(7) A charge equal to 20 percent of the base salary to cover an amount equal to the cost to AMS for the Employer's tax imposed under the United States Internal Revenue Code (26 U.S.C.) for Old Age and Survivor's Benefits under the Social Security System and for insurance as provided in the Federal Employees' Group Life Insurance Act of 1954, Federal Employees' Health Benefits Act of 1959, sick leave, annual leave, and related servicing costs;

(8) A charge equal to 7 percent of: (i) The overtime salary, (ii) the salary paid to each grader exclusive of one regular grader, and (iii) all charges made to the applicant for transportation and per diem which are paid by AMS to graders assigned to the applicant;

(9) An administrative service charge based upon the aggregate number of thirty dozen cases of shell eggs handled in the plant per month and computed in accordance with the following table:

COMPUTATION OF ADMINISTRATIVE SERVICE CHARGES

Where application is in effect and no product is handled	$25.00
1 to 1,000 cases	35.00
For each additional 1,000 cases, or fraction thereof, in excess of 1,000 cases	[1] 5.00

[1] The maximum charge shall not exceed $150.00.

§ 56.215 [Amendment]

5. In § 56.215, insert a new paragraph (e) to read:

(e) The percentage requirements for grades as set forth in §§ 56.216 and 56.217 are applicable except that interior quality factors shall be determined in accordance with the requirements of § 56.44 or § 56.44a when the lot is labelled "Produced and Marketed under Federal-State Quality Control Program."

§ 56.216 [Amendment]

6a. In § 56.216, redesignate paragraphs (a), (b), (c), (d), (e) and (f) as paragraphs (b), (c), (d), (e), (f) and (g).

b. In § 56.216, insert a new paragraph (a) to read:

(a) Fresh Fancy Quality shall consist of eggs meeting the requirements set forth in § 56.44.

c. In § 56.216, change the redesignated paragraphs (b) and (c) to read:

(b) "U.S. Consumer Grade AA" shall consist of eggs of which at least 80 percent are AA Quality. Within the maximum tolerance of 20 percent, which may be below AA Quality, not more than 5 percent may be of the qualities below A, in any combination, but not including Dirties and Leakers. This grade name is also applicable when the lot consists of eggs meeting the requirements set forth in § 56.44.

(c) "U.S. Consumer Grade A" shall consist of eggs of which at least 80 percent are A Quality or better. Within the maximum tolerance of 20 percent which may be below A Quality, not more than 5 percent may be of the qualities below B, in any combination but not including Dirties and Leakers. This grade name is also applicable when the lot consists of eggs meeting the requirements set forth in § 56.44a.

7. Change § 56.217 to read:

§ 56.217 Summary of grades.

The summary of U.S. Consumer Grades for Shell Eggs follows as Table I of this section:

TABLE 1—SUMMARY OF U.S. CONSUMER GRADES FOR SHELL EGGS

U.S. consumer grade	At least 80 percent (lot average)[1] must be—	Tolerance permitted[2]	
		Percent	Quality
Grade AA or Fresh Fancy Quality.	AA Quality.	15 to 20 Not over 5[3]	A. B, C, or Check.
Grade A	A Quality or better.	15 to 20 Not over 5[3]	B. C or Check.
Grade B	B Quality or better.	10 to 20 Not over 10[3]	C. Dirty or Check.
Grade C	C Quality or better.	Not over 30	Dirty or Check.

[1] In lots of two or more cases, no individual case may fall below 70 percent of the specified quality and no individual case may contain more than double the tolerance specified for the respective grade (i.e., in lots of Grade A, not more than 10 percent of the qualities in individual cases within the sample may be C or Check, provided the average is not over 5 percent).

[2] Within tolerance permitted, an allowance will be made at receiving points or shipping destination for ½ percent leakers in Grades AA, A, and B and 1 percent in Grade C.

[3] Substitution of higher qualities for the lower qualities specified is permitted.

(Sec. 205, 60 Stat. 1090, as amended; 7 U.S.C. 1624; 19 F.R. 74 as amended)

Issued at Washington, D.C., this 10th day of June 1960.

ROY W. LENNARTSON,
Deputy Administrator,
Agricultural Marketing Service.

[F.R. Doc. 60-5463; Filed, June 14, 1960; 8:52 a.m.]

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Lemon Reg. 849, Amdt. 1]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (60 Stat. 237; 5 U.S.C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must

become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and this amendment relieves restriction on the handling of lemons grown in California and Arizona.

Order, as amended. The provisions in paragraph (b)(1)(ii) of § 953.956 (Lemon Regulation 849, 25 F.R. 4953) are hereby amended to read as follows:

(ii) District 2: 441,750 cartons.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: June 9, 1960.

FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 60-5436; Filed, June 14, 1960; 8:48 a.m.]

PART 969—AVOCADOS GROWN IN SOUTH FLORIDA

Findings and Determinations Relative to Expenses and Fixing of Rate of Assessment for 1960–61 Fiscal Year

Notice was published in the May 24, 1960, issue of the FEDERAL REGISTER (25 F.R. 4555) that consideration was being given to proposals regarding the expenses and the fixing of the rate of assessment for the fiscal year (April 1, 1960, through March 31, 1961) under the marketing agreement, as amended, and Order No. 69, as amended (7 CFR Part 969), regulating the handling of avocados grown in south Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice which were submitted by the Avocado Administrative Committee (established pursuant to the said amended marketing agreement and order), it is hereby found and determined that:

§ 969.206 Expenses and rate of assessment for the 1960–61 fiscal year.

(a) Expenses: The expenses that are reasonable and likely to be incurred by the Avocado Administrative Committee, established pursuant to the provisions of the aforesaid amended marketing agreement and order, for the maintenance and functioning of such committee, in accordance with the provisions thereof, during the said fiscal year beginning April 1, 1960, and ending March 31, 1961, will amount to $6,900.00.

(b) Rate of assessment: The rate of assessment which each handler who first handles avocados shall pay as his pro rata share of the aforesaid expenses in accordance with the applicable provisions of said amended marketing agreement and order is hereby fixed at three cents ($0.03) per bushel, or equivalent quantity of avocados handled by such handler during the 1960–61 fiscal year.

(c) Terms used in said amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order.

The provisions hereof shall become effective 30 days after publication in the FEDERAL REGISTER.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: June 10, 1960.

FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 60-5462; Filed, June 14, 1960; 8:52 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter II—Civil Aeronautics Board

SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. No. ER-305]

PART 295—TRANSATLANTIC CHARTER TRIPS

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 9th day of June 1960.

This part contains the general requirements governing applications for, and operations under, individual exemption orders authorizing the performance of transatlantic passenger charter flights by United States air carriers other than carriers certificated to provide unlimited passenger service over designated routes.

Part 295 first became effective on June 26, 1959. Since then the Board has processed a substantial number of charter authorizations under this part and has recently had occasion to review a number of charter rules and public comment thereon in connection with its approval, subject to certain conditions, of IATA Charter Resolution 045, (Order E–15047, dated March 28, 1960).

In light of the above action, and consonant with its ultimate objective of promulgating, insofar as appropriate, uniform standards for charter operations by all carriers subject to its jurisdiction, the Board hereby reissues Part 295, amended as hereinafter described. The amendments are generally of a liberalizing or clarifying nature, will permit charter organization on a less restrictive basis and facilitate the administration of such operations.

The more significant amendments consist of permitting up to five percent of the passengers on round-trip charters to be carried one-way; permitting the participation of the immediate families of bona fide members of chartering organizations even if they are not accompanied on the flight by such members; increasing the permissible size of nationwide and statewide charter organizations from which participants may be drawn to 15,000 members; and permitting the carrier, with the consent of the charterer, to utilize any unused space for the transportation of the carrier's own personnel and property. Other provisions of this part have been clarified to expressly permit participants to be given customary advertising and good-will items, and to better define permissible activities of travel agents, without substantive change in such provisions.

In addition to changes in the application form and information requirements incidental to the aforestated relaxation of standards, this regulation also dispenses with the former requirement that carriers forward expense vouchers to the Board and provides instead that such vouchers be retained by the carriers for a period of two years. The pre-existing requirement that the charterer supply a prospective passenger list to the carrier is amended to provide that the charterer provide a certified copy of the list of such passengers to be forwarded also to the Board. Apart from the aforementioned changes, the substantive provisions of Part 295 remain the same. As before, the rule contains restrictions on the transatlantic charter business which guard against the entry into the field of indirect air carriers and which prevent solicitation for charter flights of the public or segments of the public. In addition, there are protective provisions guarding participants in charter trips from inequitable burdens and charges.

With regard to the prohibition against obtaining participants for a charter group by soliciting the general public, the rule prevents the forming of a group by (1) general advertising or (2) unlimited soliciting of charter participants from an organization easy to join, and of uncertain or large and scattered membership. The rule thus provides the general framework within which to judge the charterworthiness of the cases on their own facts. For example, in accordance with the provisions of § 295.30 of this part which the Board has adopted pursuant to announcement in its Order E–15047 (dated March 28, 1960), prospective charter participants solicited without limit from organizations or other entities with a total membership of more than (1) 20,000 in a local area (except colleges or universities) or (2) 15,000 located in a larger area would be considered as solicited from the general public which would preclude their charter trip. However, if the solicitation of charter participants should be limited to a group of selected delegates who are members of a large association with scattered membership, the size and geographic scope of the association would not appear to bar the charter.[1]

Further, in the case of a corporation whose total employment and whose geographic area would apparently render it ineligible for approval, a valid charter might be solicited from the employees of two or more plants of such corporation, provided the total number of employees in such plants and the geographic area in which they work would be sufficiently

[1] Thus, if the organization is participating in a scientific convention abroad, the individuals selected to read papers at the convention may be organized into a charter group. Or if an international organization is to hold a meeting, delegates elected by various chapters might properly be organized into a charter group.

limited as to meet the tests applied by the Board in the case of a single organization. Also, the decision to limit the charter solicitation to the plants involved would necessarily have to be made prior to solicitation for the charter, and each such charter (if there were more than one) would have to be locally administered, independently of the others. It would be inappropriate to make a general solicitation of the employees of the entire corporation and subsequently limit the charter group in an attempt to conform with the criteria of the regulation.

In those cases, furthermore, where federations of groups are the organizations from which charter groups are sought to be derived, several issues under the solicitation criteria set forth herein would necessarily arise: for instance, whether the federation provides services directly to employees of several separate organizations in a given locality, or is merely a superstructure tying several individual associations together. Factors to be weighed would include the relationship of employees represented by such federation to the total population of the area covered by the federation, past history of joint activities sponsored by the federation, and whether the federation exists only nominally as a means of exchanging information, with participation limited to meetings of representatives of each member group and individual membership therein being merely a matter of record or form at the most.

To facilitate advising a prospective charterer of (1) charter prerequisites and (2) the opportunity to obtain advisory opinions on charterworthiness, it is provided that a copy of this regulation shall always be sent each prospect directly by the carrier concerned. The carrier, where known, will, of course, receive a copy of any advisory opinion requested by a charterer.

This regulation reflects the Board's policy of authorizing within the scope of its exemption power under section 416(b) additional transatlantic charter operations to the extent consistent with the development of, and sound economic conditions in, the regularly scheduled transatlantic operations. It has been the Board's experience that supplementation of the charter capacity of the regularly scheduled transatlantic carriers by other air carriers is necessary and desirable in the public interest. Over the years supplemental and cargo carriers have furnished much charter transportation but the identities of the carriers providing the bulk of such supplemental charter services have changed. The amount of charter business each such carrier may obtain in any given season depends on numerous competitive factors and is quite unpredictable. Many charter arrangements consist only of one round-trip flight for which arrangements must be perfected by the charterers within a limited period, usually between early spring and summer, an unusual circumstance not characteristic for air transportation in general. The certification process therefore is not suitable for authorizing these charter trips because it is too time-consuming to be instituted and completed within the available period, and too expensive in relation to the limited extent of the operation to be authorized. These passenger charter trips of supplemental or cargo carriers may therefore be authorized by the Board in proper cases under its exemption power on the ground that enforcement of the certification requirement of section 401 would be an undue burden on the carriers by reason of both the limited extent of and unusual circumstances affecting their operations, and would not be in the public interest.

In order to facilitate the use of this regulation by charterers, the Board has decided to reissue the regulation with all amendments incorporated therein rather than to promulgate an amendment to the regulation as a separate document. In consideration of the facts that the more significant amendments herein constitute relaxations of heretofore existing restrictions and adaptations of the regulation to the provisions of an agreement (IATA Charter Resolution Q45) to which the certificated air carriers rendering transatlantic scheduled passenger services are parties; that the amendments relate only to operations to be authorized in the future; that waivers of the provisions of the regulation may be granted where justified in the public interest and warranted by special or unusual circumstances; and that time is of the essence since the transatlantic charter season is at hand, the Board finds that notice and public procedure hereon would be impracticable and contrary to the public interest, and that there is good cause for making this regulation effective upon less than 30 days following publication.

This regulation shall apply to flights to be actually performed on or after the effective date of this part even though such flights be approved prior to such date. Attention is called to the provisions of §§ 295.17 and 295.35 respecting the filing of certified passenger lists which thus apply to such flights.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends the Economic Regulations (14 CFR Chapter II, Subchapter A), effective June 29, 1960, by substituting for Part 295 thereof an amended Part 295 to read as follows:

Sec.
295.1 Applicability.
295.2 Definitions.
295.3 Waiver.
295.4 Separability.

Subpart A—Provisions Relating to Pro Rata Charters Requirements Relating to Air Carrier Applicants

295.11 Solicitation and formation of a chartering group.
295.12 Pre-trip notification.
295.13 Application for exemption authority.
295.14 Tariffs to be on file.
295.15 Terms of service.
295.16 Agent's commission.
295.17 Post flight reporting.
295.18 Prohibition against payments or gratuities.

REQUIREMENTS RELATING TO TRAVEL AGENTS

295.20 Limited activities.
295.21 Permissible solicitation, sale or ticketing of individual participants for land tours.
295.22 Agents who are members of the chartering organization.
295.23 Prohibition against double compensation.
295.24 Prohibition against incurring obligations.
295.25 Prohibition against payments or gratuities.

REQUIREMENTS RELATING TO THE CHARTERING ORGANIZATION

295.30 Solicitation of charter participants.
295.31 Passengers on charter flights.
295.32 Participation of immediate families in charter flights.
295.33 Charter costs.
295.34 Statements of charges.
295.35 Passenger manifests.

Subpart B—Provisions Relating to Single Entity Charters

295.40 Application.
295.41 Tariff to be on file.
295.42 Terms of service.
295.43 Commissions paid to travel agents.

Subpart C—Provisions Relating to Mixed Charters

295.50 Applicable rules.

Subpart D—Procedure for Advisory Opinion on the Eligibility of a Charterer

295.60 Advisory opinion.

AUTHORITY: §§ 295.1 to 295.60 issued under sec. 204(a), 72 Stat. 743, 49 U.S.C. 1324. Interpret or apply sec. 416(b), 72 Stat. 771, 49 U.S.C. 1386.

§ 295.1 Applicability.

This part establishes the requirements governing applications for, and operations under, individual exemption orders authorizing the performance of charter flights for transatlantic passengers by United States air carriers other than carriers certificated to provide unlimited passenger service over designated routes. Each application will be considered and passed upon by the Board in accordance with the statutory standards of section 416(b) of the Act. No such application shall be processed unless filed and submitted in compliance with the applicable provisions of this part or unless good cause is shown in the application for any divergence from such provisions. Operations under any such individual exemption authorizing the performance of any transatlantic passenger charter flight(s) shall be conducted in conformity with the pertinent requirements of this part unless otherwise specifically authorized by the Board. The provisions of this regulation shall not be construed as limiting any other authority to engage in air transportation issued by the Board.

§ 295.2 Definitions.

As used in this part, unless the context otherwise requires—

(a) "Charter flight" means transatlantic air transportation performed by a direct air carrier where the entire capacity of one or more aircraft has been engaged for the movement of persons and their baggage, on a time, mileage or trip basis:

(1) By a person for his own use (including a direct air carrier or surface carrier when such aircraft is engaged solely for the transportation of company personnel or commercial passenger traffic in cases of emergency); or

(2) By a representative (or representatives acting jointly) of a group for the

use of such group (provided no such representative is professionally engaged in the formation of groups for transportation or in the solicitation or sale of transportation services).

With the consent of the charterer, the direct air carrier may utilise any unused space for the transportation of the carrier's own personnel and property.

(b) "Pro rata charter" means a charter the cost of which is divided among the passengers transported.

(c) "Single entity charter" means a charter the cost of which is borne by the charterer and not by individual passengers, directly or indirectly.

(d) "Mixed charter" means a charter the cost of which is borne, or pursuant to contract may be borne, partly by the charter participants and partly by the charterer.

(e) "Person" means any individual, firm, association, partnership, or corporation.

(f) "Travel agent" means any person engaged in the formation of groups for transportation or in the solicitation or sale of transportation services.

(g) "Charter group" means that body of individuals who shall actually participate in the charter flight.

(h) "Charter organization" means that organization, group, or other entity from whose members (and their immediate families) a charter group is derived.

(i) "Immediate family" means only the following persons who are living in the household of a member of a charter organization, namely, the spouse, dependent children, and parents, of such member.

(j) "Bona fide members" means those members of a charter organization who have not joined the organization merely to participate in the charter as the result of a solicitation directed to the general public. Presumptively, persons are not bona fide members of a charter organization who are not members at the time an application for exemption authority is filed and will not actually have been members for a minimum period of six months prior to the starting flight date. Rebuttal to this presumption may be offered for the Board's consideration in connection with the charter application by the carrier involved.

(k) "Solicitation of the general public" means (1) a solicitation going beyond the bona fide members of an organization (and their immediate families), such as advertising directed to the general public by radio, television, newspaper, or magazine, or (2) the solicitation, without limitation, of the members of an organization so constituted as to ease of admission to membership, nature of membership, area of residence of members, and size of membership, as to be in substance more in the nature of a segment of the public than a private entity.

§ 295.3 Waiver.

A waiver of any of the provisions of this part may be granted by the Board upon its own initiative, or upon the submission by an air carrier of a written request therefor to be submitted in conjunction with its charter application or subsequent thereto upon good cause shown for the delay, provided that such a waiver is in the public interest and it appears to the Board that special or unusual circumstances warrant a departure from the provisions set forth herein.

§ 295.4 Separability.

If any provision of this part or the application thereof to any air transportation, person, class of person, or circumstance is held invalid, neither the remainder of the part nor the application of such provision to other air transportation, persons, classes of persons, or circumstances shall be affected thereby.

Subpart A—Provisions Relating to Pro Rata Charters Requirements Relating to Air Carrier Applicants

§ 295.11 Solicitation and formation of a chartering group.

(a) A carrier shall not engage, directly or indirectly, in any solicitation of individuals (through personal contact, advertising, or otherwise) as distinguished from the solicitation of an organization for a charter trip.

(b) A carrier shall not employ, directly or indirectly, any person for the purpose of organizing and assembling members of any organization, club, or other entity into a group to make the charter flight.

§ 295.12 Pre-trip notification.

(a) When a charter flight date is tentatively reserved, the carrier or its agent shall inform the prospective charterer that the latter may obtain an advisory opinion from the Board's staff as to its eligibility for charter service in accordance with § 295.60.

(b) Upon a charter flight date being reserved by the carrier or its agent, the carrier shall provide the prospective charterer with a copy of this Part 295.[1]

(c) In conjunction with its application for exemption authority, the carrier shall submit a copy of the executed charter contract to the Board. Such contract shall include a provision that the charterer, and any agent thereof, shall only act with regard to the charter in a manner consistent with this regulation and that the charterer shall within due time submit to the carrier such information as specified in §§ 295.34 and 295.35 hereof and submit to each charter participant the information identified in § 295.34.

§ 295.13 Application for exemption authority.

Every proceeding on an application filed by an air carrier for exemption authority (pursuant to section 416(b) of the Act) to conduct a charter flight shall be governed by Rules 400–409 of Part 302, of the Board's rules of practice subject, however, to the following additional or different provisions: The application for exemption authority shall be filed with the Board at least 60 days before the date of the first flight under the charter contract. The application shall include an attachment which shall be in the form of, and which shall set forth the information prescribed by, the "Statement of Supporting Information"[2] annexed hereto and made a part of this part. Notwithstanding the provisions of Rule 403(b), a copy of the application need be served only on each direct air carrier certificated to provide unlimited passenger service to any point to which the charter is proposed to be flown.

§ 295.14 Tariffs to be on file.

At the time an exemption application is submitted the carrier shall have on file with the Board a tariff showing all its rates, fares, and charges for the use of the entire capacity of one or more aircraft in air transportation and all its rules, regulations, practices and services in connection with the transatlantic pro rata charter transportation which it offers to perform. Tariffs filed pursuant hereto shall expressly recite that the transportation may not be furnished unless the Civil Aeronautics Board specifically exempts the air carrier from the requirements of section 401 of the Federal Aviation Act of 1958.

§ 295.15 Terms of service.

(a) The total charter price and other terms of service set forth in the application shall conform to those set forth in the applicable tariff on file with the Board at the time the exemption application is filed and the contract must be for the entire capacity of one or more aircraft. Where a carrier's charter charge computed according to a mileage tariff includes a charge for ferry mileage, the carrier shall refund to the charterer any sum charged for ferry mileage, which is not in fact flown in the performance of the charter provided that the carrier shall not charge the charterer for ferry mileage flown in addition to that stated in the contract unless such mileage is flown for the convenience of and at the express direction of the charterer.

(b) The carrier shall require full payment of the total charter price or the posting of a satisfactory bond for full payment prior to the commencement of the air transportation.

(c) In the case of a round-trip charter, one-way passengers shall not be carried except that up to five percent of the charter group may be transported one way in each direction. This provision shall not be construed as permitting knowing participation in any plan whereby each leg of a round-trip is chartered separately in order to avoid the five percent limitation aforesaid. In the case of a charter contract calling for two or more round-trips, there shall be no intermingling of passengers and each plane-load group shall move as a unit in both directions unless special or unusual circumstances are shown in the application for exemption authority and the Board approves thereof.

§ 295.16 Agent's commission.

The carrier shall not pay its agent a commission or any other benefits, directly or indirectly, in excess of five percent of the total charter price as set forth in the carrier's charter tariff on file with the Board, or more than the commission related to charter flights paid to an agent by a carrier certificated to fly the same route, whichever is greater. Proof of the commission paid by such a carrier shall be submitted by the carrier applicant in conjunction with its application for exemption in the event such measure governs the commission which it will pay. The carrier shall not pay any commission whatsoever to an agent if the agent receives a commission from the charterer for the same service.

§ 295.17 Post flight reporting.

(a) Within 30 days after the completion of each one-way or round-trip flight, whichever is authorized, a manifest shall be filed by the carrier with the Board showing the names and addresses of the persons actually transported in accord with the carrier's records and the relationship of each such person to the charterer as reported to the carrier pursuant to § 295.35. In the case of a round-trip flight, the above information must be shown for each leg of the flight and any variations between the eastbound and westbound trips must be identified on the manifest. Any deviation from the Board's order of authorization with respect to any one-way or round-trip flight shall also be explained on this manifest. However, the making of such explanation shall not of itself operate as authority for or excuse of any deviation from the Board's order of authorization. The carrier shall also file within 30 days after flight the certified manifest which it must receive from the charterer (§ 295.35) before conducting any charter.

(b) Within 30 days after completion of each one-way or round-trip flight, whichever is authorized, a report completed by the charterer pursuant to § 295.34 shall be filed by the carrier with the Board showing the charge per passenger transported, and the charterer's total receipts and expenditures. This report shall be submitted in the form of and contain the above information as more fully specified by, the "Transatlantic Charter—Post Flight Report,"[2] annexed hereto and made a part of this part.

(c) The carrier shall retain for two years, subject to inspection by properly authorized Board personnel, all vouchers submitted to it by the charterer with the "Transatlantic Charter Post Flight Report" in accordance with the provisions of §§ 295.33 and 295.34.

(d) The carrier shall promptly notify the Board regarding any flights authorized by the Board that are later canceled.

§ 295.18 Prohibition against payments or gratuities.

A carrier shall make no payments nor extend gratuities of any kind, directly or indirectly, to any member of a chartering organization in relation either to air transportation or land tours or otherwise. Nothing in this section shall restrict a carrier from offering to each member of the charter group such advertising and good will items as are customarily extended to individually ticketed passengers (e.g., canvas traveling bag or a money exchange computer).

Requirements Relating to Travel Agents

§ 295.20 Limited activities.

A travel agent may not assist in the organization or assembly of a charter group, handle the sale of the air transportation to any individual members of a group, or otherwise engage in the administration of the charter flight (including signing the charter agreement for the charterer or collecting or disbursing pro rata shares of participants). The agent may arrange land tours for a charter group provided he deals with the group as a whole. He may deal with individual members of a group regarding land tours only under the circumstances indicated in § 295.21. While his services may be utilized to prepare brochures or other literature describing all aspects of the charter trip, the distribution of such material to individual participants must be confined to the hands of the charterer. Nothing in this section, however, shall prohibit the carrier from having a travel agent make distribution to the charter flight participants of boarding passes pursuant to Warsaw Convention practices.

§ 295.21 Permissible solicitation, sale or ticketing of individual participants for land tours.

A travel agent may deal with individuals for land tours (including ticketing and receipt of individual deposits for such tours) if such persons, on an individual basis after arranging for charter participation, initiate a contact with him to request of him land tour arrangements different from those which have been made available to the charter group as a whole through the organizer of the group. A travel agent (or person controlled by, controlling, or under common control with such travel agent) who does not assist in the engaging of aircraft for the charter[3] and does not receive remuneration from the carrier in connection with the charter may, in addition, solicit (i.e., initiate the approach to) individual members of the charter group (i.e., persons who have already arranged for charter participation) for land tours, and with respect to such tours receive deposits and conduct ticketing of such individual members.

§ 295.22 Agents who are members of the chartering organization.

If a travel agent, or officer, director, or employee of such an agent, is a member of the chartering organization, such agent, or officer, director, or employee, may not receive, directly or indirectly, any commission or other compensation with respect either to the charter flight or the land tour. Subject to this prohibition, he may participate in those activities, and only those, permitted to other travel agents.

§ 295.23 Prohibition against, double compensation.

A travel agent may not receive a commission from both the direct air carrier and the charterer for the same service, nor may he receive directly or indirectly any part of the administrative labor cost referred to in § 295.33(c).

§ 295.24 Prohibition against incurring obligations.

A travel agent shall not incur any obligation on behalf of a chartering organization relating to the expenses of solicitation or organization of the individual participants in the chartering organization, whether or not it is intended for the organization to assume ultimately the obligation incurred.

§ 295.25 Prohibition against payments or gratuities.

A travel agent shall make no payments nor extend gratuities of any kind, directly or indirectly, to any member of a chartering organization whether in relation to air transportation or otherwise. Nothing in this section shall restrict a travel agent from offering to each member of the charter group such advertising and good will items as are customarily extended to individually-ticketed passengers (e.g., a canvas traveling bag or a money exchange computer).

Requirements Relating to the Chartering Organization

§ 295.30 Solicitation of charter participants.

As the following terms are defined in § 295.2, members of the charter group may be solicited only from among the bona fide members of an organization, club or other entity, and their immediate families, and may not be brought together by means of a solicitation of the general public. Charter participants solicited without limit from organizations or other entities with a total membership of more than (1) 20,000 located in a local area (except colleges or universities), or (2) 15,000 located in a larger area, shall be considered as solicited from the general public.

§ 295.31 Passengers on charter flights.

Only bona fide members of the charterer, and their immediate families, may participate as passengers on a charter flight. Where the charterer is engaging round trip transportation, one-way passengers shall not participate in the charter flight except as provided in § 295.15 (c). When more than one round trip is contracted for, intermingling between flights or reforming of plane-load groups shall not be permitted and each plane-load group must move as a unit in both directions except as provided in § 295.15 (c).

§ 295.32 Participation of immediate families in charter flights.

The immediate family of any bona fide members of a charter organization

[1] Copies of this regulation are available by purchase from the Superintendent of Documents, Washington 25, D.C. Single copies will be furnished without charge on written request to the Publications Section, Civil Aeronautics Board, Washington 25, D.C.

[2] Filed as part of original document.

[3] This would include assistance in any form which would place the carrier under even an implicit obligation to the agent for having procured the charter. However, it would not include mere discussion between agent and charterer about the several airlines which the charterer might wish to contact.

may participate in a charter flight. The immediate family of such member shall be construed to include only the following persons who are living in his household, namely, the spouse, dependent children, and parents of such member.

§ 295.33 Charter costs.

(a) The cost of each charter flight shall be prorated equally among all charter passengers, except to the extent that the charter application may indicate a lesser charge for children under twelve years old. In the event there is any other unequal division of charges, the application for exemption must contain a statement justifying the unequal division and Board approval thereof must be obtained.

(b) The charterer shall not make charges to the charter participants which exceed the actual costs incurred in consummating the charter arrangements, nor include as a part of the assessment for the charter flight any charge for purposes of charitable donations. All charges related to the charter flight arrangements collected from the charter participants which exceed the actual costs thereof shall be refunded to the participants in the same ratio as the charges were collected.

(c) Reasonable administrative costs of organizing the charter may be divided among the charter participants. Such costs may include a reasonable charge for compensation to members of the charter organization for actual labor and personal expenses incurred by them. Such charge shall not exceed $300 (or $500 where the charter participants number more than 80) per round-trip flight. Neither the organizers of the charter, nor any member of the chartering organization, may receive any gratuities or compensation, direct or indirect, from the carrier, the travel agent, or any organization which provides any service to the chartering organization whether of an air transportation nature or otherwise. Nothing in this section shall prevent any member of the charter group from accepting such advertising and good will items as are customarily extended to individually-ticketed passengers (e.g., a canvas traveling bag or a money exchange computer).

(d) If the total expenditures, including among other items compensation to members of the chartering organization, referred to in paragraph (c) of this section, but exclusive of expenses for air transportation or land tours, exceed $750 per round-trip flight, such expenditures shall be supported by properly authenticated vouchers to be given to the carrier with the "Post Flight Report" required pursuant to § 295.34.

§ 295.34 Statements of charges.

(a) Any announcements or statements by the charterer to prospective charter participants of the anticipated individual charge for the charter shall clearly identify the portion of the charges to be separately paid for the air transportation, for the land tour, and for the administrative expenses of the charterer.

(b) Within 15 days after completion of each one-way or round-trip flight, whichever is authorized, the charterer shall complete and supply to each charter participant and the air carrier involved a detailed report showing the charge per passenger transported and the charterer's total receipts and expenditures. This report shall be submitted in the form of, and contain such information including the above as more fully specified by, the "Transatlantic Charter—Post Flight Report"[2] annexed hereto and make a part of this part.

§ 295.35 Passenger manifests.

(a) Prior to each one-way or round-trip flight, whichever is authorized, a manifest shall be filed by the charterer with the air carrier showing the names and addresses of the persons to be transported and specifying the relationship of each such person to the charterer (by designating opposite his name one of the three relationship categories hereinafter described). The manifest may include "stand-by" participants (by name, address and relationship to charterer).

(b) The relationship of a prospective passenger shall be classified under one of the following categories and specified on the passenger manifest as follows:

(1) A bona fide member of the chartering organization at the time the application for charter authority was filed and will have been a bona fide member of the chartering organization for at least six months prior to the starting flight date. Specify on the passenger manifest as "(1) member."

(2) The spouse, dependent child or parent of a bona fide member who lives in such member's household. Specify on the passenger manifest as "(2) spouse" or "(2) dependent child" or "(2) parent." Also give name and address of member relative where such member is not a prospective passenger.

(3) A person whose proposed participation in the charter flight has been justified in a statement filed with the Board and not disapproved by the Board (including bona fide members of an entity which has been shown in the application to encompass only persons from a study group, from a college campus, or employed by a single government agency, industrial plant or mercantile company). Specify on the passenger manifest as "(3) special" or "(3) member" (where participants are from a study or campus group or from a government agency, industrial plant or mercantile company).

(c) In the case of a round-trip flight, the above information must be shown for each leg of the flight and any variations between the eastbound and westbound trips must be explained on the manifest.

(d) Attached to such manifest must be a certification, signed by a duly authorized representative of the charterer, reading "The attached list of persons includes every individual who may participate in the charter flight. Every person as identified on the attached list (1) was a bona fide member of the chartering organization at the time the application for charter authority was filed and will have been a bona fide member of the chartering organization for at least six months prior to the starting flight date, or (2) is the spouse, dependent child or parent of a bona fide member and lives in such member's household, or (3) is a person whose proposed participation in the charter flight has been justified in a statement filed with the Board prior hereto and not disapproved by the Board. ---------- (signature)"

[2] Filed as part of original document.

Subpart B—Provisions Relating to Single Entity Charters

§ 295.40 Application.

An application by a direct air carrier to conduct a single entity charter shall be filed with the Board at least 30 days prior to commencement of the charter flight, unless good cause for a later filing is shown in the application. The application shall be submitted pursuant to § 302.3 of the Board's rules of practice in economic proceedings (Procedural Regulations, Part 302). The application, furthermore, shall incorporate an attachment in the form of, and which sets forth the information specified by, the Statement of Supporting Information[2] annexed hereto and made a part of this part.

§ 295.41 Tariff to be on file.

The direct air carrier shall have a currently effective tariff on file with the Board prior to flight which discloses all the rates, fares and charges for the use of the entire capacity of one or more aircraft in air transportation and all its rules, regulations, practices and services in connection with the transatlantic single entity charter transportation which it offers to perform.

§ 295.42 Terms of service.

The total charter price and other terms of service set forth in the application shall conform to those set forth in the applicable tariff filed in accordance herewith and the contract shall be for the entire capacity of one or more aircraft.

§ 295.43 Commissions paid to travel agents.

No direct air carrier shall pay a travel agent any commission in excess of five percent of the total charter price or more than the commission related to charter flights paid to an agent by a carrier certificated to fly the same route, whichever is greater. Proof of the commission paid by such a carrier shall be submitted by the carrier applicant in conjunction with its application for exemption in the event such measure governs the commission which it will pay.

Subpart C—Provisions Relating to Mixed Charters

§ 295.50 Applicable rules.

The rules set forth in Subpart A shall apply in the case of mixed charters.

Subpart D—Procedure for Advisory Opinion on the Eligibility of a Charterer

§ 295.60 Advisory opinion.

At any time prior to the filing of an application pursuant to this part, an air carrier or prospective charterer may request an advisory opinion from the Bureau of Air Operations, Civil Aeronautics Board, Washington 25, D.C., regarding the eligibility of the prospective charterer to obtain charter service in accordance with this regulation. The Bureau's opinion will be based on the representations submitted and shall not be binding upon the Board. Such representations should include as much of the information specified by Section B, Part II, of the Statement of Supporting Information[2] annexed to this part as is available to the person requesting the advisory opinion.

NOTE: The reporting requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

By the Civil Aeronautics Board.

[SEAL] MABEL MCCART, *Acting Secretary.*

SUBCHAPTER E—POLICY STATEMENTS

[Reg. Policy Statement 11]

PART 399—STATEMENTS OF GENERAL POLICY

Processing of Applications of Foreign Air Carriers for Authorization To Conduct Off-Route Charter Trips

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 9th day of June 1960.

On August 12, 1958, the Board adopted Regulation Policy Statement No. 5 comprising a new § 399.30 of Subpart B of Part 399, Statements of Policy. Policy Statement 5 set forth the general standards to be used by the Board in processing applications filed by foreign air carriers pursuant to Part 212 of the Economic Regulations for a Statement of Authorization to conduct off-route charter trips.[1]

Since 1958 the Board's experience has resulted in promulgation of Part 295 governing transatlantic passenger charter trips by United States carriers under special exemptions. More recently the Board approved the IATA Charter Resolution 045 subject to certain conditions (Order E-15047, dated March 28, 1960). In essence, as compared to Policy Statement 5, these rules represent a clarification and modification of charter prerequisites facilitating administration of such operations.

In view of the above and of the Board's announced objective of ultimately achieving uniformity in respect of charter standards which should be applied to the operations of various carriers subject to its jurisdiction, the Board hereby issues a new Policy Statement for off-route charters by foreign air carriers.

This Statement incorporates by reference the applicable and appropriate provisions of Part 295 reissued concurrently herewith and amended to conform with the provisions applied by the Board in approving IATA Resolution 045 (Order E-15047).

Significant additions to the Board's policy in this area of foreign-flag off-route charters, apart from changes prompted by Order E-15047, include provisions with respect to permissible charges to charter participants, and opportunity for advisory opinions. In the Board's opinion, the policy of section 403(b) of the Act requires that participants in pro rata charters pay no more than their proper share of the tariff charter rate plus necessary expenses. Therefore, it is the Board's policy that passengers be protected from hidden profits to persons concerned with the charter, however unlikely this might be in the usual case. Again, inclusion of charitable donations as part of a charter charge is not permissible. Further, charter organization is not to be considered employment for profit and the ceiling for permissible compensation for charter administration (set forth in Part 295 in terms of dollars and applicable to this Policy sometimes in terms of the equivalent rate of foreign exchange) is intended to show that no more than recompense for administrative work is permissible. The recitation in this Policy of the availability of advisory opinions, as to the eligibility of a prospective charterer, has been included to expressly advise all parties who may be concerned of the Board's interest in seeing that charters are consummated in accordance with proper concepts and the expectation of participants.

In addition, there are changes incorporated herein, from reissued Part 295, to achieve appropriate conformity with the provisions set forth by the Board in Order E-15047. These include permitting the immediate family of a bona fide member of the chartering organization to go on the charter trip even though the member himself does not participate, permitting up to five percent of the passengers on round-trip charters to travel one-way without any requirement of a showing of special or unusual circumstances, permitting charter participants to be drawn from organizations with up to 15,000 members scattered through an area encompassing more than one locality, and expressly allowing participants to receive customary advertising and good-will items from travel agents or carriers. Further this Policy also incorporates clarified provisions with respect to permissible activities of travel agents in respect of the solicitation, sale or ticketing of individual charter participants for land tours. All these provisions represent a relaxation or clarification of charter rules hitherto in force.

Since this rule constitutes a Statement of Policy, notice and public procedures hereon are unnecessary and the rule may be made effective on less than 30 days' notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Subpart B of Part 399 of its Regulations (14 CFR Part 399), by repealing the provisions of § 399.30 thereof, identified as Policy Statement No. 5, and substituting therefor following Policy Statement No. 11, § 399.35, effective June 29, 1960:

§ 399.35 Processing of applications filed by Foreign Air Carriers pursuant to Part 212 of this chapter for a statement of authorization to conduct off-route charter trips.

(a) *General.* This policy prescribes the general standards which will be used by the Board in processing applications for Statements of Authority.[2] Since a determination of public interest requires consideration of all of the standards set forth in the Federal Aviation Act, as amended, this policy does not purport to cover every matter that may be taken into account by the Board in passing upon applications by foreign air carriers to conduct off-route charter trips. For similar reasons, the Board reserves the right to depart from the provisions of this policy when there is a showing of exceptional circumstances and the Board finds that strict adherence to the detailed standards of the policy in a particular situation would not be in the public interest. However, in the absence of such a showing any practice by a foreign air carrier, travel agent, or chartering group in conflict with the standards of this policy will constitute sufficient basis for denying an application for a Statement of Authorization. With respect to those standards applicable to chartering organizations and to travel agents, the foreign air carrier should reasonably assure itself before conducting any charter that such standards have been observed by the chartering organization and any travel agent involved (e.g., require suitable written information and assurance in connection with its own agreements with the charterer and any travel agent). If any practice in conflict with the standards of this policy of which the carrier is, or should be aware, is discovered after the particular charter flight has been per-

[1] In an opinion and order issued concurrently with Policy Statement 5 the Board amended the foreign air carrier permits of certain designated foreign air carriers so as to authorize them to conduct off-route charter trips in foreign air transportation under regulations prescribed by the Board (Order E-12945, dated August 12, 1958). In the same decision the Board adopted Part 212 of the Economic Regulations (Regulation ER-236, dated August 12, 1958) governing the operation of off-route charter trips by the foreign air carriers whose permits were amended. The regulation provides that in order to conduct an off-route charter trip a foreign air carrier must file an application with the Board and must receive authority in the form of a Statement of Authorization granted by the Board. Before such a Statement of Authorization will be issued the Board must find that the proposed flight comes within the definition of "off-route charter trip" set forth in the regulation and that the operation of the trip will be in the public interest.

[2] Filed as part of original document.

[2] However, approval of an application for off-route charter authority in accordance with this Statement of Policy may not properly be construed as implying an exemption from any standard self-imposed by members of IATA under Charter Resolution 045, notwithstanding the Board's reserved right to waive any of the conditions imposed by it in approving IATA Charter Resolution 045 (see Order E-15047, dated March 28, 1960).

formed, the practice will justify denial of future applications by the same foreign air carrier. Further, in deciding whether an application is in the public interest under the standards set forth in Part 212 of this chapter the Board will assume that any flight previously authorized was actually operated unless apprised otherwise.

(b) *Provisions relating to foreign air carrier applicants, travel agents, and chartering organizations.* In supplementation of the provisions of Part 212 of this chapter, all of which are here controlling, the following provisions of Part 295 of this chapter, as reissued effective June 29, 1960 and as hereafter amended from time to time, shall apply to passenger charters in foreign air transportation.

(1) To such extent as the context will permit the following provisions of Part 295 of this chapter shall fully apply respecting foreign air carrier applicants, that is: §§ 295.2(b) to (k) (definitions), 295.3 (waiver), 295.11 (solicitation and formation of a chartering group), 295.15 (a) (one-way passengers and plane-load groups), 295.18 (prohibited gratuities or payments), 295.50 (provisions for mixed charters), and 295.60 (advisory opinions).

(2) To such extent as the context will permit the following provisions of Part 295 of this chapter shall fully apply respecting travel agents, that is: §§ 295.2 (b) to (k) (definitions), 295.20 (limited activities), 295.21 (permissible solicitation, sale or ticketing of individual participants for land tours), 295.22 (prohibited compensation to agents who are members of chartering organizations), 295.23 (prohibition against double compensation), 295.24 (prohibition against incurring obligations), 295.25 (prohibition against making payments or gratuities), and 295.50 (provisions for mixed charters).

(3) To such extent as the context will permit the following provisions of Part 295 of this chapter shall fully apply respecting chartering organizations, that is: §§ 295.2 (b) to (k) (definitions), 295.30 (solicitation of charter participants), 295.31 (passengers on charter flights), 295.32 (participation of immediate families of chartering organization members), 295.33 (a) to (c) (charter costs), 295.34(a) (statements of charges), 295.50 (provisions for mixed charters), and 295.60 (advisory opinions).

NOTE: Statements of General Policy, Policy Statements, Part 399, issued May 25, 1955 (Regulations Policy Statement No. 1), amended April 4, 1957, No. 2; January 7, 1958, No. 3; May 8, 1958, No. 4; November 5, 1958, No. 5; October 3, 1958, No. 6; December 3, 1958, No. 7; August 5, 1959, No. 8; October 29, 1959, No. 9; November 24, 1959, No. 10.

(Sec. 204(a), 72 Stat. 743, 49 U.S.C. 1324. Administrative Procedure Act, sec. 3, 60 Stat. 238, 5 U.S.C. 1002)

By the Civil Aeronautics Board.

Chapter III—Federal Aviation Agency

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 59-AN-1]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Modification

On January 21, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 516) stating that the Federal Aviation Agency proposed to realign the south course of the Annette Island, Alaska, radio range, and to redesignate a segment of Blue Federal airway No. 79.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, § 600.679 (24 F.R. 10503) is amended to read:

§ 600.679 Blue Federal airway No. 79 (Annette Island, Alaska to United States-Canadian Border).

From the United States-Canadian border to the Annette Island, Alaska, RR via a direct bearing from the Sandspit, British Columbia, RR to the Annette Island RR; Petersburg, Alaska, RR; Haines, Alaska, RBN; to the United States-Canadian Border via a direct bearing from Haines RBN to the Pon Lake, Yukon Territory, RBN.

This amendment shall become effective 0001 e.s.t. July 28, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 8, 1960.

CHARLES W. CARMODY, *Acting Director, Bureau of Air Traffic Management.*

[Airspace Docket No. 59-WA-166]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Modification

On October 10, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (24 F.R. 8270) which stated that the Federal Aviation Agency was considering an amendment to § 600.6014 of the regulations of the Administrator which would modify the segment of VOR Federal airway No. 14 between Albany, N.Y., and Gardner, Mass.

As stated in the notice, Victor 14 presently extends from Roswell, N. Mex., to Boston, Mass. The Federal Aviation Agency is modifying the segment of Victor 14 between Albany and Gardner by aligning this segment via the intersection of the Albany VORTAC 094° True and the Gardner VORTAC 284° True radials to provide lateral separation between Victor 14 and a proposed jet aircraft en route penetration from the Albany VORTAC to the Westover AFB, Chicopee Falls, Mass.

Although not mentioned in the notice, the Federal Aviation Agency is also amending § 600.6002 by modifying the segment of VOR Federal airway No. 2 between Albany and Gardner via the Albany VORTAC 094° True and the Gardner VORTAC 284° True radials. This modification is necessary so that this segment of Victor 2, which presently coincides with Victor 14, will continue to overlie Victor 14 between Albany and Gardner and provide the same separation between Victor 2 and the proposed jet aircraft en route penetration to Westover AFB. The dog-legging of this segment of Victor 2 will move the center line approximately 3 miles north of a direct line between the Albany VORTAC and the Gardner VORTAC, but will involve no additional airspace.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, the following actions are taken:

1. In the text of § 600.6002 (24 F.R. 10503, 25 F.R. 4376) "Albany, N.Y., VOR, including a south alternate via the INT of the Syracuse VOR 117° and the Albany VOR 269° radials; Gardner, Mass., VOR;" is deleted and "Albany, N.Y., VORTAC, including a S alternate via the INT of the Syracuse VORTAC 117° True and the Albany VORTAC 269° True radials; INT of the Albany VORTAC 094° True and the Gardner, Mass., VORTAC 284° True radials; Gardner VORTAC;" is substituted therefor.

2. In the text of § 600.6014 (24 F.R. 10506; 25 F.R. 3576), "Albany, N.Y., VOR; Gardner, Mass., VOR;" is deleted and "Albany, N.Y., VORTAC; INT of the Albany VORTAC 094° True and the Gardner, Mass., VORTAC 284° True radials; Gardner VORTAC;" is substituted therefor.

This amendment shall become effective 0001 e.s.t. August 25, 1960.

(Secs. 307(a), and 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 8, 1960.

CHARLES W. CARMODY, *Acting Director, Bureau of Air Traffic Management.*

[F.R. Doc. 60-5402; Filed, June 14, 1960; 8:45 a.m.]

[Airspace Docket No. 59-WA-329]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Change of Effective Date

On February 2, 1960, there was published in the FEDERAL REGISTER (25 F.R. 857) an amendment to § 600.6088 of the regulations of the Administrator. This amendment, to be effective July 28, 1960, modified VOR Federal airway No. 88 between the Vichy, Mo., VOR and the Crystal City, Mo., intersection, concurrently with the commissioning of a VOR near Richwoods, Mo.

The commissioning date of the Richwoods VOR has been rescheduled. Therefore, it is necessary to postpone the effective date of the above-mentioned amendment until October 20, 1960.

Since this action does not impose a burden on the public, compliance with the notice, public procedure and effective date requirements of section 4 of the Administrative Procedure Act is unnecessary.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), effective immediately, Airspace Docket No. 59-WA-329 is hereby modified as follows: "effective 0001 e.s.t. July 28, 1960." is deleted and "effective 0001 e.s.t. October 20, 1960." is substituted therefor.

(Secs. 307(a), and 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 8, 1960.

CHARLES W. CARMODY, *Acting Director, Bureau of Air Traffic Management.*

[F.R. Doc. 60-5416; Filed, June 14, 1960; 8:45 a.m.]

[Airspace Docket No. 60-KC-9]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Modification of Federal Airways and Designated Reporting Points

The purpose of these amendments to §§ 600.6004, 600.6063, 600.6175, 600.6210, 600.6614, 601.6063, 601.6175 and 601.7001 of the regulations of the Administrator is to change the name of the Columbia, Mo., VOR to the Hallsville, Mo., VOR. This action is being taken to eliminate confusion with the Columbia TVOR which is being installed on the Columbia Airport. Additionally, the captions of §§ 600.6063 and 601.6063 are being changed to more accurately reflect the terminals of the airway.

Since this action imposes no additional burden on the public, compliance with the notice, public procedure, and effective date requirements of Section 4 of the Administrative Procedure Act is unnecessary.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), §§ 600.6004 (24 F.R. 10504, 10142, 25 F.R. 2009, 2883), 600.6063 (24 F.R. 10512), 600.6175 (24 F.R. 10520), 600.6210 (24 F.R. 10522, 25 F.R. 172, 430), 600.6614 (24 F.R. 10529, 25 F.R. 635), 601.6063 (24 F.R. 10599), 601.6175 (24 F.R. 10602) and 601.7001 (24 F.R. 10606) are amended as follows:

§ 600.6004 [Amendment]

1. In the text of § 600.6004 *VOR Federal airway No. 4 (Seattle, Wash., to Herndon, Va.)*, "Columbia, Mo., omnirange station, including a north alternate from the Kansas City omnirange station to the Columbia omnirange station via the intersection of the Kansas City omnirange 076° and the Columbia omnirange 292° radials;" is deleted and "Hallsville, Mo., VOR, including a north alternate from the Kansas City VOR to the Hallsville VOR via the INT of the Kansas City VOR 076° True and the Hallsville VOR 292° True radials;" is substituted therefor.

§ 600.6063 [Amendment]

2. (a) In § 600.6063 *VOR Federal airway No. 63 (Waco, Tex., to Milwaukee, Wis.)*, the caption "(Waco, Tex., to Milwaukee, Wis.)" is deleted and "(Waco, Tex., to Sulphur Springs, Tex., and McAlester, Okla., to Milwaukee, Wis.)" is substituted therefor.

(b) In the text "Columbia, Mo., omnirange station;" is deleted and "Hallsville, Mo., VOR;" is substituted therefor.

§ 600.6175 [Amendment]

3. (a) In § 600.6175 *VOR Federal airway No. 175 (Vichy, Mo., to Columbia, Mo.)*, the caption "Columbia, Mo." is deleted and "Hallsville, Mo." is substituted therefor.

(b) In the text "the Columbia omnirange 209° True radials; to Columbia, Mo., omnirange stations." is deleted and "the Hallsville VOR 209° True radials; to the Hallsville, Mo., VOR." is substituted therefor.

§ 600.6210 [Amendment]

4. In the text of § 600.6210 *VOR Federal airway No. 210 (Los Angeles, Calif., to Imperial, Pa.)*, "Columbia, Mo., omnirange station, including a north alternate via the intersection of the Kansas City omnirange 076° and the Columbia omnirange 292° radials;" is deleted and "Hallsville, Mo., VOR, including a north alternate via the INT of the Kansas City VOR 076° True and the Hallsville VOR 292° True radials;" is substituted therefor.

§ 600.6614 [Amendment]

5. In the text of § 600.6614 *VOR Federal airway No. 1514 (Half Moon Bay, Calif., to New York, N.Y.)*, "Columbia, Mo., VOR;" is deleted and "Hallsville, Mo., VOR;" is substituted therefor.

6. Section 601.6063 is amended to read:

§ 601.6063 VOR Federal airway No. 63 control areas (Waco, Tex., to Sulphur Springs, Tex., and McAlester, Okla., to Milwaukee, Wis.).

All of VOR Federal airway No. 63.

7. Section 601.6175 is amended to read:

§ 601.6175 VOR Federal airway No. 175 control areas (Vichy, Mo., to Hallsville, Mo.).

All of VOR Federal airway No. 175.

§ 601.7001 [Amendment]

8. In the text of § 601.7001 *Domestic VOR reporting points*, "Columbia, Mo., omnirange station." is deleted and "Hallsville, Mo., VOR." is substituted therefor.

These amendments shall become effective upon the date of publication in the FEDERAL REGISTER.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 8, 1960.

CHARLES W. CARMODY, *Acting Director, Bureau of Air Traffic Management.*

[F.R. Doc. 60-5412; Filed, June 14, 1960; 8:45 a.m.]

[Airspace Docket No. 60-WA-37]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Modification of Control Area Extensions

The purpose of these amendments to §§ 601.1064 and 601.1081 of the regulations of the Administrator is to modify the Chicopee Falls, Mass., and the Windsor Locks, Conn., control area extensions.

The Chicopee Falls control area extension is partially described on the south, and the Windsor Locks control area extension is partially described on the north, by the use of "a line extending from a point at latitude 42°08'50" N., longitude 72°28'00" W., to a point at latitude 42°04'30" N., longitude 72°11'30" W." This line, however, does not fully enclose the southern portion of the Chicopee Falls area or the northern portion of the Windsor Locks area. Therefore, "a line extending from a point at latitude 42°08'20" N., longitude 72°37'-00" W., to a point at latitude 42°03'45" N., longitude 72°09'00" W." is being substituted for "a line extending from a point at latitude 42°08'50" N., longitude 72°28'00" W., to a point at latitude 42°04'30" N., longitude 72°11'30" W." in the descriptions of these two control area extensions. The airspace encompassed by this modification is essentially the same as that presently designated.

Since these amendments impose no additional burden on the public, compliance with the notice, public procedure and effective date requirements of section 4 of the Administrative Procedure Act is unnecessary and it may be made effective immediately.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) §§ 601.1064 (24 F.R. 10550) and 601.1081 (24 F.R. 10551) are amended as follows:

1. In the text of § 601.1064 *Control area extension (Chicopee Falls, Mass.)*, delete "on the south by a line extending from a point at latitude 42°08'50", longitude 72°28'00" to a point at latitude 42°04'-30", longitude 72°11'30"," and substitute

therefor "on the S by a line extending from a point at latitude 42°08'20" N., longitude 72°37'00" W., to a point at latitude 42°03'45" N., longitude 72°09'-00" W.,".

2. In the text of § 601.1081 *Control area extension (Windsor Locks, Conn.)*, delete "That airspace bounded on the north by a line extending from a point at latitude 42°08'50", longitude 72°28'00" to a point at latitude 42°04'30", longitude 72°11'30"," and substitute therefor "That airspace bounded on the N by a line extending from a point at latitude 42°08'20" N., longitude 72°37'00" W., to a point at latitude 42°03'45" N., longitude 72°09'00" W.,".

These amendments shall become effective upon the date of publication in the FEDERAL REGISTER.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 8, 1960.

CHARLES W. CARMODY,
Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5406; Filed, June 14, 1960; 8:45 a.m.]

[Airspace Docket No. 60-WA-33]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Modification of Control Area Extension

The purpose of this amendment to § 601.1268 of the regulations of the Administrator is to modify the Sioux Falls, S. Dak., control area extension.

In Airspace Docket No. 59-WA-402 (24 F.R. 10440), the Sioux Falls control area extension was redescribed by the substitution of VOR Federal airway No. 148 for VOR Federal airway No. 80. The inadvertent omission of the phrase "northeast of Sioux Falls" in this redescription of the control area extension makes the designation incorrect since Victor 148 extends both southwest and northeast of Sioux Falls. Therefore, it is necessary to add the phrase "northeast of Sioux Falls" at the end of the text in § 601.1268 to more accurately describe the area.

Since this amendment is clarifying in nature and imposes no additional burden on any person, notice and public procedure hereon are unnecessary, and it may be made effective on less than 30 days' notice.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), § 601.1268 (24 F.R. 10561, 10440) is amended to read:

§ 601.1268 Control area extension (Sioux Falls, S. Dak.).

That airspace SE of Sioux Falls within a 15-mile radius of the Sioux Falls VORTAC extending clockwise from the southern boundary of VOR Federal airway No. 148 to the eastern boundary of VOR Federal airway No. 15; that airspace within a 23-mile radius of the Sioux Falls VORTAC extending from the western boundary of VOR Federal airway No. 15, S of Sioux Falls thence clockwise to the northern boundary of VOR Federal airway No. 148 NE of Sioux Falls.

This amendment shall become effective upon the date of publication in the FEDERAL REGISTER.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 8, 1960.

CHARLES W. CARMODY,
Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5405; Filed, June 14, 1960; 8:45 a.m.]

[Airspace Docket No. 59-WA-178]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Modification of Control Area Extension

On November 6, 1959, a notice of proposed rule-making was published in the FEDERAL REGISTER (24 F.R. 9062) stating that the Federal Aviation Agency was proposing to modify the Albany, N.Y., control area extension.

The geographical coordinates of the Windsor, Mass., VOR were incorrectly described in the preamble of the notice and are revised to read: Latitude 42°30'-24" N., longitude 73°03'35" W. This change is minor in nature in that it represents a correction of only 24 seconds of latitude, and 35 seconds of longitude. Subsquent to publication of the Notice, the Department of the Air Force changed the name of the facility from the Windsor VOR to the Savoy VOR. These changes will not effect the assignment of airspace and will necessitate no change in the amendment as proposed in the notice.

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

Pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons set forth in the Notice, the proposed amendment is hereby adopted without change and set forth below:

Section 601.1303 (24 F.R. 10563) is amended to read:

§ 601.1303 Control area extension (Albany, N.Y.).

Within a 15-mile radius of the Albany VORTAC from the 134° True radial clockwise to the 094° True radial and within a 40-mile radius of the VORTAC from the 094° True radial clockwise to the 134° True radial.

This amendment shall become effective 0001 e.s.t. August 25, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 8, 1960.

CHARLES W. CARMODY,
Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5403; Filed, June 14, 1960; 8:45 a.m.]

[Airspace Docket No. 60-KC-26]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Revocation of Control Area Extension and Control Zone

The purpose of these amendments to Part 601 of the regulations of the Administrator is to revoke the Malden, Mo., control area extension and control zone.

The Federal Aviation Agency has been advised by the Department of the Air Force that Malden Air Base, Malden, Mo., will be deactivated on or about June 30, 1960, and that the requirement for the control area extension and control zone will not exist except for the ferrying of aircraft and cargo flights which will be completed by September 1, 1960. Therefore, the retention of the control zone and control area extension will no longer be justified as an assignment of airspace and the revocation thereof is in the public interest. Such action is being taken herein.

Since these amendments eliminate a burden on the public, compliance with the notice, public procedure, and effective date requirements of section 4 of the Administrative Procedure Act is unnecessary. However, for the reasons stated above, this action will not be effective until September 1, 1960.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), Part 601 (24 F.R. 10530) is amended as follows:

Section 601.1329 *Control area extension (Malden, Mo.)* is revoked.

Section 601.2319 *Malden, Mo., control zone* is revoked.

These amendments shall become effective 0001 e.s.t. September 1, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 8, 1960.

CHARLES W. CARMODY,
Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5413; Filed, June 14, 1960; 8:45 a.m.]

[Airspace Docket No. 60-WA-58]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Modification of Control Area Extension

The purpose of this amendment to § 601.1436 of the regulations of the Administrator is to modify the San Bernardino, Calif., control area extension.

The San Bernardino control area extension is designated with reference to VOR Federal airway No. 264 as the northwest boundary and Blue Federal airway No. 14 as the western boundary. Victor 264 has been realigned to the extent that it no longer forms a boundary of the control area extension. It is, therefore, necessary to delete Victor 264 from the control area extension description and substitute therefor VOR Federal airway No. 8. The alignment of Victor 8 in this area, is the same as the former alignment of Victor 264. Victor 8 will also be substituted for Blue Federal airway No. 14, as Blue 14 is under consideration for revocation. There will be no increase in the amount of controlled airspace.

Since this amendment imposes no additional burden on the public, compliance with the notice, public procedure, and effective date requirements of section 4 of the Administrative Procedure Act is unnecessary and it may be made effective immediately.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), § 601.1436 (24 F.R. 10569) is amended to read:

§ 601.1436 Control area extension (San Bernardino, Calif.).

The airspace bounded on the NW by VOR Federal airway No. 8, on the NE by VOR Federal airway No. 137, and on the S by VOR Federal airway No. 16.

This amendment shall become effective upon the date of publication in the FEDERAL REGISTER.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 8, 1960.

CHARLES W. CARMODY,
Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5407; Filed, June 14, 1960; 8:45 a.m.]

[Airspace Docket No. 59-KC-78]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Modification of Control Zone

On January 12, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 222) stating that the Federal Aviation Agency proposed to modify the Muskegon, Mich., control zone and control area extension.

The Aircraft Owners and Pilots Association concurred in the designation of the east extension to the Muskegon control zone, but objected to the existing control zone extension to the southeast. The Federal Aviation Agency has reviewed the existing extension to the southeast and has determined that it is required in order to provide protection for aircraft conducting instrument approaches.

Subsequent to publication of the notice, the Federal Aviation Agency determined that the Muskegon control area extension modification as proposed in the Notice was not required. Therefore, no modification is being made at this time to the control area extension.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, § 601.2117 (24 F.R. 10577) is amended to read:

§ 601.2117 Muskegon, Mich., control zone.

Within a 5-mile radius of the geographical center of Muskegon County Airport (latitude 43°10'16" N., longitude 86°14'09" W.) and within 2 miles either side of the SE course of the Muskegon RR extending from the 5-mile radius zone to a point 12 miles SE of the RR and within 2 miles either side of the Muskegon VORTAC 270° True radial extending from the 5-mile radius zone to the Muskegon VORTAC.

This amendment shall become effective 0001 e.s.t. July 28, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 8, 1960.

CHARLES W. CARMODY,
Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5414; Filed, June 14, 1960; 8:45 a.m.]

[Airspace Docket No. 60-NY-9]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Modification of Control Zone

On March 12, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 2110) stating that the Federal Aviation Agency proposed to modify the New York, N.Y., control zone.

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the Notice, § 601.2206 (24 F.R. 10581) is amended to read:

§ 601.2206 New York, N.Y., control zone (La Guardia Field).

Within a 5-mile radius of the geographical center of La Guardia Field (latitude 40°46'29" N., longitude 73°-52'20" W.) and within 2 miles either side of the New York (La Guardia Field) RR NE course extending from the 5-mile radius zone to the New Rochelle, N.Y., RBN.

This amendment shall become effective 0001 e.s.t. July 28, 1960.

(Secs. 307(a), 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354))

Issued in Washington, D.C., on June 8, 1960.

CHARLES W. CARMODY,
Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5409; Filed, June 14, 1960; 8:45 a.m.]

[Airspace Docket No. 59-WA-318]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Change of Effective Date

On February 17, 1960, there were published in the FEDERAL REGISTER (25 F.R. 1400) amendments to §§ 601.2125 and 601.1244 of the regulations of the Administrator. These amendments, to be effective August 25, 1960, modified the Terre Haute, Ind., control zone and control area extension, concurrently with the commissioning of the Terre Haute VOR at a new location.

The commissioning date of the relocated Terre Haute VOR has been rescheduled. Therefore, it is necessary to postpone the effective date of the above-mentioned amendments until October 20, 1960.

Since this action does not impose a burden on the public, compliance with the notice, public procedure and effective date requirements of section 4 of the Administrative Procedure Act is unnecessary.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), effective immediately, Airspace Docket No. 59-WA-318 is hereby modified as follows: "effective 0001 e.s.t. August 25, 1960." is deleted and "effective 0001 e.s.t. October 20, 1960." is substituted therefor.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 8, 1960.

CHARLES W. CARMODY,
Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5415; Filed, June 14, 1960; 8:45 a.m.]

[Airspace Docket No. 59-WA-126]

PART 602—ESTABLISHMENT OF CODED JET ROUTES AND NAVIGATIONAL AIDS IN THE CONTINENTAL CONTROL AREA

Modification of Coded Jet Routes

On January 7, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 123) stating that the Federal Aviation Agency was considering an amendment to §§ 602.506, 602.509 and 602.528 of the regulations of the Administrator which would modify VOR/VORTAC jet routes Nos. 6, 9 and 28.

As stated in the Notice, VOR/VORTAC jet route No. 6 extends, in part, from Palmdale, Calif., to Prescott, Ariz.; VOR/VORTAC jet route No. 9 extends, in part, from Los Angeles, Calif., to Las Vegas, Nev.; and VOR/VORTAC jet route No. 28 extends, in part, from Daggett, Calif., to Peach Springs, Ariz. These routes are presently aligned via the Daggett, Calif., VOR. The Federal Aviation Agency is realigning these jet route segments as follows: Jet Route 6–V, from the Palmdale VOR to the Prescott VOR via the Hector, Calif., VOR; Jet Route 9–V, from the Los Angeles VOR to the Las Vegas VOR, via the Hector VOR; and Jet Route 28–V, from the Hector VOR to the Peach Springs VOR. These modifications will realign the jet route structure to the south, thus avoiding the highly concentrated supersonic military aircraft operations in the vicinity of Edwards Air Force Base, Calif.

The Department of the Air Force offered no objection to the proposed realignment of Jet Routes 9–V and 28–V, however, they did not agree with the concept that realignment of Jet Route 6–V, to the south, as proposed, would avoid the highly concentrated supersonic military aircraft operations in the vicinity of Edwards AFB, because these operations are conducted in the Edwards supersonic corridor, which is within Restricted Area R–279, and are already avoided by the route. They objected to the realignment of the jet route to the south, as proposed, because this would place the route closer to the George AFB, Calif., terminal area, which has a high concentration of high-speed jet tactical and interceptor operations. They have requested that realignment of the route be deferred until a simulation study can be made of the traffic control problems associated with George AFB, Edwards AFB and the Palmdale Air Force Plant.

Jet Route 6–V, in its present alignment, is only 2.5 miles from Restricted Area R–279, at the closest point. The proposed alignment will place the jet route 6 miles from the restricted area, at the closest point. This will provide greater separation between enroute jet traffic and the Edwards AFB operations within the restricted area. In reference to the objection to realign the jet route closer to the George AFB terminal area, initial jet penetrations to George AFB are conducted within Restricted Area R–279/484 with final approaches to the airbase from north to south. Aircraft on final approach are at 7,000 feet MSL or below and well below the en route traffic on Jet Route 6–V in its present alignment. Realignment of the jet route to the south and closer to the airbase will increase the vertical separation.

In view of the increased separation, both lateral and vertical, of enroute traffic from local operations at both George AFB and Edwards AFB, provided by the action proposed in this amendment, it is in the public interest to realign Jet Route 6–V as proposed. If the results of a traffic control simulation study should disclose a more practical realignment of the jet route, this can be accomplished at a later date.

The Air Transport Association of America offered no objection to the proposed amendment, however, they recommended revocation of Jet Route 9–V between Los Angeles, Calif., and Las Vegas, Nev., and revocation of Jet Route 28–V between Hector and Farmington, N. Mex., to avoid duplication of routes. Jet Route 9–V, as presently established, facilitates air traffic management and flight planning by providing a single numbered jet route between Los Angeles and Salt Lake City thence to points north. The Federal Aviation Agency will consider revocation of Jet Route 28–V at a later date.

No other adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), §§ 602.506 (24 F.R. 2649), 602.509 (14 CFR, 1958 Supp., 602.509) and 602.528 (24 F.R. 2649) are amended as follows:

1. In the text of § 602.506 *VOR/VORTAC jet route No. 6 (Palmdale, Calif., to New York, N.Y.)*, delete "From the Palmdale, Calif., VOR via the Daggett, Calif., VOR;" and substitute therefor "From the Palmdale, Calif., VOR via the Hector, Calif., VOR;"

2. In the text of § 602.509 *VOR/VORTAC jet route No. 9 (Los Angeles, Calif., to Great Falls, Mont.)*, delete "From the Los Angeles, Calif., VOR via the Daggett, Calif., VOR;" and substitute therefor "From the Los Angeles, Calif., VOR via the Hector, Calif., VOR;"

3. In the text of § 602.528 *VOR/VORTAC jet route No. 28 (Daggett, Calif., to Wichita, Kans.)*, delete "From the Daggett, Calif., VOR" and substitute therefor "From the Hector, Calif., VOR"

This amendment shall become effective 0001 e.s.t., August 25, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 8, 1960.

CHARLES W. CARMODY,
Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5401; Filed, June 14, 1960; 8:45 a.m.]

[Airspace Docket No. 60-WA-86]

PART 602—ESTABLISHMENT OF CODED JET ROUTES AND NAVIGATIONAL AIDS IN THE CONTINENTAL CONTROL AREA

Revocation of Coded Jet Route

On April 12, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 3127) stating that the Federal Aviation Agency proposed to revoke L/MF jet route No. 22 in its entirety.

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, Part 602 (14 CFR, 1958 Supp., Part 602) is amended as follows:

Section 602.122 *L/MF jet route No. 22 (Laredo, Tex., to Washington, D.C.)* is revoked.

This amendment shall become effective 0001 e.s.t., August 25, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 8, 1960.

CHARLES W. CARMODY,
Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5411; Filed, June 14, 1960; 8:45 a.m.]

[Airspace Docket No. 60-WA-81]

PART 602—ESTABLISHMENT OF CODED JET ROUTES AND NAVIGATIONAL AIDS IN THE CONTINENTAL CONTROL AREA

Modification of Coded Jet Route

On April 9, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 3087) stating that the Federal Aviation Agency proposed to revoke the segment of VOR/VORTAC jet route No. 49 from Miami, Fla., to Spartanburg, S.C.

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, § 602.549 (25 F.R. 3816) is amended to read:

§ 602.549 VOR/VORTAC jet route No. 49 (Pittsburgh, Pa., to Presque Isle, Maine).

From the Pittsburgh, Pa., VOR, via the Philipsburg, Pa., VORTAC; Albany, N.Y., VORTAC; Bangor, Maine, VOR; to the Presque Isle, Maine, VOR.

This amendment shall become effective 0001 e.s.t., August 25, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 8, 1960.

CHARLES W. CARMODY,
Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5410; Filed, June 14, 1960; 8:45 a.m.]

[Airspace Docket No. 59-WA-228]

PART 602—ESTABLISHMENT OF CODED JET ROUTES AND NAVIGATIONAL AIDS IN THE CONTINENTAL CONTROL AREA

Extension of Coded Jet Route

On February 5, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 1054) stating that the Federal Aviation Agency was considering an amendment to § 602.580 of the regulations of the Administrator which would extend VOR/VORTAC jet route No. 80 from Denver, Colo., to Oakland, Calif.

As stated in the notice, J–80–V presently extends from Denver to New York, N.Y. The Federal Aviation Agency is extending J–80–V from the Denver VORTAC via the Grand Junction, Colo., VOR, the Milford, Utah, VORTAC, the Wilson Creek, Nev., VOR, the Tonopah, Nev., VOR, and the Stockton, Calif., VOR to the Oakland VORTAC. The extension of this route will simplify flight planning and improve air traffic management by providing a single numbered jet route between Oakland and New York. The operation of civil jet aircraft between these terminals is presently conducted via several separately numbered route segments.

The Air Transport Association of America concurred in the proposed extension of J–80–V. The ATA, however, stated that it did not consider it necessary to include the Wilson Creek VOR in the definition of this route since the inclusion of this VOR would require one more frequency adjustment and, undoubtedly, one more position report. The Department of the Air Force objected to the segment of J–80–V which is being designated from the Grand Junction VOR direct to the Milford VOR. The Air Force stated that this segment of J–80–V will not overlie an existing jet route and will, therefore, curtail Air Force training capability by creating more designated airspace. The Air Force recommended that the portion of J–80–V between Grand Junction and Milford be aligned via the Hanksville, Colo., VOR, thereby, having it coincide with the existing VOR/VORTAC jet routes Nos. 58 and 60.

In view of the above comments, the Federal Aviation Agency discussed the proposed extension of J–80–V with representatives of ATA and the Air Force. As a result of these discussions, both the ATA and the Air Force withdrew their objections to the proposed amendment and it was agreed that J–80–V will be extended as proposed with the exception that it will be aligned direct between the Tonopah and Milford VOR's, thereby, excluding the Wilson Creek VOR from the route.

No other comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) § 602.580 (24 F.R. 2650) is amended to read:

§ 602.580 VOR/VORTAC jet route No. 80 (Oakland, Calif., to New York, N.Y.).

From the Oakland, Calif., VORTAC via the Stockton, Calif., VOR; Tonopah, Nev., VOR; Milford, Utah, VORTAC; Grand Junction, Colo., VOR; Denver, Colo., VORTAC, Hill City, Kans., VOR; Salina, Kans., VORTAC; Kansas City, Mo., VOR; St. Louis, Mo., VORTAC; Indianapolis, Ind., VORTAC; INT of the Indianapolis VORTAC 073° True and the Appleton, Ohio, VORTAC 273° True radials; Appleton VORTAC; Pittsburgh, Pa., VOR; Philipsburg, Pa., VORTAC; Allentown, Pa., VORTAC, to the Idlewild, N.Y., VORTAC.

This amendment shall become effective 0001 e.s.t., August 25, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 8, 1960.

CHARLES W. CARMODY,
Acting Director, Bureau of Air Traffic Management.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 7755 c.o.]

PART 13—PROHIBITED TRADE PRACTICES

Equitable Coat Co., Inc., et al.

Subpart—Advertising falsely or misleadingly: § 13.30 *Composition of goods:* § 13.30–100 *Wool Products Labeling Act.* Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 *Formal regulatory and statutory requirements;* § 13.1852–80 *Wool Products Labeling Act.*

(Sec. 6, 38 Stat. 722; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, secs. 2–5, 54 Stat. 1128–1130; 15 U.S.C. 45, 68–68(c)) [Cease and desist order, Equitable Coat Co., Inc., et al., New York City, New York, Docket 7755, April 27, 1960]

In the Matter of Equitable Coat Co., Inc., a Corporation, and Melvin Gelfand and Irving Gelfand, Individually and as Officers of Said Corporation and as Co-Partners Trading as Little Maid Coat Company

The complaint in this case charged New York City manufacturers with violating the Wool Products Labeling Act by failing to label girls' and teenage coats as required, and by representing said coats falsely in circulars to be "100% Wool Luxury Fabric" when they actually contained substantially less than 100 percent woolen fibers.

Accepting a consent agreement, the hearing examiner made his initial decision and order to cease and desist which became on April 27 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That the respondents Equitable Coat Co., Inc., a corporation, and its officers, and Melvin Gelfand and Irving Gelfand, individually and as officers of said corporation, and as co-partners trading as Little Maid Coat Company, or under any other name, and respondents' representatives, agents, and employees, directly or through any corporate or other device, in connection with the introduction or manufacture for introduction, into commerce, or the offering for sale, sale, transportation, or distribution, in commerce, as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labeling Act of 1939 of girls' and teenage coats or other wool products, as such products are defined in and subject to said Wool Products Labeling Act, do forthwith cease and desist from misbranding such products by failing to affix labels to such products showing each element of information required to be disclosed by section 4(a)(2) of the Wool Products Labeling Act of 1939.

It is further ordered, That respondents Equitable Coat Co., Inc., a corporation, and its officers, and Melvin Gelfand and Irving Gelfand, individually and as officers of said corporation, and as co-partners trading as Little Maid Coat Company, or under any other name, and respondents' representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution of girls' and teenage coats or other products, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from misrepresenting the character or amount of the constituent fibers contained in said product in advertising, or in any other manner.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with

the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: April 27, 1960.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

[F.R. Doc. 60-5423; Filed, June 14, 1960; 8:46 a.m.]

[Docket 7528 c.o.]

PART 13—PROHIBITED TRADE PRACTICES

Fieldcrest Mills, Inc.

Subpart—Discriminating in price under section 2, Clayton Act—Payment for services or facilities for processing or sale under 2(d): § 13.824 *Advertising expenses; Furnishing services or facilities for processing, handling, etc. under 2(e):* § 13.835 *Demonstrators.*

(Sec. 6, 38 Stat. 722; 15 U.S.C. 46. Interprets or applies sec. 2, 49 Stat. 1527; 15 U.S.C. 13) [Cease and desist order, Fieldcrest Mills, Inc., Spray, N.C., Docket 7528, April 27, 1960]

This case was heard by a hearing examiner on the complaint of the Commission charging a large manufacturer of rugs, carpets and "domestics" in Spray, N.C.—with sales in 1958 of over $62,000,000—with violating sections 2 (d) and (e) of the Clayton Act by granting advertising allowances to favored customers on more generous terms than it offered their competitors, making payments in varying amounts up to 100 percent; and by furnishing only favored customers with a "Fieldcrest Shop" and providing for training their sales personnel.

Following acceptance of a consent agreement, the hearing examiner made his initial decision and order to cease and desist which became on April 27 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondent Fieldcrest Mills, Inc., a corporation, and its officers, employees, agents and representatives, directly or through any corporate or other device, in or in connection with the offering for sale, sale or distribution of any of its products sold under any of its trademarks, trade names, or labels in commerce, as "commerce" is defined in the Clayton Act, as amended, do forthwith cease and desist from:

1. Paying or contracting for the payment of anything of value to, or for the benefit of, any customer or respondent as compensation or in consideration for any advertising, or promotional activities, or other services or facilities furnished by or through such customer in connection with the handling, offering for sale, or sale or distribution of any product or products of respondent, unless such payment or consideration is offered or otherwise made available on proportionally equal terms to all other customers competing in the distribution or sale of such product or products.

2. Furnishing, contracting to furnish, or contributing to the furnishing of any fixtures, display facilities, training programs or other services or facilities in connection with the handling, processing, sale or offering for sale of any product or products of respondent to any purchaser from respondent of such product or products bought for resale, unless such fixtures, display facilities, training programs, or other services or facilities are offered or otherwise made available on proportionally equal terms to all other purchasers from respondent who resell such product or products in competition with such purchasers who receive such fixtures, display facilities, training programs, or other services or facilities.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondent herein shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist.

Issued: April 27, 1960.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

[F.R. Doc. 60-5424; Filed, June 14, 1960; 8:47 a.m.]

Title 18—CONSERVATION OF POWER

Chapter I—Federal Power Commission

[Order 221; Docket No. R-188]

PART 157—APPLICATIONS FOR CERTICATES OF PUBLIC CONVENIENCE AND NECESSITY UNDER SECTION 7 OF THE NATURAL GAS ACT AS AMENDED

Other Information

JUNE 9, 1960.

In this proceeding the Commission has under consideration the amendment of Part 157, entitled "Applications for Certificates of Public Convenience and Necessity Under Section 7 of the Natural Gas Act as Amended" of Subchapter E, Regulations under the Natural Gas Act, Chapter I of Title 18, Code of Federal Regulations, by revising § 157.27 *Other information.*

Present § 157.27 provides that a producer applicant for a certificate "may be required to furnish such additional information as the Commission may deem pertinent." The amendment herein adopted makes no change in that requirement but merely revises the text of the section to conform it more nearly to the parallel section of the regulations relating to pipeline companies (18 CFR 157.14(c)).

The Commission finds:

(1) The proposed amendment involves a matter of practice and procedure which does not require notice of hearing under section 4(a) of the Administrative Procedure Act.

(2) Adoption and promulgation of the proposed amendment is necessary and appropriate for the purposes of administration of the Natural Gas Act.

(3) Good cause exists that this amendment become effective as hereinafter ordered.

The Commission, acting pursuant to the authority granted by the Natural Gas Act, particularly sections 7 and 16 thereof (52 Stat. 824, 830; 15 U.S.C. 717f and 717o), orders:

(A) Part 157—Applications for Certificates of Public Convenience and Necessity Under Section 7 of the Natural Gas Act, as amended, Subchapter E, Regulations Under the Natural Gas Act, Chapter I of Title 18, Code of Federal Regulations, be and the same is hereby amended by deleting the existing text of § 157.27 and inserting in lieu thereof the following:

§ 157.27 Other information.

Upon request by the Secretary, applicant shall submit such additional data, information, exhibits, or other detail as may be specified.

(B) The amendment prescribed herein shall become effective upon the issuance of this order.

(C) The Secretary of the Commission shall cause publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F.R. Doc. 60-5422; Filed, June 14, 1960; 8:46 a.m.]

Title 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

SUBCHAPTER E—ALCOHOL, TOBACCO, AND OTHER EXCISE TAXES

[T.D. 6471]

PART 175—TRAFFIC IN CONTAINERS OF DISTILLED SPIRITS

Miscellaneous Amendments

On March 19, 1960, a notice of proposed rule making to amend 26 CFR Part 175, with respect to traffic in containers of distilled spirits, was published in the FEDERAL REGISTER (25 F.R. 2367).

After consideration of all relevant matter as was presented by interested parties regarding the rules proposed, the regulations as so published are hereby adopted.

This Treasury decision shall become effective on July 1, 1960.

(68A Stat. 917; 26 U.S.C. 7805)

[SEAL] CHARLES J. FOX, *Acting Commissioner of Internal Revenue.*

Approved: June 9, 1960.

FRED C. SCRIBNER, Jr., *Acting Secretary of the Treasury.*

Conforming Part 175 to provisions of the Internal Revenue Code of 1954, as amended by Public Law 85-859, relating to the refilling and reuse of liquor bottles.

In order to implement provisions of the Internal Revenue Code of 1954, as amended by Public Law 85-859, relating to the refilling and reuse of liquor bottles, 26 CFR Part 175 is amended as follows:

1. Section 175.9 is amended to read as follows:

§ 175.9 Bottler.

A proprietor of a distilled spirits plant authorized to bottle spirits, a proprietor of a class 8 bonded warehouse qualified under the customs laws, or an agency of the United States or any State or political subdivision thereof.

2. Section 175.13 is amended to read as follows:

§ 175.13 Distilled spirits or spirits.

That substance known as ethyl alcohol, ethanol, or spirits of wine, including all dilutions and mixtures thereof, from whatever source or by whatever process produced, and shall include whisky, brandy, rum, gin, and vodka, and products of rectification not classified as wine.

3. Section 175.21 is amended to read as follows:

§ 175.21 United States.

The several States and the District of Columbia.

4. Subpart I is amended to read as follows:

Subpart I—Purchase, Sale, Reuse, and Possession of Used Liquor Bottles

§ 175.120 Purchase or sale of used liquor bottles.

Except as provided in this part, no person shall purchase or sell used liquor bottles.

§ 175.121 Reuse or refilling of liquor bottles.

Except as authorized by the provisions of Chapter 51, I.R.C., and regulations thereunder, including the regulations in this part, and in accordance with the conditions, limitations, and requirements set forth therein, including those in respect to the stamping of containers, no person who sells, or offers for sale, distilled spirits, or any agent or employee of such person, shall (a) place in any liquor bottle any distilled spirits whatsoever other than the distilled spirits contained in such bottle at the time such bottle was filled and stamped under the provisions of Chapter 51, I.R.C., or (b) by the addition of any substance whatsoever to any liquor bottle, in any manner alter or increase the original contents or any portion of the original contents contained in such bottle at the time such bottle was filled and stamped under the provisions of Chapter 51, I.R.C.

§ 175.122 Possession of refilled liquor bottles.

No person who sells, or offers for sale, distilled spirits, or agent or employee of such person, shall (a) possess any liquor bottle in which any distilled spirits have been placed in violation of section 5301 (c) of the Internal Revenue Code or § 175.121 or (b) possess any liquor bottle, any portion of the contents of which has been altered or increased in violation of section 5301(c) of the Internal Revenue Code or § 175.121.

§ 175.123 Possession of used liquor bottles.

The possession of used liquor bottles by any person other than the person who empties the original contents thereof, or the bottler or the importer as authorized by this part, is prohibited, except that this shall not prevent the owner or occupant of any premises on which such bottles have been lawfully emptied from assembling the same on such premises (a) for the purpose of destruction or (b) for delivery to a bottler or importer who maintains a storage place for used liquor bottles as authorized by this part.

[F.R. Doc. 60-5445; Filed, June 14, 1960; 8:49 a.m.]

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Tolerance for Residues of Toxaphene

A petition was filed with the Food and Drug Administration by Hercules Powder Company, Wilmington 99, Delaware, requesting the establishment of a tolerance for residues of toxaphene at 5 parts per million in or on sorghum grain.

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purposes for which a tolerance is being established.

After a consideration of the data submitted in the petition and other relevant material which show that the tolerance established in this order will protect the public health, and by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408 (d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)) and delegated to the Commissioner of Food and Drugs by the Secretary (21 CFR, 1959 Supp., 120.7(g)), the regulations for tolerances for pesticide chemicals in or on raw agricultural commodities (21 CFR, 1959 Supp., 120.138) are amended by changing § 120.138(b) to read as follows:

§ 120.138 Tolerances for residues of toxaphene.

* * * * *

(b) 5 parts per million in or on barley, oats, rice, rye, sorghum grain, wheat.

Any person who will be adversely affected by the foregoing order may at any time prior to the thirtieth day from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall become effective upon publication in the FEDERAL REGISTER.

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: June 9, 1960.

[SEAL] JOHN L. HARVEY, *Deputy Commissioner of Food and Drugs.*

[F.R. Doc. 60-5442; Filed, June 14, 1960; 8:49 a.m.]

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Tolerances for Residues of Dodine

A petition was filed with the Food and Drug Administration by the American Cyanamid Company, 30 Rockefeller Plaza, New York, New York, requesting the establishment of tolerances for residues of dodine at 5 parts per million in or on apples and at zero part per million in meat and milk.

The data before the Commissioner does not show that this pesticide chemical, when included in the feed of animals, would not result in residues in meat and milk. Residues of dodine in pomace from treated apples would make such pomace unsuitable for livestock feed, and the proposed usage does not contemplate that it will be used for that purpose. There is no basis for fixing a tolerance for the pesticide in milk or meat at a level higher than zero.

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purposes for which tolerances are being established.

After consideration of the data submitted in the petition and other relevant material which show that the tolerances established in this order will protect the

public health, and by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408 (d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)) and delegated to the Commissioner of Food and Drugs by the Secretary (21 CFR, 1959 Supp. 120.7(g)), the regulations for tolerances for pesticide chemicals in or on raw agricultural commodities (21 CFR, 1959 Supp. 120.172) are amended by changing § 120.172 to read as follows:

§ 120.172 Tolerances for residues of dodine.

Tolerances for residues of dodine (*n*-dodecylguanidine acetate) in or on raw agricultural commodities are established as follows:

(a) 5 parts per million in or on apples, pears, sour cherries.

(b) Zero part per million in meat and milk.

Any person who will be adversely affected by the foregoing order may at any time prior to the thirtieth day from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum of brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER.

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: June 8, 1960.

[SEAL] JOHN L. HARVEY,
Deputy Commissioner of Food and Drugs.

[F.R. Doc. 60-5441; Filed, June 14, 1960; 8:49 a.m.]

PART 121—FOOD ADDITIVES

Subpart A—Definitions and Procedural and Interpretative Regulations

EXTENSION OF EFFECTIVE DATE OF STATUTE FOR CERTAIN SPECIFIED FOOD ADDITIVES

The Commissioner of Food and Drugs, pursuant to the authority provided in the Federal Food, Drug, and Cosmetic Act (sec. 6(c), Pub. Law 85-929; 72 Stat. 1788; 21 U.S.C., note under sec. 342) and delegated to him by the Secretary of Health, Education, and Welfare (23 F.R. 9500), hereby authorizes the use in foods of certain additives for which tolerances have not yet been established or petitions therefor denied.

Section 121.86 (25 F.R. 343, 404, 1074, 1727, 1944, 2203, 2837, 3525) is amended by adding thereto the following items:

§ 121.86 Extension of effective date of statute for certain specified food additives as direct additives to foods.

On the basis of data supplied in accordance with § 121.85 and findings that no undue risk to the public health is involved and that conditions exist that make necessary the prescribing of an additional period of time for obtaining tolerances or denials of tolerances or for granting exemptions from tolerances, the following additives may be used in food, under certain specified conditions, for a period of 1 year from March 6, 1960, or until regulations shall have been issued establishing or denying tolerances or exemptions from the requirement of tolerances, in accordance with section 409 of the act, whichever occurs first:

* * * * *

FLAVORING SUBSTANCES AND NATURAL SUBSTANCES USED IN CONJUNCTION WITH FLAVORS

Common name	*Botanical or zoological name of source*
Agaric, white	Polyporus officinalis fries.
Alkanet root	Alkanna tinctoria Tausch.
Aloe	Aloe perryi Baker, A. barbadensis Mill., A. ferox Mill., and hybrids of this species with A. africana Mill. and A. spicata Baker.
Aloe extract	Do.
Aloe, cape	Aloe ferox Mill. and its hybrids with A. africana Mill. and A. spicata Baker.
Aloe, cape, extract	Do.
Aloin	Aloe perryi Baker, A. barbadensis Mill., A. ferox Mill., and hybrids of this species with A. africana Mill. and A. spicata Baker.
Althea flowers (marshmallow)	Althea officinalis L.
Althea root (marshmallow root)	Do.
Amyris (West Indian sandalwood) oil	Amyris balsamifera L.
Angola weed	Roccella fuciformis Ach.
"Araucaria" oil	Callitropsis araucarioides Compt.
Artemisia (wormwood) (thujone free)	Artemisia spp.
Balsam fir oil	Abies balsames (L.) Mill.
Balsam fir, oleoresin	Do.
Beechwood creosote	Fagus spp.
Benzoin gum (resin)	Styrax benzoin Dryand., S. paralleloneurus Perkins, S. tonkinensis (Pierre) Craib ex Hartwich, or other spp. of the Section Authostyrax of the genus Styrax.
Birch tar oil, refined (rectified)	Betula pendula Roth and related Betula spp.
Blessed thistle (holly thistle) herb	Cnicus benedictus L.
Blessed thistle (holly thistle) herb extract, solid.	Do.
Blessed thistle (holly thistle) herb extract.	Do.
Blessed thistle (holly thistle) herb oil	Do.
Blackberry bark extract	Rubus, Sec. Eubatus.
Borage	Borago officinalis L.
Boronia, absolute	Boronia megastigma Nees.
Buchu leaves oil	Barosma betulina Bartl., B. crenulata (L.) Hook, and B. serratifolia Willd.
Buckbean leaves extract	Menyanthes trifoliata L.
Bugleweed, yellow (groundpine bugle)	Ajuga chamaepitys (L.) Schreb.
Bugleweed, yellow (groundpine bugle), extract.	Do.
Bugleweed, yellow (groundpine bugle), extract, solid.	Do.
Cabreuva oil	Myrocarpus frondosus Fr. Allen and M. fastigiatus Fr. Allen.
Cade oil (juniper tar, empyreumatic wood oil).	Juniperus oxycedrus L.
Cajeput (cajuput) oil	Melaleuca leucadendron L. and other Melaleuca spp.
Calamus (sweetflag)	Acorus calamus L.
Calamus oil	Do.
California laurel leaves extract	Umbrellularia californica Nutt.
California laurel oil	Do.
Calumba	Jateorhiza palmata (Lam.) Miers.
Calumba extract	Do.
Carmine	Coccus cacti L.
Cascara, bitterless extract	Rhamnus purshiana DC.
Cassie absolute	Acacia farnesiana Willd.
Cassia fistula (goldenshower senna)	Cassia fistula L.
Castor oil	Ricinus communis L.
Catechu, black, extract	Acacia catechu Willd.
Catechu, black, powder	Do.
Cedar leaf oil	Thuja occidentalis L.
Cedarwood, American, white, oil	Juniperus virginiana L.
Centaury (centaurium) herb	Centaurium umbellatum Gilib.
Cherry-laurel water (laurocerasus water).	Prunus laurocerasus L.

FLAVORING SUBSTANCES AND NATURAL SUBSTANCES USED IN CONJUNCTION WITH FLAVORS—Con.

Common name	*Botanical or zoological name of source*
Hart's-tongue	Phyllitis scolopendrium (L.) Newm.
Haw bark, black, extract	Viburnum prunifolium L.
Ho (ho-abo) oil	Cinnamomum camphora Sieb.
Iceland moss	Cetraria islandica Ach.
Imperatoria (masterwort)	Imperatoria ostruthium L.
Iva (musk yarrow)	Achillea moschata Jacq.
Labdanum absolute	Cistus spp.
Labdanum oil	Do.
Labdanum oleoresin	Do.
Lemon-verbena	Lippia citriodora H. B. and K.
Lettuce, wild	Lactuca scariola L., L. virosa L., or other Lactuca spp.
Linaloe wood oil	Bursera delpechiana Poiss. and related Bursera spp.
Linden flowers and leaves	Tilia spp.
Logwood chips extract	Haematoxylon campechianum L.
Lovage	Levisticum officinale Koch.
Lovage extract	Do.
Lovage oil	Do.
Lungmoss (lungwort)	Sticta pulmonacea Ach.
Manna	Fraxinus ornus L.
Maple, mountain, bark	Acer spicatum Lam.
Maple, mountain, bark, extract, solid	Do.
Maple, mountain, extract, solid	Do.
Meadowsweet, European (spiraea ulmaria).	Filipendula ulmaria (L.) Maxim.
Melilot herb (yellow melilot)	Melilotus officinalis (L.) Lam.
Mimosa absolute	Acacia decurrens Willd. var. dealbata.
Motherwort	Leonurus cardiaca L.
Mullein flowers	Verbascum phlomoides L. or V. thapsiforme Schrad.
Myrrh gum and oil	Commiphora molmol Engl., C. abyssinica (Berg) Engl., and other Commiphora spp.
Oak moss absolute (mousse de chene) and extract.	Evernia prunastri (L.) Ach. (true oak moss), E. furfuracea (L.) Mann, and other lichens.
Olibanum oil (frankincense)	Boswellia carteri Birdw. and other Boswellia spp.
Opopanax (bisabol-myrrh) gum and oil.	Opopanax chironium Koch (true opopanax), or Commiphora erythraea Engl. var. glabrescens.
Passion flower herb extract	Passiflora incarnata L.
Patchouly oil	Pogostemon cablin Benth. and P. heyneanus Benth.
Peach leaves	Prunus persica Sieb. et Zucc.
Pennyroyal (American falsepennyroyal)	Hedeoma pulegioides (L.) Pers.
Pennyroyal (American falsepennyroyal) oil	Do.
Pennyroyal (European pennyroyal mint).	Mentha pulegium L.
Pennyroyal (European pennyroyal mint) oil.	Do.
Pimpinella (pimpernel) root	Pimpinella saxifraga L. or P. magna L.
Pine, Scotch, oil	Pinus sylvestris L.
Pine, white, bark	Pinus strobus L.
Pine, white, bark oil	Do.
Pine, white, bark extract, solid	Do.
Poplar buds	Populus candicans Ait. or P. tacamahaca Mill. (P. balsamifera L.)
Quassia	Picrasma excelsa (Sw.) Planch. or Quassia amara L.
Quassia chips	Do.
Quassia root	Do.
Quassia extract	Do.
Quebracho bark extract	Aspidosperma quebracho-blanco Schlecht.
Quillaia extract (soapbark extract, China bark extract).	Quillaja saponaria Molina.

FLAVORING SUBSTANCES AND NATURAL SUBSTANCES USED IN CONJUNCTION WITH FLAVORS—Con.

Common name	*Botanical or zoological name of source*
Chestnut leaves	Castanea dentata (March.) Borkh.
Chestnut leaves extract	Do.
Chestnut leaves extract, solid	Do.
Chiraita (chiretta, East Indian balmony)	Swertia chirayita (Roxb.) Lyons.
Chiraita (chiretta, East Indian balmony) herb extract.	Do.
Cinchonidine	Cinchona spp. (a-quinidine).
Cire d'abeille, absolute	Apis mellifera L.
Cochineal	Coccus cacti L.
Cocillana bark	Guarea rusbyi (Britt.) Rusby.
Copaiba (balsam copaiba)	Copaifera spp.
Copaiba (balsam copaiba) oil	Do.
Cork, oak	Quercus suber L. and Q. occidentalis F. Gay.
"Costus root" extract	Saussurea lappa Clarke.
"Costus root" oil	Do.
Cramp bark extract	Viburnum trilobum Marsh.
Cubeb	Piper cubeba L. f.
Cubeb oil	Do.
Cudbear	Rocella spp., Lecanora spp., or other lichens.
Cudbear extract	Do.
Currant, black, buds, absolute	Ribes nigrum L.
Currant, black, buds, extract	Do.
Currant, black, buds, extract, solid	Do.
Currant, black, leaves	Do.
Damar gum	Shorea spp.
Davana oil	Artemisia pallens Wall.
Deer's-tongue (vanilla trilisa) extract	Trilisa odoratissima (Walt.) Cass.
Dittany (fraxinella)	Dictamnus albus L.
Dittany of Crete	Origanum dictamnus L.
Dittany of Crete, extract	Do.
Dittany of Crete extract, solid	Origanum dictamnus L.
Dittany of Crete oil	Do.
Dock, yellow, root	Rumex crispus L. or R. obtusifolius L.
Dock, yellow, root extract	Do.
Dock, yellow, root extract, solid	Do.
Dragon's blood	Dracaena spp.
Elder flowers, with stems	Sambucus canadensis L. or S. nigra L.
Elder tree leaves	Sambucus nigra L.
Elecampane root	Inula helenium L.
Elecampane root extract	Do.
Elecampane root oil	Do.
Elemi gum	Canarium luzonicum (Miq.) A. Gray.
Elemi oil	Do.
Erigeron	Erigeron canadensis L.
Eucalyptus oil	Eucalyptus globulus Labill. or other Eucalyptus spp.
Eucalyptus leaves	Do.
Eucalyptus oil	Do.
Forget-me-not	Myosotis spp.
Galbanum oil	Ferula galbaniflua Boiss. et Buhse and other Ferula spp.
Galbanum resin	Do.
Gambir (catechu, pale)	Uncaria gambir (Hunter) Roxb.
Genet absolute	Spartium junceum L.
Genet extract	Do.
Gentian	Gentiana lutea L.
Gentian root extract	Do.
Germander, chamaedrys	Teucrium chamaedrys L.
Germander, chamaedrys, extract	Do.
Germander, chamaedrys, extract, solid	Do.
Guaiac wood oil	Guaiacum officinale L. and G. sanctum L.
Guaiac gum extract	Do.
Guaiac wood extract	Do.
Guarana	Paullinia cupana Kunth.

FLAVORING SUBSTANCES AND NATURAL SUBSTANCES USED IN CONJUNCTION WITH FLAVORS—Con.

Common name	Botanical or zoological name of source
Vervain, blue	Verbena hastata L.
Vetiver	Vetiveria zizanioides Stapf.
Vetiver extract	Do.
Vetiver oil	Do.
Violet flowers	Viola odorata L.
Wintergreen bark	Drimys winteri Forst.
Witch-hazel	Hamamelis virginiana L.
Woodruff, sweet, herb	Asperula odorata L.
Wormseed oil	Chenopodium ambrosioides L. var. anthelminticum (L.) Gray.
Yarrow herb	Achillea millefolium L.
Yerbasanta	Eriodictyon californicum (Hook. et Arn.) Torr.
Yerbasanta, fluidextract	Do.
Yucca brevifolia extract	Yucca brevifolia Engelm.
Yucca mohavensis root extract	Yucca mohavensis Sarg.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since extensions of time, under certain conditions, for the effective date of the food additives amendment to the Federal Food, Drug, and Cosmetic Act were contemplated by the statute as a relief of restrictions on the food-processing industry.

Effective date. This order shall be effective as of the date of signature.

(Sec. 701, 52 Stat. 1055, as amended; 21 U.S.C. 371. Interpret or apply 72 Stat. 1088; 21 U.S.C., note under sec. 342)

Dated: June 9, 1960.

[SEAL] JOHN L. HARVEY,
Deputy Commissioner of Food and Drugs.

[F.R. Doc. 60-5439; Filed, June 14, 1960; 8:48 a.m.]

PART 121—FOOD ADDITIVES

Subpart A—Definitions and Procedural and Interpretative Regulations

EXTENSION OF EFFECTIVE DATE OF STATUTE FOR CERTAIN SPECIFIED ADDITIVES

The Commissioner of Food and Drugs, pursuant to the authority provided in the Federal Food, Drug, and Cosmetic Act (sec. 6(c), Public Law 85-929; 72 Stat. 1788; 21 U.S.C., note under sec. 342) and delegated to him by the Secretary of Health, Education, and Welfare (23 F.R. 9500), hereby authorizes the use in foods of certain additives for which tolerances have not yet been established or petitions therefor denied:

1. Section 121.86 (25 F.R. 343, 404, 1074, 1727, 2203, 2536, 2837, 3525) is amended by adding thereto the following items:

§ 121.86 Extension of effective date of statute for certain specified food additives as direct additives to food.

On the basis of data supplied in accordance with § 121.85 and findings that no undue risk to the public health is involved and that conditions exist that make necessary the prescribing of an additional period of time for obtaining tolerances or denials of tolerances or for granting exemptions from tolerances, the following additives may be used in food, under certain specified conditions, for a period of 1 year from March 6, 1960, or until regulations shall have been issued establishing or denying tolerances or exemptions from the requirement of tolerances, in accordance with section 409 of the act; whichever occurs first:

Product	Limits	Specified uses or restrictions
• • •		
Bithionol and methiotriazamine mixture	500 parts per million bithional; 100 parts per million methiotriazamine.	In poultry feed as a coccidiostat. Discontinue feed 3 days before marketing the birds to allow for elimination of the drug from edible tissue.
Ethylene oxide	50 parts per million	In dehydrated or freeze-dried mushrooms as residue from use as fumigant.
		In edible gums, as a residue from use as a fumigant.
Lactic acid esters of mono- and diglycerides derived by glycerolysis of edible vegetable and animal fat.		As emulsifiers in foods in accordance with good manufacturing practice.
Piperonyl butoxide and pyrethrins mixture	30 parts per million piperonyl butoxide; 3 parts per million pyrethrins.	As residues in dried citrus pulp for animal feed from treating the stored pulp in burlap bags for insect control. Data demonstrates no residues in milk from feeding lactating dairy animals citrus pulp with these additives at or below the amounts listed.
Polyethylene glycols having molecular weights from 200 through 6,000.		As components of coatings or binders for tableted foods, in accordance with good manufacturing practice.

2. Section 121.87 *Extension of effective date of statute for certain specified food additives as indirect additives to food* (25 F.R. 1727, 1772, 2203, 3526) is amended in the following respects:

a. Paragraph (a) (25 F.R. 1727, 2203) is amended by changing the item "Maleic acid • • •" to read:

Product	Limits	Specified uses or restrictions
Maleic acid		Not to exceed 0.8 percent in nitrocellulose-coated, heat-sealing cellophane for packaging foods.

b. Paragraph (a) *General list* is further amended by adding thereto the following items:

§ 121.87 Extension of effective date of statute for certain specified food additives as indirect additives to food.

On the basis of data supplied in accordance with § 121.85 and findings that no undue risk to the public health is involved and that conditions exist that make necessary the prescribing of an additional period of time for obtaining tolerances or denials of tolerances or for granting exemptions from tolerances, the following additives may be used in connection with the production, packaging, and storage of food products, under certain specified conditions, for a period of 1 year from March 6, 1960, or until regulations shall have been issued in accordance with section 409 of the act, whichever occurs first. The extensions are granted under the condition that a minimum quantity of the additive will be incorporated in the food, consistent with good manufacturing practice. While preliminary data show that many of the substances included in the list may not migrate to foods, these are being included pending the completion of additional scientific work involving them.

(a) *General list.*

Product	Limits	Specified uses or restrictions
• • •	• •	• • •
Amine, secondary (hexadecyl, octadecyl) of hard tallow.		As constituent of defoaming agent used in manufacture of food-packaging materials.
Copolymers of styrene and divinyl benzene with added groups: quaternary ammonium, methyl, ethanol (from varying ratios).		
Copolymers of divinyl benzene and methacrylic or acrylic acid (from varying ratios).		
Copolymers of styrene and divinyl benzene with sulfonic acid groups (from varying ratios).		As ion-exchange resins used in food processing.
Copolymers of divinyl benzene and styrene (from varying ratios) with following added groups: Polyalkylamine, copolymers of divinyl-benzene and acrylic or methacrylic acid with added amine groups.		
Starch ether from reacting cornstarch with propylene oxide.		As a migrant from cotton fabrics used in dry food packaging.
Monoethanol amine		As a constituent of defoaming agent used in manufacture of food-packaging materials and adhesives.
Polyoxyalkylene glycols having molecular weights from 900 through 4,000.		As a constituent of defoaming agent used in boiler water treatment, glue manufacture, and bottle-washing detergent for food processing and packaging purposes, and lubricant for food-processing and packaging machinery.
Polyethylene glycols having molecular weights from 200 through 6,000.		As a component of release agents, coatings, adhesives, inks, and plasticizers used in food-packaging materials.
Polyoxyethylene glycol ester of mixed fatty acids from tall oil (average 16 oxyethylene groups).		
Polyoxyethylene sorbitol hexaoleate (average 40 oxyethylene groups).		As constituent of defoaming agent used in manufacture of food-packaging materials.
Polypropylene glycol having a molecular weight of 1,200.		

c. In paragraph (d) *Substances migrating from linings of containers used in food packaging,* subparagraph (5) is amended to read as follows:

(5) Rosin derivatives, including modification by polymerization, isomerization, decarboxylation, hydrogenation, and methyl ester of hydrogenated rosin:

(i) Rosin esters formed by reaction with:

Bisphenol-epichlorohydrin (epoxy).
Diethylene glycol.
Ethylene glycol.
Glycerol.
Methanol.
Pentaerythritol.

(ii) Rosin esters modified by reaction with maleic anhydride; ortho-, meta-, and para-substituted phenol-formaldehydes listed in subparagraph (6) of this paragraph; phenol-formaldehyde.

(iii) Calcium rosinate (limed rosin); zinc rosinate.

d. Paragraph (d)(7) is amended to read as follows:

(7) Polyester resins (including alkyd type) formed as ester of acids in subdivisions (i) and (ii) of this subparagraph, by reaction with polyhydric alcohols in subdivision (iii) of this subparagraph:

(i) Polybasic acids:

Adipic.
Dimerized fatty acids derived from oils listed in subparagraph (1) of this paragraph.
Fumaric.
Isophthalic.
Maleic.
Orthophthalic.
Rosin-maleic acid adduct (petrex acid).
Sebacic.
Terephthalic.
Trimellitic.

(ii) Monobasic acids:

Benzoic.
Fatty acids derived from oils listed in subparagraph (1) of this paragraph.
Rosins and rosin acids (see subparagraph (5) of this paragraph).
Tertiary butyl benzoic.

(iii) Polyhydric alcohols:

Diethylene glycol.
Ethylene glycol.
Glycerol.
Mannitol.
α-Methyl glucoside.
Pentaerythritol.
Propylene glycol.
Sorbitol.
Trimethylol ethane.
Trimethylol propane.

e. Paragraph (d)(8) is amended by adding thereto the following item:

Allyl ether of mono-, di-, or trimethyl phenol.

f. Paragraph (d)(14) is amended by adding thereto the following item:

Methyl-ethyl-butyl or octyl esters of acrylic acid copolymerized with acrylonitrile.

g. Paragraph (d)(25) is amended by adding thereto the following item:

18, 19, and 20 carbon alkyl amides.

h. Paragraph (d) is further amended by adding thereto the following new subparagraph (29):

(29) Dimethylpolysiloxane.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since extensions of time, under certain conditions, for the effective date of the food additives amendment to the Federal Food, Drug, and Cosmetic Act were contemplated by the statute as a relief of restrictions on the food-processing industry.

Effective date. This order becomes effective on the date of signature.

(Sec. 701, 52 Stat. 1055, as amended; 21 U.S.C. 371. Interpret or apply 72 Stat. 1068; 21 U.S.C., note under sec. 342)

Dated: June 8, 1960.

[SEAL] JOHN L. HARVEY,
Deputy Commissioner of Food and Drugs.

[F.R. Doc. 60-5440; Filed, June 14, 1960; 8:49 a.m.]

SUBCHAPTER C—DRUGS

PART 146c—CERTIFICATION OF CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS

PART 146e—CERTIFICATION OF BACITRACIN AND BACITRACIN-CONTAINING DRUGS

Changes in Expiration Dates

Under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; sec. 701, 52 Stat. 1055, as amended; 21 U.S.C. 357, 371) and delegated to the Commissioner of Food and Drugs by the Secretary (22 F.R. 1045, 23 F.R. 9500), the regulations for the certification of antibiotic and antibiotic-containing drugs (21 CFR and 21 CFR 1958 Supp., 146c.220, 146e.417) are amended as indicated below:

1. In § 146c.220 *Tetracycline,* paragraph (c) (3) is amended by changing the words "24 months" to read "36 months".

2. In § 146e.417 *Powder bacitracin methylene disalicylate and streptomycin sulfate oral veterinary,* paragraph (c) (1) (iii) is amended by changing the period after the word "certified" to a comma and inserting the following clause: ", except that the blank may be filled in with the date that is 36 months, 48 months, or 60 months after the month during which the batch was certified if the person who requests certification has submitted to the Commissioner results of tests and assays showing that after having been stored for such period of time such drug as prepared by him complies with the standards prescribed by paragraph (a) of this section."

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since the nature of the change is such that it cannot be applied to any specific product unless and until the manufacturer thereof has supplied adequate data regarding that article.

Effective date. This order shall become effective 30 days from the date of its publication in the FEDERAL REGISTER.

(Sec. 701, 52 Stat. 1055, as amended; 21 U.S.C. 371. Interprets or applies sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357)

Dated: June 9, 1960.

[SEAL] JOHN L. HARVEY,
Deputy Commissioner of Food and Drugs.

Title 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

SUBCHAPTER B—HUNTING AND POSSESSION OF WILDLIFE

PART 6—MIGRATORY BIRDS

Miscellaneous Amendments

By notice of proposed rule making published on April 8, 1960 (25 F.R. 3037), as corrected on April 15, 1960 (25 F.R. 3262), notification was given that the Director, Bureau of Sport Fisheries and Wildlife, proposed to recommend the adoption by the Secretary of the Interior of certain changes in Part 6, Title 50, Code of Federal Regulations, which would specify open seasons, certain closed seasons, hunting methods, shooting hours, possession, transportation and importation controls and the bag and possession limits for migratory game birds. In this connection the public was notified of certain specific changes to Part 6 that were under immediate consideration. These were (1) to develop closer conformity with State regulations with respect to legal hunting devices, (2) to allow the use of additional suitable materials for the plugging of repeating shotguns, (3) to clarify the conditions under which migratory game birds may be possessed in the field, (4) to remove the weekly limitation on export of migratory game birds from a State, (5) to clarify the marking requirements for migratory game birds held in storage, (6) to clarify the authority of persons authorized to enforce these regulations, and (7) to prevent the taking of live migratory game birds under the hunting rules. The sections of Part 6 to be changed were set forth in detail.

Interested persons were invited to submit in writing their views on the proposed amendments to the Director, Bureau of Sport Fisheries and Wildlife.

Consideration having been given to all relevant matters presented, the proposed amendments are adopted without change and are set forth below. These amendments shall become effective at the beginning of the 30th calendar day following date of this publication in the FEDERAL REGISTER.

(Sec. 3, 40 Stat. 755, as amended; 16 U.S.C. 704; E.O. 10250, 16 F.R. 5385, 3 CFR, 1949–1953 Comp., p. 757)

FRED A. SEATON,
Secretary of the Interior.

JUNE 8, 1960.

1. Section 6.3 (a) (1) and (b) (1) and (2) is amended to read as follows:

§ 6.3 Hunting methods.

* * * * *

(a) *Permitted methods.* Migratory game birds may be taken;

(1) By the aid of a dog, with longbow and arrow or with a shotgun (not larger than No. 10 gauge and incapable of holding more than three shells) fired from the shoulder.

* * * * *

(b) *Prohibited methods.* Migratory game birds may not be taken;

(1) With a trap, snare, net, crossbow and arrow, rifle, swivel gun or machine gun;

(2) With a shotgun of any description originally capable of holding more than three shells, the magazine of which has not been cut off, altered, or plugged with a one-piece filler, incapable of removal without disassembling the gun, so as to reduce the capacity of the said gun to not more than three shells in the magazine and chamber combined.

2. Section 6.6 is revised by changing the wording of paragraph (a), revoking paragraph (b), and redesignating paragraphs (c), (d), and (e) as (b), (c), and (d), respectively, to read:

§ 6.6 Transportation into, within, or out of any State.

Any person, without a permit, may transport lawfully killed migratory game birds into, within, or out of any State during and after the open seasons in the State where taken, subject to the conditions and restrictions specified in this section.

(a) If such birds, except mourning and white-winged doves, are dressed, the head, head plumage, and feet must remain attached in such manner as to permit identification of their species while being transported between the place where taken and the personal abode of the possessor or between the place where taken and a commercial preservation facility.

(b) Any such birds transported from any State not later than 48 hours following the close of the open season therein may continue in transit for such additional time immediately after shipment, not to exceed 5 days, as is necessary to deliver them to their destination.

(c) Any package or container in which such birds are transported shall have the name and address of the shipper and of the consignee and an accurate statement of the numbers and kinds of birds contained therein clearly and conspicuously marked on the outside thereof.

(d) Nothing in this section shall be deemed to permit the importation of such birds from a foreign country.

3. Section 6.9 is revised to read:

§ 6.9 Possession for purposes of processing, transportation or storage.

No person, other than the person who has lawfully taken such birds, shall receive, possess, or have in custody migratory game birds for picking, cleaning, processing, shipping, or for transportation or storage (including temporary storage) unless such birds have a tag attached signed by the hunter stating his address, the total number and kinds of birds, and the date killed. Any commercial picking establishment, cold-storage or locker plant receiving, possessing, or having in custody migratory game birds shall maintain accurate records showing the numbers and kinds of such birds, the dates received and disposed of, and the names and addresses of the persons from whom such birds are received and to whom such birds are delivered. Any person authorized to enforce this part may enter such establishments or plants at all reasonable hours and inspect the premises and records where operations are being carried on. The records so required to be maintained shall be retained by the person or persons responsible for their preparation and maintenance for one year following the close of the open season on migratory game birds prescribed for the State in which such picking establishment, cold-storage or locker plant is located.

4. Section 6.11 is revised by changing the headnote and text to read:

§ 6.11 Wounded, live migratory game birds.

Every migratory game bird wounded by hunting and reduced to possession by the hunter shall be immediately killed and become a part of the daily bag limit.

[F.R. Doc. 60-5425; Filed, June 14, 1960; 8:47 a.m.]

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 1030]

[Docket No. AO–318]

HANDLING OF FRESH PRUNES GROWN IN DESIGNATED COUNTIES IN THE STATE OF IDAHO AND IN MALHEUR COUNTY, OREGON

Decision With Respect to a Proposed Marketing Agreement and Order

Pursuant to the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Fruitland, Idaho, on March 9–10, 1960, after notice thereof published in the FEDERAL REGISTER (25 F.R. 1132), on a proposed marketing agreement and order regulating the handling of fresh prunes grown in designated counties in the States of Idaho and Oregon, to be made effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674).

On the basis of the evidence introduced at the hearing, and the record thereof, the Deputy Administrator, Marketing Services, Agricultural Marketing Service, on May 6, 1960, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision in this proceeding. The notice of the filing of such recommended decision, affording opportunity to file written exceptions thereto, was published in the FEDERAL REGISTER (F.R. Doc. 60–4222; 25 F.R. 4184).

Within the time prescribed for the filing of exceptions to the recommended decision an exception was filed by Robert McBirney, McBirney Fruit Company, Route 4, Box 110, Boise, Idaho, objecting to a purported provision in the proposed order authorizing prohibition of shipments during a specified time limitation, generally called a "shipping holiday." Such a provision was proposed in the order set forth in the notice of hearing upon which the public hearing was held and though there was some evidence received at the public hearing held at Fruitland, Idaho, on March 9–10, 1960, in support of a "shipping holiday," it was concluded in the recommended decision that the evidence was insufficient to justify the inclusion of this provision in the order. Since the proposed order contains no provision for a prohibition of shipments, generally referred to as a "shipping holiday," this exception is not relevant or material.

This exception also contends that the time involved in modifying, suspending, or terminating any regulation due to a changed condition might result in crop loss due to the extremely perishable nature of fresh prunes. Insofar as this contention is related to a "shipping holiday" it is not relevant or material for the reasons stated above. If this contention relates generally to a potential loss by reason of the time element involved in the issuance of regulations or the modification, suspension, or termination of regulations, it is conjectural and unsupported by the evidence of record.

This exception to the recommended decision was carefully and fully considered, in conjunction with the evidence of record, in arriving at the findings and conclusions set forth herein. For the reasons stated, to the extent that the exception including all contentions made therein, is at variance with the findings and conclusions set forth in this decision, such exception is denied.

The material issues, findings and conclusions, and the general findings of the recommended decision set forth in the FEDERAL REGISTER (F.R. Doc. 60–4222; 25 F.R. 4184) are hereby approved and adopted as the material issues, findings and conclusions, and the general findings of this decision as if set forth in full herein.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Fresh Prunes Grown in Designated Counties in the State of Idaho and in Malheur County, Oregon," and "Order Regulating the Handling of Fresh Prunes Grown in Designated Counties in the State of Idaho and in Malheur County, Oregon," which have been decided upon as the appropriate and detailed means of effecting the foregoing conclusions. The aforesaid marketing agreement and order shall not become effective unless and until the requirements of § 900.14 of the aforesaid rules of practice and procedure, governing proceedings to formulate marketing agreements and marketing orders, have been met.

It is hereby ordered, That all of this decision, except the annexed agreement, be published in the FEDERAL REGISTER. The regulatory provisions of the said agreement are identical with those contained in the annexed order which will be published with this decision.

Dated: June 10, 1960.

CLARENCE L. MILLER,
Assistant Secretary.

Order [1] Regulating the Handling of Fresh Prunes Grown in Designated Counties in the State of Idaho and in Malheur County, Oregon

Sec.
1030.0 Findings and determinations.

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders have been met.

AUTHORITY: §§ 1030.0 to 1030.71, inclusive, issued under secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

§ 1030.0 Findings and determinations.

(a) *Findings upon the basis of the hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674), and the applicable rules of practice and procedure, as amended, effective thereunder (7 CFR Part 900), a public hearing was held at Fruitland, Idaho, on March 9–10, 1960, upon a proposed marketing agreement and a proposed marketing order regulating the handling of fresh prunes grown in designated counties in the State of Idaho and in Malheur County, Oregon. Upon the basis of the evidence introduced at such hearing, and the record thereof, it is found that:

(1) This order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) This order regulates the handling of prunes grown in the production area in same manner as, and is applicable only to persons in the respective classes of commercial or industrial activity specified in, a proposed marketing agreement upon which a hearing has been held;

(3) This order is limited in its application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act, and the issuance of several orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the act;

(4) There are no differences in the production and marketing of prunes grown in the production area which make necessary different terms and provisions applicable to different parts of such area; and

(5) All handling of prunes grown in the production area as defined in the order is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

It is therefore ordered, That, on and after the effective date hereof, the handling of prunes grown in the said production area shall be in conformity to, and in compliance with, the terms and conditions of this order; and such terms and conditions are as follows:

DEFINITIONS

§ 1030.1 Secretary.

"Secretary" means the Secretary of Agriculture of the United States, or any officer or employee of the Department to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

§ 1030.2 Act.

"Act" means Public Act No. 10, 73d Congress (May 12, 1933), as amended and as re-enacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (sections 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674).

§ 1030.3 Person.

"Person" means an individual, partnership, corporation, association, or any other business unit.

§ 1030.4 Production area.

"Production area" means and includes Washington, Payette, Gem, Canyon, Ada, and Owyhee Counties in the State of Idaho and Malheur County in the State of Oregon.

§ 1030.5 Prunes.

"Prunes" means all varieties of plums, classified botanically as Prunus domestica, grown in the production area, except those of the President variety.

§ 1030.6 Varieties.

"Varieties" means and includes all classifications or subdivisions of prunes.

§ 1030.7 Fiscal period.

"Fiscal period" is synonymous with fiscal year and means the 12-month period ending on May 31 of each year or such other period that may be approved by the Secretary pursuant to recommendations by the committee.

§ 1030.8 Committee.

"Committee" means the Idaho-Malheur County, Oregon, Fresh Prune Marketing Committee established pursuant to § 1030.20.

§ 1030.9 Grade.

"Grade" means any one of the officially established grades of prunes as defined and set forth in the United States Standards for Fresh Plums and Prunes (§§ 51.1520 to 51.1537 of this title) or amendments thereto, or modifications thereof, or variations based thereon.

§ 1030.10 Size.

"Size" means the shortest dimension, measured through the center of the prune, at right angles to a line running from the stem to the blossom end, or such other specification as may be established by the committee with the approval of the Secretary.

§ 1030.11 Grower.

"Grower" is synonymous with producer and means any person who produces prunes for market and who has a proprietary interest therein.

§ 1030.12 Handler.

"Handler" is synonymous with shipper and means any person (except a common or contract carrier transporting prunes owned by another person) who handles prunes.

§ 1030.13 Handle or ship.

"Handle" or "ship" means to sell, consign, deliver, or transport prunes within the production area or between the production area and any point outside thereof: *Provided,* That the term "handle" shall not include the transportation within the production area of prunes from the orchard where grown to a packing facility located within such area for preparation for market.

§ 1030.14 District.

"District" means the applicable one of the following described subdivisions of the production area, or such other subdivisions as may be prescribed pursuant to § 1030.31(m):

(a) "District No. 1" shall include Washington and Payette Counties in the State of Idaho and Malheur County in the State of Oregon.

(b) "District No. 2" shall include Gem and Ada Counties in the State of Idaho.

(c) "District No. 3" shall include Canyon and Owyhee Counties in the State of Idaho.

§ 1030.15 Export.

"Export" means to ship prunes to any destination which is not within the 48 contiguous states, or the District of Columbia, of the United States.

§ 1030.16 Pack.

"Pack" means the specific arrangement, size, weight, count, or grade of a quantity of prunes in a particular type and size of container, or any combination thereof.

§ 1030.17 Container.

"Container" means a box, bag, crate, lug, basket, carton, package, or any other type of receptacle used in the packaging or handling of prunes.

ADMINISTRATIVE BODY

§ 1030.20 Establishment and membership.

There is hereby established an Idaho-Malheur County, Oregon, Fresh Prune Marketing Committee consisting of 10 members, each of whom shall have an alternate who shall have the same qualifications as the member for whom he is an alternate. Six of the members and their respective alternates shall be growers or officers or employees of corporate growers. Four of the members and their respective alternates shall be handlers, or officers or employees of handlers. The 6 members of the committee who are growers or employees or officers of corporate growers are hereinafter referred to as "grower members" of the committee; and the 4 members of the committee who shall be handlers, or officers or employees of handlers, are hereinafter referred to as "handler members" of the committee. Each district shall be represented on the committee by 2 grower members and their respective alternates. Each district shall be represented on the committee by 1 handler member and his alternate. One handler member and his alternate shall be selected from the production area at large.

§ 1030.21 Term of office.

The term of office of each member and alternate member of the committee shall be for 2 years beginning June 1 and ending May 31: *Provided,* That the term of office of one-half of the initial grower members and alternates from each district and the handler member and his alternate from District 2 and the handler member and his alternate selected from the production area at large shall end May 31, 1961. Members and alternate members shall serve in such capacities for the portion of the term of office for which they are selected and have qualified and until their respective successors are selected and have qualified.

§ 1030.22 Nomination.

(a) *Initial members.* Nominations for each of the initial members of the committee, together with nominations for the initial alternate members for each position, may be submitted to the Secretary by individual growers and handlers. Such nominations may be made by means of a meeting of handlers, and group meetings of the growers concerned in each district. Such nominations, if made, shall be filed with the Secretary

no later than the effective date of this part. In the event nominations for initial members and alternate members of the committee are not filed pursuant to, and within the time specified in, this section, the Secretary may select such initial members and alternate members without regard to nominations, but selections shall be on the basis of the representation provided for in § 1030.20.

(b) *Successor members.* (1) The committee shall hold or cause to be held, not later than May 1 of each year, a meeting or meetings of growers in each district, and a meeting of handlers, for the purpose of designating nominees for successor members and alternate members of the committee. At each such meeting a chairman and a secretary shall be selected by the growers and handlers eligible to participate therein. The chairman shall announce at the meeting the results of the balloting for each member or alternate member position and shall submit promptly to the committee a complete report concerning such meeting. The committee shall, in turn, promptly submit a copy of each such report to the Secretary.

(2) Only growers, including duly authorized officers or employees of corporate growers, who are present at such nomination meetings, may participate in the nomination and election of nominees for grower members and their alternates. Each grower shall be entitled to cast only one vote for each nominee to be elected in the district in which he produces prunes. No grower shall participate in the election of nominees in more than one district in any one fiscal year. If a person is both a grower and a handler of prunes, such person may vote either as a grower or as a handler but not as both.

(3) Only handlers, including duly authorized officers or employees of handlers, who are present at such nomination meetings, may participate in the nomination and election of nominees for handler members and their alternates. Each handler shall be entitled to cast only one vote for each nominee to be elected. If a person is both a grower and a handler of prunes, such person may vote either as a grower or as a handler but not as both.

§ 1030.23 Selection.

From the nominations made pursuant to § 1030.22, or from other qualified persons, the Secretary shall select the 8 grower members of the committee, the 4 handler members of the committee, and an alternate for each such member.

§ 1030.24 Failure to nominate.

If nominations are not made within the time and in the manner prescribed in § 1030.22, the Secretary may, without regard to nominations, select the members and alternate members of the committee on the basis of the representation provided for in § 1030.20.

§ 1030.25 Acceptance.

Any person selected by the Secretary as a member or as an alternate member of the committee shall qualify by filing a written acceptance with the Secretary promptly after being notified of such selection.

§ 1030.26 Vacancies.

To fill any vacancy occasioned by the failure of any person selected as a member or as an alternate member of the committee to qualify, or in the event of the death, removal, resignation, or disqualification of any member or alternate member of the committee, a successor for the unexpired term of such member or alternate member of the committee shall be nominated and selected in the manner specified in §§ 1030.22 and 1030.23. If the names of nominees to fill any such vacancy are not made available to the Secretary within a reasonable time after such vacancy occurs, the Secretary may fill such vacancy without regard to nominations, which selection shall be made on the basis of representation provided for in § 1030.20.

§ 1030.27 Alternate members.

An alternate member of the committee, during the absence or at the request of the member for whom he is an alternate, shall act in the place and stead of such member and perform such other duties as assigned. In the event of the death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor for such member is selected and has qualified. In the event both a grower member of the committee and his alternate are unable to attend a committee meeting, the member or the committee may designate the other grower alternate member from the same district to serve in such member's place and stead. In the event both a handler member of the committee and his alternate are unable to attend a committee meeting, the member or the committee may designate any other handler alternate member who is not acting as a member to serve in such member's place and stead.

§ 1030.30 Powers.

The committee shall have the following powers:

(a) To administer the provisions of this part in accordance with its terms;

(b) To receive, investigate, and report to the Secretary complaints of violations of the provisions of this part;

(c) To make and adopt rules and regulations to effectuate the terms and provisions of this part; and

(d) To recommend to the Secretary amendments to this part.

§ 1030.31 Duties.

The committee shall have, among others, the following duties:

(a) To select a chairman and such other officers as may be necessary, and to define the duties of such officers;

(b) To appoint such employees, agents, and representatives as it may deem necessary, and to determine the compensation and to define the duties of each;

(c) To submit to the Secretary as soon as practicable after the beginning of each fiscal period a budget for such fiscal period, including a report in explanation of the items appearing therein and a recommendation as to the rate of assessment for such period;

(d) To keep minutes, books, and records which will reflect all of the acts and transactions of the committee and which shall be subject to examination by the Secretary;

(e) To prepare periodic statements of the financial operations of the committee and to make copies of each such statement available to growers and handlers for examination at the office of the committee;

(f) To cause its books to be audited by a competent accountant at least once each fiscal year and at such times as the Secretary may request;

(g) To act as intermediary between the Secretary and any grower or handler;

(h) To investigate and assemble data on the growing, handling, and marketing conditions with respect to prunes;

(i) To submit to the Secretary such available information as he may request;

(j) To notify producers and handlers of all meetings of the committee to consider recommendations for regulations;

(k) To give the Secretary the same notice of meetings of the committee as is given to its members;

(l) To investigate compliance with the provisions of this part;

(m) With the approval of the Secretary, to redefine the districts into which the production area is divided, and to reapportion the representation of any district on the committee: *Provided*, That any such changes shall reflect, insofar as practicable, shifts in prune production within the districts and the production area.

§ 1030.32 Procedure.

(a) Seven members of the committee, including alternates acting for members, shall constitute a quorum; and any action of the committee shall require the concurring vote of at least seven members.

(b) The committee may vote by telegraph, telephone, or other means of communication, and any votes so cast shall be confirmed promptly in writing: *Provided*, That if an assembled meeting is held, all votes shall be cast in person.

§ 1030.33 Expenses and compensation.

The members of the committee, and alternates when acting as members, may be reimbursed for expenses necessarily incurred by them in the performance of their duties under this part and may also receive compensation, as determined by the committee, which shall not exceed $10 per day or portion thereof spent in performing such duties: *Provided*, That at its discretion the committee may request the attendance of one or more alternates at any or all meetings, notwithstanding the expected or actual presence of the respective members, and may pay expenses and compensation, as aforesaid.

§ 1030.34 Annual report.

The committee shall, prior to the last day of each fiscal period, prepare and mail an annual report to the Secretary and make a copy available to each handler and grower who requests a copy of the report. This annual report shall

contain at least: (a) A complete review of the regulatory operations during the fiscal period; (b) an appraisal of the effect of such regulatory operations upon the prune industry; and (c) any recommendations for changes in the program.

EXPENSES AND ASSESSMENTS

§ 1030.40 Expenses.

The committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by the committee for its maintenance and functioning and to enable it to exercise its powers and perform its duties in accordance with the provisions of this part during each fiscal period. The funds to cover such expenses shall be acquired by the levying of assessments as prescribed in § 1030.41.

§ 1030.41 Assessments.

(a) Each person who first handles prunes shall, with respect to the prunes so handled by him, pay to the committee upon demand such person's pro rata share of the expenses which the Secretary finds will be incurred by the committee during each fiscal period. Each such person's share of such expenses shall be equal to the ratio between the total quantity of prunes handled by him as the first handler thereof during the applicable fiscal period and the total quantity of prunes so handled by all persons during the same fiscal period. The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) The Secretary shall fix the rate of assessment to be paid by each such person. At any time during or after the fiscal period, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expenses which may be incurred. Such increase shall be applied to all prunes handled during the applicable fiscal period. In order to provide funds for the administration of the provisions of this part during the first part of a fiscal period before sufficient operating income is available from assessments on the current year's shipments, the committee may accept the payment of assessments in advance, and may also borrow money for such purpose.

§ 1030.42 Accounting.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, such excess shall be accounted for as follows:

(1) Except as provided in subparagraphs (2) and (3) of this paragraph, each person entitled to a proportionate refund of any excess assessment shall be credited with such refund against the operation of the following fiscal period unless such person demands repayment thereof, in which event it shall be paid to him: *Provided*, That any sum paid by a person in excess of his pro rata share of the expenses during any fiscal period may be applied by the committee at the end of such fiscal period to any outstanding obligations due the committee from such person.

(2) The committee, with the approval of the Secretary, may establish and maintain during one or more fiscal years an operating monetary reserve in an amount not to exceed approximately one fiscal year's operational expenses. Upon approval of the Secretary, funds in such reserve shall be available for use by the committee for all expenses authorized pursuant to § 1030.40.

(3) Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: *Provided*, That to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purposes specified in this part and shall be accounted for in the manner provided in this part. The Secretary may at any time require the committee and its members to account for all receipts and disbursements.

(c) Upon the removal or expiration of the term of office of any member of the committee, such member shall account for all receipts and disbursements and deliver all property and funds in his possession to his successor in office, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor full title to all of the property, funds, and claims vested in such member pursuant to this part.

RESEARCH

§ 1030.45 Marketing research and development.

The committee, with the approval of the Secretary, may establish or provide for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of prunes. The expense of such projects shall be paid from funds collected pursuant to § 1030.41.

REGULATIONS

§ 1030.50 Marketing policy.

(a) Each season prior to making any recommendations pursuant to § 1030.51, the committee shall submit to the Secretary a report setting forth its marketing policy for the ensuing season. Such marketing policy report shall contain information relative to:

(1) The estimated total production of prunes within the production area;

(2) The expected general quality and size of prunes in the production area and in other areas;

(3) The expected demand conditions for prunes in different market outlets;

(4) The expected shipments of prunes produced in the production area and in areas outside the production area;

(5) Supplies of competing commodities;

(6) Trend and level of consumer income;

(7) Other factors having a bearing on the marketing of prunes; and

(8) The type of regulations expected to be recommended during the season.

(b) In the event it becomes advisable, because of changes in the supply and demand situation for prunes, to modify substantially such marketing policy, the committee shall submit to the Secretary a revised marketing policy report setting forth the information prescribed in this section. The committee shall publicly announce the contents of each marketing policy report, including each revised marketing policy report, and copies thereof shall be maintained in the office of the committee where they shall be available for examination by growers and handlers.

§ 1030.51 Recommendations for regulation.

(a) Whenever the committee deems it advisable to regulate the handling of any variety or varieties of prunes in the manner provided in § 1030.52, it shall so recommend to the Secretary.

(b) In arriving at its recommendations for regulation pursuant to paragraph (a) of this section, the committee shall give consideration to current information with respect to the factors affecting the supply and demand for prunes during the period or periods when it is proposed that such regulation should be made effective. With each such recommendation for regulation, the committee shall submit to the Secretary the data and information on which such recommendation is predicated and such other available information as the Secretary may request.

§ 1030.52 Issuance of regulations.

(a) The Secretary shall regulate, in the manner specified in this section, the handling of prunes whenever he finds, from the recommendations and information submitted by the committee, or from other available information, that such regulations will tend to effectuate the declared policy of the Act. Such regulations may:

(1) Limit, during any period or periods, the shipments of any particular grade, size, quality, maturity, or pack, or any combination thereof, of any variety or varieties of prunes grown in the production area.

(2) Limit the shipment of prunes by establishing, in terms of grades, sizes, or both, minimum standards of quality and maturity during any period when season average prices are expected to exceed the parity level.

(3) Fix the size, capacity, weight, dimensions, or pack of the container, or containers, which may be used in the packaging or handling of prunes.

(4) Prescribe requirements, as provided in this paragraph, applicable to exports of any variety of prunes which are different from those applicable to the handling of the same variety to other destinations.

(b) The committee shall be informed immediately of any such regulation issued by the Secretary, and the committee shall promptly give notice thereof to growers and handlers.

§ 1030.53 Modification, suspension, or termination of regulations.

(a) In the event the committee at any time finds that, by reason of changed conditions, any regulations issued pursuant to § 1030.52 should be modified, suspended, or terminated, it shall so recommend to the Secretary.

(b) Whenever the Secretary finds, from the recommendations and information submitted by the committee or from other available information, that a regulation should be modified, suspended, or terminated with respect to any or all shipments of prunes in order to effectuate the declared policy of the Act, he shall modify, suspend, or terminate such regulation. On the same basis and in like manner, the Secretary may terminate any such modification or suspension. If the Secretary finds that a regulation obstructs or does not tend to effectuate the declared policy of the Act, he shall suspend or terminate such regulation. On the same basis and in like manner, the Secretary may terminate any such suspension.

§ 1030.54 Special purpose shipments.

(a) Except as otherwise provided in this section, any person may, without regard to the provisions of §§ 1030.41, 1030.52, 1030.53, and 1030.55, and the regulations issued thereunder, handle prunes (1) for consumption by charitable institutions; (2) for distribution by relief agencies; or (3) for commercial processing into products.

(b) Upon the basis of recommendations and information submitted by the committee, or from other available information, the Secretary may relieve from any or all requirements, under or established pursuant to §§ 1030.41, 1030.52, 1030.53, or 1030.55, the handling of prunes in such minimum quantities, or types of shipments, or for such specified purposes (including shipments to facilitate the conduct of marketing research and development projects established pursuant to § 1030.45) as the committee, with approval of the Secretary, may prescribe.

(c) The committee shall, with the approval of the Secretary, prescribe such rules, regulations, and safeguards as it may deem necessary to prevent prunes handled under the provisions of this section from entering the channels of trade for other than the specific purposes authorized by this section. Such rules, regulations, and safeguards may include the requirements that handlers shall file applications and receive approval from the committee for authorization to handle prunes pursuant to this section, and that such applications be accompanied by a certification by the intended purchaser or receiver that the prunes will not be used for any purpose not authorized by this section.

§ 1030.55 Inspection and certification.

Whenever the handling of any variety of prunes is regulated pursuant to § 1030.52 or § 1030.53, each handler who handles prunes shall, prior thereto, cause such prunes to be inspected by the Federal or Federal-State Inspection Service, and certified by it as meeting the applicable requirements of such regulation: *Provided*, That inspection and certification shall be required for prunes which previously have been so inspected and certified only if such prunes have been regraded, resorted, repackaged, or in any other way further prepared for market. Promptly after inspection and certification, each such handler shall submit, or cause to be submitted, to the committee a copy of the certificate of inspection issued with respect to such prunes.

REPORTS

§ 1030.60 Reports.

(a) Upon request of the committee, made with the approval of the Secretary, each handler shall furnish to the committee, in such manner and at such time as it may prescribe, such reports and other information as may be necessary for the committee to perform its duties under this part. Such reports may include, but are not necessarily limited to, the following: (1) The quantities of each variety of prunes received by a handler; (2) the quantities disposed of by him, segregated as to the respective quantities subject to regulation and not subject to regulation; (3) the date of each such disposition and the identification of the carrier transporting such prunes, and (4) the destination of each shipment of such prunes.

(b) All such reports shall be held under appropriate protective classification and custody by the committee, or duly appointed employees thereof, so that the information contained therein which may adversely affect the competitive position of any handler in relation to other handlers will not be disclosed. Compilations of general reports from data submitted by handlers are authorized, subject to the prohibition of disclosure of individual handler's identities or operations.

(c) Each handler shall maintain for at least two succeeding years such records of the prunes received, and of prunes disposed of, by such handler as may be necessary to verify reports pursuant to this section.

MISCELLANEOUS PROVISIONS

§ 1030.61 Compliance.

Except as provided in this part, no person shall handle prunes the shipment of which has been prohibited by the Secretary in accordance with the provisions of this part; and no person shall handle prunes except in conformity with the provisions and the regulations issued under this part.

§ 1030.62 Right of the Secretary.

The members of the committee (including successors and alternates), and any agents, employees, or representatives thereof, shall be subject to removal or suspension by the Secretary at any time. Each and every regulation, decision, determination, or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the committee shall be deemed null and void, except as to acts done in reliance thereon or in accordance therewith prior to such disapproval by the Secretary.

§ 1030.63 Effective time.

The provisions of this part and of any amendments thereto shall become effective at such time as the Secretary may declare above his signature, and shall continue in force until terminated in one of the ways specified in § 1030.64.

§ 1030.64 Termination.

(a) The Secretary may at any time terminate the provisions of this part by giving at least one day's notice by means of a press release or in any other manner in which he may determine.

(b) The Secretary shall terminate or suspend the operation of any and all of the provisions of this part whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this part at the end of any fiscal period whenever he finds that continuance is not favored by the majority of producers who, during a representative period determined by the Secretary, were engaged in the production area in the production of prunes for market in fresh form: *Provided*, That such majority has produced for market during such period more than 50 percent of the volume of prunes produced for fresh market in the production area; but such termination shall be effective only if announced on or before May 31 of the then current fiscal period.

(d) The provisions of this part shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 1030.65 Proceedings after termination.

(a) Upon the termination of the provisions of this part, the committee shall, for the purpose of liquidating the affairs of the committee, continue as trustees of all the funds and property then in its possession, or under its control, including claims for any funds unpaid or property not delivered at the time of such termination.

(b) The said trustees shall (1) continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such persons as the Secretary may direct; and (3) upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person, full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant hereto.

(c) Any person to whom funds, property, or claims have been transferred or delivered, pursuant to this section, shall be subject to the same obligation imposed upon the committee and upon the trustees.

§ 1030.66 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this part or of any regulation issued pursuant to this part or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this part or any regulation issued under this part, or (b) release or extinguish any violation of this part, or of any regulation issued under this part, or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

§ 1030.67 Duration of immunities.

The benefits, privileges, and immunities conferred upon any person by virtue of this part shall cease upon the termination of this part, except with respect to acts done under and during the existence of this part.

§ 1030.68 Agents.

The Secretary may, by designation in writing, name any officer or employee of the United States, or name any agency or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this part.

§ 1030.69 Derogation.

Nothing contained in the provisions of this part is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States (a) to exercise any powers granted by the act or otherwise, or (b) in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 1030.70 Personal liability.

No member or alternate member of the committee and no employee or agent of the committee shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, employee, or agent, except for acts of dishonesty, willful misconduct, or gross negligence.

§ 1030.71 Separability.

If any provision of this part is declared invalid or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this part, or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

Order Directing That Referendum Be Conducted; Designation of Agents To Conduct Referendum; and Determination of Representative Period

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674), it is hereby directed that a referendum be conducted among the producers who, during the period June 1, 1959, through May 31, 1960 (which period is hereby determined to be a representative period for the purpose of such referendum), were engaged, in the counties of Washington, Payette, Gem, Canyon, Ada, and Owyhee in the State of Idaho and Malheur County in the State of Oregon, in the production of fresh prunes for market to ascertain whether such producers favor the issuance of an order regulating the handling of fresh prunes grown in the aforesaid production area, which order is annexed to the decision of the Secretary of Agriculture filed simultaneously herewith. Robert H. Eaton and Allan Henry, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, are hereby designated agents of the Secretary of Agriculture to conduct said referendum severally or jointly.

The procedure applicable to this referendum shall be the "Procedure for the Conduct of Referenda Among Producers in Connection with Marketing Orders (Except Those Applicable to Milk and its Products) to Become Effective Pursuant to the Agricultural Marketing Agreement Act of 1937, as Amended" (15 F.R. 5176; 19 F.R. 35).

Copies of the aforesaid annexed order, of the aforesaid referendum procedure, and of this order may be examined in the Office of the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C.

Ballots to be cast in the referendum, and other necessary forms and instructions, may be obtained from any referendum agent or appointee.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: June 10, 1960.

CLARENCE L. MILLER,
Assistant Secretary.

[F.R. Doc. 60-5464; Filed, June 14, 1960; 8:52 a.m.]

Commodity Stabilization Service

[7 CFR Part 813]

ALLOTMENT OF 1960 SUGAR QUOTA FOR CONSUMPTION WITHIN CONTINENTAL UNITED STATES

Recommended Decision and Opportunity To File Written Exceptions

Pursuant to the provisions of the Sugar Act of 1948, as amended (61 Stat. 922, as amended, hereinafter referred to as the "Act"), and the applicable rules of practice and procedure (7 CFR 801.1 et seq.) notice is hereby given of the filing with the Hearing Clerk of the Recommended Decision of the Administrator, Commodity Stabilization Service, United States Department of Agriculture, with respect to a proposed order of the Secretary of Agriculture for the allotment of the 1960 sugar quota for the Domestic Beet Sugar Area. Interested persons may file written exceptions to this recommended decision and proposed order, together with supporting reasons therefor, with the Hearing Clerk, United States Department of Agriculture, Washington 25, D.C., within 10 days after the date of filing of the recommended decision with the Hearing Clerk, which date shall be the date of publication of this notice in the FEDERAL REGISTER. The date of filing of written exceptions with the Hearing Clerk by mail shall be the postmark date of submission of such exceptions.

Preliminary statement. Section 205(a) of the Act requires the Secretary to allot a quota whenever he finds that the allotment is necessary, among other things to (1) prevent disorderly marketing of sugar or liquid sugar and (2) afford all interested persons an equitable opportunity to market sugar or liquid sugar. Section 205(a) also requires that such allotment be made after such hearing and upon such notice as the Secretary may prescribe.

Pursuant to the applicable rules of practice and procedure a preliminary finding was made that allotment of the quota is necessary and a notice was published on February 27, 1960 (25 F.R. 1734) of a public hearing to be held in Washington, D.C., room 3304, South Building, U.S. Department of Agriculture, on March 9, 1960, beginning at 10:00 a.m., e.s.t., for the purpose of receiving evidence to enable the Secretary (1) to affirm or revoke the preliminary findings of necessity for allotments, (2) to establish a fair, efficient and equitable allotment of the 1960 quota for the Domestic Beet Sugar Area for the calendar year 1960, (3) to revise or amend the allotment of the quota for the purposes of (a) allotting any increase or decrease in the quota; (b) prorating any deficit in the allotment for any allottee, and (c) substituting revised estimates or final actual data for estimates of such data and, (4) to provide how certain marketings shall apply to allotments.

The hearing was held at the time and place specified in the notice and testimony was given with respect to all issues referred to in the hearing notice.

In arriving at the findings, conclusions and regulatory provisions of this proposed order, all proposed findings and conclusions were carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that findings and conclusions proposed by the interested persons are inconsistent with the findings and conclusions recommended herein, the specific or implied requests to make such findings and reach such conclusions are denied on the basis of the facts recommended to be found and the conclusions recommended to be reached as set forth herein.

The following portions of the Administrator's recommended decision consisting of the basis for his proposed findings and conclusions, and proposed determination are set forth in form and language appropriate for issuance if adopted by the Secretary as his findings and conclusions and final determination.

Basis for findings and conclusions. Section 205(a) of the Act reads in pertinent part as follows:

• • • Allotments shall be made in such manner and in such amounts as to provide a fair, efficient, and equitable distribution of such quota or proration thereof, by taking into consideration the processings of sugar or liquid sugar from sugar beets or sugarcane to which proportionate shares, deter-

mined pursuant to the provisions of subsection (b) of section 302, pertained; the past marketings or importations of each such person and the ability of such persons to market or import that portion of such quota or proration thereof allotted to him * * *

The record of the hearing indicates that the prospective supply of domestic beet sugar available for marketing in 1960 exceeds the quota for that area to an extent that allotment of the quota is necessary to prevent disorderly marketing and provide all processors of beet sugar equitable marketing opportunities within the limitations of the quota (R. 9).

The allotment method set forth in this order follows the proposal made by the Government witness. Such method of allotting the quota provides that consideration be given to all of the factors cited in section 205(a) of the Act (R. 21). The allotment method recognizes the "hardship" provision in section 205 (a) of the Act (R. 22).

The allotment method adopted herein differs in only one minor respect from the allotment method recommended by the Beet Sugar Industry Task Force in their letter of February 23, 1960, which was accepted in evidence at the hearing as Exhibit 6 (R. 19). The Task Force recommended that in computing the adjustments to base allotments, the January 1, 1960, effective inventories of individual processors be reduced by the quantity of sugar they processed from the 1959-crop non-proportionate share beets and marketed within the 1959 quota (R. 19, 20). At the hearing an industry representative testified that all allottees except three concurred in the recommendation of the Task Force with respect to the reduction of effective inventories, and, in a brief, The Amalgamated Sugar Company supported this and other recommendations of the Task Force. The allotment method adopted herein does not provide for such an adjustment in January 1, 1960, effective inventories. Before the end of 1959, the rescission of allotments permitted all allottees to market sugar without quantitative restrictions and gave them the opportunity to reduce inventories to the desired level (R. 20). Under these circumstances the proposed adjustment in inventories is not considered necessary to achieve fair, efficient, and equitable distribution of the 1960 quota. The order as herein set forth excludes from January 1, 1960, effective inventories the non-proportionate share sugar produced specifically for livestock feed which was not marketed in 1959 and any non-proportionate share sugar produced in 1960 from the 1959-crop beets (R. 21).

Production of sugar from 1959-crop sugar beets, exclusive of known quantities to which proportionate share did not pertain, is the most up-to-date measure of the "processings" factor available to represent the operations for a full year for each processor. In order to permit adequate time for processors to plan for orderly marketing within allotments it is necessary to establish August 31, 1960 as the final termination date for 1959-crop processings to be used in determining allotments (R. 17). A weighting of 75 percent to the "processings" factor in determining base allotments appears consistent with the importance of this factor considering that sugar produced from the 1959 crop will represent approximately 75 percent of the sugar to be marketed within the 1960 quota (R. 21).

The factor "past marketings" when measured by the 1955–59 average annual marketings within allotments and weighted 25 percent in determining base allotments and when considered in conjunction with other provisions of the allotment method herein adopted, which are applicable to 1960, contributes to an orderly rate of change in marketings of each processor relative to the marketings of others (R. 21, 22). The base period is long enough to incorporate a variety of experiences representative of the sharing of marketings during the immediate past.

In the allotment method adopted herein the "ability to market" factor is partially reflected in the measures of the other two factors. Additional consideration is appropriately given this factor by adjusting base allotments for January 1, 1960, inventory imbalances as set forth in detail in the findings (R. 22).

No testimony, proposal, or argument, other than that outlined above appears in the hearing record.

Findings and conclusions. On the basis of the record of the hearing, I hereby find and conclude that:

(1) For the calendar year 1960 Domestic Beet Sugar processors will have available for marketing from 1959-crop sugar beets about 1,720,000 short tons, raw value, of sugar. This quantity of sugar together with production of sugar from 1960-crop beets, will result in a supply of sugar available for marketing in 1960 sufficiently in excess of the anticipated 1960 quota for the Domestic Beet Sugar Area to cause disorderly marketing and prevent some interested persons from having equitable opportunities to market sugar.

(2) The allotment of the 1960 Domestic Beet Sugar Area quota for consumption within the continental United States is necessary to prevent disorderly marketing and to afford all interested persons equitable opportunities to market sugar processed from sugar beets in that area.

(3) To assure a fair, efficient and equitable distribution of the 1960 Domestic Beet Sugar Area quota for consumption within the continental United States, the three factors specified in section 205(a) of the Act shall be given consideration and allotments determined as follows.

(a) Base allotments shall first be determined by giving consideration to the processing and past marketing factors as follows:

(i) The factor processings from proportionate shares shall be measured by each processor's production of sugar from 1959-crop sugar beets through August 31, 1960, exclusive of known quantities of sugar produced from non-proportionate share beets, or the alternative measure provided for herein, expressed as a percentage of the total of such actual or alternative processings for all processors, and weighted by 75 percent: *Provided*, That in recognition of the "hardship" provision in section 205(a) of the Act, an alternative measure derived as follows shall be used for any processor when the quantity so derived exceeds such processor's actual 1959-crop processings: (Processor's 1959-crop processings) × (Industry total 1959-crop processings÷Industry total 1959-crop processings) × 85 percent, except that such alternative measure shall not exceed 125 percent of such processor's actual 1959-crop processings.

(ii) The factor past marketings shall be measured by each processor's average annual marketings within the quota for the years 1955 through 1959, expressed as a percentage of the total of the measure for all processors, and weighted by 25 percent.

(iii) The total of the percentages resulting from (i) and (ii), above, for each processor shall be multiplied by the Domestic Beet Sugar Area quota, in short tons, raw value, to determine his base allotment, in short tons, raw value.

(b) The factor "ability to market" shall be given consideration, in addition to that which is inherent in the consideration given to the other factors, by adjusting the base allotments, as determined in (a)(iii), above, for January 1, 1960, inventory imbalances to the extent and by the method stated below: *Provided, however*, That in such determination the January 1, 1960, effective inventory to be used for individual processors shall include the January 1, 1960, physical inventory of sugar exclusive of quantities to be marketed as quota-exempt sugar, the sugar processed in 1960 prior to August 31, 1960, from 1958 and 1959-crop proportionate share sugar beets, and for any processor subject to the "hardship" provision of (a)(i), above, the quantity by which his alternative measure of processings exceeds his actual 1959 processings.

(i) Compute the "plus" or "minus" January 1, 1960, inventory imbalance for each processor, by algebraically subtracting from his January 1, 1960, effective inventory his January 1, 1955–59 average effective inventory adjusted proportionately so that the total of such adjusted average inventories of all processors is equal to the total January 1, 1960, effective inventories of all processors.

(ii) The "plus" adjustment applicable to the base allotment for each processor having a "plus" inventory imbalance, as determined in (b)(i) shall be the quantity that such imbalance exceeds 10 percent of his adjusted January 1, 1955–59 average effective inventory and such excess multiplied by 25 percent. Such adjustment for any processor shall not exceed 10 percent of his base allotment.

(iii) The "minus" adjustments applicable to the base allotments for processors having "minus" inventory imbalances shall be computed by prorating the total of the "plus" adjustments, as determined in (b)(ii), among such processors on the basis of their "minus" inventory imbalances. Such adjustment for any processor shall not exceed

10 percent of this base allotment and, if, as a result of this limitation, the sum of the maximum "minus" adjustments is less than the sum of the "plus" adjustments, as determined in (b)(ii), such "plus" adjustments shall be reduced proportionately to a total equal to the total "minus" adjustments.

(iv) The adjustments computed pursuant to (b)(ii) and (b)(iii) from data expressed in hundredweight of refined sugar shall be multiplied by the factor 0.0535 to express such adjustment in short tons, raw value.

(c) Allotments for individual processors, in short tons, raw value, shall be the base allotment quantity as determined in (a)(iii) adjusted upward or downward, respectively, on the basis of "plus" or "minus" adjustments as determined in (b)(iv). Such quantities when divided by 0.0535 express allotments in the equivalent hundredweight of refined sugar.

(4) The quantities of sugar and the percentages referred to in paragraph (3), above, are set forth in the following table. They are based on data as provided for in the hearing record, including estimates for 1959 processings, 1959 marketings, and January 1, 1960, inventories which shall be used pending the availability and substitution of final data for such estimates, and as applied to the Domestic Beet Sugar Area quota of 2,043,480 short tons, raw value.

Processor	Processings from 1959-crop to which proportionate shares pertained		Average marketings within the quota 1955–59		Base allotments		January 1 effective inventories hundredweight, refined			Adjustments to base allotments		Processor allotments, short tons, raw value, (col. 6+ or −col. 11)

Total	43,187,365	100.0000	38,501,980	100.0000	100.0000	2,043,480	31,918,061	31,918,061	±1,768,958	±127,160	±6,803	2,043,480

[1] Determined as follows: Plus (+) adjustments = (Extent (+) quantity in Col. 9 exceeds 10 percent of Col. 8) × (25 percent); minus (−) adjustments = the total of (+) adjustments in Col. 10, amounting to 127,160 hundredweight, prorated to processors on the basis of (−) quantities in Col. 9.

[2] Prior to the application of the "hardship" provision, the 1959-crop processings totaled 224,376 hundredweight for Menominee Sugar Co. and 573,049 hundredweight for Northern Ohio Sugar Co.; and the Jan. 1, 1960, effective inventories were 117,022 hundredweight and 296,593 hundredweight respectively.

(5) The order shall be revised without further notice or hearing for the purpose of (a) substituting revised estimates or final data for estimated data on 1959-crop processings, 1959 marketings and January 1, 1960, inventories used in measuring the factors when such data become part of the official records of the Department, (b) allotting any quantity of an allotment which may be released by an allottee to other allottees able to utilize additional allotment in proportion to the established allotments of such allottees when the written notification to the Director of the Sugar Division of such release becomes a part of the official records of the Department, and (c) revising allotments to give effect to any change in the quota for the area resulting from a change in United States sugar requirements pursuant to sections 201 and 202 of the Act or from the proration of a deficit in the quota of any area pursuant to section 204 of the Act. In making revisions to give effect to a change in the quota for the area, allotments shall be made by the full application of the allotment procedure adopted herein.

(6) Official notice will be taken of (a) final or revised estimated data for 1959-crop processings, 1959 marketings and January 1, 1960, inventories submitted by processors on Forms SU–70 or other written form when such data becomes a part of the official records of the Department, (b) any written notice to the Sugar Division by an allottee that he is unable to fill part of his allotment when the notification becomes a part of the official records of the Department, and (c) any regulation issued by the Secretary which changes the 1960 Domestic Beet Sugar Area quota.

(7) To assure that the marketing of sugar or liquid sugar is charged against the proper allotment, it is necessary that the order provide for charges to allotments of processors who sell sugar beets, or molasses derived from sugar beets, but retain and process such sugar beets or molasses into sugar or liquid sugar for delivery to or for the account of the buyer.

(8) Allotments established in the foregoing manner and in the quantities set forth in the order provide a fair, efficient and equitable distribution of any 1960 Domestic Beet Sugar Area quota that may be established for consumption within the continental United States and meet the requirements of section 205 (a) of the Act.

Order. Pursuant to the authority vested in the Secretary of Agriculture by section 205(a) of the Act, it is hereby ordered:

§ 813.1 Allotment of the 1960 sugar quota for the Domestic Beet Sugar Area.

(a) *Allotments.* The 1960 Domestic Beet Sugar Area quota for consumption within the continental United States of 2,043,480 short tons, raw value, is hereby allotted to the following processors in the amounts which appear opposite their respective names:

Processor	Allotments	
	Short tons, raw value	Equivalent in hundredweight refined beet sugar
Amalgamated Sugar Co., The	277,298	5,183,140
American Crystal Sugar Co	237,907	4,446,800
Buckeye Sugars, Inc	9,096	170,019
Franklin County Sugar Co	11,670	218,131
Great Western Sugar Co., The	473,415	8,848,879
Holly Sugar Corp	323,818	6,052,673
Layton Sugar Co	10,716	200,299
Menominee Sugar Co	13,827	258,448
Michigan Sugar Co	74,673	1,395,757
Monitor Sugar Division of Robert Gage Coal Co	33,450	625,234
National Sugar Manufacturing Co., The	9,344	174,654
Northern Ohio Sugar Co	27,436	512,822
Spreckels Sugar Co	266,223	4,976,131
Union Sugar Division, Consolidated Foods Corp	81,038	1,514,729
Utah-Idaho Sugar Co	193,569	3,618,112
Total	2,043,480	38,195,868

(b) *Marketing of sugar beets and molasses.* If sugar beets or molasses derived from sugar beets are sold by a processor but retained and processed by such processor and the sugar or liquid sugar processed therefrom is delivered to or for the account of the buyer of the sugar beets or molasses, such delivery at the time it occurs shall constitute a marketing which shall be effective for filling the allotment of the processor who sold and processed such sugar beets or molasses.

(c) *Marketing limitations.* Marketings shall be limited to allotments as established herein subject to the prohibitions and provisions of §§ 816.1 to 816.9 of this chapter (Sugar Regulation 816, Rev. 1; 23 F.R. 1943).

(d) *Delegation.* The Director of the Sugar Division, Commodity Stabilization Service, U.S. Department of Agriculture, is hereby authorized to revise the allotments established under this order without further notice or hearing in accordance with the findings and conclusions heretofore made, to give effect to (1) the substitution of revised data or final data for estimates, (2) the reallocation of any quantity of an allotment released by an allottee and (3) any change in the Domestic Beet Sugar Area quota.

(Sec. 403, 61 Stat. 932; 7 U.S.C. 1153. Interprets or applies sec. 205, 209; 61 Stat. 926, as amended, 928; 7 U.S.C. 1115, 1119)

Done at Washington, D.C., this 9th day of June 1960.

CLARENCE D. PALMBY,
Acting Administrator,
Commodity Stabilization Service.

[AA 643.3]

FISH BLOCKS FROM ICELAND

Determination of No Sales at Less Than Fair Value

JUNE 9, 1960.

A complaint was received that fish blocks from Iceland were being sold to the United States at less than fair value within the meaning of the Antidumping Act of 1921.

I hereby determine that fish blocks from Iceland are not being, nor are likely to be, sold in the United States at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)).

Statement of reasons. The fish blocks in question were imported by a subsidiary of the foreign seller and were not resold in the United States in their imported condition, being further processed by the importer into fish portions, fish sticks, and similar products. Under these circumstances, exporter's sales price, which is the applicable basis of comparison, does not exist and the Antidumping Act has no application.

This determination and the statement of reasons therefor are published pursuant to section 201(c) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(c)).

[SEAL] A. GILMORE FLUES,
Acting Secretary of the Treasury.

Office of the Secretary

IDAHO

Designation of Area for Production Emergency Loans

For the purpose of making production emergency loans pursuant to section 2(a) of Public Law 38, 81st Congress (12 U.S.C. 1148a-2(a)), as amended, it has been determined that in the following counties in the State of Idaho a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

IDAHO

Canyon.
Gem.
Payette.

Pursuant to the authority set forth above, production emergency loans will not be made in the above-named counties after June 30, 1961, except to applicants who previously received such assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 10th day of June 1960.

Federal Maritime Board

[Docket No. 900]

MONODON PAPER CORP. ET AL.

Classification of Paper Products; Notice of Amended Order

Classification of paper products by Monodon Paper Corporation, Mohegan Pad and Paper Converters, Inc., and Inter-Americas Shipping Company.

On May 12, 1960, the Federal Maritime Board entered the following order amending its previous order dated March 14, 1960, appearing in the FEDERAL REGISTER of April 1, 1960 (25 F.R. 2780):

It appearing from information before the Board that Monodon Corporation, Mohegan Pad and Paper Converters, Inc. and Inter-Americas Shipping Company, have shipped or caused to be shipped, during 1958 and 1959, certain paper products including marble covered composition books, press board books, bond, duplicator mimeograph, writing, and offset paper; and

It further appearing that by reason of such acts Monodon Corporation, Mohegan Pad and Paper Converters, Inc. and Inter-Americas Shipping Company knowingly and willfully, directly or in-

directly, by means of false billing, false classification, false weighing, false report of weight, or by any other unjust or unfair device or means, obtained or attempted to obtain transportation by water from the United States to Puerto Rico, Cuba, and/or Venezuela, for paper products during 1958 and 1959, at less than the rate or charge otherwise applicable, in violation of section 16 of the Shipping Act, 1916, as amended (46 U.S.C. 815):

Now therefore, it is ordered, That:

1. An investigation be and it is hereby instituted upon the Board's own motion, pursuant to section 22 of said Act, to determine whether Monodon Corporation, Mohegan Pad and Paper Converters, Inc., and Inter-Americas Shipping Company or any of them have violated section 16 of said Act;

2. Monodon Corporation, Mohegan Pad and Paper Converters, Inc., and Inter-Americas Shipping Company, be and they are hereby made respondents in the proceeding; and

3. A copy of this order be published in the FEDERAL REGISTER, that copies of this order be served upon each of said respondents, and that this proceeding be assigned for hearing before an Examiner of the Board at a date and place to be fixed by the Chief Examiner.

Dated: June 8, 1960.

By order of the Federal Maritime Board.

JAMES L. PIMPER,
Secretary.

[F.R. Doc. 60-5467; Filed, June 14, 1960; 8:53 a.m.]

[Docket No. 905]

UNITED STATES LINES AND GONDRAND BROTHERS

Notice of Investigation and of Hearing

United States Lines and Gondrand Brothers, violation of section 16.

On May 18, 1960, the Federal Maritime Board entered the following order:

It appearing that there is information before the Board that Gondrand Brothers, Zurich, Switzerland, in connection with the shipment of certain logs during the period 1954 through 1959 inclusive from New York to Rotterdam, knowingly and willfully, directly or indirectly, by means of false billing, false classification, or by any other unjust or unfair device or means obtained or attempted to obtain transportation by water for property at less than the rates which would otherwise be applicable; and

It further appearing that United States Lines, a common carrier by water in foreign commerce, directly or indirectly, allowed said Gondrand Brothers to so obtain transportation at less than the regular rates or charges then established and enforced on said United States Lines;

It is ordered, That an investigation is hereby instituted to determine whether any or all of the persons named above have acted in violation of section 16 of the Shipping Act, 1916 (46 U.S.C. 815); and

It is further ordered, That all persons named above are made respondents in this proceeding which is to be set for hearing before an Examiner from the Hearing Examiners' Office at a time and place to be announced; and

It is further ordered, That a copy of this order be served on each of the respondents and published in the FEDERAL REGISTER.

Pursuant to the above order, notice is hereby given that the hearing herein ordered will be held before an examiner of the Board's Office of Hearing Examiners at a date and place to be determined and announced by the Chief Examiner. The hearing will be conducted in accordance with the Board's rules of practice and procedure, and a recommended decision will be issued by the examiner.

All persons (including individuals, corporations, associations, firms, partnerships, and public bodies), having an interest in this proceeding and desiring to intervene therein, should notify the Secretary of the Board promptly and file petitions for leave to intervene in accordance with Rule 5(n) (46 CFR 201.74) of said rules.

Dated: June 8, 1960.

By order of the Federal Maritime Board.

JAMES L. PIMPER,
Secretary.

[F.R. Doc. 60-5468; Filed, June 14, 1960; 8:53 a.m.]

[Docket No. 906]

NORTH ATLANTIC WESTBOUND FREIGHT ASSOCIATION

Agreements, Charges, Commissions, and Practices; Notice of Investigation and of Hearing

On May 12, 1960, the Federal Maritime Board entered the following order:

It appearing, from information before the Board that agreements within the contemplation of section 15, Shipping Act, 1916 (46 U.S.C. 814), controlling or regulating competition and/or providing for cooperative working arrangements respecting the fixing and/or payment of commissions and the fixing and/or charging of forwarding fees, have been made since 1945 affecting the trade from Great Britain and Northern Ireland and Eire to United States Atlantic Coast ports by the North Atlantic Westbound Freight Association and/or its member lines, including:

Anchor Line, Limited.
The Bristol City Line of Steamships, Ltd.
Cunard Steam-Ship Co., Ltd.
Ellerman's Wilson Line Limited.
Fjell Line—joint service of:
  Aktieselskapet Luksefjell.
  Aktieselskapet Dovrefjell.
  Aktieselskapet Falkefjell.
  Aktieselskapet Rudolf.
Furness, Withy & Co., Ltd.
Irish Shipping Ltd.
Manchester Liners Limited.
South Atlantic Steamship Line, Inc.
Ulster Steamship Company, Ltd. (Head Line and Lord Line).
United States Lines Company.

and

It further appearing that the purported agreements are not within the scope of authority provided by the basic agreement No. 5850, as amended, of the North Atlantic Westbound Freight Association, approved pursuant to the aforesaid section 15; and

It further appearing that the purported agreements have not been filed for approval or approved under the aforesaid section 15, and have been carried out; and

It further appearing that the aforesaid carriers have been engaged in the practice of paying commissions on shipments to ports south of New York and Boston such as Philadelphia, Baltimore, and Hampton Roads, to the exclusion of New York and Boston and that such practice may subject the ports of New York and Boston to undue or unreasonable prejudice or disadvantage or may give ports south thereof undue or unreasonable preference in violation of section 16, Shipping Act, 1916, as amended (46 U.S.C. 815); and

It further appearing that such practice may be unfair with respect to the receipt and delivery of property in violation of section 17, Shipping Act, 1916 (46 U.S.C. 816);

Now therefore, it is ordered, That an investigation is hereby instituted to determine whether the foregoing activities have been carried out in violation of the aforesaid sections 15, 16, and 17, and

It is further ordered, That all persons named above are hereby named respondents in this proceeding which is to be set for hearing before an examiner from the Hearing Examiners' Office, at a time and place to be announced; and

It is further ordered, That a copy of this order be served on each of the respondents and published in the FEDERAL REGISTER.

Pursuant to the above order, notice is hereby given that the hearing herein ordered will be held before an examiner of the Board's Office of Hearing Examiners at a date and place to be determined and announced by the Chief Examiner. The hearing will be conducted in accordance with the Board's rules of practice and procedure, and a recommended decision will be issued by the examiner.

All persons (including individuals, corporations, associations, firms, partnerships, and public bodies), having an interest in this proceeding and desiring to intervene therein, should notify the Secretary of the Board promptly and file petitions for leave to intervene in accordance with Rule 5(n) (46 CFR 201.74) of said rules.

Dated: June 8, 1960.

By order of the Federal Maritime Board.

JAMES L. PIMPER,
Secretary.

FREDERICKSBURG BROADCASTING CORP. (WFVA) ET AL.

Order Scheduling Hearing

In re applications of Fredericksburg Broadcasting Corporation (WFVA), Fredericksburg, Virginia, Docket No. 13090, File No. BP-11550; et al., Docket Nos. 13091, 13092, 13093, 13094, 13095, 13096, 13097, 13098, 13099, 13100, 13101, 13102, 13103, 13104, 13105, 13106, 13107, 13108, 13109, 13110, 13111, 13112, 13114, 13115, 13116, 13118, 13120, 13121, 13122, 13123, 13125, 13126, 13127, 13129, 13130, 13131, 13132, 13133, 13134, 13135, 13136, 13137, 13138, 13139, 13140, 13141, 13143, 13144, 13145, 13146, 13147; for construction permits.

The Hearing Examiner having under consideration a "Motion for Further Hearing" filed June 6, 1960, in the above-entitled matter by LaSalle County Broadcasting Corporation, an applicant, and

It appearing that the Motion requests further hearing in Group 2 of this proceeding (presently postponed without date) to be scheduled for June 16, 1960, and

It further appearing that the parties directly concerned with the offering into evidence by LaSalle County Broadcasting Corporation of certain rebuttal engineering testimony have indicated that the date requested is acceptable to them,

It is ordered, This 9th day of June 1960, that the aforesaid Motion is granted and that further hearing in Group 2 of this proceeding shall commence at 10:00 a.m., June 16, 1960, in the Commission's offices in Washington, D.C., and

It is further ordered, That the hearing shall not be restricted to offering into evidence the aforesaid engineering testimony but shall be concerned with any matter which may pertain to the parties in or linked to Group 2.

Released: June 10, 1960.

FRANK JAMES

Order Reopening Record and Scheduling Hearing

In re application of Frank James, Redwood City, California, Docket No. 12636 File No. BPH-2344; for construction permit.

The Hearing Examiner having under consideration a petition to reopen record pursuant to § 1.363 of the Commission's rules;

It appearing that the above-named applicant was previously joined in this proceeding with the competing application of Grant R. Wrathall, tr/as San Mateo Broadcasting Company (Docket No. 12637); and

It further appearing that a petition filed by Wrathall on May 11, 1960, requesting dismissal of his application was granted by the Chief Hearing Examiner on June 3, 1960, so that the character of the present proceeding is now entirely changed; and

It further appearing that, although the comparative proceeding was completed up to the stage of the filing of proposed findings, no purpose would be served by requiring findings on issues which have now become moot and that the record should be reopened in order to entertain new evidence required by § 1.363 of the rules;

It is ordered, This 9th day of June 1960, that the petition of Frank James to reopen record is granted, the record is reopened, and a further hearing session will be held on June 20, 1960, at 4:00 p.m.

Released: June 10, 1960.

REX O. STEVENSON

Order Designating Application for Hearing on Stated Issues

In re application of Rex O. Stevenson, Ojai, California, Docket No. 13590, File No. BP-12418; requests 1320 kc, 500 w, Day; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 8th day of June 1960;

The Commission having under consideration the above-captioned and described application;

It appearing that except as indicated by the issues specified below, the instant applicant is legally, technically, financially, and otherwise qualified to construct and operate the instant proposal; and

It further appearing that pursuant to section 309(b) of the Communications Act of 1934, as amended, the Commission, in a letter dated March 3, 1960, and incorporated herein by reference, notified the applicant, and any other known parties in interest, of the grounds and reasons for the Commission's inability to make a finding that a grant of the application would serve the public interest, convenience and necessity; and that a copy of the aforementioned letter is available for public inspection at the Commission's offices; and

It further appearing that the applicant filed a timely reply to the aforementioned letter, which reply has not, however, entirely eliminated the grounds and reasons precluding a grant of the application and requiring an evidentiary hearing on the particular issues hereinafter specified; and

It further appearing that in the above-referenced letter, the applicant was notified that he did not show sufficient cash or liquid assets to construct the instant proposal and finance his other commitments; that he amended his application to include therein a new balance sheet which indicates his principal assets to be $200,000 in unlisted stocks and a warehouse valued at $225,000 which was in the process of sale, but that the applicant failed to support such assets with a showing of the ready marketability of such stocks, an existing sale agreement for said warehouse or any other showing of sufficient cash available to construct and operate the instant proposal and finance his other commitments; and

It further appearing that in the said letter the applicant was notified also that he had failed to indicate the number and length of announcements he proposed to broadcast in each 14½ minute time period; that he amended his application to show that he would broadcast four minutes of announcements in each 14½ minute time period, but failed to indicate the number of announcements he proposed to broadcast in such period; and that, therefore, it cannot be determined upon the basis of information submitted whether the frequency of the announcements would be such that the proposed program service would meet the needs of the city sought to be served; and

It further appearing that after consideration of the foregoing and the applicant's reply, the Commission is still unable to make the statutory finding that a grant of the application would serve the public interest, convenience, and necessity; and is of the opinion that the application must be designated for hearing on the issues specified below;

It is ordered, That, pursuant to section 309(b) of the Communications Act of 1934, as amended, the instant application is designated for hearing, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the areas and populations which would receive primary service from the instant proposal and the availability of other primary service to such areas and populations.

2. To determine whether the instant proposal of the applicant would involve objectionable interference with Station KFAC, Los Angeles, California, and Station KUDE, Oceanside, California, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine whether interference received from Stations KFAC and KUDE would affect more than ten percent of the population within the normally protected primary service area of the instant proposal of the applicant in contravention of § 3.28(c)(3) of the Commission rules, and, if so, whether circumstances exist which would warrant a waiver of said section.

4. To determine whether the instant applicant is financially qualified to construct and operate his proposed station.

5. To determine the number of announcements which the applicant would broadcast in each 14½ minute period and whether the frequency of the announcements would be such that the proposed program service would meet the needs of the city sought to be served.

6. To determine, in the light of the evidence adduced pursuant to the foregoing issues, whether a grant of the instant application would serve the public interest, convenience and necessity.

It is further ordered, That the Dolph-Pettey Broadcasting Co. and E. L. Cord, trading as the Los Angeles Broadcasting Co., licensees of Stations KUDE and KFAC, respectively, are made parties to the proceeding.

It is further ordered, That, to avail themselves of the opportunity to be heard, applicant and parties respondent, pursuant to § 1.140 of the Commission rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

Released: June 10, 1960.

SUNBURY BROADCASTING CORP. (WKOK)

Order Following Further Prehearing Conference

In re application of Sunbury Broadcasting Corporation (WKOK), Sunbury, Pennsylvania, Docket No. 13325, File No. BP-12008; for construction permit.

Pursuant to agreements reached by counsel for all parties at the further prehearing conference held on June 2, 1960:

It is ordered, This 9th day of June, 1960, as follows:

(1) The direct case of the applicant and the reply of National Broadcasting Company, Inc. and the Broadcast Bureau, shall be presented by written exhibits sponsored by the witnesses concerned with their preparation, and the reply case of the remaining party (Lycoming Broadcasting Company) shall be presented by written, sworn exhibits.

(2) The proposed exhibits of the applicant shall be exchanged with the other parties by July 1, 1960 (with copies thereof to be supplied to the Hearing Examiner by July 13, 1960).

(3) The hearing in this matter, which was postponed indefinitely by order of the Hearing Examiner released March 10, 1960 (FCC 60M-465), is scheduled for Wednesday, July 20, 1960, at 10:00 a.m., in the offices of the Commission, Washington, D.C.[1]

Released: June 10, 1960.

FEDERAL POWER COMMISSION

[Docket No. RI60-391]

SOCONY MOBIL OIL COMPANY, INC.

Order Providing for Hearing on and Suspension of Proposed Change in Rate

JUNE 8, 1960.

On May 9, 1960, Socony Mobil Oil Company, Inc. (Socony) tendered for filing contract dated March 1, 1960, proposing to cancel and supersede Cities Service Oil Company's FPC Gas Rate Schedule No. 73 insofar as it pertained to Socony's 50 percent interest in jurisdictional gas sold to Colorado Interstate Gas Company (Colorado Interstate) from the Adams "F" Unit in the Hugoton Field, Haskell County, Kansas. Such contract, designated Socony's FPC Gas Rate Schedule No. 233, was conditionally accepted for filing with an effective date of June 9, 1960.

Concurrently with the tender of its superseding contract, Socony tendered a Notice of Change dated May 5, 1960, to such contract, designated Supplement No. 1 to Socony's FPC Gas Rate Schedule No. 233, proposing an increased rate and charge to Colorado Interstate from 11 cents to 12.5 cents per Mcf at 14.65 psia and requesting a waiver of notice requirements to permit the proposed increased rate to be effective as of May 1, 1960, the date it was contractually due, or June 9, 1960, which is 30 days from the date of filing, or 24 hours from time of granting temporary authorization.

In support of the proposed increased rate, Socony states that the contract was negotiated at arm's length, that it would not have committed the gas for such long term without the pricing provisions and that the increased price does not exceed the market value of the gas and is necessary to offset increasing costs and provide incentive for further exploration.

The increased rate and charge so proposed may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission's suspension of said Supplement No. 1 and provision for hearing thereon as hereinafter provided, rather than the rejection of Supplement No. 1 as a proposed increased rate to a concurrently tendered rate which was not effective, should not be considered as a precedent.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 1 to Socony's FPC Gas Rate Schedule No. 233 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 1 to Socony's FPC Gas Rate Schedule No. 233.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until November 9, 1960, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended, nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before July 25, 1960.

By the Commission (Commissioner Kline dissenting).

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 60-5418; Filed, June 14, 1960; 8:46 a.m.]

[Docket No. RI60-380 etc.]

SOUTHWESTERN OIL AND REFINING CO. ET AL.

Order Providing for Hearings on and Suspension of Proposed Changes in Rate and Allowing Rate Changes To Become Effective Upon Filing of Motions and Undertaking and Agreements To Assure Refund of Excess Charges [1]

JUNE 8, 1960.

Southwestern Oil and Refining Company (Operator), et al., Docket No. RI60-380; Lamar Hunt Trust Estate, Docket No. RI60-382; N. B. Hunt, Docket No. RI60-384.

The above-named Respondents have tendered for filing proposed changes in presently effective rate schedules for sales of natural gas subject to the jurisdiction of the Commission. In each filing, the natural gas is sold at 14.65 psia. The proposed changes are designated as follows:

Docket No.	Respondent	Rate schedule No.	Supplement No.	Purchaser and producing area	Notice of change dated—	Date tendered	Effective date unless suspended	Date suspended until [3]—	Cents per Mcf: Rate in effect	Cents per Mcf: Proposed increased rate	Rate in effect subject to refund in Docket Nos.
RI60-380	Southwestern Oil and Refining Co (Operator) et al.	6	1	Orange Grove Gas Gathering Co. (Orange Grove Field, Jim Wells County, Tex.).	Undated.	5- 9-60	[1] 6- 9-60	6-10-60	10.5	12.5	----------
RI60-382	Lamar Hunt Trust Estate.	7	8	West Lake Natural Gasoline Co. (Vena Madre Field, Nolan County, Tex.).	---do----	5-11-60	[2] 6-23-60	6-24-60	6.9018	8.5	G-20539
RI60-384	N. B. Hunt.	11	2	West Lake Natural Gasoline Co. (Nolan County, Tex.).	---do----	5-11-60	[2] 6-23-60	6-24-60	6.9018	8.5	RI60-312

[1] The stated effective date is that requested by respondent.
[2] The stated effective date is thirty days after expiration of the required statutory notice.
[3] Or such later date as the resale rate of West Lake Natural Gasoline Company is made effective in Docket No. RI60-80.

[1] This order does not provide for the consolidation for hearing or disposition of the several matters covered herein, nor should it be so construed.

In support of its revenue-sharing increase, Southwestern states that the increase is based on Orange Grove's rate of 14.5 cents per Mcf for resale of gas to Peoples Gulf Coast Natural Gas Pipeline Company [2] which is subject to refund in Docket No. G-19936. Also submitted were copies of a letter from Orange Grove Gas Gathering Company advising of the increased price pursuant to the contract which provides that Southwestern shall receive the full benefit of any increase received by Orange Grove. Southwestern requests that this change in rate be made effective as of the date upon which the increased resale rate contained in Supplement No. 6 to Orange Grove Gas Gathering Company FPC Gas Rate Schedule No. 1 became effective, which is May 14, 1960.

In support of their increased rates N. B. Hunt and Lamar Trust Estate cite the revenue-sharing provisions of the contracts and West Lake's rate, now suspended, and state that the proposed increase fulfills the contractual obligation agreed to by both parties.

The proposed rate changes may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon hearings concerning the lawfulness of the several proposed changes and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

(2) It is appropriate in the public interest and in carrying out the provisions of the Natural Gas Act that the above-designated proposed rate schedules be made effective as hereinafter provided and that the above respondents be required to file undertakings as hereinafter ordered and conditioned.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 4 and 15 of the Natural Gas Act, and the Commission's regulations under the Natural Gas Act, including rules of practice and procedure (18 CFR Chapter I), public hearings be held at a time and date to be fixed by notice from the Secretary of this Commission, concerning the lawfulness of the rates, charges, classifications, and services, subject to the jurisdiction of the Commission, contained in the above-designated supplements.

(B) Pending such hearings and decisions thereon the above-designated supplements are hereby suspended, and use deferred until the respective date indicated in the above "Date Suspended Until" column and thereafter until such further time as they are made effective in the manner hereinafter prescribed.

(C) The rates, charges, classifications, and services set forth in the above-designated filings shall be effective as of the date indicated in the above "Date Suspended Until" column: *Provided, however*, That, within 20 days from the date of this order, the respondents shall each file a motion as required by section 4(e) of the Natural Gas Act and shall each concurrently execute and file with the Secretary of the Commission the agreement and undertaking described in paragraph (E) below.

(D) The respondents shall refund at such times and in such amounts to persons entitled thereto, and in such manner as may be required by final order of the Commission, the portion of the increased rates and charges found by the Commission in this proceeding not justified, together with interest thereon at the rate of 7 percent per annum from the date of payment to respondents until refunded; shall bear all costs of any such refunding, shall keep accurate accounts in detail of all amounts received by reason of the increased rates or charges effective as of the date specified, for each billing period, specifying by whom and in whose behalf such amounts were paid; and shall report (original and one copy), in writing and under oath, to the Commission monthly, for each billing period and for each purchaser, the billing determinants of natural gas sales to such purchasers and the revenues resulting therefrom as computed under the rates in effect immediately prior to the date upon which the increased rates allowed by this order becomes effective, and under the rates and charges allowed by this order to become effective, together with the differences in the revenues so computed.

(E) As a condition of this order, within 20 days from the date of issuance hereof, respondents shall concurrently execute and file (original and three (3) copies) with the Secretary of the Commission their motions to make rates effective and their written agreements and undertakings to comply with the terms of paragraph (D) hereof, signed by a responsible officer of each corporation, evidenced by proper authority from the Board of Directors, and accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved, as follows:

Agreement and Undertaking of ---------- To Comply With the Terms and Conditions of Paragraph (D) of Federal Power Commission's Order for Hearing, Suspending Proposed Change in Rate and Allowing Rate Change To Become Effective Upon Filing of Motion and Undertaking To Assure Refund of Excess Charges

In conformity with the requirements of the order issued (Date), in Docket ------, ---------- hereby agrees and undertakes to comply with the terms and conditions of paragraph (D) of said order, and has caused this agreement and undertaking to be executed and sealed in its name by its officers, thereupon duly authorized in accordance with the terms of the resolution of its Board of Directors, a certified copy of which is appended hereto this ------ day of ----------, 1960.

By ----------

Attest:

----------,
(Secretary)

Unless a respondent is advised to the contrary within 15 days after the date of filing such agreement and undertaking, the agreement and undertaking shall be deemed to have been accepted.

(F) If respondents shall, in conformity with the terms and conditions of paragraph (D) of this order, make the refunds as may be required by order of the Commission, the undertakings shall be discharged, otherwise they shall remain in full force and effect.

(G) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until these proceedings have been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(H) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.37(f)) on or before July 25, 1960.

By the Commission (Commissioner Kline dissenting).

JOSEPH H. GUTRIDE,
Secretary.

[Docket No. RI60-379 etc.]

G. H. VAUGHN, JR., AND JACK C. VAUGHN ET AL.

Order Providing for Hearings on and Suspension of Proposed Changes in Rates [1]

JUNE 8, 1960.

G. H. Vaughn Jr. and Jack C. Vaughn (Operator), et al., Docket No. RI60-379; Midwest Oil Corporation, Docket No. RI60-381; J. Ray McDermott & Company, Inc., et al., Docket No. RI60-383.

The above-named respondents have tendered for filing proposed changes in presently effective rate schedules for sales of natural gas subject to the jurisdiction of the Commission. In each filing, the natural gas is sold at 14.65 psia. The proposed changes are designated as follows:

[2] Formerly Texas Illinois Natural Gas Pipe Line Company.

[1] This order does not provide for the consolidation for hearing or disposition of the several matters covered herein, nor should it be so construed.

Docket No.	Respondent	Rate schedule No.	Supplement No.	Purchaser and producing area	Notice of change dated—	Date tendered	Effective date unless suspended [1]	Date suspended until—	Cents per Mcf: Rate in effect	Cents per Mcf: Proposed increased rate	Rate in effect subject to refund in Docket Nos.
RI60-379	G. H. Vaughn and Jack C. Vaughn (Operator), et al.	1	9	Tennessee Gas Transmission Co. (Spartan Field, San Patricio County, Tex.).	5-4-60	5- 9-60	6- 9-60	11- 9-60	15.0982	17.24347	G-13994
RI60-381	Midwest Oil Corp.	16	2	Tennessee Gas Transmission Co. (San Salvador Field, Hidalgo County, Tex.).	5-5-60	5- 9-60	6- 9-60	11- 9-60	14.87589	17.02416	G-13979
RI60-383	J. Ray McDermott & Co., Inc., et al.	8	8	United Gas Pipe Line Co. (Mustang and Red Fish Bay Fields, Nueces and San Patricio Counties, Tex.).	5-9-60	5-12-60	6-12-60	11-12-60	12.66	14.8	----------

[1] The stated effective dates are thirty days after expiration of the required statutory notice.

In support of its favored-nation increase, Vaughn cites the favored-nation provisions of the contract and submits copies of Tennessee's letter advising of the increased price. Vaughn states that due to the pricing provisions of the contract, buyer was able to obtain a long-term dedication of gas reserves, and that since entering into such contract, the cost of producing gas has increased, making the pricing provisions discriminatory to the seller and the seller's royalty owners. Vaughn also states that the increased rate resulted from arm's-length bargaining and that the price is just and reasonable for the sale of gas in this area.

In support of its favored-nation increase, Midwest cites the favored-nation provisions of the contract and submits copies of Tennessee's letter advising of the increased price. Midwest states that the increase resulted from arm's-length bargaining and that it is necessary in order to provide for additional exploration and development of natural gas resources. Midwest also states that the increased rate does not exceed the fair field price paid for gas in this area.

In support of its increase, McDermott cites the redetermination clause of the contract and submits copies of United's letter advising of the increased price. McDermott states that the contract providing for the increased rate was entered into as a result of arm's-length bargaining.

The proposed rate changes may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon hearings concerning the lawfulness of the several proposed changes, and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly Sections 4 and 15 thereof, the Commission's Rules of Practice and Procedure and the Regulations under the Natural Gas Act (18 CFR Chapter I), public hearings shall be held upon dates to be fixed by notices from the Secretary concerning the lawfulness of the several proposed changes in rates and charges contained in the above-designated supplements.

(B) Pending hearings and decisions thereon, each of the above-designated supplements is hereby suspended and the use thereof deferred until the date indicated in the above "Date Suspended Until" column, and thereafter until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until these proceedings have been disposed of, or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before July 25, 1960.

By the Commission.

JOSEPH H. GUTRIDE,
Secretary.

[Project No. 733]

WESTERN COLORADO POWER CO.

Notice of Application for License (Major)

JUNE 9, 1960.

Public notice is hereby given that application has been filed under the Federal Power Act (16 U.S.C. 791a–825r) by The Western Colorado Power Company, of Durango, Colorado, for a license (major) for a constructed hydroelectric development located on the Uncompahgre River designated as Project No. 733, affecting lands of the United States within the Uncompahgre National Forest. The Applicant requests that license be issued for a period of ten years.

The project, known as the Ouray power plant, consists of a rubble masonry dam 73 feet high, 14 feet wide and 71 feet 6 inches long; flow and pressure lines total length about 6,131 feet of a woodstave pipe 40 inches and 36 inches in diameter and steel pipe 24 and 22 inches in diameter; a powerhouse of frame and corrugated iron 43 feet 9 inches long, 37 feet wide and 8 to 14 feet 6 inches high with concrete foundation; a 540 kva generator driven by one double runner water wheel; a 180 kva unit used as a synchronous condenser; an 11 kv transmission line T–10, about 5 miles long, connecting to the system at Camp Bird Mill; an 11 kv transmission line T–10–B, 11 miles long, connecting to the town of Ridgway.

All of the above-described facilities, except for the transmission line sections, were presently licensed as minor-part Project No. 733, and the lines are included under the license for transmission line Project No. 734.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last day on which protests or petitions may be filed is July 14, 1960. The application is on file with the Commission for public inspection.

JOSEPH H. GUTRIDE,
Secretary.

INTERSTATE COMMERCE COMMISSION

[Notice 126]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

JUNE 10, 1960.

The following letter-notices of proposals to operate over deviation route for operating convenience only with service at no intermediate points have been filed with the Interstate Commerce Commission, under the Commission's deviation rules revised, 1957 (49 CFR 211.1(c)(8)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 211.1(d)(4)).

Protest against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 211.1(c)) at any time but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's deviation rules revised, 1957, will be numbered consecutively for convenience in identification and protests if any should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC 879 (Deviation No. 1), filed May 23, 1960. Applicant: SERVICE LINES, INC., 514 South Fourth Street, St. Louis, Mo. Carrier proposes to operate as a *common carrier* by motor vehicle of *general commodities*, with certain exceptions, over deviation routes as follows: From Morganfield, Ky., over Kentucky Highway 60 to Sturgis, Ky., thence over Kentucky Highway 85 to Providence, Ky., thence over Kentucky Highway 109 to Hopkinsville, Ky., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Morganfield over Kentucky Highway 56 to junction U.S. Highway 41–A, thence over U.S. Highway 41–A to Madisonville, Ky., thence over U.S. Highway 41 to Hopkinsville, and return over the same route.

No. MC 2542 (Deviation No. 5), filed May 9, 1960. Applicant: ADLEY EXPRESS CO., 216 Crown Street, New Haven, Conn. Carrier proposes to operate as a *common carrier* by motor vehicle of *general commodities* with certain exceptions, over a deviation route as follows: From junction of U.S. Highway 130 and Alternate U.S. Highway 130, approximately 2 miles east of Bridgeport, N.J., over U.S. Highway 130 to junction Alternate U.S. Highway 130, approximately 1 mile northeast of Thorofare, N.J., and return over the same route for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Washington, D.C., over U.S. Highway 50 to junction Maryland Highway 2, thence over Maryland Highway 2 to Baltimore, Md., thence over U.S. Highway 40 to junction U.S. Highway 130, thence over U.S. Highway 130 to junction unnumbered highway (formerly U.S. Highway 130), thence over unnumbered highway via Gibbstown, Paulsboro, and Thorofare, N.J., to junction U.S. Highway 130, thence over U.S. Highway 1 to New York, and return over the same route.

No. MC 2542 (Deviation No. 6), filed May 9, 1960. Applicant: ADLEY EXPRESS CO., 216 Crown Street, New Haven, Conn. Carrier proposes to operate as a *common carrier* by motor vehicle of *general commodities* with certain exceptions, over a deviation route as follows: From the eastern terminus of the New Jersey Turnpike at Palisades Park, N.J., over the New Jersey Turnpike to its western terminus at the Delaware Memorial Bridge, and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities between Boston and Philadelphia over U.S. Highway 1 and numerous other routes.

No. MC 30204 (Deviation No. 4), filed May 4, 1960. Applicant: HEMINGWAY BROS. INTERSTATE TRUCKING CO., 418 Dartmouth Street, New Bedford, Mass. Carrier proposes to operate as a *common carrier* by motor vehicle of *general commodities* with certain exceptions, over a deviation route as follows: From the Eastern Terminus of the Trenton Freeway in Trenton, N.J., to the Western Terminus of the Trenton Freeway in Morrisville, Pa., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Camden, N.J., across the Delaware River to Philadelphia, Pa., thence over U.S. Highway 1 to New York; from Camden, N.J., across the Delaware River to Philadelphia, Pa., thence over U.S. Highway 13 to Morrisville, Pa., and thence over U.S. Highway 1 to New York, and return over the same route.

No. MC 41601 (Deviation No. 1), filed May 10, 1960. Applicant: CONVERSE TRUCKING SERVICE, 1026 Murray Street, Berkeley, Calif. Carrier proposes to operate as a *common carrier* by motor vehicle of *general commodities* over a deviation route as follows: From the junction of unnumbered highway and U.S. Highway 40 approximately 3 miles northeast of Vacaville, Calif., over unnumbered highway to junction U.S. Highway 99W, about 3 miles south of Dunnigan, Calif., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From a point approximately 3 miles northeast of Vacaville, over U.S. Highway 40 to Davis, Calif., thence over U.S. Highway 99–W to junction unnumbered road approximately 3 miles south of Dunnigan, and return over the same route.

No. MC 42487 (Deviation No. 7), filed May 12, 1960. Applicant: CONSOLIDATED FREIGHTWAYS CORPORATION OF DELAWARE, 175 Linfield Drive, Menlo Park, Calif. Carrier proposes to operate as a *common carrier*, by motor vehicle of *general commodities*, with certain exceptions, over a deviation route as follows: From Los Angeles, Calif., over U.S. Highway 6 to Mojave, Calif., thence over U.S. Highway 466 to Barstow, Calif., thence over U.S. Highway 66 to junction U.S. Highway 95, thence over U.S. Highway 95 to Las Vegas, Nev., thence over U.S. Highway 93 to Ely, Nev., thence over Alternate U.S. Highway 50 to Wendover, Utah, thence over U.S. Highway 40 to Salt Lake City, Utah, and return over the same route for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Los Angeles over U.S. Highway 66 to San Bernardino, Calif., thence over U.S. Highway 395 to junction U.S. Highway 70, thence over U.S. Highway 70 to Wickenburg, Ariz., thence over U.S. Highway 89 to junction Arizona Highway 189 near Bitter Springs, Ariz., thence over Arizona Highway 189, and Utah Highway 259 via Page, Ariz., to junction U.S. Highway 89 at Kanab, Utah, thence over U.S. Highway 89 to Gunnison, Utah, thence over Utah Highway 28 to Levan, Utah, thence over U.S. Highway 91 to junction Alternate U.S. Highway 50, 3 miles south of Salt Lake City, Utah, and return over the same routes.

No. MC 52709 (Deviation No. 4), filed May 9, 1960. Applicant: RINGSBY TRUCKLINES, INC., 3201 Ringsby Court, Denver 5, Colo. Carrier proposes to operate as a *common carrier* by motor vehicle of *general commodities*, with certain exceptions, over a deviation route as follows: From the junction of U.S. Highway 6 and Colorado Highway 72 in Denver, Colo., over Colorado Highway 72 to junction U.S. Highway 40 and Interstate Highway 70, thence over U.S. Highway 40 or Interstate Highway 70 to Limon, Colo., thence over U.S. Highway 24 or Interstate Highway 70 to Goodland, Kans., thence over U.S. Highway 24 to junction U.S. Highway 69, thence over U.S. Highway 69 to junction U.S. Highway 71 in Kansas City, Mo., and return over the same routes for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Denver over U.S. Highway 6 to junction Nebraska Highway 3, thence over Nebraska Highway 3 to Beatrice, Nebr., thence over U.S. Highway 77 to Marysville, Kans., thence over U.S. Highway 36 to St. Joseph, Mo., thence over U.S. Highway 71 to Kansas City, and return over the same route.

No. MC 52709 (Deviation No. 5), filed May 18, 1960. Applicant: RINGSBY TRUCKLINE, INC., 3201 Ringsby Court, Denver 5, Colo. Carrier proposes to operate as a *common carrier* by motor vehicle of *general commodities*, with certain exceptions, over a deviation route as follows: From Colton, Calif., over U.S. Highway 70 to Aguila, Ariz., thence over Arizona Highway 71 to Congress, Ariz., thence over U.S. Highway 89 to junction U.S. Highway 66 at or near Ash Fork, Ariz., thence over U.S. Highway 66 to Tucumcari, N. Mex., thence over U.S. Highway 54 to Pratt, Kans., thence over Kansas Highway 61 to McPherson, Kans., thence over U.S. Highway 81 to Hebron, Nebr., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Colton over U.S. Highway 91 to junction U.S. Highway 30 at or near Springville, Utah, thence over U.S. Highway 50 to Grand Junction, Colo., thence over U.S. Highway 6 to junction Nebraska Highway 3 east of Arapahoe, Nebr., thence over Nebraska Highway 3 to Hebron, and return over the same route.

No. MC 104004 (Deviation No. 9), filed May 2, 1960. Applicant: ASSOCIATED TRANSPORT, INC., 380 Madison Avenue, New York 17, N.Y. Carrier proposes to operate as a *common carrier*, by motor vehicle of *general commodities*, with certain exceptions, over a deviation route as follows: From Knoxville, Tenn., over U.S. Highway 11 to Cleveland, Tenn., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same com-

modities over a pertinent service route as follows: From Knoxville over U.S. Highway 129 to junction U.S. Highway 411, thence over U.S. Highway 411 to junction unnumbered highway, formerly Tennessee Highway 60, thence over unnumbered highway to Cleveland, and thence over U.S. Highway 11 to Chattanooga and return over the same route.

No. MC 107500 (Deviation No. 6), filed May 13, 1960. Applicant: BURLINGTON TRUCK LINES INC., 796 South Pearl Street, Galesburg, Ill. Carrier proposes to operate as a *common carrier* by motor vehicle of *general commodities*, with certain exceptions, over deviation routes as follows: (A) From Chicago, Ill., over U.S. Highway 66 to junction U.S. Highways 36 and 54 at Springfield, Ill., thence over U.S. Highways 36 and 54 to Jacksonville, Ill., and (B) from St. Louis, Mo., over U.S. Highway 66 to junction U.S. Highways 36–54 at Springfield, Ill., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: From Chicago over U.S. Highway 34 to junction Illinois Highway 65, thence over Illinois Highway 65 to Aurora, Ill., thence over Illinois Highway 31 to junction U.S. Highway 34 (also from junction U.S. Highway 34 and Illinois Highway 65, over U.S. Highway 34 to junction Illinois Highway 31), thence over U.S. Highway 34 to Glenwood, Iowa, thence over U.S. Highway 275 to junction Iowa Highway 375; thence over Iowa Highway 375 to Council Bluffs, Iowa, and thence over U.S. Highway 6 to Omaha, Nebr.; from St. Louis over U.S. Highway 67 to junction Illinois Highway 101; from Davenport, Iowa, over U.S. Highway 67 to junction Illinois Highway 92, thence over Illinois Highway 92 to Taylor Ridge, Ill., thence over Illinois Highway 94 to junction Illinois Highway 135, thence over Illinois Highway 135 to junction Illinois Highway 164, thence over Illinois Highway 164 to Monmouth, Ill., thence over U.S. Highway 67 to junction Illinois Highway 101, and thence over Illinois Highway 101 to Augusta, Ill., from Davenport over U.S. Highway 6 to Moline, Ill., thence over U.S. Highway 150 to Galesburg, Ill., thence over Illinois Highway 41 to junction Illinois Highway 10, thence over Illinois Highway 10 to junction Illinois Highway 61, thence over Illinois Highway 61 to Ursa, Ill., thence over Illinois Highway 96 to junction U.S. Highway 24, and thence over U.S. Highway 24 to Quincy, Ill., and return over the same routes.

MOTOR CARRIERS OF PASSENGERS

No. MC 61016 (Deviation No. 2), filed May 2, 1960. Applicant: PETER PAN BUS LINES INC., 144 Bridge Street, Springfield 3, Mass. Carrier proposes to operate as a *common carrier* by motor vehicle of *passengers and their baggage*, over deviation routes between Springfield, Mass., and Rockingham Park, Salem, N.H., as follows: (A) From Springfield, Mass., (1) over U.S. Highway 5 to Massachusetts Turnpike Interchange No. 4 in West Springfield, Mass., (2) over city streets to Massachusetts Turnpike Interchange No. 6 near Springfield; (3) over U.S. Highway 20 to junction Massachusetts Highway 21; thence over Massachusetts Highway 21 to Massachusetts Turnpike Interchange No. 7 in Ludlow, Mass., (4) over U.S. Highway 20 to junction Massachusetts Highway 32, thence over Massachusetts Highway 32 to Massachusetts Turnpike Interchange No. 8 in Palmer, Mass.; (5) over U.S. Highway 20 to junction Massachusetts Highway 15, thence over Massachusetts Highway 15 to Massachusetts Turnpike Interchange No. 9 in Sturbridge, Mass.; and (6) over U.S. Highway 20 to junction Massachusetts Highway 12, thence over Massachusetts Highway 12 to Massachusetts Turnpike Interchange No. 10 in Auburn, Mass.; (B) From Auburn over (1) Massachusetts Turnpike to its eastern terminus in Weston, Mass., Interchange No. 14, thence over Massachusetts Highway 128 to junction U.S. Highway 3, thence over U.S. Highway 3, to junction Massachusetts Highway 110, thence over Massachusetts Highway 110 to junction Massachusetts Highway 38, thence over Massachusetts Highway 38 to the Massachusetts-New Hampshire State line thence over New Hampshire Highway 38 to Rockingham Park, and (2) over Massachusetts Turnpike to its eastern terminus in Weston, Mass., Interchange No. 14, thence over Massachusetts Highway 128 to junction Interstate Highway 93, thence over Interstate Highway 93 to junction Massachusetts Highway 110 in Metheun, Mass., thence over Massachusetts Highway 110 to junction Massachusetts Highway 28, thence over Massachusetts Highway 28 to the Massachusetts-New Hampshire State line; thence over New Hampshire Highway 28 to Rockingham Park, and return over the same routes, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Springfield over U.S. Highway 20 to junction Massachusetts Highway 12, thence over Massachusets Highway 12 to Worcester, Mass., thence over Massachusetts Highway 110 via Littleton Common, Mass., to Lawrence, Mass., thence over Massachusetts Highway 28 to the Massachusetts-New Hampshire State line, thence over New Hampshire Highway 28 to Rockingham Park, and return over the same route.

No. MC 109736 (Deviation No. 1), filed April 14, 1960. Applicant: CAPITAL BUS COMPANY, 4th and Chestnut Streets, Harrisburg, Pa. Applicant's attorney: James E. Wilson, 1111 E Street NW., Washington 4, D.C. Carrier proposes to operate as a *common carrier* by motor vehicle of *passengers*, over a deviation route as follows: From Lowman, N.Y., over New York Highway 17 to Elmira, N.Y., and return over the same route for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport passengers over a pertinent service route as follows: From Lowman over New York Highway 367 to Wellsburg, N.Y., thence over New York Highway 427 to Elmira and return over the same routes.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

JUNE 10, 1960.

The following publications are governed by the Interstate Commerce Commission's general rules of practice including special rules (49 CFR 1.241) governing notice of filing of applications by motor carriers of property or passengers or brokers under sections 206, 209 and 211 of the Interstate Commerce Act and certain other proceedings with respect thereto.

All hearings will be called at 9:30 o'clock a.m., United States standard time (or 9:30 o'clock a.m., local daylight saving time), unless otherwise specified.

APPLICATIONS ASSIGNED FOR ORAL HEARING OR PRE-HEARING CONFERENCE

MOTOR CARRIERS OF PROPERTY

No. MC 286 (Sub-No. 5), filed May 27, 1960. Applicant: THE E. W. LANCASTER COMPANY, LIMITED, 955 Huron Line, Windsor, Ontario, Canada. Applicant's attorney: Rex Eames, 1800 Buhl Building, Detroit 26, Mich. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, between the United State-Canada International Boundary Line at or near Detroit, Mich., on the one hand, and, on the other, the site of the Kelsey-Hayes Company plant located at the intersection of North Line Road and Huron River Drive, Romulus Township, Wayne County, Mich.

HEARING: June 20, 1960, at the Olds Hotel, Lansing, Mich., before Joint Board No. 76, or, if the Joint Board waives its right to participate, before Examiner Charles J. Murphy.

No. MC 2989 (Sub No. 27), filed May 27, 1960. Applicant: DAYS TRANSFER, INC., 730 East Beardsly, Elkhart, Ind. Applicant's attorney: Ferdinand Born, 1017–19 Chamber of Commerce Building, Indianapolis 4, Ind. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, livestock, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the site of the Kelsey-Hayes Company Plant located at the intersection of Northline Road and Huron River Drive, Romulus Township, Wayne County, Mich., as an off-route point in connection with carrier's authorized operations between Detroit, Mich., and various points in Michigan, Illinois, and Indiana.

HEARING: June 20, 1960, at the Olds Hotel, Lansing, Michigan, before Joint Board No. 76, or, if the Joint Board waives its right to participate, before Examiner Charles J. Murphy.

No. MC 3341 (Sub No. 21), filed May 27, 1960. Applicant: LAKE MOTOR FREIGHT LINES, INC., 2222 West Ample Street, South Bend, Ind. Applicant's attorney: Ferdinand Born, 1017–19 Chamber of Commerce Building, Indianapolis 4, Ind. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the plant site of the Kelsey Hayes Company, located at the intersection of North Line Road and Huron River Drive, Romulus Township, Wayne County, Mich., as an off-route point in connection with applicant's authorized route operations to and from Detroit, Mich.

HEARING: June 20, 1960, at the Olds Hotel, Lansing, Mich., before Joint Board No. 76, or, if the Joint Board waives its right to participate, before Examiner Charles J. Murphy.

No. MC 30504 (Sub-No. 10), filed June 1, 1960. Applicant: TUCKER FREIGHT LINES, INC., 1415 South Olive Street, South Bend, Ind. Applicant's attorney: Ferdinand Born, 1017–19 Chamber of Commerce Building Indianapolis 4, Ind. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, Classes A & B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the site of the Kelsey Hayes Company Plant, located at the intersection of North Line Road and Huron River Drive, Romulus Township, Wayne County, Mich., as an off-route point in connection with applicant's authorized regular route operations to and from Detroit, Mich.

HEARING: June 20, 1960, at the Olds Hotel, Lansing, Mich., before Joint Board No. 76, or, if the Joint Board waives its right to participate, before Examiner Charles J. Murphy.

No. MC 56082 (Sub-No. 34), filed May 17, 1960. Applicant: DAVIS & RANDALL, INC. Chautauqua Road, Fredonia, N.Y. Applicant's attorney: Kenneth T. Johnson, Bank of Jamestown Building, Jamestown, N.Y. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages, and empty malt beverage containers and advertising materials*, from points in Wayne County, Mich., to points in West Virginia, and *only empty containers or other such incidental facilities* (not specified), used in transporting the commodities specified in this application, on return.

HEARING: July 12, 1960, at the Federal Building, Detroit, Mich., before Examiner Garland E. Taylor.

No. MC 72140 (Sub-No. 41), filed May 27, 1960. Applicant: SHIPPERS DISPATCH, INC., 1216 West Sample Street, South Bend, Ind. Applicant's attorney: Ferdinand Born, 1017–19 Chamber of Commerce Building, Indianapolis 4, Ind. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the site of the Kelsey Hayes Company plant, located at the intersection of North Line Road and Huron River Drive, Romulus Township, Wayne County, Mich., as an off-route point in connection with applicant's authorized regular route operations to and from Detroit, Mich.

HEARING: June 20, 1960, at the Olds Hotel, Lansing, Mich., before Joint Board No. 76, or, if the Joint Board waives its right to participate, before Examiner Charles J. Murphy.

No. MC 92983 (Sub No. 379), filed May 12, 1960. Applicant: ELDON MILLER, INC., 330 East Washington, Iowa City, Iowa. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coal tar and coal tar products*, in bulk, in tank vehicles, from Terre Haute, Ind., to points in Illinois, Iowa, Kentucky, Michigan, Missouri, Ohio, Tennessee, and Wisconsin.

HEARING: July 11, 1960, at the U.S. Court House and Custom House, 1114 Market Street, St. Louis, Mo., before Examiner Gerald F. Colfer.

No. MC 101075 (Sub No. 61), filed May 27, 1960. Applicant: TRANSPORT, INC., 1215 Center Avenue, Moorhead, Minn. Applicant's attorney: Val M. Higgins, Mackall, Crounse, Moore & Helmey, First National-Soo Line Building, Minneapolis 2, Minn. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum* and *petroleum products*, in bulk, in tank vehicles from points in Ward, McHenry, Renville, and Bottineau Counties, N. Dak., to points in South Dakota, North Dakota, Montana, and Minnesota.

HEARING: July 20, 1960, at the North Dakota Public Service Commission, Bismarck, N. Dak., before Examiner Lyle C. Farmer.

No. MC 103378 (Sub No. 181), filed May 31, 1960. Applicant: PETROLEUM CARRIER CORPORATION, 369 Margaret Street, Jacksonville, Fla. Applicant's attorney: Martin Sack, Atlantic National Bank Building, Jacksonville, Fla. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Crude tall oil* and *tall oil products*, in bulk, in tank vehicles, from Clyattville, Ga., to Port St. Joe, Fla.

HEARING: July 26, 1960, at the Mayflower Hotel, Jacksonville, Fla., before Joint Board No. 64, or, if the Joint Board waives its right to participate, before Examiner J. Thomas Schneider.

No. MC 107515 (Sub No. 350), (AMENDED), filed April 1, 1960, published FEDERAL REGISTER issue of May 11, 1960, and republished in the issue of June 8, 1960. Applicant: REFRIGERATED TRANSPORT CO., INC., 290 University Avenue SW., Atlanta 10, Ga. Applicant's attorney: Paul M. Daniell, 214 Grant Building, Atlanta 3, Ga. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen foods, prepared dough, meats, meat products, and meat by-products*, and *dairy products*, as defined by the Commission, *frozen poultry, frozen seafoods, shelled nuts, frozen and powdered eggs*, from points in Texas to points in Mississippi, Louisiana, and Tennessee. RESTRICTION: Service to points in Mississippi, Louisiana, and Memphis, Tenn., restricted to partial delivery in either the States of Alabama, Georgia, Florida, North Carolina, South Carolina, or Tennessee.

NOTE: Dual operations under section 210 may be involved.

HEARING: Remains as assigned July 13, 1960, at the Baker Hotel, Dallas, Texas, before Examiner James H. Gaffney.

No. MC 108380 (Sub No. 52), filed April 25, 1960. Applicant: JOHNSTON'S FUEL LINERS, INC., Post Office Box 112, Newcastle, Wyo. Applicant's attorneys: Stockton, Linville and Lewis, The 1650 Grant Street Building, Denver 3, Colo. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum* and petroleum products, in bulk, in either shipper or carrier-owned tanks, from Minot, N. Dak., and points within ten (10) miles thereof, to points in Montana, North Dakota, South Dakota, and Wyoming.

HEARING: July 20, 1960, at the North Dakota Public Service Commission, Bismarck, N. Dak., before Examiner Lyle C. Farmer.

No. MC 109435 (Sub No. 10) (CORRECTION), filed March 25, 1960, pub-

lished FEDERAL REGISTER issue of June 2, 1960. Applicant: ELLSWORTH BROS., TRUCK LINE, INC., Drawer J, Stroud, Okla. Applicant's attorney: Wilburn L. Williamson, 443-54 American National Building, Oklahoma City 2, Okla. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement*, in bulk, and in bags, or packages, from Pryor, Okla., and points within a 10 mile radius thereof to points within a 200 mile radius of origin.

NOTE: Previous publication incorrectly assigned the application before Joint Board No. 88, or in the alternative, before the Examiner. The 200 mile radius includes points in the States of Oklahoma, Kansas, Arkansas, and Missouri.

HEARING: Remains as assigned on July 19, 1960, at the Federal Building, Oklahoma City, Oklahoma, but is reassigned before Examiner Alton R. Smith.

No. MC 112520 (Sub No. 44) (CORRECTION), filed May 9, 1960, published in May 25, 1960 issue of the FEDERAL REGISTER. Applicant: McKENZIE TANK LINES, INC., New Quincy Road, Tallahassee, Fla. Applicant's attorney: Sol H. Proctor, 1730 Lynch Building, Jacksonville 2, Fla. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Crude tall oil*, and *tall oil products*, in bulk, in tank vehicles, from Clyattville, Ga., to Port St. Joe, Fla.

NOTE: The purpose of this republication is to correct the spelling of the origin point.

HEARING: Remains as assigned, July 26, 1960, at the Mayflower Hotel, Jacksonville, Fla., before Joint Board No. 64, or, if the Joint Board waives its right to participate, before Examiner J. Thomas Schneider.

No. MC 116300 (Sub No. 3), filed May 12, 1960. Applicant: NANCE AND COLLUMS, INC., P.O. Box 211, East Monticello Street, Brookhaven, Miss. Applicant's attorney: Phineas Stevens, 700 Petroleum Building, P.O. Box 141, Jackson, Miss. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pepper*, in mixed truckloads with salt, from points in Louisiana (except New Orleans, Gretna, and Destrehan), to points in Alabama and Mississippi.

HEARING: July 14, 1960, at the Robert E. Lee Hotel, Jackson, Miss., before Examiner Jerry F. Laughlin.

No. MC 116810 (Sub No. 4) (CORRECTION), filed April 29, 1960, published in the June 2, 1960 issue of the FEDERAL REGISTER. Applicant: BAIR TRANSPORT, INC., P.O. Box 216, Riverside, N.J. Applicant's representative: Jacob Polin, 426 Barclay Building, City Line at Belmont Avenue, Bala-Cynwyd, Pa. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except those of unusual value, Classes A and B explosives, liquor, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between New York, N.Y., on the one hand, and, on the other Providence, R.I., points in Massachusetts on and east of U.S. Highway 5, and those in Connecticut on and east of U.S. Highway 5 and those on U.S. Highway 1 between the Connecticut-New York State line and New Haven, Conn.

NOTE: Applicant states the proposed service embraces only a change of gateway, as it is authorized in Certificate No. MC 116810 to perform the entire proposed service by combination of its existing general commodities authorities via Fort Lee, N.J. as a gateway point. The purpose of this republication is to reflect the correct name of applicant.

HEARING: Remains as assigned, July 6, 1960, at 346 Broadway, New York, N.Y., before Examiner Abraham J. Essrick.

No. MC 119399 (Sub No. 4), filed June 2, 1960. Applicant: CONTRACT FREIGHTERS, INC., 3105 East Seventh Street, Joplin, Mo. Applicant's attorney: Thomas F. Kilroy, Suite 610, 1000 Connecticut Avenue NW., Washington 6, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Urea*, dry, in bags or in bulk, from El Dorado, Ark., to points in Kansas, Missouri, Nebraska, and Oklahoma, and (2) *urea*, dry, in bags, from El Dorado, Ark., to points in Illinois, Iowa, and Tennessee, and *damaged, refused* or *rejected shipments*, of the above-specified commodity, on return movement.

HEARING: July 21, 1960, at the New Hotel Pickwick, Kansas City, Mo., before Examiner Isadore Freidson.

No. MC 119763 (Sub No. 1), filed June 6, 1960. Applicant: BRITTAN, INC., 155 Broad Street, Bridgewater, Mass. Applicant's representative: Arthur A. Wentzell, 539 Hartford Turnpike, Shrewsbury, Mass. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement* (portland, hydraulic and masonry) in bulk, in tank trucks and in bags, and *rejected shipments of cement*, between Fall River, Mass., and Providence, R.I., and points in that part of Massachusetts on and east of U.S. Highway 5 extending from the Massachusetts-Vermont State line to West Springfield, Mass., and on and east of Alternate U.S. Highway 5 extending from West Springfield to the Massachusetts-Connecticut State line, and points in that part of Connecticut on and east of Alternate U.S. Highway 5 extending from the Massachusetts-Connecticut State line to Hartford, Conn., and on and east of U.S. Highway 5 extending from Hartford to New Haven, Conn., and points in Rhode Island.

NOTE: Applicant states shipments originating at Fall River, Mass., destined to points in Massachusetts, where the shortest route from origin to destination is through the State of Rhode Island, applicant seeks authority to use Rhode Island highways for operating convenience only.

HEARING: July 20, 1960, at the New Post Office and Court House Building, Boston, Mass., before Joint Board No. 134, or, if the Joint Board waives its right to participate, before Examiner Richard H. Roberts.

MOTOR CARRIERS OF PASSENGERS

No. MC 3647 (Sub No. 286) (REPUBLICATION), filed April 7, 1960, published in the FEDERAL REGISTER, issue of May 31, 1960. Applicant: PUBLIC SERVICE COORDINATED TRANSPORT, 180 Boyden Avenue, Maplewood, N.J. Applicant's attorney: Richard Fryling (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage* in the same vehicle with passengers, in round-trip special operations, seasonal during racing seasons, beginning and ending at Trenton, N.J., and extending to (1) Delaware Park Race Track, Stanton, Del., (2) race track Brandywine, Hundred, New Castle County, Del., (3) Pimlico Race Track, Baltimore, Md., (4) Bowie Race Track, Bowie, Md., (5) Laurel Race Track, Laurel, Md., (6) Belmont Park Race Track, Elmont, N.Y., (7) Aqueduct Race Track, New York, N.Y., (8) Roosevelt Raceway, Westbury, N.Y., (9) Yonkers Raceway, Yonkers, N.Y., and (10) Charles Town Race Tracks, Charles Town, W. Va.

HEARING: July 26, 1960, at the U.S. Court Rooms, Trenton, N.J., before Examiner Leo A. Riegel.

No. MC 111504 (Sub No. 3), filed March 11, 1960. Applicant: STARR TRANSIT CO., INC., 50 North Johnston Avenue, Trenton, N.J. Applicant's attorney: Edward F. Bowes, 1060 Broad Street, Newark 2, N.J. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in the same vehicle with passengers, in round-trip special operations, beginning and ending at Trenton, N.J., and extending to Brandywine Raceway, Brandywine Hundred, New Castle County, Del., Delaware Park Race Track, Stanton, Del., Pimlico Race Track, Baltimore, Md., Bowie Race Track, Bowie, Md., Laurel Race Track, Laurel, Md., Belmont Park Race Track, Elmont, N.Y., Aqueduct Race Track, New York, N.Y., Jamaica Race Track, New York, N.Y. Saratoga Race Track, Saratoga Springs, N.Y., Roosevelt Raceway, Westbury, N.Y., Yonkers Raceway, Yonkers, N.Y., Lincoln Downs Race Track, Lincoln, R.I., and Charles Town Race Track, Charles Town, W. Va.

NOTE: Common control may be involved.

HEARING: July 26, 1960, at the U.S. Court Rooms, Trenton, N.J., before Examiner Leo A. Riegel.

APPLICATIONS IN WHICH HANDLING WITHOUT ORAL HEARING IS REQUESTED

MOTOR CARRIERS OF PROPERTY

No. MC 66562 (Sub No. 1685), filed June 1, 1960. Applicant: RAILWAY EXPRESS AGENCY, INCORPORATED, 219 East 42d Street, New York 17, N.Y. Applicant's attorney: William H. Marx, Law Dept., 219 East 42d Street, New York 17, N.Y. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities, including Classes A and B explosives*, moving in express service, between North Hoosick, N.Y., and Burlington, Vt.: from North Hoosick over New York Highway 67 to junction Vermont Highway 67, thence over Vermont Highway 67 to junction U.S. Highway 7, thence over U.S. Highway 7 to junction U.S. Highway 4 at Rutland, Vt., thence west over U.S. Highway 4 to junction Vermont Highway 3, thence over Vermont Highway 3 to junction U.S. Highway 7, and thence over U.S. Highway 7 to Burlington, and return over the same route; from junction U.S. Highway 7 and Vermont Highway 103 over Vermont Highway 103 to Chester, Vt., and return over the same route; serving the intermediate points of North Bennington, Arlington, Manchester, Danby, Rutland, Proctor, Brandon, Middlebury, Ludlow, and Chester, Va. RESTRICTION: The service to be performed will be limited to that which is auxiliary to or supplemental of express service, and the shipments transported by applicant will be limited to those moving on a through bill of lading or express receipt.

thence over New York Highway 22 to Armonk, thence over New York Highway 128 to Mt. Kisco, thence over New York Highway 117 to Katonah, and thence over New York Highway 22 to Brewster, and return over the same route; also, from White Plains over New York Highway 119 to junction U.S. Highway 9, thence over U.S. Highway 9 to Tarrytown, and return over the same route, serving the intermediate points of Mt. Vernon, Yonkers, White Plains, Mt. Kisco, and Tarrytown, N.Y. RESTRICTIONS: The service to be performed will be limited to that which is auxiliary to or supplemental of express service, and the shipments transported by applicant will be limited to those moving on a through bill of lading or express receipt, covering, in addition to the motor carrier movements by applicant, an immediately prior or an immediately subsequent movement by rail or air.

No. MC 66562 (Sub No. 1686), filed June 1, 1960. Applicant: RAILWAY EXPRESS AGENCY, INCORPORATED, 219 East 42d Street, New York 17, N.Y. Applicant's attorney: William H. Marx, Law Department, 219 East 42d Street, New York 17, N.Y. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities, including Classes A and B explosives*, moving in express service, between Buffalo, N.Y., and Jamestown, N.Y.: from Buffalo south over U.S. Highway 62 to junction New York Highway 17, and thence west over New York Highway 17 to Jamestown; also, from junction U.S. Highway 62 and New York Highway 322, west over New York Highway 322 to junction New York Highway 83, thence south over New York Highway 83 to junction U.S. Highway 62, and return over the same route to Buffalo, serving the intermediate points of Blasdell, Hamburg, Eden Center, North Collins, Collins, Gowanda, South Dayton, Cherry Creek and Conewango, N.Y. RESTRICTIONS: The service to be performed will be limited to that which is auxiliary to or supplemental of express service, and the shipments transported by applicant will be limited to those moving on a through bill of lading or express receipt, covering, in addition to the motor carrier movements by applicant, an immediately prior or an immediately subsequent movement by rail or air.

No. MC 66562 (Sub No. 1687), filed June 6, 1960. Applicant: RAILWAY EXPRESS AGENCY, INCORPORATED, 219 East 42d Street, New York 17, N.Y. Applicant's attorney: William H. Marx, Law Department, 219 East 42d Street, New York 17, N.Y. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities, including Classes A and B explosives*, moving in express service, between Buffalo, N.Y., and Jamestown, N.Y.: from Buffalo south over U.S. Highway 62 to junction New York Highway 17, and thence west over New York Highway 17 to Jamestown; also, from junction U.S. Highway 62 and New York Highway 322, west over New York Highway 322 to junction New York Highway 83, thence south over New York Highway 83 to junction U.S. Highway 62, and return over the same route to Buffalo, serving the intermediate points of Blasdell, Hamburg, Eden Center, North Collins, Collins, Gowanda, South Dayton, Cherry Creek and Conewango, N.Y. RESTRICTIONS: The service to be performed will be limited to that which is auxiliary to or supplemental of express service, and the shipments transported by applicant will be limited to those moving on a through bill of lading or express receipt, covering, in addition to the motor carrier movements by applicant, an immediately prior or an immediately subsequent movement by rail or air.

No. MC 66562 (Sub No. 1688), filed June 6, 1960. Applicant: RAILWAY EXPRESS AGENCY, INCORPORATED, 219 East 42d Street, New York 17, N.Y. Applicant's attorney: William H. Marx, Law Dept., 219 East 42d Street, New York 17, N.Y. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities, including Classes A and B explosives*, moving in express service, between Paterson, N.J., and Sussex, N.J.: from Paterson over unnumbered streets to West Paterson, thence over U.S. Highway 46 to junction New Jersey Highway 23, and thence over New Jersey Highway 23 to Sussex, and return over the same route, serving the intermediate point of Newfoundland, N.J., and the off-route points of Pompton Plains, Pompton, Riverdale, Pompton Lakes, Wanaque-Midvale, Butler, and Ogdensburg, N.J. RESTRICTION: The service to be performed will be limited to that which is auxiliary to or supplemental of express service, and the shipments transported by applicant will be limited to those moving on a through bill of lading or express receipt.

NOTE: Applicant states the proposed service is an extension of its authorized route between Albany and Hoosick Falls, N.Y., (MC 66562 Sub 1399), and between Hoosick Falls, N.Y., and North Adams, Mass (MC 66562 Sub 1431).

No. MC 66562 (Sub No. 1688), filed June 6, 1960. Applicant: RAILWAY EXPRESS AGENCY, INCORPORATED, 219 East 42d Street, New York 17, N.Y. Applicant's attorney: William H. Marx, Law Dept., 219 East 42d Street, New York 17, N.Y. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities, including Classes A and B explosives*, moving in express service, between Paterson, N.J., and Sussex, N.J.: from Paterson over unnumbered streets to West Paterson, thence over U.S. Highway 46 to junction New Jersey Highway 23, and thence over New Jersey Highway 23 to Sussex, and return over the same route, serving the intermediate point of Newfoundland, N.J., and the off-route points of Pompton Plains, Pompton, Riverdale, Pompton Lakes, Wanaque-Midvale, Butler, and Ogdensburg, N.J. RESTRICTION: The service to be performed will be limited to that which is auxiliary to or supplemental of express service, and the shipments transported by applicant will be limited to those moving on a through bill of lading or express receipt.

No. MC 75320 (Sub No. 93), filed May 31, 1960. Applicant: CAMPBELL SIXTY SIX EXPRESS, INC., P.O. Box 807, Springfield, Mo. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Grenada, Miss., and Greenwood, Miss., over Mississippi Highway 7, serving no intermediate points, as an alternate route for operating convenience only in connection with applicant's authorized regular route operations.

No. MC 78786 (Sub-No. 224), filed May 31, 1960. Applicant: PACIFIC MOTOR TRUCKING COMPANY, a Corporation, 65 Market Street, San Francisco 5, Calif. Applicant's attorney: Mr. Thormund A. Miller, 205 Transportation Building, Washington 6, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Baggage, express, newspapers, milk and cream*, between Sacramento, Calif., and Reno, Nev., over U.S. Highway 40, serving all intermediate and off-route points which are stations on the rail lines of Southern Pacific Company between said termini.

NOTE: Subject to the following conditions, the service to be performed shall be (1) limited to that which is auxiliary to or supplemental of railroad or railroad express service, and shall not (2) serve any point not a station on the rail lines of the Southern Pacific Company.

No. MC 107403 (Sub No. 309), filed June 3, 1960. Applicant: E. BROOKE MATLACK, INC., 33d and Arch Streets, Philadelphia 4, Pa. Applicant's attorney: Paul F. Barnes, 811-819 Lewis Tower Building, 225 South 15th Street, Philadelphia 2, Pa. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles from Huntington, Ind., to Findlay, Ohio.

NOTE: Applicant holds contract carrier authority in Permit No. MC 117637 and Subs thereunder. Dual operations under section 210 may be involved.

No. MC 114897 (Sub No. 25), filed May 31, 1960. Applicant: WHITFIELD TANK LINES, INC., 240 West Amador Street, Las Cruces, N. Mex. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Spent acid*, in bulk, in tank vehicles, from the plant site of Standard Oil Co. of Texas, El Paso, Tex., to the Zuniga Mine, located at Fierro, N. Mex., and *refused or rejected shipments* of spent acid, on return.

No. MC 117615 (Sub No. 3), filed June 6, 1960. Applicant: BOYER VALLEY COMPANY, a Corporation, Federal Savings and Loan Building, Denison, Iowa. Applicant's attorney: E. A. Norelius, Federal Savings and Loan Building, Denison, Iowa. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Inedible animal grease*, in bulk, in tank trucks and trailers, from Denison, Iowa to Kansas City, Mo., Kansas City, Kans., Enid, Okla., Fremont, Nebr., and Cheraw, Colo.

MOTOR CARRIERS OF PASSENGERS

No. MC 1501 (Sub No. 193), filed May 31, 1960. Applicant: THE GREYHOUND CORPORATION, 140 South Dearborn Street., Chicago 3, Ill. Applicant's attorney: Earl A. Bagby, Western Greyhound Lines (Division of The Greyhound Corporation), Market and Fremont Streets, San Francisco 5, Calif. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage*, and *express* and *newspapers* in the same vehicle with passengers, over relocated highways as follows: (1) between Singley Road Junction and Fortuna, Calif., by changing the authorized route of operation between the Oregon-California State line and San Francisco from former U.S. Highway 101 to relocated U.S. Highway 101 between Singley Road Junction and Fortuna; (2) between Madison Junction

and Winters Junction, Calif., by changing the authorized route of operation between Dunnigan Junction and Vacaville Junction from former California Highway 21 (presently shown as unnumbered highway) to relocated California Highway 21 between Madison junction and Winters Junction; (3) between Walnut Creek Junction and Oak Park Junction, Calif., by changing the authorized route of operation between Oakland and Willow Pass Junction from former California Highway 24 to relocated California Highway 24 between Walnut Creek Junction and Oak Park Junction; reauthorize present route between Walnut Creek Junction and Oak Park Junction as follows: from junction California Highway 24 and unnumbered highway (Walnut Creek Junction), over unnumbered highway to junction California Highway 24 (Oak Park Junction); and (4) between Calabasas Junction and Vineland Avenue Junction, Calif., by changing the authorized route of operation between San Luis Obispo and Los Angeles from former U.S. Highway 101 and relocated U.S. Highway 101 between Calabasas Junction and Vineland Avenue Junction; reauthorize present route between Calabasas Junction and Vineland Avenue Junction: from junction U.S. Highway 101 and unnumbered highway (Calabasas Junction), over unnumbered highway via Tarzana to junction U.S. Highway 101 (Vineland Avenue Junction); all as more specifically set forth in the application, all entirely within the State of California between the points and in both directions over the routes set forth, serving all intermediate points.

No. MC 1501 (Sub No. 194), filed June 3, 1960. Applicant: THE GREYHOUND CORPORATION, 140 South Dearborn Street, Chicago 3, Ill. Applicant's attorney: George W. Rauch, Room 1500, 140 South Dearborn Street, Chicago 3, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage*, and *express, newspapers* and *mail* in the same vehicle with passengers, between junction Ohio Highway 18 and U.S. Highway 25, and Dayton, Ohio: from junction Ohio Highway 18 and U.S. Highway 25, over Interstate Highway 75 to Dayton, and return over the same route.

NOTE: Applicant states it proposes to join or tack this authority, if granted, (a) to its authority at junction Ohio Highway 18 and U.S. Highway 25, (b) to its regular routes serving the intermediate points of Van Buren, Sidney, Piqua, and Troy, Ohio, and (c) to its authority to serve Dayton, Ohio. Applicant further states it is authorized to conduct operations over U.S. Highway 25 to serve all of the communities listed above, and the following: Findlay, Ohio, from Findlay Interchange to Findlay over Ohio Highway 12 and return; Bluffton, Ohio, from Bluffton Interchange over Ohio Highway 103 and return; Lima, Ohio, from Lima Interchange over U.S. Highway 305 and return; Cridersville, Ohio, from Cridersville Interchange over unnumbered County highway and return; Wapakoneta, Ohio, from Wapakoneta Interchange over Ohio Highway 67 and return; and the intermediate tacking points of Van Buren, Sidney, Piqua, and Troy, Ohio.

APPLICATIONS FOR CERTIFICATES OR PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATIONS UNDER SECTION 5 GOVERNED BY SPECIAL RULE 1.240 TO THE EXTENT APPLICABLE

No. MC 33641 (Sub No. 43), filed May 31, 1960. Applicant: INTERSTATE MOTOR LINES, INC., 235 West Third South, Salt Lake City 1, Utah. Applicant's attorney: Edward M. Berol, 100 Bush Street, San Francisco, Calif. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, livestock, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, and commodities in bulk, between points in California, as follows: 1. San Francisco and Soledad, via U.S. Highways 101 and 101 By-Pass, serving off-route points of Natividad, Spreckels, Permanente, Alviso, and Agnew. 2. San Francisco and Carmel, via State Highway 1, serving off-route points of San Gregorio, Pescadero, Camp McQuaide, Seabright, Capitola, Sea Cliff, and Del Mar. 3. Half Moon Bay and San Mateo, via unnumbered highways and State Highway 5. 4. San Gregorio and Redwood City, via La Honda and Woodside, over unnumbered highways. 5. Santa Cruz and Boulder Creek, via State Highway 9, and via unnumbered highway through Mt. Hermon. 6. San Jose and Santa Cruz, via State Highway 17. 7. Gilroy and Watsonville, via State Highway 152. 8. Watsonville and San Juan, via unnumbered highway known as Chittenden Pass Road, serving the off-route point of Aromas. 9. Watsonville and U.S. Highway 101 north of Prunedale, via unnumbered highway. 10. Salinas and Castroville, via unnumbered highway. 11. Salinas-Monterey unnumbered highway and State Highway 1, via unnumbered highway south of Salinas through Blanco to State Highway 1 north of Neponset. 12. Salinas-Monterey unnumbered highway and Marina, via unnumbered highway. 13. Salinas and Pacific Grove, via unnumbered highway. 14. Carmel and Robles Del Rio via unnumbered highway through Carmel Valley. 15. Robles Del Rio and Salinas-Monterey unnumbered highway, via unnumbered highway. 16. Gilroy and Hollister, via U.S. Highway 101 and State Highway 25. 17. Hollister to U.S. Highway 101, via State Highway 156 and San Juan. 18. Richmond and San Jose, via U.S. Highways 40 and 50, State Highways 17 and 9, serving off-route points of Alameda, Newark, Alviso, Mulford Gardens, Russell, Arden, and Santa Rita. 19. Oakland and Livermore, via U.S. Highway 50, serving off-route point of Pleasanton. 20. Livermore and San Jose, via unnumbered highway, State Highways 21 and 17, serving off-route points of Santa Rita Prison Farm and Hearst Ranch. 21. San Francisco and Tulare, via U.S. Highways 40, 50, and 99, serving the off-route points of Visalia and Hanford. 22. Gilroy and Tulare, via State Highway 152 and U.S. Highway 99. 23. San Francisco and Oakland East Bay Area, via the San Francisco-Oakland Bay Bridge. 24. Oakland and Port Costa, Crockett and Martinez, via U.S. Highway 40 and unnumbered highway. 25. Oakland, on the one hand, and San Pablo, Pinole, Hercules, Rodeo, Oleum, Tormey, and Selby, on the other hand; and between Albany, El Cerrito, Stege Junction, San Pablo, Pinole, Hercules, Rodeo, Oleum, Tormey, Selby, Port Costa, Crockett, and Martinez, via U.S. Highway 40 and unnumbered highways. 26. San Francisco, Oakland, Berkeley, Alameda, Piedmont, Emeryville, Fruitvale, Melrose, San Pablo, Albany, and El Cerrito, on the one hand, and, on the other hand, Richmond, Giant, San Leandro, San Lorenzo, Mount Eden, Hayward, Castro Valley, Daly City, Colma, and South San Francisco, via U.S. Highways 40, 50, 101, 101 By-Pass, State Highways 24, 17, 9, and unnumbered highways. 27. Oakland and Antioch, via State Highway 24, serving all off-route points within three miles laterally of such routes. 28. Lafayette and Moraga, via unnumbered highway. 29. Walnut Creek and Dublin, via State Highway 21. 30. Concord and Byron, via the Marsh Creek Road. 31. Antioch and Byron, via State Highway 4. 32. Oakland and Vallejo, via U.S. Highway 40, serving the off-route point of Mare Island. 33. Alamo and U.S. Highway 50, via Diablo, over unnumbered highways, serving all off-route points within three miles laterally of such routes. 34. Sacramento, on the one hand, and on the other hand, all points and places located on and within three miles laterally of the following described highways: (a) Highway U.S. 40 between Sacramento and Loomis and Dixon, including Loomis and Dixon; (b) Highway U.S. 99–E between Lincoln and Roseville, including Lincoln and Roseville; (c) Highway U.S. 50 between Sacramento and Clarksville, including Clarksville; (d) State Highway Route 16 between Sacramento and Michigan Bar, including Michigan Bar; (e) Highway U.S. 50–99 between Sacramento and Stockton, including Stockton; (f) State Highway Route 24 between Sacramento and Ryde, including Ryde; (g) State Highway Route 16 between Sacramento and Madison, including Madison; (h) Highway U.S. 99–W between Zamora and junction Highway U.S. 99–W and State Highway Route 16, including Zamora; (i) State Highway Route 24 between Woodland and Robbins, including Woodland and Robbins; (j) County Road between Sacramento and Rio Oso, including Rio Oso, via Verona and Nicolaus; (k) State Highway Route 28 between Winters and Davis, including Winters and Davis; (l) Highway U.S. 99–W between Woodland and Davis, including Woodland and Davis; (m) Including off-route service at Lathrop and Lyoth. 35. All points and places on Route No. 34, on the one hand, and, on the other hand, Oakland and San Francisco, via U.S. Highways 99, 99–E, 99–W, 40 and 50 and State Highways 4, 12, 24, 16, 21, and 17. 36. All points located on and laterally within three miles of the highways described on Route No. 34, on the one hand, and, on the other hand, points and places located in San Francisco and Oakland. RESTRICTION: No service

is authorized between San Francisco and Cordelia on and laterally from U.S. Highway 40, except as otherwise authorized. 37. San Francisco and Vallejo, via U.S. Highway 101, unnumbered highway known as Athertor. Avenue, State Highways 37 and 48, serving the off-route points of Mill Valley, Corte Madera, Larkspur, Kentfield, Ross, San Anselmo, Fairfax, Sausalito, Belvedere, Tiburon, California City, McNear Beach, China Camp, Santa Venetia, Rafael Village, St. Vincents, and Hamilton Field. 38. San Rafael and Richmond, via Richmond-San Rafael Bridge, serving the off-route point of San Quentin. 39. San Rafael and Napa, via U.S. Highway 101 and State Highways 37 and 12. 40. Napa and Vallejo, via State Highway 29. Serving all intermediate points, and all off-route points within three miles laterally of such routes.

NOTE: This application is directly related to MC–F 7529, Interstate Motor Lines, Inc.-Purchase-Highway Transport, Inc.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carrier of property or passengers under section 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 CFR 1.240).

MOTOR CARRIERS OF PROPERTY

No. MC–F 7558. Authority sought for control and merger by WATKINS MOTOR LINES, INC., Cassidy Road, P.O. Box 786, Thomasville, Ga., of the operating rights and property of REFRIGERATED TRANSIT, INC., 813 North Ninth Street, St. Louis, Mo., and for acquisition by BILL WATKINS, also of Thomasville, of control of such rights and property through the transaction. Applicants' representatives: Bill Watkins, Cassidy Road, Thomasville, Ga., W. M. Johnson, 813 North Ninth Street, St. Louis, Mo., and Joseph H. Blackshear, Attorney, Gainesville, Ga. Operating rights sought to be controlled and merged: *Eggs*, dried or frozen, as a *common carrier* over irregular routes, from Terre Haute, Ind., to Portland, Maine, Manchester, N.H., Boston and New Bedford, Mass., Providence, R.I., Albany and New York, N.Y., Asbury Park, Atlantic City, Belleville, and Newark, N.J., Scranton and Philadelphia, Pa., Baltimore, Md., and Washington, D.C., and from National Stockyards, Ill., to Boston, Mass., New York, N.Y., Newark, N.J., Scranton and Philadelphia, Pa., Baltimore, Md., and Washington, D.C.; *meats, meat products, and meat byproducts, dairy products*, and *articles distributed by meat packing houses*, as defined in Sections A, B, and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from St. Louis, Mo., to Portland, Maine, Boston and Lawrence, Mass., Providence, R.I., New York, N.Y., Newark, Jersey City, and Camden, N.J., Philadelphia, Pa., Baltimore, Md., and Washington, D.C., restricted to the transportation of the commodities described when moving to or from the warehouses, plants, or other facilities of meat packing houses; those rights claimed in an application seeking a "grandfather" certificate under section 7 of the Transportation Act of 1958, which amended section 203(b)(6) of the Act, viz *coffee beans* and *tea*, in mixed and in straight loads with spices and herbs, unground, and ground but not further processed, from New York, N.Y., and Jersey City, N.J., to St. Louis, Mo., WATKINS MOTOR LINES, INC., is authorized to operate as a *common carrier* in Georgia, Missouri, Delaware, Illinois, Indiana, Kentucky, Maryland, Michigan, Minnesota, New Jersey, New York, North Carolina, Pennsylvania, Virginia, West Virginia, Wisconsin, District of Columbia, Ohio, Tennessee, Alabama, Florida, South Carolina, Arkansas, Mississippi, Louisiana, Oklahoma, Kansas, Nebraska, Iowa, Texas, Missouri, and South Dakota. Application has been filed for temporary authority under section 210a(b).

No. MC–F 7559. Authority sought for purchase by BUCKINGHAM FREIGHT LINES, 900 East Omaha, P.O. Box 1631, Rapid City, S. Dak., of a portion of the operating rights of RINGSBY TRUCK LINES, INC., 3201 Ringsby Court, Denver, Colo., and for acquisition by EARL F. BUCKINGHAM and HAROLD D. BUCKINGHAM, both of Rapid City, of control of such rights through the purchase. Applicants' attorneys: Jones, Meiklejohn & Kilroy, 526 Denham Building, Denver 2, Colo. Operating rights sought to be transferred: *General commodities*, as a *common carrier* over regular routes, between Douglas, Wyo., and Gillette, Wyo., serving all intermediate points and the off-route points of Devils Tower and Sundance, Wyo.; *general commodities*, excepting, among others, household goods and commodities in bulk, between Scottsbluff, Nebr., and Gordon, Nebr., serving all intermediate points. Vendee is authorized to operate as a *common carrier* in Minnesota, South Dakota, Nebraska, Iowa, Wyoming, Colorado, North Dakota, Montana, Illinois, Wisconsin, Utah, Oregon, Washington, Missouri, Idaho, Kansas, and California. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–7560. Authority sought for purchase by TRANS-AMERICAN FREIGHT LINES, INC., 1700 North Waterman Avenue, Detroit 9, Mich., of a portion of the operating rights of WILLIAM S. CLARK, 506 North Street, Mifflintown, Pennsylvania, and for acquisition by ROBERT B. GOTFREDSON and CHARLOTTE B. GOTFREDSON, both of 1700 North Waterman Avenue, Detroit 9, Mich., of control of such rights through the purchase. Applicants' attorney: Howell Ellis, 1210–12 Fidelity Bldg., Indianapolis 4, Indiana. Operating rights sought to be transferred: *General commodities*, excepting, among others, household goods and commodities in bulk, as a *common carrier* over irregular routes, between points in the Borough of Mifflin, Juniata County, Pa., on the one hand, and, on the other, points in the Borough of Mifflintown, Juniata County, Pa., and between points in the Boroughs of Mifflin and Mifflintown, Juniata County, Pa., on the one hand, and, on the other, points in Pennsylvania within 100 miles of Mifflin and Mifflintown Boroughs, Pa. Vendee is authorized to operate as a *common carrier* in Michigan, Illinois, Indiana, Ohio, Pennsylvania, Missouri, Kentucky, Wisconsin, New Jersey, New York, Connecticut, Iowa, Minnesota, Nebraska, Massachusetts, Rhode Island, Kansas, Maryland, West Virginia, Virginia, Delaware, and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

No. MC–F 7561. Authority sought for control by HEMINGWAY BROTHERS INTERSTATE TRUCKING COMPANY, 438 Dartmouth Street, New Bedford, Mass., of HUCKABEE TRANSPORT CORP., Box 479, Columbia, S.C., and for acquisition by PHILIP HEMINGWAY, also of New Bedford, of control of HUCKABEE TRANSPORT CORP. through the acquisition by HEMINGWAY BROTHERS INTERSTATE TRUCKING COMPANY. Applicant's attorney: David G. Macdonald, 1625 K Street, NW., Washington 6, D.C. Operating rights sought to be controlled: *General commodities*, excepting, among others, household goods and commodities in bulk, as a *common carrier* over regular routes between Charleston, S.C., and Greenville, S.C., between Charleston, S.C., and Kings Mountain, N.C., between Columbia, S.C., and Pineville, N.C., between Columbia, S.C., and Augusta, Ga., and between Augusta, Ga., and Atlanta, Ga., serving certain intermediate and off-route points and restricted against traffic moving between Sumter, S.C., and Charlotte, N.C.; *compressed inflammable gases*, in bulk, in Government-owned tube trailers, and *empty tube trailers*, and *classified and secret materials*, between the Savannah River Plant of the Atomic Energy Commission, at Dunbarton, S.C., and the site of the Atomic Energy Plant at Oak Ridge, Tenn., serving no intermediate points; *general commodities*, excepting, among others, household goods and commodities in bulk, over irregular routes, between Augusta, Ga., on the one hand, and, on the other, points in Georgia within 100 miles of Augusta, between points in Georgia, on the one hand, and, on the other, points in South Carolina, and between Charlotte, N.C., on the one hand, and, on the other, certain points in South Carolina; *textile machinery* and *textile products*, between Winnsboro, S.C., on the one hand, and, on the other, Kannapolis, Gastonia, and Concord, N.C.; *the commodities* classified (a) as meats, meat products, and meat by-products, and (b) as dairy products, in the appendix to the report in *Modification of Permits—Packinghouse Products*, 46 M.C.C. 23, between Columbia, S.C., and points within ten miles thereof, on the one hand, and, on the other, Fort Bragg, N.C., and points within ten miles thereof; *cotton*, from Winnsboro, S.C., to Gastonia, N.C.; *hay*, from Beech Island, S.C., to Harlem, Ga., and from Augusta, Ga., to Walhalla, S.C.; *fertilizer*, from Augusta, Ga., to points in South Carolina; *flour*, from Augusta and Savannah, Ga., and Charleston, S.C., to points in South Carolina; *cotton seed*,

from Beech Island, S.C., to Augusta, Ga.; *canned goods, meat,* and *sugar,* from Savannah, Ga., to Augusta, Ga.; *canned goods* and *agricultural commodities,* from Charleston, S.C., to Augusta, Ga. Vendee is authorized to operate as a *common carrier* in Maine, Connecticut, Rhode Island, Massachusetts, New Hampshire, New York, New Jersey, Pennsylvania, Delaware, Maryland, and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

[Rev. S.O. 562, Taylor's I.C.C. Order 119]

WRIGHTSVILLE AND TENNILLE RAILROAD CO. AND CENTRAL OF GEORGIA RAILWAY CO.

Diversion or Rerouting of Traffic

In the opinion of Charles W. Taylor, Agent, the Wrightsville and Tennille Railroad Company, account bridge burned out between Donovan and Harrison, Georgia, is unable to transport traffic routed over its line.

It is ordered, That:

(a) Rerouting traffic: The Wrightsville and Tennille Railroad Company and the Central of Georgia Railway Company are hereby authorized to divert or reroute such traffic over any available route to expedite the movement, regardless of routing shown on the waybill. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) Concurrence of receiving roads to be obtained: The railroad desiring to divert or reroute traffic under this order shall confer with the proper transportation officer of the railroad or railroads to which such traffic is to be diverted or rerouted, and shall receive the concurrence of such other railroads before the rerouting or diversion is ordered.

(c) Notification to shippers: The carriers rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic by said Agent is deemed to be due to carrier's disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipments on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic; divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with the pertinent authority conferred upon it by the Interstate Commerce Act.

(f) Effective date: This order shall become effective at 12:01 p.m., June 8, 1960.

(g) Expiration date: This order shall expire at 11:59 p.m., July 8, 1960, unless otherwise modified, changed, suspended or annulled.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement and by filing it with the Director, Office of the Federal Register.

Issued at Washington, D.C., June 8, 1960.

INTERSTATE COMMERCE COMMISSION, CHARLES W. TAYLOR, *Agent.*

FOURTH SECTION APPLICATIONS FOR RELIEF

JUNE 10, 1960.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 36314: *Sugar—Chaska, Minn., to Chicago, Ill.* Filed by Western Trunk Line Committee, Agent (No. A-2135), for interested rail carriers. Rates on sugar, beet or cane, in carloads from Chaska, Minn., to Chicago, Ill.

Grounds for relief: Route operating through higher-rated intermediate origins.

FSA No. 36315: *Livestock from South to Ohio River Crossings.* Filed by O. W. South, Jr., Agent (SFA No. A-3967), for interested rail carriers. Rates on stocker livestock, in carloads, as described in the application from specified origins in southern territory to Ohio River crossings and St. Louis, Mo. (for movement beyond).

Grounds for relief: Short-line distance formula.

Tariff: Supplement 21 to Southern Freight Association tariff I.C.C. 1602.

FSA No. 36316: *Asphalt and related articles from the southwest to western trunk line territory.* Filed by Southwestern Freight Bureau, Agent (No. B-7824), for interested rail carriers. Rates on asphalt, petroleum road oil, and petroleum wax tailings, in tank-car loads from points in Arkansas, Louisiana, New Mexico, Oklahoma and Texas to points in western trunk line territory.

Grounds for relief: Maintain routes through higher-rates intermediate origins and destinations.

Tariff: Supplement 141 to Southwestern Freight Bureau tariff I.C.C. 4279.

FSA No. 36317: *T.O.F.C. Service—Between Indianapolis, Ind., and southwestern territory.* Filed by Southwestern Freight Bureau, Agent (No. B-7825), for interested rail carriers. Rates on property of various kinds moving on class rates loaded in trailers and transported on railroad flat cars between Indianapolis, Ind., on the one hand, and points in southwestern territory, on the other.

Grounds for relief: Motor-truck competition.

Tariff: Supplement 7 to Southwestern Freight Bureau tariff I.C.C. 4352.

By the Commission.

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

Issuance to Various Industries

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.), the regulations on employment of learners (29 CFR Part 522), and Administrative Order No. 524 (24 F.R. 9274) the firms listed in this notice have been issued special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates otherwise applicable under section 6 of the Act. The effective and expiration dates, occupations, wage rates, number or proportion of learners, learning periods, and the principal product manufactured by the employer for certificates issued under general learner regulations (§§ 522.1 to 522.11) are as indicated below. Conditions provided in certificates issued under special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.20 to 522.24, as amended).

The following learner certificates were issued authorizing the employment of 10 percent of the total number of factory production workers for normal labor turnover purposes. The effective and expiration dates are indicated.

Allen Garment Co., 709 19th Avenue, North, Nashville, Tenn.; effective 5-29-60 to 5-28-61 (men's and boys' sport shirts).

Blue Bell, Inc., Homer, Ga.; effective 5-31-60 to 5-30-61 (mens', boys', misses', and girls' outerwear, coats).

Choctaw Manufacturing Co., Inc., Silas, Ala.; effective 5-26-60 to 5-25-61 (men's trousers).

Charles W. Henson Garment Manufacturing Co., Inc., Monroe, Ga.; effective 5-31-60 to 5-30-61 (men's and boys' work and dress pants).

Mode O'Day Corp., 146 South West Temple, Salt Lake City, Utah; effective 6-30-60 to 6-2-61 (women's dresses).

The Roswell Co., Roswell, Ga.; effective 5-25-60 to 5-24-61 (men's work pants).

Shults Manufacturing Co., Inc., Henderson Tenn.; effective 5-25-60 to 5-24-61 (men's work pants).

The following learner certificates were issued for normal labor turnover purposes. The effective and expiration dates and the number of learners authorized are indicated.

Delta Shirt Manufacturing Co., Inc., 550 9th Street, Douglas, Ariz.; effective 5-27-60 to 5-26-61; five learners (men's and boys' sport shirts).

Jean's Sportswear, Inc., Leonardtown, Md.; effective 6-1-60 to 5-31-61; 10 learners (infants' wear).

Martin Dress Co., Oak and Ballet Streets, Frackville, Pa.; effective 5-23-60 to 5-22-61; 10 learners (dresses).

The following learner certificates were issued for plant expansion purposes. The effective and expiration dates and the number of learners authorized are indicated.

Alabama Textile Products Corp., Troy, Ala.; effective 5-31-60 to 11-30-60; 50 learners (men's dress shirts).

Gattman Sportswear, Inc., Gattman, Miss.; effective 5-27-60 to 11-26-60; 100 learners (men's dress slacks).

Ringer Park Rapids Co., Park Rapids, Minn.; effective 5-23-60 to 11-22-60; 45 learners (men's and boys' winter jackets, parkas and car coats).

Tennessee Textile Corp., Maryville, Tenn.; effective 5-31-60 to 11-30-60; 40 learners (men's and boys' work shirts and pants).

Glove Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.60 to 522.66, as amended).

The following learner certificates were issued authorizing the employment of 10 percent of the total number of factory production workers for normal labor turnover purposes. The effective and expiration dates are indicated.

The Boss Manufacturing Co., Oneida, Tenn.; effective 5-23-60 to 5-22-61 (work gloves).

Riegel Textile Corp., Greenville, Ala.; effective 6-8-60 to 6-7-61 (work gloves).

Southern Glove Manufacturing Co., Inc., Conover, N.C.; effective 5-26-60 to 5-25-61 (canton flannel and jersey work gloves).

Hosiery Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.40 to 522.44, as amended).

Slane Hosiery Mills, Inc., Mangum Avenue, High Point, N.C.; effective 5-23-60 to 5-22-61; 5 percent of the total number of factory production workers for normal labor turnover purposes (seamless).

Knitted Wear Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.30 to 522.35, as amended).

Junior Form Lingerie, Inc., 428 Morris Avenue, Boswell, Pa.; effective 6-3-60 to 6-2-61; 5 percent of the total number of factory production workers for normal labor turnover purposes (ladies' underwear).

Superior Mills, Div. of B.V.D. Co., Inc., Carrboro, N.C.; effective 5-25-60 to 11-29-60; 15 learners for plant expansion purposes (knitted cotton cloth for underwear).

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.11, as amended).

Boehm-Sheldon, Inc., North Elm Street, Antigo, Wis.; effective 5-30-60 to 11-29-60; 5 learners for normal labor turnover purposes in the occupation of fly tier for a learning period of 320 hours at the rates of at least 85 cents an hour for the first 240 hours and not less than 90 cents an hour for the remaining 80 hours (fishing flies).

Monarch-Comer Co., Comer, Ga.; effective 5-25-60 to 11-24-60; 5 learners for normal labor turnover purposes in the occupations of sewing machine operating and final pressing each for a learning period of 480 hours at the rates of not less than 90 cents an hour for the first 280 hours and not less than 95 cents an hour for the remaining 200 hours (sport coats, dress coats, jackets).

Each learner certificate has been issued upon the representations of the employer which, among other things, were that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be annulled or withdrawn, as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 522.9.

Signed at Washington, D.C., this 2d day of June 1960.

ROBERT G. GRONEWALD, *Authorized Representative of the Administrator.*

FEDERAL REGISTER

Telephone WOrth 3-3261

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Office of the Federal Register, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D.C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

Presidential Documents

Title 3—THE PRESIDENT

Proclamation 3353

COPYRIGHT EXTENSION: AUSTRIA

By the President of the United States of America

A Proclamation

WHEREAS the President is authorized, in accordance with the conditions prescribed in section 9 of title 17 of the United States Code, which includes the provisions of the act of Congress, approved March 4, 1909, 35 Stat. 1075, as amended by the act of September 25, 1941, 55 Stat. 732, to grant an extension of time for fulfillment of the conditions and formalities prescribed by the copyright laws of the United States of America, with respect to works first produced or published outside the United States of America and subject to copyright or to renewal of copyright under the laws of the United States of America, by nationals of countries which accord substantially equal treatment to citizens of the United States of America; and

WHEREAS satisfactory official assurances have been received that since December 14, 1907, citizens of the United States have been entitled to obtain copyright protection for their works in Austria on substantially the same basis as citizens of Austria without the need of complying with any formalities, provided such works secured protection in the United States; and

WHEREAS, by virtue of a proclamation by the President of the United States of America, dated April 9, 1910, 36 Stat. 2685, citizens of Austria are, and since July 1, 1909, have been, entitled to the benefits of the aforementioned act of March 4, 1909, other than the benefits of section 1(e) of that act; and

WHEREAS, by virtue of a proclamation by the President of the United States of America, dated March 11, 1925, 44 Stat. 2571, the citizens of Austria are, and since August 1, 1920, have been, entitled to the benefits of section 1(e) of the aforementioned act of March 4, 1909:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, under and by virtue of the authority vested in me by the aforesaid title 17, do declare and proclaim:

That with respect to (1) works of citizens of Austria which were first produced or published outside the United States of America on or after March 13, 1938 and prior to July 27, 1956, and subject to copyright under the laws of the United States of America, and (2) works of citizens of Austria subject to renewal of copyright under the laws of the United States of America on or after March 13, 1938 and prior to July 27, 1956, there has existed during several years of the aforementioned period such disruption or suspension of facilities essential to compliance with the conditions and formalities prescribed with respect to such works by the copyright laws of the United States of America as to bring such works within the terms of the aforesaid title 17, and that, accordingly, the time within which compliance with such conditions and formalities may take place is hereby extended with respect to such works for one year after the date of this proclamation.

It shall be understood that the term of copyright in any case is not and cannot be altered or affected by this proclamation, and that, as provided by the aforesaid title 17, no liability shall attach under that title for lawful uses made or acts done prior to the effective date of this proclamation in connection with the above-described works, or with respect to the continuance for one year subsequent to such date of any business undertaking or enterprise lawfully entered into prior to such date involving expenditure or contractual obligation in connection with the exploitation, production, reproduction, circulation, or performance of any such work.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this fifteenth day of June in the year of our Lord nineteen hundred and sixty, and of the Independence of the United States of America the one hundred and eighty-fourth.

[SEAL]

DWIGHT D. EISENHOWER

By the President:

DOUGLAS DILLON,
Acting Secretary of State.

[F.R. Doc. 60-5633; Filed, June 15, 1960; 11:23 a.m.]

Rules and Regulations

Title 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 26—EMPLOYMENT WITH PUBLIC INTERNATIONAL ORGANIZATIONS

Retirement, Group Health Benefits and Insurance

Section 26.110 is amended as set out below.

§ 26.110 Retirement, group health benefits, and insurance.

(a) *Group health benefits.* An employee who transfers or has transferred under the Act and these regulations is entitled to enroll or to continue his enrollment in a health benefits plan provided by the Federal Employees Health Benefits Act of 1959 and Part 89 of the regulations in this chapter. This entitlement shall continue throughout the period provided by section 4(d) of the Act, including the reemployment period described in that section, and shall be subject to the provisions of Part 89 of the regulations in this chapter. For purposes of exercising this entitlement, a transferring employee shall be considered an employee of the United States. Provisions of the Act that relate to retirement and insurance shall also be applied to group health benefits so as to assure transferring employees of the benefits provided by the Federal Employees Health Benefits Act of 1959.

(b) *Agency and employee action.* At the time of consent to an employee's transfer, the agency shall notify the employee in writing that he will retain coverage with resulting rights and benefits under the retirement, group health benefits, and insurance systems only if (1) employee payments made by him and (2) agency contributions made by him, by the agency, or by the international organization are currently deposited in the respective funds. The written notice shall state whether the agency contributions will be paid by the agency. The employee shall in writing acknowledge receipt of notice and state whether he wishes to retain his Federal retirement, group health benefits, and/or life insurance by continuing all required payments.

(c) *Agency responsibility.* Except that it shall not be mandatory that the agency continue to use its appropriations to make agency retirement, group health benefits, and insurance contributions for the employee during his absence, each transferred employee shall, for retirement, group health benefits, and insurance purposes, be considered to remain an employee of the agency from which transferred. Accordingly, the agency shall be responsible for determining the applicable rate of compensation in accordance with the provisions of section 4(c) of the Act, for acting as employing office under Part 89 of the regulations in this chapter, and for collecting, accounting for, and depositing in the respective funds all retirement, group health benefits, and insurance employee payments and agency contributions required to be made for the purpose of protecting the rights of the employee so transferred. This responsibility includes furnishing the employee and/or the international organization, when appropriate, with specific information as to how, when, and where such payments and contributions should be submitted.

(d) *Coverage.* Employee payments and agency contributions shall be considered as currently deposited if received by the agency prior to, during, or within one month after the end of the pay period covered thereby. Failure to currently deposit such payments and contributions shall terminate a transferred employee's retirement, group health benefits, and insurance coverage on the last day of the pay period for which payments and contributions were currently deposited, subject to a 31-day extension of life insurance and group health benefits coverage (as provided in §§ 37.5(c) and 89.8 of this chapter) and to the conversion benefits provided in §§ 37.5(g) and 89.11 of this chapter. Coverage so terminated may not attach again before the employee actually enters on duty on his first day in a pay status in an agency. However, terminated Civil Service Retirement Act, Federal Employees Health Benefits Act of 1959, and Life Insurance Act coverage will be reinstated retroactively when, in the judgment of the Commission, the failure to make the required current deposit was due to circumstances beyond the control of the employee and the required payments and contributions were deposited at the first opportunity; and coverage under any other retirement system shall be reinstated retroactively if the agency which administers the retirement system determines that the failure to make the required current deposit was due to circumstances beyond the control of the employee and the required payments and contributions were deposited at the first opportunity.

(Sec. 5, 72 Stat. 961, E.O. 10804, 24 F.R. 1147)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] MARY V. WENZEL,
Executive Assistant.

[F.R. Doc. 60-5511; Filed, June 15, 1960; 8:50 a.m.]

Title 13—BUSINESS CREDIT AND ASSISTANCE

Chapter I—Small Business Administration

[Amdt. 4]

PART 107—SMALL BUSINESS INVESTMENT COMPANIES

Miscellaneous Amendments

There was published in the FEDERAL REGISTER on February 20, 1960 (25 F.R. 1528) a proposal to amend § 107.302–1, relating to initial capital and surplus of small business investment companies; § 107.303–3, relating to SBA operating loans to Licensees by restricting the use of proceeds derived from the sale of subordinated debentures and loans made under section 303(b) of the Act, to the financing of enterprises other than alcoholic enterprises; § 107.308–7, by adding thereto a new paragraph (d), relating to investment advisers and management contracts; § 107.308–9, qualifying paragraph (d) thereof relating to the use outside the States of funds provided by Licensees to a small business concern, and adding a new paragraph (e) prohibiting Licensees from providing small business concerns with funds to be used for the financing of land speculations. A notice of extension of time within which comments would be received was published in the FEDERAL REGISTER on April 5, 1960 (25 F.R. 2860).

Interested persons were given an opportunity to present their comments or suggestions pertaining thereto, to the Investment Division, Small Business Administration, Washington 25, D.C., within 60 days after the date of publication of the notice in the FEDERAL REGISTER. After consideration of all such relevant matter as was presented by the interested persons regarding the proposed amendment, the amendment of regulations as so proposed, with changes resulting from such consideration, with the exception noted below, is hereby adopted as set forth below.

Included in the Notice of Proposed Rule Making dated February 20, 1960, there was a proposal to amend § 107.302–2 which would permit small business investment companies to issue stock for considerations other than cash and to grant stock options. This section was subject to considerable comment and since it is intended to change the proposal materially it will be republished for further comment in the FEDERAL REGISTER under a Notice of Proposed Rule Making.

Because of the necessity for promptly applying the proposed procedures to the program authorized under the Small Business Investment Act of 1958, the subject amendment of regulation shall become effective upon publication thereof in the FEDERAL REGISTER.

The Small Business Investment Companies Regulation (23 F.R. 9383) as amended (25 F.R. 1397, 2354, 3316) is hereby further amended by:

1. Adding at the end of § 107.302–1 the following new § 107.302–1(g) which reads as follows:

§ 107.302–1 Initial capital and surplus of licensee.

* * * * *

(g) The proceeds derived from the sale of any such subordinated debentures of a Licensee under section 302(a) of the Act may be used to provide equity capital and make long-term loans to small business concerns: *Provided, however,* That Licensee cannot use such proceeds for investments and loans involving enterprises which derive a substantial portion of their gross income from the sale of alcoholic beverages and accordingly within 30 days after the disbursement of any funds to Licensee under authority of section 302(a) of the Act, and thereafter during period in which any such subordinated debentures remain unpaid, the Licensee shall maintain assets consisting of cash, eligible Government obligations, and portfolio investments and loans involving enterprises which do not derive a substantial portion of their gross income from the sale of alcoholic beverages (exclusive of all investments and loans already in the Licensee's portfolio at the time that the proceeds of such subordinated debentures were disbursed), equal in face value to no less than the unpaid principal of such subordinated debentures.

2. Designating the present text of § 107.303–3 as paragraph (a) and adding at the end thereof the following new paragraph (b) which reads as follows:

§ 107.303–3 Purpose and loan requirements.

* * * * *

(b) The proceeds of any loan obtained by Licensee under the provisions of section 303(b) of the Act may be used to provide equity capital and make long-term loans to small business concerns: *Provided, however,* That Licensee cannot use such proceeds for investments and loans involving enterprises which derive a substantial portion of their gross income from the sale of alcoholic beverages and accordingly within 30 days after the disbursement of any loan funds to Licensee under authority of section 303(b) of the Act, and thereafter during period in which any such loan, or any part thereof remains unpaid, the Licensee shall maintain assets consisting of cash, eligible Government obligations, and portfolio investments and loans involving enterprises which do not derive a substantial portion of their gross income from the sale of alcoholic beverages (exclusive of all investments and loans already in the Licensee's portfolio at the time that the proceeds of such loans were disbursed), equal in face value to no less than the unpaid principal of such loan.

3. Adding at the end of § 107.308–7 the following new paragraph (d) which reads as follows:

§ 107.308–7 Activities of Licensee.

* * * * *

(d) Every Licensee which obtains investment advisory services or management services on a continuing basis, performed for, or supplied to such Licensee by any person or other entity other than the directors, officers or employees in their capacities as such, shall contract in writing for such services and such written contract shall specifically:

(1) Describe such services;

(2) Describe all compensation to be paid thereunder;

(3) State the duration of the contract;

(4) Provide for its termination by the Licensee, without penalty, on not more than 60 days' written notice;

(5) Provide for its automatic termination in the event of its assignment by the person performing the service;

(6) Provide for full disclosure to all interested parties whenever the person performing such services performs services for small business concerns doing business with the Licensee;

(7) Be approved by a vote of a majority of the outstanding voting securities of the Licensee prior to such contract becoming effective; and

(8) Be approved annually by a vote of a majority of the outstanding voting securities of the Licensee or by the vote of a majority of its Board of Directors, including the approval vote of a majority of those members of the Board of Directors who are not parties to, or do not have a pecuniary interest, direct or indirect, in such contract.

Every Licensee shall furnish SBA, for informational and record purposes, with a copy of each contract to which the foregoing applies, on or before the effective date thereof. Contracts for appraisal, custodial, collection, bookkeeping, accounting and legal services shall not be considered advisory or management services for purposes of this part.

4. Deleting the period at the end of paragraph (d) of § 107.308–9, substituting a colon therefor, and adding the following: *"Provided, however,* That a Licensee may provide funds to a small business concern which is subject to State or Federal jurisdiction, (1) for use in the domestic production of products for distribution abroad, or to acquire abroad materials for such operation or (2) for use in its branch operations abroad or for transfer to its controlled foreign subsidiary in exchange for further equity interest in or the monetary obligation of such foreign subsidiary; so long as the major portion of the assets and activities of such concern, after funds are so employed, remains within the territorial jurisdiction of the United States."

As amended, § 107.308–9(d) reads as follows:

§ 107.308–9 Prohibited uses.

* * * * *

(d) Use outside the States herein defined: *Provided, however,* That a Licensee may provide funds to a small business concern which is subject to State or Federal jurisdiction, (1) for use in the domestic production of products for distribution abroad, or to acquire abroad materials for such operation or (2) for use in its branch operations abroad or for transfer to its controlled foreign subsidiary in exchange for further equity interest in or the monetary obligation of such foreign subsidiary; so long as the major portion of the assets and activities of such concern, after funds are so employed, remains within the territorial jurisdiction of the United States.

5. Adding at the end of § 107.308–9 the following new paragraph (e), which reads as follows:

§ 107.308–9 Prohibited uses.

* * * * *

(e) Financing land speculations of small business concerns: *Provided, however,* That small business concerns may use funds for the acquisition and prompt development of land.

Dated: June 9, 1960.

PHILIP MCCALLUM,
Administrator.

[F.R. Doc. 60-5498; Filed, June 15, 1960; 8:48 a.m.]

[Amdt. 2]

PART 108—LOANS TO STATE AND LOCAL DEVELOPMENT COMPANIES

Section 501 Loans

The Loans to State and Local Development Companies Regulation (23 F.R. 10511) as amended (25 F.R. 1398) is hereby further amended by deleting § 108.501–1 in its entirety and substituting the following new § 108.501–1 in lieu thereof:

§ 108.501–1 Section 501 loans.

(a) *Participation.* To insure participation of private financing sources, the State development company shall agree, unless otherwise modified by SBA, that within 30 days after disbursement of the loan and thereafter during the period in which the loan, or any part thereof, remains unpaid, it will maintain portfolio investments or loans, or both, meeting the requirements of paragraph (c) of this section, having a stated outstanding principal value equal to no less than 133⅓ percent of the unpaid principal of the loan. Deviation from this ratio will be permitted during intervals between repayment or other disposal of such investments or loans and the prompt reinvestment of funds resulting from such repayment or disposal.

(b) *Loan amount.* Subject to the limitation contained in section 501(b) of the Small Business Investment Act of 1958, a loan authorized under this au-

thority shall be in such amount as determined by SBA to be consistent with sound business practice.

(c) *Repayment of loan.* A section 501 loan shall not be made for a term longer than 20 years. Payment of all or any part of a loan may be anticipated without penalty on any interest payment date. Except when the rate of repayment is waived by SBA, such rate shall be adjusted by SBA so that a section 501 loan shall be repaid at no lesser rate than the other debts of the development company which first become due: *Provided, however,* That at no time will the outstanding amount of a section 501 loan to a development company exceed the limitation set forth in section 501(b) of the Small Business Investment Act of 1958.

(d) *Security.* Except where this requirement is waived by SBA, funds advanced to a development company under a section 501 loan shall be secured on an equal basis with those funds borrowed by such company after August 21, 1958, regardless of source. Equal basis does not require that all SBA funds be secured in the highest degree that any other development company funds are secured; however, SBA funds shall be secured on a ratable basis.

(e) *Use of proceeds.* (1) The proceeds of loans to State development companies shall be used within 30 days after disbursement only to provide equity capital or make long-term loans, or both, to small business concerns. For the purposes of this section a long-term loan or any debt instrument through which equity may be acquired shall have a final maturity of not less than five years. State development companies may use section 501 loan proceeds to acquire capital stock or other equity instruments from, or to relend to, small business concerns in need of assistance to finance their operations, growth, expansion or modernization: *Provided, however,* That the authority to acquire with such proceeds an equity or other proprietary interest in a borrower shall extend only to State development companies which are wholly owned and controlled by private interests.

(2) The proceeds of loans to State development companies may not be used for:

(i) Investments and loans involving enterprises which derive a substantial portion of their gross income from the sale of alcoholic beverages;

(ii) Relending or reinvestment by the small business concern;

(iii) Purposes contrary to the public interest, including but not limited to gambling enterprises and activities;

(iv) Any purpose which would encourage monopoly or be inconsistent with accepted standards of free enterprise;

(v) Use outside the United States: *Provided, however,* That a State development company may provide funds to a small business concern which is subject to State or Federal jurisdiction, (*a*) for use in the domestic production of products for distribution abroad, or to acquire abroad materials for such operation or (*b*) for use in its branch operations abroad or for transfer to its controlled foreign subsidiary in exchange for further equity interest in or the monetary obligation of such foreign subsidiary; so long as the major portion of the assets and activities of such concern, after funds are so employed, remains within the territorial jurisdiction of the United States.

(f) *Interest rate.* Interest on section 501 loans shall be five per centum per annum.

(g) *Firm commitment.* A firm commitment may be given by SBA for a period of one year subject to the payment of a commitment fee computed on the basis of one per centum per annum, beginning with the first day after the first 30 days following the date of the Note.

The foregoing amendment is effective upon publication in the FEDERAL REGISTER.

Dated: June 9, 1960.

PHILIP MCCALLUM,
Administrator.

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 207—NAVIGATION REGULATIONS

Columbia and Willamette Rivers, Washington and Oregon

Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U.S.C. 1), § 207.670 governing navigation on the Columbia and Willamette River, Washington and Oregon is hereby amended in its entirety, as follows:

§ 207.670 Columbia and Willamette Rivers, Washington and Oregon; administration and navigation.

(a) *Supervision.* The District Engineer, U.S. Army Engineer District, Portland, Oregon, has certain administrative supervision over the Columbia and Willamette Rivers, and is charged with the enforcement under his direction of emergency regulations to govern navigation of these streams.

(b) *Speed.* During very high water stages (usually 25 feet or more on the Vancouver, Washington, gage) when lives, floating plant or major shore installations are endangered, the District Engineer shall have authority to prescribe such temporary speed regulations as he may deem necessary for the public safety. During critical periods of freshets under 25 feet on the Vancouver, Washington, gage when construction is in progress, rehabilitation, or other unusual emergency makes a major shore installation susceptible to loss or major damage from wave action, the District Engineer shall have authority to prescribe for a particular limited reach of the river as appropriate such temporary speed regulations as he may deem necessary to protect the integrity of such structure. All speed regulations prescribed by the District Engineer shall be obeyed for the duration of the emergency and shall be terminated at the earliest practicable time that improved stream conditions permit.

[Regs., June 6, 1960, 285/91 (Columbia River)—ENGCW-O] (Sec. 7, 40 Stat. 266; 33 U.S.C. 1)

R. V. LEE,
Major General, U.S. Army,
The Adjutant General.

Title 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 17—MEDICAL

Invalid Lifts

In Part 17, § 17.117 is added to read as follows:

§ 17.117 Invalid lifts.

Upon request, an invalid lift of approved type may be furnished or loaned to outpatients, hospital patients at time of discharge from hospitalization, or domiciliary members at time of discharge from domiciliation, when determined feasible and medically held needed for:

(a) A service-connected disability which results in the loss or loss of use of both lower extremities, combined with the loss or loss of use of at least one upper extremity to the extent that the patient is medically determined incapable of moving himself from bed to wheelchair, or vice versa, without being lifted bodily by an attendant.

(b) An associated condition, not attributed to military service, but held to be aggravating the disability from a service-connected disease or injury (adjunct treatment), subject to the same conditions as in paragraph (a) of this section.

(c) Effective on and after July 1, 1960, a non-service-connected disability subject to the same conditions as in paragraph (a) of this section, with the additional provision that the patient must be in receipt of pension based upon the need for regular aid and attendance.

(d) Persons defined in § 17.60(a)(5) are subject to the same conditions as in paragraph (a) of this section.

(72 Stat. 1114; 38 U.S.C. 210)

This regulation is effective June 16, 1960.

[SEAL] BRADFORD MORSE,
Deputy Administrator.

[F.R. Doc. 60-5507; Filed, June 15, 1960; 8:49 a.m.]

Title 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 1001—LIMES GROWN IN FLORIDA

Expenses and Fixing of Rate of Assessment for 1960-61 Fiscal Year

Notice was published in the May 24, 1960, issue of the FEDERAL REGISTER (25 F.R. 4557), that consideration was being given to proposals regarding the expenses and the fixing of the rate of assessment for the 1960-61 fiscal year under the marketing agreement, as amended, and Order No. 101, as amended (7 CFR Part 1001), regulating the handling of limes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Florida Lime Administrative Committee, established pursuant to the aforesaid amended marketing agreement and order, it is hereby found and determined that:

§ 1001.207 Expenses and rate of assessment for the 1960-61 fiscal year.

(a) Expenses: The expenses that are reasonable and likely to be incurred by the Florida Lime Administrative Committee, established pursuant to the provisions of the aforesaid amended marketing agreement and order, for the maintenance and functioning of such committee, in accordance with the provisions thereof, during the fiscal year beginning April 1, 1960, and ending March 31, 1961, will amount to $6,900.00.

(b) Rate of assessment: The rate of assessment which each handler who first handles limes shall pay as his pro rata share of the aforesaid expenses in accordance with the applicable provisions of said amended marketing agreement and order is hereby fixed at four cents ($0.04) per bushel, or equivalent quantity of limes handled by such handler during the 1960-61 fiscal year.

(c) Terms used in the said amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order.

The provisions hereof shall become effective 30 days after publication in the FEDERAL REGISTER.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: June 13, 1960.

FLOYD F. HEDLUND,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 60-5526; Filed, June 15, 1960; 8:52 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 59-FW-103]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Modification

On March 5, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 1959) stating that the Federal Aviation Agency proposed to modify VOR Federal airway No. 154 between Macon, Ga., and Savannah, Ga.

Although not mentioned in the notice, the foregoing requires a modification to the south segment of the west alternate to VOR Federal airway No. 37 between Savannah and Allendale, S.C., so as to conform to the realignment of Victor 154. This change is minor in nature, since it realigns Victor 37 west 2° counter clockwise of its present location. Additionally, a correction is required to § 600.6154 to eliminate the reference to the Fort Benning Restricted Area (R-129). Since the relocation of the Columbus, Ga., VOR on December 19, 1956, there is no longer an overlap of Victor 154 and the Fort Benning Restricted Area. Such action is taken herein.

The notice stated that the Dublin, Ga., VOR would be installed approximately August 7, 1960. However, the commissioning date of this facility has been rescheduled to October 20, 1960.

No adverse comments were received regarding the proposed amendment. The Aircraft Owners and Pilots Association, however, recommended that a review of the location of the Dublin VOR be made to determine if a more appropriate location would be nearer the Dublin intersection, thereby increasing its usefulness as a navigational aid by serving two airways and as a landing aid to the Dublin airports. The Federal Aviation Agency has made an extensive study on the siting of the Dublin VOR. It has been determined that the presently proposed location will provide the most effective and efficient navigational service to a planned rearrangement of the airway structure in this area.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, the following actions are taken:

1. Section 600.6154 (24 F.R. 10518) is amended to read:

§ 600.6154 VOR Federal airway No. 154 (Meridian, Miss., to Savannah, Ga.).

From the Meridian, Miss, VORTAC via the INT of the Meridian VORTAC 089° True and the Montgomery, Ala., VORTAC 282° True radials; Montgomery VORTAC; Tuskegee, Ala., VOR; INT of the Tuskegee VOR 078° True and the Columbus, Ga., VOR 255° True radials; Columbus VOR, including a south alternate from the Montgomery VORTAC to the Columbus VOR via the INT of the Montgomery VORTAC 088° True radial and the Columbus VOR direct radial to the Eufaula, Ala., VOR; Macon, Ga., VORTAC; Dublin, Ga., VOR; to the Savannah, Ga., VOR, including a north alternate from the INT of the Savannah VOR 282° True and the Allendale, S.C., VOR 216° True radials to the Savannah VOR via the INT of the Allendale VOR 216° True and the Savannah VOR 305° True radials.

§ 600.6037 [Amendment]

2. In the text of § 600.6037 (24 F.R. 10510, 9928) "From the Savannah, Ga., omnirange station via the Allendale, S.C., omnirange station, including a west alternate via the Savannah omnirange 284° and the Allendale omnirange 194° radials;" is deleted and "From the Savannah, Ga., VOR via the Allendale, S.C., VOR, including a west alternate via the Savannah VOR 282° True and the Allendale VOR 194° True radials;" is substituted therefor.

These amendments shall become effective 0001 e.s.t. December 15, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 9, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5475; Filed, June 15, 1960; 8:45 a.m.]

[Airspace Docket No. 59-FW-5]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Modification of Control Zone

On December 12, 1959, a notice of proposed rule making was published in the FEDERAL REGISTER (24 F.R. 10061) stating that the Federal Aviation Agency was considering an amendment to § 601.2332 of the Regulations of the Administrator which would modify the Beaumont, Tex., control zone.

As stated in the notice, the Beaumont control zone is presently designated within a 5-mile radius of the Jefferson County Airport with a 10-mile extension to the north based on the radio range; a 10-mile extension to the northwest based on the ILS localizer course; and a 10-mile extension to the southwest based on the VOR. The Beaumont radio range is scheduled to be decommissioned in the near future and the instrument approach procedure based thereon will be cancelled. Accordingly, the retention of the

control zone extension to the north based on the radio range is unjustified as an assignment of airspace and the revocation thereof is in the public interest. Concurrent with this action, an extension to the southeast is being designated to provide protection for aircraft conducting IFR approaches using the Beaumont ILS localizer southeast course.

The Aircraft Owners and Pilots Association concurred with the revocation of the northern extension. They also stated that they objected to the proposed extensions to the northwest and southwest because: "the foregoing proposals are typical cases of excessive amounts of airspace being designated, which are not needed and in the interest of safety should not be used." These control zone extensions presently exist for the protection of aircraft executing prescribed instrument approaches to the Jefferson County Airport, Beaumont, Tex., utilizing the Beaumont VOR and the low frequency outer marker locator of the instrument landing system. Aircraft utilizing these two navigational aids descend below 1,000 feet above the terrain prior to entering the existing 5-mile radius zone. However, the Federal Aviation Agency is modifying the VOR and ADF approaches to Jefferson County Airport by changing the approach altitude over the LOM and VOR to at least 1,000 feet above the terrain, negating the requirement for the existing control zone extensions to the northwest and southwest beyond the LOM and the VOR. This will result in the revocation of approximately 20 square miles of control zone beyond the LOM and approximately 40 square miles of control zone beyond the VOR. The present ILS southeast course instrument approach procedure authorizes the procedure turn to be completed at 1,400 feet MSL within 10 nautical miles and then descent to 900 feet MSL which is 885 feet above the surface of the airport. Therefore, the Federal Aviation Agency is designating a control zone within a 5-mile radius of the Jefferson County Airport with an extension to the southeast within 2 miles either side of the Beaumont ILS localizer southeast course, extending from the 5-mile radius zone to a point 12 miles southeast of the airport; an extension to the northwest within 2 miles either side of the Beaumont ILS localizer northwest course, extending from the 5-mile radius control zone to the LOM; and an extension to the southwest within 2 miles either side of the Beaumont VOR 064° True radial extending from the 5-mile radius control zone to the Beaumont VOR. This control zone and the control zone extensions are considered necessary to provide full protection for authorized instrument approaches to Jefferson County Airport, Beaumont, Tex.

The Air Transport Association of America commented stating that they had no objection to the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), § 601.2332 (24 F.R. 10587) is amended to read:

§ 601.2332 Beaumont, Tex., control zone.

Within a 5-mile radius of the geographical center of the Jefferson County Airport (latitude 29°57'05" N., longitude 94°01'10" W.), within 2 miles either side of the 064° True radial of the Beaumont VOR extending from the 5-mile radius zone to the Beaumont VOR, within 2 miles either side of the Beaumont ILS localizer NW course extending from the 5-mile radius zone to the LOM, and within 2 miles either side of the Beaumont ILS localizer SE course extending from the 5-mile radius zone to a point 10 miles SE of the airport.

This amendment shall become effective 0001 e.s.t. August 25, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 9, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5473; Filed, June 15, 1960; 8:45 a.m.]

[Airspace Docket No. 59-FW-83]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Modification of Control Zone

On December 29, 1959, a notice of proposed rule making was published in the FEDERAL REGISTER (24 F.R. 10918) stating that the Federal Aviation Agency was considering an amendment to § 601.2340 of the regulations of the Administrator which would modify the Sanford, Fla., control zone.

As stated in the notice, the Sanford control zone is presently designated within a 5-mile radius of the Naval Auxiliary Air Station, Sanford, Fla., within 2 miles either side of a 270° bearing extending from the Sanford Navy nondirectional radio beacon to a point 10 miles west, and within 2 miles either side of a 190° bearing extending from the Sanford Navy nondirectional radio beacon to the Orlando, Fla., control zone. The control zone extension to the south was formerly used for instrument approaches to the Sanford NAAS, based on the Orlando low frequency radio range. The Orlando radio range has been decommissioned, and it is no longer necessary to retain the extension to the south. The present ADF instrument approach procedure is based on the 270° bearing from the Sanford Navy nondirectional radio beacon. The control zone is being modified by revoking the south extension, and redesignating the Sanford control zone within a 5-mile radius of the geographical center of the Naval Auxiliary Air Station and within 2 miles either side of a 270° bearing extending from the Sanford Navy radio beacon to a point 12 miles west. This extension will protect aircraft making authorized instrument approaches in their descent below 1000 feet above the airport surface. Although in the notice, the extension was described as 10 miles beyond the radio beacon, it is necessary to extend it to 12 miles to provide full protection to the instrument approach procedure.

The Aircraft Owners and Pilots Association concurred in the revocation of the south extension. However, the extension to the west was questioned as to the requirement for such an extension. The current criteria for establishing control zones state that the basic circular area for control zones, normally 5 miles, is then modified by extending the control zone two miles on either side of the authorized low approach path out to a point where aircraft are authorized to descend below 1,000 feet above the terrain and that such extensions are necessary for each authorized low approach procedure established for the airport concerned. At Sanford, aircraft are authorized to descend to an altitude of 600 feet above the terrain after completion of procedure turn which is within 12 statute miles of the radio beacon. Therefore, the Federal Aviation Agency is redesignating the Sanford control zone within a 5-mile radius of the geographical center of the Naval Air Station (latitude 28°46'25" N., longitude 81°14'20" W.); and within 2 miles either side of a 270° bearing extending from the Sanford Navy radio beacon to a point 12 miles west.

No other adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons set forth in the notice, § 601.2340 (24 F.R. 10587) is amended to read:

§ 601.2340 Sanford, Fla., control zone.

Within a 5-mile radius of the geographical center of the Naval Air Station, Sanford, Fla. (latitude 28°46'25" N., longitude 81°14'20" W.) and within 2 miles either side of a 270° bearing extending from the Sanford Navy RBN to a point 12 miles W.

This amendment shall become effective 0001 e.s.t. August 25, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 9, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5474; Filed, June 15, 1960; 8:45 a.m.]

[Reg. Docket No. 417; Amdt. 170]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Alterations

The new and revised standard instrument approach procedures appearing hereinafter are adopted to become effective and/or canceled when indicated in order to promote safety. The revised procedures supersede the existing procedures of the same classification now in effect for the airports specified therein. For the convenience of the users, the revised procedures specify the complete procedure and indicate the changes to the existing procedures. Pursuant to authority delegated to me by the Administrator (24 F.R. 5662), I find that a situation exists requiring immediate action in the interest of safety, that notice and public procedure hereon are impracticable, and that good cause exists for making this amendment effective on less than thirty days' notice.

Part 609 (14 CFR Part 609) is amended as follows:

1. The low or medium frequency range procedures prescribed in § 609.100(a) are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.
If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots	
Elyria FM	CLE-LFR (Final)	Direct	1400	T-dn C-dn A-dn	200-1 400-1 800-2	300-1 500-1 800-2	200-½ 500-1½ 800-2

Radar transitions and vectoring authorized in accordance with approved RADAR patterns.

Minimum altitude over facility on final approach crs, 1400'.
Crs and distance, facility to airport, 070°—0.8.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished within 0.8 mi, climb to 3000' on N side of E crs of Cleveland LFR to Parkman Int.
CAUTION: 1971' television towers approximately 6 mi ESE of airport.

City, Cleveland; State, Ohio; Airport Name, Cleveland-Hopkins; Elev., 789'; Fac. Class, SBRAZ; Ident., CLE; Procedure No. 1, Amdt. 10; Eff. Date, 30 June 60; Sup. Amdt. No. 9; Dated, 2 June 60

2. The automatic direction finding procedures prescribed in § 609.100(b) are amended to read in part:

ADF STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.
If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots	
				T-dn* C-dn* A-dn	300-1 700-1½ 800-2	300-1 700-2 800-2	200-½ 700-2 800-2

Procedure turn W side of South crs, 141° Outbnd, 321° Inbnd, 1500' within 10 mi. Nonstandard.
Minimum altitude over facility on final approach crs, 800'.
Crs and distance, facility to airport, 123°—1.4 mi.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished within 0 mile after passing Annette LFR, turn left, climb to 2000' on 141° crs of Annette LFR within 20 mi.
CAUTION: Mountainous terrain 3610' 5 mi ENE and 1000' terrain within 2 mi of airport N through E.
*Runway 2-20 unlighted. T-n NA; C-n NA. Runway 2, T-d 600-1, make immediate left turn after takeoff.

City, Annette; State, Alaska; Airport Name, Annette; Elev., 119'; Fac. Class., SBRAZ; Ident., ANN; Procedure No. 2, Amdt. Orig.; Eff. Date, 2 July 60

7. The radar procedures prescribed in § 609.500 are amended to read in part:

RADAR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.
If a radar instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the radar controller. From initial contact with radar to final authorized landing minimums, the instructions of the radar controller are mandatory except when (A) visual contact is established on final approach at or before descent to the authorized landing minimums, or (B) at pilot's discretion if it appears desirable to discontinue the approach, except when the radar controller may direct otherwise prior to final approach, a missed approach shall be executed as provided below when (A) communication on final approach is lost for more than 5 seconds during a precision approach or for more than 30 seconds during a surveillance approach; (B) directed by radar controller; (C) visual contact is not established upon descent to authorized landing minimums; or (D) if landing is not accomplished.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots	
200°	035°	Within: 10 mi	2000	*Precision approach*			
035°	200°	10 mi	3000	S–dn–5L	200–½	200–½	200–½
6°	200°	30 mi	3000	A–dn	600–2	600–2	600–2
				Surveillance approach			
				T–dn	300–1	300–1	300–1
				C/S–dn–all	400–1	500–1	400–1
				A–dn	800–2	800–2	800–2

All bearings are from the Radar site with sector azimuths progressing clockwise.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished: *Runway 27:* Climb to 2000' on W crs Cleveland LFR and proceed to Elyria FM. *Runway 9:* Climb to 3000' on N side of the E crs of Cleveland LFR to Parkman Int. *All runways except 9 and 27:* Make a climbing right turn and proceed on the N side of the E crs of the Cleveland LFR to the Parkman Int at 3000'.
CAUTION: TV towers approximately 1970' approximately 6 mi ESE of airport.

City, Cleveland; State, Ohio; Airport Name, Cleveland-Hopkins; Elev., 780'; Fac. Class., Cleveland; Ident., Radar; Procedure No. 1, Amdt. 6; Eff. Date, 30 June 60; Sup. Amdt. No. 5; Dated 2 June 58

These procedures shall become effective on the dates indicated on the procedures.

(Secs. 313(a), 307(c), 72 Stat. 752, 749; 49 U.S.C. 1354(a), 1348(c))

Issued in Washington, D.C., on June 7, 1960.

B. PUTNAM,
Acting Director, Bureau of Flight Standards.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 7427]

PART 13—PROHIBITED TRADE PRACTICES

Utica Cutlery Co. et al.

Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1900 *Source or origin;* § 13.1900–35 *Foreign product as domestic.*

(Sec. 6, 38 Stat. 722; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Utica Cutlery Co. et al., Utica, N.Y., Docket 7427, April 2, 1960]

In the Matter of Utica Cutlery Company, a Corporation, and Albert Edward Allen, Walter Joseph Matt, H. Robert Agne, and W. H. Van Vliet, Individually and as Officers of Said Corporation

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a Utica, N.Y., manufacturer with distributing for retail sale stainless steel tableware imported from Japan with no marking on the packages to identify the contents as being of foreign origin. A charge of preticketing said merchandise with fictitious prices was settled by consent on November 17, 1959, 25 F.R. 240, at which time the complaint was dismissed as to three respondents individually.

Following hearings in due course, the hearing examiner made his initial decision, including findings, conclusions and order to cease and desist, which on April 2, became the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents, Utica Cutlery Company, a corporation, and its officers, and Albert Edward Allen, individually and as an officer of said corporation, and Walter Joseph Matt, H. Robert Agne, and W. H. Van Vliet, as officers of said corporation, and respondents' agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of cutlery, stainless steel tableware, or any other products in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from offering for sale or selling packaged merchandise made in Japan, or in any other foreign country without (a) as to merchandise marked as to the country or countries of origin, indicating upon the package thereof that some of the contents originated in a stated foreign country or countries and that such items are marked as to the country or countries of origin, and (b) as to merchandise not marked as to the country or countries of origin, indicating upon the package thereof the country or countries of origin.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents, Utica Cutlery Company, a corporation, and Albert Edward Allen, individually and as an officer of said corporation, and Walter Joseph Matt, H. Robert Agne, and W. H. Van Vliet, as officers of said corporation, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: April 1, 1960.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

[F.R. Doc. 60–5477; Filed, June 15, 1960; 8:46 a.m.]

Title 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 55153]

PART 24—CUSTOMS FINANCIAL AND ACCOUNTING PROCEDURE

Charge for Monthly Supplement to "Merchant Vessels of the United States"

It has been determined that a charge should be imposed for the Monthly Supplement to the publication "Merchant Vessels of the United States" to meet the intent of the Congress expressed in section 501, Independent Offices Appropriation Act of 1952 (5 U.S.C. 140), that, among other things, any publication, report, document, or similar thing of value or utility, furnished, prepared, or issued by any Federal agency shall be self-sustaining to the full extent possible. Consequently, § 24.12(a), Customs Regulations, is hereby amended by the addition of a new subparagraph (4) reading as follows:

(4) A charge of $4.20 shall be made for an annual subscription to the Monthly Supplement to "Merchant Vessels of the United States." Subscriptions shall be addressed to the Bureau of Customs and shall be accompanied by a remittance in that amount.

(R.S. 161, sec. 501, 65 Stat. 290, sec. 2, 23 Stat. 118, as amended; 5 U.S.C. 22, 140, 46 U.S.C. 2)

Notice of the proposed issuance of the foregoing amendment was published in the FEDERAL REGISTER on April 26, 1960 (25 F.R. 3579). No data, views, or arguments pertaining to the proposed amendment were received.

The above amendment shall become effective with and shall be applicable to the publication of the Monthly Supplement dated July 1, 1960, issued on or about July 25, 1960.

[SEAL] D. B. STRUBINGER,
Acting Commissioner of Customs.

Approved: June 7, 1960.

A. GILMORE FLUES,
Acting Secretary of the Treasury.

[F.R. Doc. 60–5513; Filed, June 15, 1960; 8:51 a.m.]

Title 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 671 — COMMUNICATIONS, UTILITIES, AND TRANSPORTATION INDUSTRY IN PUERTO RICO

Wage Order Giving Effect to Recommendations

Pursuant to section 5 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1062, as amended; 29 U.S.C. 205), the Secretary of Labor by Administrative Order No. 531 (25 F.R. 3178), as amended by Administrative Order No. 532 (25 F.R. 4289), appointed and convened Industry Committee No. 47–B and referred to it and duly noticed a hearing on the question of the minimum wage rate or rates to be paid under section 6(c) of the Act to employees in the communications, utilities, and transportation industry in Puerto Rico as defined in Administrative Order No. 531, who are engaged in commerce or in the production of goods for commerce. There was not referred to the committee the wage rate fixed for the general classification of the industry (23 F.R. 4995), which had reached the objective of the minimum wage prescribed in paragraph (1) of section 6(a) of the Act.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the committee filed with the Administrator a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1064, as amended; 29 U.S.C. 208), Reorganization Plan No. 6 of 1950 (64 Stat. 1263; 3 CFR, 1950 Supp., p. 165), General Order No. 45–A (15 F.R. 3290) of the Secretary of Labor, the recommendations of the committee are hereby published in this order amending 29 CFR Part 671, effective July 2, 1960, to read as follows:

Sec.
671.1 Definition.
671.2 Wage rates.
671.3 Notices.

AUTHORITY: §§ 671.1 to 671.3 issued under sec. 8, 52 Stat. 1064, as amended; 29 U.S.C. 208. Interpret or apply sec. 5, 52 Stat. 1062, as amended; 29 U.S.C. 205; sec. 6, 52 Stat. 1062, as amended; 29 U.S.C. 206.

§ 671.1 Definition.

The communications, utilities, and transportation industry in Puerto Rico, to which this part shall apply, is defined as the industry carried on by any wire or radio system of communication, or by messenger service; by any concern engaged in the production and distribution of gas, electricity, or steam, the distribution of water, or the operation of sanitation facilities; and by any concern engaged in transportation for compensation by air, water, rail, motor vehicle, pipeline, or other means, or in related activities, including the operation of travel bureaus and ticket agencies, stevedoring, consolidating, forwarding, crating, and boxing: *Provided, however,* That the industry shall not include railroad transportation activities carried on by a producer of raw sugar, cane juice, molasses, refined sugar, and incidental by-products (or by any firm owned or controlled by or owning and controlling such producer, or by any firm owned or controlled by the parent company of such producer), where the railroad transportation activities are in whole or in part used for the production or shipment of these products, and any transportation activities by truck or other vehicle performed by a producer of these products in connection with the production or shipment of such products by such producer.

§ 671.2 Wage rates.

(a) Wages at a rate of not less than $1.00 an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938 by every employer to each of his employees in the communications, utilities, and transportation industry in Puerto Rico, who is engaged in commerce or in the production of goods for commerce and who is engaged in the radio broadcasting classification of that industry, which is defined as consisting of the operations carried on by any firm engaged in radio broadcasting in Puerto Rico.

(b) Wages at a rate of not less than $1.00 an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938 by every employer to each of his employees in the communications, utilities, and transportation industry in Puerto Rico, who is engaged in commerce or in the production of goods for commerce and who is engaged in the drivers, mechanics, and clerical workers in motor carrier transport and express classification of that industry, which is defined as consisting of the work or operations performed by drivers or operators of all motor vehicles, including fork-lift trucks; mechanics, body repairmen, solderers,

and tinsmiths; and dispatchers and clerical workers, engaged in the transportation of property for compensation including pickup and delivery, and activities directly related to the transportation of property by motor vehicle for compensation and consolidating, forwarding, packing, crating, and boxing goods for shipment.

(c) Wages at a rate of not less than 90 cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938 by every employer to each of his employees in the communications, utilities, and transportation industry in Puerto Rico, who is engaged in commerce or in the production of goods for commerce and who is engaged in the other workers in motor carrier transport and express classification of that industry, which is defined as consisting of the work or operations performed by all workers other than those included in the drivers, mechanics, and clerical workers in motor carrier transport and express classification, engaged in the transportation of property for compensation including pickup and delivery, and activities directly related to the transportation of property by motor vehicle for compensation and consolidating, forwarding, packing, crating, and boxing goods for shipment.

(d) Wages at a rate of not less than $1.00 an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938 by every employer to each of his employees in the communications, utilities, and transportation industry in Puerto Rico, who is engaged in commerce or in the production of goods for commerce and who is engaged in the general classification of that industry, which is defined as all activities included in the communications, utilities, and transportation industry in Puerto Rico as defined in § 671.1, except activities included in the radio broadcasting classification, the drivers, mechanics, and clerical workers in motor carrier transport and express classification and the other workers in motor carrier transport and express classification of that industry, as those classifications are defined in this section.

§ 671.3 Notices.

Every employer subject to the provisions of § 671.2 shall post in a conspicuous place in each department of his establishment where employees subject to the provisions of § 671.2 are working such notices of this part as shall be prescribed from time to time by the Administrator of the Wage and Hour Division of the United States Department of Labor, and shall give such other notice as the Administrator may prescribe.

Signed at Washington, D.C., this 13th day of June 1960.

CLARENCE T. LUNDQUIST,
Administrator.

[F.R. Doc. 60-5462; Filed, June 15, 1960; 8:52 a.m.]

Title 32—NATIONAL DEFENSE

Chapter V—Department of the Army

SUBCHAPTER E—ORGANIZED RESERVES

PART 562—RESERVE OFFICERS' TRAINING CORPS

Miscellaneous Amendments

1. The title "professor of military science and tactics," (PMST), is changed "professor of military science," (PMS), wherever it appears in this part.

2. Revise paragraphs (c) and (d) in § 562.18, and in § 562.21 revise paragraph (a), as follows:

§ 562.18 Ineligibles.

* * * * *

(c) A student who was convicted by civil court or any type of court-martial for offense(s) other than minor traffic violations (for which a fine or forfeiture of $50 or less was imposed), unless a waiver is granted. Waivers are not required for disciplinary actions in connection with the provisions of Article of War 104 or Article 15, Uniform Code of Military Justice. In requesting waivers, the student must list all convictions whether by military or civil courts. Each request must be accompanied by an affidavit setting forth the circumstances, including court actions, of the convictions reported.

(1) The major commanders may grant waivers for convictions of offenses under military or civil codes, *Provided:*

(i) The offense is not a felony;

(ii) The offense did not result in any type of confinement or sentence to hard labor;

(iii) The offense is not recurring;

(iv) The potential value of the individual as an officer is very high in the opinion of the PMS and major commander; and

(v) The current personal conduct and character of the student are above reproach, and the student's conduct since the offense has demonstrated his ability to meet the requirements for good citizenship.

(2) Requests for waiver of offenses listed in subdivisions (i) and (ii) of this subparagraph will be forwarded to The Adjutant General, Department of the Army, Washington 25, D.C., Attn: AGPB-O, for determination. Such requests will include the recommendation of the PMS and major commander. Each request will be carefully weighed, and approval will be recommended only when circumstances clearly warrant such action, bearing in mind that the applicant may be placed in an unfair competitive position as an officer. Appropriate comments as required in connection with subparagraph (1) (iii), (iv), and (v) of this paragraph will also be included.

(i) Felony under local, Federal, or military law.

(ii) An offense which resulted in sentence to confinement in prison stockade or detention area, or sentence to hard labor.

(3) Requests for waiver of unfavorable juvenile court decisions will be similarly submitted and processed depending upon the type of offense involved.

(d) A student who has been relieved from active duty or separated from service under one of the following conditions:

(1) Discharged from the Army with one of the following types of discharge certificates (or similar discharge certificate from another armed service).

(i) Dishonorable.

(ii) Bad conduct.

(iii) Undesirable.

(iv) General.

(2) Separated from any armed force as a security risk or for any reason other than security while undergoing investigation for security reasons.

§ 562.21 General requirements for enrollment.

Each student must meet the following requirements to be eligible for enrollment in any division of the ROTC:

(a) *Educational requirements.* Title 10, United States Code section 4382(d) limits enrollment to a student who is enrolled at an institution where an ROTC unit is established. The student must be a regularly enrolled student at the institution. For the purpose of the regulations in this part, a "regularly enrolled" student is defined as a student who is enrolled in and attending full time a regular course of instruction at a school. At class MC and CC institutions, the course of instruction must lead to a degree in a recognized academic field.

3. Revise §§ 562.25 and 562.26(d), as follows:

§ 562.25 Training of students ineligible for enrollment.

(a) When desired by institutional authorities, male students who are ineligible for enrollment may be permitted to pursue the course, except those prohibited by the provisions of § 562.24(c), and those excluded by the provisions of § 562.29a(b).

(b) In the case of noncitizens, the PMS may permit participation in the ROTC and permit disclosure of unclassified ROTC training materials to these students subject to subparagraphs (1) and (2) of this paragraph:

(1) A noncitizen who intends to become a citizen of the United States must present evidence of such intent to the PMS. DA Form 1624-R (fig. 1), which will be reproduced locally on 8- by 5¼-inch paper, will be used for this purpose.

(2) A national of a foreign country (who does not intend to become a citizen) with which the United States entertains friendly relations must present evidence of accreditation from his government. For this purpose each student will obtain a letter from the representative of his government in Washington, D.C., stating that the government has no objection to the student receiving ROTC training. The PMS will retain the original of the letter in the student's file and forward a copy for file to the Office of the Assistant Chief of Staff, G2, in the Army area in which the institution is located. If the PMS is in doubt regarding the maintenance of friendly relations between the United States and another country, he will forward all papers to next higher headquarters for decision.

(c) Any student authorized to pursue ROTC training in accordance with the provisions of this paragraph will be subject to the following conditions:

(1) The student will not be eligible to receive uniform allowances or to be furnished a Government issued uniform while training at the institution. This does not prohibit the student from wearing a uniform furnished by the institution or purchased with his own funds. Title 10, United States Code, section 773, as amended, authorizes students permitted to pursue the course (not enrolled) to wear the ROTC uniform. These provisions do not include students denied enrollment in the basic course because of refusal to sign the loyalty oath, nor authorize foreign nationals to purchase the Army Green uniform. Army Green uniforms which are worn by foreign nationals pursuing ROTC under the provisions of this paragraph must remain the property of the institution. The institution may issue the uniform to the student for wear during his participation in the ROTC, but the uniform must be returned to the institution at such time as the student completes the course or withdraws therefrom.

(2) The student will not be eligible for commutation of subsistence.

(3) The student will not be eligible for an ROTC deferment or to be exempt from registration under the provisions of section 6(a) of the Universal Military Training and Service Act, as amended.

(d) If the obstruction which prevented enrollment is removed, the student, if otherwise qualified, may be:

(1) Enrolled in the ROTC. When so enrolled, the student becomes eligible to receive a uniform or uniform allowance (as appropriate) and commutation of subsistence (if appropriate). Such benefits are authorized only while the individual is actually enrolled as an ROTC student. Upon enrollment the student will be reported on DA Form 130 as any other ROTC student;

(2) Granted credit for that portion of the course(s) successfully completed under the provisions of this paragraph;

(3) Selected for ROTC deferment; and

(4) Appointed as a commissioned officer upon graduation.

§ 562.26 Eligibility for membership of personnel of armed forces.

* * * * * *

(d) A warrant officer or enlisted member of the ARNG (Army National Guard) or USAR (United States Army Reserve) is eligible for enrollment in the ROTC provided he is otherwise qualified.

(1) If not credited with constructive attendance under ARNG regulations, an ROTC student who wishes to maintain membership in the ARNG will be required to participate in ARNG training in addition to ROTC training.

(2) An obligated member of the Army Reserve who is enrolled in the senior division (or MST -5 and -6 military schools division) is not required to participate in unit training in addition to ROTC training. Upon enrollment in the advanced course (or MST -5 or -6), members of a USAR unit will be transferred to a Control Group (Annual Training) upon application. Any ROTC student (obligated or non-obligated reservist) who volunteers for, and is authorized, USAR unit assignment will be required to participate in unit training, if he wishes to maintain membership in the USAR unit.

(3) The number of members of an ARNG or USAR unit who may be concurrently enrolled in the advanced course (or MST -5 or -6) is limited to 5 percent of the authorized pay drill strength of the unit. The PMS of such ROTC unit will notify the unit commander upon enrollment of a member of a Reserve component.

(4) An advanced course (or MST -5 or -6) student who is concurrently a member of a Reserve component will not attend reserve component annual ACDUTRA (Active duty for training) in lieu of ROTC training camp or be excused from ROTC training camp to attend annual ACDUTRA. This does not prohibit a student from attending both an ROTC training camp and annual ACDUTRA during the same year, provided the training is conducted at different periods.

(5) An advanced course (or MST -5 or -6) student who is also a member of a Reserve component is not to be called or ordered to active duty while pursuing the advanced course. All other ROTC students who are members of Reserve components are subject to call or order to active duty.

4. In § 562.29a, revise paragraphs (b) and (e) and add paragraph (f), and in § 562.30, add paragraph (e), as follows:

§ 562.29a Discharge or disenrollment.

* * * * * *

(b) The PMS will establish a board to consider the case of a student discharged under provisions of paragraph (a) (5), (6), (7), (8), or (9) of this section, or when deemed appropriate. A student disenrolled under provisions of paragraph (a) (5), (6), (7), (8), or (9) of this section, or for a similar reason, will not be reenrolled or authorized to pursue the course under the provisions of § 562.25.

* * * * * *

(e) A student under contract will not be discharged from the ROTC prior to graduation to accept a commission in the Army National Guard of the United States or the Army Reserve.

(f) Upon disenrollment of a student from the senior division, the PMS will notify the student in writing of the reasons for disenrollment. The PMS will make proper notation on DA Form 131 and retain copy of the letter. If the student is authorized to pursue the course under provisions of § 562.25, he will be fully informed of the provisions of that section, including his chances for appointment. Such information may be included in the letter of disenrollment or stated orally, as appropriate. This action is not required for students who complete the basic course but do not enroll in the advanced course.

§ 562.30 Contracts.

* * * * * *

(e) *Other contract.* Each student who is selected for ROTC flight training must sign DA Form 597-1 (Army ROTC Supplemental Agreement—Flight Training). In signing this agreement, the student agrees to:

(1) Participate in all ROTC flight training;

(2) Undergo all tests and examinations required in connection with flight training;

(3) Serve on active duty as a commissioned officer for not less than 3 consecutive years (unless sooner relieved or discharged under appropriate regulations), if so ordered subsequent to graduation and appointment; and

(4) Volunteer for Army flight training and assignment upon appointment.

§ 562.40 [Amendment]

5. In § 562.40, near the end of the tabulation in paragraph (e), change "55c training: [1]" to read "NDCC training: [1]"

[C 2, AR 145-350, Apr. 22, 1960] (Sec. 3012, 70A Stat. 157; 10 U.S.C. 3012. Interpret or apply secs. 4381-4387, 70A Stat. 246-248; 10 U.S.C. 4381-4387)

Title 32A—NATIONAL DEFENSE, APPENDIX

Chapter XVIII—National Shipping Authority, Maritime Administration, Department of Commerce

[NSA Order 3 (AGE-2, Amdt. 4)]

AGE-2—GENERAL AGENTS, AGENTS, AND BERTH AGENTS

Amendment to Affidavit of Citizenship

Paragraph 3 of the form of Affidavit of United States Citizenship of Corporate Applicant appearing in section 6A8 is hereby amended to read as follows:

SEC. 6. *Form of application.*

* * * * * *

A. *As to the applicant: its citizenship and affiliations.*

8. * * *

3. That the names of the President or other Chief Executive Officer, Vice Presidents or other individuals who are authorized to act in the absence or disability of the President or other Chief Executive Officer, Chairman of the Board, and Directors of the corporation are as follows:

Name ---------- Title ----------

and that each of said individuals is a citizen of the United States by virtue of birth in the United States, birth abroad of United States citizen parents, by naturalization, by naturalization during minority through the naturalization of a parent, by marriage (if a woman) to a United States citizen prior to September 22, 1922, or as otherwise authorized by law, except (give name and nation-

ality of alien directors, if any); however, the By-laws of the corporation provide that ------- of the directors are necessary to constitute a quorum; therefore, the alien directors named represent no more than a minority of the number necessary to constitute a quorum;

(Sec. 204, 49 Stat. 1987, as amended; 46 U.S.C. 1114; Pub. Law 86-327, September 21, 1959 (73 Stat. 597))

Approved June 8, 1960, Director, National Shipping Authority.

WALTER C. FORD,
Deputy Maritime Administrator.

Title 36—PARKS, FORESTS, AND MEMORIALS

Chapter I—National Park Service, Department of the Interior

PART 1—GENERAL RULES AND REGULATIONS

PART 6—VEHICLE, GUIDE, ADMISSION, AND MISCELLANEOUS FEES

Washington; Entry of Commercial Passenger-Carrying Motor Vehicles

On page 3213 of the FEDERAL REGISTER of April 14, 1960, there was published a notice and text of proposed amendments to §§ 1.35 and 1.36 of Part 1 and § 6.3 of Part 6 of Title 36, Code of Federal Regulations. The purpose of the amendments is to clarify the sections of the regulations dealing with the entry of commercial passenger-carrying motor vehicles to certain parks where concessioners provide transportation services under their contracts or permits with the Secretary of the Interior and to revise the schedule of fees that necessarily follows as a result of the changes to Part 1.

Interested persons were given 30 days within which to submit written comments, suggestions or objections with respect to these proposed amendments. Some inquiries were received concerning the intent and interpretation of the proposed changes. No suggestions of change or objections have been received and the proposed amendments are hereby adopted without change and are set forth below. These amendments shall become effective at the beginning of the 30th calendar day following the date of publication of this notice in the FEDERAL REGISTER.

FRED A. SEATON,
Secretary of the Interior.

JUNE 10, 1960.

Section 1.35 *Automobiles operated for pleasure,* is amended to read as follows:

§ 1.35 Automobiles operated for pleasure.

The parks and monuments where common carrier service is established under authorization and supervision of the Government are open to automobiles operated for pleasure, including rental cars, provided the party using a rental car does not hire also the services of a driver. All permit fees under this section shall be in accordance with schedules contained in § 6.2 of this chapter, and shall be paid at the park entrance upon arrival.

Section 1.36 *Commercial passenger-carrying motor vehicles,* is amended to read as follows:

§ 1.36 Commercial passenger carrying motor vehicles.

(a) The commercial transportation of passengers by motor vehicle, except as authorized under a contract or permit from the Secretary or his authorized representative, is prohibited in Bryce Canyon, Crater Lake, Glacier (except that portion of the park road from the Sherburne entrance to the Many Glacier area), Grand Canyon (except the service road branch of the south entrance road serving park headquarters and Grand Canyon Village, including the portion of the south entrance road which lies between the park boundary and said service road), Grand Teton (except that portion of Highways Nos. 89 and 187, 287 and 26 commencing at the south boundary of the park and running in a northerly direction to the east boundary of the park), Lassen Volcanic (except those portions of Highway No. 89 and Highway No. 44 crossing the northwest corner of the park outside the Manzanita Lake checking station), Mount McKinley (except that portion of the Denali Highway between the Nenana River and the McKinley Park Hotel), Mount Rainier (except Highway No. 5, U.S. 410), Rocky Mountain, Sequoia-Kings Canyon, Yellowstone (except that portion of U.S. Highway 191 traversing the northwest corner of the park), Yosemite, and Zion National Parks, and Cedar Breaks National Monument. The following principles will govern the interpretation and enforcement of the section:

(1) Transportation is commercial if it is operated primarily as a business activity or for profit of the operator, or if any person or organization may receive a profit, commission, fee, brokerage or other compensation for organizing, advertising, promoting, soliciting, or selling the trip or tour of which such transportation is a part.

(2) Transportation is commercial if payment therefor is made directly or indirectly to the operator: *Provided,* That bona fide sharing of actual expenses will not be deemed a payment.

(3) Transportation by a motor vehicle licensed as a commercial vehicle, or of commercial type, will be presumed to be commercial unless otherwise established to the satisfaction of the superintendent or his authorized representative.

(4) Transportation will not be deemed commercial for the sole reason that the motor vehicle is chartered or rented in good faith to the operator, by the owner, for general use at a charge based upon time or mileage or both. Nothing in this section is intended to prohibit the operation of pleasure type automobiles rented without a driver on the normal terms from the owner.

(5) Subject to the provisions of subparagraph (1) of this paragraph, transportation is not commercial if it is a part of a trip or tour initiated, organized, and directed by an established bona fide school or college, institution, society or other organization, as a nonprofit activity of such organization, and if all passengers are students, faculty, members or employees of such organization, or otherwise connected therewith, provided that credentials are presented at the park entrance from the head of such institution or organization indicating the trip is in accordance with the provisions stipulated herein. Clubs or associations having as a principal purpose the arranging of tours, trips, or transportation for their members will not qualify for admission into the above named parks under the provision of this paragraph.

(6) As used herein, "owner" means the person or organization having legal title, or all the incidents of ownership other than legal title, of a motor vehicle by which passengers may be transported, and includes a registered owner or a purchaser under a conditional sales contract. "Operator" means the person, organization, or group that arranges for the transportation, assumes responsibility for financial risk and management, and determines who shall be transported upon what terms, conditions, or charges. The operator may be the owner, but need not be.

(b) Passenger-carrying motor vehicles, otherwise admissible, that are so large as to require motorcycle escort in order to proceed safely over park roads, or which in the judgment of the superintendent are beyond the carrying capacity or safety factor of the roads, will not be permitted in the parks, except that, where they may satisfactorily enter and travel to park headquarters, they may be parked there during the period of stay.

(c) All permit fees under this section shall be in accordance with schedules contained in § 6.3 of this chapter, and shall be paid at the park entrance upon arrival.

Section 6.3 *Commercial passenger-carrying vehicles,* is amended to read as follows:

§ 6.3 Commercial passenger-carrying motor vehicles.

(a) *Fees.* Fees for commercial passenger-carrying motor vehicles admissible to the respective parks under § 1.36 of this chapter will be charged as follows:

	Amount per trip
Bryce Canyon National Park	$1.00
Crater Lake National Park	1.00
Glacier National Park	2.00
Grand Canyon National Park	1.00
Grand Teton National Park	1.00
Lassen Volcanic National Park	1.00
Mesa Verde National Park	[1] $1.00

[1] Mesa Verde National Park is not included in the listing of parks under § 1.36 of this chapter. However, commercial passenger-carrying motor vehicles entering Mesa Verde National Park will be admissible after payment of the above fee at the park entrance upon arrival.

	Amount per trip
Mount McKinley National Park	None
Mount Rainier National Park	$1.00
Rocky Mountain National Park	1.00
Sequoia-Kings Canyon National Parks	2.00
Yellowstone National Park	3.00
Yosemite National Park	3.00
Zion National Park	1.00
Cedar Breaks National Monument	None

Title 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 2115]

[1846286]

[Fairbanks 024672]

ALASKA

Partly Revoking Departmental Order of July 21, 1942; Air Navigation Site No. 183

By virtue of the authority vested in the Secretary of the Interior by section 4 of the Act of May 24, 1928 (45 Stat. 728; 49 U.S.C. 214), it is ordered as follows:

1. The Departmental order of July 21, 1942, establishing Air Navigation Site Withdrawal No. 183, is hereby revoked so far as it affects the following-described lands:

ANIAK AIRFIELD

Beginning at Corner No. 15 of United States Survey 2638, thence
N. 59°46' W., 9,868.98 feet to Corner No. 14;
North, 1,000 feet;
East, 2,360.17 feet;
North, 1,021.32 feet;
East, 3,790.35 feet;
S. 59°46' E., 3,200.00 feet;
S. 30°14' W., 2,700.00 feet;
S. 59°46' E., 3,281.18 feet to a point on line 15 and MC 16, United States Survey 2638;
S. 53°12' W., 2,327.90 feet along said line to the point of beginning.

The tract described contains approximately 890 acres.

2. The lands are situated at the Village of Aniak, on the middle reaches of the Kuskokwim River, approximately 165 airline miles southwest of McGrath, and 430 miles southwest of Fairbanks. The lands are flat lying, quite low, and boggy. Soils are silt, clay and gravel deposited by the River. Vegetation is a mixture of spruce, birch, and alder, with such species as blueberries, lowbush cranberries, various sedges, grasses, and the like.

3. Subject to any existing valid rights and the requirements of applicable law, the lands described in paragraph 1 hereof, are hereby opened to settlement and to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public land laws, and applications and offers under the mineral leasing laws, may be presented to the Manager mentioned below, beginning on the date of this order. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation, will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) Until 10:00 a.m. on September 7, 1960, the State of Alaska shall have a preferred right of application to select the lands in accordance with and subject to the provisions of the Act of July 28, 1956 (70 Stat. 709; 48 U.S.C. 46-3b), and section 6(g) of the Alaska Statehood Act of July 7, 1958 (72 Stat. 339; Public Law 85-508).

(3) All valid applications under the nonmineral public land laws, and applications and offers under the mineral leasing laws, other than any from the State, presented prior to 10:00 a.m. on September 7, 1960, will be considered as simultaneously filed at that hour. Rights under such applications, selections, and offers filed after that hour will be governed by the time of filing.

b. The lands will be open to settlement under the homestead and Alaska homesite laws, and location under the United States mining laws beginning at 10:00 a.m. on September 7, 1960.

4. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands should be addressed to the Manager, Land Office, Bureau of Land Management, Fairbanks, Alaska.

ROGER ERNST,
Assistant Secretary of the Interior.

JUNE 9, 1960.

[F.R. Doc. 60-5480; Filed, June 15, 1960; 8:46 a.m.]

[Public Land Order 2116]

[Fairbanks 024671]

ALASKA

Partially Revoking Air Navigation Site Withdrawal No. 268

By virtue of the authority contained in section 4 of the act of May 24, 1928 (45 Stat. 729; 49 U.S.C. 214), it is ordered as follows:

1. The departmental order of May 2, 1951, which reserved lands for use of the Civil Aeronautics Administration, Department of Commerce, in the maintenance of air navigation facilities, is hereby revoked so far as it affects the following-described lands:

BETTLES AIRFIELD AREA

From Corner No. 2 of Air Navigation Site Withdrawal Number 268, which is the point of beginning; thence
S. 32°12'15" W., 7,999.15 feet;
N. 57°49'00" W., 2, 238.80 feet;
N. 32°12'15" E., 900.00 feet;
S. 57°49'00" E., 500.00 feet;
N. 32°12'15" E., 7,099.15 feet;
S. 57°47'45" E., 1,738.80 feet to the point of beginning.

The tract described contains 331.87 acres.

2. The land is located on the south bank of the Koyukuk River, approximately four miles upriver from Bettles Village in north central Alaska. The soil consists of a thin covering of moss and silt over a bed of river gravel. The vegetation consists of birch, white spruce and aspen in the overstory with an understory of lowbush cranberry, blueberry, and various other bushes, forbs and grasses.

3. Subject to any valid existing rights and the requirements of applicable law, the lands are hereby opened to settlement and to filing of applications, selections, and locations as are allowable on unsurveyed lands in accordance with the following:

a. Applications and selections under the nonmineral public land laws, and applications and offers under the mineral leasing laws may be presented to the Manager mentioned below beginning on the date of this order. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) Until 10:00 a.m. on September 8, 1960, the State of Alaska shall have a preferred right of application to select the lands in accordance with and subject to the provisions of the act of July 28, 1956 (70 Stat. 709; 48 U.S.C. 46-3b) and section 6(g) of the Alaska Statehood Act of July 7, 1958 (72 Stat. 339).

(3) All valid applications and selections under the nonmineral public land laws and applications and offers under the mineral leasing laws presented prior to 10:00 a.m. on July 15, 1960, will be considered as simultaneously filed at that hour. Rights under such applications and selections and offers filed after that hour will be governed by the time of filing.

b. The lands will be open to applications and offers under the mineral-leasing laws and to location under the United States mining laws beginning at 10:00 a.m. on September 8, 1960.

4. Subject to the applications and claims described in paragraphs 3(a)(1) and 3(a)(2), the lands shall be subject to settlement under the homestead and

Alaska Home Site Laws beginning at 10:00 a.m. on September 8, 1960.

5. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Fairbanks, Alaska.

ROGER ERNST,
Assistant Secretary of the Interior.

[Public Land Order 2117]

[Colorado 031000]

COLORADO

Reserving Lands for Use of Forest Service for Experimental Purposes

By virtue of the authority vested in the President by the act of June 4, 1897 (30 Stat. 34-36; 16 U.S.C. 473) and otherwise, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described national forest lands in Colorado are hereby withdrawn from all forms of appropriation under the public land laws, including the mining but not the mineral-leasing laws nor disposals of materials under the act of July 31, 1947 (61 Stat. 681; 30 U.S.C. 601-604), as amended, and reserved for use of the Forest Service, Department of Agriculture, as part of the Manitou Experimental Forest in connection with research projects being conducted in furtherance of the act of May 22, 1928 (45 Stat. 699; 16 U.S.C. 581; 581a-581k), as amended:

SIXTH PRINCIPAL MERIDIAN

PIKE NATIONAL FOREST

Manitou Experimental Forest

T. 10 S., R. 69 W.,
Sec. 33, NE¼NE¼, W½.
T. 11 S., R. 69 W.,
Sec. 4, Lot 2, S½NE¼, and SE¼;
Sec. 9, E½, and E½SW¼;
Sec. 10, N½NW¼, and W½SW¼;
Sec. 11, W½SW¼;
Sec. 13, NW¼SW¼;
Sec. 14, NW¼NE¼; NE¼NW¼, S½NW¼, N½SW¼, SE¼SW¼, SW¼SE¼, and E½SE¼;
Sec. 15, W½NW¼; NW¼SW¼, and SE¼NE¼;
Sec. 16, NW¼, and E½E½;
Sec. 22, E½NE¼;
Sec. 23, NW¼NE¼NW¼, and SW¼.

The areas described aggregate 2,641.81 acres.

ROGER ERNST,
Assistant Secretary of the Interior.

[Public Land Order 2118]

UTAH

Partially Revoking Reclamation Withdrawals of May 2, 1914, October 18, 1918, and September 20, 1920 (Strawberry Valley and Castle Peak Projects)

By virtue of the authority vested in the Secretary of the Interior by Section 3 of the act of June 17, 1902 (32 Stat. 388; 43 U.S.C. 416), it is ordered as follows:

The departmental orders of May 2, 1914, October 18, 1918, and September 20, 1920, which withdrew lands in Utah for reclamation purposes in the first form in connection with the Strawberry Valley and Castle Peak Projects, are hereby revoked so far as they affect the following-described lands:

[423667]

SALT LAKE MERIDIAN

T. 9 S., R. 1 W.,
Sec. 2, S½NW¼ and SW¼.

The areas described aggregate 240 acres.

[806099]

UINTAH SPECIAL MERIDIAN

T. 4 S., R. 5 W.,
Sec. 6, lot 4.
T. 4 S., R. 6 W.,
Sec. 2, Lot 4.
T. 3 S., R. 9 W.,
Sec. 26, NE¼.

The areas described aggregate 237.62 acres.

The lands are nonpublic lands.

ROGER ERNST,
Assistant Secretary of the Interior.

JUNE 9, 1960.

[F.R. Doc. 60-5483; Filed, June 15, 1960; 8:46 a.m.]

[Public Land Order 2119]

[Fairbanks 024978]

ALASKA

Revoking Air Navigation Site Withdrawal No. 100

By virtue of the authority contained in section 4 of the Act of May 24, 1928 (45 Stat. 729; 49 U.S.C. 214), it is ordered as follows:

1. The departmental order of October 14, 1935, which reserved lands for use of the Alaska Road Commission in the maintenance of air navigation facilities, which heretofore has been revoked in part, is hereby revoked in its entirety. The following-described lands are affected by this order:

Donnelly Airstrip

Beginning at Corner No. 1, in approximate latitude 63°40' N., longitude 145°53'24" W., from which a point in the centerline of Richardson Highway 210 feet south of Mile Post No. 239 bears S. 45° E., 165 feet; thence from said Corner No. 1,
N. 45° W., 600 feet to Corner No. 2;
S. 45° W., 3,000 feet to Corner No. 3;
S. 45° E., 600 feet to Corner No. 4;
N. 45° E., 3,000 feet to Corner No. 1, the place of beginning.

The tract described contains 41.32 acres.

2. The land is located just south of the Donnelly Roadhouse on the western side of the Richardson Highway, approximately 30 miles south of Delta Junction. The soil consists of a partially sorted glacial till and contains much sand and gravel mixed in with many boulders. The vegetation of the area consists of black spruce, birch, labrador tea, and various other grasses and forbs.

3. Subject to any valid existing rights and the requirements of applicable law, the lands are hereby opened to settlement and to filing of applications, selections, and locations as are allowable on unsurveyed lands in accordance with the following:

a. Applications and selections under the nonmineral public land laws, and applications and offers under the mineral leasing laws may be presented to the Manager mentioned below beginning on the date of this order. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) Until 10:00 a.m. on September 8, 1960, the State of Alaska shall have a preferred right of application to select the lands in accordance with and subject to the provisions of the Act of July 28, 1956 (70 Stat. 709; 48 U.S.C. 46-3b) and section 6(g) of the Alaska Statehood Act of July 7, 1958 (72 Stat. 339).

(3) All valid applications and selections under the nonmineral public land laws and applications and offers under the mineral leasing laws presented prior to 10:00 a.m. on July 15, 1960, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands will be open to location under the United States mining laws beginning at 10:00 a.m. on September 8, 1960.

4. Subject to the applications and claims described in paragraphs 3(a)(1) and 3(a)(2), the lands shall be subject to settlement under the homestead and Alaska Homesite Laws beginning at 10:00 a.m. on September 8, 1960.

5. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Fairbanks, Alaska.

ROGER ERNST,
Assistant Secretary of the Interior.

JUNE 9, 1960.

[Public Land Order 2120]

[Idaho 010812]

IDAHO

Partially Revoking the Executive Order of November 27, 1922 (Public Water Reserve No. 85)

By virtue of the authority vested in the President by section 1 of the Act of June 25, 1910 (36 Stat. 847; 43 U.S.C. 141), and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. The Executive order of November 27, 1922, which created Public Water Reserve No. 85, is hereby revoked so far as it affects the following-described lands:

BOISE MERIDIAN

T. 3 S., R. 42 E.,
Sec. 20, SE¼SE¼.

The tract described contains 40 acres.

2. The lands are located in a high mountainous area, approximately 35 miles southeast of Idaho Falls, Idaho. Soil is dark to fine sand. The cover is mainly sagebrush with a good understory of bunchgrass.

3. Subject to any existing valid rights and the requirements of applicable law, the lands are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) Until 10:00 a.m. on December 8, 1960, the State of Idaho shall have a preferred right of application to select the lands in accordance with and subject to the provisions of subsection (c) of section 2 of the Act of August 27, 1958 (72 Stat. 928; 43 U.S.C. 851, 852), and the regulations in 43 CFR.

(3) All valid applications and selections under the nonmineral public land laws presented prior to 10:00 a.m. on July 15, 1960, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

4. The lands have been open to applications and offers under the mineral leasing laws, and to location for metaliferous minerals. They will be open to location for nonmetalliferous minerals under the United States mining laws beginning at 10:00 a.m. on December 8, 1960.

5. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands should be addressed to the Manager, Land Office, Bureau of Land Management, Boise, Idaho.

ROGER ERNST,
Assistant Secretary of the Interior.

JUNE 9, 1960.

[Public Land Order 2121]

[Sacramento 060243]

CALIFORNIA

Power Site Restoration No. 560; Partially Revoking Executive Order of May 27, 1913, Which Created Power Site Reserve No. 364

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910 (36 Stat. 847; 43 U.S.C. 141) and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. The Executive order of May 27, 1913, which created Power Site Reserve No. 364, is hereby revoked so far as it affects the following-described lands:

MOUNT DIABLO MERIDIAN

T. 32 N., R. 1 E.,
Sec. 6, lots 1 and 2, and S½NE¼.

The areas described contain 161.51 acres, of which the S½NE¼ has been patented.

2. The lands are located about 32 miles east of Redding and two and a half miles north of Whitmore in Shasta County, California. The topography is rough and mountainous. The elevation is about 2,400 feet and the vegetation is a mixed pine type.

3. Subject to any valid existing rights and the requirements of applicable law, the public lands are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications and selections under the nonmineral public land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

b. The lands have been open to applications and offers under the mineral leasing laws and to locations under the mining laws pursuant to the act of August 11, 1955 (69 Stat. 683; 30 U.S.C. 621).

4. The State of California has waived the preference right of application granted to it by subsection (c) of section 2 of the act of August 27, 1958 (72 Stat. 928; 43 U.S.C. 851, 852). It has also waived its preference rights under the act of May 28, 1948 (62 Stat. 275; 16 U.S.C. 818).

5. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Sacramento, California.

ROGER ERNST,
Assistant Secretary of the Interior

JUNE 9, 1960.

[Public Land Order 2122]

[Washington 02850]

WASHINGTON

Withdrawing Lands for Use of Atomic Energy Commission

By virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands in Washington are hereby withdrawn from all forms of appropriation under the public land laws, including the mining and mineral leasing laws and disposals of materials under the act of July 31, 1947 (61 Stat. 681; 30 U.S.C. 601-604), as amended, and reserved under the jurisdiction of the Atomic Energy Commission in connection with its Hanford Operations:

WILLAMETTE MERIDIAN

T. 11 N., R. 29 E.,
Sec. 14, lot 5.

Containing 3.89 acres.

ROGER ERNST,
Assistant Secretary of the Interior.

JUNE 9, 1960.

[F.R. Doc. 60-5487; Filed, June 15, 1960; 8:47 a.m.]

Title 46—SHIPPING

Chapter I—Coast Guard, Department of the Treasury

SUBCHAPTER Q—SPECIFICATIONS

[CGFR 60-37]

PART 160—LIFESAVING EQUIPMENT

Subpart 160.047—Buoyant Vests, Kapok or Fibrous Glass, Adult and Child, for Motorboats of Classes A, 1, or 2 Not Carrying Passengers for Hire

REVISED BUOYANT VEST SPECIFICATION AND TERMINATION OF MANUFACTURERS' APPROVALS

Pursuant to the notice of proposed rule making published in the FEDERAL REGISTER on February 18, 1960 (25 F.R. 1440–1448), and Merchant Marine Council Public Hearing Agenda dated April 4, 1960 (CG–249), the Merchant Marine Council held a Public Hearing on April 4, 1960, for the purpose of receiving comments, views and data. The proposals considered were identified as Items I through XII, inclusive, and Item III contained proposals regarding life preservers and other lifesaving equipment.

This document contains only the actions taken with respect to the kapok or fibrous glass buoyant vest specification in 46 CFR Subpart 160.047 and the termination of manufacturers' approvals of present kapok or fibrous glass buoyant vests, Models AK, CKM, CKS, AF, CFM, and CFS for motorboats of Classes A, 1 or 2 not carrying passengers for hire, in Item III, and as revised are accepted. The other proposals in Item III will be in a separate document. This document is the seventh of a series covering the regulations and actions considered at the April 4, 1960, Public Hearing and annual session of the Merchant Marine Council.

In response to the comments received the following changes were made in the proposals as set forth in the Merchant Marine Council Public Hearing Agenda:

a. The text was revised in 46 CFR 160.047–1(b), regarding revisions in drawing number 160.047–1, 160.047–5(b) regarding the envelope or cover, and 160.047–5(f) regarding stitching.

b. Postponed the termination date for all outstanding approvals for Models AK, CKM, CKS, AF, CFM, and CFS buoyant vests from "July 1, 1960," to "July 1, 1961."

c. On and after the effective date of these amendments to 46 CFR Subpart 160.047, no further approvals will be granted to manufacturers for Models AK, CKM, CKS, AF, CFM, and CFS buoyant vests.

Effective July 1, 1961, all the outstanding approvals for Models AK, CKM, CKS, AF, CFM, and CFS buoyant vests are hereby terminated. Notwithstanding this termination of approvals because such vests will not comply with revised Coast Guard requirements, all such vests manufactured pursuant to approved plans and requirements prior to July 1, 1961, may be placed in service and/or continued in use so long as such vests are in good and serviceable condition.

With respect to buoyant vests manufactured pursuant to interim approvals based on the proposed specification pending formal adoption of the specification, such vests are accepted with the understanding that on and after the effective date of the revised specification all future buoyant vests manufactured will be in compliance with the revised specification set forth in this document.

By virtue of the authority vested in me as Commandant, United States Coast Guard by Treasury Department Orders 120, dated July 31, 1950 (15 F.R. 6521), and 167–32, dated September 23, 1958 (23 F.R. 7605), to promulgate regulations in accordance with the statutes cited with the regulations below, the title of Subpart 160.047 is amended to read as set forth above and the following amendments to §§ 160.047–1 to 160.047–9, inclusive, are prescribed and shall become effective 90 days after date of publication of this document in the FEDERAL REGISTER:

Sec.

160.047–1 Applicable specifications and plans.
160.047–2 Types and models.
160.047–3 Materials—Type I vests.
160.047–4 Materials—Type II vests.
160.047–5 Construction—Type I vests.
160.047–6 Construction—Type II vests.
160.047–7 Inspections and tests—Types I and II vests.
160.047–8 Marking.
160.047–9 Procedure for approval—Types I and II vests.

AUTHORITY: §§ 160.047–1 to 160.047–9 issued under R.S. 4405, as amended, and 4462, as amended; 46 U.S.C. 375, 416. Interpret or apply secs. 6, 17, 54 Stat. 164, as amended, 166, as amended; 46 U.S.C. 526e, 526p.

§ 160.047–1 Applicable specifications and plans.

(a) *Specifications.* The following specifications, of the issue in effect on the date buoyant vests are manufactured, form a part of this subpart:

(1) Federal specifications:

V–T–276—Thread, Cotton.
CCC–T–191b—Textile Test Methods.
DDD–S–751—Stitches; Seams; and Stitching.

(2) Military specifications:

MIL–W–530—Webbing, Textile, Cotton, General Purpose, Natural or in Colors.
MIL–B–2766—Batt, Fibrous Glass, Lifesaving Equipment.
MIL–F–10400—Film, Flexible, Vinyl.

(3) Coast Guard specification:

164.003—Kapok, Processed.

(b) *Plans.* The following plans, of the issue in effect on the date buoyant vests are manufactured, form a part of this subpart:

Dwg. No. 160.047–1:
Sheet 1, Rev. 2—Cutting Pattern and General Arrangement, Models AK–1 and AF–1.
Sheet 2, Rev. 2—Cutting Pattern and General Arrangement, Models CKM–1 and CFM–1.
Sheet 3, Rev. 2—Cutting Pattern and General Arrangement, Models CKS–1 and CFS–1.
Sheet 4, Rev. 1—Pad Patterns.

(c) *Copies on file.* Copies of the specifications and plans referred to in this section shall be kept on file by the manufacturer, together with the certificate of approval. The Coast Guard plans and specification may be obtained upon request from the Commandant, United States Coast Guard, Washington 25, D.C. The Federal Specifications may be purchased from the Business Service Center, General Services Administration, Washington 25, D.C. The Military Specifications may be obtained from the Bureau of Supplies and Accounts, Department of the Navy, Washington 25, D.C.

§ 160.047–2 Types and models.

(a) Buoyant vests specified by this subpart shall be of the following types and models:

Type I—Standard:
Model AK–1—Adult, kapok.
Model AF–1—Adult, fibrous glass.
Model CKM–1—Child, medium, kapok. (For children weighing approximately 45 to 90 pounds.)
Model CFM–1—Child, medium, fibrous glass. (For children weighing approximately 45 to 90 pounds.)
Model CKS–1—Child, small, kapok. (For children weighing less than approximately 50 pounds.)
Model CFS–1—Child, small, fibrous glass. (For children weighing less than approximately 50 pounds.)

Type II—Non-standard:
Model [1]—Adult, kapok.
Model [1]—Adult, fibrous glass.
Model [1]—Child, medium, kapok. (For children weighing approximately 45 to 90 pounds.)
Model [1]—Child, medium, fibrous glass. (For children weighing approximately 45 to 90 pounds.)
Model [1]—Child, small, kapok. (For children weighing less than approximately 50 pounds.)
Model [1]—Child, small, fibrous glass. (For children weighing less than approximately 50 pounds.)

§ 160.047–3 Materials—Type I vests.

(a) *General.* The requirements for materials specified in this section are minimum requirements, and consideration will be given to the use of alternate materials in lieu of those specified. Detailed technical data and samples of all proposed alternate materials shall be submitted for approval prior to being incorporated in the finished product.

(b) *Kapok.* The kapok shall be all new material complying with Subpart 164.003 of this subchapter and shall be properly processed.

(c) *Fibrous glass.* The fibrous glass shall comply with the requirements of specification MIL–B–2766.

(d) *Envelope.* The buoyant vest envelope, or cover, shall be made from 39", 2.85 cotton jeans cloth, with a thread count of approximately 96 x 64. The finished goods shall weigh not less than 4.2 ounces per square yard, shall have a thread count of not less than 94 x 60, and shall have a breaking strength of not less than 85 pounds in the warp and 50 pounds in the filling. Other cotton fabrics having a weight and breaking strength not less than the above will be acceptable. There are no restrictions as to color, but the fastness of the color to laundering, water, crocking and light shall be rated "good" when tested in accordance with Federal Specification CCC–T–191b, Methods 5610, 5630, 5650, and 5660.

(e) *Pad covering.* The covering for the buoyant pad inserts shall be flexible vinyl film not less than 0.006" in thickness meeting the requirements of specification MIL–F–10400 for Type I, Class 1, film.

(f) *Tie tapes, straps, and reinforcing tape.* The tie tapes and body strap loops for both adult and child sizes shall be ¾" cotton webbing meeting the requirements of Specification MIL–W–530 for Type I webbing. The body straps for adut size vests shall be 1" Type IIa webbing, and the body straps for child size vests shall be ¾" Type IIa webbing. The reinforcing tape around the neck shall be ¾" cotton tape weighing not less than 0.18 ounce per linear yard and having a minimum breaking strength of not less than 120 pounds.

(g) *Dee rings and snap hooks.* The dee rings and snap hooks shall be of a size consistent with the webbing on which they are used and shall be of corrosion-resistant material or protected against corrosion by a corrosion-resistant plating.

(h) *Thread.* The thread shall be Type IB, No. 20; 4-ply cotton thread conforming to the requirements of Federal Specification V–T–276.

§ 160.047–4 Materials—Type II vests.

(a) *General.* All materials used in non-standard Type II buoyant vests shall be at least equivalent to those specified in § 160.047–3 for standard Type I vests.

§ 160.047–5 Construction — Type I vests.

(a) *General.* This specification covers buoyant vests which essentially consist of a vest-cut envelope containing compartments in which are enclosed pads of buoyant material arranged and distributed so as to provide the proper flotation characteristics and buoyancy required to hold the wearer in an upright backward position with head and face out of water. The buoyant vests are also fitted with tapes, webbing, and hardware to provide for proper adjustment and close and comfortable fit to the bodies of various size wearers.

(b) *Envelope.* The envelope or cover shall be cut to the pattern shown on Dwg. No. 160.047–1, Sheet 1, for adult size, and Sheets 2 and 3, for child sizes, and sewed with seams and stitching as shown on the drawing. Three compartments shall be formed to hold the buoyant pad inserts, two front compartments and one back compartment, and reinforcing strips of the same material as the cover shall be stitched to the inside of the front compartments in way of the strap attachments as shown by the drawings. As alternate construction, the front and/or back cover panels may be made in two pieces, provided that the two pieces are joined by a double stitched seam from the top center of the neck hole to the top of the vest as shown in Section J–J of the drawings.

(c) *Pad inserts*—(1) *Forming and sealing.* The buoyant pad inserts shall each be formed from two pieces of film cut to the patterns shown by Dwg. No. 160.047–1, Sheet 4, which shall be heat-sealed tight. The heat-sealed pad seams shall show an adhesion of not less than 8 pounds when one inch strips cut across and perpendicular to the seams are pulled apart at a rate of separation of the clamping jaws of the test machine of 12 inches per minute.

(2) *Kapok-filled pads for Models AK–1, CKM–1, and CKS–1.* The buoyant pad inserts for Models AK–1, CKM–1, and CKS–1 buoyant vests shall be filled with kapok distributed as follows:

TABLE 160.047–5(c)(2)—DISTRIBUTION OF KAPOK IN BUOYANT PAD INSERTS

	Model AK–1 (minimum) ounces	Model CKM–1 (minimum) ounces	Model CKS–1 (minimum) ounces
Front pad (2) (each)	5.75	3.75	2.50
Back pad	4.00	2.50	2.00
Total	15.50	10.00	7.00

(3) *Fibrous glass filled pads for Models AF–1, CFM–1, and CFS–1.* The buoyant pad inserts for Models AF–1, CFM–1, and CFS–1 buoyant vests shall be filled with fibrous glass distributed as follows:

TABLE 160.047–5(c)(3)—DISTRIBUTION OF FIBROUS GLASS IN BUOYANT PAD INSERTS

	Model AF–1 (minimum) ounces	Model CFM–1 (minimum) ounces	Model CFS–1 (minimum) ounces
Front pad (2) (each)	10.25	6.75	4.50
Back pad	7.25	4.50	3.50
Total	27.75	18.00	12.50

(4) *Displacement of buoyant pad inserts.* The volume of the finished individual heat-sealed buoyant pad inserts shall be such as to provide buoyancy as set forth in the following table when tested in accordance with the method set forth in § 160.047–7(e)(1), except that the pad covers shall not be slit open and the period of submergence shall be only long enough to determine the displacement of the pads:

TABLE 160.047–5(c)(4)—VOLUME DISPLACEMENT OF SEALED PADS

	Models AK–1 and AF–1	Models CKM–1 and CFM–1	Models CKS–1 and CFS–1
	Each	*Each*	*Each*
Front pads	6¼ pounds±¼ pound	4½ pounds±¼ pound	2¾ pounds±¼ pound.
Back pads	4¼ pounds±¼ pound	3¼ pounds±¼ pound	2½ pounds±¼ pound.

(d) *Tie tapes.* The tie tapes at the neck shall finish not less than 12 inches in length for both adult and child size buoyant vests. They shall be arranged and attached to the envelope as shown by the drawings, and the free ends shall be doubled over and stitched in accordance with Section H–H.

(e) *Body strap, hardware, and reinforcing tape.* The body strap, hardware, and reinforcing tape shall be arranged as shown on the drawings and attached to the envelope with the seams and stitching indicated.

(f) *Stitching.* All stitching shall be a short lock stitch conforming to Stitch Type 301 of Federal Specification DDD–S–751, and there shall be not less than 7 nor more than 9 stitches to the inch. Both ends of the stitching forming the shoulder hinge seams and the top and bottom closing seams of the envelope shall be backstitched approximately ½ inch.

(g) *Pockets.* Pockets are not required on buoyant vests, but may be placed on the front compartments of the envelope if desired, provided they do not interfere with the adjustment or fit of the vest.

(h) *Workmanship.* Buoyant vests shall be of first-class workmanship and shall be free from any defects materially affecting their appearance or serviceability.

§ 160.047–6 Construction — Type II vests.

(a) *General.* Construction methods used in non-standard Type II buoyant vests shall be at least equivalent to those specified in § 160.047–5 for standard Type I vests. Type II vests shall also meet the additional requirements specified in this section.

(b) *Sizes.* Type II vests shall be constructed in sizes which correspond to those specified in § 160.047–5 for Type I vests, i.e., adult size, child's medium, and child's small.

[1] Model designations for Type II, non-standard vests to be assigned by individual manufacturers.

(c) *Amount of buoyant material.* Type II vests shall contain not less buoyant material than specified in § 160.047–5 for Type I vests.

(d) *Arrangement of buoyant material.* The buoyant material in a Type II vest shall be located and arranged so as to hold the wearer in an upright or backward position with head and face out of water, and the vests shall show no tendency to turn a wearer face downward in the water.

(e) *Adjustment, fit, and donning.* Type II vests shall be capable of being readily and easily adjusted to fit the range of wearers for which designed, and donning time shall compare favorably with that of standard Type I vests.

§ 160.047–7 Inspections and tests—Types I and II vests.

(a) *General.* Buoyant vests are not inspected at regularly scheduled factory inspections; however, the Commander of the Coast Guard District may detail a marine inspector at any time to visit any place where buoyant vests are manufactured to observe production methods and to conduct any inspections or tests which may be deemed advisable. The marine inspector shall be admitted to any place where work is done on buoyant vests or component materials and samples of materials entering into construction may be taken by the marine inspector and tests made for compliance with the applicable requirements.

(b) *Manufacturer's inspections and tests.* Manufacturers of approved buoyant vests shall maintain quality control of the materials used, manufacturing methods, and the finished product so as to meet the requirements of this specification, and shall make full inspections and tests of representative samples from each lot to maintain the quality of their product. At least one sample vest from each lot shall be tested for buoyancy by the manufacturer in accordance with the procedure set forth in paragraph (e) of this section. The records of such buoyancy tests shall be kept on file by the manufacturer and shall be made available to the Coast Guard marine inspector upon demand.

(c) *Lot size.* A lot shall consist of not more than 500 buoyant vests of the same type and model. Lots shall be numbered serially by the manufacturer, and a new lot shall be started with any change or modification in materials or production methods.

(d) *Test facilities.* The manufacturer shall provide a suitable place and shall have on hand the necessary apparatus for conducting buoyancy tests in compliance with this specification and Specification Subpart 164.003 of this subchapter for Processed Kapok. The apparatus shall include accurate spring scales of adequate capacity, weighted wire mesh baskets, and a test tank or tanks which can be locked or sealed in such a manner as to preclude disturbance of buoyant vests undergoing tests or change in water level.

(e) *Buoyancy*—(1) *Buoyancy test method.* Remove the buoyant pad inserts from the vest and cut three slits each not less than 2 inches in length and not less than 2 inches apart on both sides of each pad. Securely attach the spring scale in a position directly over the test tank. Suspend the weighted wire basket from the scale in such a manner that the basket is weighed while it is completely under water. In order to measure the actual buoyancy provided by the pads, proceed as follows:

(i) Weigh the empty wire basket under water.

(ii) Place the pads inside the basket and submerge it so that the top of the basket is at least 2 inches below the surface of the water for 24 hours. The tank shall be locked or sealed during this 24-hour submergence period. It is important that after the pads have once been submerged they shall remain submerged for the duration of the test, and at no time during the course of the test shall they be removed from the tank or otherwise exposed to air.

(iii) After the 24-hour submergence period unlock or unseal the tank and weigh the weighted wire basket with the pads inside while both are still under water.

(iv) The buoyancy is computed as subdivision (i) of this subparagraph minus subdivision (iii) of this subparagraph.

(2) *Buoyancy required.* The pad inserts from adult buoyant vests shall provide not less than 16 pounds buoyancy; the pad inserts from child's medium vests shall provide not less than 11 pounds buoyancy; and the pad inserts from child's small vests shall provide not less than 7¼ pounds buoyancy.

(f) *Additional tests for Type II vests.* For Type II vests additional tests, such as tests to determine performance in the water, extended service tests to determine suitability of materials, tests to determine comparative donning time and ease of adjustment, and such other tests as may be necessary to determine equivalence to the standard Type I vests, may be required prior to approval.

§ 160.047–8 Marking.

(a) *General.* Each buoyant vest shall be marked with a rectangular cloth tag attached to the back of the envelope by stitching along all edges of the tag. The following information shall be plainly printed in waterproof ink on each tag:

TYPE (I OR II) BUOYANT VEST

MODEL ------

ADULT (OR CHILD)

Approved for use on motorboats of Class A, 1, or 2 not carrying passengers for hire.

U.S. Coast Guard Approval No. ------
Lot. No. ------

This vest is filled with (kapok or buoyant fibrous glass) sealed in plastic film pad covers. For maximum durability care should be taken to avoid puncturing or snagging inner plastic covers. When vest is wet, hang up and dry thoroughly. If pads become waterlogged, replace vest.

(Name and Address of Manufacturer)

(b) *Additional marking for child size vests.* For child's medium size buoyant vests, the following additional wording shall be included on the marking tag: "For Children Weighing Approximately 45 to 90 Pounds". For Child's small size buoyant vests, the following additional wording shall be included on the marking tag: "For Children Weighing less than Approximately 50 Pounds".

(c) *Waterproofness of marking tags.* Marking tags for buoyant vests shall be sufficiently waterproof so that after 48 hours submergence in water, they will withstand rubbing by hand with moderate pressure while wet without the printed matter becoming illegible.

§ 160.047–9 Procedure for approval—Types I and II vests.

(a) *General.* Buoyant vests for use on motorboats are approved only by the Commandant, U.S. Coast Guard, Washington, D.C. Each model vest is considered separately. Application for approval and correspondence pertaining to this specification shall be addressed to the Commander of the Coast Guard District in which the factory is located.

(b) *Approval of Type I vests.* Upon receipt of an application for approval of standard Type I vests, the Commander of the Coast Guard District will detail a marine inspector to the factory to observe the production facilities and manufacturing methods and to select from not less than ten buoyant vests already manufactured not less than three of each model for examination and test for compliance with the requirements of this specification. A copy of the marine inspector's report, together with a fourth specimen vest and one set of buoyant inserts selected from those already manufactured, will be forwarded to the Commandant, and if satisfactory, an official approval number will be assigned to the manufacturer for the Type I vests submitted.

(c) *Approval of Type II vests.* Upon receipt of an application for approval of non-standard Type II vests, the Commander of the Coast Guard District will detail a marine inspector to the factory to observe the production facilities and manufacturing methods and to select three sample vests of each model and one set of buoyant inserts for each model for which approval is desired. The sample vests and inserts will be forwarded to the Commandant, together with a copy of the marine inspector's report. At the time the pre-approval samples are selected, the manufacturer shall also submit to the marine inspector four prints each of fully-dimensioned, full scale drawings showing all details of construction of the sample vests submitted, and four copies of a bill of material showing all materials used in the construction of the vests. After examination of the samples, drawings, and other material submitted, the manufacturer will be advised of any changes or corrections considered necessary, and any additional samples or other material required. If the samples, drawings, and other material are found satisfactory, tests of the samples will be authorized. If the results of the tests are satisfactory, an official approval number will be assigned to the manufacturer for the Type II vests submitted.

Dated: June 10, 1960.

[SEAL] J. A. HIRSHFIELD,
Vice Admiral, U.S. Coast Guard,
Acting Commandant.

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 11331]

PART 1—PRACTICE AND PROCEDURE

PART 4—EXPERIMENTAL, AUXILIARY, AND SPECIAL BROADCAST SERVICES

Operation of Co-channel Amplifying Transmitters in Conjunction With Main Transmitter; Correction

The Commission's Report and Order (FCC 60–615) adopted May 25, 1960, in this proceeding and published June 8, 1960 in the FEDERAL REGISTER, 25 F.R. 5096, is corrected in the following respects:

I. Instruction 2 is corrected to change "§ 1.325(a)" to "§ 1.325(b)"; as corrected, instruction 2 reads as follows:

2. Section 1.325(b) is amended by adding the following new subparagraph:

§ 1.325 Application for license to cover construction permit.

* * * * * * *

(b) * * *

(6) FCC Form 344 "Application for Television Broadcast Booster Station License."

II. Section 4.836(c) is corrected to read:

§ 4.836 Emissions and bandwidth.

* * * * * * *

(c) Radio frequency harmonics of the visual and aural carriers shall be attenuated no less than 60 decibels for transmitters operating with more than 1 kilowatt power output. For transmitters operating with power output of 1 kilowatt or less, the power in such radio frequency harmonics shall not exceed 1 milliwatt. Other spurious emissions on frequencies more than 3 megacycles outside the assigned channel, including intermodulation products, signals other than those received from the primary station, and radio frequency energy generated within the booster apparatus, shall be attenuated no less than 40 decibels below the peak visual carrier amplitude. Greater attenuation of all spurious emissions may be required if interference is caused to any radio service.

Released: June 13, 1960.

Proposed Rule Making

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[43 CFR Part 146]

EXCHANGES OF PRIVATELY OWNED LANDS UNDER TAYLOR GRAZING ACT

Notice of Proposed Rule Making

Basis and purpose. Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior by subsections (b) and (d) of section 8 of the Taylor Grazing Act of June 28, 1934, as amended (43 U.S.C. 315g), and section 2478 of the Revised Statutes (43 U.S.C. 1201), it is proposed to amend 43 CFR 146.2 and 146.8 as set forth below. The purpose of this amendment is to implement the Secretary's anti-speculation policies by requiring an applicant to make certain showings as to his ownership of the offered lands, his need for the selected lands, the value of both the offered and selected lands, and the merits of the exchange.

This proposed amendment relates to matters which are exempt from the rule making requirements of the Administrative Procedure Act (5 U.S.C. 1003); however, it is the policy of the Department of the Interior that, wherever practicable, the rule making requirements be observed voluntarily. Accordingly, interested persons may submit written comments, suggestions, or objections with respect to the proposed amendments to the Bureau of Land Management, Washington 25, D.C., within thirty days of the date of publication of this notice in the FEDERAL REGISTER.

Paragraphs (b), (c), and (d) of § 146.2 and the title to, and paragraphs (b) and (c) of § 146.8 are hereby amended and paragraphs (e) to (h) are hereby added to § 146.2, all to read as follows:

§ 146.2 Application.[1]

* * * * *

(b) The applicant must at all times during the pendency of his application be legally capable of consummating the exchange and the owner in fee simple of the offered lands. An option or executory contract to purchase the offered lands, or evidence that the exchange applicant will in due course receive title to the lands, as under a will or other proceedings, is not sufficient to meet the requirements of the regulations in this paragraph. The application must be accompanied by proof that the exchange applicant is the owner in fee simple of the offered lands. Such proof must consist of an abstract of title or a certificate of title prepared and certified by the local recorder of deeds, a title company, an abstracting company, or a duly qualified attorney authorized to practice in the State, showing that the exchange applicant is the record owner in fee simple of the offered lands, and that such finding of ownership is not based upon an executory option or contract to purchase the lands or other incomplete proceedings.

(c) The application must also include a statement relative to springs and waterholes on the selected lands, in accordance with §§ 292.1 and 292.9 of this chapter.

(d) Each application must be accompanied by a showing that the selected lands are a necessary and integral part of the economic unit which includes lands he already owns.

(e) Each exchange applicant must file with his application a notarized statement giving his opinion of the fair market value of both the offered and selected lands. He must also file with his application a notarized statement disclosing the substance of any personal arrangements he has made with third parties prior to the filing of his application which would have an influence upon the determination of the fair market value of the selected lands, such as agreements or understandings with third parties to dispose of any portion or all of the selected lands. If such personal arrangements are made on or after the filing of the application and prior to the issuance of the patent, a similar complete disclosure thereof must be promptly filed with the authorized officer. Failure to disclose any such facts as required by this paragraph will constitute cause for the rejection of the application or institution of proceedings looking to the cancellation of any patent which may have issued stemming from the exchange application.

(f) If the exchange application involves less than 1,000 acres of selected lands, or the exchange applicant stated, as required by paragraph (e) of this section, that the land has a fair market value of less than $10,000, the application must also be accompanied by the notarized statements of two qualified persons such as bankers or licensed realtors or licensed real estate salesmen active in that community or the authorized officers of the agency the program of which would be benefited by the exchange, showing their opinions as to the fair market value of both the offered and selected lands.

(g) Each exchange application involving 1,000 acres or more of selected lands or any acreage of selected lands, or which the applicant stated, as required in paragraph (e) of this section, to have a fair market value of $10,000 or more, must be accompanied by at least two appraisals by reputable competent appraisers of both the offered and selected lands. Each appraiser must certify that to the best of his knowledge the appraisals reflect the true fair market value of the lands and must submit with his appraisal a statement of his qualifications in appraisal work. Appraisals must conform to established and generally recognized practices and procedures in common use by professional appraisers. The appraisals must contain a comprehensive description of the lands covered thereby and of the appraisal processes leading to the opinions of value in such detail as to permit an informed judgment as to the soundness of the appraisals and the accuracy and reasonableness of the conclusions. Nothing in this paragraph shall be construed as preventing the agency, the program of which would be benefitted by the exchange, from providing, or contracting for, one of the required appraisals for both the offered and selected lands.

(h) No filing fees are required. However, the applicant must pay one-half of the advertising cost.

§ 146.8 Approvals and appeals.

* * * * *

(b) In the event a protest is filed against an exchange application, a copy of the protest shall be sent to the exchange applicant and the applicant must show by positive and substantial evidence to the satisfaction of the authorized officer that the protest is without real merit and that the exchange is in the public interest. The withdrawal of a protest will not relieve the exchange applicant of the requirement of making the showing specified in this paragraph.

(c) An appeal pursuant to rules of practice, Part 221 of this chapter, may be taken from any decision of the authorized officer of the Bureau of Land Management.

FRED A. SEATON,
Secretary of the Interior.

JUNE 10, 1960.

[Docket Nos. AO-29-A11, AO-105-A13]

MILK IN DUBUQUE, IOWA, AND QUAD CITIES MARKETING AREAS

Notice of Extension of Time for Filing Briefs

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR Part 900) notice is hereby given that the time for filing briefs on the record of the public hearing held at Rock Island, Illinois, on May 5 and 6, 1960 with respect to proposed amendments to the tentative marketing agreements and to the orders regulating the handling of milk in the Dubuque, Iowa and Quad Cities, Iowa-Illinois, marketing areas, pursuant to notices issued March 7, 1960 (25 F.R. 2057; F.R. Doc. 60-2185) and March 30, 1960 (25 F.R. 2842; F.R. Doc. 60-3062) is hereby extended to July 1, 1960.

Dated: June 10, 1960, Washington, D.C.

F. R. BURKE,
Acting Deputy Administrator.

[Docket No. AO-299-A1]

MILK IN NORTHEASTERN WISCONSIN MARKETING AREA

Decision on Proposed Amendments to Tentative Marketing Agreement and to Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Marinette, Wisconsin, on March 7-9, 1960, pursuant to notice thereof issued on February 17, 1960 (25 F.R. 1521).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Agricultural Marketing Service, on May 20, 1960 (25 F.R. 4593) filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

The hearing, on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreement and to the order were formulated, was conducted at Marinette, Wisconsin, on March 7-9, 1960, pursuant to notice thereof issued February 17, 1960 (25 F.R. 1521).

At this hearing, evidence was received with respect to proposed amendments to the order regulating the handling of milk in the Michigan Upper Peninsula as well as to the order for the Northeastern Wisconsin marketing area. This decision will be restricted to issues relating to amendments proposed to the order for the Northeastern Wisconsin marketing area. Issues relating to amendments proposed to the order for the Michigan Upper Peninsula marketing area will be considered in a separate decision.

The material issues in the record of the hearing which concern the Northeastern Wisconsin order relate to:

1. Revision of marketing area boundaries.
2. The level of, and method of computing, the price for Class I milk.
3. Revision of the Class III price formula.
4. Modification of the class butterfat differentials.
5. Conditions for the diversion of milk to nonpool plants.
6. Revision of the classification and allocation provisions of the order.
7. Changes in the basis for qualifying supply plants as pool plants.
8. Extension to supply plants of the "Wichita plan" as an alternative to compensatory payments on nonpool milk.
9. Modification of the base-excess plan.
10. Provision of more than one reporting and accounting period per month on election of the handler.

Several proposed amendments to the Northeastern Wisconsin order, including a proposal for "individual-handler pools", contained in the notice of hearing were not supported at the hearing by the respective proponents, and in each instance testimony in support of such proposals was not offered by any other interested party. Such proposed amendments therefore are denied.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

(1) The Northeastern Wisconsin marketing area should be expanded to include Forest County, and that part of Oconto County (exclusive of the Menominee Indian Reservation) not now included in the area.

Expansion of the marketing area to the named territory was proposed by a handler who operates a supply plant. One of the distributing pool plants to which milk is shipped from proponent's supply plant is located in Forest County and another is located in Oconto County. Both such distributing plants are furnished a full supply from this supply plant. A substantial proportion of the Class I sales made from such distributing plants is sold in areas presently unregulated although there is substantial competition with milk bottled at other regulated distributing plants. Either of these distributing plants could lose pool status, however, since the percentages of Class I sales therefrom to the marketing area are close to the minimum required for pool status. In such event the supply plant would lose pool status also, and shipments from the supply plant to pool distributing plants would fall in the category of other source milk. In the circumstances, the loss of pool status by the supply plant, resulting in the application of compensatory payments at distributing plants which obtain their full supplies from such plant would not tend to promote orderly marketing conditions. The marketing area should be expanded to insure uniformity of pricing among competing plant operators.

It may be noted further that expansion of the area to include Forest County and the remainder of Oconto County will not bring under regulation any plants which are not regulated currently. No testimony was presented in opposition to the proposed expansion. It is concluded that the marketing area should be so enlarged.

At the hearing testimony was offered on other proposals to modify the marketing area. These proposals related to a proposed shift of territory from the Northeastern Wisconsin marketing area to the Michigan Upper Peninsula marketing area. The conclusions reached with respect to such proposals are set forth in detail in companion decision on this record relating to proposed amendments to the Michigan Upper Peninsula order. To accommodate the conclusions therein that the city of Menominee in Menominee County, Michigan, and the town of Peshtigo and the cities of Marinette and Peshtigo in Marinette County, Wisconsin, should be included in the Michigan Upper Peninsula marketing area, such territory should be deleted from the definition of the Northeastern Wisconsin marketing area. The effect of such change on the returns to Northeastern Wisconsin producers will not be significant. No objections to such a transfer of territory were raised by handlers or producers under the Northeastern Wisconsin order.

(2) The present Class I price differentials should be retained for another 18-month period.

Several proposed amendments to the Class I pricing provisions were offered for hearing. They related to the level and seasonality of price, the application of the basic price formula, and the location price specified for plants in Oneida County, Wisconsin.

During the first 15 months of the order, beginning with November 1, 1958, Northeastern Wisconsin producers supplied an adequate volume of milk to satisfy the Class I demands of the market. In this 15-month period the percentage relationship of Class I sales to receipts ranged from a low of about 64 percent in May 1959 to a high of approximately 89 percent in October 1959. For November and December 1958 and January 1959, Class I sales as a percentage of producer receipts were 80.9, 76.4, and 72.3 percent, respectively. During the corresponding months a year later, the percentages were 80.5, 75.5, and 68.9 percent, respectively. While Class I utilization in each of the latter three months was lower, as a percentage of producer receipts, than in the earlier period, the difference was so minor as to preclude any definite conclusion as to the effect of the present Class I price in changing the trend relationship between the supply of and demand for producer milk that has prevailed during the past year.

It is not apparent that the 36-cent higher price called for by certain of the price proposals offered is required to encourage an adequate supply of milk. It is quite possible that insufficient time has transpired since the effective date of the order for supply and demand to respond fully to the minimum Class I price level established by the order. In any case, there has been no indication of a deterioration of supply conditions. Therefore, the Class I price differentials now contained in the order should be retained for an additional 18-month period,

After a reasonable time has elapsed another hearing should be convened to consider any appropriate modification of the Class I price level on the basis of the additional supply and demand data then available.

The basic formula price is designed to reflect the farm price level of milk used by condenseries and that used in the manufacture of butter and nonfat dry milk solids, as a base for pricing milk for fluid use. A differential is added to the higher of the two prices for manufacturing milk to determine the appropriate Class I price. The higher of the condensery price or butter-nonfat dry milk solids price is also the Class II price for the month and the butter-nonfat dry milk solids price has been employed as the Class III price for the month.

Producer groups testified that the butter-nonfat dry milk solids formula no longer reflects the value of manufacturing grade milk produced in the milkshed for such uses. For reasons discussed below under issue number (3) 5.0 cents is added to this component of the basic price formula to improve the alignment of the Class III milk price with the current prices being paid at unregulated plants for ungraded milk in Class III uses.

The proposed change in the butter-nonfat dry milk solids component also would have affected the basic formula and Class I prices in two of the 15 months between November 1958 and January 1960, namely August and September 1959, and then to the extent of 1 and 7 cents, respectively. Although such a revision of the basic price formula would have only minor influence on the annual level of the Class I price, such effect would not be consistent with the finding that the Class I price formula should not be revised at this time. Therefore, the basic price formula has not been changed.

The order now provides Class I differentials which vary inversely with the seasonality of production. According to one proposal offered a uniform Class I differential would be applied in all months.

The seasonal variation of producer receipts is such that some price incentive to level production is warranted. For example, on a daily average basis, producer receipts during May 1959 were 148 percent of producer receipts during the preceding November. It is concluded that the seasonal Class I differentials should be retained as a continuing incentive to level production.

The minimum Class I price provided for plants located in Florence, Forest, Manitowoc and Oneida Counties, or in the county of Menominee, is 20 cents higher than [illegible]

cost involved in moving needed milk for Class I use from plants located in the more southerly portions of the milkshed. The principal economic circumstances that existed at the time of the promulgation and led to the adoption of a location price for Oneida County, have not changed so to warrant a reduction in the Class I price at plants in such county.

(3) The Class III price should be increased.

Under the order, the Class III price each month is the butter-nonfat dry milk price computed as one of the alternate parts of the basic price formula. It was proposed that the Class III price formula be modified to reflect more nearly the current value of milk used for butter and nonfat dry milk. During the past year the proposal would have increased the Class III price about 5 cents per hundredweight.

The butter-nonfat dry milk formula used for Class III pricing no longer reflects in a reasonable manner the value of producer milk for butter and nonfat dry milk manufacture within the Northeastern Wisconsin milkshed. The average price paid during 1959 for manufacturing grade milk containing 3.5 percent butterfat at 35 plants located in the Northeastern Wisconsin milkshed was $3.015. The average price paid for such milk received at several unregulated plants operated by a cooperative association operating as a handler under the order was $3.037, exclusive of any patronage dividend.

Producer milk used for butter and nonfat dry milk should be worth as much as ungraded milk for such uses, although in some cases it may not be possible to realize a net return from excess milk from the fluid market quite as great as from the manufacture of regular supplies of ungraded milk. When this condition prevails the price of Class III milk may reasonably be set at a slightly lower level than the pay prices for ungraded milk. In this instance, it is concluded that the Class III price should be increased somewhat at this time to improve the alignment of such class price with ungraded milk values. Proponents of a higher level of Class III prices alleged that an increase of 10–15 cents per hundredweight might be justified in present circumstances. However, they limited their request to an increase of about 5 cents per hundredweight. A 5.0 cent increase in the Class III price is considered reasonable at this time and is adopted with the limitation that the Class III price should not exceed the Class II price. If the Class III prices during 1960 had been determined pursuant to the amendment provided herein, the average price for the year would have been [illegible]

utilized in each class, i.e., product cost for items with less than 3.5 percent butterfat would be decreased and product cost for items with a higher than 3.5 percent butterfat content would be increased.

The butterfat test of producer milk delivered during 1959 averaged 3.69 percent. The butterfat test of Class I milk in the same period averaged 3.70 percent. This relationship reflects an excellent balance between the butterfat delivered by producers and that needed to satisfy Class I requirements. It is concluded, therefore, that the present butterfat differentials are working well and should not be changed at this time.

One cooperative association excepted vigorously to the failure of the recommended decision to adopt the hearing proposal for higher class butterfat differentials. The conclusion to continue present differentials in effect was reached in recognition of the relative values of skim milk and butterfat for their respective uses in each class. The substantially higher butterfat value called for by the proposal for Class II and Class III milk would exceed the level at which butterfat in producer milk is readily marketed for manufacture when not required for other class uses. On the other hand, skim milk in Class III would carry, under the proposal, a formula value less than that which may be obtained in the manufacturing milk market. The proposal also would result in a Class I skim milk value even less than that currently obtained from the Class III milk formula. In view of the relative importance of skim milk and butterfat to the total volume of Class I milk, it may not be concluded from this record that over a period of time producers as a whole would benefit from the proposal.

(5) The order should provide that milk to be diverted to a nonpool plant during each of the months of July through November should not exceed 10 days' production.

The order currently provides for the unlimited diversion of milk in any month. One producer group proposed that diversion be limited to 10 days during any month, and another proposed that unlimited diversion continue for the months of December through July but be limited to 50 percent of each producer's production during the months of August through November.

The privilege of unlimited diversion during the short production months tends to encourage handlers to add producers in excess of those needed to supply the Class I needs of the market and the necessary reserve. In this market, however, at least one handler operates his bottling plant on certain days of the [illegible]

ply for the purpose of pool riding. In view of daily variations in production, a 50 percent volume limitation would require more bookkeeping than a limitation based upon a specified number of days and therefore is not adopted.

No limitation should be placed upon diversion in other months. Because of the seasonal aspects of production and Class I sales, it may be expected that handlers with limited milk holding or processing facilities will find it necessary to divert milk to nonpool plants for manufacturing during the other months of the year. In many instances it would be more economical to divert the production of these farmers on all occasions when milk is not needed at the bottling plant.

(6) No change should be made in the classification of skim milk and butterfat used to produce "hard" cheese or with respect to milk received from a plant regulated under the terms of another Federal order. No change should be made in the "skim milk equivalent" method of classifying nonfat dry milk solids used in fortification. The provisions relating to the classification of transfers to nonpool plants should be clarified.

The order provides that skim milk and butterfat used to produce cheese, not including cottage cheese, shall be classified as Class III milk. It was proposed that skim milk and butterfat so used be reclassified to Class II milk. Proponent testified that milk of Northeastern Wisconsin producers is sold to cheese factories for prices higher than the present Class III price. It has been concluded previously that the Class III price should be increased in accordance with producers' proposal.

Producer receipts are allocated to Class I utilization before receipts from plants regulated under the terms of another Federal order. It was proposed that the Northeastern Wisconsin order be amended to provide that receipts of butterfat in cream from other Federal order plants receive prior allocation to Class I if priced under the terms of the other Federal order on a comparable basis with the Class I price for butterfat under the Northeastern Wisconsin order.

Northeastern Wisconsin producers have committed their facilities to produce a regular, dependable supply of milk for the Class I needs of the marketing area. Handlers import bulk cream from other markets only when there is insufficient milk available from producers. If the allocation provisions were amended as proposed, the net effect would be to give Class I to sources of cream which are not required or available on a regular basis rather than to

Another method was proposed, however, the effect of which would be not to include the water normally associated with such solids.

Nonfat solids may be obtained from producer milk as well as from nonfat dry milk or condensed skim milk. Neither the form in which, nor the source from which, such solids are obtained alter their value to the handler since those obtained from different sources may not be distinguished on the basis of cost of production, sanitary requirements or value to consumers. Since a lesser value cannot be ascribed to solids obtained from nonfat dry milk than to those obtained from producer milk, the order should not be amended to provide for pricing solids obtained from nonfat dry milk or condensed skim milk on a basis lower than the pricing of solids obtained from producer milk and similarly used. To compute volumes in the manner proposed for purposes of classification would have such result and therefore the proposal is denied.

The transfer provisions should be amended to clarify the basis for classifying transfers of skim milk and butterfat to nonpool plants. At least one handler operating a Northeastern Wisconsin pool plant also operates nonpool plants. During certain periods, when Northeastern Wisconsin producer milk is in excess of the needs of his pool plant, this operator has found it economical to transfer milk to a nonpool plant. In some cases the milk is separated and the cream or skim milk therefrom is transferred to a second or third nonpool plant for processing. It is possible to interpret the present transfer provisions so as to classify in Class I any transfers of skim milk or butterfat in fluid form made from the first to a subsequent nonpool plant, regardless of the ultimate utilization. In order to promote orderly marketing of temporary excess of producer milk, the order should specify that fluid skim milk and butterfat derived from producer milk which is received at the first nonpool plant and then transferred to a second or subsequent nonpool plant may be classified according to the use made at the last plant of receipt.

The order further provides that bulk transfers of milk to nonpool plants where milk is bottled shall be classified as Class I to the extent that fluid milk sales from the nonpool plant exceed receipts from those dairy farmers who constitute its regular source of Grade A milk supply. Such plants sometimes receive milk from plants under other Federal orders also. Classification as Class I of milk from Northeastern Wisconsin pool plants can result in duplication in the classification of milk received at the nonpool plant [illegible]

(7) The delivery requirements for pool plant status should be revised.

The order provides automatic pool status for certain supply-type plants during the months of December through July, i.e., a supply plant that is qualified under the minimum shipping requirements for each of the months of August through November may continue in status as a pool plant for each of the succeeding months of December through July. It was proposed that the order be amended to eliminate such automatic pool status for any supply plant. Pursuant to this proposal at least 50 percent of Grade A milk receipts from dairy farmers at the supply plant would have to be shipped to pool distributing plants each month of the year to insure pool status.

During those months of the year when the market is short of milk it is practical and expedient to provide a specific shipping requirement in order to determine whether supply plants are closely identified with the market and thus eligible to participate in the pool. In view of the varying seasonalities of production and demand, however, supply plants which have evidenced regular association with the market should not be required to ship large volumes of milk to distributing plants in order to maintain pool status throughout the year.

The months of August through November were selected originally as the months during which qualification for automatic status in other months of the year could be achieved. Such fall months were those for which it was expected that producer milk deliveries would be least in relation to Class I milk requirements. July also is a month in which milk supplies are relatively low in relation to Class I needs and such month should be included among those on which qualification for automatic status for December through June is based. This change, combined with the revised provisions for the diversion of milk and higher Class III price, should make it possible for the market to obtain sufficient supplies but at the same time mitigate opportunities for pool riding.

(8) The compensatory payment provisions applicable to milk received at a pool plant from nonpool supply plants and allocated to Class I should not be modified.

It was proposed that the handler have the option of paying to the pool either the compensatory payment rate specified in the order for each hundredweight of milk received from a nonpool supply plant and allocated to Class I, or the amount by which total payments to dairy farmers at the nonpool plant are less than the total value of the milk at such [illegible]

After a reasonable time has elapsed another hearing should be convened to consider any appropriate modification of the Class I price level on the basis of the additional supply and demand data then available.

The basic formula price is designed to reflect the farm price level of milk used by condenseries and that used in the manufacture of butter and nonfat dry milk solids, as a base for pricing milk for fluid use. A differential is added to the higher of the two prices for manufacturing milk to determine the appropriate Class I price. The higher of the condensery price or butter-nonfat dry milk solids price is also the Class II price for the month and the butter-nonfat dry milk solids price has been employed as the Class III price for the month.

Producer groups testified that the butter-nonfat dry milk solids formula no longer reflects the value of manufacturing grade milk produced in the milkshed for such uses. For reasons discussed below under issue number (3) 5.0 cents is added to this component of the basic price formula to improve the alignment of the Class III milk price with the current prices being paid at unregulated plants for ungraded milk in Class III uses.

The proposed change in the butter-nonfat dry milk solids component also would have affected the basic formula and Class I prices in two of the 15 months between November 1958 and January 1960, namely August and September 1959, and then to the extent of 1 and 7 cents, respectively. Although such a revision of the basic price formula would have only minor influence on the annual level of the Class I price, such effect would not be consistent with the finding that the Class I price formula should not be revised at this time. Therefore, the basic price formula has not been changed.

The order now provides Class I differentials which vary inversely with the seasonality of production. According to one proposal offered a uniform Class I differential would be applied in all months.

The seasonal variation of producer receipts is such that some price incentive to level production is warranted. For example, on a daily average basis, producer receipts during May 1959 were 148 percent of producer receipts during the preceding November. It is concluded that the seasonal Class I differentials should be retained as a continuing incentive to level production.

The minimum Class I price provided for plants located in Florence, Forest, Marinette and Oneida Counties, or in the State of Michigan, is 10 cents higher than at plants located elsewhere in the marketing area. It was proposed that the Class I price at plants in Oneida County be reduced 10 cents per hundredweight.

When the Northeastern Wisconsin order was promulgated, Oneida County was included in the higher Class I price zone in recognition of the less intensive milk production in that county as compared with most other counties to the south and, accordingly, to recognize the cost involved in moving needed milk for Class I use from plants located in the more southerly portions of the milkshed. The principal economic circumstances that existed at the time of the promulgation and led to the adoption of a location price for Oneida County, have not changed so to warrant a reduction in the Class I price at plants in such county.

(3) The Class III price should be increased.

Under the order, the Class III price each month is the butter-nonfat dry milk price computed as one of the alternate parts of the basic price formula. It was proposed that the Class III price formula be modified to reflect more nearly the current value of milk used for butter and nonfat dry milk. During the past year the proposal would have increased the Class III price about 5 cents per hundredweight.

The butter-nonfat dry milk formula used for Class III pricing no longer reflects in a reasonable manner the value of producer milk for butter and nonfat dry milk manufacture within the Northeastern Wisconsin milkshed. The average price paid during 1959 for manufacturing grade milk containing 3.5 percent butterfat at 35 plants located in the Northeastern Wisconsin milkshed was $3.015. The average price paid for such milk received at several unregulated plants operated by a cooperative association operating as a handler under the order was $3.037, exclusive of any patronage dividend.

Producer milk used for butter and nonfat dry milk should be worth as much as ungraded milk for such uses, although in some cases it may not be possible to realize a net return from excess milk from the fluid market quite as great as from the manufacture of regular supplies of ungraded milk. When this condition prevails the price of Class III milk may reasonably be set at a slightly lower level than the pay prices for ungraded milk. In this instance, it is concluded that the Class III price should be increased somewhat at this time to improve the alignment of such class price with ungraded milk values. Proponents of a higher level of Class III prices alleged that an increase of 10–15 cents per hundredweight might be justified in present circumstances. However, they limited their request to an increase of about 5 cents per hundredweight. A 5.0 cent increase in the Class III price is considered reasonable at this time and is adopted with the limitation that the Class III price should not exceed the Class II price. If the Class III prices during 1959 had been determined pursuant to the amendment provided herein, the average price for the year would have been approximately $2.93.

(4) No change should be made in the method of computing class butterfat differentials.

A producer association proposed that the multiplier used in computing the Class I butterfat differential be increased from 0.125 to 0.140, and that used in computing the Class II and Class III differentials from 0.115 to 0.122. The proposal would result in a reapportionment of the values of skim milk and butterfat utilized in each class, i.e., product cost for items with less than 3.5 percent butterfat would be decreased and product cost for items with a higher than 3.5 percent butterfat content would be increased.

The butterfat test of producer milk delivered during 1959 averaged 3.69 percent. The butterfat test of Class I milk in the same period averaged 3.70 percent. This relationship reflects an excellent balance between the butterfat delivered by producers and that needed to satisfy Class I requirements. It is concluded, therefore, that the present butterfat differentials are working well and should not be changed at this time.

One cooperative association excepted vigorously to the failure of the recommended decision to adopt the hearing proposal for higher class butterfat differentials. The conclusion to continue present differentials in effect was reached in recognition of the relative values of skim milk and butterfat for their respective uses in each class. The substantially higher butterfat value called for by the proposal for Class II and Class III milk would exceed the level at which butterfat in producer milk is readily marketed for manufacture when not required for other class uses. On the other hand, skim milk in Class III would carry, under the proposal, a formula value less than that which may be obtained in the manufacturing milk market. The proposal also would result in a Class I skim milk value even less than that currently obtained from the Class III milk formula. In view of the relative importance of skim milk and butterfat to the total volume of Class I milk, it may not be concluded from this record that over a period of time producers as a whole would benefit from the proposal.

(5) The order should provide that milk to be diverted to a nonpool plant during each of the months of July through November should not exceed 10 days' production.

The order currently provides for the unlimited diversion of milk in any month. One producer group proposed that diversion be limited to 10 days during any month, and another proposed that unlimited diversion continue for the months of December through July but be limited to 50 percent of each producer's production during the months of August through November.

The privilege of unlimited diversion during the short production months tends to encourage handlers to add producers in excess of those needed to supply the Class I needs of the market and the necessary reserve. In this market, however, at least one handler operates his bottling plant on certain days of the week only. Such handler, therefore, does not require the production of each producer on a daily basis. Some production not needed by bottling plants must be diverted to nonpool plants for manufacture in the August-November period as well as at other times of the year when milk is more plentiful seasonally. Under these circumstances a diversion limitation of 10 days' production in the fall months will accommodate the procurement practices of handlers and tend to prevent the addition of producers simply for the purpose of pool riding. In view of daily variations in production, a 50 percent volume limitation would require more bookkeeping than a limitation based upon a specified number of days and therefore is not adopted.

No limitation should be placed upon diversion in other months. Because of the seasonal aspects of production and Class I sales, it may be expected that handlers with limited milk holding or processing facilities will find it necessary to divert milk to nonpool plants for manufacturing during the other months of the year. In many instances it would be more economical to divert the production of these farmers on all occasions when milk is not needed at the bottling plant.

(6) No change should be made in the classification of skim milk and butterfat used to produce "hard" cheese or with respect to milk received from a plant regulated under the terms of another Federal order. No change should be made in the "skim milk equivalent" method of classifying nonfat dry milk solids used in fortification. The provisions relating to the classification of transfers to nonpool plants should be clarified.

The order provides that skim milk and butterfat used to produce cheese, not including cottage cheese, shall be classified as Class III milk. It was proposed that skim milk and butterfat so used be reclassified to Class II milk. Proponent testified that milk of Northeastern Wisconsin producers is sold to cheese factories for prices higher than the present Class III price. It has been concluded previously that the Class III price should be increased in accordance with producers' proposal.

Producer receipts are allocated to Class I utilization before receipts from plants regulated under the terms of another Federal order. It was proposed that the Northeastern Wisconsin order be amended to provide that receipts of butterfat in cream from other Federal order plants receive prior allocation to Class I if priced under the terms of the other Federal order on a comparable basis with the Class I price for butterfat under the Northeastern Wisconsin order.

Northeastern Wisconsin producers have committed their facilities to produce a regular, dependable supply of milk for the Class I needs of the marketing area. Handlers import bulk cream from other markets only when there is insufficient milk available from producers. If the allocation provisions were amended as proposed, the net effect would be to give Class I to sources of cream which are not required or available on a regular basis rather than to those producers who constitute the main source of milk for fluid milk as well as milk for fluid cream. The proposal would not tend to promote orderly marketing conditions for producers and therefore is denied.

The order provides that in the event nonfat dry milk solids are utilized by handlers in producing other products, the pounds computed for classification purposes shall be the "skim milk equivalent" of the nonfat dry milk solids. Another method was proposed, however, the effect of which would be not to include the water normally associated with such solids.

Nonfat solids may be obtained from producer milk as well as from nonfat dry milk or condensed skim milk. Neither the form in which, nor the source from which, such solids are obtained alter their value to the handler since those obtained from different sources may not be distinguished on the basis of cost of production, sanitary requirements or value to consumers. Since a lesser value cannot be ascribed to solids obtained from nonfat dry milk than to those obtained from producer milk, the order should not be amended to provide for pricing solids obtained from nonfat dry milk or condensed skim milk on a basis lower than the pricing of solids obtained from producer milk and similarly used. To compute volumes in the manner proposed for purposes of classification would have such result and therefore the proposal is denied.

The transfer provisions should be amended to clarify the basis for classifying transfers of skim milk and butterfat to nonpool plants. At least one handler operating a Northeastern Wisconsin pool plant also operates nonpool plants. During certain periods, when Northeastern Wisconsin producer milk is in excess of the needs of his pool plant, this operator has found it economical to transfer milk to a nonpool plant. In some cases the milk is separated and the cream or skim milk therefrom is transferred to a second or third nonpool plant for processing. It is possible to interpret the present transfer provisions so as to classify in Class I any transfers of skim milk or butterfat in fluid form made from the first to a subsequent nonpool plant, regardless of the ultimate utilization. In order to promote orderly marketing of temporary excess of producer milk, the order should specify that fluid skim milk and butterfat derived from producer milk which is received at the first nonpool plant and then transferred to a second or subsequent nonpool plant may be classified according to the use made at the last plant of receipt.

The order further provides that bulk transfers of milk to nonpool plants where milk is bottled shall be classified as Class I to the extent that fluid milk sales from the nonpool plant exceed receipts from those dairy farmers who constitute its regular source of Grade A milk supply. Such plants sometimes receive milk from plants under other Federal orders also. Classification as Class I of milk from Northeastern Wisconsin pool plants can result in duplication in the classification of milk received at the nonpool plant from plants regulated by more than one Federal order. Therefore, the amount of bulk milk moved to such plant and classified as Class I milk from this market should be the market's pro rata share of the available Class I sales remaining after assigning such sales first to Grade A receipts from regular dairy farmers. This will provide a reasonable basis for assigning Class I milk among regulated markets in the case of movements to a common nonpool plant.

(7) The delivery requirements for pool plant status should be revised.

The order provides automatic pool status for certain supply-type plants during the months of December through July, i.e., a supply plant that is qualified under the minimum shipping requirements for each of the months of August through November may continue in status as a pool plant for each of the succeeding months of December through July. It was proposed that the order be amended to eliminate such automatic pool status for any supply plant. Pursuant to this proposal at least 50 percent of Grade A milk receipts from dairy farmers at the supply plant would have to be shipped to pool distributing plants each month of the year to insure pool status.

During those months of the year when the market is short of milk it is practical and expedient to provide a specific shipping requirement in order to determine whether supply plants are closely identified with the market and thus eligible to participate in the pool. In view of the varying seasonalities of production and demand, however, supply plants which have evidenced regular association with the market should not be required to ship large volumes of milk to distributing plants in order to maintain pool status throughout the year.

The months of August through November were selected originally as the months during which qualification for automatic status in other months of the year could be achieved. Such fall months were those for which it was expected that producer milk deliveries would be least in relation to Class I milk requirements. July also is a month in which milk supplies are relatively low in relation to Class I needs and such month should be included among those on which qualification for automatic status for December through June is based. This change, combined with the revised provisions for the diversion of milk and higher Class III price, should make it possible for the market to obtain sufficient supplies but at the same time mitigate opportunities for pool riding.

(8) The compensatory payment provisions applicable to milk received at a pool plant from nonpool supply plants and allocated to Class I should not be modified.

It was proposed that the handler have the option of paying to the pool either the compensatory payment rate specified in the order for each hundredweight of milk received from a nonpool supply plant and allocated to Class I, or the amount by which total payments to dairy farmers at the nonpool plant are less than the total value of the milk at such plant computed on the basis of the classification and pricing provisions applicable at pool plants. The proponent handler operates a pool plant from which milk is supplied to several pool distributing plants. It was testified that should such plant fail to qualify under the 50 percent shipping requirement in the fall months, the proposed amendment would reduce the impact of subsequent nonpool status.

south and, accordingly, to recognize the

of the values of skim milk and butterfat

to prevent the addition of producers sim-

The proponent handler undoubtedly can insure pool status for his supply plant during each of the months of July, August, September, October and November, i.e., he is in a position to rearrange his procurement practices whenever it appears that his receipts of Grade A milk from dairy farmers may be more than twice his monthly shipments to pool distributing plants. If adopted as proposed the amendment would encourage operators of supply plants to associate plants with the Northeastern Wisconsin market on an opportunity basis rather than as a regular, dependable source of supply. There was no other testimony in support of such a provision.

(9) The order should not provide a base-excess plan.

Three cooperative associations, together representing approximately 25 percent of the producers who deliver milk to Northeastern Wisconsin pool plants, proposed the adoption of base-excess provisions for making payment to producers. At present the producer members of the proponent associations are being paid pursuant to voluntary base-excess plans similar to the plan applicable to milk of other members whose milk is delivered to Chicago order plants. A fourth cooperative association, representing about 30 percent of producers delivering to Northeastern pool plants, opposed base-excess payment provisions.

Because the order has been in effect such a relatively short period, however, insufficient data are available to permit detailed analysis as to the reasons for the relatively favorable seasonality of deliveries to the Northeastern Wisconsin market. Since there is no unanimity of opinion or support among producers for the base-excess plan and because the seasonality of Class I price differentials provided will assist to promote a desirable seasonal production pattern and also tend to keep prices adjusted in relation to those of Chicago producers, it is concluded that a base-excess plan is not warranted at this time.

(10) The order should provide for only one reporting period a month.

A handler proposed that the order provide the option of more than one reporting and accounting period within a month. It was testified that the presence of such a provision would make less costly any change in method of procurement adopted by the handler during rather than at the beginning of a given month, since milk classification and allocation would be determined separately on milk received prior to the change in source of milk supply and on that received after the change.

The proponent handler was the only handler who had experienced any problem of this kind. He testified that he is not likely to encounter such difficulty in the future. No other interested party supported the proposal. The proposed amendment therefore is not considered necessary at this time as a means of promoting orderly marketing.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties in the market. These briefs, proposed findings and conclusions, and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to Section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings on exceptions. In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in the Northeastern Wisconsin Marketing Area", and "Order Amending the Order Regulating the Handling of Milk in the Northeastern Wisconsin Marketing Area", which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which will be published with this decision.

Referendum Order, Determination of Representative Period, and Designation of Referendum Agent

It is hereby directed that a referendum be conducted to determine whether the issuance of the attached order amending the order regulating the handling of milk in the Northeastern Wisconsin marketing area, is approved or favored by the producers, as defined under the terms of the order, as hereby proposed to be amended, who, during the representative period, were engaged in the production of milk for sale within the aforesaid marketing area.

The month of April 1960 is hereby determined to be the representative period for the conduct of such referendum.

John D. Nord is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders (15 F.R. 5177), such referendum to be completed on or before the 30th day from the date this decision is issued.

Issued at Washington, D.C., this 10th day of June 1960.

CLARENCE L. MILLER,
Assistant Secretary.

Order[1] Amending the Order Regulating the Handling of Milk in the Northeastern Wisconsin Marketing Area

§ 1016.0 Findings and determination.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Northeastern Wisconsin marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order as hereby amended regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(4) All milk and milk products handled by handlers, as defined in the order as hereby amended, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, 5 cents per hundredweight or such amount not to exceed 5 cents per hundredweight as the Secretary may prescribe with respect to (a) all receipts within the month of milk from producers, including milk of such handler's own production; (b) any other source milk allocated to Class I pursuant to § 1016.46(b) and the corresponding step of § 1016.47, and (c) the applicable amount specified in § 1016.83 (a)(2) or (b)(2).

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Northeastern Wisconsin marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended and the aforesaid order is hereby amended as follows:

1. Delete § 1016.5 (e), (f) and (h); delete the word "and" and replace the semicolon with a period, both at the end of § 1016.5(g); renumber such paragraph (g) as (f); and add immediately prior thereto a new paragraph (e) as follows:

(e) Forest County and Oconto County (exclusive of the Menominee Indian Reservation), Wisconsin; and

2. Delete from § 1016.8(b) the word "August" and substitute "July"; delete from the same paragraph the word "July" and substitute "June".

3. Substitute a colon for the period at the end of the second sentence in § 1016.10(g) and add the following proviso: "*Provided,* That for each of the months of July through November diversion of the milk of any such person shall be limited to 10 days (5 days in the case of every-other-day delivery)."

4. Delete § 1016.43(c) and substitute therefor the following:

(c) A nonpool plant (except as specified in paragraph (b) of this section) shall be Class I utilization, unless the following conditions and the conditions of paragraph (d) of this section are met:

(1) Utilization in another class is claimed by the transferor-handler in his report submitted pursuant to § 1016.30 for the month;

(2) The operator of the nonpool plant has utilization of an equivalent amount of skim milk and butterfat remaining in the class of use claimed in subparagraph (1) of this paragraph after the prior deduction in sequence beginning with the lowest-priced available class of use of any receipts thereat during the month of skim milk or butterfat, respectively, from plants not regulated under the provisions of any Federal marketing agreement or order; and

(3) The operator of the nonpool plant maintains books and records which are adequate for the verification of such utilization and are made available if requested by the market administrator.

(d) The classification of any skim milk or butterfat for which a claim of use is made under paragraph (c)(1) of this section shall be subject to the following further conditions:

(1) If any skim milk or butterfat was disposed of from the nonpool plant in the form of bulk milk, skim milk, or cream to another nonpool plant(s), the market administrator shall determine the classification of such skim milk or butterfat at the nonpool plant where actually used or processed when necessary to support a claim made pursuant to paragraph (c)(1) of this section;

(2) If Class I utilization at any nonpool plant at which classification of the pooled milk is made exceeds the receipts during the month from dairy farmers who constitute its regular source of Grade A milk, the transferred quantity shall be Class I to the extent of such excess: *Provided,* That (i) when, during the month, transfers to such nonpool plant have been made from regulated plants under more than one Federal marketing agreement or order, the amount of skim milk or butterfat so classified as Class I milk shall be a pro rata quantity based on the proportion of receipts at the nonpool plant from each of such regulated plants, and (ii) any amount of pooled milk remaining after the computation in (i) of this proviso shall be assigned in sequence to the available uses in the class claimed and any balance to the remaining uses in the noonpool plant; and

(3) If Class I utilization at any nonpool plant at which classification of the pooled milk is made does not exceed the receipts during the month from dairy farmers who constitute its regular source of Grade A milk, the transferred quantity which is in excess of the available uses in the class claimed under paragraph (c)(1) of this section shall be classified in other classses in sequence beginning with the next lowest-priced available class of use.

5. Delete from the introductory portion of § 1016.51 the phrase "during the 18 month period following the effective date of this part shall be" and substitute therefor the phrase "shall be as follows during the period through November 1961".

6. In § 1016.50(b)(2) delete the words "delivery period" wherever they appear therein and substitute therefor the word "month".

7. Add the following after the cross-reference "§ 1016.50(b)" at the end of § 1016.53: "plus 5 cents: *Provided,* That the resulting price shall not be higher than the Class II price."

[F.R. Doc. 60-5527; Filed, June 15, 1960; 8:52 a.m.]

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 18]

[Docket No. 13511]

INDUSTRIAL, SCIENTIFIC, AND MEDICAL SERVICE

Order Extending Time for Filing Comments

The Commission has before it for consideration requests from the Industrial Heating Equipment Association and the General Electric Company to extend the time for filing comments in the above proceeding to July 15, 1960.

It appearing that additional time is required to permit study and preparation of statements by member manufacturers of the Industrial Heating Equipment Association, and that additional time is required by the General Electric Company to evaluate the impact of the proposed rules on the Company as a supplier of industrial heating equipment and a user of such equipment in many of its 167 plants; and

It further appearing that the public interest will be served by providing additional time to enable interested parties to submit comments and reply comments;

It is ordered, This 10th day of June 1960, pursuant to section 0.322(b) of the Commission's Statement of Delegations of Authority, That the time for filing comments in this proceeding is extended to July 15, 1960, and the time for filing reply comments is extended to July 25, 1960.

Released: June 10, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 60-5524; Filed, June 15, 1960; 8:52 a.m.]

SMALL BUSINESS ADMINISTRATION

[13 CFR Part 107]

SMALL BUSINESS INVESTMENT COMPANIES

Notice of Proposed Rule Making

Notice is hereby given that pursuant to the authority contained in section 308, Pub. Law 85-699, 72 Stat. 694, it is proposed to amend, as set forth below, §§ 107.301-1(b), 107.302-2, 107.304-1(b), 107.305-1(b), and 107.308-7 of Part 107

of Subchapter B, Chapter I of Title 13 of the Code of Federal Regulations.

Part 107, Subchapter B, Title 13 of the Code of Federal Regulations governing the establishment and operation of small business investment companies chartered or licensed by the Small Business Administration to operate under the Small Business Investment Act of 1958, and to carry out the provisions of said Act, was published in the FEDERAL REGISTER of December 4, 1958 (23 F.R. 9383), and became effective upon publication in the FEDERAL REGISTER.

Prior to final adoption of the amendments set forth below, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in triplicate, to the Small Business Investment Division, Small Business Administration, Washington 25, D.C., within a period of 20 days from the date of publication of this notice in the FEDERAL REGISTER.

The amendments under consideration change the provisions of the present § 107.301–1(b) relating to the issue of stock by eliminating the cash limitation.

The proposed amendment of § 107.302–2 will permit small business investment companies to issue stock for considerations other than cash and to grant stock options. This subject was previously published for comment in the FEDERAL REGISTER on February 20, 1960, 25 F.R. 1928.

The proposed amendment of §§ 107.304–1(b) and 107.305–1(b) emphasizes the requirement of long-term debentures and loans.

The proposed amendment of § 107.308–7 emphasizes the requirement that the paid-in capital and paid-in surplus of a Licensee shall not be voluntarily reduced below that existing at the time of the issuance of its License.

It is proposed to amend the Small Business Investment Companies Regulation as follows:

The Small Business Investment Companies Regulation (23 F.R. 9383) as amended (25 F.R. 1397, 2384, 3316) is hereby further amended by:

§ 107.301–1 [Amendment]

1. Section 107.301–1(b) is amended to read as follows:

(b) To issue a maximum number of shares of one or more types of its stock.

2. Section 107.302–2 is amended to read as follows:

§ 107.302–2 Consideration for stock of Licensee.

(a) Shares of stock of any class in a Licensee which represent the initial minimum capital required by § 107.201–5(c) shall be issued by Licensee only in consideration for the simultaneous payment of cash or upon the simultaneous transfer to the Licensee of direct obligations of, or obligations guaranteed as to principal and interest by, the United States. Shares of stock of any class in a Licensee which represent no part of the initial minimum capital required by § 107.201–5(c) may be issued in consideration for the simultaneous payment of cash; upon the simultaneous transfer to the Licensee of direct obligations of, or obligations guaranteed as to principal and interest by, the United States; as stock dividends; in connection with the reclassification of the stock of the Licensee; for services previously rendered to the Licensee; or for physical assets to be employed currently in the operation of the Licensee.

(b) Options upon the stock of a Licensee may be granted to an individual only upon approval of at least a majority of such Licensee's stockholders and only in lieu of salary or in payment for services actually rendered such Licensee, and only if:

(1) At the time such option is granted the option price is at least 85 percent of the fair market value at such time of the stock subject to the option;

(2) Such option by its terms is not transferable by such individual otherwise than by will or the laws of descent and distribution, and is exercisable, during his lifetime, only by him;

(3) Such individual, at the time the option is granted, does not own stock possessing more than 10 percent of the total combined voting power of all classes of stock of such Licensee. This subparagraph shall not apply if at the time such option is granted the option price is at least 110 percent of the fair market value of the stock subject to the option and such option by its terms is not exercisable after the expiration of five years from the date such option is granted. For purposes of this subparagraph—

(i) Such individual shall be considered as owning the stock owned, directly or indirectly, by or for his brothers and sisters (whether by the whole or half blood), spouse, ancestors, and lineal descendants; and

(ii) Stock owned, directly or indirectly, by or for a corporation, partnership, estate, or trust, shall be considered as being owned proportionately by or for its shareholders, partners, or beneficiaries; and

(4) Such option by its terms is not exercisable after the expiration of ten years from the date such option is granted.

§ 107.304–1 [Amendment]

3. Section 107.304–1(b) is amended to read as follows:

(b) All such convertible debentures shall have stated maturities of not less than five years and no Licensee shall purchase convertible debentures from a small business concern if the purpose of such purchase is to furnish the small business concern with financing of less than five years' duration. All such debentures shall be callable by the issuer on any interest payment date upon three months' notice, at the face value thereof plus accrued interest thereon, and shall contain an option for the original holder or any holder in due course thereof, to convert the same into stock of the small business concern, at any time up to and including the effective date of any call thereof by the small business concern.

§ 107.305–1 [Amendment]

4. Section 107.305–1(b) is amended to read as follows:

(b) Any such loan made by a Licensee to a small business concern shall provide for a maturity of not less than five years and no Licensee shall make a loan to any small business concern if the purpose of such loan is to furnish the small business concern with financing of less than five years' duration: *Provided, however*, That loans for terms of less than five years may be made to a borrower which has previously received a long-term loan or has outstanding convertible debentures to such Licensee, when necessary to protect the interests of a Licensee in such long-term loan or outstanding convertible debentures.

§ 107.308–7 [Amendment]

5. Section 107.308–7(c) is amended to read as follows:

(c) A Licensee shall not voluntarily reduce its paid-in capital and paid-in surplus as it existed at the time of the issuance of its License, without the prior written consent of SBA, and a Licensee shall not change its investment policy, plans to raise additional capital, borrowing or other plans, previously submitted to SBA in its Proposal or otherwise, without the prior written consent of SBA. Any change in the officers, directors or owners of ten or more percent of its stock, as set forth in its Proposal or otherwise previously submitted to SBA, shall be reported immediately to SBA; and such changes shall be subject to the approval of SBA as a condition for the continuance of the License of such Licensee. Any conditions imposed by SBA in connection with the latter shall be complied with by the Licensee.

Dated: June 9, 1960.

PHILIP MCCALLUM,
Administrator.

[F.R. Doc. 60–5499; Filed, June 15, 1960; 8:48 a.m.]

Notices

DEPARTMENT OF THE TREASURY

Bureau of Customs

[412.1]

NATURAL CAROTENE CONCENTRATE

Tariff Classification

JUNE 9, 1960.

The Bureau of Customs published a notice in the FEDERAL REGISTER dated April 29, 1960 (25 F.R. 3766), that the existing uniform and established practice of classifying natural carotene concentrate as a drug, natural and uncompounded, not edible, not specially provided for, but advanced in condition or value, under paragraph 34, Tariff Act of 1930, with duty at the reduced rate of 5 percent ad valorem under that paragraph, as modified, was under review.

The Bureau, in a letter of June 9, 1960, addressed to the collector of customs, New York, New York, ruled that such merchandise was classifiable as a chemical compound, not specially provided for, under paragraph 5 of the tariff act and dutiable at the reduced rate of 10½ percent ad valorem under that paragraph, as modified.

Insofar as this decision results in the assessment of a duty at a rate higher than that which has been heretofore assessed under a uniform and established practice, it shall apply only with respect to such or similar merchandise entered, or withdrawn from warehouse, for consumption after 90 days after the date of publication of an abstract of this decision in the weekly Treasury Decisions.

[SEAL] D. B. STRUBINGER,
Acting Commissioner of Customs.

ATOMIC ENERGY COMMISSION

[Docket No. 50–163]

GENERAL DYNAMICS CORP.

Notice of Proposed Issuance of Construction Permit and Facility License

Please take notice that the Atomic Energy Commission proposes to issue a construction permit, substantially as set forth below, authorizing General Dynamics Corporation to construct a TRIGA type nuclear reactor designated by the application as the FLAIR unless within fifteen days after the filing of this notice with the Office of the Federal Register a request for a formal hearing is filed with the Commission as provided by the Commission's rules of practice (10 CFR Part 2). Petitions for leave to intervene shall be filed by mailing a copy to the Office of the Secretary, Atomic Energy Commission, Washington 25, D.C., or by delivery of a copy in person to the Office of the Secretary, Germantown, Maryland, or the AEC's Public Document Room, 1717 H Street, Washington, D.C. Notice is also hereby given that if the Commission issues the construction permit, the Commission may without further prior public notice convert the construction permit to a Class 104 license authorizing operation of the reactor by General Dynamics Corporation if it is found that construction of the reactor has been completed in compliance with the terms and conditions contained in the construction permit and that the reactor authorized has been constructed and will operate in conformity with the application and the provisions of the Atomic Energy Act of 1954, as amended, and of the rules and regulations of the Commission, and in the absence of any good cause being shown to the Commission why the granting of such license would not be in accordance with the provisions of the Act. Upon the conversion of the construction permit to a Class 104 license, notice of issuance of said license will be published in the FEDERAL REGISTER and a period of thirty days will be provided within which a request for a formal hearing may be filed with the Commission with respect to the issuance of said license. For further details see (1) the application submitted by General Dynamics Corporation and amendments thereto, and (2) a hazards analysis prepared by the Hazards Evaluation Branch, Division of Licensing and Regulation, both on file at the AEC's Public Document Room, 1717 H Street NW., Washington, D.C. A copy of item (2) above may be obtained at the AEC's Public Document Room or upon request addressed to the Atomic Energy Commission, Washington 25, D.C., Attention: Director, Division of Licensing and Regulation.

Dated at Germantown, Md., this 10th day of June, 1960.

For the Atomic Energy Commission.

R. L. KIRK,
Deputy Director, Division of Licensing and Regulation.

PROPOSED CONSTRUCTION PERMIT

1. By application dated March 1, 1960, and amendments thereto dated April 5, 1960, and May 3, 1960 (hereinafter collectively referred to as "the application"), General Dynamics Corporation requested a Class 104 license, defined in § 50.21 of Part 50, "Licensing of Production and Utilization Facilities", Title 10, Chapter I, CFR (hereinafter referred to as "Part 50"), authorizing construction and operation on the applicant's site at Torrey Pines Mesa, California, of a TRIGA-type nuclear reactor designated by the applicant as the FLAIR (hereinafter referred to as "the reactor").

2. The Atomic Energy Commission (hereinafter referred to as "the Commission") finds that:

A. The reactor will be a utilization facility as defined in the Commission's regulations contained in Part 50;

B. The reactor will be used in the conduct of research and development activities of the types specified in section 31 of the Atomic Energy Act of 1954, as amended (hereinafter referred to as "the Act");

C. General Dynamics Corporation is financially qualified to construct and operate the reactor in accordance with the regulations contained in Title 10, Chapter I, CFR, to assume financial responsibility for the payment of Commission charges for special nuclear material and to undertake and carry out the proposed use of such material for a reasonable period of time;

D. General Dynamics Corporation is technically qualified to design, construct and operate the reactor;

E. General Dynamics Corporation has submitted sufficient information to provide reasonable assurance that the reactor can be constructed and operated at the proposed location without undue risk to the health and safety of the public; and,

F. The issuance of a construction permit to General Dynamics Corporation will not be inimical to the common defense and security or to the health and safety of the public.

3. Pursuant to the Act and Part 50, the Commission hereby issues a construction permit to General Dynamics Corporation to construct the reactor in accordance with the application. This permit shall be deemed to contain and be subject to the conditions specified in §§ 50.54 and 50.55 of said regulations; is subject to all applicable provisions of the Act and rules, regulations, and orders of the Commission now or hereafter in effect; and is subject to the additional conditions specified below:

A. The earliest completion date of the facility is June 30, 1960. The latest completion date of the facility is September 1, 1960. The term "completion date", as used herein, means the date on which construction of the facility is completed except for the introduction of the fuel material.

B. The reactor shall be constructed and located at the location near Torrey Pines Mesa, California, specified in the application.

4. Upon completion (as defined in paragraph "3A" above) of the construction of the reactor in accordance with the terms and conditions of this permit, and upon finding that the facility authorized has been constructed and will operate in conformity with the application and the provisions of the Act and of the rules and regulations of the Commission, and in the absence of any good cause being shown to the Commission why the granting of a license would not be in accordance with the provisions of the Act, the Commission will issue a Class 104 license to General Dynamics Corporation pursuant to section 104c of the Act, which license shall expire ten years after the date of its issuance.

For the Atomic Energy Commission.

DEPARTMENT OF COMMERCE

Federal Maritime Board

LYKES BROS. STEAMSHIP CO., INC., ET AL.

Notice of Agreements for Approval

Notice is hereby given that the following described agreements have been filed

with the Board for approval pursuant to section 15 of the Shipping Act, 1916 (39 Stat. 733, 46 U.S.C. 814):

(1) Agreement No. 8459, between Lykes Bros. Steamship Co., Inc., and Kvarnerska Pomoraka Plovidba, covers the establishment and maintenance of agreed rates, charges classifications and related tariff matters in the westbound trade from Mediterranean and Adriatic ports to U.S. South Atlantic and Gulf ports.

(2) Agreement No. 8461, between Lykes Bros. Steamship Co., Inc., and The Ben Line Steamers Ltd., covers a through billing arrangement on cargo from U.S. Gulf ports to Bangkok, Thailand, with transshipment at Singapore.

(3) Agreement No. 8485, between American Mail Line Ltd., American President Lines, Ltd., and Pacific Far East Line, Inc., provides for the appointment of a coordinating committee of representatives of each of these companies, to prepare a study and make recommendations for further cooperation between the companies in order to effect economies and more efficient operations in their Trans-Pacific services.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D.C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to any of these agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: June 13, 1960.

By order of the Federal Maritime Board.

JAMES L. PIMPER,
Secretary.

Maritime Administration

TRADE ROUTE 13

Notice of Conclusions and Determinations Regarding Modification of Essentiality and United States Flag Requirements

Notice is hereby given that on June 8, 1960, the Acting Maritime Administrator, acting pursuant to section 211 of the Merchant Marine Act, 1936, as amended, found and determined that passenger service between United States South Atlantic ports (North Carolina-Atlantic Coast Florida, to but not including Key West) and ports in the Mediterranean on Trade Route No. 13 by passenger vessels operating on Trade Route No. 10, is essential to the promotion, development, expansion and maintenance of the foreign commerce of the United States.

Dated: June 13, 1960.

By order of the Acting Maritime Administrator.

JAMES L. PIMPER,
Secretary.

[Dept. Order 90 (Revised), Amdt. 2]

NATIONAL BUREAU OF STANDARDS

Organization and Functions

The material appearing at 24 F.R. 1812-1813 of March 12, 1959 and 25 F.R. 2068 of March 10, 1960 is amended as follows:

The purpose of this amendment is to reflect necessary changes in program emphasis in the organizations of the Associate Director for Physics and the Associate Director for the Boulder Laboratories respectively.

Accordingly, Amednment No. 1 of February 26, 1960 to Department Order No. 90 (Revised) is hereby superseded; and section 2.02, subsections 2, 3 and 4, is amended to read as follows:

SEC. 2. *Organization.*

* * * * *

2. Scientific divisions in Washington, D.C.:

Electricity.
Metrology.
Heat.
Radiation Physics.
Chemistry.
Mechanics.
Organic and Fibrous Materials.
Metallurgy.
Mineral Products.
Building Technology.
Applied Mathematics.
Data Processing Systems.
Atomic Physics.
Instrumentations.

3. Divisions of Boulder Laboratories:

Cryogenic Engineering.
Ionosphere Research and Propagation.
Radio Propagation Engineering.
Radio Standards.
Radio Communication and Systems.
Upper Atmosphere and Space Physics.
Administrative.

4. Technical Staff Offices:

Office of Weights and Measures.
Office of Technical Information.
National Bureau of Standards Library.

Section 7.03, The Office of Basic Instrumentation is deleted.

Section 7.04, The Office of Technical Information, and section 7.05, The National Bureau of Standards Library, are renumbered 7.03 and 7.04 respectively.

Effective date: May 29, 1960.

FREDERICK H. MUELLER,
Secretary of Commerce.

KANSAS BROADCASTERS, INC., AND SALINA RADIO, INC.

Order Continuing Hearing

In re applications of Kansas Broadcasters, Inc., Salina, Kansas, Docket No. 12680, File No. BP-11527; Salina Radio, Inc., Salina, Kansas, Docket No. 12681, File No. BP-11802; for construction permits.

The Hearing Examiner having under consideration a motion filed June 9, 1960, on behalf of Kansas Broadcasters, Inc. requesting that the further hearing in the above-entitled proceeding be continued from June 15, 1960 to June 27, 1960; and

It appearing that the reason for the requested continuance is the fact that counsel for the movant has other commitments which were made in the belief that further hearing was scheduled for June 27, 1960; and

It further appearing that counsel for Salina Radio, Inc. and the Broadcast Bureau have given their consent to the continuance and to immediate action on the motion, and good cause for the requested continuance having been shown;

It is ordered, This the 10th day of June 1960, that the motion for continuance is granted and the further hearing in this proceeding now scheduled for June 15, 1960, is continued to June 27, 1960.

Released: June 13, 1960.

MERCURY BROADCASTING

Order Designating Application for Hearing on Stated Issues

In re application of Rex O. Stevenson, Jack E. Falvey, Harry Saxe, Jr., and Robert Pommer, d/b as Mercury Broadcasting (a joint venture), Colorado Springs, Colorado, requests: 790kc, 500w, DA, Day, Docket No. 13589, File No. BP-12449; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 8th day of June 1960;

The Commission having under consideration the above-captioned and described application;

It appearing that except as indicated by the issues specified below, the instant applicant is legally, technically, financially, and otherwise qualified to construct and operate the instant proposal; and

It further appearing that pursuant to section 309(b) of the Communications Act of 1934, as amended, the Commission, in a letter dated March 31, 1960, and incorporated herein by reference, notified the applicant, and any other known parties in interest, of the grounds and reasons for the Commission's inability to make a finding that a grant of the application would serve the public interest, convenience and necessity; and that a copy of the aforementioned letter is available for public inspection at the Commission's offices; and

It further appearing that the applicant filed a timely reply to the aforementioned letter, which reply has not, however, entirely eliminated the grounds and reasons precluding a grant of the application and requiring an evidentiary hearing on the particular issues hereinafter specified; and

It further appearing that by amendment dated April 23, 1959, the applicant stated that it would install a second harmonic filter in order to eliminate second harmonic interference to Station KPIK, Colorado Springs, Colorado, operating on 1580 kilocycles; and

It further appearing, that after consideration of the foregoing and the applicant's reply, the Commission is still unable to make the statutory finding that a grant of the application would serve the public interest, convenience, and necessity; and is of the opinion that the application must be designated for hearing on the issues specified below;

It is ordered, That, pursuant to section 309(b) of the Communications Act of 1934, as amended, the instant application is designated for hearing, at a time and place to be specified in a subsequent Order upon the following issues:

1. To determine the areas and populations which would receive primary service from the instant proposal and the availability of other primary service to such areas and populations.

2. To determine whether the instant proposal would involve objectionable interference with Stations KBRN, Brighton, Colorado and KXXX, Colby, Kansas, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine whether interference received from Station KXXX, Colby, Kansas would affect more than ten percent of the population within the normally protected primary service area of the instant proposal, in contravention of section 3.28(c)(3) of the Commission rules, and, if so, whether circumstances exist which would warrant a waiver of said section.

4. To determine, in the light of the evidence adduced pursuant to the foregoing issues, whether a grant of the instant application would serve the public interest, convenience and necessity.

It is further ordered, That Western Plains Broadcasting Company, Inc., and The Mile High Broadcasting Co., Inc., licensees of Stations KXXX and KBRN, respectively, are made parties to the proceeding.

It is further ordered, That, in the event of a grant of the application of Mercury Broadcasting, the construction permit shall contain a condition that the permittee shall take necessary precautions to prevent second harmonic interference to Station KPIK, Colorado Springs, Colorado.

It is further ordered, That, to avail themselves of the opportunity to be heard, the applicant and parties respondent herein, pursuant to § 1.140 of the Commission rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence of the issues specified in this order.

Released: June 13, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 60-5518; Filed, June 15, 1960; 8:51 a.m.]

[Docket No. 13592]

SCHULTE FORD SALES, INC.

Order To Show Cause

In the matter of Schulte Ford Sales, Inc., 917 Ritchie Highway North, Glen Burnie, Maryland, Docket No. 13592; order to show cause why there should not be revoked the license for business radio station KGG-507.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of the above-captioned station;

It appearing that pursuant to § 1.81 of the Commission's rules, written notice of violation of the Commission's rules was served upon the above-named licensee as follows: Official Notice of Violation was mailed to the licensee on February 16, 1960, alleging that on January 12, 1960, the above-captioned radio station was found to be in violation of § 11.154(c)(1) of the Commission's rules in that the said station's base transmitter was then being operated by a person who did not hold a Commission authorization as required by said section; further alleging that on said January 12 the said station was found to be in violation of § 11.702(a) of the rules in that a suitable means had not been provided for receiving CONELRAD alerts as required by said section; further alleging that on said January 12 the said station was found to be in violation of § 11.108(a)(3) of the rules in that there was no record of the transmitter measurements required to be made and kept by said section; further alleging that on said January 12 the said station was found to be in violation of § 11.160(c) of the rules in that there was no record of the names of persons responsible for the operation of the base station transmitting equipment required to be made and kept by said section; further alleging that on said January 12 the said station was found to be in violation of § 11.160(b) of the rules in that there was no record of service or maintenance duties performed as required to be made and kept by said section; and

It further appearing that the above-named licensee received said Official Notice but did not make satisfactory reply thereto, whereupon the Commission, by letter dated March 25, 1960, and sent by Certified Mail—Return Receipt Requested (No. 991664), brought this matter to the attention of the licensee and requested that such licensee respond to the Commission's letter within fifteen days from the date of its receipt stating the measures which had been taken, or were being taken, in order to bring the operation of the radio station into compliance with the Commission's rules, and warning the licensee that his failure to respond to such letter might result in the institution of proceedings for the revocation of the radio station license; and

It further appearing that receipt of the Commission's letter was acknowledged by the signature of the Licensee's agent, Ann Mobley, on March 30, 1960, to a Post Office Department return receipt; and

It further appearing that although more than fifteen days have elapsed since the licensee's receipt of the Commission's letter, no response was made thereto; and

It further appearing that in view of the foregoing, the licensee has repeatedly violated § 1.61 of the Commission's rules;

It is ordered, This 10th day of June 1960, pursuant to section 312 (a) (4) and (c) of the Communications Act of 1934, as amended, and section 0.291(b) (8) of the Commission's Statement of Delegations of Authority, that the said licensee show cause why the license for the above-captioned Radio Station should not be revoked and appear and give evidence in respect thereto at a hearing[1] to be held at a time and place to be specified by subsequent order; and

It is further ordered, That the Acting Secretary send a copy of this order by Certified Mail, Return Receipt Requested to the said licensee.

Released: June 13, 1960.

STORER BROADCASTING CO. (WWVA-FM)

Order Designating Application for Hearing on Stated Issues

In re application of Storer Broadcasting Company (WWVA-FM), Wheeling, West Virginia, has: 98.7 Mc, #254; 7.4 kw; 470 ft., req.: 98.7 Mc, #254; 23.17 kw; 473.6 ft., Docket No. 13591, File No. BPH-2956; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 8th day of June 1960;

The Commission having under consideration the above-captioned and described application;

It appearing that on the basis of information now before us, the instant applicant is legally, technically, financially and otherwise qualified to construct and operate its instant proposal; and

It further appearing that pursuant to section 309(b) of the Communications Act of 1934, as amended, the Commission, by letter dated April 21, 1960, and incorporated herein by reference, notified the instant applicant, and any other known parties in interest, of the grounds and reasons for the Commission's inability to make a finding that a grant of the application would serve the public interest, convenience and necessity; and that a copy of the aforementioned letter is available for public inspection at the Commission's offices; and

It further appearing that the instant applicant filed a timely reply to the aforementioned letter, which reply has not, however, entirely eliminated the grounds and reasons precluding a grant and requiring an evidentiary hearing on the particular issues as hereinafter specified; and

It further appearing that after consideration of the foregoing and the applicant's reply, the Commission is still unable to make the statutory finding that a grant of the application would serve the public interest, convenience, and necessity; and is of the opinion that the application must be designated for hearing on the issues specified below;

It is ordered, That, pursuant to section 309(b) of the Communications Act of 1934, as amended, the instant application is designated for hearing at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the area and population within the 1 mv/m contour which may be expected to gain or lose service from the proposed operation of WWVA-FM and the availability of other such FM broadcast service to such area and population.

2. To determine whether the instant proposal of WWVA-FM would involve objectionable interference with Station WKBN-FM, Youngstown, Ohio, or any other existing FM broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other FM service to such areas and populations.

3. To determine in the light of the evidence adduced, pursuant to the foregoing issues, whether the instant application should be granted.

It is further ordered, That the WKBN Broadcasting Corporation, licensee of Station WKBN-FM, Youngstown, Ohio, is made a party to the proceeding.

It is further ordered, That, to avail themselves of the opportunity to be heard, the applicant and party respondent herein, pursuant to § 1.140 of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

Released: June 13, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 60-5523; Filed, June 15, 1960; 8:52 a.m.]

[1] Section 1.62 of the Commission's rules provides that a licensee, in order to avail himself of the opportunity to be heard, shall, in person or by his attorney, file with the Commission, within thirty days of the receipt of the order to show cause, a written statement stating that he will appear at the hearing and present evidence on the matter specified in the order. In the event it would not be possible for respondent to appear for hearing in the proceeding if scheduled to be held in Washington, D.C., he should advise the Commission of the reasons for such inability within five days of the receipt of this order. If the licensee fails to file an appearance within the time specified, the right to a hearing shall be deemed to have been waived. Where a hearing is waived, a written statement in mitigation or justification may be submitted within thirty days of the receipt of the order to show cause. If such statement contains, with particularity, factual allegations denying or justifying the facts upon which the show cause order is based, the Hearing Examiner may call upon the submitting party to furnish additional information, and shall request all opposing parties to file an answer to the written statement and/or additional information. The record will then be closed and an initial decision issued on the basis of such procedure. Where a hearing is waived and no written statement has been filed within the thirty days of the receipt of the order to show cause, the allegations of fact contained in the order to show cause will be deemed as correct and the sanctions specified in the order to show cause will be invoked.

FEDERAL POWER COMMISSION

[Docket No. CP60-78]

ALABAMA-TENNESSEE NATURAL GAS CO.

Notice of Application and Date of Hearing

JUNE 6, 1960.

Take notice that on April 5, 1960, Alabama-Tennessee Natural Gas Company (Applicant), filed an application, as supplemented on April 29, 1960, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, for authorization to construct and operate sales metering facilities on its 6⅝ inch pipeline near the Tennessee River Pulp and Paper plant in order to deliver up to an estimated 105 Mcf per day to Hardin County Gas Company (Hardin), a proposed new customer, for resale in the community of Counce, Tennessee.

The application recites that the 6⅝ inch pipeline is now under construction, pursuant to the authorization granted in Docket No. G-19974, which pipeline will be utilized to deliver up to 7,500 Mcf per day on an interruptible basis directly to the Tennessee River Pulp and Paper plant at Counce, Tennessee.

Hardin will construct and operate the connecting pipeline and a distribution system in the town which will cost approximately $16,000. Hardin is a subsidiary of Muscle Shoals Natural Gas Company, a customer of Applicant, serving a number of towns in Alabama.

Applicant estimates the total cost of its proposed construction at $840 to be defrayed from cash on hand.

The application shows that, based on Muscle Shoals' experience in nearby communities, the gas requirements for service in the community of Counce, Tennessee, for the first three years of operation are estimated as follows:

Year	Volumes in Mcf per day	Annual
First	50	4,300
Second	75	6,800
Third	105	8,600

Hardin will finance its project by the sale of 11,000 shares of its common stock to Muscle Shoals and from funds borrowed from Muscle Shoals as needed at an interest rate of 6 percent. The application indicates Muscle Shoals could provide the $16,000 required by Hardin.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on July 14, 1960, at 9:30 a.m., e.d.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C. concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before June 28, 1960. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission of the intermediate decision procedure in cases where a request therefor is made.

JOSEPH H. GUTRIDE,
Secretary.

Bureau of Land Management

MONTANA

Notice of Filing of Montana Protraction Diagrams

JUNE 7, 1960.

Notice is hereby given that, effective with this publication, the following protraction diagrams are officially filed of record in the Montana Land Office, 1245 North 29th Street, Billings, Montana. In accordance with 43 CFR 192.42a(c) (24 F.R. 4140, May 22, 1959) and amendments of Parts 188, 193, 195, 196, 198, 199 and 200 of Title 43, Code of Federal Regulations, as published in 25 F.R. 2797 (April 2, 1960) (Circular 2040), these protractions will become the basic record for the description of land in applications and offers for mineral leases and permits filed at and after 10:00 a.m. on the thirty-first day after publication of this notice. These protractions will also become the basic record for the description of lands in applications for all other authorized uses at the above-specified time.

PRINCIPAL MERIDIAN, MONTANA

IDAHO

Redelegations of Authority to Specified Classes of Employees

JUNE 10, 1960.

Pursuant to authority of Departmental Order 2583, as amended, and Order No. 541, of the Director of the Bureau of Land Management, as amended, the following redelegations of authority are made, to become effective immediately upon publication of this notice in the FEDERAL REGISTER. The authority delegated herein, may not be redelegated.

PART I—GOVERNMENT CONTESTS

SECTION 1. The State Lands and Minerals Staff Officer may initiate Government Contests against claims asserted to public lands and take all necessary actions involving the prosecution of such contests except the presentation of the Government's case at the hearings.

PART II—CLASSIFICATION AND WITHDRAWALS

SECTION 1. The State Lands and Minerals Staff Officer may take all actions authorized by section 2.5 of Order 541 of the Director of Bureau of Land Management.

PART III—MINERALS

SECTION 1. The State Lands and Minerals Staff Officer may take all actions authorized by section 2.6 of Order 541 of the Director of Bureau of Land Management.

JOE T. FALLINI,
State Supervisor.

NEVADA

Order Providing for Opening of Public Lands

1. In exchanges of lands made under the provisions of section 8 of the Act of June 28, 1934 (48 Stat. 1269; 43 U.S.C. 315g) as amended, the following described lands have been conveyed to the United States:

MOUNT DIABLO MERIDIAN

[Nevada 053332]

T. 26 N., R. 19 E.,
Sec. 4, W½;
Sec. 8, SE¼.
T. 28 N., R. 19 E.,
Sec. 12, NW¼NW¼;
Sec. 13, NE¼SW¼.
T. 44 N., R. 19 E.,
Sec. 20, S½NE¼, S½NW¼, NW¼NE¼, NE¼NW¼.

[Nevada 048171]

T. 43 N., R. 20 E.,
Sec. 25, SW¼SE¼;
Sec. 36, W½NE¼, NE¼NE¼.
T. 43 N., R. 21 E.,
Sec. 17, W½SE¼, E½SW¼, SE¼NW¼, SW¼NE¼;
Sec. 18, Lot 2;
Sec. 20, Lots 1, 2, 3, 4, 5, 6, W½NE¼, SE¼NE¼, E½NW¼, NW¼SW¼;
Sec. 21, Lot 4;
Sec. 26, S½SW¼;
Sec. 27, SE¼, E½SW¼, NW¼SW¼;
Sec. 28, SW¼ SW¼NW¼, N½SE¼, SE¼NE¼, Lots 1, 2, 3 and 4;
Sec. 29, Lot 1, SE¼NE¼;
Sec. 30, Lot 5;
Sec. 31, Lots 5 and 6, SE¼NW¼, SW¼NE¼;
Sec. 32, Lots 3 and 4, SW¼NE¼;
Sec. 34, W½NE¼.

[Nevada 053342, 054327]

T. 31 N., R. 31 E.,
Sec. 1;
Sec. 3;
Sec. 5, N½, N½NW¼SW¼.

[Nevada 053333, 053334, 053342]

[Nevada 053337]

T. 43 N., R. 37 E.,
Sec. 18, E½NW¼, E½SW¼, Lot 4;
Sec. 30, Lots 1, 2, 3 and 4.

[Nevada 054328]

T. 14 N., R. 70 E.,
Sec. 22, SW¼.

The above tracts aggregate 12,388.72 acres more or less.

2. The conveyances to the United States included the minerals in the following described lands only:

MOUNT DIABLO MERIDIAN

T. 26 N., R. 19 E.,
Sec. 4, W½;
Sec. 8, SE¼.
T. 28 N., R. 19 E.,
Sec. 12, NW¼NW¼;
Sec. 13, NE¼SW¼.
T. 44 N., R. 19 E.,
Sec. 20, S½NE¼, S½NW¼, NW¼NE¼, NE¼NW¼.
T. 43 N., R. 20 E.,
Sec. 25, SW¼SE¼;
Sec. 36, W½NE¼, NE¼NE¼.
T. 43 N., R. 21 E.,
Sec. 17, W½SE¼, E½SW¼, SE¼NW¼, SW¼NE¼;
Sec. 18, Lot 2;
Sec. 20, Lots 1, 2, 3, 4, 5, 6, W½NE¼, SE¼NE¼, E½NW¼, NW¼SW¼;
Sec. 21, Lot 4;
Sec. 26, S½SW¼;
Sec. 27, SE¼, E½SW¼, NW¼SW¼;
Sec. 28, SW¼ SW¼NW¼, N½SE¼, SE¼NE¼, Lots 1, 2, 3, and 4;
Sec. 29, Lot 1, SE¼NE¼;
Sec. 30, Lot 5;
Sec. 31, Lots 5 and 6, SE¼NW¼, SW¼NE¼;
Sec. 32, Lots 3 and 4, SW¼NE¼;
Sec. 34, W½NE¼.
T. 43 N., R. 37 E.,
Sec. 19, E½NW¼, E½SW¼, Lot 4;
Sec. 30, Lots 1, 2, 3 and 4.
T. 14 N., R. 70 E.,
Sec. 22, SW¼.

3. The land in T. 26 N., R. 19 E., is located a few miles south of Flanigan, Nevada, at an elevation of approximately 4,200 feet above sea level and is accessible by ranch roads. The climate is arid with an average annual precipitation of about 6 inches. The soil is impregnated with alkali and supports a sparse growth of greasewood, shadscale, sagebrush and annual weeds and grasses. The land does not appear to be of value for agricultural development.

4. The land in T. 28 N., R. 19 E., is approximately 10 miles northeast of Flanigan, Nevada, and is not accessible by vehicle. The land is level with sandy loam soil, alkaline in character, covered with dry native brush and cheatwood vegetation and has no potential value for agricultural development. Elevation is 4,500 feet above sea level.

5. The land in T. 44 N., R. 19 E., is approximately 22 miles northeast of Cedarville, California, and is accessible by a graveled county road. Topography is level to rolling with sandy loam soil covered with dry native vegetation. Elevation is approximately 5,900 feet above sea level. Agricultural development of the area does not appear feasible.

6. The lands in T. 43 N., R's. 20 and 21 E., are approximately 30 miles east of Cedarville, California, and are accessible by a dirt road branching from Nevada Highway 8A. The land is level to rolling with sandy loam soil covered with dry native sagebrush and has no apparent agricultural value.

7. The lands in T's. 31 and 32 N., R's. 31 and 32 E., lie west of Rye Patch Reservoir in Winnemucca Grazing District No. 2. Access to the area is gained over a graveled road which leaves Nevada State Highway 40, one mile southwest of Imlay, Nevada. The topography is level to rolling. The soil varies from stony and gravelly to sandy loam and supports greasewood, shadscale, hop sage, rabbitbrush, big sage and annual grasses and has no potential value for agricultural development. Elevation is approximately 4,500 feet above sea level.

8. The land in T. 43 N., R. 37 E., is situated west of Orovada, Nevada, and is accessible by an improved graded road. The topography is level to rolling. Vegetation consists of sagebrush and native grasses with no apparent agricultural value. Elevation is 4,500 feet above sea level.

9. The land in T. 14 N., R. 70 E., is located a few miles northeast of Baker, Nevada, approximately on the Utah, Nevada State Line. The area occupies a portion of the broad valley between the Snake Range on the west and the Confusion Range of Utah on the east. The vegetation consists mainly of shadscale, white sage, desert grasses and weeds.

10. No application for these restored lands will be allowed under the homestead, desert-land, small tract, or any other nonmineral public land law, unless the lands have already been classified as valuable, or suitable for such type of application, or shall be so classified upon consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

11. Pursuant to the authority delegated to me by Order No. 541, section 3.5 of the Director, Bureau of Land Management, of April 21, 1954, the lands described in paragraph 1, subject to valid existing rights and the requirements of applicable law, are hereby opened to filing of applications, selections and locations in accordance with the following:

a. Subject to any valid existing rights and the requirements of applicable law, the lands described in paragraph 1 hereof, are hereby opened to filing applications, selections and locations in accordance with the following:

(1) Applications and selections under the non-mineral public land laws and applications and offers under the mineral leasing laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications, selections and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(a) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(b) All valid applications and selections under the nonmineral public land laws for lands listed in paragraphs 1 and 2 and applications and offers under the mineral leasing laws for lands listed in paragraph 2 presented prior to 10:00 a.m. on July 14, 1960, will be considered as simultaneously filed at that hour. Rights under such applications, selections and offers filed after that hour will be governed by the time of filing.

(2) The lands listed in paragraph 2 will be open to location under the United States mining laws, beginning at 10:00 a.m. on July 14, 1960.

12. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

13. Inquiries concerning the restored lands shall be addressed to the Manager, Land Office, Bureau of Land Management, P.O. Box 1551, Reno, Nevada.

JAMES E. KEOGH, JR.,
Manager, Land Office.

JUNE 8, 1960.

Office of the Secretary

RALPH F. BOVIER

Report of Appointment and Statement of Financial Interests

MAY 23, 1960.

Pursuant to section 302(a) of Executive Order 10647, the following information on a WOC appointee in the Department of the Interior is furnished for publication in the FEDERAL REGISTER:

Name of appointee: Ralph F. Bovier.

Name of employing agency: Department of the Interior, Office of Assistant Secretary for Water and Power Development.

The title of the appointee's position: Alternate Deputy Director, Defense Electric Power Area 3.

The name of the appointee's private employer or employers: Pennsylvania Electric Co., Johnstown, Pa.

The statement of financial interests for the above appointee is set forth below.

ELMER F. BENNETT,
Acting Secretary of the Interior.

Appointee's Statement of Financial Interests

In accordance with the requirements of section 302(b) of Executive Order 10647, I am filing the following statement for publication in the FEDERAL REGISTER:

(1) Names of any corporatons of which I am, or had been within 60 days preceding my appointment, on May 23, 1960, as Alternate Deputy Director, Defense Electric Power Area 3, Department of the Interior, an officer or director:

Pennsylvania Electric Co., Vice President.

(2) Names of any corporations in which I own, or did own within 60 days preceding my appointment, any stocks, bonds, or other financial interests:

General Public Utilities Corp.
Investors Mutual Co.

(3) Names of any partnerships in which I am associated, or had been associated within 60 days preceding my appointment:

None.

(4) Names of any other businesses which I own, or owned within 60 days preceding my appointment:

None.

RALPH F. BOVIER.

JUNE 6, 1960.

SECURITIES AND EXCHANGE COMMISSION

[File No. 24S-1616]

ALUMINUM TOP SHINGLE CORP.

Notice and Order for Hearing

JUNE 10, 1960.

I. Aluminum Top Shingle Corporation (issuer), an Oregon corporation, 245 S.W. 133rd Avenue, Beaverton, Oregon, filed with the Commission on June 9, 1958, a notification on Form 1-A and an offering circular relating to an offering of 150,000 shares of common stock, par value $1, for an aggregate amount of $150,000 for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) thereof and Regulation A promulgated thereunder.

II. The Commission on April 27, 1960, issued an order pursuant to Rule 261 of the general rules and regulations under the Securities Act of 1933, as amended, temporarily suspending the exemption under Regulation A and affording to any person having an interest therein an opportunity to request a hearing, pursuant to Rule 261. A written request for hearing was received by the Commission.

The Commission deeming it necessary and appropriate to determine whether to vacate the temporary suspension order or to enter an order permanently suspending the exemption.

It is hereby ordered, That a hearing under the applicable provisions of the Securities Act of 1933, as amended, and the rules of the Commission be held in the Conference Room, First Floor, Washington Building, 1216 Southwest Washington Street, Portland, Oregon, at 10:00 a.m. on June 20, 1960, with respect to the following matters, without prejudice, however, to the specification of additional issues which may be presented in these proceedings:

A. Whether the terms and conditions of Regulation A have not been complied with in that:

1. The issuer has failed to file sales material with the Commission as required by Rule 258 of the general rules and regulations under the Securities Act of 1933;

2. An offering circular has not been delivered to all purchasers of the stock of the issuer as required by Rule 256(a);

3. An offering circular was used which was in violation of Rule 256(e), particularly with respect to the financial information contained therein and the failure to disclose the excessive costs incurred in selling the issuer's stock.

B. Whether the offering circular, as revised, and other material filed therewith contained untrue statements of material facts and omitted to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, particularly with respect to:

1. Inaccurate and unreliable financial statements;

2. The status of the issuer's pending patents;

3. The failure to disclose the excessive costs of selling the securities and the inclusion of inaccurate amounts for such costs on the cover page and in the use of proceeds.

C. Whether the sales literature used in connection with the offering contained untrue statements of material facts and omitted to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, particularly with respect to:

1. The statement that the issuer has definitely "gone into the black" for 1959;

2. The statement that the issuer has had a large percentage of increase in sales;

3. The statement that the issuer has indisputably the best aluminum shingle on the market.

D. Whether the offering is being and would be made in violation of Section 17 of the Securities Act of 1933, as amended.

III. *It is ordered*, That James Ewell or any officer or officers of the Commission designated by it for that purpose shall preside at the hearing; and any officer or officers so designated to preside at any such hearing are hereby authorized to exercise all the powers granted to the Commission under sections 19(b), 21, and 22(c) of the Securities Act of 1933, as amended, and to hearing officers under the Commission's rules of practice.

It is further ordered, That the Secretary of the Commission shall serve a copy of this order by registered mail on Aluminum Top Shingle Corporation; that notice of the entering of this order should be given to all other persons by general release of the Commission and by publication in the FEDERAL REGISTER. Any person who desires to be heard or otherwise wishes to participate in such hearing shall file with the Secretary of the Commission on or before June 18, 1960 a request relative thereto as provided in Rule XVII of the Commission's rules of practice.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F.R. Doc. 60-5491; Filed, June 15, 1960; 8:47 a.m.]

[File No. 24NY-4828]

HERMETIC SEAL CORP.

Notice and Order for Hearing

JUNE 10, 1960.

I. Hermetic Seal Corporation (issuer), a New Jersey Corporation, South Sixth Street, Newark, New Jersey, filed with the Commission on March 9, 1960 a notification on Form 1-A and an offering circular relating to the proposed public offering

of 100,000 shares of its 10 cents par value common stock or $300,000 in the aggregate for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) and Regulation A promulgated thereunder.

II. The Commission on April 25, 1960 issued an order pursuant to Rule 261 of the general rules and regulations under the Securities Act of 1933, as amended, temporarily suspending the exemption under Regulation A and affording to any person having an interest therein, an opportunity to request a hearing pursuant to Rule 261. A written request for hearing was received by the Commission.

The Commission deeming it necessary and appropriate to determine whether to vacate the temporary suspension order or to enter an order permanently suspending the exemption,

It is hereby ordered, That a hearing under the applicable provisions under the Securities Act of 1933, as amended, and the rules of the Commission be heard at the New York Office of the Commission, 23d Floor, 225 Broadway, New York 7, New York at 10:00 a.m., d.s.t., August 8, 1960 with respect to the following matters and questions, without prejudice, however, to the specification of additional issues which may be presented in these proceedings:

A. Whether the offering circular contains untrue statements of material facts and omits to state material facts necessary in order to make the statements made, in the light of the circumstances under which they are made, not misleading, particularly with respect to:

1. The statement that the offering price was $3 per share, when numerous shares which were part of the offering were sold at prices in excess thereof;

2. The failure to disclose that the distribution would be made in part through persons related to and associated with the underwriters, other members of the selling group, broker-dealers and management of the issuer;

3. The failure to disclose that Henry Sankuhl's shares were issued to him at a discount for services;

4. The failure to disclose material facts relating to the prospective acquisition of O.K. Electronics Corp. and Thermal Relay Corp.;

5. The failure to disclose accurately the proposed use of proceeds.

B. Whether the sales literature used by the issuer contains the untrue statement of material fact that there was a registration statement in effect with regard to the securities offered.

C. Whether no exemption is available under this regulation for the securities purported to be offered hereunder in that the aggregate amount at which such issue was offered to the public exceeded $300,000.

D. Whether the terms and conditions of Regulation A have not been complied with in that:

1. An offering circular was not furnished to certain purchasers pursuant to Rule 256 in connection with sales made pursuant to this offering;

2. Securities which were part of the offering were sold to persons in states which were not listed in Item 8 of Form 1–A as jurisdictions in which securities were proposed to be offered through underwriters, dealers or salesmen;

3. A written communication sent to more than ten (10) persons was not filed with the Commission pursuant to Rule 258;

4. The issuer filed a purported final report stating that the distribution was completed at a time when the distribution was not yet completed.

III. *It is further ordered*, That William W. Swift or any officer or officers of the Commission designated by it for that purpose shall preside at the hearing; that any officer or officers so designated to preside at any such hearing are hereby authorized to exercise all the power granted to the Commission under sections 19(b), 21 and 22(c) of the Securities Act of 1933, as amended, and to hearing officers under the Commission's rules of practice.

It is further ordered, That the Secretary of the Commission shall serve a copy of this order by registered mail to Hermetic Seal Corporation; that notice of the entering of this order shall be given to all persons by general release of the Commission and by publication in the FEDERAL REGISTER. Any person who desires to be heard or otherwise wishes to participate in the hearing shall file with the Secretary of the Commission on or before August 6, 1960 a request relative thereto as provided in Rule XVII of the Commission's rules of practice.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

CONSOLIDATED DEVELOPMENT CORP.

Order Summarily Suspending Trading

JUNE 10, 1960.

The common stock, par value 20 cents per share of Consolidated Development Corporation (formerly known as Consolidated Cuban Petroleum Corporation), being listed and registered on the American Stock Exchange, a national securities exchange; and

The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on such Exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion further that such suspension is necessary in order to prevent fraudulent, deceptive or manipulative acts or practices, with the result that it will be unlawful under section 15(c)(2) of the Securities Exchange Act of 1934 and the Commission's Rule 15c2–2 thereunder for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of such security, otherwise than on a national securities exchange;

It is ordered, Pursuant to section 19(a)(4) of the Securities Exchange Act of 1934 that trading in said security on the American Stock Exchange be summarily suspended in order to prevent fraudulent, deceptive or manipulative acts or practices, this order to be effective for a period of ten (10) days, June 11, 1960, to June 20, 1960, both dates inclusive.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 812–1306]

NAESS & THOMAS SPECIAL FUND, INC.

Notice of Filing of Application for Exemption

JUNE 9, 1960.

Notice is hereby given that Naess & Thomas Special Fund, Inc. ("Fund"), a registered open-end nondiversified investment company, has filed an application pursuant to section 6(c) of the Investment Company Act of 1940 ("Act") for an order of the Commission exempting the Fund from the provisions of sections 15(a), 16(a) and 32(a) of the Act.

The Fund was organized on December 21, 1959, under the laws of the State of Maryland. The Fund registered on February 19, 1960, under the Act and has filed a registration statement under the Securities Act of 1933 covering 1,000,000 shares of its Capital Stock, par value $1 per share, and proposes to make a public offering of such shares as soon as practicable after its registration statement under the Securities Act of 1933 becomes effective. Prior to beginning operation as an investment company, the Fund proposes to enter into an investment advisory contract with Naess & Thomas, investment counselors. The date of the first annual meeting of stockholders of the Fund is fixed by its by-laws as February 20, 1961, and it is proposed to take appropriate stockholder action at that time with respect to an investment advisory contract, the election of directors, and the selection of the Fund's independent public accountants.

The Fund requests an order of the Commission under section 6(c) of the Act exempting the Fund from the provisions of sections 15(a), 16(a) and 32(a) of the Act so that the Fund may operate for a limited period without stockholder approval of an investment advisory contract, without stockholder election of directors, and without stockholder approval of the selection of independent public accountants as required, respectively, by those sections of the Act, until stockholder approval can be obtained following the public offering of its capital stock.

Section 6(c) of the Act provides, among other things, that the Commission, by order upon application, may conditionally or unconditionally exempt any person from any provision or provisions of the Act or of any rule or regulation thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than June 23, 1960, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. At any time after said date, as provided by Rule O–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the showing contained in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Area 281]

OKLAHOMA

Declaration of Disaster Area

Whereas, it has been reported that during the month of May 1960, because of the effects of certain disasters, damage resulted to residences and business property located in certain areas in the State of Oklahoma;

Whereas, the Small Business Administration has investigated and has received other reports of investigations of conditions in the areas affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such areas constitute a catastrophe within the purview of the Small Business Act.

Now, therefore, as Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 7(b) of the Small Business Act may be received and considered by the Offices below indicated from persons or firms whose property situated in the following County (including any areas adjacent to said County) suffered damage or destruction as a result of the catastrophe hereinafter referred to:

County. Latimer (Flood occurring on or about May 18, 1960).

Offices. Small Business Administration Regional Office, Fidelity Building, 1000 Main Street, Dallas 2, Tex. Small Business Administration Branch Office, Bankers Service Life Building, Room 312, 114 North Broadway, Oklahoma City 2, Okla.

2. A temporary field office will be established at Wilburton, Oklahoma, address to be announced locally.

3. Applications for disaster loans under the authority of this Declaration will not be accepted subsequent to December 31, 1960.

Dated: June 2, 1960.

PRODUCTION RESEARCH ENGINEERING POOL CORPORATION

Notice of Additional Small Business Concerns Accepting Requests To Participate in a Small Business Defense Production Pool

Pursuant to section 11 of the Small Business Act (P.L. 85–536), the names of the following small business concerns are herewith published. These small business concerns accepted the request to participate in the operations of the Production Research Engineering Pool Corporation. The original list of applicants was published in the FEDERAL REGISTER (24 F.R. 9251, November 13, 1959).

Elliott Engineering Co., Inc., Lynwood, Calif.

Lowe and Lowe, Sherman Oaks, Calif.

Dated: June 10, 1960.

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

JUNE 13, 1960.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 36318: *Wheat—Between points in Arkansas and Missouri.* Filed by Southwestern Freight Bureau, Agent (No. B–7827), for interested rail carriers. Rates on wheat, in carloads between points in Arkansas and Missouri, also between points in Arkansas and Missouri, on the one hand, and Memphis, Tenn., on the other.

Grounds for relief: Motor-truck competition.

Tariffs: Supplements 79 and 34 to Southwestern Freight Bureau tariffs, I.C.C. 4241 and 4144, respectively. Supplement 14 to Western Trunk Line Tariff I.C.C. A–4235.

FSA No. 36319: *Cement—Tulsa, Okla., to Southwestern and WTL Territories.* Filed by Southwestern Freight Bureau, Agent (No. B–7826), for interested rail carriers. Rates on cement and related articles, in carloads, as described in the application from Tulsa, Okla., to points in southwestern territory, and western trunk-line territories.

Grounds for relief: Truck competition.

Tariff: Supplement 34 to Southwestern Freight Bureau tariff I.C.C. 4325.

FSA No. 36320: *Coal, Ky., Va., and W. Va., mines to North and South Carolina.* Filed by O. W. South, Jr., Agent (SFA No. A3965), for interested rail carriers. Rates on coal, in carloads from Kentucky, southwest Virginia and West Virginia mine groups, as described in the application to specified points in North and South Carolina.

Grounds for relief: Restore origin rate relationship.

Tariff: Supplement 17 to Chesapeake & Ohio Ry. tariff I.C.C. 13590.

FSA No. 36321: *Petroleum products—Oak Point, La., to official territory.* Filed by Southwestern Freight Bureau, Agent (No. B–7828), for interested rail carriers. Rates on petroleum and petroleum products, in carloads and tank-car loads from Oak Point, La., to points in official territory.

Grounds for relief: Grouping.

Tariff: Supplement 213 to Southwestern Freight Bureau tariff I.C.C. 4150.

By the Commission.

[Rev. S.O. 562, Amdt. 1 to Taylor's I.C.C. Order 116]

ARKANSAS & OZARKS RAILWAY CORP.

Diversion or Rerouting of Traffic

Upon further consideration of Taylor's I.C.C. Order No. 116 (Arkansas & Ozarks Railway Corporation) and good cause appearing therefor:

It is ordered, That:

Taylor's I.C.C. Order No. 116 be, and it is hereby, amended by substituting the following paragraph (g) for paragraph (g) thereof:

(g) Expiration date: This order shall expire at 11:59 p.m., July 15, 1960, unless otherwise modified, changed, suspended or annulled.

It is further ordered, That this amendment shall become effective at 11:59 p.m., June 13, 1960, and that this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement, and by filing it with the Director, Office of the Federal Register.

Issued at Washington, D.C., June 9, 1960.

INTERSTATE COMMERCE COMMISSION, CHARLES W. TAYLOR, *Agent.*

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Public Health Service

LICENSED BIOLOGICAL PRODUCTS

Notice is hereby given that pursuant to section 351 of the Public Health Service Act, as amended (42 U.S.C. 262), and regulations issued thereunder (42 CFR Part 73), the following establishments are licensed as of April 15, 1960, for the production of the biological products set forth under each establishment. Such licenses are effective until suspended or revoked in accordance with such Act and regulations.

This notice will be amended from time to time in the FEDERAL REGISTER to indicate any suspensions or revocations of licenses as well as the licensing of additional establishments and products.

Part I. Establishments Arranged by License Number Showing the Products for Which Each Establishment Is Licensed

LICENSED ESTABLISHMENTS

License No. 1—Parke, Davis & Co., Detroit, Mich.

1. Antitoxins

B. oedematiens Antitoxin.
Diphtheria Antitoxin.
Dysentery Antitoxin, Shiga.
Perfringens Antitoxin.
Tetanus Antitoxin.
Tetanus and Gas Gangrene Polyvalent Antitoxin.
V. septique Antitoxin.

2. Blood and Blood Derivatives

Histamine Azoprotein.
Immune Serum Globulin (Human).
Poliomyelitis Immune Globulin (Human).
Thrombin.

3. Bacterial Vaccines

Cholera Vaccine.
Pertussis Vaccine.
Pertussis Vaccine Aluminum Phosphate Adsorbed.
Typhoid and Paratyphoid Vaccine.
Nine polyvalent bacterial vaccines with "No U.S. Standard of Potency."

4. Bacterial Antigens

Six polyvalent bacterial antigens with "No U.S. Standard of Potency."

5. Modified Bacterial Antigens

Two polyvalent modified bacterial antigens with "No U.S. Standard of Potency."

6. Toxoids and Toxins for Immunization

Diphtheria Toxoid.
Diphtheria Toxoid Aluminum Phosphate Adsorbed.
Staphylococcus Toxoid.
Tetanus Toxoid.
Tetanus Toxoid Aluminum Phosphate Adsorbed.
Tetanus Antitoxin.
Tetanus and Gas Gangrene Polyvalent Antitoxin.
V. septique Antitoxin.

7. Multiple Antigen Preparations

Adenovirus and Influenza Virus Vaccines Combined Aluminum Phosphate Adsorbed.
Diphtheria and Tetanus Toxoids and Pertussis and Poliomyelitis Vaccines Aluminum Phosphate Adsorbed.
Diphtheria and Tetanus Toxoids and Pertussis Vaccine Combined.
Diphtheria and Tetanus Toxoids and Pertussis Vaccine Combined Aluminum Phosphate Adsorbed.
Diphtheria and Tetanus Toxoids Combined.
Diphtheria and Tetanus Toxoids Combined Aluminum Phosphate Adsorbed.
Diphtheria Toxoid and Pertussis Vaccine Combined Aluminum Phosphate Adsorbed.
Staphylococcus Toxoid and Bacterial Antigen made from Staphylococcus (Albus and Aureus).

8. Viral and Rickettsial Vaccines

Adenovirus Vaccine.
Influenza Virus Vaccine.
Poliomyelitis Vaccine.
Rabies Vaccine.
Smallpox Vaccine.

9. Diagnostic Substances for Dermal Tests

Blastomycin.
Diphtheria Toxin for Schick Test.
Histoplasmin.
Tuberculin, Old.
Tuberculin, Purified Protein Derivative.

10. Diagnostic Substances for Laboratory Tests

Anti-Influenza Virus Serum for the Hemagglutination Inhibition Test.
Influenza Virus Hemagglutinating Antigen.

11. Allergenic Extracts

Allergenic Extracts (including pollens and miscellaneous substances).
Poison Ivy Extract.

12. Trivalent Organic Arsenicals

Oxophenarsine Hydrochloride.

License No. 2—Merck Sharp & Dohme, Division of Merck & Co., Inc., Philadelphia, Pa.

1. Antitoxins

Tetanus Antitoxin.

2. Therapeutic Immune Serums

Antibrucella Serum.
Anti-Rocky Mountain Spotted Fever Serum.
Antitularemic Serum.

3. Blood and Blood Derivatives

Citrated Whole Blood (Human).
Fibrinogen (Human).
Human Blood Cells.
Immune Serum Globulin (Human).
Normal Bovine Serum.
Normal Horse Serum.
Normal Human Plasma.
Normal Serum Albumin (Human).
Poliomyelitis Immune Globulin (Human).
Thrombin.

4. Bacterial Vaccines

Cholera Vaccine.
Pertussis Vaccine.
Typhoid Vaccine.
Typhoid and Paratyphoid Vaccine.
Three polyvalent bacterial vaccines with "No U.S. Standard of Potency".

5. Sensitized Bacterial Vaccines

Cholera Vaccine.
Pertussis Vaccine.
Typhoid Vaccine.
Typhoid and Paratyphoid Vaccine.
Six polyvalent sensitized bacterial vaccines with "No U.S. Standard of Potency".

6. Bacterial Antigens

Bacterial Antigen with Antihistaminic.
Three polyvalent bacterial antigens with "No U. S. Standard of Potency".

7. Toxoids and Toxins for Immunization

Diphtheria Toxoid.
Diphtheria Toxoid Protamine Precipitated.
Staphylococcus Toxoid.
Tetanus Toxoid.

8. Multiple Antigen Preparations

Diptheria and Tetanus Toxoids and Pertussis Vaccine Alum Precipitated and Poliomyelitis Vaccine.
Diphtheria and Tetanus Toxoids and Pertussis Vaccine Combined.
Diphtheria and Tetanus Toxoids and Pertussis Vaccine Combined Alum Precipitated.
Diphtheria and Tetanus Toxoids Combined Alum Precipitated.
Diphtheria Toxoid and Pertussis Vaccine Combined Alum Precipitated.
Tetanus and Diphtheria Toxoids Combined Alum Precipitated (For Adult Use).

9. Viral and Rickettsial Vaccines

Influenza Virus Vaccine.
Poliomyelitis Vaccine.
Rabies Vaccine.
Rocky Mountain Spotted Fever Vaccine.
Smallpox Vaccine.
Typhus Vaccine.

10. Diagnostic Substances for Dermal Tests

Diphtheria Toxin for Schick Test.
Scarlet Fever Streptococcus Toxin for Dick Test.
Schick Test Control.
Tuberculin, Purified Protein Derivative.

11. Diagnostic Substances for Laboratory Tests

Anti-A Blood Grouping Serum.
Anti-B Blood Grouping Serum.

12. Allergenic Extracts

Poison Ivy Extract.
Poison Oak Extract.

13. Miscellaneous

Antivenin (*Latrodectus mactans*).
Bee Venom.
Blood Group Specific Substances A and B.

License No. 8—Cutter Laboratories, Berkeley, Calif.

1. Antitoxins

B. oedematiens Antitoxin.
Diphtheria Antitoxin.
Gas Gangrene Polyvalent Antitoxin.
Perfringens Antitoxin.

Tetanus Antitoxin.
Tetanus and Gas Gangrene Polyvalent Antitoxin.
V. septique Antitoxin.

2. Blood and Blood Derivatives

Antihemophilic Globulin (Human).
Fibrinogen (Human).
Immune Serum Globulin (Human).
Mumps Immune Globulin (Human).
Normal Human Plasma.
Normal Serum Albumin (Human).
Pertussis Immune Globulin (Human).
Plasma Protein Fraction (Human).
Poliomyelitis Immune Globulin (Human).
Tetanus Immune Globulin (Human).
Thrombin.

3. Bacterial Vaccines

Cholera Vaccine.
Pertussis Vaccine.
Pertussis Vaccine Aluminum Hydroxide Adsorbed.
Plague Vaccine.
Typhoid Vaccine.
Typhoid and Paratyphoid Vaccine.
Three polyvalent bacterial vaccines with "No U. S. Standard of Potency."

4. Toxoids and Toxins for Immunization

Diphtheria Toxoid.
Diphtheria Toxoid Aluminum Hydroxide Adsorbed.
Tetanus Toxoid.
Tetanus Toxoid Aluminum Hydroxide Adsorbed.

5. Multiple Antigen Preparations

Diphtheria and Tetanus Toxoids and Pertussis Vaccine Combined.
Diphtheria and Tetanus Toxoids and Pertussis Vaccine Combined Alum Precipitated.
Diphtheria and Tetanus Toxoids Aluminum Hydroxide Adsorbed and Pertussis Vaccine Combined.
Diphtheria and Tetanus Toxoids Combined.
Diphtheria and Tetanus Toxoids Combined Aluminum Hydroxide Adsorbed.
Diphtheria Toxoid Aluminum Hydroxide Adsorbed and Pertussis Vaccine Combined.
Diphtheria Toxoid and Pertussis Vaccine Combined.
Tetanus Toxoid and Pertussis Vaccine Combined.
Tetanus and Diphtheria Toxoids Combined Aluminum Hydroxide Adsorbed (For Adult Use).

6. Viral and Rickettsial Vaccines

Equine Encephalomyelitis Vaccine (Eastern).
Equine Encephalomyelitis Vaccine (Western).
Poliomyelitis Vaccine.
Smallpox Vaccine.

7. Diagnostic Substances for Dermal Tests

Coccidioidin.
Diphtheria Toxin for Schick Test.
Schick Test Control.
Tuberculin, Old.

8. Diagnostic Substances for Laboratory Tests

Anti-A Blood Grouping Serum.
Anti-B Blood Grouping Serum.

9. Allergenic Extracts

Allergenic Extracts (including pollens and miscellaneous substances).
Poison Ivy Extract.
Poison Oak Extract.

License No. 11—Institut Pasteur, Paris, France

1. Antitoxins

Diphtheria Antitoxin.
Tetanus Antitoxin.

2. Bacterial Vaccines

Cholera Vaccine.
Typhoid Vaccine.

3. Toxoids and Toxins for Immunization

Staphylococcus Toxoid.

License No. 14—New York City Department of Health, Bureau of Laboratories, New York, N.Y.

1. Antitoxins

Diphtheria Antitoxin.
Tetanus Antitoxin.

2. Blood and Blood Derivatives

Normal Horse Serum.

3. Bacterial Vaccines

Pertussis Vaccine.
Typhoid Vaccine.
Typhoid and Paratyphoid Vaccine.

4. Toxoids and Toxins for Immunization

Diphtheria Toxoid.
Diphtheria Toxoid Aluminum Phosphate Adsorbed.
Tetanus Toxoid.

5. Viral and Rickettsial Vaccines

Smallpox Vaccine.

6. Diagnostic Substances for Dermal Tests

Diphtheria Toxin for Schick Test.
Schick Test Control.
Tuberculin, Old.

7. Diagnostic Substances for Laboratory Tests

Anti-A Blood Grouping Serum.
Anti-B Blood Grouping Serum.
Anti-Rh Typing Serums:
Anti-Rh$_o$ (Anti-D).
Anti-Rh$_o$' (Anti-CD).
Anti-Human Serum.

License No. 17—Lederle Laboratories Division, American Cyanamid Co., Pearl River, N.Y.

1. Antitoxins

B. histolyticus Antitoxin.
B. oedematiens Antitoxin.
B. sordellii Antitoxin.
Botulism Antitoxin.
Diphtheria Antitoxin.
Gas Gangrene Polyvalent Antitoxin.
Perfringens Antitoxin.
Tetanus Antitoxin.
Tetanus and Gas Gangrene Polyvalent Antitoxin.
V. septique Antitoxin.

2. Therapeutic Immune Serums

Antirabies Serum.

3. Blood and Blood Derivatives

Immune Serum Globulin (Human).
Poliomyelitis Immune Globulin (Human).

4. Bacterial Vaccines

Cholera Vaccine.
Pertussis Vaccine.
Typhoid and Paratyphoid Vaccine.
Four polyvalent bacterial vaccines with "No U.S. Standard of Potency."

5. Toxoids and Toxins for Immunization

Diphtheria Toxoid.
Diphtheria Toxoid Aluminum Phosphate Adsorbed.
Scarlet Fever Streptococcus Toxin for Immunization.
Staphylococcus Toxoid.
Tetanus Toxoid.
Tetanus Toxoid Aluminum Phosphate Adsorbed.

6. Multiple Antigen Preparations

Diphtheria and Tetanus Toxoids Alum Precipitated and Pertussis Vaccine Combined.
Diphtheria and Tetanus Toxoids and Pertussis Vaccine Combined Aluminum Phosphate Adsorbed.
Diphtheria and Tetanus Toxoids Combined.
Diphtheria and Tetanus Toxoids Combined Aluminum Phosphate Adsorbed.

7. Viral and Rickettsial Vaccines

Encephalitis Vaccine, Herpes "F" Strain.
Influenza Virus Vaccine.
Mumps Vaccine.
Q Fever Vaccine.
Rabies Vaccine.
Rocky Mountain Spotted Fever Vaccine.
Smallpox Vaccine.
Typhus Vaccine (Epidemic).

8. Diagnostic Substances for Dermal Tests

Lymphogranuloma Venereum Antigen.
Scarlet Fever Streptococcus Toxin for Dick Test.
Tuberculin, Old.
Tuberculin, Patch Test.

9. Diagnostic Substances for Laboratory Tests

Anti-A Blood Grouping Serum.
Anti-B Blood Grouping Serum.
Anti-Rh Typing Serums:
Anti-Rh$_o$ (Anti-D).
Anti-Rh$_o$' (Anti-CD).
Anti-M Serum.
Anti-N Serum.
Anti-Human Serum.

10. Allergenic Extracts

Allergenic Extracts (including pollens and miscellaneous substances).
Trichinella Extract.

11. Miscellaneous

Streptokinase—Streptodornase.

License No. 30—Sherman Laboratories, Detroit, Mich.

1. Bacterial Vaccines

Pertussis Vaccine.
Eighteen polyvalent bacterial vaccines with "No U.S. Standard of Potency".

2. Bacterial Antigens

One polyvalent bacterial antigen with "No U.S. Standard of Potency".

3. Allergenic Extracts

Allergenic Extracts (including pollens).
Poison Ivy Extract.
Poison Oak Extract.
Poison Ivy-Poison Oak Extracts Combined.

License No. 43—Abbott Laboratories, North Chicago, Ill.

1. Blood and Blood Derivatives

Radio-Iodinated (I^{131}) Serum Albumin (Human).

2. Allergenic Extracts

Allergenic Extracts (including pollens and miscellaneous substances).

License No. 51—The Upjohn Company, Kalamazoo, Mich.

1. Blood and Blood Derivatives

Thrombin.

License No. 52—E. R. Squibb & Sons, Division of Olin Mathieson Chemical Corp., Biological Laboratories, New Brunswick, N.J.

1. Blood and Blood Derivatives

Fibrinogen (Human).
Immune Serum Globulin (Human).
Normal Serum Albumin (Human).
Poliomyelitis Immune Globulin (Human).
Radio-Iodinated (I^{131}) Serum Albumin (Human).

2. Multiple Antigen Preparations

Staphylococcus Toxoid and Bacterial Antigen made from Staphylococcus (Albus and Aureus).

3. Diagnostic Substances for Dermal Tests

Lymphogranuloma Venereum Antigen.

License No. 56—Eli Lilly and Company, Indianapolis, Ind.

1. Antitoxins

Diphtheria Antitoxin.
Perfringens Antitoxin.
Tetanus Antitoxin.
Tetanus and Gas Gangrene Polyvalent Antitoxin.
V. septique Antitoxin.

2. Bacterial Vaccines

Cholera Vaccine.
Pertussis Vaccine.
Typhoid Vaccine.
Typhoid and Paratyphoid Vaccine.
Bacterial Vaccine made from Partially Autolyzed Pneumococci.
Seven polyvalent bacterial vaccines with "No U.S. Standard of Potency".

3. Bacterial Antigens

Thirteen polyvalent bacterial antigens with "No U.S. Standard of Potency".

4. Toxoids and Toxins for Immunization

Tetanus Toxoid.

5. Multiple Antigen Preparations

Diphtheria and Tetanus Toxoids and Pertussis Vaccine Combined.
Diphtheria and Tetanus Toxoids and Pertussis Vaccine Combined Alum Precipitated.
Diphtheria and Tetanus Toxoids Combined.
Diphtheria and Tetanus Toxoids Combined Alum Precipitated.
Tetanus and Diphtheria Toxoids Combined Alum Precipitated (For Adult Use).

6. Viral and Rickettsial Vaccines

Influenza Virus Vaccine.
Mumps Vaccine.
Poliomyelitis Vaccine.
Rabies Vaccine.
Smallpox Vaccine.
Typhus Vaccine.

7. Diagnostic Substances for Dermal Tests

Diphtheria Toxin for Schick Test.
Histoplasmin.
Mumps Skin Test Antigen.
Tuberculin, Old.

8. Allergenic Extracts

Allergenic Extracts.

License No. 64—Massachusetts Public Health Biologic Laboratories, Boston, Mass.

1. Antitoxins

Diphtheria Antitoxin.
Tetanus Antitoxin.

2. Blood and Blood Derivatives

Immune Serum Globulin (Human).
Normal Serum Albumin (Human).
Poliomyelitis Immune Globulin (Human).

3. Bacterial Vaccines

Pertussis Vaccine.
Typhoid Vaccine.
Typhoid and Paratyphoid Vaccine.

4. Toxoids and Toxins for Immunization

Diphtheria Toxoid.
Tetanus Toxoid.

5. Multiple Antigen Preparations

Diphtheria and Tetanus Toxoids and Pertussis Vaccine Combined Alumigum Phosphate Precipitated.
Diphtheria and Tetanus Toxoids Combined Aluminum Phosphate Precipitated.

6. Viral and Rickettsial Vaccines

Smallpox Vaccine.

7. Diagnostic Substances for Dermal Tests

Diphtheria Toxin for Schick Test.
Schick Test Control.
Tuberculin, Old.

License No. 73—Connaught Medical Research Laboratories, University of Toronto, Toronto, Canada

1. Antitoxins

Diphtheria Antitoxin.
Staphylococcus Antitoxin.
Tetanus Antitoxin.

2. Blood and Blood Derivatives

Normal Serum Albumin.

3. Toxoids and Toxins for Immunization

Diphtheria Toxoid.
Staphylococcus Toxoid.
Tetanus Toxoid.

1. Bacterial Vaccines

Typhoid Vaccine.
Five polyvalent bacterial vaccines with "No U.S. Standard of Potency".

2. Allergenic Extracts

Allergenic Extracts.
Poison Ivy Extract Alum Precipitated.

License No. 107—Porro Biological Laboratories, Tacoma, Wash.

1. Allergenic Extracts

Allergenic Extracts (including pollens and miscellaneous substances).

License No. 108—Laboratoire du Bacteriophage, Paris, France

1. Bacterial Antigens

Fifteen bacterial antigens with "No U.S. Standard of Potency".

License No. 110—Pitman-Moore Company, Division Allied Laboratories, Inc., Zionsville, Ind.

1. Antitoxins

Diphtheria Antitoxin.
Perfringens Antitoxin.
Tetanus Antitoxin.
Tetanus and Gas Gangrene Polyvalent Antitoxin.
V. septique Antitoxin.

2. Therapeutic Immune Serums

Antierysipeloid Serum.

3. Blood and Blood Derivatives

Immune Serum Globulin (Human).
Poliomyelitis Immune Globulin (Human).

4. Bacterial Vaccines

Pertussis Vaccine.
Typhoid Vaccine.
Typhoid and Paratyphoid Vaccine.
Thirteen polyvalent bacterial vaccines with "No U.S. Standard of Potency".

5. Bacterial Antigens

Five bacterial antigens with "No U.S. Standard of Potency".

6. Toxoids and Toxins for Immunization

Diphtheria Toxoid.
Staphylococcus Toxoid.
Tetanus Toxoid.

7. Multiple Antigen Preparations

Diphtheria and Tetanus Toxoids Alum Precipitated and Pertussis Vaccine Combined.
Diphtheria and Tetanus Toxoids Combined Alum Precipitated.
Diphtheria Toxoid Alum Precipitated and Pertussis Vaccine Combined.

8. Viral and Rickettsial Vaccines

Equine Encephalomyelitis Vaccine (Eastern)
Equine Encephalomyelitis Vaccine (Western).
Influenza Virus Vaccine.
Poliomyelitis Vaccine.
Rabies Vaccine.
Typhus Vaccine.

9. Diagnostic Substances for Dermal Tests

Diphtheria Toxin for Schick Test.
Schick Test Control.
Tuberculin, Old.

10. Allergenic Extracts

Allergenic Extracts (including pollens).
Poison Ivy Extract.
Poison Ivy-Poison Oak Extract.
Poison Oak Extract.

License No. 111—William S. Merrell Co., Cincinnati, Ohio

1. Bacterial Vaccines

One polyvalent bacterial vaccine with "No U.S. Standard of Potency".

License No. 113—Michael Reese Research Foundation, Chicago, Ill.

1. Therapeutic Immune Serums

Measles Immune Serum (Human).
Mumps Immune Serum (Human).
Poliomyelitis Immune Serum (Human).
Scarlet Fever Immune Serum (Human).

2. Blood and Blood Derivatives

Antihemophilic Plasma (Human).
Citrated Whole Blood (Human).
Normal Human Plasma.
Normal Human Serum.
Packed Red Blood Cells (Human).
Resuspended Red Blood Cells (Human).

3. Diagnostic Substances for Laboratory Tests

Anti-A Blood Grouping Serum.
Anti-B Blood Grouping Serum.
Anti-A,B Blood Grouping Serum.
Absorbed Anti-A Serum
Anti-Rh Typing Serums:
Anti Rh_o (Anti-D).
Anti-Rh_o' (Anti-CD).
Anti-Rh_o'' (Anti-DE).
Anti-Rh_o rh' rh'' (Anti-CDE).
Anti-rh' (Anti-C).
Anti-rh'' (Anti-E).
Anti-hr' (Anti-c).
Anti-K Serum (Anti-Kell).
Anti-M Serum.
Anti-N Serum.
Anti-Human Serum.

4. Miscellaneous

Blood Group Specific Substance A.
Blood Group Specific Substance B.
Blood Group Specific Substances A and B.

License No. 119—Barry Laboratories, Inc., Detroit, Mich.

1. Bacterial Vaccines

Nine polyvalent bacterial vaccines with "No U.S. Standard of Potency".

2. Allergenic Extracts

Allergenic Extracts (including pollens).
Poison Ivy Extract.
Poison Ivy-Oak-Sumac Extracts Combined.
Poison Sumac Extract.

License No. 120—Bureau of Biologic Products, Illinois Department of Public Health, Division of Laboratories, Chicago, Ill.

1. Bacterial Vaccines

Pertussis Vaccine.
Typhoid Vaccine.
Typhoid and Paratyphoid Vaccine.

2. Toxoids and Toxins for Immunization

Diphtheria Toxoid.

3. Multiple Antigen Preparations

Diphtheria Toxoid Alum Precipitated and Pertussis Vaccine Combined.

4. Viral and Rickettsial Vaccines

Rabies Vaccine.

5. Diagnostic Substances for Dermal Tests

Diphtheria Toxin for Schick Test.
Schick Test Control.
Tuberculin, Old.

License No. 125—Hynson, Westcott & Dunning, Baltimore, Md.

1. Miscellaneous

Cobra Venom Solution.
Cobra Venom with Silicic and Formic Acids.

License No. 129—Wellcome Research Laboratories, Beckenham, Kent, England

1. Miscellaneous

Streptokinase-Streptodornase.
Russell Viper Venom.

License No. 135—Myers Laboratories, Inc., Warren, Pa.

1. Bacterial Antigens

One polyvalent bacterial antigen with "No U.S. Standard of Potency."

License No. 139—Philadelphia Serum Exchange, Philadelphia, Pa.

1. Therapeutic Immune Serums

Measles Immune Serum (Human).
Mumps Immune Serum (Human).
Pertussis Immune Serum (Human).
Scarlet Fever Immune Serum (Human).

2. Blood and Blood Derivatives

Citrated Whole Blood (Human).
Normal Human Serum.
Poliomyelitis Immune Globulin (Human).
Single Donor Plasma (Human).

3. Diagnostic Substances for Dermal Tests

Mumps Skin Test Antigen.

4. Diagnostic Substances for Laboratory Tests

Anti-A Blood Grouping Serum.
Anti-B Blood Grouping Serum.
Anti-A,B Blood Grouping Serum.
Absorbed Anti-A Serum.
Anti-Rh Typing Serums:
  Anti-Rh$_o$ (Anti-D).
  Anti-Rh$_o$' (Anti-CD).
  Anti-Rh$_o$'' (Anti-DE).
  Anti-Rh$_o$ rh' rh'' (Anti-CDE).
  Anti-rh' (Anti-C)
  Anti-rh'' (Anti-E).
  Anti-hr' (Anti-c).
  Anti-hr'' (Anti-e).
Anti-K Serum (Anti-Kell).
Anti-M Serum.
Anti-Human Serum.

License No. 140—Hyland Laboratories, Los Angeles, Calif.

1. Therapeutic Immune Serums

Antimumps Serum.
Antipertussis Serum.

2. Blood and Blood Derivatives

Antihemophilic Plasma (Human).
Citrated Whole Blood (Human).
Immune Serum Globulin (Human).
Mumps Immune Globulin (Human).
Normal Human Plasma.
Normal Serum Albumin (Human).
Packed Red Blood Cells (Human).
Pertussis Immune Globulin (Human).
Poliomyelitis Immune Globulin (Human).
Resuspended Red Blood Cells (Human).

3. Diagnostic Substances for Laboratory Tests

Anti-A Blood Grouping Serum.
Anti-B Blood Grouping Serum.
Anti-A,B Blood Grouping Serum.
Absorbed Anti-A Serum.
Group AB Serum (Human).
Anti-Rh Typing Serums:
  Anti-Rh$_o$ (Anti-D).
  Anti-Rh$_o$' (Anti-CD).
  Anti-Rh$_o$'' (Anti-DE).
  Anti-Rh$_o$ rh' rh'' (Anti-CDE).
  Anti-rh' (Anti-C).
  Anti-rh'' (Anti-E).
  Anti-hr' (Anti-c).
  Anti-hr'' (Anti-e).
  Anti-rh^v (Anti-C^v).
Anti-K Serum (Anti-Kell).
Anti-Le^a Serum (Anti-Lewis).
Anti-M Serum.
Anti-N Serum.
Anti-Human Serum.
Anti-Human Precipitin Serum.
Haemophilus influenzae Typing Serum.

License No. 144—Wyeth Laboratories, Inc., Marietta, Pa.

1. Antitoxins

Diphtheria Antitoxin.
Gas Gangrene Polyvalent Antitoxin.
Tetanus Antitoxin.
Tetanus and Gas Gangrene Polyvalent Antitoxin.

2. Therapeutic Immune Serums

Antipertussis Serum.

3. Blood and Blood Derivatives

Normal Horse Serum.

4. Bacterial Vaccines

Cholera Vaccine.
Pertussis Vaccine.
Typhoid Vaccine.
Typhoid and Paratyphoid Vaccine.

5. Toxoids and Toxins for Immunization

Diphtheria Toxoid.
Diphtheria Toxoid Aluminum Phosphate Adsorbed.
Tetanus Toxoid.
Tetanus Toxoid Aluminum Phosphate Adsorbed.

6. Multiple Antigen Preparations

Diphtheria and Tetanus Toxoids Alum Precipitated and Pertussis Vaccine Combined.
Diphtheria and Tetanus Toxoids Combined Alum Precipitated.
Diphtheria and Tetanus Toxoids Combined Aluminum Phosphate Adsorbed.
Diphtheria Toxoid Alum Precipitated and Pertussis Vaccine Combined.
Diphtheria Toxoid Aluminum Phosphate Adsorbed and Pertussis Vaccine Combined.
Diphtheria and Tetanus Toxoids and Pertussis Vaccine Combined Aluminum Phosphate Adsorbed.
Tetanus and Diphtheria Toxoids Combined Aluminum Phosphate Adsorbed (For Adult Use).
Tetanus and Diphtheria Toxoids Combined Alum Precipitated (For Adult Use).

7. Viral and Rickettsial Vaccines

Adenovirus Vaccine.
Poliomyelitis Vaccine.
Smallpox Vaccine.

8. Diagnostic Substances for Dermal Tests

Diphtheria Toxin for Schick Test.
Scarlet Fever Streptococcus Toxin for Dick Test.
Schick Test Control.
Tuberculin, Old.

9. Allergenic Extracts

Allergenic Extracts (including pollens and miscellaneous substances).
Poison Ivy Extract.
Poison Oak Extract.
Poison Ivy-Oak-Sumac Extracts Combined.

10. Miscellaneous

Antivenin (Crotalidae) Polyvalent.

License No. 147—Endo Laboratories, Inc., Richmond Hill, N.Y.

1. Allergenic Extracts

Allergenic Extracts (including miscellaneous substances).

License No. 149—Armour Pharmaceutical Company, Division of Armour and Company of Chicago, Illinois, Kankakee, Ill.

1. Blood and Blood Derivatives

Immune Serum Globulin (Human).
Normal Human Plasma.
Normal Serum Albumin (Human).
Poliomyelitis Immune Globulin (Human).

License No. 152—Gotham Pharmaceutical Co., Brooklyn, N.Y.

1. Allergenic Extracts

Allergenic Extracts (including pollens and miscellaneous substances).

License No. 154—John Elliott Blood Bank of Dade County, Inc., Miami, Fla.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 155—Wiener Serum Laboratory, Brooklyn, N.Y.

1. Diagnostic Substances for Laboratory Tests

Anti-A Blood Grouping Serum.
Anti-B Blood Grouping Serum.
Absorbed Anti-A Serum.
Anti-Rh Typing Serums:
  Anti-Rh$_o$ (Anti-D).
  Anti-Rh$_o$' (Anti-CD).
  Anti-Rh$_o$'' (Anti-DE).
  Anti-rh' (Anti-C).
  Anti-rh'' (Anti-E).
  Anti-hr' (Anti-c).
  Anti-hr'' (Anti-e).
Anti-Fy^a Serum (Anti-Duffy).
Anti-k Serum (Anti-Cellano).
Anti-K Serum (Anti-Kell).
Anti-rh^v and Anti-K Serum (Anti-(C^v+Kell)).
Anti-M Serum.
Anti-N Serum.
Anti-Human Serum.
Anti-Human Precipitin Serum.

License No. 156—Ortho Pharmaceutical Corporation, Raritan, N.J.

1. Blood and Blood Derivatives

Fibrinogen (Human).
Fibrinolysin (Human).
Normal Serum Albumin (Human).
Profibrinolysin (Human).
Thrombin.

2. Diagnostic Substances for Laboratory Tests

Anti-A Blood Grouping Serum.
Anti-B Blood Grouping Serum.
Anti-A, B Blood Grouping Serum.
Absorbed Anti-A Serum.
Anti-Rh Typing Serums:
  Anti-Rh$_o$ (Anti-D).
  Anti-Rh$_o$' (Anti-CD).
  Anti-Rh$_o$'' (Anti-DE).
  Anti-Rh$_o$ rh' rh'' (Anti-CDE).
  Anti-rh' (Anti-C).
  Anti-rh'' (Anti-E).
  Anti-hr' (Anti-c).
  Anti-hr'' (Anti-e).
  Anti-rh^v (Anti-C^v).
Anti-Fy^a Serum (Anti-Duffy).
Anti-k Serum (Anti-Cellano).
Anti-K Serum (Anti-Kell).
Anti-M Serum.
Anti-N Serum.
Anti-P Serum.
Anti-S Serum.
Anti-Human Serum.
Anti-Human Precipitin Serum.

License No. 158—Washington Blood Laboratory, Washington, D.C.

1. Diagnostic Substances for Laboratory Tests

Anti-A Blood Grouping Serum.
Anti-B Blood Grouping Serum.
Anti-A,B Blood Grouping Serum.
Absorbed Anti-A Blood Grouping Serum.
Anti-Rh Typing Serums:
  Anti-Rh$_o$ (Anti-D).
  Anti-Rh$_o$' (Anti-CD).
  Anti-Rh$_o$'' (Anti-DE).
  Anti-Rh$_o$ rh' rh'' (Anti-CDE).
  Anti-rh' (Anti-C).
  Anti-rh'' (Anti-E).
  Anti-hr' (Anti-c).
Anti-Human Serum.

License No. 159—Blood Grouping Laboratory of Boston, Inc., Boston, Mass.

1. Diagnostic Substances for Laboratory Tests

Anti-A Blood Grouping Serum.
Anti-B Blood Grouping Serum.
Absorbed Anti-A Serum.
Anti-Rh Typing Serums:
  Anti-Rh$_o$ (Anti-D).
  Anti-Rh$_o$' (Anti-CD).
  Anti-rh' (Anti-C).
  Anti-rh'' (Anti-E).
  Anti-hr' (Anti-c).
  Anti-hr'' (Anti-e).
  Anti-rh^v (Anti-C^v).
  Anti-Rh$_o$+Rh$_o$ (Anti-D+D^u).
Anti-Fy^a Serum (Anti-Duffy).
Anti-K Serum (Anti-Kell).
Anti-Kp^a Serum (Anti-Penney).
Anti-Le^a Serum (Anti-Lewis).
Anti-Le^b Serum.
Anti-M Serum.
Anti-M^s Serum.
Anti-Wr^a Serum (Anti-Wright).
Anti-Human Serum.

License No. 161—Blood Transfusion Association, New York, N.Y.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).
Packed Red Blood Cells (Human).
Single Donor Plasma (Human).

2. Diagnostic Substances for Laboratory Tests

Anti-A Blood Grouping Serum.
Anti-B Blood Grouping Serum.
Anti-Rh Typing Serums:
  Anti-Rh$_o$ (Anti-D).
  Anti-Rh$_o$' (Anti-CD).
  Anti-Rh$_o$rh'rh'' (Anti-CDE).
  Anti-rh' (Anti-C).
  Anti-rh'' (Anti-E).
Anti-Human Serum.

License No. 162—Blood and Plasma Bank, New York University, Bellevue Medical Center, New York, N.Y.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).
Normal Human Plasma.

License No. 163—High Titer Serum Laboratory, New York, N.Y.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

2. Diagnostic Substances for Laboratory Tests

Anti-A Blood Grouping Serum.
Anti-B Blood Grouping Serum.
Absorbed Anti-A Serum.
Anti-Rh Typing Serums:
  Anti-Rh$_o$ (Anti-D).
  Anti-Rh$_o$' (Anti-CD).
  Anti-Rh$_o$'' (Anti-DE).
  Anti-rh' (Anti-C).
  Anti-rh'' (Anti-E).

License No. 164—Knickerbocker Blood Bank, Inc., New York, N.Y.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

2. Diagnostic Substances for Laboratory Tests

Anti-A Blood Grouping Serum.
Anti-B Blood Grouping Serum.
Anti-A,B Blood Grouping Serum.
Absorbed Anti-A Serum.
Anti-Rh Typing Serums:
  Anti-Rh$_o$ (Anti-D).
  Anti-Rh$_o$' (Anti-CD).
  Anti-Rh$_o$'' (Anti-DE).
  Anti-Rh$_o$ rh' rh'' (Anti-CDE).
  Anti-rh' (Anti-C).
  Anti-rh'' (Anti-E).
  Anti-hr' (Anti-c).
  Anti-hr'' (Anti-e).
  Anti-hr^v (Anti-V).
  Anti-rh^v (Anti-C^v).
Anti-Fy^a Serum (Anti-Duffy).
Anti-Jk^a Serum (Anti-Kidd).
Anti-Jk^b Serum.
Anti-K Serum (Anti-Kell).
Anti-Kp^b Serum (Anti-Rautenberg).
Anti-k Serum (Anti-Cellano).
Anti-Le^a Serum (Anti-Lewis).
Anti-M Serum.
Anti-P Serum.
Anti-S Serum.
Anti-s Serum.
Anti-Human Serum.

3. Miscellaneous

Blood Group Specific Substance A.
Blood Group Specific Substance B.

License No. 165—Blood Bank Foundation, Nashville, Tenn.

1. Blood and Blood Derivatives

Antihemophilic Plasma (Human).
Citrated Whole Blood (Human).
Normal Human Plasma.
Packed Red Blood Cells (Human).
Resuspended Red Blood Cells (Human).

2. Diagnostic Substances for Laboratory Tests

Anti-A Blood Grouping Serum.
Anti-B Blood Grouping Serum.
Anti-A, B Blood Grouping Serum.
Absorbed Anti-A Serum.
Anti-Rh Typing Serums:
Anti-Rh$_o$ (Anti-D).
Anti-Rh$_o$' (Anti-CD).
Anti-Rh$_o$'' (Anti-DE).
Anti-Rh$_o$ rh' rh'' (Anti-CDE).
Anti-rh' (Anti-C).
Anti-rh'' (Anti-E).
Anti-hr' (Anti-c).
Anti-hr'' (Anti-e).
Anti-K Serum (Anti-Kell).
Anti-Human Serum.

Blood Bank Foundation, Atlanta Branch, Atlanta, Ga.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 166—Belle Bonfils Memorial Blood Bank, Denver, Colo.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).
Packed Red Blood Cells (Human).
Resuspended Red Blood Cells (Human).

2. Diagnostic Substances for Laboratory Tests

Anti-A Blood Grouping Serum.
Anti-B Blood Grouping Serum.
Anti-Rh Typing Serums:
Anti-Rh$_o$ (Anti-D).
Anti-Rh$_o$' (Anti-CD).
Anti-rh'' (Anti-E).

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 199—Blood Bank of Hawaii, Honolulu, Hawaii

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 201—San Diego Blood Bank, San Diego, Calif.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 202—Tacoma-Pierce County Blood Bank, Tacoma, Wash.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).
Packed Red Blood Cells (Human).
Single Donor Plasma (Human).

License No. 203—Spokane & Inland Empire Blood Bank, Spokane, Wash.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).
Single Donor Plasma (Human).

License No. 204—Virginia Blood Bank, Inc., Richmond, Va.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

2. Diagnostic Substances for Laboratory Tests

Anti-B Blood Grouping Serum.

License No. 209—Maxwell Blood Bank, The Children's Memorial Hospital, Chicago, Ill.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 212—District of Columbia General Hospital, Washington, D.C.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 213—Blood Bank of the Washington Hospital Center, Washington, D.C.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 214—Doctors Hospital Blood Bank, Washington, D.C.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 215—Blood Grouping Laboratory, Washington, D.C.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).
Normal Human Plasma.
Packed Red Blood Cells (Human).
Resuspended Red Blood Cells (Human).

License No. 218—Providence Hospital Blood Bank, Washington, D.C.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 220—Broome County Blood Center, Binghamton, N.Y.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 221—Essex County Blood Bank, Inc., Newark, N.J.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 222—Aurora Blood Bank and Donors Society, Aurora, Ill.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).
Packed Red Blood Cells (Human).

License No. 224—Community Blood and Plasma Service, Inc., Birmingham, Ala., and New York, N.Y.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 226—Blood Bank of San Bernardino and Riverside Counties, Inc., San Bernardino, Calif.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 227—Central Florida Blood Bank, Incorporated, Orlando, Fla.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 228—Southwest Florida Blood Bank, Inc., Tampa, Fla.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 229—Bender Laboratory Blood Bank, Albany, N.Y.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 231—Dubuque Blood Bank Association, Dubuque, Iowa

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).
Normal Human Plasma.

License No. 232—Holy Cross Hospital Research Foundation, Salt Lake City, Utah

1. Diagnostic Substances for Laboratory Tests

Anti-A Blood Grouping Serum.
Anti-B Blood Grouping Serum.
Anti-Rh Typing Serums:
Anti-Rh$_o$ (Anti-D).
Anti-Rh$_o$' (Anti-CD).
Anti-hr' (Anti-c).
Anti-Human Serum.

License No. 233—Ochsner Foundation Hospital Blood Bank, New Orleans, La.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 234—Central Blood Bank of Pittsburgh, Pittsburgh, Pa.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

2. Diagnostic Substances for Laboratory Tests

Anti-Human Globulin Reagent.

License No. 235—University of Cincinnati Blood Transfusion Service, Cincinnati, Ohio

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).
Packed Red Blood Cells (Human).
Resuspended Red Blood Cells (Human).

License No. 236—Medical Center-State Health Department Blood Bank, Grand Forks, N. Dak.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 237—Shreveport Emergency Blood Bank, Inc., Shreveport, La.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 238—Istituto Sieroterapico Vaccinogeno Toscano Sclavo, Siena, Italy

1. Therapeutic Immune Serums

Antirabies Serum.

License No. 239—Houchin Community Blood Bank, Bakersfield, Calif.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 240—Memphis Blood Center, Inc., Memphis, Tenn.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 241—Community Blood and Plasma Service, Inc. of Texas, Houston, Tex.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 243—Blood Plasma Corporation of Japan, Osaka, Japan

1. Blood and Blood Derivatives

Normal Human Plasma.

License No. 244—Travis County Medical Society Blood Bank, Austin, Tex.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 245—Nihon Seiyaku Co., Ltd., Tokyo, Japan

1. Blood and Blood Derivatives

Normal Human Plasma.

License No. 246—Potter County Memorial Blood Center, Inc., Amarillo, Tex.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 248—Central Blood Bank, Inc., South Bend, Ind.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 249—Northern Illinois Blood Bank, Inc., Rockford, Ill.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 250—St. Luke's Hospital Blood Bank, Aberdeen, S. Dak.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 251—Jacob Blumberg Memorial Blood Bank, Inc., of the Lake County Medical Society, Waukegan, Ill.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 252—Detroit Blood Service, Inc., Detroit, Mich.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).
Packed Red Blood Cells (Human).
Single Donor Plasma (Human).

License No. 254—Knoxville Blood Center, Inc., Knoxville, Tenn.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 257—Chek-Lab. Inc., Chicago, Ill.

1. Diagnostic Substances for Laboratory Tests

Anti-A Blood Grouping Serum.
Anti-B Blood Grouping Serum.
Anti-Rh Typing Serums:
Anti-Rh$_o$' (Anti-CD).
Anti-Human Serum.

License No. 258—Osterreichisches Institut fur Haemoderivate, Vienna, Austria

1. Blood and Blood Derivatives

Immune Serum Globulin (Human).
Poliomyelitis Immune Globulin (Human).

License No. 259—Holston Valley Community Hospital Blood Bank, Kingsport, Tenn.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 260—St. Francis Hospital Blood Bank, Trenton, N.J.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 261—Hospital Blood Service, Inc., Detroit, Mich.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 262—Service League Community Blood Bank, Inc., Pueblo, Colo.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 263—The Community Blood Bank, Norton, Va.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 264—Mid-West Blood Bank and Plasma Service, Kansas City, Mo.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 265—W. E. Stewart Blood Bank, Inc., Tyler, Tex.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 266—Blood Bank of The Bryn Mawr Hospital, Bryn Mawr, Pa.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 267—Blood Bank of St. Luke's Hospital (Duluth), Duluth, Minn.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 268—Community Blood Service, Inc., St. Louis, Mo.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 269—Beverly Blood Center, Inc., Chicago, Ill.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 270—Marietta Memorial Hospital, Marietta, Ohio

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 271—St. Luke's Memorial Hospital Blood Bank, Racine, Wis.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 272—Southern Michigan Blood Center, Inc., Detroit, Mich.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).
Single Donor Plasma (Human).

License No. 273—Oklahoma City Community Blood Bank, Inc., Oklahoma City, Okla.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 274—Bergen Community Blood Bank, Paramus, N.J.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 276—Western Pennsylvania Blood Center, Inc., Pittsburgh, Pa.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 277—Community Memorial General Hospital, La Grange, Ill.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 278—Brooklyn Donor Center, Inc., Brooklyn, N.Y.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 279—Menolasino Laboratories, Melrose Park, Ill.

1. Diagnostic Substances for Laboratory Tests

Anti-Human Serum.

License No. 280—Ward Laboratories, Durham, N.C.

1. Diagnostic Substances for Laboratory Tests

Anti-Fy^a Serum (Anti-Duffy).
Anti-K Serum (Anti-Kell).
Anti-Human Serum.

License No. 281—Nuclear Consultants Corporation, St. Louis, Mo.

1. Blood and Blood Derivatives

Radio-Iodinated (I^{131}) Serum Albumin (Human).

License No. 283—Hoffmann Laboratories, Inc., Paterson, N.J.

1. Bacterial Antigens

One polyvalent bacterial antigen with "No U.S. Standard of Potency".

License No. 284—Rhode Island Hospital Blood Bank, Providence, R.I.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 285—Marathon County Blood Bank, Inc., Wausau, Wis.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 286—Edgewater Hospital Blood Bank, Chicago, Ill.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 288—Delta Blood Bank, Stockton, Calif.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 289—Hospital University of Pennsylvania Blood Bank, Philadelphia, Pa.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

2. Diagnostic Substances for Laboratory Tests

Anti-A Blood Grouping Serum.
Anti-B Blood Grouping Serum.
Anti-A, B Blood Grouping Serum.
Anti-Rh Typing Serums:
Anti-Rh$_o$ (Anti-D).
Anti-Human Serum.

License No. 290—Pineview General Hospital Blood Bank, Valdosta, Ga.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 291—Sci Lab, Derby, Colo.

1. Diagnostic Substances for Dermal Tests

Blastomycin, Pin Test.
Coccidioidin, Pin Test.
Histoplasmin, Pin Test.
Tuberculin, Pin Test.

License No. 292—Graham Laboratories, Inc., Dallas, Tex.

1. Allergenic Extracts

Allergenic Extracts.

License No. 293—Passaic Blood Bank, Inc., Passaic, N.J.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 295—Community Blood Bank and Serum Service, Hoboken, N.J.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

2. Diagnostic Substances for Laboratory Tests

Anti-A Blood Grouping Serum.
Anti-B Blood Grouping Serum.
Anti-Rh Typing Serums:
Anti-Rh$_o$ (Anti-D).
Anti-Rh$_o$ rh' rh'' (Anti-CDE).
Anti-Human Serum.

License No. 296—Midwest Blood Service, Inc., Detroit, Mich.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 297—Pfizer Laboratories, Div. Chas. Pfizer & Co., Inc., New York, N.Y., Terre Haute, Ind.

1. Viral and Rickettsial Vaccines

Influenza Virus Vaccine.
Poliomyelitis Vaccine.

License No. 298—Lewiston-Clarkston Blood Bank, Lewiston, Idaho

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 299—Delmont Laboratories, Inc., Swarthmore, Pa.

1. Bacterial Antigen.

One polyvalent bacterial antigen with "No U.S. Standard of Potency".

License No. 300—Massachusetts General Hospital Blood Bank, Boston, Mass.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 301—Cleveland Biologicals, Inc., Cleveland, Ohio

1, Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 302—Community Blood Bank of the Kansas City Area, Inc., Kansas City, Mo.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).
Packed Red Blood Cells (Human).
Single Donor Plasma (Human).

License No. 303—Delta Biochemicals, Inc., San Antonio, Tex.

1. Diagnostic Substances for Laboratory Tests

Anti-Human Serum.

License No. 304—Lane County Blood Bank, Eugene, Oreg.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 305—Interstate Blood Bank, Inc. of Chicago, Illinois, Chicago, Ill.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 306—Purex Laboratories, Inc., Staten Island, N.Y.

1. Allergenic Extracts

Allergenic Extracts.

License No. 307—Cappel Laboratories, Inc., West Chester, Pa.

1. Diagnostic Substances for Laboratory Tests

Anti-Human Serum.

License No. 308—Greer Drug & Chemical Corporation, Lenoir, N.C.

1. Allergenic Extracts

Allergenic Extracts.

License No. 309—Suburban Hospital Blood Bank, Bethesda, Md.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 310—Arlington Hospital Blood Bank, Arlington, Va.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 311—Syntex Chemical Co., Inc., New York, N.Y.

1. Allergenic Extracts

Poison Ivy Extract Alum Precipitated.

License No. 312—World Blood Bank, Inc., Kansas City, Kans.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 313—Robeson County Memorial Hospital Blood Bank, Lumberton, N.C.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 314—Blood Bank, N.C. Memorial Hospital, University of North Carolina, Chapel Hill, N.C.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).
Single Donor Plasma (Human).

License No. 315—Central California Blood Bank, Fresno, Calif.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 316—Maine Medical Center Blood Bank, Portland, Maine

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 317—St. Vincent Hospital Blood Bank, Erie, Pa.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 318—Chicago Wesley Memorial Hospital Blood Bank, Chicago, Ill.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 319—Institute for Applied Immunology, Chicago, Ill.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 320—Garden State Blood Bank, Newark, N.J.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 321—National Blood Bank, Inc., New York, N.Y.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 322—Reid Memorial Hospital Blood Bank, Richmond, Ind.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 323—Volk Radiochemical Company, Chicago, Ill.

1. Blood and Blood Derivatives

Radio-Iodinated (I^{131}) Serum Albumin (Human).

License No. 324—Knickerbocker Laboratories, Inc., Philadelphia, Pa.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 325—A/B Kabi, Stockholm, Sweden

1. Enzymes

Streptokinase.

License No. 326—James Walker Memorial Hospital Blood Bank, Wilmington, N.C.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 327—The Elizabeth General Hospital and Dispensary, Elizabeth, N.J.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

License No. 328—Physicians Blood Bank, Inc., Wichita, Kans.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).
Single Donor Plasma (Human).

License No. 329—Paterson Blood Bank, Inc., Paterson, N.J.

1. Blood and Blood Derivatives

Citrated Whole Blood (Human).

Part II. List of Biologic Products With License Numbers of Establishments Licensed for Each Product

1. Antitoxins

B. *histolyticus* Antitoxin—17.
B. *oedematiens* Antitoxin—1, 8, 17.
B. *sordellii* Antitoxin—17.
Botulism Antitoxin—17.
Diphtheria Antitoxin—1, 8, 11, 14, 17, 56, 64, 73, 99, 101, 110, 144.
Dysentery Antitoxin, Shiga—1.
Gas Gangrene Polyvalent Antitoxin—8, 17, 101, 144.
Perfringens Antitoxin—1, 8, 17, 56, 110.
Staphylococcus Antitoxin—73.
Tetanus Antitoxin—1, 2, 8, 11, 14, 17, 56, 64, 73, 99, 101, 110, 144.
Tetanus and Gas Gangrene Polyvalent Antitoxin—1, 8, 17, 56, 101, 110, 144.
V. septique Antitoxin—1, 8, 17, 56, 110.

2. Therapeutic Immune Serums

Antibrucella Serum—2.
Antierysipeloid Serum—110.
Anti-Hemophilus Influenzae Type b Serum—99.
Antimumps Serum—140, 184.
Antipertussis Serum—140, 144, 184.
Antipneumococcic Serum—99.
Antirabies Serum—17, 238.
Anti-Rocky Mountain Spotted Fever Serum—2.
Antitularemic Serum—2.
Chicken Pox Immune Serum (Human)—171.
Measles Immune Serum (Human)—113, 139, 171, 187.
Mumps Immune Serum (Human)—113, 139, 171, 187.
Pertussis Immune Serum (Human)—139, 171, 187.
Poliomyelitis Immune Serum (Human)—113, 187.
Scarlet Fever Immune Serum (Human)—113, 139 171, 187.

3. Blood and Blood Derivatives

Antihemophilic Globulin (Human)—8, 99.
Antihemophilic Plasma (Human)—113, 140, 165, 184.
Citrated Whole Blood (Human)—2, 84, 99, 113, 139, 140, 154, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 173, 175, 178, 181, 182, 183, 185, 187, 190, 191, 192, 194, 195, 197, 198, 199, 201, 202, 203, 204, 209, 212, 213, 214, 215, 218, 220, 221, 222, 224, 226, 227, 228, 229, 231, 233, 234, 235, 236, 237, 239, 240, 241, 244, 246, 248, 249, 250, 251, 252, 254, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 276, 277, 278, 284, 285, 286, 288, 289, 290, 293, 295, 296, 298, 300, 301, 302, 304, 305, 309, 310, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 324, 326, 327, 328, 329.
Fibrinogen (Human)—2, 8, 52, 99, 156.
Fibrinolysin (Human)—156.
Histamine Azoprotein—1.
Human Blood Cells—2.
Immune Serum Globulin (Human)—1, 2, 8, 17, 52, 64, 99, 110, 140, 149, 171, 184, 258.
Mumps Immune Globulin (Human)—8, 140.
Normal Bovine Serum—2.
Normal Horse Serum—2, 14, 99, 144.
Normal Human Plasma—2, 8, 99, 113, 140, 149, 162, 165, 171, 182, 184, 185, 187, 190, 192, 215, 231, 243, 245.
Normal Human Serum—113, 139, 187.
Normal Rabbit Serum—99.
Normal Serum Albumin (Human)—2, 8, 52, 64, 73, 99, 140, 149, 156, 171, 184.
Packed Red Blood Cells (Human)—113, 140, 161, 165, 166, 169, 175, 181, 182, 185, 190, 191, 194, 202, 215, 222, 235, 252, 302.
Pertussis Immune Globulin (Human)—8, 140.
Plasma Protein Fraction (Human)—8.
Poliomyelitis Immune Globulin (Human)—1, 2, 8, 17, 52, 64, 99, 110, 139, 140, 149, 171, 184, 258.
Profibrinolysin (Human)—156.
Radio-Iodinated (I^{131}) Serum Albumin (Human)—43, 52, 281, 323.
Resuspended Red Blood Cells (Human)—99, 113, 140, 165, 166, 182, 185, 191, 215, 235.
Single Donor Plasma (Human)—139, 161, 169, 181, 183, 185, 187, 190, 191, 194, 202, 203, 252, 272, 314, 328.
Tetanus Immune Globulin (Human)—8.
Thrombin—1, 2, 8, 51, 156.

4. Bacterial Vaccines

BCG Vaccine—188.
Cholera Vaccine—1, 2, 8, 11, 17, 56, 101, 144.
Bacterial Vaccine made from Partially Autolyzed Pneumococci—56.
Pertussis Vaccine—1, 2, 8, 14, 17, 30, 56, 64, 99, 101, 110, 120, 121, 144.
Pertussis Vaccine Aluminum Hydroxide Adsorbed—8.
Pertussis Vaccine Aluminum Phosphate Adsorbed—1.
Plague Vaccine—8.
Typhoid Vaccine—2, 8, 11, 14, 56, 64, 99, 101, 105, 110, 120, 121, 144.
Typhoid and Paratyphoid Vaccine—1, 2, 8, 14, 17, 56, 64, 99, 101, 110, 120, 144.
Polyvalent bacterial vaccines with "No U.S. Standard of Potency"—1, 2, 8, 17, 30, 56, 91, 101, 105, 110, 111, 119.

5. Sensitized Bacterial Vaccines

Cholera Vaccine—2.
Pertussis Vaccine—2.
Typhoid Vaccine—2.
Typhoid and Paratyphoid Vaccine—2.
Polyvalent sensitized bacterial vaccines with "No U.S. Standard of Potency"—2.

6. Bacterial Antigens

Bacterial Antigen with Antihistaminic—2.
Pseudomonas Polysaccharide—184.
Polyvalent bacterial antigens with "No U.S. Standard of Potency"—1, 2, 30, 56, 108, 110, 135, 283, 299.

7. Modified Bacterial Antigens

Polyvalent modified bacterial antigens with "No U.S. Standard of Potency"—1.

8. Toxoids and Toxins for Immunization

Diphtheria Toxoid—1, 2, 8, 14, 17, 64, 73, 99, 101, 110, 120, 121, 144.
Diphtheria Toxoid Aluminum Hydroxide Adsorbed—8.
Diphtheria Toxoid Aluminum Hydroxide Precipitated—121.
Diphtheria Toxoid Aluminum Phosphate Adsorbed—1, 14, 17, 99, 144.
Diphtheria Toxoid Protamine Precipitated—2.
Scarlet Fever Streptococcus Toxin for Immunization—17, 101.
Staphylococcus Toxoid—1, 2, 11, 17, 73, 101, 110.
Streptococcus Erythrogenic Toxin—101.
Tetanus Toxoid—1, 2, 8, 14, 17, 56, 64, 73, 99, 101, 110, 121, 144.
Tetanus Toxoid Aluminum Hydroxide Adsorbed—8.
Tetanus Toxoid Aluminum Hydroxide Precipitated—121.
Tetanus Toxoid Aluminum Phosphate Adsorbed—1, 17, 99, 144.

9. Multiple Antigen Preparations

Adenovirus and Influenza Virus Vaccines Combined Aluminum Phosphate Adsorbed—1.
Diphtheria and Tetanus Toxoids and Pertussis and Poliomyelitis Vaccines Aluminum Phosphate Adsorbed—1.
Diphtheria and Tetanus Toxoids and Pertussis Vaccine Alum Precipitated and Poliomyelitis Vaccine—2.
Diphtheria and Tetanus Toxoids and Pertussis Vaccine Combined—1, 2, 8, 56, 101.
Diphtheria and Tetanus Toxoids and Pertussis Vaccine Combined Alum Precipitated—2, 8, 56, 99.
Diphtheria and Tetanus Toxoids Alum Precipitated and Pertussis Vaccine Combined—17, 101, 110, 144.
Diphtheria and Tetanus Toxoids and Pertussis Vaccine Combined Aluminum Phosphate Adsorbed—1, 17, 99, 144.
Diphtheria and Tetanus Toxoids and Pertussis Vaccine Combined Aluminum Phosphate Precipitated—64.
Diphtheria and Tetanus Toxoids Aluminum Hydroxide Adsorbed and Pertussis Vaccine Combined—8.
Diphtheria and Tetanus Toxoids Aluminum Hydroxide Adsorbed Combined—8.
Diphtheria and Tetanus Toxoids Combined Aluminum Hydroxide Precipitated—121.
Diphtheria and Tetanus Toxoids Combined—1, 8, 17, 56.
Diphtheria and Tetanus Toxoids Combined Alum Precipitated—2, 56, 99, 101, 110, 144.
Diphtheria and Tetanus Toxoids and Pertussis Vaccine Combined Aluminum Hydroxide Precipitated—121.
Diphtheria and Tetanus Toxoids Combined Aluminum Phosphate Adsorbed—1, 17, 99, 144.
Diphtheria and Tetanus Toxoids Combined Aluminum Phosphate Precipitated—64.
Diphtheria Toxoid Aluminum Hydroxide Adsorbed and Pertussis Vaccine Combined—8.
Diphtheria Toxoid and Pertussis Vaccine Combined—8.
Diphtheria Toxoid and Pertussis Vaccine Combined Alum Precipitated—2, 121.
Diphtheria Toxoid Alum Precipitated and Pertussis Vaccine Combined—101, 110, 120, 144.
Diphtheria Toxoid and Pertussis Vaccine Combined Aluminum Phosphate Adsorbed—1.
Diphtheria Toxoid Aluminum Phosphate Adsorbed and Pertussis Vaccine Combined—144.
Staphylococcus Toxoid-B. Vaccine made from Staphylococcus (Aureus)—101.
Staphylococcus Toxoid and Bacterial Antigen made from Staphylococcus (Albus and Aureus)—1, 52.
Staphylococcus Toxoid-Streptococcus Toxin-B. Vaccine made from Staphylococcus (Aureus), Streptococcus (Hemolyticus), *D. pneumonia* and *H. influenzae*—101.
Tetanus Toxoid and Pertussis Vaccine Combined—8.
Tetanus and Diphtheria Toxoids Combined Alum Precipitated (For Adult Use)—2, 56, 101, 144.
Tetanus and Diphtheria Toxoids Combined Aluminum Hydroxide Adsorbed (For Adult Use)—8.
Tetanus and Diphtheria Toxoids Combined Aluminum Hydroxide Precipitated (For Adult Use)—121.
Tetanus and Diphtheria Toxoids Combined Aluminum Phosphate Adsorbed (For Adult Use)—144.

10. Viral and Rickettsial Vaccines

Adenovirus Vaccine—1, 144.
Encephalitis Vaccine, Herpes "F" Strain—17.
Equine Encephalomyelitis Vaccine (Eastern)—8, 110.
Equine Encephalomyelitis Vaccine (Western)—8, 110.
Influenza Virus Vaccine—1, 2, 17, 56, 101, 110, 297.
Mumps Vaccine—17, 56.
Poliomyelitis Vaccine—1, 2, 8, 56, 110, 144, 297.
Q Fever Vaccine—17.
Rabies Vaccine—1, 2, 17, 56, 99, 101, 110, 120, 121.
Rocky Mountain Spotted Fever Vaccine—2, 17.

Smallpox Vaccine—1, 2, 8, 14, 17, 56, 64, 99, 101, 144.
Typhus Vaccine—2, 56, 110.
Typhus Vaccine (Epidemic)—17, 101.
Yellow Fever Vaccine—101.

11. Diagnostic Substances for Dermal Tests

Blastomycin—1.
Blastomycin, Pin Test—291.
Coccidioidin—8.
Coccidioidin, Pin Test—291.
Diphtheria Toxin for Schick Test—1, 2, 8, 14, 56, 64, 99, 101, 110, 120, 121, 144.
Histoplasmin—1, 56, 99.
Histoplasmin, Pin Test—291.
Lymphogranuloma Venereum Antigen—17, 52.
Mumps Skin Test Antigen—56, 139.
Scarlet Fever Streptococcus Toxin for Dick Test—2, 17, 101, 144.
Schick Test Control—2, 8, 14, 64, 99, 101, 110, 121, 144.
Tuberculin, Old—1, 8, 14, 17, 56, 64, 99, 110, 121, 144.
Tuberculin, Patch Test—17.
Tuberculin, Pin Test—291.
Tuberculin, Purified Protein Derivatives—1, 2.

12. Diagnostic Substances for Laboratory Tests

Anti-A Blood Grouping Serum—2, 8, 14, 17, 113, 139, 140, 155, 156, 157, 158, 159, 161, 163, 164, 165, 166, 168, 179, 181, 184, 185, 187, 191, 232, 257, 289, 295.
Anti-B Blood Grouping Serum—2, 8, 14, 17, 113, 139, 140, 155, 156, 157, 158, 159, 161, 163, 164, 165, 166, 168, 179, 181, 184, 185, 187, 191, 204, 232, 257, 289, 295.
Anti-A,B Blood Grouping Serum—113, 139, 140, 156, 157, 158, 164, 165, 179, 181, 184, 289.
Absorbed Anti-A Serum—113, 139, 140, 155, 156, 157, 158, 159, 163, 164, 165, 179, 184.
Group AB Serum (Human)—140, 184.
Anti-Rh Typing Serums:
Anti-Rh$_o$ (Anti-D)—14, 17, 113, 139, 140, 155, 156, 157, 158, 159, 161, 163, 164, 165, 166, 167, 168, 179, 181, 184, 185, 187, 232, 289, 295.
Anti-Rh$_o$' (Anti-CD)—14, 17, 113, 139, 140, 155, 156, 157, 158, 159, 161, 163, 164, 165, 166, 167, 179, 184, 185, 187, 232, 257.
Anti-Rh$_o$'' (Anti-DE)—113, 139, 140, 155, 156, 157, 158, 163, 164, 165, 179, 184.
Anti-Rh$_o$ rh' rh'' (Anti-CDE)—113, 139, 140, 156, 157, 158, 161, 164, 165, 179, 184, 187, 295.
Anti-rh' (Anti-C)—113, 139, 140, 155, 156, 157, 158, 159, 161, 163, 164, 165, 167, 179, 184, 185.
Anti-rh'' (Anti-E)—113, 139, 140, 155, 156, 157, 158, 159, 161, 163, 164, 165, 166, 167, 179, 184, 185.
Anti-hr' (Anti-c)—113, 139, 140, 155, 156, 157, 158, 159, 164, 165, 166, 167, 179, 184, 185, 232.
Anti-hr'' (Anti-e)—139, 140, 155, 156, 157, 159, 164, 165, 166, 179.
Anti-hr^v (Anti-V)—164.
Anti-rh^w (Anti-C^w)—140, 156, 157, 159, 164.
Anti-Rh$_o$+Rh$_o$ (Anti-D+D^u)—159.
Anti-Fy^a Serum (Anti-Duffy)—155, 156, 157, 159, 164, 179, 280.
Anti-Jk^a Serum (Anti-Kidd)—164.
Anti-Jk^b Serum—164.
Anti-k Serum (Anti-Cellano)—155, 156, 157, 164, 179.
Anti-K Serum (Anti-Kell)—113, 139, 140, 155, 156, 157, 159, 164, 165, 166, 179, 280.
Anti-Kp^a Serum (Anti-Penney)—159.
Anti-Kp^b Serum (Anti-Rautenberg)—164.
Anti-rh^v and Anti-K Serum (Anti-(C^v+Kell))—155.
Anti-Le^a Serum (Anti-Lewis)—140, 159, 164.
Anti-Le^b Serum—159.
Anti-M Serum—17, 113, 139, 140, 155, 156, 157, 159, 164, 168, 179, 184.
Anti-M^s Serum—159.
Anti-N Serum—17, 113, 140, 155, 156, 157, 168, 179, 184.
Anti-P Serum—157, 164.
Anti-S Serum—156, 157, 164.
Anti-s Serum—164.
Anti-Wr^a Serum (Anti-Wright)—159.
Anti-Human Globulin Reagent—234.
Anti-Human Serum—14, 17, 113, 139, 140, 155, 156, 157, 158, 159, 161, 164, 165, 167, 168, 179, 181, 184, 187, 232, 257, 279, 280, 289, 295, 303, 307.
Anti-Human Precipitin Serum—140, 155, 157, 184.
Haemophilus influenzae Typing Serum—140.
Anti-Influenza Virus Serum for the Hemagglutination Inhibition Test—1.
Influenza Virus Hemagglutinating Antigen—1.
Pneumococcus Typing Serum—99.

13. Allergenic Extracts

Allergenic Extracts (including pollens and miscellaneous substances)—1, 8, 17, 30, 43, 56, 84, 91, 101, 103, 105, 107, 110, 119, 144, 147, 152, 193, 292, 306, 308.
Poison Ivy Extract—1, 2, 8, 30, 91, 102, 110, 119, 144.
Poison Ivy Extract Alum Precipitated—105, 311.
Poison Ivy-Poison Oak Extracts Combined—30, 110.
Poison Ivy-Oak-Sumac Extracts Combined—119, 144.
Poison Oak Extract—2, 8, 30, 91, 102, 110, 144.
Poison Sumac Extract—119.
Tincture Poison Ivy—102, 174.
Trichinella Extract—17.

14. Trivalent Organic Arsenicals

Oxophenarsine Hydrochloride—1.

15. Miscellaneous

Antivenins:
Antivenin (*Latrodectus mactans*)—2.
Antivenin (Crotalidae) Polyvalent—144.
Antivenin, Scorpion—176.
Blood Group Specific Substances:
Blood Group Specific Substance A—113, 164.
Blood Group Specific Substance B—113, 164.
Blood Group Specific Substances A and B—2, 113.
Reagent Blood Group Specific Substances A and B—179.
Enzymes:
Streptokinase—325.
Streptokinase - Streptodornase — 17, 129.
Venoms:
Bee Venom—2.
Cobra Venom Solution—125.
Cobra Venom with Silicic and Formic Acids—125.
Russell Viper Venom—129.

Part III. Licensed Establishments Arranged Alphabetically

A. Domestic Establishments

	United States license No.
Abbott Laboratories, North Chicago, Ill.	43
Allergy Laboratories, Oklahoma City, Okla.	163
American National Red Cross, Washington, D.C.	190
Arlington Hospital Blood Bank, Arlington, Va.	310
Armour Pharmaceutical Co., Division of Armour and Co. of Chicago, Ill., Kankakee, Ill.	149
Aurora Blood Bank and Donors Society, Aurora, Ill.	222
Barry Laboratories, Inc., Detroit, Mich.	119
Belle Bonfils Memorial Blood Bank, Denver, Colo.	166
Bender Laboratory Blood Bank, Albany, N.Y.	220
Bergen Community Blood Bank, Paramus, N.J.	274
Beverly Blood Center, Inc., Chicago, Ill.	269
Blood and Plasma Bank, New York University-Bellevue Medical Center, New York, N.Y.	162
Blood Bank of The Bryn Mawr Hospital, Bryn Mawr, Pa.	266
Blood Bank Foundation, Nashville, Tenn.	165
Blood Bank of Hawaii, Honolulu, Hawaii	190
Blood Bank, N.C. Memorial Hospital, University of North Carolina, Chapel Hill, N.C.	314
Blood Bank of the Alameda-Contra Costa Medical Association, Oakland, Calif.	191
Blood Bank of St. Luke's Hospital (Duluth), Duluth, Minn.	267
Blood Bank of San Bernardino and Riverside Counties, Inc., San Bernardino, Calif.	226
Blood Bank of the Washington Hospital Center, Washington, D.C.	213
Blood Grouping Laboratory, Washington, D.C.	215
Blood Grouping Laboratory of Boston, Inc., Boston, Mass.	159
Blood Transfusion Association, New York, N.Y.	161
Broome County Blood Center, Binghamton, N.Y.	220
Brooklyn Donor Center, Inc., Brooklyn, N.Y.	278
Cappel Laboratories, Inc., West Chester, Pa.	307
C. F. Kirk Company, New York, N.Y.	105
California Transfusion Service, Los Angeles, Calif.	176
Center Laboratories, Port Washington, N.Y.	193
Central Blood Bank, Inc., South Bend, Ind.	248
Central Blood Bank of Pittsburgh, Pittsburgh, Pa.	234

	United States license No.
Central California Blood Bank, Fresno, Calif.	315
Central Florida Blood Bank, Incorporated, Orlando, Fla.	227
Certified Blood Donor Service, Inc., Jamaica, N.Y.	157
Chek-Lab, Inc., Chicago, Ill.	257
Chicago Blood Donor Service, Inc., Chicago, Ill.	169
Chicago Wesley Memorial Hospital Blood Bank, Chicago, Ill.	318
Cleveland Biologicals, Inc., Cleveland, Ohio	301
Community Blood Bank, Norton, Va.	263
Community Blood Bank and Serum Service, Hoboken, N.J.	295
Community Blood and Plasma Service, Inc., Birmingham, Ala., and New York, N.Y.	224
Community Blood and Plasma Service, Inc., of Texas, Houston, Tex.	241
Community Blood Bank of the Kansas City Area, Inc., Kansas City, Mo.	302
Community Blood Service, Inc., St. Louis, Mo.	268
Community Memorial General Hospital, La Grange, Ill.	277
Courtland Laboratories, Los Angeles, Calif.	171
Cutter Laboratories, Berkeley, Calif.	8
Dade Reagents, Inc., Miami, Fla.	179
Delmont Laboratories, Inc, Swarthmore, Pa.	299
Delta Biochemicals, Inc., San Antonio, Tex.	303
Delta Blood Bank, Stockton, Calif.	288
Detroit Blood Service, Inc., Detroit, Mich.	252
District of Columbia General Hospital, Washington, D.C.	212
Doctors Hospital Blood Bank, Washington, D.C.	214
Dubuque Blood Bank Association, Dubuque, Iowa	231
Edgewater Hospital Blood Bank, Chicago, Ill.	286
Eli Lilly and Company, Indianapolis, Ind.	56
Elizabeth General Hospital and Dispensary, Elizabeth, N.J.	327
Endo Laboratories, Inc., Richmond Hill, N.Y.	147
E. R. Squibb and Sons, Division of Olin Mathieson Chemical Corporation, Biological Laboratories, New Brunswick, N.J.	52
Essex County Blood Bank, Inc., Newark, N.J.	221
Garden State Blood Bank, Newark, N.J.	320
Gotham Pharmaceutical Company, Brooklyn, N.Y.	152
Graham Laboratories, Inc., Dallas, Tex.	292
Greer Drug & Chemical Corporation, Lenoir, N.C.	308
High Titer Serum Laboratory, New York, N.Y.	163
Hoffmann Laboratories, Inc., Paterson, N.J.	283
Hollister-Stier Laboratories, Chicago, Ill.; Philadelphia, Pa.; Spokane, Wash.; Los Angeles, Calif.; Atlanta, Ga.	91
Holston Valley Community Hospital Blood Bank, Kingsport, Tenn.	259
Holy Cross Hospital Research Foundation, Salt Lake City, Utah	232
Hospital Blood Service, Inc., Detroit, Mich.	261
Hospital University of Pennsylvania Blood Bank, Philadelphia, Pa.	289
Houchin Community Blood Bank, Bakersfield, Calif.	239
Hyland Laboratories, Los Angeles, Calif.	140
Hynson, Westcott and Dunning, Baltimore, Md.	125
Illinois Department of Public Health, Bureau of Biologic Products, Division of Laboratories, Chicago, Ill.	120
Institute for Applied Immunology, Chicago, Ill.	319
Inter-County Blood Banks, Inc., Jamaica, N.Y.	175
Interstate Blood Bank, Inc., Memphis, Tenn.	173
Interstate Blood Bank, Inc. of Chicago, Illinois, Chicago, Ill.	305
Irwin Memorial Blood Bank of the San Francisco Medical Society, San Francisco, Calif.	182
J. K. and Susie L. Wadley Research Institute and Blood Bank, Dallas, Tex.	167
Jackson Medical Laboratory and Blood Bank, Jackson, Tenn.	170
Jacksonville Blood Bank, Inc., Jacksonville, Fla.	181
Jacob Blumberg Memorial Blood Bank, Inc., of the Lake County Medical Society, Waukegan, Ill.	251
James Walker Memorial Hospital Blood Bank, Wilmington, N.C.	326
John Elliott Blood Bank of Dade County, Inc., Miami, Fla.	154
King County Central Blood Bank, Seattle, Wash.	192
Knickerbocker Blood Bank, Inc., New York, N.Y.	164
Knickerbocker Laboratories, Inc., Philadelphia, Pa.	324
Knoxville Blood Center, Inc., Knoxville, Tenn.	254
Lane County Blood Bank, Eugene, Oreg.	304
Lederle Laboratories, Division American Cyanamid Co., Pearl River, N.Y.	17
Lewiston-Clarkston Blood Bank, Lewiston, Idaho	298
Lloyd Brothers, Pharmacists, Inc., Cincinnati, Ohio	174
Maine Medical Center Blood Bank, Portland, Me.	316
Marathon County Blood Bank, Inc., Wausau, Wis.	285
Marietta Memorial Hospital, Marietta, Ohio	270
Massachusetts General Hospital Blood Bank, Boston, Mass.	300
Massachusetts Public Health Biologic Laboratories, Boston, Mass.	64
Maxwell Blood Bank, The Children's Memorial Hospital, Chicago, Ill.	209
Medical Center, State Health Department Blood Bank, Grand Forks, N. Dak.	236
Memphis Blood Center, Inc., Memphis, Tenn.	240
Menolasino Laboratories, Melrose Park, Ill.	279
Merck Sharp & Dohme, Division of Merck & Co., Inc., Philadelphia, Pa.	2
Michael Reese Research Foundation, Chicago, Ill.	113
Michigan Department of Health, Division of Laboratories, Lansing, Mich.	99
Mid-West Blood Bank and Plasma Center, Kansas City, Mo.	264
Midwest Blood Service, Inc., Detroit, Mich.	296
Milwaukee Blood Center, Inc., Milwaukee, Wis.	167
Minneapolis War Memorial Blood Bank, Minneapolis, Minn.	185
Mount Sinai Medical Research Foundation, Chicago, Ill.	168
Mulford Colloid Laboratories, Philadelphia, Pa.	102
Myers Laboratories, Inc., Warren, Pa.	135
National Blood Bank, Inc., New York, N.Y.	321
National Drug Company, Swiftwater, Pa.	101
New York City Department of Health, Bureau of Laboratories, New York, N.Y.	14
Northern Illinois Blood Bank, Inc., Rockford, Ill.	249
Nuclear Consultants Corporation, St. Louis, Mo.	281
Ochsner Foundation Hospital Blood Bank, New Orleans, La.	233
Oklahoma City Community Blood Bank, Inc., Oklahoma City, Okla.	273
Ortho Pharmaceutical Corporation, Raritan, N.J.	156
Parke, Davis & Company, Detroit, Mich.	1
Passaic Blood Bank, Inc., Passaic, N.J.	293
Paterson Blood Bank, Inc., Paterson, N.J.	329
Peninsula Memorial Blood Bank, Burlingame, Calif.	195
Pfizer Laboratories, Div. Chas. Pfizer & Co., Inc., Terre Haute, Ind.	297
Philadelphia Serum Exchange, Philadelphia, Pa.	139
Physicians Blood Bank, Inc., Wichita, Kans.	328
Pineview General Hospital Blood Bank, Valdosta, Ga.	290
Pitman-Moore Company, Division Allied Laboratories, Inc., Zionsville, Ind.	110
Porro Biological Laboratories, Tacoma, Wash.	107
Potter County Memorial Blood Center, Inc., Amarillo, Tex.	246

	United States license No.
Providence Hospital Blood Bank, Washington, D.C.	218
Purex Laboratories, Inc., Staten Island, N.Y.	306
Reid Memorial Hospital Blood Bank, Richmond, Ind.	322
Research Foundation and University of Illinois, Chicago, Ill.	188
Rhode Island Hospital Blood Bank, Providence, R.I.	284
Robeson County Memorial Hospital Blood Bank, Lumberton, N.C.	313
Sacramento Medical Foundation Blood Bank, Sacramento, Calif.	194
San Diego Blood Bank, San Diego, Calif	201
Sci Lab, Derby, Colo	291
Service League Community Blood Bank, Inc., Pueblo, Colo	262
Sherman Laboratories, Detroit, Mich	30
Shreveport Emergency Blood Bank, Inc., Shreveport, La.	237
Sonoma County Community Blood Bank, Santa Rosa, Calif.	197
Southern Michigan Blood Center, Inc., Detroit, Mich.	272
Southwest Blood Banks, Inc., Phoenix, Ariz.	183
Southwest Florida Blood Bank, Inc., Tampa, Fla.	228
Spokane & Inland Empire Blood Bank, Spokane, Wash.	203
St. Francis Hospital Blood Bank, Trenton, N.J.	260
St. Luke's Hospital Blood Bank, Aberdeen, S. Dak.	250
St. Luke's Memorial Hospital Blood Bank, Racine, Wis.	271
St. Vincent Hospital Blood Bank, Erie, Pa.	317
Suburban Hospital Blood Bank, Bethesda, Md.	309
Syntex Chemical Co., Inc., New York, N.Y.	311
Tacoma-Pierce County Blood Bank, Tacoma, Wash.	202
Terrell's Laboratories, Fort Worth, Tex.	84
Texas State Department of Health, Austin, Tex.	121
Travenol Laboratories, Inc., Morton Grove, Ill.	184
Travis County Medical Society Blood Bank, Austin, Tex.	244
Tri-Counties Blood Bank, Santa Barbara, Calif.	198
University of Cincinnati Blood Transfusion Service, Cincinnati, Ohio	235
Upjohn Company, Kalamazoo, Mich.	51
Virginia Blood Bank, Inc., Richmond, Va	204
Volk Radiochemical Company, Chicago, Ill.	323
Ward Laboratories, Durham, N.C.	280
Washington Blood Laboratory, Washington, D.C.	158
W. E. Stewart Blood Bank, Inc., Tyler, Tex.	265
Western Pennsylvania Blood Center, Inc., Pittsburgh, Pa.	276
Wiener Serum Laboratory, Brooklyn, N.Y.	155
William S. Merrell Co., Cincinnati, Ohio	111
World Blood Bank, Inc., Kansas City, Kans.	312
Wyeth Laboratories, Inc., Marietta, Pa.	144

B. FOREIGN ESTABLISHMENTS

	United States license No.
A/B Kabi, Stockholm, Sweden	325
Blood Plasma Corp. of Japan, Osaka, Japan	243
Connaught Medical Research Laboratories, University of Toronto, Toronto, Canada	73
Institut Pasteur, Paris, France	11
Istituto Sieroterapico Vaccinogeno Toscano Sclavo, Siena, Italy	238
Laboratoire du Bacteriophage, Paris, France	106
Laboratorios Myn, Mexico D.F., Mexico	176
Nihon Seiyaku Co., Ltd., Tokyo, Japan	245
Osterreichisches Institut fur Haemoderivate, Vienna, Austria	258
Wellcome Research Laboratories, Beckenham, Kent, England	129

Dated:

[SEAL] RODERICK MURRAY,

Director, Division of Biologics Standards, National Institutes of Health, Public Health Service, U.S. Department of Health, Education, and Welfare.

Approved:

J. STEWART HUNTER,

Assistant to the Surgeon General for Information, Public Health Service, U.S. Department of Health, Education, and Welfare.

[F.R. Doc. 60-5504; Filed, June 15, 1960; 8:49 a.m.]

CUMULATIVE CODIFICATION GUIDE—JUNE

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published to date during June.

3 CFR (Page)

PROCLAMATIONS:
Mar. 1, 1907 — 4923
Feb. 15, 1909 — 5243
Dec. 22, 1932 — 5126
3351 — 4947
3352 — 5171
3353 — 5373

EXECUTIVE ORDERS:
Dec. 17, 1878 — 5243
May 27, 1885 — 5243
July 2, 1910 — 4923
May 27, 1913 — 5391
Apr. 11, 1916 — 4812
Sept. 5, 1916 — 4812
Nov. 27, 1922 — 5391
Apr. 17, 1926 — 4814
2242 — 4813
5339 — 5126
8923 — 5243
9526 — 5243
10879 — 4893
10880 — 5131

5 CFR

FEDERAL REGISTER

Telephone WOrth 2-3261

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Office of the Federal Register, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D.C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

Rules and Regulations

Title 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 6—EXCEPTIONS FROM THE COMPETITIVE SERVICE

Department of Agriculture

Effective upon publication in the FEDERAL REGISTER, subparagraph (3) is added to § 6.111(i) as set out below.

§ 6.111 Department of Agriculture.

* * * * * *

(i) *Agricultural Research Service.* * * *

(3) Not to exceed 25 professional research associate positions, at GS–11 and above, in the pioneering research laboratories of the Agricultural Research Service to be filled on a temporary basis by scientists with a doctoral degree who possess specialized knowledges or abilities applicable to the basic research programs involved. Employment under this provision shall not exceed one year in any individual case: *Provided*, That such employment may, with the approval of the Commission, be extended for not to exceed an additional year.

(R.S. 1753, sec. 2, 22 Stat. 403, as amended; 5 U.S.C. 631, 633)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] MARY V. WENZEL,
Executive Assistant.

[F.R. Doc. 60–5557; Filed, June 16, 1960; 8:48 a.m.]

PART 30—ANNUAL AND SICK LEAVE REGULATIONS

Recredit of Leave

Effective January 1, 1960, paragraph (d) of § 30.701 is amended as set out below.

§ 30.701 Annual leave.

* * * * * *

(d) When an employee transfers to a position (other than a position excepted from the Act under section 202(b)(1)(B), (C), (H), or (I)) to which he cannot transfer his annual leave because the position is not under an annual leave system, the untransferred leave shall be recredited to him if he returns to the leave system under which it was earned, without a break in service of more than 52 continuous calendar weeks.

(Sec. 206, 65 Stat. 681; 5 U.S.C. 2065)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] MARY V. WENZEL,
Executive Assistant.

[F.R. Doc. 60–5558; Filed, June 16, 1960; 8:48 a.m.]

Title 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[1960 C.C.C. Cotton Bulletin 2, Amdt. 1]

PART 427—COTTON

Subpart—1960 Choice (A) Cotton Price Support Program Regulations

SCHEDULE OF BASE PURCHASE RATES FOR CHOICE (A) UPLAND COTTON

The 1960 C.C.C. Cotton Bulletin 2 is hereby amended by adding § 427.1172 to read as follows:

§ 427.1172 Basic purchase rates by warehouse locations.

The base purchase rates, in cents per pound, gross weight, applicable to Middling white 1-inch Choice (A) upland cotton, under Commodity Credit Corporation's 1960 Choice (A) Cotton Price Support Program, are as follows:

AUTHORITY: §§ 446.1201 to 446.1234 issued under sec. 4, 62 Stat. 1070, as amended; 15 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, 1054, sec. 201, 68 Stat. 899; 73 Stat. 178; 15 U.S.C. 714c, 7 U.S.C. 1441, 1421.

GENERAL

§ 446.1201 Administration.

(a) The program will be administered by the Oils and Peanut Division, CSS, under the general direction and supervision of the Executive Vice President, CCC. In the field, the program will be carried out by Agricultural Stabilization and Conservation State Committees and by Agricultural Stabilization and Conservation County Committees (hereinafter called State and county committees) and the Dallas CSS Commodity Office (hereinafter called the commodity office). State and county committees and the commodity office do not have authority to modify or waive any of the provisions of this subpart or any amendments or supplements thereto.

(b) Associations operating under an Association Loan and Handling Agreement, CCC Peanut Form 27 (1960) with CCC (hereinafter referred to as an Agreement with CCC) may receive, arrange storage for and handle eligible peanuts for and on behalf of eligible producers, using such peanuts as collateral for a loan made available by CCC.

§ 446.1202 Availability.

(a) *Areas.* The program will be available in the following areas:

(1) The Southeastern area consisting of the States of Alabama, Georgia, Mississippi, Florida, and that part of South Carolina south and west of the Santee-Congaree-Broad Rivers.

(2) The Southwestern area consisting of the States of Arizona, Arkansas, California, Louisiana, New Mexico, Oklahoma, and Texas.

(3) The Virginia-Carolina area consisting of the States of Missouri, North Carolina, Tennessee, Virginia, and that part of South Carolina north and east of the Santee-Congaree-Broad Rivers.

(b) *Time.* Loans will be made through January 31, 1961. Nonrecourse loans will mature on May 31, 1961, or such earlier date as may be specified by CCC: *Provided, however,* That CCC may extend the maturity date beyond May 31, 1961. Recourse loans will mature on January 31, 1962. All farm storage loan documents must be dated and delivered to the county office on or before January 31, 1961. Warehouse receipts for peanuts delivered to an association operating under an Agreement with CCC shall show that the peanuts were received in the warehouse not later than January 31, 1961, and shall have been issued within two business days (excluding Saturdays) after the peanuts were received in the warehouse. Purchase agreements will be available at the county office through January 31, 1961. A producer who desires to sell peanuts to CCC is required to file a Purchase Agreement, Form CP-1, with the county office on or before such date.

§ 446.1203 Methods of price support.

Within the limitations prescribed in the Regulations Relating to the $50,000 Limitation on Nonrecourse Price Support for the 1960 Crop of Price Supported Field Crops in Surplus Supply (hereinafter referred to as the "Regulations Relating to the $50,000 Limitation") 25 F.R. 1001, nonrecourse price support will be made available on 1960 crop peanuts through farm storage loans to eligible producers, warehouse storage loans to associations operating under Agreements with CCC, and through purchase agreements with eligible producers. The $50,000 limitation on nonrecourse price support is not applicable to the loan made available to an Association operating under an Agreement with CCC; but the limitation is applicable to the amount of nonrecourse price support obtained by an eligible producer through the Association and otherwise. Recourse price support will be made available only through recourse farm storage loans.

§ 446.1204 Definitions.

As used in this subpart and in instructions and documents in connection therewith, the words and phrases defined in this section shall have the meanings herein assigned to them unless the context or subject matter otherwise requires.

(a) *Association.* A group of producers organized in accordance with the provisions of the Capper-Volstead Act, for the purpose of handling agricultural products for and on behalf of its producer members, which qualifies as a cooperative in the State(s) in which it functions, is approved by CCC, and meets the following requirements:

(1) The major portion of the peanuts handled by the association is delivered to the association by producer members;

(2) The members and non-members who deliver peanuts to the association and who authorize the association to handle and market their peanuts and to obtain price support on such peanuts have a right to share pro rata in the profits made from handling peanuts;

(3) The association has the legal right to pledge or mortgage the peanuts tendered as security for a loan;

(4) The manager of the association shall not be engaged in the business of buying, selling, storing, or dealing in peanuts, other than in his capacity as manager of the association or as a producer; and

(5) The association shall maintain such accounts and records as CCC may prescribe.

(b) *County office.* The office of the ASC county committee where records for the farm are kept.

(c) *Farm.* A farm as defined in the regulation entitled "Reconstitution of Farms, Farm Allotments, and Farm History and Soil Bank Base Acreages" including any amendments or supplements thereto or revision thereof (23 F.R. 6731, 7693, 9505, 10476, 24 F.R. 2642 and 25 F.R. 1065 and 1816) which in general defines a farm as all adjoining or nearby farmland which is operated as one farming unit.

(d) *Farm allotment.* The effective farm allotment for the 1960 crop of peanuts as defined in the marketing quota regulations.

(e) *Farmers stock peanuts.* Picked or threshed peanuts produced in the continental United States during the calendar year 1960, which have not been shelled, crushed, cleaned or otherwise changed (except for removal of foreign

material and loose shelled kernels and excess moisture) from the state in which picked or threshed peanuts are customarily marketed by producers.

(f) *Farm peanut acreage.* The 1960 farm peanut acreage determined in accordance with the marketing quota regulations which in general defines such acreage as the total acreage of peanuts on the farm which is picked or threshed.

(g) *Lot.* That quantity of peanuts for which one inspection memorandum is issued.

(h) *Marketing quota regulations.* The Allotment and Marketing Quota Regulations for peanuts of 1959 and Subsequent Crops issued by the Acting Secretary of Agriculture, including any amendments or supplements thereto or revisions thereof (23 F.R. 8515, 24 F.R. 2677, 6903, 9611 and 25 F.R. 897).

(i) *Net weight.* That weight of farmers stock peanuts obtained by multiplying the gross weight by a percentage equal to 100 percent minus the sum of the percentages of (1) foreign material and (2) moisture in excess of 7 percent in the Southeastern and Southwestern areas or 8 percent in the Virginia-Carolina area.

(j) *Person.* An individual, partnership, firm, joint-stock company, corporation, association, trust, estate, or other legal entity, or a State, political subdivision of a State, or any agency thereof. The rules in the Regulations Relating to the $50,000 Limitation shall be applied to determine whether certain individuals or legal entities engaged in the production of 1960 crop peanuts are to be treated as one person or as separate persons for the purpose of applying the $50,000 limitation.

(k) *Producer advance value.* The support price of eligible farmers stock peanuts less an amount equivalent to $9.00 per net weight ton. The producer advance value of any lot of peanuts pledged to CCC as collateral for a loan to an association shall be determined (as provided in section II, item P of Form MQ–94 or item O of MQ–94—Peanuts V–C) on the basis of the weight, grade and type of peanuts in the lot. The $9.00 deduction is made to provide funds to pay inspection, storage, and part of the association's expenses in connection with the loan program.

(l) *Quota peanuts.* Peanuts which are within the amount of the farm marketing quota determined pursuant to the marketing quota regulations.

(m) *Type.* The generally known types of peanuts (i.e. Runner, Spanish, Valencia, and Virginia) as defined in 7 CFR 729.1104(a) of the "Determination with Respect to Supply of Valencia Type Peanuts for the 1960–61 Marketing Year," issued April 14, 1960 by the Acting Secretary of Agriculture (25 F.R. 3349).

(n) *Sound mature kernels.* Kernels which are free from damage and minor defects as defined in the U.S. Standards for shelled (1) Spanish type peanuts effective August 31, 1959, in the case of Spanish and Valencia peanuts, (2) Runner type peanuts, effective July 31, 1956, or (3) Virginia type peanuts, effective August 31, 1959; and which will not pass through a screen having:

(i) $\frac{15}{64}$ x $\frac{3}{4}$ inch perforations in the case of Spanish and Valencia peanuts,

(ii) $\frac{15}{64}$ x 1 inch perforations in the case of Virginia peanuts,

(iii) $\frac{15}{64}$ x $\frac{3}{4}$ inch perforations in the case of Runner peanuts.

(o) *Extra large kernels.* Shelled Virginia type peanuts which will not pass through a screen having $\frac{25}{64}$ x 1 inch openings and which are "whole" and free from "minor defects" and "damage" as such terms are defined in the U.S. Standards for Shelled Virginia Type Peanuts (effective August 31, 1959).

(p) *Valencia type peanuts suitable for cleaning and roasting.* Valencia type peanuts suitable for cleaning and roasting shall be those containing less than 25 percent discoloration and damage caused by cracked and broken shells.

(q) *Within quota card.* Form MQ–76 (Peanuts) 1960, 1960 Peanut Within Quota Marketing Card, issued pursuant to the marketing quota regulations.

§ 446.1205 Support prices.

The national average support price and support prices and loan rates by types will be issued as an amendment to this subpart.

§ 446.1206 Eligible peanuts.

(a) *Eligible peanuts.* Peanuts eligible for price support are 1960 crop farmers stock peanuts, other than those produced in violation of a restrictive lease on federally owned land, which;

(1) Contain not more than 10 percent foreign material and, except as provided in subparagraph (6) of this paragraph, not more than 7 percent damaged kernels;

(2) Contain moisture not in excess of 10 percent, except that any such peanuts which have been mechanically dried shall contain at least 6 percent moisture.

(3) Are produced by an eligible producer on a farm (i) on which the 1960 farm peanut acreage does not exceed the effective farm allotment determined in accordance with the marketing quota regulations, (ii) on which the farm peanut acreage exceeds the effective farm allotment if the producer establishes to the satisfaction of CCC, as provided in paragraph (c) of this section, that he did not knowingly exceed such farm allotment, or (iii) for which a within quota marketing card is issued upon the execution of Form MQ–92—Peanuts (3–26–58), Agreement by Operator of Overplanted Peanut Farm: *Provided, however,* That the county committee may decline to execute such agreement in any case where it finds reasonable grounds to believe that it will be used as a device to evade the requirements of the price support program or the collection of marketing penalty.

(4) Are free and clear of all liens and encumbrances, including landlord's liens, or if liens or encumbrances exist on the peanuts, acceptable waivers are obtained; and

(5) In the Southwest area, if such peanuts are bagged, the bags are new or thoroughly cleaned used bags which are made of material, other than mesh or net, weighing not less than 7½ ounces nor more than 10 ounces per square yard and containing no sisal fibers, are free from holes, and are finished at the top with either the selvage edge of the material, binding or a hem. Such bags shall be of uniform size with approximately 2-bushel capacity.

(6) In the case of bulk stored Virginia type peanuts at CCC bin sites in Southampton, Greensville, Surry and Sussex Counties in the State of Virginia, CCC may determine that the eligibility requirements with respect to moisture and damage have been met if, on the basis of a preliminary grade determined from a preliminary sample drawn by a Federal-State inspector, the percentage of damage does not exceed 7 percent and the percent of moisture does not exceed 10 percent. However, the official grade determined from the official sample drawn by the Federal-State inspector subsequent to the preliminary grade determination shall be used in determining the support price, and if the official grade shows the damage to be in excess of 7 percent the following discounts will be applied.

Peanuts containing damaged kernels of:	Discount per ton
8 percent	$46.00
9 percent	96.00
10 percent	96.00
11 percent and above	136.00

(b) *Agreement by operator of overplanted peanut farm.* By execution of Form MQ–92—Peanuts (3–26–58), Agreement by Operator of Overplanted Peanut Farm, the operator agrees that the farm peanut acreage will not exceed the larger of the farm allotment or one acre, and if such undertaking is breached to pay liquidated damages to CCC, determined in accordance with the terms of such agreement, and to pay any marketing penalties determined to be due the Secretary of Agriculture. The liquidated damages provided for under such agreement will not be due CCC in a case where it is determined by CCC that the breach of such agreement was unintentional and occurred despite a bona fide effort by the operator and other producers on the farm to comply with such agreement. The State administrative officer, or in his absence, the acting administrative officer, is authorized to make such determination in a case where the farm peanut acreage does not exceed the acreage specified in the agreement by more than the larger one-tenth acre or two percent of the acreage specified in the agreement. The State committee is authorized to make such determination in a case where the farm peanut acreage exceeds the acreage specified in the agreement by more than the larger of one-tenth acre or two percent of the acreage specified in the agreement and the State committee also determines that the amount by which the farm peanut acreage exceeded the acreage specified in the agreement was so small, in relation to the acreage so specified, that it did not materially impair CCC's price support operations.

(c) *Determination that producer unknowingly exceeded the effective farm allotment.* A producer on a farm on which the farm peanut acreage exceeds the effective farm allotment shall be deemed not to have knowingly exceeded such allotment within the meaning of paragraph (a)(3)(ii) of this section if (1) the excess acreage is determined in accordance with the marketing quota regulations, to be zero, (2) the liquidated damages provided for as the result of a breach of the terms of Form MQ–92—Peanuts are not due CCC under the provisions of paragraph (b) of this section, (3) an erroneous notice of measured acreage was issued to the producer and the farm peanut acreage is deemed to be equal to the effective farm allotment under the provisions of the peanut marketing quota program, or (4) the producer exceeded the effective farm allotment under circumstances which are not provided for under subparagraphs (1), (2), and (3) of this paragraph, and CCC determines that the producer unknowingly exceeded such allotment.

§ 446.1207 Eligible producer.

(a) An eligible producer shall be a person who is entitled to share as landowner, landlord, tenant, or sharecropper, in peanuts produced on the farm in 1960. An eligible producer may receive nonrecourse price support in excess of $50,000 on 1960 crop peanuts only in the event that he has made the required reduction in production and has qualified for an exemption from the $50,000 limitation in accordance with the regulations relating to the $50,000 limitation. Executors, administrators, trustees, or receivers who represent an eligible producer or his estate may qualify for price support provided the loan or purchase agreement documents executed by them are legally valid. A producer will be eligible for price support with respect to all eligible peanuts in which the beneficial interest is in him and has always been in him, or in him and a former producer whom he succeeded before the peanuts were harvested: *Provided,* That, upon request by the county committee and within the time prescribed thereby, the producer files with the county committee a CCC Form 116 giving information as required thereon regarding his interest in peanuts produced in 1960 and peanut price support obtained or applied for on such peanuts. To meet the requirements of succession to a former producer, the rights, responsibilities, and interest of the former producer with respect to the farming unit on which the peanuts are produced shall have been substantially assumed by the producer claiming succession. Mere purchase of the crop prior to harvest, without acquisition of any additional interest in the farming unit, shall not constitute succession. Any producer who is in doubt as to whether his interest in the peanuts complies with the requirements of this section should make all pertinent information available to the county office. The county committee shall determine whether the requirements have been met.

(b) Two or more eligible producers may obtain a joint farm storage loan on eligible peanuts produced by them if stored, separately from any other peanuts, in the same farm-storage facility. Except as provided in § 446.1211(f) in the case of joint loans, each person signing the note shall be held jointly and severally responsible for the obligations imposed by the loan. For purposes of applying the $50,000 nonrecourse price support limitation, in the case of joint loans each producer shall be deemed to have been extended price support to the extent of his interest in the joint loan, as shown on the Producer's Note and Supplemental Loan Agreement.

(c) Where the county office has experienced difficulty in settling a farm storage loan with a producer, the county committee may determine that he is not eligible for a 1960 crop nonrecourse farm storage loan. If such determination is made, the producer shall be able to obtain a 1960 crop nonrecourse loan through the association by delivering eligible peanuts to a warehouse under contract to receive peanuts for such association, or he shall be permitted to sign a purchase agreement.

§ 446.1208 Determination of type and grade of farmers stock peanuts.

(a) A Federal or Federal-State inspector, authorized or licensed by the Secretary of Agriculture, U.S. Department of Agriculture, shall determine the type and grade of each lot of farmers stock peanuts:

(1) To be mortgaged as security for a farm storage loan, such type and grade to be determined on the basis of a sample taken by the county committee before the loan is made;

(2) When delivered in settlement of a farm storage loan;

(3) When delivered to CCC under a purchase agreement;

(4) When received in a warehouse under contract CCC Peanut Form 28 (1960) or CCC Peanut Form 28A (1960);

(5) When delivered to CCC from a warehouse under contract CCC Peanut Form 28 (1960) or CCC Peanut Form 28A (1960).

(b) The grade shall be expressed in terms of the percentages of sound mature kernels, damaged kernels, loose shelled kernels, other kernels, foreign material, moisture, fancy size, and extra large kernels in Virginia type peanuts.

§ 446.1209 Service charges and fees.

(a) On the quantity of peanuts placed under a farm storage loan the producer shall pay an initial service charge in the amount of 30 cents per ton, except that the minimum charge shall be $3.00. An additional service charge at the rate of 30 cents per ton shall be paid on any additional quantity delivered to and accepted by CCC. On the quantity of peanuts covered by a purchase agreement the producer shall pay, at the time the agreement is filed, a service charge of 15 cents per ton or fraction thereof, except that the minimum charge shall be $1.50. No refund of service charges will be made except where the amount collected exceeds the correct amount. State committees may, at their option, require a deposit on farm storage loans, such deposit to be applied against the service charge when the loan is granted.

(b) The producer will pay the fee for inspecting peanuts placed under a farm storage or association loan or delivered to CCC under a purchase agreement. CCC will pay the fee for inspecting loan collateral peanuts acquired by CCC.

(c) The association will pay the warehouse charges on peanuts redeemed. CCC will pay warehouse charges with respect to loan collateral peanuts acquired by CCC, except that the producer will be required to defray storage charges accruing prior to the date on which CCC acquires title to such collateral.

(d) The service charges and fees specified in this section will be computed on net weights.

§ 446.1210 Interest rate.

(a) *Nonrecourse loans.* Nonrecourse loans shall bear interest at the rate of 3½ percent per annum from the date of disbursement of the loan, except that where there has been a fraudulent representation by the producer in the loan documents or in obtaining the loan, the loan shall bear interest at the rate of 6 percent per annum from the date of disbursement of the loan.

(b) *Recourse loans.* Recourse farm storage loans and charges shall bear interest at the rate of 6 percent per annum from the date of disbursement; except that, if any amounts are repaid on or before May 31, 1961, the rate of interest thereon shall be 3½ percent per annum from the date of disbursement. Notwithstanding the foregoing if the producer has made a wilful misrepresentation in obtaining the loan, the principal amount of the loan and any charges shall bear interest at the rate of 6 percent per annum from the date of disbursement thereof until the date of repayment.

§ 446.1211 Application of the $50,000 limitation to nonrecourse loans and purchase agreements.

(a) The amount of nonrecourse peanut price support which may be extended to a person who has not qualified for unlimited nonrecourse peanut price support in accordance with the regulations relating to the $50,000 limitation, shall not exceed $50,000. (The rules provided in the regulations relating to the $50,000 limitation shall be applied to determine whether certain individuals or legal entities are to be treated as one person or as separate persons for the purpose of applying this $50,000 limitation.) For the purpose of determining the amount of nonrecourse peanut price support extended to a person who has not qualified for unlimited nonrecourse peanut price support, there shall be totalled (i) the amount of any nonrecourse farm storage loan and any additional amount paid at settlement; (ii) the amount of any advance with respect to peanuts delivered to an association operating under an agreement with CCC, plus any amount withheld for association loan expenses, inspection fees, and storage costs; and (iii) the settlement value of any peanuts delivered to CCC under a purchase agreement.

(b) Settlement with any producer who has not qualified for unlimited nonrecourse peanut price support, shall be made as provided in paragraph (c) of this section if, in the absence of fraud:

(1) There is delivered under a farm-storage loan or purchase agreement a quantity of peanuts which, if accepted by

CCC as a delivery under nonrecourse price support, would result in a person receiving nonrecourse peanut price support in excess of $50,000; or

(2) There is under pledge to CCC through an association, a quantity of peanuts which, if CCC were to accept title in settlement under nonrecourse price support, would result in a person receiving nonrecourse price support on peanuts in excess of $50,000; or

(3) The loan or purchase agreement has resulted in a person receiving nonrecourse peanut price support in excess of $50,000.

(c) Under the circumstances specified in paragraph (b) of this section, CCC shall:

(1) Make available to the producer to whom a farm storage loan or with whom a purchase agreement was made, or who obtained price support through an association, a quantity of peanuts which has a value under price support operations equal to the excess above $50,000 as determined by CCC (such quantity of peanuts is hereinafter referred to in this section as "excess peanuts"), or

(2) Sell the quantity of excess peanuts at the market price for the producer's account and settle with him on the basis of the net proceeds; or

(3) When it is not practical to effect full settlement as provided in subparagraphs (1) and (2) of this paragraph, accept the quantity of excess peanuts for which settlement has not been so effected, at the market value on the date of delivery, or on the maturity date in the case of an Association loan, or the price support value, whichever is lower, as determined by CCC. Settlement provided for in this paragraph (c) shall be made basis point of delivery to CCC in case of a farm storage loan or purchase agreement or basis point of storage while under pledge in the case of a loan to an Association. All costs incurred by CCC in connection with such excess peanuts shall be paid by the producer.

(d) In the absence of fraud, the producer shall refund to CCC, promptly upon demand, the total amount of any nonrecourse peanut price support in excess of $50,000 received by a person as a result of a loan to or on behalf of, or purchase agreement with, the producer, plus all costs incurred by CCC on the excess peanuts, together with interest thereon, less any amount due the producer under this section. The rate of interest payable by the producer on the amounts due CCC shall be 6 percent per annum from the date of disbursement, except that if any of such amounts are repaid on or before May 31, 1961, the rate of interest thereon shall be 3½ percent per annum from the date of disbursement.

(e) Notwithstanding anything contained in this section, CCC shall not accept the delivery of any excess peanuts from a producer, or accept a pledge of excess peanuts, where it is practicable to determine, at the time of delivery or pledge, the quantity of peanuts which would result in nonrecourse peanut price support being extended to a person in an amount exceeding $50,000.

(f) In the case of joint loans, the term "producer" as used in paragraphs (c), (d), and (e) of this section, shall refer to the producer whose share of the joint loan has resulted or would result in a person receiving nonrecourse price support in excess of $50,000.

§ 446.1212 Applicable forms and requirements.

(a) *Farm storage loans.* Applicable forms are the Producer's Note and Supplemental Loan Agreement, Commodity Chattel Mortgage, delivery instructions issued by the county office, Loan Settlement, and such other forms and documents as may be required by CCC.

(b) *Purchase agreements.* Applicable forms are the Purchase Agreement, Purchase Agreement Settlement, the delivery instructions issued by the county office, and such other forms and documents as may be required by CCC.

(c) *Nonrecourse price support in excess of $50,000 based on reduction in production.* Applicable forms are the Application for Exemption from the Limitation on Nonrecourse Price Support, and such other forms or documents as may be required by CCC.

(d) *Other requirements.* Producer's Note and Supplemental Loan Agreements, and Commodity Chattel Mortgages must have State and documentary revenue stamps affixed thereto where required by law. Loan and purchase agreement documents executed by an administrator, executor, or trustee, will be acceptable only where legally valid.

(e) *Storage of peanuts under farm storage loans and purchase agreements.* Peanuts covered by a nonrecourse farm storage loan shall be stored separately from peanuts covered by a recourse farm storage loan so that the identity of the collateral for each type of loan is maintained at all times. Peanuts covered by a purchase agreement shall be stored separately from all other peanuts.

§ 446.1213 Personal liability of the borrower.

(a) The making of any fraudulent representation in obtaining a loan (whether nonrecourse or recourse) or the conversion or unlawful disposition of any portion of the peanuts by the producer or the association may render such producer or association subject to criminal prosecution under Federal law and shall render him or it personally liable for the amount of the loan made with respect to such peanuts and for any resulting expense incurred by the holder of the note, plus interest. Any such loan shall become payable upon demand. For the purpose of establishing any deficiency remaining due with respect to a nonrecourse farm storage loan in the event the producer has made any such fraudulent representation, wilful conversion or unlawful disposition, the value of the peanuts delivered to the holder of the note or removed by such holder shall be the market value on the date of delivery or removal as determined by such holder: *Provided, however,* That notwithstanding the provisions of the Producer's Note and Supplemental Loan Agreement, if the conversion of nonrecourse loan collateral is determined by CCC not to have been wilful, the value of the peanuts delivered to the holder of the note or removed by such holder shall be the settlement value determined pursuant to § 446.1229(e). For the purpose of establishing any deficiency remaining due with respect to a loan to an association in the event the producer has made any fraudulent representation, the value of any peanuts acquired by the holder of the note, whether by delivery or otherwise, in satisfaction of the warehouse receipts for the peanuts for which such fraudulent representation was made shall be the market value, as determined by the holder of the note, of such peanuts as of the date of such acquisition. For purposes of establishing any deficiency remaining due with respect to a loan to an association in the event of conversion or unlawful disposition by the association of any portion of the peanuts stored in a warehouse, the value of all peanuts acquired by the holder of the note in satisfaction of warehouse receipts issued for peanuts received for storage in such warehouse, shall be the market value, as determined by the holder of the note, as of the date of acquisition by such holder, whether by delivery or otherwise: *Provided, however,* That notwithstanding anything contained in this section, in the case of a nonrecourse loan, if the conversion is determined by CCC not to have been wilful, the value of the peanuts acquired by the holder of the note shall be the amount of the loan made with respect to such peanuts.

(b) In the event the amount disbursed under a loan or purchase agreement exceeds the amount authorized in this subpart, the producer or association, as the case may be, shall be liable for repayment of the amount of such excess.

§ 446.1214 Payments and collections; amounts not exceeding $3.

To avoid administrative costs of making small payments and handling small accounts, amounts of $3 or less due a producer will be paid only upon request; and a deficiency of $3 or less, including interest, may be disregarded unless demand for payment is made by CCC.

§ 446.1215 Setoffs.

(a) If any installment or installments on any loan made available by CCC on farm storage facilities or mobile drying equipment are payable, under the provisions of the note evidencing such loan, out of any amount due the producer under the program provided for in this subpart, the producer must designate CCC or the lending agency holding such note as payee of such amount to the extent of such installments, but not to exceed that portion of the amount remaining after deduction of service charges and amounts due prior lienholders.

(b) If the producer is indebted to CCC, or if the producer is indebted to any other agency of the United States, and such indebtedness is listed on the county debt record, amounts due the producer under the program provided for in this subpart, after deduction of amounts payable on farm storage facilities or mobile drying equipment and other amounts provided in paragraph (a) of this section, shall be applied, as provided in the Secretary's setoff regulations, 7 CFR Part 13 (23 F.R. 3757), to such indebtedness.

(c) Associations shall deduct from their advance payments to producers, and remit in accordance with procedure approved by CSS, the amount of indebtedness as shown on the marketing cards presented at the time the peanuts are received, plus interest.

(d) Compliance with the provisions of this section shall not deprive the producer of any right he might otherwise have to contest the justness of the indebtedness involved in the setoff action either by administrative appeal or by legal action.

§ 446.1216 Foreclosure.

(a) *Nonrecourse farm storage loans.* (1) If a nonrecourse loan (including charges and interest) is not satisfied upon maturity by payment, or by delivery of the peanuts from farm storage, the holder of the note is authorized to remove the peanuts from storage and also to sell, assign, transfer, and deliver the peanuts or documents evidencing title thereto at such time, in such manner, and upon such terms as the holder of the note may determine, at public or private sale, and the holder of the note may become the purchaser of the whole or any part of the peanuts. Any such disposition may similarly be effected without removing the peanuts from storage.

(2) If, upon maturity and nonpayment of the producer's note, CCC as the holder of the note, then at CCC's election title to the unredeemed collateral securing the note shall, without a sale thereof, immediately vest in CCC. Whenever CCC acquires title to the unredeemed collateral, CCC shall have no obligation to pay for any market value which such collateral may have in excess of the loan indebtedness, i.e. the unpaid amount of the note plus charges and interest. Nothing herein shall preclude the making of the following payments to the producer or his personal representative only, without right of assignment to or substitution of any other party:

(i) Any amount by which the settlement value of the mortgaged peanuts may exceed the principal amount of the loan; or

(ii) The amount by which the proceeds of sale may exceed the loan indebtedness if the loan collateral is sold to third parties rather than CCC acquiring full title to such loan collateral.

(b) *Recourse farm storage loans.* If a recourse loan is not repaid in full upon maturity, or upon an earlier date if the holder of the note determines that the peanuts can no longer be stored because of danger of deterioration or other reasons, the holder of the note is authorized to remove the peanuts from storage and also to sell, assign, transfer and deliver the peanuts or documents evidencing title thereto at such time, in such manner, and upon such terms as the holder may determine, at public or private sale. Any such disposition may similarly be effected without removing the peanuts from storage. Any amount due the producer from the sale of the peanuts or from an insurance indemnity paid on the peanuts, after deducting the amount of the loan, charges and interest, shall be payable only to the producer without right of assignment by him. If the peanuts removed by the holder of the note from storage are sold at less than the amount due on the recourse loan, including charges and interest, the producer shall pay to the holder the difference between the amount due on the recourse loan and the sales proceeds. Such payment shall be made promptly upon demand, unless the peanuts are sold prior to the maturity date, in which event such payment shall be made to the holder on the maturity date. The amount of the deficiency may be set off against any payment which would otherwise be due the producer as provided in § 446.1229(c).

(c) *Association loans.* Upon maturity and nonpayment of an association loan as provided in § 446.1230, title to the unredeemed collateral peanuts shall, without sale thereof, immediately vest in CCC, and CCC shall have no obligation to pay for any market value which such collateral may have in excess of the loan indebtedness, including charges and interest.

§ 446.1217 Financial institutions.

As used in this subpart a financial institution is a commercial bank which accepts demand deposits, or an association organized pursuant to State laws and supervised by State banking authorities, or a production credit association.

§ 446.1218 Approved lending agency.

An approved lending agency shall be a bank or other financial institution with which CCC has entered into a lending agency agreement, CCC Peanut Form 50 (1960), authorizing the lending agency to make a loan to an association. Approved lending agencies will have the election of obtaining immediate reimbursement from CCC for all or part of the funds advanced under the association loan, or of investing in the CCC pool of price support loans by requesting issuance of a certificate of interest for all or part of the funds advanced under the association loan.

§ 446.1219 Servicing association loans.

Lending agencies shall act as agents for CCC in servicing the loan made to an association.

§ 446.1220 Compensation for hauling.

If the producer is directed by the county office to deliver, to a location other than his customary delivery point, peanuts under a nonrecourse farm storage loan or a purchase agreement, the producer shall be allowed compensation (as determined by CCC, but not to exceed the common carrier truck rate or the rate available from local truckers) for the additional cost of hauling the peanuts any distance greater than the distance from the point where the peanuts are stored by the producer to the customary delivery point.

PRODUCER LOANS (FARM STORAGE LOANS)

§ 446.1221 Farm storage loans available at county office.

(a) Both nonrecourse and recourse loans will be available to eligible producers on eligible peanuts in approved farm storage. Producers who want to obtain such loans shall apply at the county office where the farm program records are kept, and that office will arrange for inspection, sampling, and grading of the peanuts. After it is determined that the producer, the peanuts, and the storage facilities meet requirements, the county office will determine whether the loan is to be a nonrecourse or a recourse loan, and the amount of the loan(a). The county office will also prepare and approve the loan documents. Copies of all such documents will be kept in the county office.

(b) A nonrecourse farm storage loan will be available to an eligible producer, who has not qualified for unlimited peanut price support in accordance with the Regulations Relating to the $50,000 Limitation, only in that amount which the county office determines will not cause the total amount of peanut price support on 1960 crop peanuts extended to a person, as specified in § 446.1211(a) to exceed the $50,000 limitation. A recourse farm storage loan will be available to an eligible producer who desires to obtain peanut price support in excess of the amount of nonrecourse peanut price support which may be extended to a person.

§ 446.1222 Approved farm storage.

Approved farm storage shall consist of storage structures located on or off the farm (excluding public warehouses) which are determined by the county office to be so located and of such substantial and permanent construction as to afford safe storage for peanuts. Such structures shall be dry and well-ventilated.

§ 446.1223 Quantity determinations.

(a) *Quantity on which a nonrecourse or recourse loan may be made.* Farm storage loans shall be made on the entire quantity of peanuts stored in a bin or crib, except where the county committee has determined that a nonrecourse loan on part of the peanuts stored therein is necessary to enable an otherwise eligible producer to obtain a price support loan. However, approval of a loan on part of the peanuts stored in a bin or crib shall not be granted in the event the State committee has determined on a State-wide basis that such partial loans shall not be made, or in the event the other peanuts stored in such bin or crib are recourse loan collateral.

(b) *Weight of peanuts placed under loan.* The net weight of the peanuts placed under a nonrecourse or recourse farm storage loan will be calculated from an estimated gross weight determined as provided in this paragraph.

(1) Peanuts stored in bulk: The estimated gross weight of bulk peanuts may be determined either by actual weight or by measurement. When the quantity is determined by measurement, the gross

weight shall be computed on the number of pounds per cubic foot indicated below for the type of peanuts being placed under loan:

Type:	Weight per cubic foot (pounds)
Runner	16.9
Spanish	19.7
Valencia	17.5
Virginia	19.5

(2) Peanuts stored in bags: The estimated gross weight of bagged peanuts shall be determined by weighing a sufficient number of bags to estimate the gross weight of all the bags, or the gross weight may be determined by weighing all the bags.

(3) A minimum reduction of 5 percent in the estimated gross weight, determined as provided in subparagraph (1) or (2) of this paragraph is required with regard to both nonrecourse and recourse loan peanuts in an effort to avoid deficiencies at maturity in the event the loans are not repaid.

(c) *Peanuts delivered to CCC at maturity.* The net weight of peanuts delivered to CCC upon maturity of a nonrecourse loan and the net weight of recourse loan collateral removed from storage pursuant to § 446.1216(b) shall be calculated from the gross weight determined by actual weight at the time of delivery.

§ 446.1224 Disbursement.

Disbursement of farm storage nonrecourse or recourse loans will be made to producers by financial institutions, pursuant to the Provisions for Participation of Financial Institutions in Pools of CCC Price Support Loans of Certain Commodities, 23 F.R. 3913 as amended, or by sight drafts drawn on CCC by the county office. Disbursement shall not be made after February 15, 1961, unless authorized by the Executive Vice President, CCC. Payment in cash, credit to the producer's account, or the drawing of a check or draft shall constitute disbursement. The date of such draft, check, credit, or cash payment shall be considered as the date of disbursement of the funds. The producer shall not present the loan documents for disbursement unless the peanuts are in existence and in good condition. If the peanuts are not in existence and not in good condition at the time of disbursement, the total amount disbursed under the loan shall be promptly refunded by the producer.

§ 446.1225 Insurance.

(a) *Nonrecourse loans.* CCC will not require the borrower to insure the peanuts placed under a nonrecourse farm storage loan. However, if a borrower does insure such peanuts and an insurance indemnity is paid thereon, the insurance proceeds shall be paid to CCC to the extent of its interest after first satisfying the borrower's equity in the peanuts involved in the loss.

(b) *Recourse loans.* The producer who obtains a recourse farm storage loan is required to insure at his expense, and at not less than the full market value, the total quantity of loan collateral. Insurance will be required against loss or damage due to no fewer than the following causes: Fire, lightning, inherent explosion, windstorm, cyclones and tornadoes. Any indemnity paid with respect to peanuts which are collateral for a recourse loan shall inure to the benefit of CCC to the extent of its interest, and the producer shall remain personally liable to CCC for any amount by which the recourse loan, including charges and interest, exceeds such indemnity. The producer shall not be relieved of liability if the peanuts are lost or damaged due to causes for which insurance is not provided.

§ 446.1226 Safeguarding the peanuts.

The producer who obtains a farm storage loan is obligated to maintain the storage structure in good repair and to keep the peanuts in storage and in good condition until the loan is liquidated.

§ 446.1227 Loss or damage to the peanuts under farm storage loan.

(a) *Nonrecourse loans.* (1) The producer is responsible for any loss in grade and for any loss in weight, except as provided in § 446.1229. Notwithstanding the foregoing, physical loss or damage occurring after disbursement of the nonrecourse loan funds will be assumed by CCC to the extent of the settlement value at the time of destruction of the quantity of peanuts destroyed, or in an amount equivalent to the extent of the damage as determined by CCC, less any insurance proceeds to which CCC may be entitled and the salvage value of the peanuts, if the producer establishes to the satisfaction of CCC each of the following conditions:

(i) The physical loss or damage occurred without fault, negligence, or conversion on the part of the producer, or any other person having control of the storage structure;

(ii) The physical loss or damage resulted solely from an external cause (other than insect infestation, rodents or vermin), such as theft, fire, lightning, inherent explosion, windstorm, cyclone, tornado, flood or other external cause;

(iii) The producer has given the county office immediate notice confirmed in writing of such loss or damage;

(iv) The producer has made no fraudulent representation in the loan documents or in obtaining the loan.

(2) No physical loss or damage occurring prior to disbursement of the loan funds will be assumed by CCC.

(b) *Recourse loan.* CCC will not assume any loss in weight and grade of peanuts placed under a recourse farm storage loan.

§ 446.1228 Redemption of the peanuts under farm storage loan.

(a) *Nonrecourse loan.* (1) A producer may, at any time prior to the date on which the peanuts are delivered to or removed by CCC, redeem the peanuts remaining under nonrecourse farm storage loan by paying to CCC the principal amount of the note, plus charges and accrued interest. The producer shall pay any charges incurred in collecting the amount due.

(2) After the appropriate amount has been paid, the county office manager shall arrange for the release of the chattel mortgage. The producer may arrange for partial release of the peanuts prior to maturity after making payment for the quantity of peanuts to be released plus charges and accrued interest; however, if the quantity of peanuts contained in the bin or crib and covered by the chattel mortgage is greater than the quantity with respect to which the amount of the loan was computed, all or part of such excess may be removed without payment of the loan, but only upon prior approval of the county office. Partial redemption of nonrecourse farm storage loans and release of the peanuts will not be approved by the county committee in the event the State committee has determined on a Statewide basis that partial redemption of loans and releases of peanuts will not be permitted. A producer who wishes to contract for the sale of mortgaged peanuts and use the proceeds of the sale to repay all or any part of the loan shall obtain written prior approval of the county committee, on Commodity Loan Form 12, to remove the peanuts from storage. Any such approval shall be subject to the terms and conditions in the Commodity Loan Form 12, copies of which may be obtained by producers or prospective purchasers at the office of the county committee.

(b) *Recourse loan.* Partial repayments of recourse farm storage loans will be accepted; however, no portion of the recourse loan collateral may be released to the producer prior to the full repayment of the recourse loan, including charges and interest.

§ 446.1229 Settlement of farm storage loans.

(a) *Nonrecourse loan.* Settlement of all nonrecourse farm storage loans shall be subject to the provisions of this paragraph (a). In addition, if the person has not qualified for unlimited nonrecourse peanut price support in accordance with the regulations relating to the $50,000 limitation, settlement shall also be subject to the provisions of § 446.1211.

(1) If the producer does not redeem the peanuts as provided in § 446.1228, he shall deliver the nonrecourse loan collateral peanuts in accordance with instructions issued by the county office. If the producer fails to repay the loan or deliver the mortgaged peanuts as instructed, he will be responsible for all costs of removal incurred by the holder of the note.

(2) (i) If, either before or after maturity, the peanuts are in danger of going out of condition, the producer shall so notify the county office and confirm such notice in writing.

(ii) If the county committee determines that the peanuts are in danger of going out of condition and that they cannot be satisfactorily conditioned by the producer, and delivery cannot be accepted within a reasonable length of time the county office shall arrange for an inspection and grade determination to be made at the expense of CCC. When delivery is completed, settlement shall be made on the basis of such grade or the grade determined at the time of delivery, whichever is higher.

(3) In the event the farm is sold, the producer dies, or there is a change of tenancy, the peanuts may be delivered before the maturity date of the loan, upon prior approval by the county committee. Peanuts also may be delivered before the maturity date of the loan for other reasons upon authorization by the Executive Vice President, CCC.

(4) Delivery of peanuts in bulk will be accepted only from the structure(s) in which the peanuts under loan are stored. The maximum quantity eligible for delivery in cases where a loan has been made on part of the peanuts in the bin shall be the quantity on which the loan was made plus any normal overrun established by the State committee. In the case of peanuts stored in bags, only the identical bags under loan shall be delivered.

(5) The settlement value of the peanuts delivered to and accepted by CCC shall be the amount, computed on the basis of the quantity and the support price for the type and grade (except as provided above for peanuts going out of condition) of such peanuts, plus an allowance for shrinkage during the storage period of four-tenths of a cent (0.004) per net weight pound delivered and an allowance for the actual shrinkage during the storage period of the extra large kernels in Virginia type peanuts: *Provided, however,* That the settlement value for the peanuts delivered to CCC which do not meet the requirements with respect to moisture, damage or foreign material in § 446.1206 shall be computed at a rate equal to the support price for the type and grade placed under loan, less any difference, at the time of delivery, between the market price for the type and grade placed under loan and the market price of the peanuts delivered, as determined by CCC: *Provided, further,* That if the value of the peanuts delivered (including the shrinkage allowance and allowance for loss in extra large kernels in Virginia type peanuts) is less than the amount of the loan with respect to such peanuts, and CCC determines that the deficiency resulted from abnormal climatic conditions which prevailed throughout the area or locality in which the peanuts were produced and which caused the development of progressive damage in the peanuts during storage, that such damage would not normally be detected or appraised accurately by a reasonably prudent person in control of the storage structure, and that the producer has complied with the other provisions of the Producer's Note and Supplemental Loan Agreement and the Commodity Chattel Mortgage, (i) if the net weight of all peanuts delivered, plus the net weight of the peanuts redeemed prior to such delivery, equals or exceeds 97 percent of the net weight of the peanuts on which the loan was made CCC may relieve the producer from liability for the deficiency, or (ii) if the net weight of the peanuts delivered, plus the net weight of peanuts redeemed prior to such delivery, is less than 97 percent of the net weight of the peanuts on which the loan was made, CCC may relieve the producer from liability for that part of the deficiency which exceeds an amount equal to the loan value per pound of the peanuts under loan multiplied by the number of pounds by which the net weight of the peanuts delivered, plus the net weight of peanuts redeemed prior to such delivery, is less than 97 percent of the net weight of the peanuts on which the loan was made.

(6) Subject to the provisions of § 446.1211, if the settlement value of the peanuts delivered exceeds the amount due on the loan (excluding interest), such excess amount will be paid to the producer. Any payment due the producer will be made by sight draft drawn on CCC by the county office.

(7) If the settlement value of the peanuts delivered to and accepted by CCC is less than the amount due on the loan (excluding interest) the producer shall pay CCC for the deficiency, plus interest thereon, unless the deficiency resulted from loss or damage assumed by CCC pursuant to § 446.1227.

(8) Notwithstanding the provisions of subparagraph (7) of this paragraph (a), if CCC removes peanuts from farm storage pursuant to § 446.1216 and sells such peanuts for an amount less than the amount due on the loan (excluding interest) and the grade or quantity of the peanuts removed is lower than the grade or quantity on which the loan was made, the producer shall pay to CCC the difference between the amount due on the loan and the higher of the sales proceeds or the settlement value of the peanuts removed by CCC, plus interest. Such payment shall be in addition to that specified in subparagraph (1) of this paragraph (a). The settlement value of peanuts removed by CCC shall be determined in the manner specified in subparagraph (5) of this paragraph (a) for determining the settlement value of peanuts delivered to CCC.

(b) *Recourse loan.* The producer is required to repay his recourse farm storage loan on or before the maturity date. The amount to be repaid is the amount of the loan plus charges and interest. If, before maturity, the peanuts are in danger of going out of condition, the producer shall so notify the county office and confirm such notice in writing. If the county committee determines that the peanuts can no longer be stored because of danger of deterioration or for other reasons, they may be sold as provided in § 446.1216(b), unless the producer repays the loan, charges and interest, within the time prescribed. Any amount by which the net proceeds from the sale of the collateral peanuts exceeds the recourse indebtedness for any producer shall be paid to such producer. Any unliquidated balance due CCC shall be collected by appropriate means. The charges shall include all fees, costs and expenses incident to carrying, handling, storing, insuring, conditioning and marketing the peanuts and otherwise protecting the interest in the loan collateral of any holder of the note or the producer, including foreclosure costs.

(c) Any amount due CCC from the producer with respect to a nonrecourse or a recourse loan may be set off against any payment which would otherwise be due to the producer under any agricultural program administered by the Secretary of Agriculture or any other payments which are due or may become due the producer from CCC or any other agency of the United States.

ASSOCIATION LOANS (WAREHOUSE STORAGE LOANS)

§ 446.1230 Loans to associations.

(a) Nonrecourse loans on eligible peanuts handled on behalf of eligible producers, stored in approved warehouses, and represented by warehouse receipts in a form prescribed by CCC will be available to associations which receive, arrange storage for and handle peanuts for and on behalf of eligible producers and for and on behalf of eligible producers represented by bona fide producer marketing cooperatives which meet the criteria established for an association in § 446.1204(a), which are approved by CCC, and which are operating under an agreement with the association. Such loans will be made pursuant to the terms of the Association Loan and Handling Agreement, CCC Peanut Form 27 (1960), between the associations and CCC. The $50,000 limitation on nonrecourse peanut price support specified in § 446.1211 shall apply to the total amount of nonrecourse price support extended to a person including the amount made available through an association. The association may receive eligible peanuts from eligible producers who are not members of the association and use such peanuts as loan collateral. Approved storage for peanuts under loan to an association will be warehouses approved pursuant to instructions issued by CCC and operated under contract with the association or with CCC. The names and locations of such warehouses may be obtained from the association or the county office. The association may obtain the loan from an approved lending agency or from CCC. Unless otherwise authorized by CCC, each producer from whom the association receives peanuts must present his within quota card at the time he delivers the peanuts for storage. For each lot of peanuts received, the association shall make an advance payment to the producer in the amount of the producer advance value for such peanuts. At any time prior to acquisition of peanuts by CCC the association may redeem peanuts for sale in accordance with policies established by CCC.

(b) The association shall distribute to the producers from whom it receives peanuts all proceeds from the handling of such peanuts under loan, less operating expenses, unless other disposition of such proceeds is approved by CCC.

PURCHASE AGREEMENTS

§ 446.1231 Purchase agreement provisions.

Purchase agreements will be available to eligible producers on eligible peanuts stored on the farm or stored off the farm on an identity preserved basis. Any peanuts stored off the farm on other than an identity preserved basis shall not be eligible for sale to CCC. The producer who signs a purchase agreement will not be obligated to sell any quantity of the

peanuts to CCC. However, subject to the provisions of § 446.1211, he may sell to CCC any quantity of eligible peanuts not in excess of the quantity stated in the purchase agreement. The producer may not assign his interest in a purchase agreement.

§ 446.1232 Delivery of peanuts under a purchase agreement.

If the producer who signs a purchase agreement wishes to sell the peanuts to CCC, he will have a 30-day period ending on May 31, 1961, during which he must notify the county committee in writing of his intention to sell. The producer shall deliver the peanuts in accordance with delivery instructions issued by the county office, and shall complete delivery within a 15-day period immediately following the date of such instructions unless the county office determines that more time is needed for delivery. The producer may be required to retain the peanuts represented by a purchase agreement for a period of 60 days after May 31, 1961, without any cost to CCC.

§ 446.1233 Quality and quantity of peanuts delivered to CCC.

Peanuts delivered to CCC pursuant to a purchase agreement shall be of the type specified in the purchase agreement, and shall meet the grade requirements of § 446.1206 as determined by a Federal or Federal-State inspector on the basis of a sample taken at the time of delivery. The quantity of peanuts shall be determined by actual weight at the time of delivery. CCC will not assume any loss in quantity or quality of the peanuts covered by a purchase agreement occurring prior to delivery to CCC.

§ 446.1234 Purchase agreement settlement.

Settlement for eligible peanuts delivered to CCC under a purchase agreement shall be made, subject to the provisions of § 446.1211, at the applicable support price for the type, grade and quantity, net weight (calculated from actual gross weight), delivered and accepted by the county committee. When delivery is completed, payment will be made by sight draft drawn on CCC by the county office. The producer shall direct on Commodity Purchase Form 4 to whom payment of proceeds shall be made.

Issued this 13th day of June 1960.

CLARENCE D. PALMBY,
Acting Executive Vice President,
Commodity Credit Corporation.

SUBCHAPTER D—REGULATIONS UNDER SOIL BANK ACT

[Amdt. 42]

PART 485—SOIL BANK

Subpart—Conservation Reserve Program for 1956 Through 1959

Section 485.169(b)(1) of the regulations governing the Conservation Reserve Program for 1956 through 1959, 21 F.R. 6289, as amended, is hereby amended by adding to the end thereof the following: "Notwithstanding any other provision of this paragraph, (i) where a loss of control occurs as a result of the death of the original producer and the acreage is not continued in the program, the annual payment for the year in which the loss of control occurs shall be paid to the successor of the original producer as determined in accordance with paragraph (a) of this section if there is compliance with the contract for the full contract year; (ii) where a loss of control occurs as a result of the death of the original producer and the acreage is not continued in the program because the successor producer is ineligible to continue such acreage in the program or to continue such acreage in the program at the same annual payment, any cost-share payment paid or payable with respect to such acreage shall not be refunded or forfeited and the year in which the loss of control occurs shall be considered the last year of the contract period for purposes of applying the provisions of § 485.157(b)(1); and (iii) where a loss of control occurs as a result of eminent domain after the normal planting season of the principal crop normally grown on the farm and maturing in the year in which the loss of control occurs, the annual payment for such year shall be paid to the producer losing control if there is compliance with the contract for the full contract year except for the destruction of the conservation use by the agency acquiring control."

(Sec. 124, 70 Stat. 198; 7 U.S.C. 1812.)

Issued at Washington, D.C., this 13th day of June 1960.

CLARENCE D. PALMBY,
Acting Administrator,
Commodity Stabilization Service.

[F.R. Doc. 60-5567; Filed, June 16, 1960; 8:49 a.m.]

Title 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 26—GRAIN STANDARDS

Authorization to Licensed Grain Inspectors To Show Certain Additional Statements on Export Cargo Certificates of Grade for Wheat

On April 28, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 3733) stating that the Agricultural Marketing Service was considering instructing inspectors licensed under the United States Grain Standards Act to include, upon the request of the applicant for inspection, certain additional statements on certificates of grade for wheat. The notice set forth the substance of the instruction.

After due consideration of all relevant matter presented, it has been decided to issue the proposed instruction, with certain changes therein, and to amend accordingly the regulations (7 CFR Part 26) under the United States Grain Standards Act (7 U.S.C. 71 et seq.). Therefore, pursuant to section 8 of said Act (7 U.S.C. 84), said regulations are hereby amended by adding thereto the following new section:

§ 26.30a Additional statements which may be included on certificates.

The following statements have been approved by the Director of the Grain Division, Agricultural Marketing Service, and may upon request of an applicant for inspection be included in accordance with this section and instructions issued by the Director on certificates of grade:

Dockage and foreign material combined do not exceed ------ percent
or
Dockage, foreign material, and shrunken and broken kernels combined do not exceed ------ percent
or
Dockage and foreign material combined do not exceed ------ percent
Shrunken and broken kernels do not exceed ------ percent

Any one of the three foregoing statements may be included on a certificate of grade for an export cargo shipment of wheat, other than as a part of the grade designation, provided the shipment is uniformly loaded as to the items covered by the requested statement. The percentage shown shall be the average percentage found during the inspection and grading of the wheat. When equal to one percent or more, the percentage shall be stated in terms of whole percent and tenths of a percent, and when less than one percent shall be stated in terms of tenths of a percent. Requests for the statements may be withdrawn by the applicants for inspection at any time prior to the issuance of the certificate of grade showing the statements.

Nothing in the amendment changes the present requirement with respect to showing dockage as a part of the grade designation, or the present provision with respect to showing foreign material and/or shrunken and broken kernels as individual factor determinations. Instructions are being issued to the licensed inspectors in accordance with the foregoing amendment.

The foregoing amendment provides for specified additional statements on certificates of grade for certain wheat upon the request of the applicants for inspection. Opportunity was afforded for interested persons to submit their data, views and arguments on the proposed instruction in accordance with section 4 of the Administrative Procedure Act (5 U.S.C. 1003). The foregoing amendment varies in some respects from the proposed instruction but the variations are due to changes made pursuant to comments received concerning the proposal and it is not believed that further public participation in the rule-making procedure for amendment of the regulations would make additional information available to this Department with respect to this matter. The amendment is not mandatory upon the applicants for inspection and should be made effective as soon as possible in order to be of maximum benefit to the applicants who wish to receive such services. Therefore, under section 4 of the Administrative Procedure Act (5 U.S.C. 1003) it is found upon good cause that further notice and other public procedure on the amendment are unnecessary and impracticable and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

The amendment shall become effective on June 20, 1960.

Done at Washington, D.C., this 14th day of June 1960.

ROY W. LENNARTSON,
Deputy Administrator.

[F.R. Doc. 60-5565; Filed, June 16, 1960; 8:49 a.m.]

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

[Amdt. 9]

PART 719—RECONSTITUTION OF FARMS, FARM ALLOTMENT, AND FARM HISTORY AND SOIL BANK BASE ACREAGES

Date of Displacement and Leasing Acquired Land

Basis and purpose. This amendment is issued pursuant to sections 375(b) and 378(a) of the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1375(b), 1378(a)) and section 124 of the Soil Bank Act (7 U.S.C. 1812) for the purpose of rescinding the provision that land acquired by a Federal, State, or other agency having the right of eminent domain and subsequently leased to the former owner shall not be combined with any other land which he owns or operates.

Since this amendment is remedial in nature and farm reconstitutions are now being processed which would be affected thereby, it is hereby determined that compliance with the notice, public procedure, and effective date requirements of the Administrative Procedure Act (5 U.S.C. 1003) is impracticable and contrary to the public interest and that this amendment shall become effective upon publication in the FEDERAL REGISTER.

Section 719.12(d)(4) (25 F.R. 4129) is amended to read as follows:

§ 719.12 Pooling of farm acreage allotments where the farm owner is displaced by a Federal, State, or other agency having the right of eminent domain.

* * * * *

(d) *Where agency will not continue production of allotment crops.*

* * * * *

(4) *Date of displacement and leasing acquired land.* The term "date of displacement" with respect to any commodity shall be the date the owner voluntarily relinquishes his right to produce another crop of the commodity on the acquired farm or the date he is legally displaced. Legal displacement occurs when the displaced owner no longer retains the right to possession of the land on the acquired farm as owner or under a lease with the acquiring agency which follows immediately after his possession as owner: *Provided*, That if a former owner has been displaced prior to April 9, 1960, and (i) such former owner enters into a lease with respect to all or part of the land formerly owned by him with the acquiring agency prior to April 9, 1962, (ii) none of the allotment pooled for the acquired farm has been transferred from the allotment pool, and (iii) the former owner files a copy of the lease with the county office of the county in which the acquired farm is located as soon as practicable after execution but in any event prior to April 9, 1962, displacement with respect to the formerly owned land covered by such lease shall be deemed not to have occurred. In cases covered by this proviso, the pooled allotment or portion thereof, as applicable, shall be retransferred from the allotment pool to the acquired farm. The term "lease" as used herein means written leases and other written operating agreements.

(Secs. 375, 378; 52 Stat. 66, as amended, 72 Stat. 995; sec. 124, 70 Stat. 198; 7 U.S.C. 1375, 1378, 1812)

Done at Washington this 13th day of June 1960.

CLARENCE D. PALMBY,
Acting Administrator,
Commodity Stabilization Service.

[Amdt. 7]

PART 728—WHEAT

Subpart—Regulations Pertaining to Farm Acreage Allotments for 1960 and Subsequent Crops of Wheat

1961 FARM BASE ACREAGE AND ALLOTMENT DETERMINATIONS

Basis and purpose. The amendment herein is issued pursuant to and in accordance with the Agricultural Adjustment Act of 1938, as amended, and is for the purpose of providing for the determination of a computed farm base acreage for 1961 which will reflect a new crop-rotation system for a farm which had previously been operating under an odd and even rotation.

In order that farmers may not secure larger base acreages and allotments for 1961 by changing their farm rotations, the amendment herein imposes a condition on the determination of base acreages based on a changed rotation. The computed base acreage approved for 1961 shall not exceed the base acreage which would have been computed under the old rotation.

County committees are preparing to compile data and determine 1961 base acreages preparatory to the establishment of 1961 wheat acreage allotments, and the amendment herein is an integral part of the regulations for determining base acreages and acreage allotments. Accordingly, it is hereby found and determined that compliance with the public notice, procedure, and 30-day effective date provisions of section 4 of the Administrative Procedure Act is impracticable and contrary to the public interest. Therefore, the amendment herein shall become effective upon its publication in the FEDERAL REGISTER.

§ 728.1017a [Amendment]

A new subparagraph (6) is added to § 728.1017a(b) to read as follows:

(6) For a farm with an established odd and even rotation for which a change in the crop-rotation practices will go into effect for 1961, the computed base acreage recommended by the county committee as applicable for 1961 for such farm under the new rotation: *Provided*, That such computed base acreage shall not exceed the base acreage which would have been computed, if the rotation in effect for 1960 had been continued.

(Secs. 334, 375, 377, 52 Stat. 53, as amended, 66, 71 Stat. 592, 72 Stat. 993; 7 U.S.C. 1334, 1375, 1377)

Issued at Washington, D.C., this 13th day of June 1960.

CLARENCE D. PALMBY,
Acting Administrator,
Commodity Stabilization Service.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

SUBCHAPTER B—PROHIBITIONS OF IMPORTED COMMODITIES

PART 1067—AVOCADOS

Prohibition of Imports

§ 1067.8 Avocado Regulation No. 8.

(a) On and after the effective time of this section, the importation into the United States of any avocados is prohibited except in accordance with the following terms and conditions:

(1) All avocados imported during the period beginning at 12:01 a.m., e.s.t., June 21, 1960 and ending at 12:01 a.m., e.s.t., April 30, 1961, shall grade at least U.S. Combination.

(2) No avocados of the Pollock variety shall be imported prior to 12:01 a.m., e.s.t., June 27, 1960; and during the period beginning at 12:01 a.m., e.s.t., June 27, 1960, and ending at 12:01 a.m., e.s.t., August 1, 1960, the individual fruit in each lot of such avocados shall weigh at least 16 ounces or measure at least 3 9/16 inches in diameter.

(3) No avocados of the Catalina variety shall be imported prior to 12:01 a.m., e.s.t., August 1, 1960; and during the period beginning at 12:01 a.m., e.s.t., August 1, 1960, and ending at 12:01 a.m., e.s.t., August 29, 1960, the individual fruit in each lot of such avocados shall weigh at least 18 ounces.

(4) No avocados of the Trapp variety shall be imported prior to 12:01 a.m., e.s.t., August 1, 1960; and during the period beginning at 12:01 a.m., e.s.t., August 1, 1960, and ending at 12:01 a.m., e.s.t., August 29, 1960, the individual fruit in each lot of such avocados shall weigh

at least 12 ounces or measure at least 3 1/16 inches in diameter.

(5) No avocados of any variety other than Pollock, Catalina, and Trapp shall be imported (i) prior to 12:01 a.m., e.s.t., July 11, 1960, unless the individual fruit in each lot of such avocados weighs at least 14 ounces; (ii) during the period beginning at 12:01 a.m., e.s.t., July 11, 1960, and ending at 12:01 a.m., e.s.t., August 29, 1960, unless the individual fruit in each lot of such avocados weighs at least 12 ounces; and (iii) during the period beginning at 12:01 a.m., e.s.t., August 29, 1960, and ending at 12:01 a.m., e.s.t., September 12, 1960, unless the individual fruit in each lot of such avocados weighs at least 10 ounces: *Provided*, That any lot of such avocados may be imported without regard to the minimum weight requirements of this paragraph if the exterior seed-coat of the individual fruit is of a brown color characteristic of a mature avocado, or if such avocados, when mature, normally change color to any shade of red or purple and any portion of the skin of the individual fruit has changed to the color normal for that fruit when mature.

(6) Notwithstanding the provisions of subparagraphs (2) through (5) of this paragraph regarding the minimum weight or diameter for individual fruit, not to exceed 10 percent, by count, of the individual fruit contained in each lot may weigh less than the minimum specified weight and be less than the minimum specified diameter: *Provided*, That such avocados weigh not more than 2 ounces less than the applicable specified weight for the particular variety prescribed in such subparagraphs. Such tolerances shall be on a lot basis, but not to exceed double such tolerances shall be permited for an individual container in a lot.

(7) Each importation of avocados shall be made in conformance with the general regulations (Part 1060 of this subchapter) applicable to the importation of listed commodities and the requirements of this regulation.

(b) Inspection by the Federal or Federal-State Inspection Service, or such other governmental inspection service as may be designated or approved by the Administrator, with appropriate evidence thereof in the form of an official inspection certificate, issued by the respective service, applicable to the particular shipment of avocados, is required on all imports of avocados pursuant to § 1060.3 *Eligible imports* of this subchapter.

(c) Inspection certificates shall cover only the quantity of avocados that is being imported at a particular port of entry by a particular importer.

(d) The inspection performed, and certificates issued, by the Federal or Federal-State Inspection Service shall be in accordance with the rules and regulations of the Department governing the inspection and certification of fresh fruits, vegetables, and other products (Part 51 of this title). The cost of any inspection and certification shall be borne by the applicant therefor.

(e) Each inspection certificate issued with respect to any avocados to be imported into the United States shall set forth, among other things:

(1) The date and place of inspection;
(2) The name of the shipper, or applicant;
(3) The name of the importer (consignee);
(4) The commodity inspected;
(5) The quantity of the commodity covered by the certificate;
(6) The principal identifying marks on the containers;
(7) The railroad car initials and number, the truck and trailer license number, the name of the vessel, or other identification of the shipment; and
(8) The following statement, if the facts warrant: Meets U.S. import requirements under section 8e of the Agricultural Marketing Agreement Act of 1937.

(f) Notwithstanding any other provision of this regulation, any importation of avocados which, in the aggregate, does not exceed 55 pounds may be imported without regard to the restrictions specified herein.

(g) It is hereby determined, on the basis of the information currently available, that the requirements set forth in this regulation are comparable to the maturity and quality regulations that are being made applicable, prior to the effective time hereof, to shipments of avocados grown in south Florida.

(h) As used in this section, the term "diameter" means the greatest dimension measured at right angles to a line from the stem to the blossom end of the fruit; and the term "U.S. Combination" shall have the same meaning as set forth in the United States Standards for Florida Avocados (§§ 51.3050 to 51.3069 of this title).

It is hereby found that it is impracticable, unnecessary, and contrary to the public interest to postpone the effective time of this regulation beyond that hereinafter specified (5 U.S.C. 1001–1011) in that (a) maturity and quality restrictions are being made applicable to shipments of avocados produced in south Florida and the requirements of section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), makes such import regulation mandatory; (b) such domestic and import restrictions should become effective at as near the same time as is reasonably practicable; (c) notice that this action was being considered was published in the FEDERAL REGISTER issue of May 21, 1960 (25 F.R. 4514); (d) compliance with this import regulation will not require any special preparation which cannot be completed by the effective time hereof; (e) notice hereof in excess of 3 days, the minimum that is prescribed by said section 8e, is given with respect to this import regulation; and (f) such notice is hereby determined, under the circumstances, to be reasonable.

Dated, June 16, 1960, to become effective at 12:01 a.m., e.s.t., June 21, 1960.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS AND POULTRY

PART 74—SCABIES IN SHEEP

Miscellaneous Amendments

On November 13, 1959, there was published in the FEDERAL REGISTER (24 F.R. 9238) a notice with respect to proposed amendments to Part 74, Subchapter C, Chapter I, Title 9, Code of Federal Regulations. After due consideration of all relevant material submitted in connection with such notice and pursuant to the provisions of the Act of March 3, 1905, as amended, the Act of February 2, 1903, as amended, and sections 4 through 7 of the Act of May 29, 1884, as amended (21 U.S.C. 111–113, 115, 117, 120, 121, 124–126), said Part 74 is amended in the following respects:

1. Section 74.1 is amended to read:

§ 74.1 Interstate movement of infected sheep prohibited.

No sheep infected with the contagious, infectious, and communicable disease commonly known as scabies shall be shipped, trailed, driven, or otherwise moved interstate for any purpose.

2. A new § 74.2 is added to read:

§ 74.2 Designation of free and infected areas.

Notice is hereby given that sheep in the following States, Territories, and District, or parts thereof as specified, are not known to be infected with scabies and such States, Territories, District, or parts thereof, are hereby designated as free areas: Alabama, Arizona, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Idaho, Louisiana, Maine, Massachusetts, Mississippi, Montana, Nevada, New Hampshire, New Mexico, North Carolina, Oregon, Puerto Rico, Rhode Island, South Carolina, that portion of South Dakota west of the Missouri River, Texas, Utah, Vermont, Washington, and Wyoming. Notice is hereby given also that sheep scabies exist in all other States and Territories, and parts thereof, and they are hereby designated as infected areas.

3. A new § 74.3 is added to read:

§ 74.3 Designation of eradication and quarantine areas.

(a) Notice is hereby given that sheep in the following States, Territories, or parts thereof as specified, are being handled systematically to eradicate scabies in sheep and such States, Territories, or parts thereof, are hereby designated as eradication areas:

That portion of South Dakota east of the Missouri River.

(b) No areas are quarantined under this part at this time.

4. A new § 74.4 is added to read:

§ 74.4 Certificates or other documents to be presented with animals at destination.

All certificates, waybills, statements, or other documents required under this part shall accompany the shipment en route and shall be presented to the person authorized to receive the shipment at destination.

5. A new section 74.5 is added to read:

§ 74.5 Director of Division may provide for movements, under certain conditions, not otherwise authorized under the regulations.

The Director of the Division in specific cases in which, in his opinion, no risk of the spread of scabies exists may provide for the movement, not otherwise authorized under this part, of sheep not known to be infected with scabies, under such conditions as he may prescribe to carry out the purposes of this part. The Director of the Division will promptly notify the appropriate livestock sanitary officials of the States involved of any such action.

§ 74.6 [Amendment]

6. Section 74.6 and the heading thereof are amended by deleting the word "affected" where used and substituting therefor the word "infected".

7. Section 74.7 is amended to read:

§ 74.7 Other movements prohibited except as provided.

No sheep shall be shipped, trailed, driven, or otherwise moved interstate from the areas quarantined because of scabies in sheep or from the areas designated as the infected or eradication areas because of said disease, except as provided in this part.

§ 74.8 [Amendment]

8. Section 74.8 and the heading thereof are amended by deleting the word "diseased" wherever it appears therein and substituting therefor the word "infected".

9. The Division heading immediately preceding § 74.9 is amended to read: "Shipment for Immediate Slaughter to Public Stockyards and Recognized Slaughtering Centers."

10. The introductory portion of § 74.9 immediately preceding paragraph (a), and paragraph (b) are amended, respectively, to read:

§ 74.9 Conditions under which permitted after one dipping.

Sheep which, just prior to shipment or movement interstate, were infected with scabies but have been dipped once in a permitted dip (other than lindane or toxaphene dips) under the supervision of a Division or State inspector within 10 days prior to the date of shipment and so certified by him may be shipped, trailed, driven, or otherwise moved interstate, for immediate slaughter, directly to a public stockyard or to a recognized slaughtering center provided the following conditions are strictly observed and complied with:

* * * * *

(b) The trucks, cars, or boats containing the sheep shall be placarded and the billing shall be marked "Dipped Scabby Animals for Slaughter" in accordance with § 74.15.

§ 74.10 [Amendment]

11. Section 74.10 is amended by deleting the words "by the owner" and substituting therefor the words "under the supervision of a Division or State inspector".

§ 74.11 [Deletion]

12. Section 74.11 is deleted.

13. Section 74.12 is amended to read:

§ 74.12 Interstate movement of sheep not known to be infected or exposed from quarantined, infected or eradication areas; permitted for immediate slaughter on inspection and/or certification.

(a) Sheep not known to be infected with or exposed to scabies may be shipped, trailed, driven, or otherwise moved interstate from an eradication or infected area into a free or eradication area or a quarantined area within such area, or from a quarantined area into any other area, for immediate slaughter, directly to a public stockyard or to a recognized slaughtering center, provided they are not diverted en route, have been inspected by a Division or State inspector within 10 days prior to movement, found free from the disease and exposure thereto, and are accompanied by a certificate from said inspector to that effect; or if the sheep are inspected by an accredited veterinarian within 10 days prior to such movement, found free of scabies infection and exposure thereto, and if the shipment is accompanied by his certificate to that effect; or if the shipment is accompanied by a waybill or similar document, or a statement signed by the owner or shipper of the sheep, stating: (1) That the animals are not known to be infected with scabies or exposed thereto; (2) the destination of the animals and consignee; (3) the purpose for which they are to be moved; (4) the number of sheep; (5) the point from which the animals are moved interstate; (6) that the sheep shall not be diverted en route; and (7) the name and address of the owner or shipper of the sheep: *Provided, however*, That when such sheep are moved interstate for immediate slaughter from any quarantined area, inspection and certification are required and must be made by a Division or State inspector. No restrictions are imposed under these regulations on the interstate shipment or movement for immediate slaughter of uninfected and unexposed sheep from an infected or eradication area into an infected area or into a quarantined area within an infected area.

(b) Sheep moved interstate under the provisions of this section must be penned and handled separate and apart from sheep of other categories until they have been removed for slaughter purposes within 14 days of arrival, or dipped under Division supervision if not slaughtered or moved to an infected area within the same period.

14. Section 74.13 is amended to read:

§ 74.13 Interstate movement of scabies exposed, not infected, sheep from any area; conditions under which permitted.

Sheep which have been exposed to scabies but are not infected therewith may be shipped, trailed, driven, or otherwise moved interstate, for immediate slaughter, directly to a public stockyard or to a recognized slaughtering center provided the following conditions are strictly observed and complied with:

(a) The sheep shall be inspected within 10 days prior to such shipment or movement by a Division or State inspector and certified to be free from scabies.

(b) The sheep shall not be diverted en route and, if consigned to a public stockyard, shall upon arrival be handled as provided in § 74.9(c).

(c) The trucks, cars, or boats containing the sheep shall be placarded and the billing shall be marked "Scabies Exposed Animals for Slaughter", in accordance with § 74.15.

§ 74.14 [Amendment]

15. Section 74.14 is amended by deleting from the heading the word "undiseased" and substituting therefor the word "uninfected"; and by inserting between the words "Division" and "inspection" in the heading, and between the words "Division" and "supervision" in the text, the words "or State".

16. Section 74.15 is amended to read:

§ 74.15 Placarding of vehicles and marking of documents.

The person, firm, or corporation moving sheep interstate for slaughter in accordance with § 74.9 or § 74.13, shall securely affix to and maintain upon both sides of each truck, car, or boat carrying such sheep a durable and conspicuous placard, not less than 5½ by 8 inches in size, on which shall be printed with permanent black ink in bold-face letters, not less than 1½ inches in height, the words "Dipped Scabby Animals for Slaughter" or "Scabies Exposed Animals for Slaughter", as the case may be. These placards shall also show (a) the name of the shipper; (b) the name of the place from which the sheep were moved; (c) the date of the shipment (which must correspond to the date of the waybills and other papers); (d) the name of the truck owner or transportation agency; and (e) the name of the place of destination. Such person, firm, or corporation shall plainly write or stamp upon the face of the waybills, conductors' manifests, memoranda, or bills of lading pertaining to such movements the words "Dipped Scabby Animals for Slaughter" or "Scabies Exposed Animals for Slaughter", as the case may be. If for any reason the placards required by this section have not been affixed to the vehicle as aforesaid, or the placards have been removed, destroyed, or rendered illegible, or the sheep are rebilled or are transferred to other trucks, cars, or boats, the placards shall be immediately affixed or replaced and the new waybills or other documents shall be marked as aforesaid, the inten-

tion being that the documents accompanying the sheep shall be marked and the trucks, cars, and boats containing the sheep shall be placarded "Dipped Scabby Animals for Slaughter" or "Scabies Exposed Animals for Slaughter", as the case may be, from the time of shipment until the sheep arrive at destination and the disposition of the vehicles is designated by a Division or State inspector.

17. Section 74.16 is amended to read:

§ 74.16 Infected sheep permitted movement for any purpose on two dippings.

Sheep which, just prior to shipment or movement interstate, were infected with scabies, may be shipped, trailed, driven, or otherwise moved interstate for any purpose after they have been dipped twice, 10 to 14 days apart, in a permitted dip under the supervision of a Division or State inspector, and are so certified by such inspector.

18. Section 74.17 is amended to read:

§ 74.17 Uninfected but exposed sheep permitted movement for any purpose on one dipping.

Sheep that are not infected with scabies but which have been exposed to the disease may be shipped, trailed, driven, or otherwise moved interstate for any purpose after they have been dipped once in a permitted dip, within 10 days prior to date of shipment, under the supervision of a Division or State inspector and are certified by such inspector to be free from the disease.

19. Section 74.18 is amended to read:

§ 74.18 Uninfected and unexposed sheep from eradication, infected, and quarantined areas.

Uninfected and unexposed sheep may be shipped, trailed, driven, or otherwise moved interstate from an eradication or infected area into a free or eradication area or a quarantined area within such area, or from a quarantined area into any other area, for any purpose, after they have been inspected by a Division or State inspector or an accredited veterinarian, found to be free from the disease and exposure thereto, have been dipped once in a permitted dip within 10 days prior to date of shipment and are accompanied by a certificate from said inspector or veterinarian stating that such requirements have been fulfilled:[1] *Provided however*, That when such sheep are moved interstate for any purpose from any quarantined area, inspection, treatment, and certification are required and must be made by a Division or State inspector. No restrictions are imposed under these regulations on the interstate shipment or movement of uninfected and unexposed sheep from an infected or eradication area into an infected area or a quarantined area within an infected area.

[1] In each instance, the regulations of the State of destination should be consulted before interstate shipments are made.

§ 74.19 [Amendment]

20. The division heading immediately preceding § 74.19 is amended to read: "Movement from Eradication, Infected, or Quarantined Area to Free Area and Shipment Therefrom."

21. Section 74.19 is amended to read:

§ 74.19 Prohibited except in compliance with regulations regarding movement of sheep from eradication, infected, or quarantined areas.

No person, firm, or corporation shall deliver for transportation, transport, drive on foot, or otherwise move interstate from the free area of any State, Territory, or the District of Columbia any sheep which have been moved from the eradication, infected, or quarantined areas of the same State, Territory, or the District of Columbia into such free area: *Provided, however*, That such sheep may be shipped or moved interstate in strict compliance with the requirements of this part governing the interstate movement of sheep of the eradication, infected or quarantined areas, as the case may be: *And provided further*, That this section shall not apply to sheep from an eradication, infected or quarantined area which, before being moved into the free area, are inspected, dipped and certified as required for interstate movement by § 74.18.

§ 74.20 [Amendment]

22. Section 74.20 is amended by deleting in the heading the word "undiseased" and substituting therefor the word "uninfected".

23. Section 74.21 is amended to read:

§ 74.21 Sheep infected or exposed en route handled as infected or exposed.

Sheep shipped, trailed, driven, or otherwise moved interstate under a certificate from a Division or State inspector or an accredited veterinarian, or any other sheep, which are found en route to be infected with scabies or to have been exposed thereto, shall thereafter be handled in the same manner as infected or exposed sheep are required by this part to be handled, and the cars or other vehicles, and the chutes, alleys, and pens which have been occupied by infected sheep shall be cleaned and disinfected, as provided in §§ 71.4–71.11 of this subchapter or shall be cleaned and treated with a permitted dip.

24. The division heading immediately preceding § 74.22 is amended to read: "Shipment to Public Stockyards and Recognized Slaughtering Centers and From Public Stockyards."

25. Section 74.22 is amended to read:

§ 74.22 Interstate movement; conditions under which permitted.

(a) Sheep from an infected, eradication, or quarantined area which are not infected with or exposed to scabies may be shipped, trailed, driven, or otherwise moved interstate directly to a public stockyard; or to a recognized slaughtering center for immediate slaughter: *Provided*, That such movements conform to the requirements of § 74.12 of this part relating to inspection and certification or waybills or similar documents or statement by the owner or shipper of the sheep.

(b) Sheep which, just prior to shipment or movement interstate, were infected with or exposed to scabies, may be shipped, trailed, driven, or otherwise moved interstate to a public stockyard or a recognized slaughtering center for immediate slaughter subject to the restrictions detailed in this part.

(c) The movement of sheep, referred to in this section, from a public stockyard to any other point within the State or interstate must comply with the provisions of this part the same as if the sheep had been originally consigned direct from the point of origin to such destination.

(d) No sheep shall be shipped, trailed, driven, or otherwise moved interstate from a public stockyard without a certificate issued by a Division inspector showing that the sheep are free from scabies or have been dipped for scabies as required in this part: *Provided*, That this paragraph shall not require a new certificate to be issued when shipments of sheep which are unloaded in transit for feed, water, and rest, and not offered for sale, are reloaded.

26. Section 74.23 is amended to read:

§ 74.23 Interstate movement without dipping prohibited unless for slaughter.

No sheep shall be shipped, trailed, driven, or otherwise moved interstate from a public stockyard for purpose other than slaughter without being dipped under Division supervision: *Provided*, That sheep from the free areas which are not infected with or exposed to scabies may be shipped or moved interstate from a public stockyard for any purpose without dipping provided that their identity as uninfected and unexposed sheep of a free area is maintained at all times; they have not mingled with scabies infected or exposed animals, or sheep from other than the free areas in transit to or at the stockyard; they are placed in a portion of the stockyard reserved for the receipt of such sheep; and they are kept free from contagious, infectious, and communicable diseases: *And provided further*, That uninfected and unexposed sheep from an eradication or infected or quarantined area may be shipped or moved interstate from a public stockyard upon compliance with the provisions of this part which would apply if the sheep had been originally consigned direct from point of origin to final destination.

§ 74.24 [Amendment]

27. The introductory portion of paragraph (a) of § 74.24, subparagraphs (3) and (4) of § 74.24, and paragraph (b) of said section are amended, respectively, to read:

§ 74.24 Permitted dips; substances allowed.

(a) The dips at present permitted by the Department for use as required in this part are as follows:

* * * * *

(3) Dip made from wettable powders containing lindane (gamma isomer of benzene hexachloride) as the active ingredient, and maintained at a concentration of 0.06 percent. Animals treated with such dip should not be slaughtered for food purposes until the expiration of such period as may be required under the Meat Inspection Act (21 U.S.C. 71 et seq.). The length of this required period shall be specified on each certificate issued by the Division or State inspector or accredited veterinarian who supervises the dipping with such dip.

(4) Toxaphene dip, specifically permitted proprietary brand emulsions, made and maintained at a concentration of 0.5 percent. Animals treated with such dip should not be slaughtered for food purposes until the expiration of such period as may be required under the Meat Inspection Act (21 U.S.C. 71 et seq.). The length of this required period shall be specified on each certificate issued by the Division or State inspector or accredited veterinarian who supervises the dipping with such dip.

(b) Proprietary brands of toxaphene, lime-sulphur, or nicotine dips may be used in official dipping only after specific permission therefor has been issued by the Division.[2]

§ 74.25 [Amendment]

28. Section 74.25 is amended by inserting the following words after the word "subchapter": "or shall be cleaned and treated with a permitted dip."

(Secs. 4, 5, 23 Stat. 32, as amended, secs. 1, 2, 32 Stat. 791–792, as amended, secs. 1, 3, 33 Stat. 1264, as amended, 1265, as amended; 21 U.S.C. 111–113, 120, 121, 123, 125. Interpret or apply secs. 6, 7, 23 Stat. 32, as amended, secs. 2, 4, 33 Stat. 1264, as amended, 1265, as amended; 21 U.S.C. 115, 117, 124, 126. 19 F.R. 74, as amended)

The foregoing amendments make certain changes in the proposed amendments published in the FEDERAL REGISTER on November 13, 1959, and also make certain changes in the regulations in addition to those proposed in such notice. Such changes have been made after thorough consideration of all relevant material submitted in connection with the notice. Most of such changes have been made for purposes of clarity and consistency. Certain changes make provisions of the regulations less restrictive and certain other changes have been made in order to afford additional protection to the livestock of the United States in certain respects. It does not appear that further public rule-making procedure would make additional information available to the Department in connection with amendments of the regulation. Accordingly, under section 4 of the Administrative Procedure Act (5 U.S.C. 1003), it is found upon good cause that further notice and public procedure with respect to the foregoing amendments are impracticable and unnecessary.

Effective date. This amendment shall become effective 45 days after publication in the FEDERAL REGISTER.

[2] Names of such brands may be obtained from the Division or a Division inspector.

Done at Washington, D.C., this 13th day of June 1960.

M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

[F.R. Doc. 60-5551; Filed, June 16, 1960; 8:47 a.m.]

PART 78—BRUCELLOSIS IN DOMESTIC ANIMALS

Amendments to Regulations Governing Interstate Movement

On December 12, 1959, there was published in the FEDERAL REGISTER (24 F.R. 10077), a notice with respect to proposed amendments of Part 78, Subchapter C, Chapter I, Title 9, Code of Federal Regulations. After due consideration of all relevant material submitted in connection with such notice and pursuant to the provisions of sections 4, 5, and 13 of the Act of May 29, 1884, as amended, sections 1 and 2 of the Act of February 2, 1903, as amended, and section 3 of the Act of March 3, 1905, as amended (21 U.S.C. 111–113, 114a–1, 120, 121, 125), the provisions in Part 78, Title 9, Code of Federal Regulations, are hereby amended as follows:

1. Paragraph (k) of § 78.1 is amended and a new paragraph (o) is added to § 78.1 to read, respectively, as follows:

§ 78.1 Definitions.

* * * * *

(k) *Public stockyard.* A stockyard designated in § 78.14 (a) where trading in livestock is carried on, where yarding, feeding, and watering facilities are provided by the stockyard, transportation, or similar company, and where Federal inspection is maintained for the inspection of livestock for communicable diseases.

* * * * *

(o) *Specifically approved stockyard.* A stockyard specifically approved for the purposes of the regulations in this part in accordance with § 78.16(b).

§§ 78.5, 78.12 [Amendment]

2. Wherever in the introductory paragraph of § 78.5 and in paragraphs (b) and (c) of § 78.12 the phrase "public stockyard" appears, the phrase "or specifically approved stockyard" is inserted immediately thereafter.

3. The heading of paragraph (c) of § 78.12 is amended to read:

(c) *Movement of cattle to public stockyards or specifically approved stockyards.*

4. Wherever in Part 78 the phrase "modified certified brucellosis-free area" appears it is deleted and the phrase "modified certified brucellosis area" is substituted therefor, and wherever in said Part 78 the phrase "modified certified brucellosis-free areas" or the phrase "modified brucellosis-free areas" appears it is deleted and the phrase "modified certified brucellosis areas" is substituted therefor, with like capitalization as now provided in Part 78.

5. Paragraph (c) of § 78.12 is amended by inserting between the word "section" and the following comma the words "except the provisions of paragraph (f) of this section".

6. Paragraph (d) of § 78.12 is amended by inserting the words "from herds" between the words "classes," and "not"; by deleting subparagraph (4); and by amending subparagraph (6) to read as follows:

(6) Bulls and female cattle of the beef type moved interstate, only for feeding or grazing purposes or for sale for such purposes, to a State which has laws, rules, or regulations, which provide for the segregation or quarantine of such cattle brought into the State, and under a permit from the appropriate livestock sanitary official of such State of destination.

7. The introductory portion of paragraph (e) of § 78.12 is amended to read as follows:

(e) *Movement of cattle into modified certified brucellosis areas.* Cattle of the following classes, from herds not known to be affected with brucellosis, may be moved interstate under this subpart into the modified certified brucellosis areas specified in § 78.13, if the provisions of paragraph (f) of this section are complied with and such cattle are accompanied by a certificate issued by a Federal or State inspector or an accredited veterinarian showing the name and address of the consignor and consignee, the identification tag, tattoo, or registration number of each animal or other proper identification, and the specific class in which the cattle fall:

8. Paragraph (e) of § 78.12 is further amended by deleting subparagraph (4); by inserting the words "nor more than 90 days" between the words "days" and "after" in subparagraph (5); and by amending subparagraph (7) by deleting the words "for feeding or grazing purposes only" and substituting the words "only for feeding or grazing purposes or for sale for such purposes".

9. Paragraph (f) of § 78.12 is redesignated as paragraph (g) and a new paragraph (f) is added to read as follows:

(f) *Handling of cattle in transit to modified certified brucellosis areas.* Cattle, not known to be affected with brucellosis, except those moved under paragraphs (a), (b), or (e)(7) of this section, shall be moved interstate into any modified certified brucellosis area only in clean vehicles and, if unloaded in the course of such movement, shall be handled only in clean pens at public stockyards of specifically approved stockyards, or in clean pens at feed, water, and rest stations.

10. In the heading of Subpart D, the phrase "specifically approved stockyards," is inserted immediately before the word "and".

11. The heading of § 78.14 is amended to read:

§ 78.14 Public stockyards and specifically approved stockyards.

(Secs. 4, 5, 23 Stat. 32, as amended, secs. 1, 2, 32 Stat. 791–792, as amended, sec. 3, 33 Stat. 1265, as amended, sec. 13, 65 Stat. 693; 21 U.S.C. 111–113, 114a–1, 120, 121, 125; 19 F.R. 74, as amended)

The amendments make certain changes which were not published in the FEDERAL REGISTER, in order to clarify provisions of the regulations relating to public stockyards where Federal inspection is maintained and stockyards specifically approved for the purposes of these regulations. Such changes are nonsubstantive. Accordingly, under section 4 of the Administrative Procedure Act (5 U.S.C. 1003), it is found upon good cause that notice and other public procedure with respect to such changes are impracticable and unnecessary.

The amendments in part impose certain further restrictions necessary to prevent the spread of brucellosis in domestic animals and in part relieve restrictions on interstate shipments of certain beef cattle for feeding or grazing purposes. Certain nonsubstantive changes are made in nomenclature.

Effective dates. Except as provided below, the foregoing amendments shall become effective 30 days after publication in the FEDERAL REGISTER.

The substitution in Part 76 of the phrase "modified certified brucellosis area" for "modified certified brucellosis-free area" and the phrase "modified certified brucellosis areas" for "modified certified brucellosis-free areas" and "modified brucellosis-free areas"; and the amendments of subparagraph (6) of paragraph (d) and subparagraph (7) of paragraph (e) of § 78.12, shall become effective upon publication in the FEDERAL REGISTER. Such amendments relieve certain restrictions and make changes in nomenclature for clarity and uniformity. Such amendments should be made effective promptly in order to accomplish their purposes in the public interest and to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under section 4 of the Administrative Procedure Act (5 U.S.C. 1003), good cause is found for making such amendments effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 14th day of June 1960.

M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

[F.R. Doc. 60-5566; Filed, June 16, 1960; 8:49 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 60-LA-10]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Modification

On March 12, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 2168) stating that the Federal Aviation Agency proposed to modify VOR Federal airway No. 99 between Newport, Oreg., and Newberg, Oreg.

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, the following action is taken:

In the text of § 600.6099 (24 F.R. 10515, 25 F.R. 2041), "That airspace over United States territory from the Newport, Oreg., omnirange station via the intersection of the Newport omnirange 023° True and the Newberg omnirange 251° True radials; Newberg, Oreg., omnirange station;" is deleted and "From the Newport, Oreg., VOR via the Newberg, Oreg., VOR;" is substituted therefor.

This amendment shall be come effective 0001 e.s.t. August 25, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 10, 1960.

D. D. THOMAS,
Director, Bureau of
Air Traffic Management.

[F.R. Doc. 60-5533; Filed, June 16, 1960; 8:45 a.m.]

[Airspace Docket No. 60-WA-21]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Modification

The purpose of this amendment to § 600.6108 of the regulations of the Administrator is to modify VOR Federal airway No. 108 between Sausalito, Calif., and Linden, Calif.

Victor 108 was redesignated in part in Airspace Docket No. 59-WA-122 (25 F.R. 631) via the Sausalito VOR 052° True and the Linden VOR 270° True radials in order to have the intersection of these two radials coincide with the Crockett, Calif., intersection. However, the correct radial from the Linden VOR to the Crockett intersection is 269° True. Therefore, the Federal Aviation Agency is redesignating Victor 108 via the Linden VOR 269° True radial. The control areas associated with Victor 108 are so designated that they will automatically conform to the modified airway. Accordingly, no amendment relating to such control areas is necessary.

Since this amendment is minor in nature, notice and public procedures hereon are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, this amendment will become effective more than 30 days after publication.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), § 600.6108 (25 F.R. 631) is amended as follows:

In the text of § 600.6108 *VOR Federal airway No. 108 (San Francisco, Calif., to Grand Junction, Colo., and Colorado Springs, Colo., to Salina, Kans.)*, delete "Linden VOR 270° radials;" and substitute therefor "Linden VOR 269° True radials;".

This amendment shall become effective 0001 e.s.t. August 25, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 10, 1960.

D. D. THOMAS,
Director, Bureau of
Air Traffic Management.

[F.R. Doc. 60-5535; Filed, June 16, 1960; 8:45 a.m.]

[Airspace Docket No. 59-WA-304]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Modification of Federal Airway and Associated Control Areas

On December 16, 1959, a notice of proposed rule making was published in the FEDERAL REGISTER (24 F.R. 10161) stating that the Federal Aviation Agency was considering amendments to §§ 600.6216 and 601.6216 of the regulations of the Administrator which would modify the segment of VOR Federal airway No. 216 from Hill City, Kans., to Pawnee City, Nebr.

As stated in the Notice, Victor 216 presently extends, in part, from Hill City to Pawnee City. The Federal Aviation Agency is modifying this segment of Victor 216 by designating a standard north alternate from the Hill City VOR to the Mankato, Kans., VOR, and by designating a standard south alternate from the Mankato VOR to the Pawnee City VOR. The designation of these alternates will provide bypass routing for separating climbing and descending traffic from aircraft operations on this heavily traveled main airway segment.

The Department of the Air Force submitted the only comment regarding the proposed amendments. The Air Force stated that, if the proposed Victor 216 south alternate between Mankato and Pawnee City should ultimately be designated as an intermediate airway, it would conflict with the Schilling Air Force Base Concordia departure procedure unless a route width reduction to ten statute miles or less was provided. The Federal Aviation Agency has not included the south alternate to Victor 216 between the Mankato VOR and the Pawnee City VOR in its proposed intermediate airway route structure.

This action will result in the designation of a standard north alternate to Victor 216, with associated control areas, from the Hill City VOR to the Mankato VOR, and a standard south alternate to Victor 216, with associated control areas, from the Mankato VOR to the Pawnee City VOR.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) §§ 600.6216 (24 F.R. 10522, 25 F.R. 173) and 601.6216 (24 F.R. 10603, 25 F.R. 173) are amended as follows:

§ 600.6216 [Amendment]

1. In the text of § 600.6216 *VOR Federal airway No. 216 (Lamar, Colo., to Iowa City, Iowa, and Janesville, Wis., to Toronto, Ontario)*, delete "Mankato, Kans., VOR; Pawnee City, Nebr., VOR;" and substitute therefor "Mankato, Kans., VOR, including a north alternate; Pawnee City, Nebr., VOR, including a south alternate;".

2. Section 601.6216 is amended to read:

§ 601.6216 VOR Federal airway No. 216 control areas (Lamar, Colo., to Iowa City, Iowa, and Janesville, Wis., to Toronto, Ontario).

All of VOR Federal airway No. 216, including a north and a south alternate.

These amendments shall become effective 0001 e.s.t. August 25, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 10, 1960.

D. D. THOMAS,
Director, Bureau of
Air Traffic Management.

[F.R. Doc. 60-5531; Filed, June 16, 1960; 8:45 a.m.]

[Airspace Docket No. 60-KC-16]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Designation of Federal Airway and Associated Control Areas

On April 2, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 2806) stating that the Federal Aviation Agency proposed to designate the United States portion of a VOR Federal airway No. 470 and its associated control areas from Lakehead, Ontario, Canada, to Sault Ste. Marie, Mich., including a north alternate from Whitefish, Mich., to Sault Ste. Marie.

Two comments were received regarding the proposed amendments. The Air Transport Association of America concurred in the action taken herein. The Department of the Air Force stated that it had no objection to the proposed designation of Victor 470, provided the Federal Aviation Agency concurred in the requested alignment of a proposed restricted area/military climb corridor at the K. I. Sawyer AFB, Marquette, Mich., centered on the 009° True radial of the K. I. Sawyer AFB TVOR. The Air Force further stated that if the Federal Aviation Agency decided to designate Victor 470 as proposed without concurring in the designation of the restricted area/military climb corridor in the manner requested by the Air Force, the proposed airway would have to be reconsidered. In the event it is decided that the proposed restricted area/military climb corridor should be aligned along a radial of the K. I. Sawyer AFB TVOR other than its 009° True radial, the effect its designation may have on Victor 470 in the vicinity of Marquette will be given careful consideration, including any necessary modification to the airway.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the Notice, Parts 600 (24 F.R. 10487) and 601 (24 F.R. 10530) are amended as follows:

1. Section 600.6470 is added to read:

§ 600.6470 VOR Federal airway No. 470 (Lakehead, Ontario, to Sault Ste. Marie, Mich.).

From the Lakehead, Ont., VOR via the Houghton, Mich., VOR; Marquette, Mich., VORTAC; INT of the Marquette VORTAC 067° True and the Whitefish, Mich., VOR 282° True Radials; Whitefish VOR; to the Sault Ste. Marie, Mich., VOR, including a north alternate via the INT of the Whitefish VOR 084° True and the Sault Ste. Marie VOR 328° True radials.

2. Section 601.6470 is added to read:

§ 601.6470 VOR Federal airway No. 470 control areas (Lakehead, Ontario, to Sault Ste. Marie, Mich.).

All of VOR Federal airway No. 470 including a north alternate.

These amendments shall become effective 0001 e.s.t. January 12, 1961.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C. on June 10, 1960.

D. D. THOMAS,
Director, Bureau of
Air Traffic Management.

[F.R. Doc. 60-5532; Filed, June 16, 1960; 8:45 a.m.]

[Airspace Docket No. 60-WA-61]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Modification of Control Area Extension

The purpose of this amendment to § 601.1277 of the regulations of the Administrator is to modify the Denver, Colo., control area extension.

Aircraft desiring to utilize the Denver control area extension, as presently designated, require approval from the Federal Aviation Agency Air Traffic Control, prior to operating below 22,000 feet MSL in that portion of the control area extension which lies within the Parker, Colo., Restricted Area (R-195). This restricted area was revoked in Airspace Docket No. 59-LA-65 (24 F.R. 9420). Therefore, reference to this restriction may now be removed from the description of the Denver control area extension.

Since this amendment reduces a burden on the public, compliance with the notice, public procedure, and effective date requirements of section 4 of the Administrative Procedure Act is unnecessary and it may be made effective immediately.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) § 601.1277 (24 F.R. 10561) is amended as follows:

In the text of § 601.1277 *Control area extension (Denver, Colo.)*, delete "The portion of this control area below 22,000 feet MSL which lies within restricted area (R-195) (published in Section 608.15 of this chapter) shall be used only after obtaining prior approval from Federal Aviation Agency Air Traffic Control."

This amendment shall become effective upon the date of publication in the FEDERAL REGISTER.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 10, 1960.

D. D. THOMAS,
Director, Bureau of
Air Traffic Management.

[F.R. Doc. 60-5536; Filed, June 16, 1960; 8:45 a.m.]

[Airspace Docket No. 60-WA-64]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Modification of Control Area Extension

The purpose of this amendment to § 601.1412 of the regulations of the Administrator is to modify the Marysville, Calif., control area extension.

The Marysville control area extension is presently designated, in part, as bounded on the south by VOR Federal airway No. 200 and on the east by lines connecting geographical coordinates. Victor 200 has been realigned to the south (24 F.R. 1284) and the eastern boundary, as presently described, does not extend southward to the realigned airway. The eastern boundary is, therefore, being extended to the south to correct this deficiency. No increase in control area will result from this action.

Since this amendment imposes no additional burden on the public, compliance with the notice, public procedure, and effective date requirements of section 4 of the Administrative Procedure Act is unnecessary and it may be made effective immediately.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) § 601.1412 (24 F.R. 10568) is amended as follows:

In the text of § 601.1412 *Control area extension (Marysville, Calif.)*, delete "latitude 39°21'00", longitude 121°33'-00" via a point" and substitute therefore "latitude 39°15'00" N., longitude 121°-39'00" W. via a point".

This amendment shall become effective upon the date of publication in the FEDERAL REGISTER.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 10, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5587; Filed, June 16, 1960; 8:45 a.m.]

[Airspace Docket No. 59-WA-164]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Modification of Control Zone

On October 28, 1959, a notice of proposed rule making was published in the FEDERAL REGISTER (24 F.R. 8748) stating that the Federal Aviation Agency was considering an amendment to § 601.2120 of the regulations of the Administrator which would modify the Rochester, Minn., control zone by redesignating the southwest control zone extension on the Rochester VOR 027° True radial in place of the 042° and 222° True radials because the Rochester VOR was to be relocated. On February 19, 1960, a supplemental notice of proposed rule making was published (25 F.R. 1493) stating that a re-evaluation of the instrument approach procedures for approaches to Lobb Field, Rochester, Minn., disclosed there no longer existed a requirement for a VOR approach procedure based on the relocated Rochester VOR and that the southwest extension was to be revoked.

As stated in the notice, the Rochester control zone is presently designated within a 5-mile radius of Lobb Field (formerly Rochester Airport) with extensions to the south and southwest. The Rochester VOR has been relocated and the VOR instrument approach procedure has been cancelled, accordingly it appears that the southwest extension based on the VOR is unjustified as an assignment of airspace and that revocation thereof is in the public interest. Therefore, the Rochester control zone is being redesignated within a 5-mile radius of Lobb Field, Rochester, and within 2 miles either side of the south course of the radio range station extending from the 5-mile radius zone to a point 12 miles south of the radio range station.

The Aircraft Owners and Pilots Association concurred in the revocation of the southwest control zone extension. However, the AOPA objected to the modification of the south control zone extension because "the south instrument approach procedure does not involve flight outside of controlled airspace (control area) at a point to the south of the low frequency range. Accordingly, the need for a control zone extension has not been established." In accordance with the published low frequency range approach procedure for Lobb Field, the procedure turn is completed at 2,400 feet MSL within 10 nautical miles and then descent is made to cross the range station at 1,900 feet MSL which is 859 feet above the surface of the airport. Therefore, the Federal Aviation Agency considers that the control zone extension to the south based on the south leg of the Rochester radio range station is required for the full protection of the instrument approach.

No other adverse comments were received.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), § 601.2120 (24 F.R. 10577) is amended to read:

§ 601.2120 Rochester, Minn., control zone.

Within a 5-mile radius of the geographical center of Lobb Field (latitude 44°00'00" N., longitude 92°27'00" W.) and within 2 miles either side of the S course of the RR extending from the 5-mile radius zone to a point 12 miles S of the RR.

This amendment shall become effective 0001 e.s.t., August 25, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 10, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5590; Filed, June 16, 1960; 8:45 a.m.]

[Airspace Docket No. 60-WA-13]

PART 602—ESTABLISHMENT OF CODED JET ROUTES AND NAVIGATIONAL AIDS IN THE CONTINENTAL CONTROL AREA

Establishment of Coded Jet Route

On March 5, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 1966) stating that the Federal Aviation Agency was considering an amendment to Part 602 of the Regulations of the Administrator which would designate VOR/VORTAC jet route No. 70 between Seattle, Wash., and New York, N.Y.

As stated in the Notice J-70-V would be designated from Seattle, Wash., VOR via the intersection of the Seattle VOR 091° True and the Mullan Pass, Idaho, VOR 269° True radials; Mullan Pass VOR; Lewiston, Mont., VOR; Dickinson, N. Dak., VORTAC; Aberdeen, S. Dak., VOR; Minneapolis, Minn., VOR; intersection of the Minneapolis VOR 109° True and the Milwaukee, Wis., VOR 312° True radials; Milwaukee VOR; Pullman, Mich., VOR; intersection of the Pullman VOR 091° True and the Windsor, Ont., VOR 278° True radials; via the Windsor VOR 278° True radial to the United States-Canadian border. From the United States-Canadian border at its point of intersection with the Erie, Pa., VORTAC 278° True radial via the Erie VORTAC; Allentown, Pa., VORTAC to the Idlewild, N.Y., VORTAC.

The Department of the Air Force objected to any portion of the proposed route not having adequate radar coverage, and in addition, submitted the following comments:

1. The segment of the proposed route between Minneapolis, Minn., and Milwaukee, Wis., would conflict with the proposed Truax Air Force Base, Madison, Wis., Military Climb Corridor.

2. The proposed route would result in increased traffic in the vicinity of Fairchild Air Force Base, Spokane, Wash., and thereby block heavy jet traffic arriving and departing this base.

3. The proposed route would conflict with high altitude refueling areas "Happy Home" and "Quick Time."

4. The proposed route would conflict with the proposed Malmstrom Air Force Base, Great Falls, Mont., Military Climb Corridor.

Adequate radar coverage does exist for the entire route. The segment of J-70-V between Minneapolis and Milwaukee will by-pass the proposed Truax AFB Military Climb Corridor approximately 7 miles northeast. The projection of a 5° error factor will clear the climb corridor but will necessitate a reduction to the normal route width of this segment.

The Federal Aviation Agency recognizes that the establishment of J-70-V will result in increased high altitude traffic in the vicinity of Fairchild AFB. However, the airspace encompassed by J-70-V, in the vicinity of Fairchild AFB, is the same as now designated by J-90-V. Any air traffic control problems that may exist between en route traffic and terminal operations at Fairchild AFB and en route traffic through the "Happy Home" and "Quick Time" high altitude refueling areas will be resolved by the appropriate air route traffic control centers to ensure efficient air traffic management. The confliction between J-70-V and the proposed Malmstrom AFB Military Climb Corridor will be resolved, on a procedural basis, at the time the climb corridor becomes effective.

No other adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), Part 602 (14 CFR, 1958 Supp., Part 602) is amended by adding the following:

§ 602.570 VOR/VORTAC jet route No. 70 (Seattle, Wash., to New York, N.Y.).

From the Seattle, Wash., VOR via the INT of the Seattle VOR 091° True and the Mullan Pass, Idaho, VOR 269° True radials; Mullan Pass VOR; Lewiston, Mont., VOR; Dickinson, N. Dak., VORTAC; Aberdeen, S. Dak., VOR; Minneapolis, Minn., VOR; INT of the Minneapolis VOR 109° True and the Milwaukee, Wis., VOR 312° True radials; Milwaukee VOR; Pullman, Mich., VOR; INT of the Pullman VOR 091° True and the Windsor, Ont., VOR 278° True radials; via the Windsor VOR 278° True radial to the United States-Canadian Border. From the United States-Canadian border at its point of INT with the Erie, Pa., VORTAC 278° True radial via the Erie VORTAC; Allentown, Pa., VORTAC to the Idlewild, N.Y., VORTAC.

This amendment shall become effective 0001 e.s.t. August 25, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 10, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

SUBCHAPTER A—PROCEDURES, RULES OF PRACTICE, AND ORDERS

PART 1—GENERAL PROCEDURES

Subpart M—Public and Confidential Information

AVAILABILITY OF RECORDS

The Commission announces the following change in Part 1 of Chapter I of Title 16. The change to be effective as of date of publication in the FEDERAL REGISTER.

Section 1.132(e) is amended to read as follows:

(e) The pleadings, transcript of testimony, exhibits and all documents received in evidence or made a part of the record in adjudicative proceedings, petitions for the issuance, amendment or repeal of rules and regulations under the Wool, Fur, Textile, and Flammable Fabrics Acts, including petitions for exemptions, records of hearings in all rule-making proceedings, continuing guaranties filed under the Wool, Fur, Textile and Flammable Fabrics Acts and informal agreements to cease and desist after acceptance by the Commission are available at the principal office of the Commission for inspection and copying at reasonable times. Where copies of such materials are desired, § 1.131(b) applies.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46)

Issued: June 15, 1960.

By direction of the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

[F.R. Doc. 60-5560; Filed, June 16, 1960; 8:48 a.m.]

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Tolerances for Residues of 1-Naphthyl *N*-Methylcarbamate

A petition was filed with the Food and Drug Administration by Union Carbide Chemicals Company, 30 East Forty-second Street, New York 17, New York, requesting the establishment of tolerances for residues of 1-naphthyl *N*-methylcarbamate in or on raw agricultural commodities, as follows:

40 parts per million in or on corn fodder and forage.
5 parts per million in or on corn (kernels only and kernels plus cob with husk removed).

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purposes for which tolerances are being established.

After consideration of the data submitted in the petition and other relevant material which show that the tolerances established in this order will protect the public health, and by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(22)) and delegated to the Commissioner of Food and Drugs by the Secretary (21 CFR, 1959 Supp., 120.7 (g)), the regulations for tolerances for pesticide chemicals in or on raw agricultural commodities (21 CFR, 1959 Supp., Part 120) are amended by adding to the list of raw agricultural commodities for which tolerances have been established in § 120.169 the items corn fodder and forage and corn (kernels and kernels plus cob, determined after removing husks present when marketed).

As amended § 120.169 reads as follows:

§ 120.169 Tolerances for residues of 1-naphthyl *N*-methylcarbamate.

Tolerances are established for residues of 1-naphthyl *N*-methylcarbamate, including its hydrolysis product 1-naphthol calculated as 1-naphthyl *N*-methylcarbamate, in or on raw agricultural commodities as follows:

(a) 25 parts per million in or on corn fodder and forage.

(b) 10 parts per million in or on apples, bananas, beans, cherries, cucumbers, eggplants, grapes, peaches, pears, peppers, plums (fresh prunes), strawberries, summer squash, tomatoes.

(c) 5 parts per million in or on corn (kernels and kernels plus cob, determined after removing husks present when marketed), cottonseed.

Any person who will be adversely affected by the foregoing order may at any time prior to the thirtieth day from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER.

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: June 10, 1960.

[SEAL] JOHN L. HARVEY,
Deputy Commissioner of Food and Drugs.

[F.R. Doc. 60-5550; Filed, June 16, 1960; 8:47 a.m.]

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 203—BRIDGE REGULATIONS

Lemon Creek, N.Y., and Shark River, N.J.

Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U.S.C. 499), § 203.215 is hereby amended by adding paragraph (j) to govern the operation of a bridge across Lemon Creek, New York and certain bridges across Shark River, New Jersey, effective on and after publication in the FEDERAL REGISTER, as follows:

§ 203.215 Navigable streams flowing into Raritan Bay (except Raritan River and Arthur Kill), the Shrewsbury River and its tributaries, and all inlets on the Atlantic Ocean including their tributaries and canals between Sandy Hook and Bay Head, N.J.; bridges.

* * * * * *

(j) The general regulations contained in paragraphs (a) to (g), inclusive, of this section shall apply to all bridges except as modified by the special regulations contained in this paragraph.

(1) Lemon Creek, N.Y.; the City of New York highway bridge at Bayview Avenue, Borough of Richmond, Staten Island, New York. The draw need not be opened for the passage of vessels between the hours of 4:00 p.m. and 8:00 a.m. from November 1, to March 31, inclusive, and between the hours of 10:00 p.m. and 6:00 a.m. from April 1, to May 15, inclusive, and from October 16, to October 31, inclusive.

(2) Shark River, N.J. (i) For the purposes of the regulations in this paragraph, the Route 71, the New York and Long Branch Railroad Company and the Route 35 bridges, being less than 800 feet apart, shall be considered and operated as a unit. The owners thereof shall provide and install, for uninterrupted service, systems of electric signals on their respective bridges, so connected that the operator of any of the bridges may thereby simultaneously notify, by signal, the operators of all the other drawbridges of the desire of any vessel or other watercraft to pass through the draws. The operator of the first bridge to be passed by an approaching vessel or other watercraft shall be responsible for observing the approach of such vessel or other watercraft toward the bridge, for receiving and acknowledging the signal or notice for passing, and for communicating to the operators of the other bridges, the intention of such vessel or other watercraft to pass.

(ii) Except as otherwise provided in subdivisions (iii) and (iv) of this subparagraph, from May 15, to September 30, inclusive, on Saturdays, Sundays, Memorial Day, Independence Day and Labor Day, between the hours of 9:00 a.m. and 9:00 p.m., and on weekdays, between the hours of 4:00 p.m. and 7:00 p.m., the lift span of the Ocean Avenue bridge shall not be required to open except at half-hourly intervals 15 minutes before and 15 minutes after the hour and the lift span of the Route 71, the New York and Long Branch Railroad Company and the Route 35 bridges shall not be required to open except at half-hourly intervals on the hour and half-hour, for those vessels or other watercraft waiting to pass through the draws, provided that when once opened for the passage of any vessel or craft, the said bridge or bridges shall remain open sufficiently long to permit the passage of all vessels or craft which may be engaged in passing or which may be presenting themselves for passage.

(iii) The draws shall be opened promptly on signal for the passage of vessels in the event of emergencies.

(iv) The draws shall be opened promptly at any time for the passage of vessels owned, controlled or employed by the United States Government, the State government or municipal and local governments.

[Regs., June 8, 1960, 285/91-ENGOW-O] (Sec. 5, 28 Stat. 362; 33 U.S.C. 499)

BRUCE EASLEY,
Major General, U.S. Army,
Acting The Adjutant General.

[F.R. Doc. 60-5582; Filed, June 16, 1960; 8:51 a.m.]

Title 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 2123]

[Montana 037312]

SOUTH DAKOTA

Partially Revoking the Departmental Orders of July 18, 1903, March 3, 1909 and September 27, 1909 (Belle Fourche Project)

By virtue of the authority vested in the Secretary of the Interior by section 3 of the act of June 17, 1902 (32 Stat. 388; 43 U.S.C. 416), it is ordered as follows:

The departmental orders of July 18, 1903, March 3, 1909, and September 27, 1909, which withdrew lands in South Dakota for reclamation purposes in connection with the Belle Fourche Project, are hereby revoked so far as they affect the following-described lands:

BLACK HILLS MERIDIAN

T. 9 N., R. 7 E.,
Sec. 31, lots 1, 2, and NE¼NW¼.

The areas described aggregate 120.60 acres.

The released lands are embraced in Homestead Entry application, Pierre 022481.

ROGER ERNST,
Assistant Secretary of the Interior.

JUNE 10, 1960.

[F.R. Doc. 60-5548; Filed, June 16, 1960; 8:46 a.m.]

Proposed Rule Making

FEDERAL AVIATION AGENCY

[14 CFR Part 601]

[Airspace Docket No. 60-AN-2]

CONTROL ZONES

Designation

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 601.1984 of the regulations of the Administrator, the substance of which is stated below.

The Federal Aviation Agency has under consideration a request by the Department of Navy to designate a control zone within a 5-mile radius of the Adak Naval Station, Alaska. The designation of this control zone would provide protection for aircraft conducting prescribed instrument approaches and departures to and from the Naval Station during instrument flight rule conditions.

If this action is taken, the Adak Island, Alaska, control zone would be designated within a 5-mile radius of the Adak Naval Station (latitude 51°53'00" N., longitude 176°39'00" W.).

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, P.O. Box 440, Anchorage, Alaska. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 10, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5538; Filed, June 16, 1960; 8:46 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60-FW-15]

CONTROL ZONES

Modification

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 601.2404 of the regulations of the Administrator, the substance of which is stated below.

The Harlingen, Tex., control zone is designated within a 5-mile radius of the Harlingen Air Force Base and within 2 miles either side of lines bearing 179° and 359° True from the Harlingen AFB radio beacon extending from the 5-mile radius zone to a point 5 miles north of the nondirectional radio beacon. The Federal Aviation Agency is considering modifying this control zone by designating an additional extension within 2 miles either side of the Harlingen VOR 117° True radial extending from the 5-mile radius zone to the VOR. Concurrently, the present control zone extension would be redesignated to terminate at the Harlingen radiobeacon, since it has been determined that the portion of the extension north of the Harlingen radiobeacon is not required for the protection of aircraft conducting instrument approaches to Harlingen AFB. The control zone extension from the 5-mile radius zone to the Harlingen VOR would provide protection for aircraft conducting instrument approaches to Harlingen AFB based on the VOR.

If this action is taken, the Harlingen, Tex., control zone would be designated within a 5-mile radius of Harlingen Air Force Base, Tex. (latitude 26°13'36" N., longitude 97°39'05" W.), within 2 miles either side of the 179° True bearing from the Harlingen radiobeacon extending from the 5-mile radius zone to the radiobeacon, and within 2 miles either side of the 117° True radial of the Harlingen VOR extending from the 5-mile radius zone to the VOR.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, P.O. Box 1689, Fort Worth 1, Tex. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 10, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5539; Filed, June 16, 1960; 8:46 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60-LA-7]

CONTROL AREAS

Modification of Control Area Extension

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to Part 601 and § 601.1306 of the regulations of the Administrator, the substance of which is stated below.

The Mountain Home, Idaho, control area extension (§ 601.1306) is designated to include the airspace within a 35-mile radius of the Mountain Home AFB, bounded on the northeast by Green Federal airway No. 10, within 5 miles either side of a direct line extending from the Mountain Home radio beacon to the Boise, Idaho, radio range, within 5 miles either side of the Mountain Home TVOR 178° and 298° True radials, extending from the TVOR to points 61 miles south and southwest and within 5 miles either side of the Twin Falls, Idaho, VOR 269° True radial, extending from the VOR to its intersection with the 178° True radial of the Mountain

Home TVOR, excluding the portion which lies within the geographic limits of and between the designated altitudes of the Sailor Creek Restricted Area R–254 during its time of designation.

The Federal Aviation Agency has under consideration combining the Mountain Home control area extension (§ 601.1095) and the Twin Falls control area extension (§ 601.1348) with the Mountain Home control area extension (§ 601.1306). Combining these three control area extensions and redesignating them as one extension would eliminate the present multiple designations and simplify the description. Concurrently, approximately 110 square miles of additional control area would be designated south of the present 35-mile radius of the Mountain Home (§ 601.1306) control area extension and between the 178° and 208° True radials of the Mountain Home TVOR. The additional control area to the south would provide protection to departing aircraft utilizing IFR departure procedures from Mountain Home AFB via the 163° True radial of the Boise VOR and the 208° True radial of the Mountain Home TVOR. These procedures were developed to alleviate conflict with jet penetrations to Runway 30 at Mountain Home AFB.

If this action is taken, the Mountain Home, Idaho, control area extension (§ 601.1306) would be redesignated as follows:

Within 5 miles either side of the 178° and 208° True radials of the Mountain Home TVOR extending from the TVOR to points 61 miles south and southwest, and that area south, southeast and west of Mountain Home bounded by a line beginning at the intersection of the southwest boundary of VOR Federal airway No. 253 and a line 5 miles south of and parallel to the Twin Falls, Idaho VOR 269° True radial, thence west along this line to its intersection with a line 5 miles northwest of and parallel to the Mountain Home TVOR 208° True radial, thence northeast along this line to its intersection with the arc of a circle with a 35-mile radius of Mountain Home AFB (Lat. 43°02'30" N., Long. 115°51'50" W.), thence clockwise along this arc to its intersection with the southwest boundary of VOR Federal airway No. 253, thence southeast along this boundary to the point of beginning, excluding that area bounded on the northeast by a line 5 miles southwest of and parallel to the Twin Falls VOR 298° True radial, on the south by a line 5 miles north of and parallel to the Twin Falls VOR 269° True radial, on the west by a line 5 miles east of and parallel to the Mountain Home TVOR 178° True radial and on the northwest by the arc of a circle with a 35-mile radius of Mountain Home AFB. The portions of this control area extension which lie within the geographical limits of, and between the designated altitudes of the Sailor Creek Restricted Area (R–254) will not be used by aircraft during the time of designation of this restricted area unless prior approval is obtained from Federal Aviation Agency Air Traffic Control. Concurrently, the Mountain Home, Idaho, control area extension (§ 601.1095) and the Twin Falls, Idaho, control area extension (§ 601.1348) would be revoked.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, 5651 West Manchester Avenue, P.O. Box 90007, Airport Station, Los Angeles 45, Calif. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B–316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 10, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60–5540; Filed, June 16, 1960; 8:46 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60–AN–14]

CONTROL ZONES

Modification

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering amendments to Part 601 and § 601.1984 of the regulations of the Administrator, the substance of which is stated below.

The Northway, Alaska, control zone is presently designated within a 5-mile radius of the Northway Airport. The Federal Aviation Agency is considering designating a control zone extension northwest of the Northway Airport within 2 miles either side of the northwest course of the Northway radio range from the 5-mile radius zone to 12 miles northwest of the radio range. This modification would provide protection for aircraft conducting the prescribed instrument approach to the airport during IFR conditions.

If this action is taken, the Northway, Alaska, control zone would be designated within a 5-mile radius of the Northway Airport (latitude 62°57'43" N., longitude 141°55'27" W.), and within 2 miles either side of the northwest course of the Northway radio range extending from the 5-mile radius zone to 12 miles northwest of the radio range. The Northway, Alaska, control zone would then be designated in a new section in Part 601, and deleted from § 601.1984, *Five-mile radius zones.*

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, P.O. Box 440, Anchorage, Alaska. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B–316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 10, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60–5541; Filed, June 16, 1960; 8:46 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60–FW–3]

CONTROL ZONES

Modification

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 601.2139 of the regulations of the Administrator, the substance of which is stated below.

The Cross City, Fla., control zone is presently designated within a 5-mile radius of the Cross City Airport, within 2 miles either side of the southeast course of the Cross City radio range extending from the radio range station to a point

10 miles southeast, and within 2 miles either side of the 118° True radial of the Cross City VOR extending from the VOR to a point 10 miles southeast. The Federal Aviation Agency is considering the modification of the Cross City control zone by revoking the southeast control zone extension based on the radio range; and realigning the southeast control zone extension based on the VOR via the 121° True radial and extending it to a point 12 miles southeast of the VOR. The Cross City radio range is scheduled for decommissioning in the near future. Upon decommissioning of the radio range the control zone extension southeast of the Cross City Airport, based on the radio range, would no longer be required. Realignment and extension of the southeast extension based on the VOR would provide protection for aircraft executing VOR instrument approaches to the Cross City Airport.

If this action is taken, the Cross City, Fla., control zone would be designated within a 5-mile radius of the Cross City Airport (latitude 29°38'04.7" N., longitude 83°06'16.9" W.), and within 2 miles either side of the 121° True radial of the Cross City VOR extending from the 5-mile radius zone to a point 12 miles southeast of the VOR.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, P.O. Box 1689, Fort Worth 1, Tex. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B–316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 10, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60–5542; Filed, June 16, 1960; 8:46 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 59–LA–30]

CONTROL ZONES

Withdrawal of Proposal To Modify Control Zone

In a notice of proposed rule making published in the FEDERAL REGISTER as Airspace Docket No. 59–LA–30 on September 5, 1959 (24 F.R. 7206), it was stated that the Federal Aviation Agency proposed to modify the Cannon Air Force Base, Clovis, N. Mex., control zone extension to include the airspace within 2 miles either side of the extended center line of runway 21 from the five mile radius zone to a point 62 statute miles beyond the Cannon radio beacon. Subsequent to publication of the notice, the instrument approach procedure at Cannon AFB was revised to the extent that modification of the control zone, as proposed, is no longer necessary.

In consideration of the foregoing, the notice of proposed rule making contained in Airspace Docket No. 59–LA–30 is hereby withdrawn.

Sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 10, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

Notices

CIVIL AERONAUTICS BOARD

[Docket 10960]

CONSOLIDATED AIR FREIGHT, INC.

Notice of Hearing

In the matter of the application of Consolidated Air Freight, Inc. under sections 408 and 409 of the Federal Aviation Act of 1958, as amended, for Board approval of certain common control and interlocking relationships.

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that hearing in the above-entitled proceeding is assigned to be held on June 21, 1960, at 10:00 a.m., e.d.s.t., in Room 701, Universal Building, Connecticut and Florida Avenues NW., Washington, D.C. before Examiner Joseph L. Fitzmaurice.

Dated at Washington, D.C., June 14, 1960.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Oregon 05286]

[NO. 60-6]

OREGON

Notice of Proposed Withdrawal and Reservation of Lands

JUNE 9, 1960.

The Corps of Engineers, United States Army, has filed an amendment to their application, Serial No. Oregon 05286, for the withdrawal of additional lands as described below, subject to valid existing rights, from all forms of appropriation, including grazing leases or permits, mineral leases, and location of mining claims.

The original application for withdrawal and reservation of lands involving 6,020.44 acres of public land was published in the FEDERAL REGISTER as F.R. Doc. 58-5834 on July 31, 1958 (23 F.R. 5803).

The applicant desires the additional land for construction of a lock and dam to provide power, flood control, and navigational facilities on the Columbia River in the John Day Project.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, 809 Northeast Sixth Avenue, Portland 12, Oregon.

If circumstances warrant it, a public hearing will be held at a convenient time and place which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The additional lands involved in the amendment to the application are:

WILLAMETTE MERIDIAN, OREGON

T. 3 N., R. 17 E.,
Sec. 24: SW¼NW¼, NW¼SW¼, SE¼SW¼, S½SE¼.
T. 2 N., R. 18 E.,
Sec. 10: NE¼SE¼, N½NW¼SE¼, SE¼NW¼SE¼;
Sec. 11: S½SE¼NW¼, S½SW¼NE¼, NE¼SE¼, SW¼SE¼NE¼;
Sec. 12: S½ lot 12, N½ lot 13, lots 14 and 15.
T. 5 N., R. 26 E.,
Sec. 30: All.

Approximately 1,197.09 acres.

RUSSELL E. GETTY,
State Supervisor.

Bureau of Reclamation

[Public Announcement No. 32]

COLUMBIA BASIN PROJECT, WASHINGTON

Sale of Full-Time Farm Units

MAY 31, 1960.

LANDS COVERED

SECTION 1. *Offer of farm units for sale.* It is hereby announced that certain farm units in the Columbia Basin Project, Washington, will be sold to qualified applicants in accordance with the provisions of this announcement. Applications for certificates of qualification to purchase farm units may be submitted beginning at 2:00 p.m., June 17, 1960. In order to permit the continued orderly development and settlement of project lands, this public announcement is issued irrespective of there being pending applications for exchange pursuant to the Act of August 13, 1953 (67 Stat. 566).

a. *Farm units presently owned.* The farm units which are presently owned by the United States and hereby offered for sale are described as follows:

SOUTH COLUMBIA BASIN IRRIGATION DISTRICT

Irrigation block No.	Farm unit No.	Gross acres	Tentative irrigable acreage				Nonirrigable	Sales price
			Total	Class 1	Class 2	Class 3		
19	162	143.8	119.9	48.4	40.8	30.7	23.9	$6,720.00
201	1	222.8	156.3	----------	87.7	68.6	66.3	5,900.00
	3	171.0	157.2	----------	105.8	51.4	12.8	5,700.00
	5	235.2	112.1	17.1	86.9	8.1	123.1	3,821.00
	8	157.5	104.0	66.1	6.7	31.2	53.5	3,468.00
	12	165.0	126.9	64.6	32.3	30.0	38.1	3,994.00
	16	156.2	143.7	26.7	66.0	51.0	12.5	3,544.00
	18	167.7	149.4	31.4	88.7	29.3	18.3	3,242.00
	19	167.7	120.6	1.3	53.6	35.7	47.1	3,247.00
	20	161.0	119.2	----------	109.9	9.3	41.8	3,190.70

EAST COLUMBIA BASIN IRRIGATION DISTRICT

Irrigation block No.	Farm unit No.	Gross acres	Tentative irrigable acreage				Nonirrigable	Sales price
			Total	Class 1	Class 2	Class 3		
44	277	222.9	141.6	----------	126.0	15.6	81.3	$2,482.00
	279	123.1	108.8	----------	83.3	25.5	14.3	1,677.00
45	248	151.5	119.2	----------	84.5	34.7	32.3	2,015.00

b. *Additional farm units.* If, through the operation of its land acquisition program, the United States should, following the date of this announcement and prior to the date on which the first farm unit is offered for selection to an applicant under the provisions hereof, own additional farm units in the South and East Columbia Basin Irrigation Districts which are scheduled to receive water before the close of the 1960 irrigation season, such farm units may be offered for sale under the provisions of this announcement.

The official plats of these irrigation blocks are on file in the offices of the Bureau of Reclamation at Ephrata, Washington, and Boise, Idaho. The prices of the farm units are subject to minor changes which may result from adjustments in the irrigable acreages due to changes in rights of way or other causes.

SEC. 2. *Limit of acreage which may be purchased.* The lands covered by this announcement have been divided into farm units. Each of the farm units represents the acreage which, in the opinion of the Regional Director, Region 1, Bureau of Reclamation, will support an average size family at a suitable level of living. The law provides that no application for a certificate of qualification shall be received from (1) anyone who then has outstanding a certificate of qualification to select a farm unit on the Columbia Basin Project, (2) anyone who owns another farm unit on that project, or (3) any person who, or a member of whose family, has theretofore purchased or entered into a contract to purchase a farm unit under the Columbia Basin Project Act, except those whose farm units have been acquired by the United States for exchange purposes. A family is defined as comprising husband or wife, or both, together with their children under 18 years of age, or all of such children if both parents are dead.

PREFERENCE OF APPLICANTS

SEC. 3. *Nature of preference.* Except for a prior preference given applicants for exchange under the provisions of the Act of August 13, 1953 (67 Stat. 566), who are hereinafter called "exchange applicants", preference right to purchase the farm units described above will be given to persons who submit applications during a 45-day period beginning at 2:00 p.m., June 17, 1960, and ending at 2:00 p.m., August 1, 1960.

QUALIFICATIONS REQUIRED OF PURCHASERS

SEC. 4. *Examining board.* An examining board of three members has been appointed by the Regional Director to determine the qualifications and fitness of applicants to undertake the purchase, development, and operation of a farm on the Columbia Basin Project. The Board will make careful investigations to verify the statements and representations made by applicants. Any false statements may constitute grounds for rejection of an application and cancellation of the applicant's right to purchase a farm unit.

SEC. 5. *Minimum qualifications.* Certain minimum qualifications have been established which are considered necessary for the successful development of farm units. Applicants, unless qualified exchange applicants, must, in the judgment of the examining board, meet these qualifications in order to be eligible for the purchase of farm units. Failure to meet them in any single respect will be sufficient cause for rejection of an application. The credit will be given for qualifications in excess of the required minimum. The minimum qualifications are as follows:

a. *Character and industry.* An applicant must be possessed of honesty, temperate habits, thrift, industry, seriousness of purpose, record of good moral conduct, and a bona fide intent to engage in farming as an occupation.

b. *Farm experience.* Except as otherwise provided in this subsection, an applicant must have had a minimum of two years (24 months) of full-time farm experience, which shall consist of participation in actual farming operations, after attaining the age of 15 years. Time spent in agricultural courses in an accredited agricultural college or time spent in work closely associated with farming, such as teaching vocational agriculture, agricultural extension work, or field work in the production or marketing of farm products, which in the opinion of the Board will be of value to an applicant in operating a farm, may be substituted for full-time farm experience. Such substitution shall be on the basis of one year (academic year of at least nine months) of agricultural college courses or one year (twelve months) of work closely associated with farming for six months of full-time farm experience. Not more than one year of full-time farm experience of this type will be allowed. A farm youth who actually resided and worked on a farm after attaining the age of 15 and while attending school may credit such experience as full-time experience.

Applicants who have acquired their experience on an irrigated farm will not be given preference over those whose experience was acquired on a nonirrigated farm, but all applicants must have had farm experience of such nature as in the judgment of the examining board will qualify the applicant to undertake the development and operation of an irrigated farm by modern methods.

c. *Health.* An applicant must be in such physical condition as will enable him to engage in normal farm labor.

d. *Capital.* To qualify for farms listed in section 1, applicants must either (1) possess assets amounting to at least $8,500 in excess of liabilities, of which at least $5,000 must be in cash; or (2) possess at least $7,500 in cash. In addition, at the time he moves to the Project to take possession of the farm unit selected and prior to execution of the land sale contract, the applicant must be prepared to re-establish to the satisfaction of the Project Manager that he possesses in cash or in cash and property useful in developing the farm the minimum net worth required under either of the above alternates. Assets must consist of cash and property readily convertible into cash or property such as livestock or farm machinery and equipment which, in the opinion of the Board and the Project Manager, will be useful in the development and operation of a new, irrigated farm. When considering farm machinery, the Board and the Project Manager will credit only that equipment which is adapted for use on the Columbia Basin Project. No value will be allowed for a passenger car or household goods. Property not useful in the development of a farm will be considered if the applicant furnishes, at the Board's request, evidence of the value of the property and proof of its conversion into useful form. This conversion can be made before execution of the earnest money agreement or the land sale contract, whichever the Board believes appropriate.

Before executing a land sale contract and acquiring the right of possession of the farm unit, the purchaser must establish, to the satisfaction of the Project Manager, that he has moved to the Project to take possession of the farm unit selected and re-establish his net worth as required above, except that the amount paid as an earnest money deposit can be credited as part of the assets making up the applicant's net worth.

SEC. 6. *Other qualifications required.* Each applicant must meet the following requirements:

a. Be a citizen of the United States or have declared an intention to become a citizen of the United States.

b. In addition to the limitations in section 2, not own outright, or be acquiring under a contract to purchase, more than 10 acres of crop land or a total of 160 acres of land at the time of execution of a purchase contract for a farm unit.

c. Not previously have purchased a farm unit from the United States under provisions of the Reclamation Law, excepting therefrom actions under the Act of August 13, 1953.

d. Not have outstanding a certificate of qualification for the purchase of a farm unit on the Columbia Basin Project.

e. Not own outright, or be acquiring under a contract to purchase, a farm unit on the Columbia Basin Project.

f. If a married woman or a person under 21 years of age who is not a veteran with acceptable service, be the head of a family. The head of a family is ordinarily the husband, but a wife or a minor child who is obliged to assume major responsibility for the support of a family may be the head of a family.

WHERE AND HOW TO SUBMIT AN APPLICATION

SEC. 7. *Filing application blanks.* Any person desiring to apply for a certificate of qualification to purchase a farm unit offered for sale by this announcement must fill out the attached application blank and file it with the Bureau of Reclamation, Ephrata, Washington, in person or by mail. Additional application blanks may be obtained from the office of the Bureau of Reclamation at Ephrata, Washington; Boise, Idaho; or Washington, D.C. No advantage will accrue to an applicant who presents an application in person. Each application submitted, including the evidence of qualification to be submitted following the public drawing, will become a part of the records of the Bureau of Reclamation and cannot be returned to the applicant.

SELECTION OF QUALIFIED APPLICANTS

SEC. 8. *Priority of applications.* All applications, except those received from qualified exchange applicants prior to 2:00 p.m., August 1, 1960, which shall be given prior preference, will be classified for priority purposes as follows:

a. *First group.* All complete applications filed prior to 2:00 p.m., August 1, 1960. Such applications will be treated as simultaneously filed.

b. *Second group.* All complete applications filed after 2:00 p.m., August 1, 1960. Such applications will be considered in the order in which they are filed if any farm units are available for sale to applicants within this group.

SEC. 9. *Public drawing.* After the priority classification, the Board will conduct a public drawing of the names of the applicants in the First Group as defined in subsection 8.a. of this announcement. Applicants need not be present at the drawing to participate therein. The names of a sufficient number of applicants (not less than four times the number of farm units offered for sale) shall be drawn and numbered in the order drawn for the purpose of establishing the order in which the ap-

plications drawn will be examined by the Board to determine whether the applicants meet the minimum qualifications prescribed in this announcement and to establish the priority of qualified applicants for the selection of farm units. After such drawing, the Board will notify each applicant of his respective standing as a result of the drawing.

SEC. 10. *Submission of evidence of qualification.* After the drawing, a sufficient number of applicants, in the order of their priority as established by the drawing, will be supplied with forms on which to submit evidence of qualification showing that they meet the qualifications set forth in Sections 5 and 6 of this announcement. Full and accurate answers must be made to all questions. The completed form, together with any attachments required, must be mailed or delivered to the Bureau of Reclamation, Ephrata, Washington, within 20 days of the date the form is mailed to the last address furnished by the applicant. Failure of an applicant to furnish all of the information requested or to see that information is furnished by his references within the time period specified will subject his application to rejection.

SEC. 11. *Examination and interview.* After the information outlined in Section 10 of this announcement has been received or the time for submitting such statements has expired, the Board shall examine in the order drawn a sufficient number of applications, together with the evidence of qualification submitted, to determine the applicants who will be permitted to purchase farm units. This examination will determine the sufficiency, authenticity, and reliability of the information and evidence submitted by the applicants.

If the applicant fails to supply any of the information required or the Board finds that the applicant's qualifications do not meet the requirements prescribed in this announcement the applicant shall be disqualified and shall be notified by the Board, by certified mail, of such disqualification and the reasons therefor and of the right to appeal to the Regional Director, Region 1, Bureau of Reclamation. All appeals must be received in the office of the Project Manager, Bureau of Reclamation, Ephrata, Washington, within 15 days of the applicant's receipt of such notice or, in any event, within 30 days from the date when the notice is mailed to the last address furnished by the applicant. The Project Manager will promptly forward the appeal to the Regional Director.

If the examination indicates that an applicant is qualified, the applicant may be required to appear for a personal interview with the Board for the purposes of: (1) Affording the Board any additional information it may desire relative to his qualifications; (2) affording the applicant any information desired relative to conditions in the area and the problems and obligations relative to development of a farm unit; and (3) affording the applicant an opportunity to examine the farm units.

If an applicant fails to appear before the Board for a personal interview on the date requested, he will thereby forfeit his priority position as determined by the drawing. If the Board finds that an applicant's qualifications fulfill the requirements prescribed in this announcement, such applicant shall be notified, in person or by certified mail, that he is a qualified applicant and shall be given an opportunity to select one of the farm units available then for purchase. Such notice will require the applicant to make a field examination of the farm units available to him and in which he is interested, to select a farm unit, and to notify the Board of such selection within the times specified in the notice.

SELECTION OF FARM UNITS

SEC. 12. *Order of selection.* The applicants who have been notified of their qualification for the purchase of a farm unit will successively exercise the right to select a farm unit in accordance with the priority established by the drawing. If a farm unit becomes available through failure of a qualified applicant to exercise his right of selection or failure to complete his purchase, it will be offered to the next qualified applicant who has not made a selection at the time the unit is again available. An applicant who is considered to be disqualified as a result of the personal interview will be permitted to exercise his right to select, notwithstanding his disqualification, unless he voluntarily surrenders this right in writing. If, on appeal, the action of the Board in disqualifying an applicant as a result of the personal interview is reversed by the Regional Director, the applicant's selection shall be effective, but if such action of the Board is upheld by the Regional Director, the farm unit selected by this applicant will become available for selection by qualified applicants who have not exercised their right to select.

If any of the farm units listed in this announcement remain unselected after all qualified applicants whose names were selected in the drawing have had an opportunity to select a farm unit and if additional applicants remain in the First Group, all said remaining applicants will be advised by the Board as to the number and nature of the unsold units. If any of the applicants so advised wish to be considered for the possible purchase of one of the remaining units, they must so advise the Board in writing within 20 days of the date of the notice. The Board will consider in the order of their selection priority as established by drawing, only those applicants who make affirmative reply within the period stipulated. Any farm units remaining unselected after all qualified applicants in the First Group have had an opportunity to select a farm unit will be offered to applicants in the Second Group in the order in which their applications were filed, subject to the determination of the Board, made in accordance with the procedure prescribed herein, that such applicants meet the minimum qualifications prescribed in this announcement.

If any farm units offered by or under this announcement remain unsold for a period of two years following the date of this announcement, the Project Manager may sell, lease, or otherwise dispose of such units to qualified applicants without regard to the provisions of section 9 of this announcement.

SEC. 13. *Failure to select.* If any applicant, except a qualified exchange applicant, refuses to select a farm unit or fails to do so within the time specified by the Board, such applicant shall forfeit his position in his priority group and his name shall be placed last in that group.

PURCHASE OF SELECTED UNIT

SEC. 14. *Execution of earnest money agreement and land sale contract.* When a farm unit is selected by an applicant as provided in section 12 of this announcement, the Project Manager will promptly give the applicant a written notice confirming the availability to him of the unit selected and will furnish an earnest money agreement together with instructions concerning its execution and return. In that notice, the Project Manager will inform the applicant of the amount of his down payment and the amount of the irrigation charges assessed by the irrigation district or, if such charges have not been assessed, of an estimate of the amount of the charges for the first year of the development period, to be deposited with the irrigation district.

The earnest money agreement will require the applicant to deposit $200 or 5 percent of the purchase price of the farm, whichever amount is greater, with the Project Manager. The amount deposited with the earnest money agreement will be applied to the down payment if the applicant (1) submits proof that he has moved to the Columbia Basin Project before February 1, 1961, or within six months of the earnest money agreement, whichever is later, and possesses the minimum capital assets required under Subsection 5.d., (2) pays the real or estimated amount of the irrigation charges which will be required by the irrigation district for the first year of the development period following the date of contract, (3) pays the remainder of the required down payment on the purchase price of the farm unit, and (4) executes a land sale contract in accordance with the Project Manager's instructions. If the applicant fails to comply with any of the four requirements described in this paragraph, he will forfeit his right to purchase the farm unit and the amount he has deposited as earnest money will be retained by the United States as liquidated damages.

When the applicant submits proof to the Project Manager or his representative that he has moved to the Project to take possession of the farm unit and that he possesses the minimum capital assets required under subsection 5.d., the Project Manager will promptly furnish the applicant the necessary land sale contract, together with instructions concerning its execution and return. Such

proof shall be in the form of an affidavit that he has actually moved to the Project area, a current financial statement, and, where appropriate, a personal inspection of farm equipment by a representative of the Project Manager.

If the purchase is made subsequent to July 1 of any year during the development period, a deposit may be required to cover payment of water charges for the balance of that year as well as for the year following the purchase.

SEC. 15. *Terms of sale.* Contracts for the sale of farm units pursuant to this announcement will contain, among others, the following principal provisions:

a. *Down payment.* An initial or down payment of $400 or 10 percent of the purchase price of the lands being purchased from the United States, whichever is larger, will be required. Larger proportions or the entire amount of the price may be paid initially at the purchaser's option.

b. *Schedule for payment of balance; interest rate.* If only a portion of the purchase price is paid initially, the remainder will be payable within a period of 20 years following the date of the contract. No payments on the principal, except the down payment, will be required during the first three years, and the Project Manager may postpone such payments for as long as the first five years of the contract. Interest on the unpaid balance at the rate of three percent per annum, however, will be payable annually. When payments on the principal are resumed, they will be payable each year. The schedule of principal payments, which will be established by the Project Manager, will provide for relatively small payments during the first years and larger payments during the later years of the contract period. Payment of any or all installments, or any portion thereof, may be made before their due dates at the purchaser's option.

c. *Development requirements.* In order that the irrigable area of the entire farm unit shall be developed with reasonable dispatch, each purchaser will be required, as a minimum, to clear, level, irrigate, and plant to crops by the end of each of the calendar years indicated below and to maintain in crops thereafter the following percentages of irrigable land as tentatively or finally classified:

Size of farm unit in irrigable acres	Percentage of land classified tentatively or finally as irrigable to be developed by end of each year. (Period will begin with year of purchase if contract is executed and water is available on or before May 1 of that year; otherwise period will begin with the next calendar year.)			
	2d year	3d year	4th year	5th year
31 to 40	75			
41 to 60	50	75		
61 to 80	50	65	75	
81 to 100	40	60	65	75
101 to 160	35	50	65	75

d. *Residence requirements.* A major objective of the settlement program for the Columbia Basin Project is to assist and encourage the permanent settlement of farm families. In keeping with this objective, each purchaser will be required to do the following with respect to residence: (1) Within one year from the date of his contract or by March 1 of the year water is first declared available to the irrigation block in which the farm unit is located, whichever is later, he must initiate residence by actually moving onto the unit, such residence to be maintained by living thereon for not less than 12 months within an 18-month period following the initial date of residence, and (2) before receiving title to the unit under the land sale contract, to establish a permanent and habitable dwelling on the unit. The time for compliance with the initiation of residence may be extended by the Project Manager for periods of as long as six months, upon his determination that an extension is necessary to avoid undue hardship to the purchaser and that it will not be detrimental to the orderly development of the irrigation block. The latest permissible date for initiating residence, however, will not be extended for more than one year in addition to the one-year period specified above.

e. *Speculation and landholding limitations.* Land sale contracts and deeds covering farm units offered by this announcement will include provisions governing (1) maximum permissible sizes of holdings of irrigable lands; (2) continued conformance of land to the area and boundaries of the farm unit plat for the block; (3) prices at which land can be resold during a period of five years following the date on which water is made available to the irrigation block; (4) disposal of land should it become excess at any time; and (5) limitations as to total area that may be operated on the Project, whether as lessee or as owner or both.

f. *Possession.* The purchaser may take possession of the lands being purchased when he has complied with the requirements described in section 14 and the land sale contract has been executed by the Project Manager for the United States, except that if a farm unit is under lease when sold possession may not be taken until the end of the period for which the unit is leased. Such leases occur infrequently and are of not more than one year's duration.

g. *Sales, assignments, leases.* Each purchaser shall be required to agree that he, his heirs and assigns, will not, except with the approval of the Project Manager, sell, assign, lease, or otherwise dispose of, or contract to sell, assign, lease, or otherwise dispose of, his land during a period ending five years from the date of his purchase contract.

h. *Copies of contract form.* The terms listed above and all other standard contract provisions are contained in the land sale contract form, copies of which may be obtained by writing to the Bureau of Reclamation, Ephrata, Washington.

IRRIGATION CHARGES

SEC. 16. *Water rental charges.* In irrigation Block 201 some construction activities will be continuing and the system will be tested during the irrigation season of 1960. However, it is expected that water will be furnished on a temporary rental basis to those desiring it. The terms of payment, which will be at a fixed rate per acre-foot of water used, will be announced by the Project Manager before the beginning of the irrigation season.

SEC. 17. *Development period charges.* Pursuant to the provisions of the repayment contracts of October 9, 1945, between the United States and the South and East Columbia Basin Irrigation Districts, the Secretary of the Interior has announced a development period of ten years during which time payment of construction charge installments will not be required. The development period began in 1956 for Irrigation Block 44 and in 1957 for Irrigation Blocks 19 and 45.

During the development period, water rental charges, except as pointed out later in this section, will average an estimated $6 per year for each irrigable acre as tentatively or finally classified. This figure is preliminary and subject to change because all the data needed to fix the charges are not available nor can they be obtained now. In any event, there will be a minimum charge per farm unit each year whether or not water is used. A notice establishing the details of the plan to be followed and announcing charges and governing provisions for the first year of the development period will be issued prior to January 1 of that year by the Project Manager. The present plans are: (1) To vary the minimum charge according to the anticipated relative repayment ability of the various land classes; (2) to provide for a small minimum charge for the first year and to increase it each year thereafter so that the charge for the tenth year will be approximately equal to the combined construction and operation and maintenance charge for the following year; and (3) to charge for water in excess of the amount furnished for the minimum charge on an acre-foot basis. The minimum charge will entitle each user to a quantity of water, to be specified by the Project Manager, varying with the water requirement classification of the land and the size of the farm unit.

In addition to the water rental charges, the irrigation districts will levy a charge to cover administrative costs and probable delinquencies in collections.

Under the terms of the existing repayment contract, drainage works costing not to exceed $8,176,000 for the entire Project will be built as a part of the irrigation system and charged as a part of the cost of construction of the system. The cost of any drainage works built, after this limitation has been reached will be charged as a part of the cost of operation and maintenance of the irrigation system.

It is now apparent that the $8,176,000 limitation will be reached in the calendar year 1960 and that additional funds will be needed to construct drainage works. It will, therefore, be necessary to charge these additional drainage construction costs to operation and main-

tenance and, as a result thereof, to increase the average irrigable acre estimated water rental charge mentioned above. However, if the repayment contract is amended in 1960 or some subsequent year to provide an increase in the amount which may be expended for drainage works and charged as a part of the cost of constructing the Project system, it will not be necessary in the years that follow to charge any portion of that increased amount to operation and maintenance.

SEC. 18. *Construction period repayment charges—a. Operation and maintenance charges.* After the development period has ended, water users will pay a charge for operation and maintenance of the Project Irrigation system which will be uniform for the irrigation blocks throughout the Project. These charges may or may not be graduated among land classes. Assessment procedure will be left for the Irrigation District Board of Directors to determine, but, in any case, there will be an annual minimum charge per acre. In order to encourage careful use of water, this annual minimum charge will entitle the water user to one-half acre-foot of water per acre less than the amount of water normally required. The normal requirements for the various classes of land will be determined and announced as provided in the repayment contract with the irrigation district. Water in excess of the quantity covered by the minimum charge will be paid for on an acre-foot basis in accordance with an ascending, graduated scale.

b. Construction charges. The existing repayment contracts between the United States and the South and East Columbia Basin Irrigation Districts require the payment of construction charges for the project irrigation system during the forty years following the end of the development period. The average construction charge per irrigable acre for the entire Project will be $2.12 per year. Thus, under the existing contract, the total construction repayment obligation will average $85 per irrigable acre. However, that amount is predicated on an estimated total direct investment in irrigation works costing not to exceed $280,782,180, most of which has already been made. If the existing repayment contracts are amended to increase that amount, the construction repayment obligation of the Districts will be increased, as will the average construction charge per irrigable acre. The present contracts further provide the construction charges shall be graduated according to the relative repayment ability of the land; consequently, the charge per irrigable acre will be larger for the better lands than for the poorer lands. This allocation of construction charges by classes of land will be made as soon as practicable.

FRED G. AANDAHL,
Assistant Secretary of the Interior.

MAY 31, 1960.

EVALD SELART ET AL.

Order Revoking Export Licenses and Denying Export Privileges

In the matter of Evald Selart, Selart & Co., Nysaters Fabriker A/B Erik Dahlbergsgatan 4 Goteborg, Sweden and Adam A. Luttway, Toutimpex Tangier, 21 Rue de Madrid, Paris (8e), France, Respondents; Case No. 269.

Evald Selart, Selart & Co., and Nysaters Fabriker A/B, of Goteborg, Sweden, and Adam A. Luttway and Toutimpex Tangier, of Paris, France, the respondents herein, were charged by the Director, Investigation Staff, Bureau of Foreign Commerce of the United States Department of Commerce, with having violated the Export Control Act of 1949, as amended, and the regulations promulgated thereunder, in that, as alleged, they caused and participated in transshipments and diversions of two U.S. exportations of borax to unauthorized destinations, contrary to notices and restrictions accompanying and relating to said commodities, and without prior authorization by the United States Government.

In their answers to the charging letter served upon them, the respondents denied the charges and conclusions therein. Neither respondent requested an oral hearing or an opportunity to submit any additional documents or evidence.

In accordance with the practice, the case was referred to a Compliance Commissioner who, after hearing on April 15, 1960, has reported that the evidence supports the charges and has recommended that the respondents be denied export privileges so long as export controls remain in effect.

Now, after considering the entire record consisting of the charges, the evidence submitted in support thereof, the answers in opposition, the transcript of the hearing, and the Report and Recommendation of the Compliance Commissioner, I hereby make the following findings of fact.

1. During the times herein involved, Evald Selart was a resident of Goteborg, Sweden. He was the sole owner of Selart & Co., a firm located in Goteborg and engaged in export-import and engineering business. He was the managing director of, and owned fifty per cent of the capital stock of, Nysaters Fabriker A/B, a corporation located in Goteborg and engaged in trade and manufacture of electro-chemical and chemical products.

2. During the times herein involved, Adam A. Luttway was a resident of Paris, France, engaged in financing and conducting export-import business. He was director of Comptoir General de Recuperation, located in Paris, which firm was also known as Toutimpex. The firm dealt in metallurgical products and industrial materials. Toutimpex Tangier appears not to have been a recognized firm but utilized by Luttway as a letter drop in Tangier.

3. During or about May 1957, Selart sought and obtained information on the conduct of trade with Eastern (Soviet) bloc countries from a businessman in West Berlin who was engaged in such trade. In the name of Selart & Co., Selart executed and transmitted to said West Berlin businessman powers of attorney authorizing him to represent Selart & Co.'s business interests vis-a-vis Eastern Germany and other Soviet bloc countries.

4. During or about May 1957, Selart conferred in Goteborg with the aforesaid West Berlin businessman and certain other businessmen from West Berlin. They conducted exploratory discussions concerning the possibilities of obtaining commodities, particularly borax, for delivery to the Soviet Zone of Germany (including the Soviet Sector of Berlin known as East Berlin). These men indicated to Selart that Luttway might be interested in financing such deals.

5. During August and/or early September 1957, Selart met with Luttway in Goteborg, in the presence of two of the aforesgid West Berlin businessmen. At that meeting Luttway agreed to finance borax transactions in the magnitude of 600 to 1,000 tons under arrangements whereby shipments would be handled on an individual basis, starting with a shipment of 100 tons. It was orally agreed that Luttway would open a letter of credit in favor of Selart & Co., with title to the borax to be transferred to Luttway when his letter of credit was honored upon presentation of the shipping documents. Selart was to order the borax from a Swedish distributor-importer firm in Goteborg. It was understood that Luttway was to finance the purchases of the borax, delivery Hamburg, and would resell it to an East German firm for delivery in the Soviet Zone of Germany.

6. On or about September 4, 1957, Selart ordered from the Swedish distributor-importer 100 metric tons of borax to be obtained from the United States. In this connection the Swedish distributor-importer sent to Selart & Co. a U.S. Department of Commerce, Bureau of Foreign Commerce (BFC) form, FC-843, entitled "Multiple Transactions Statement by Consignee and Purchaser." Included in the letter covering the transmittal of this form was the statement: "This formula, which means an assurance that the goods in no form will be sent forward to countries belonging to the Soviet-Bloc, is to be filled out and signed by you. After that we ask you to send it to us back."

7. On or about September 30, 1957, this form relating to the order for 100 metric tons of borax was signed, executed, and returned to the Swedish distributor-importer by Selart in his capacity as director of Nysaters Fabriker A/B.

The said form contained a certification that "all of the facts contained in this statement are true and correct to the best of our knowledge and belief and we do not know of any additional facts which are inconsistent with the above statement. We shall promptly send a supplemental statement to the person named in Item 2 (i.e., the Swedish distributor-importer), disclosing any change of facts or intentions set forth in this statement which occurs after the statement has been prepared and forwarded. With respect to any shipment covered by this statement which we propose to dispose of contrary to the representations made in this statement, or contrary to the list of countries approved on the export license and brought to our attention on the bill of lading, commercial invoice, or by any other means, we will notify the person named in Item 2 and will secure U.S. Government approval through him prior to such disposition."

Among the representations contained in the form so certified were:

> We certify that the commodity or commodities listed in Item 3 (i.e., 100 metric tons of borax) will not be sold for use outside the country named in Item 1 (i.e., Sweden).
>
> The specific use of the commodities listed in Item 3 will be: Production or manufacture by us of mixtures of glass compositions in Sweden and distribution in countries not belonging to the Soviet bloc.
>
> The writer undertakes not to export goods, neither finished articles nor semi-manufactured products, containing the borax in question, to countries belonging to the Soviet bloc.

The printed instructions on the form stated: "This form must be submitted by the importer (ultimate consignee shown in Item 1) and by the overseas buyer or purchaser, to the U.S. exporter or seller with whom the order for the commodities described in Item 3 is placed. This completed statement will be submitted in support of one or more export license applications to the U.S. Department of Commerce * * *."

Printed on the second page of the form was the following: "The making of any false statement or the concealment of any material fact in connection with this exportation, or failure to file required supplemental statements by the consignee and purchaser, is punishable by denial of participation in U.S. exports."

8. On or about September 23, 1957, Luttway opened a letter of credit with his bank in Zurich in favor of Selart & Co. On the basis of this, on or about September 30, 1957, Selart's bank in Goteborg opened a letter of credit for Selart & Co. in favor of the Swedish distributor-importer. Thereupon the latter's bank in Goteborg notified it that an irrevocable letter of credit had been opened for purchase of 100 metric tons of borax, 99.5 percent purity, industrially granulated, packed in multiple paper sacks, c.i.f. Hamburg.

9. On October 2, 1957, the Swedish distributor-importer wrote Selart that the former's commitments with his American suppliers allowed shipment only to Goteborg or another port in Sweden as the final port of destination.

10. On October 8, 1957, the Bureau of Foreign Commerce received an application for export license (BFC Case No. 140460) from an American producer-exporter for 220,460 pounds of technical granular borax for shipment to the Swedish distributor-importer in Gothenburg, Sweden, as ultimate consignee, for resale and consumption in Sweden as country of ultimate destination. This application was supported by BFC Form FC-843 (Multiple Transactions Statement by Consignee and Purchaser) which the Swedish distributor-importer had executed to the American producer-exporter on June 19, 1957. This form contained the statement that the commodities will not be sold for use outside Sweden.

11. On October 15, 1957, the Bureau of Foreign Commerce issued validated export license No. B71015-35751, authorizing shipment of the said borax by the American producer-exporter to the Swedish distributor-importer, with Sweden as the country of ultimate destination.

12. On October 21, 1957, the Bureau of Customs cleared the shipment at Los Angeles. On October 23, 1957, order bill of lading No. 6 of the M.S. Portland was issued to cover said shipment. The original and non-negotiable copies of this bill showed Gothenburg, Sweden, as the port of destination, and they had endorsed thereon a destination control notice to the effect that United States law prohibited the disposition of the commodities described therein to destinations within the Sino-Soviet bloc without authorization by the United States Government.

13. On November 14, 1957, Selart applied to the Swedish Government for an export license for shipment of the 100 tons of borax from Sweden to West Germany. In so doing, he represented that the borax would be used to produce a glass mixture in West Germany, that West Germany would be the place of consumption, and that Selart personally would control this consumption.

14. On the same date, Luttway wrote to F. H. Bertling Co., Hamburg freight forwarders (the same Bertling against which the Director, Office of Export Supply, Bureau of Foreign Commerce, issued an order on July 16, 1959 (FEDERAL REGISTER, Volume 24, page 5810, July 21, 1959) denying all export privileges during the existence of U.S. export controls on the basis of certain charges, findings, and conclusions involved in the instant transactions), advising that the shipment was en route to Hamburg for Luttway's disposition and must, upon arrival, be delivered to Luttway's East German purchaser by freight cars to Bolzenburg (a railroad frontier station between West and East Germany). Two days later, on November 16, 1957, Luttway wrote again to Bertling requesting him to confirm the arrangements to Luttway's East German purchaser. With this letter Luttway enclosed duplicate of the M.S. Portland bill of lading which contained the destination control notice to which reference is made in Finding 12 above, and thereby Luttway knew or should have known that United States law prohibited the transshipment of the said borax to East Germany.

15. On or about November 20, 1957, the borax shipment arrived at Goteborg and was laden aboard the vessel "Prins Bertil" for transport to Hamburg, under arrangements carried out by a Swedish forwarding agent upon instruction from Selart.

16. On or about November 25, 1957, Luttway's East German purchaser wrote to Bertling, instructing that the borax be shipped by freight cars in specified quantities to five Soviet bloc controlled plants located in East Germany.

17. On or about November 27, 1957, the borax was unladen from the "Prins Bertil" in Hamburg and put on six freight cars and forwarded to East Germany for delivery to Luttway's customer and its designated consignees. Luttway received payment from his East German purchaser in pounds sterling by a London bank and deposited to his account in his bank in Zurich.

18. On or about December 18, 1957, Selart placed another order with the Swedish distributor-importer in Goteborg for 215 metric tons of borax from the United States. As director of Nysaters Fabriker A/B, Goteborg, he signed, executed, and returned to the Swedish distributor-importer a BFC Form FC-842, entitled, "Single Transaction Statement by Consignee and Purchaser." The certification, statements, and representations therein were identical with those referred to in Finding 7 above. The typed statement on this form of 300,000 kg. of granulated borax appeared to have been superseded by a handwritten note thereunder as follows: "215,000 kg. per S/S Klaus Schoke."

19. On December 20, 1957, Selart's bank in Goteborg opened a letter of credit for Selart & Co. in favor of the Swedish distributor-importer to cover 215 metric tons of borax to be shipped on the M.S. Klaus Schoke to Swedish port via Hamburg in transit. This was based on a letter of credit opened by Luttway with his Zurich bank in favor of Selart & Co.

20. On December 23, 1957, the Bureau of Foreign Commerce received an application for export license (BFC Case No. 176187) from the American producer-exporter for 473,989 pounds of technical granular borax for shipment to the Swedish distributor-importer, Gothenburg, Sweden, as the ultimate consignee. The application was supported by the same BFC Form FC-843 as in the case of the first application referred to in Finding 10 above.

21. On December 24, 1957, the Bureau of Foreign Commerce issued validated export license No. C71224-60011, authorizing shipment of said borax by the American producer-exporter to the Swedish distributor-importer, with Sweden as the country of ultimate destination. On January 3, 1958, the Bureau of Foreign Commerce issued an amendment to this license permitting the borax to be shipped via Hamburg to Sweden.

22. On January 3, 1958, the Bureau of Customs cleared this shipment at Los Angeles. On January 6, 1958, order bill of lading H-2-L of M.S. Klaus Schoke was issued. The original and non-negotiable copies of this bill indicated unloading at Hamburg in transit to Gothenburg, Sweden, and they had endorsed thereon a destination control notice that the subject commodities were licensed by the United States Government for Swe-

den as the ultimate destination and that diversion contrary to U.S. law was prohibited.

23. During or about January 16 to 29, 1958, the Swedish distributor-importer communicated with various persons in Hamburg, including the Hamburg Free Port Authorities, seeking to assure the forwarding of the 215 tons of borax to Sweden as the ultimate destination.

24. On or about February 9, 1958, the borax arrived at Hamburg. Luttway instructed Bertling, his freight forwarding agent there, to on-ship the borax in thirteen railroad cars in specified quantities to five Soviet bloc controlled firms located in East Germany. However, the West German Customs authorities did not permit this shipment to go from Hamburg directly to East Germany.

25. Thereafter, Luttway endeavored without success to return the borax to Selart, to transship it to Austria from whence he intended to forward it to East Germany, and to resell it to another business firm for shipment to Austria. Eventually, Luttway disposed of the borax for delivery to a purchaser in Switzerland which was approved by the Bureau of Foreign Commerce, after the Bureau, on February 14, 1958, had revoked the export license for the 215 tons of borax.

26. Selart knew, when he ordered both borax shipments and submitted his consignee statements in both instances to the Swedish distributor-importer, that his representations were false, and that the unprocessed borax was intended for resale and ultimate delivery to a Soviet bloc destination. He knew that both borax shipments were licensed by the United States Government to Sweden as the ultimate destination and that resales or diversions, directly or indirectly, to the Soviet bloc without prior authorization from the United States Government were prohibited. Despite his representations and commitments, Selart did not notify the United States Government authorities, the Swedish distributor-importer, or the American producer-exporter of his true intentions and actions. At no time before or during either transaction was Selart authorized by the United States Government to divert, resell, or use the borax in the manner above explained.

27. Luttway knew, when he took title to both borax shipments and prior to his transshipment of the first borax shipment and attempted transshipment of the second borax shipment to East Germany, that both borax shipments were licensed by the United States Government to Sweden as the ultimate destination and that resales or diversions, directly or indirectly, to the Soviet bloc without prior authorization from the United States Government were prohibited. Despite this knowledge, he did not notify the United States Government authorities, the Swedish distributor-importer, or the American producer-exporter of his true intentions and actions; nor did he make inquiries of any of the aforesaid concerning his authority to carry out his true intentions and actions. Notwithstanding his further knowledge in the second transaction that the borax could not be shipped directly to East Germany from West Germany, Luttway continued his attempts to transship the borax to the Soviet bloc via Austria. At no time before or during either transaction was Luttway authorized by the United States Government to resell or divert, directly or indirectly, the borax to the Soviet bloc.

28. On March 30, 1960, the Goteborg Municipal Court sentenced Selart to one month in prison and a fine of 49,257 Swedish crowns ($9,506) after a criminal trial in which Selart was charged with submitting false documents and statements to the Swedish Government authorities on November 14, 1957, for the purpose of obtaining authorization for the transshipment of the 100 tons of borax from Sweden to West Germany. (See Finding 13 above.)

From the foregoing, I have reached the following conclusions.

The respondents Selart and Luttway:

a. Bought, sold, financed, disposed of, transported, and forwarded goods exported from the United States, knowing that with respect thereto violations of the Export Control Act of 1949, as amended, the regulations promulgated thereunder, and the export licenses issued in connection therewith, were about to, and were intended to, occur; and

b. Knowingly disposed of, diverted, transshipped, and re-exported United States-origin commodities to unauthorized persons, destinations, and uses, contrary to the terms, provisions, and conditions of export control documents, prior representations, forms of notification of prohibition against such actions, and other provisions of the Export Control Act of 1949, as amended, the regulations promulgated thereunder, and the export licenses issued in connection therewith; and

c. Used, caused, and permitted the use of, export control documents to facilitate and effect exportations and re-exportations of United States-origin commodities contrary to the terms, provisions, and conditions of such documents; and

d. Knowingly acted in concert to bring about, and to attempt to bring about, violations of the Export Control Act of 1949, as amended, the regulations promulated thereunder, and the export licenses issued in connection therewith.

The foregoing were in violation of §§ 381.2, 381.3, 381.4, 381.6, 381.8, and 379.10(d) of the Export Regulations.

In addition, respondent Selart knowingly made and caused to be made false representations, and knowingly falsified and concealed material facts, directly and indirectly through other persons, in connection with the preparation and use of export control documents in order to effectuate exportations from the United States and their re-exportation, transshipment, and diversion, in violation of §§ 381.2 and 381.5 of the Export Regulations.

In his report, the Compliance Commissioner in this case said:

> Neither respondent can avoid responsibility for failure to comply with the United States export control law, regulations, export licenses, orders, and destination control notices in bills of lading on the ground that he was not an American citizen. United States export controls have been in operation sufficiently long for European traders to know that they are bound by the destination control restrictions in United States export licenses, bills of lading, and commercial invoices, as well as in documents submitted in support of United States exports. These destination control notices and restrictions follow the goods which they cover. They are applicable to all persons related to the export transactions. Failure to comply with such notices and restrictions makes the violator liable to loss of his United States export privileges.
>
> Under Congressional mandate the Department of Commerce is required to effectuate the policies set forth in the Export Control Act, including the furtherance of the foreign policy of the United States and the exercise of the necessary vigilance over exports from the standpoint of their significance to the national security. Under these policies exportations are not allowed to Soviet bloc destinations except as specifically permitted by the regulations. It is the function of the Bureau of Foreign Commerce to determine to what consignees and destinations, and for what uses, goods exported from the United States may be sent. When its actions in the performance of this function are defeated by persons who disregard the conditions under which goods are exported, such persons may be excluded from participation in exportations from the United States. When it becomes necessary to take such an action in compliance cases, the action is taken in the United States and not extraterritorially. While such action necessarily inflicts a penalty, it is primarily intended to be remedial, and to provide corrective and deterrent values.
>
> Selart and Luttway have not presented reasons sufficient to justify their failures to give notification to, or seek authorization from, the United States Government in respect of their intentions and actions which were contrary to United States law, regulations, export licenses, written assurances and representations, and destination control notices in the bills of lading. Any person, who participates in a transaction involving a United States export and who receives on a bill of lading a notice restricting the disposition of the American-origin goods in such export, assumes at his own risk that another party in the transaction, earlier or later, has obtained or will obtain permission from the United States Government to divert the said goods to a prohibited destination. Before he disposes of the goods in a prohibited manner or to a prohibited destination, such person is responsible for ascertaining from United States Government Foreign Service posts abroad or directly from the United States Department of Commerce whether such disposition may be made by him contrary to the restriction notice accompanying the goods. In the absence of such notification and prior authorization, all parties to the transaction are obligated to comply with the restrictions contained in such notices.

Having concluded that the recommended action is fair, just, and necessary to achieve effective enforcement of the law: *It is hereby ordered:*

I. All outstanding validated export licenses in which the respondents, Evald Selart, Selart & Co., Nysaters Fabriker A/B, Adam A. Luttway, and Toutimpex Tangier, or any of them appear or participate as purchaser, intermediate or ultimate consignee, or otherwise, are hereby revoked and shall be returned forthwith to the Bureau of Foreign Commerce for cancellation.

II. Henceforth and so long as export controls shall be in effect, the respondents, their successors or assigns, officers, partners, representatives, agents, and employees hereby are denied all privileges of participating, directly or indirectly, in any manner or capacity, in any exportation of any commodity or technical data from the United States to any foreign destination, including Canada. Without limitation of the generality of the foregoing denial of export privileges, participation in an exportation is deemed to include and prohibit participation by them or any of them, directly or indirectly, in any manner or capacity, (a) as parties or as representatives of a party to any validated export license application, (b) in the preparation or filing of any export license application or of any document to be submitted therewith, (c) in the obtaining or using of any validated or general export license or other export control document, (d) in the receiving, ordering, buying, selling, delivering, using, or disposing in any foreign country of any commodities or technical data in whole or in part exported or to be exported from the United States, and (e) in the storing, financing, forwarding, transporting, or other servicing of such exports from the United States.

III. This denial of export privileges shall extend not only to the respondents, but also to any person, firm, corporation, partnership or business organization with which any of them may be now or hereafter related by affiliation, ownership, control, position of responsibility, or other connection in the conduct of trade which may involve exports from the United States or services connected therewith. This denial of export privileges shall extend to Comptoir General de Recuperation, Paris, France, which is deemed to be related to Adam A. Luttway and Toutimpex Tangier, respondents herein, within the terms hereof.

IV. During the time when any respondent or related party is prohibited from engaging in any activity within the scope of Part II hereof, no person, firm, corporation, partnership or other business organization, whether in the United States or elsewhere, without prior disclosure to and specific authorization from the Bureau of Foreign Commerce, shall do any of the following acts, directly or indirectly, in any manner or capacity, on behalf of or in any association with any such respondent or related party, or whereby any such respondent or related party may obtain any benefit therefrom or have any interest or participation therein, directly or indirectly: (a) Apply for, obtain, transfer, or use any license, shipper's export declaration, bill of lading, or other export control document relating to any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States, by, to, or for any such respondent or related party denied export privileges; or (b) order, buy, receive, use, sell, deliver, store, dispose of, forward, transport, finance, or otherwise service or participate in, any exportation, re-exportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States.

Dated: June 10, 1960.

FRANK W. SHEAFFER,
Acting Director,
Office of Export Supply.

Office of the Secretary

JAMES H. SANDS

Statement of Changes in Financial Interests

In accordance with the requirements of section 710(b)(6) of the Defense Production Act of 1950, as amended, and Executive Order 10647 of November 28, 1955, the following changes have taken place in my financial interests as reported in the FEDERAL REGISTER during the last six months.

A. Deletions: None.
B. Additions:
(1) Murphy Corporation.
(2) Telecomputing Corp.
(3) Baker Oil Tools, Inc.

This statement is made as of May 19, 1960.

JAMES H. SANDS.

MAY 19, 1960.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 13462-13465; FCC 60M-1025]

BROCKWAY CO. (WMSA) ET AL.

Order Continuing Hearing

In re applications of The Brockway Company (WMSA), Massena, New York, Docket No. 13462, File No. BP-12290; Twin State Broadcasters, Inc. (WTWN), St. Johnsbury, Vermont, Docket No. 13463, File No. BP-13040; Trustees of Dartmouth College (WDCR), Hanover, New Hampshire, Docket No. 13464, File No. BP-13112; WIRY, Inc. (WIRY), Plattsburg, New York, Docket No. 13465, File No. BP-13631; for construction permit.

The Hearing Examiner having under consideration a "Motion for Continuance" filed on June 7, 1960, by The Brockway Company (WMSA), requesting that the procedural dates heretofore scheduled[1] for: the exchange of exhibits (June 1); notification of witnesses for cross-examination (July 8); and commencement of the hearing (July 14) be continued indefinitely pending Commission action on a joint request of the applicants herein for reconsideration and grant without hearing of all four applications; and

It appearing that the applicants have in fact filed jointly on June 10, 1960 a "Request for Reconsideration and Grants" which requests, inter alia, that the Commission reconsider its action of April 13, 1960, designating their instant applications for hearing in a consolidated proceeding and grant all of said applications without an evidentiary hearing; and

It further appearing that all parties, including the Broadcast Bureau, have consented to the subject request for an indefinite continuance of procedural dates and to a waiver of the four-day rule so as to permit prompt consideration thereof; and

It further appearing that good cause has been shown for granting the motion of The Brockway Company for an indefinite continuance of procedural dates;

Accordingly, it is ordered, This 13th day of June 1960, that the "Motion for Continuance" of The Brockway Company, filed June 7, 1960, is granted, and the above-mentioned procedural dates heretofore scheduled in this matter, including the commencement of the hearing on July 14, 1960, are hereby continued indefinitely pending Commission action on the applicants' joint "Request for Reconsideration and Grants."

Released: June 14, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 60-5571; Filed, June 16, 1960; 8:50 a.m.]

[1] The pertinent dates were scheduled in the "Order Following Prehearing Conference" released by the Examiner on June 2, 1960.

[Docket Nos. 12919, 12920; FCC 60M-1022]

ROBERT L. LIPPERT AND MID-AMERICA BROADCASTERS, INC. (KOBY)

Order Scheduling Prehearing Conference

In re applications of Robert L. Lippert, Fresno, California, Docket No. 12919, File No. BP-10245; Mid-America Broadcasters, Inc. (KOBY), San Francisco, California, Docket No. 12920, File No. BP-12744; for construction permits for standard broadcast stations.

It is ordered, This 13th day of June 1960, that a further prehearing conference is scheduled for Thursday, July 7, 1960, at 10 a.m., in the offices of the Commission, Washington, D.C., to discuss, among other things, the measurements recently taken to establish the 2 and 25 mv/m contours of the Mid-America proposal and Station KFBK, preliminary to a ruling on Mid-America's pending petition for leave to amend its application.

Released: June 14, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 60-5573; Filed, June 16, 1960; 8:50 a.m.]

[Docket Nos. 13423, 13424; FCC 60M–1032]

INDEPENDENT BROADCASTING CO., INC., AND HIGH FIDELITY MUSIC CO.

Order Scheduling Prehearing Conference and Continuing Hearing

In re applications Independent Broadcasting Company, Inc., Darien, Connecticut, Docket No. 13423, File No. BPH–2588; John R. Rieger, Jr., tr/as High Fidelity Music Co., Port Jefferson, New York, Docket No. 13424, File No. BPH–2622; for construction permits.

The Hearing Examiner having under consideration the petition of the Broadcast Bureau for further prehearing conference filed in the above-entitled proceeding on June 10, 1960;

It appearing that on examination of the exhibits exchanged herein a further prehearing conference could serve to expedite the course of the proceeding;

It is ordered, This 13th day of June 1960 that the said petition is granted and a further prehearing conference herein is scheduled to commence at 1:00 p.m. on June 21, 1960, in the offices of the Commission at Washington, D.C.;

It is further ordered, On the Hearing Examiner's own motion, that the hearing herein presently scheduled for June 20, 1960, is continued to a date to be subsequently determined at the further prehearing conference.

Released: June 14, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 60–5572; Filed, June 16, 1960; 8:50 a.m.]

[Docket No. 13513; FCC 60M–1026]

NATIONAL AMBULANCE AND OXYGEN SERVICE, INC.

Order Rescheduling Prehearing Conference

In the matter of National Ambulance and Oxygen Service, Inc., Rochester, New York, Docket No. 13513; order to show cause why the license for special emergency radio station KED–379 should not be revoked, or, in the alternative, why a cease and desist order should not be issued.

The Hearing Examiner having under consideration a letter dated June 10, 1960, to the Acting Secretary of the Commission from Daniel F. Fitzgerald, Jr., attorney for the respondent in the above-entitled proceeding, requesting a postponement of the prehearing conference scheduled for 10:00 a.m., June 27th, at the Commission's Offices, Washington, D.C., to 2:00 p.m. on the same day;

It appearing that good cause for granting the relief requested has been shown in that the writer of the letter states that plane connections on June 27th will make it impossible for him to arrive at Washington on the morning of June 27th in time for the scheduled conference;

It is ordered, This 14th day of June 1960, that the prehearing conference scheduled for 10:00 a.m., June 27, 1960, is rescheduled for 2:00 p.m. on the same date, at the Commission's Offices, Washington, D.C.[1]

Released: June 14, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

SHENANDOAH LIFE STATIONS, INC. (WSLS) AND EDWIN R. FISCHER

Order Continuing Hearing

In re applications of Shenandoah Life Stations, Incorporated (WSLS), Roanoke, Virginia, Docket No. 13377, File No. BP–12610; Edwin R. Fischer, Winchester, Virginia, Docket No. 13378, File No. BP–13139; for construction permits.

The Hearing Examiner having under consideration a motion filed June 9, 1960, on behalf of Edwin R. Fischer, requesting that the dates for certain procedural steps be extended as hereinafter ordered; and

It appearing from the pleading that counsel for Shenandoah Life Stations, Incorporated (WSLS) and for the Broadcast Bureau have consented to a grant of the motion and that a grant thereof will conduce to the orderly dispatch of the Commission's business; now therefore,

It is ordered, This 13th day of June 1960, that the aforesaid motion is granted, and that the dates for certain procedural steps are extended as follows: (1) Exchange of tentative drafts of engineering exhibits from June 9 to August 3, 1960; (2) Exchange of all exhibits in final form from June 23 to August 16, 1960; (3) Notification of witnesses desired for cross-examination from July 6 to September 1, 1960; and (4) Commencement of hearing from July 12 to September 8, 1960.

Released: June 14, 1960.

[AA 642.2]

STEEL PRODUCTS FROM JAPAN

Determination of No Sales at Less Than Fair Value

A complaint was received that steel products from Japan were being sold to the United States at less than fair value within the meaning of the Antidumping Act of 1921.

I hereby determine that steel products from Japan are not being, nor are likely to be, sold in the United States at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)).

Statement of reasons. It was determined on the basis of the information available that for fair value purposes the purchase price of the imported merchandise should be compared with the home market price at which such steel products were sold in Japan.

In making the comparison, due allowance was made for differences in administrative, selling and distribution costs, which are higher in the case of the steel products sold for home consumption than in the case of the same products sold for exportation to the United States. The home market price was adjusted upwards to compensate for the greater quantity of zinc in the galvanized steel sheet sold to the United States.

After making the required adjustments, it was found that purchase price was not lower than the home market price, except as to sporadic sales made during the period affected by the domestic steel strike at which time sales in both markets were marked by unusual fluctuations in price. Subsequently, the Japanese manufacturers took action to eliminate all dumping margins by changes in their pricing both in the home market and to the United States. Assurance was also given that every effort will be made to prevent any future sales to the United States at what may be considered to be potential dumping prices. The amount of possible dumping involved during the period in which

dumping margins appeared to exist is considered to be not more than insignificant, and there is deemed to be no likelihood of the recurrence of such margins.

This determination and the statement of reasons therefor are published pursuant to section 201(c) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(c)).

[SEAL] A. GILMORE FLUES,
Acting Secretary of the Treasury.

SECURITIES AND EXCHANGE COMMISSION

[File No. 54-191]

STANDARD GAS AND ELECTRIC CO. AND PHILADELPHIA CO.

Notice of Filing of Amendment to Plan Proposing Agreement With Former Subsidiary

JUNE 10, 1960.

Notice is hereby given that Standard Gas and Electric Company ("Standard Gas"), a registered holding company, has amended Step V of its plan which was filed under section 11(e) of the Public Utility Holding Company Act of 1935. The amendment provides, among other things, that Duquesne Light Company, a former subsidiary of Standard Gas, in consideration of $50,000, will assume any and all of the liabilities of Standard Gas relating to the claims asserted by Wisconsin Public Service Corporation, also a former subsidiary of Standard Gas, arising in connection with a 1952 tax agreement entered into between Wisconsin and Standard Gas and approved by this Commission.

Notice is further given that any participant in this proceeding or any other interested person may, not later than June 28, 1960, request in writing that the hearing be convened to consider the amendment or such other matters as may be appropriate. Any such person should state the nature of his interest, the reasons for such request, and the issues of fact or law raised by the amendment which he desires to controvert, and the nature of the evidence he proposes to adduce at the reopened hearing, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. At any time after said date, Step V of said plan, as amended or as it may be further amended, may be approved or the Commission may take such other action as it deems appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

MOTOR CARRIER TRANSFER PROCEEDINGS

JUNE 14, 1960.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC 63011. By order of June 10, 1960, the Transfer Board approved the transfer to John A. Seib and Cline Bailey, a partnership, doing business as Shippers Motor Express, Omaha, Nebr., of Certificate in No. MC 73381, issued October 31, 1956, to Harris Truck Line, Incorporated, Los Angeles, Calif., authorizing the transportation of: meats, meat products and meat by-products, dairy products, and articles distributed by meat packing-houses between Chicago, Ill., and Omaha, Nebr., between Omaha, Nebr., and Denver, Colo., and between Chicago, Ill., and Denver, Colo.; livestock, agricultural commodities, emigrant movables, and household goods between points in Nebraska, on the one hand, and, on the other, points in Colorado; livestock from Denison, Iowa, and points in Iowa within 15 miles of Denison, to Omaha, Nebr.; and livestock and building materials, from Omaha, Nebr., to the above-specified Iowa points; feed, seed, hay, and agricultural implements and parts from Omaha, Nebr., to Denison, Iowa; household goods as defined by the Commission, and emigrant movables, between Denison, Iowa, and points in Iowa within 15 miles of Denison, on the one hand, and, on the other, points in Illinois, Minnesota, Missouri, Nebraska and South Dakota; general commodities, excluding household goods, commodities in bulk, and other specified commodities, between Omaha, Nebr., and Council Bluffs, Iowa; salt from Kanapolis, Kans., to Cambridge, Nebr., and coal from points in Colorado to Cambridge, Nebr., and substitution in Docket No. MC 73381 Sub 7, under the "grandfather" clause of section 7 of the Transportation Act of 1958 as purchaser in lieu of transferor for the right to transport frozen fruits, frozen berries and frozen vegetables from points in California, Washington, Oregon, Idaho, Utah, Colorado, Missouri, Illinois, Michigan, and New York to points in Minnesota, Wisconsin, Nebraska, Iowa, Missouri, Baltimore, Md., Louisville, Ky., Michigan, Indiana, Ohio, Illinois, Kansas, Colorado, New York, N.Y., California, and Utah. J. Max Harding, Nelson, Harding & Acklie, Atty. 605 South 12th Street, Lincoln, Nebr. J. O. Goldsmith, Turcotte & Goldsmith, Attys., 656 South Los Angeles Street, Los Angeles, Calif., for applicants.

No. MC-FC 63164. By order of June 10, 1960, the Transfer Board approved the transfer to Gene Dagostini, doing business as Gene Dagostini Wholesale Produce, 4924 San Juan Ave., Fair Oaks, Calif., of Certificate No. MC 112740, issued February 28, 1952, to Frank W. Brown, Jr., 1300 57th Street, Sacramento, Calif., authorizing the transportation of: lumber, over irregular routes, from Glendale, Oreg., to points in that part of California on and north of a line extending due east and west through Fowler, Calif., and return with no transportation for compensation except as otherwise authorized.

No. MC-FC 63177. By order of June 10, 1960, the Transfer Board approved the transfer to General Transit, Inc., Cedar Rapids, Iowa, of Certificate No. MC 114273 Sub 2, issued September 13, 1956, in the name of Cedar Rapids Steel Transportation, Inc., Cedar Rapids, Iowa, authorizing the transportation of general commodities, excluding household goods, commodities in bulk, and various specified commodities, over irregular routes, between points in Cedar Rapids, Iowa; and from Cedar Rapids, Iowa, to points in Iowa within 100 miles of Cedar Rapids, Iowa, with no transportation for compensation on return. William J. Armstrong, 2012 H Avenue NE., Cedar Rapids, Iowa, for transferee and Herald A. Smith, Jr., P.O. Box 1904, Cedar Rapids, Iowa, for transferor.

No. MC-FC 63186. By order of June 10, 1960, the Transfer Board approved the transfer to W. Howard Pinkett, Denton, Md., of Certificate No. MC 108083, issued April 20, 1946 to Harry C. Burton, Sr., Lewes, Del., authorizing the transportation of: passengers and their baggage in round-trip charter operations, beginning and ending at Lewes and Rehoboth Beach, Del., and points within 10 miles of each of these points and extending to points in Virginia, Maryland, Pennsylvania, and New Jersey. Francis W. McInerny, 1625 K Street NW., Washington, D.C. for applicants.

No. MC-FC 63219. By order of June 13, 1960, the Transfer Board approved the transfer to Harold D. Harris, Lloyd Harris, and John G. Harris, a partnership, doing business as Harris Brothers, R.F.D. No. 1, Sioux Falls, S. Dak., issued by the Commission November 9, 1953, to Albert B. Kerkhove, Valley Springs, S. Dak., authorizing the transportation, over irregular routes, of building materials, from Sioux Falls, S. Dak., and Valley Springs, S. Dak., to points, except municipalities, within 15 miles of Valley Springs in Iowa and Minnesota, livestock, between points, except municipalities, within 15 miles of Valley Springs, S. Dak., between Valley Springs, and points, except municipalities, within 15 miles thereof in Minnesota and South Dakota, on the one hand, and, on the other, Sioux City, Iowa, between Valley Springs, and points, except municipalities, within 15 miles thereof in South Dakota, on the one hand, and, on the other, Laverne, Minn., and between points, except municipalities, within 15 miles of Valley Springs in Iowa and Minnesota, on the one hand, and, on the other, Sioux Falls, S. Dak., and points within six miles thereof, feed, seed, and grain, between points except municipalities, within 15 miles of Valley Springs, S. Dak., between points, except municipalities, within 15 miles of Valley Springs, on the one hand, and, on the other, points including municipalities, within 15 miles of Valley Springs, and between Sioux Falls, S. Dak., and Valley Springs, S. Dak., on the one hand, and, on the other points, except municipalities, within 15 miles of Valley Springs in Iowa and Minnesota, and sand and gravel, between points within 15 miles of Valley Springs, S. Dak.

No. MC-FC 63280. By order of June 10, 1960, the Transfer Board approved the transfer to Raymond Lee Culler, doing business as Ray's Truck Line, Romeo, Colo., of portion of Certificate in No. MC 58166 Sub 3, and entire Certificate No. MC 58166 Sub 10, issued May 4, 1950, and April 29, 1955, respectively, to Fred T. Gibson, doing business as Gibson Truck Line, La Jara, Colorado, authorizing the transportation of: general commodities between Fort Garland, Colo., and Taos, N. Mex., and between Jaroso, Colo., and junction unnumbered highway and New Mexico Highway 3; general commodities, excluding household goods, commodities in bulk and other specified commodities between Alamosa, Colo., and Fort Garland, Colo.; and houses including fixtures and appurtenances therefor, requiring the use of special equipment, from Los Alamos and White Rock, N. Mex., to points in Alamosa, Rio Grande, Conejos, Costilla and Saguache Counties, Colo., and lumber from points in Alamosa, Costilla and Conejos Counties, Colo., to points in New Mexico. Richard E. Conour, Attorney for applicants, Box 156, Del Norte, Colo.

No. MC-FC 63289. By order of June 10, 1960, the Transfer Board approved the transfer to John Sherman and Charles Clark, a partnership, doing business as Sherman & Clark, Howard, South Dakota of Certificates Nos. MC 102542 and MC 102542 Sub 1 issued January 26, 1942 and March 31, 1949, to Leon Behm, Howard, South Dakota, authorizing the transportation of livestock, over irregular routes, between Howard, S. Dak., and

points, except municipalities, within 15 miles of Howard, on the one hand, and, on the other, Sioux City, Iowa; farm machinery, farm implements, and parts thereof, in quantities of not less than 6,000 pounds, from Sioux City, Iowa, Omaha, Nebr., and Sioux Falls, S. Dak., to Howard, S. Dak.; building materials and supplies, in quantities of not less than 6,000 pounds, from Sioux City, Des Moines, and Fort Dodge, Iowa to Howard, S. Dak.; beer in quantities of not less than 3,000 pounds, from Sioux City, Iowa to Winfred, S. Dak., and points within 3 miles thereof; live poultry and eggs, in quantities of not less than 7,000 pounds, from Howard, S. Dak., to Osage, Spencer, and Estherville, Iowa, and York, Nebr.; and containers and cases used in the transportation of the above specified commodities, on return.

No. MC-FC 63293. By order of June 10, 1960, the Transfer Board approved the transfer to Joseph J. Lynch and Anna E. Lynch, a partnership, doing business as Lynch Transportation Co., Roslyn Heights, N.Y., of Permit No. MC 106833 Sub 1 issued December 12, 1958, in the name of Thomas R. Gibney, doing business as Gibney Van & Storage Co., Bronx, N.Y., authorizing the transportation over irregular routes of die castings, from Stamford, Conn., to points in Hampden County, Mass., those in Bergen, Essex, Hudson, Middlesex, Monmouth, Passaic, and Union Counties, N.J., and those in Dutchess, Orange, Putnam, Rockland, Sullivan, and Westchester Counties, N.Y.; and returned shipments of die castings, empty containers, pallets and die casting pots, from the above-specified destination points to Stamford, Conn. Edward M. Alfano, 2 West 45th Street, New York 36, N.Y., for applicants.

No. MC-FC 63300. By order of June 13, 1960, the Transfer Board approved the transfer to Andy Wittenkeller, Benton Harbor, Mich., of Certificate No. MC 112867, issued May 28, 1952, to Andy Wittenkeller, Warren Wittenkeller, and Robert Wittenkeller, a partnership, doing business as A. Wittenkeller & Sons, Benton Harbor, Mich., authorizing the transportation of: fertilizer from points in Indiana to points in Michigan; lumber, from Decatur, Mich., to Blue Island, Ill., and North Manchester, Ind.; and animal feed from Battle Creek, Mich., to points in Indiana. J. T. Hammond, Attorney, 205-10 Gas Building, Benton Harbor, Mich., for applicants.

No. MC-FC 63314. By order of June 10, 1960, the Transfer Board approved the transfer to Herman B. Little, doing business as Holt Truck Line, Conway, Ark., of Certificates Nos. MC 67692 Sub 1 and MC 67692, Sub 2, both issued October 9, 1950 in the name of J. Silas Holt, doing business as Holt Truck Line, Conway, Ark., authorizing the transportation of general commodities excluding household goods, and various specified commodities, over regular routes, between North Little Rock, Ark., and Camp Joseph T. Robinson, Ark.; and between Little Rock, Ark., and Conway, Ark.; service is authorized to and from the intermediate point of North Little Rock, Ark. Louis Tarlowski, 601 Rector Building, Little Rock, Ark., for applicants.

[SEAL] HAROLD D. McCOY, *Secretary.*

FEDERAL REGISTER

Telephone WOrth 3-3261

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Office of the Federal Register, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D.C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

Rules and Regulations

Title 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Valencia Orange Reg. 202]

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 922.502 Valencia Orange Regulation 202.

(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 22, as amended (7 CFR Part 922), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said marketing agreement and order, as amended, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on June 16, 1960.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a.m., P.s.t., June 19, 1960, and ending at 12:01 a.m., P.s.t., June 26, 1960, are hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 575,000 cartons;

(iii) District 3: Unlimited movement.

(2) All Valencia oranges handled during the period specified in this section are subject also to all applicable size restrictions which are in effect pursuant to this part during such period.

(3) As used in this section, "handled," "handler," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said marketing agreement and order, as amended.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: June 17, 1960.

FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 60–5719; Filed, June 17, 1960; 11:28 a.m.]

[Lemon Reg. 851]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 953.958 Lemon Regulation 851.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 23 F.R. 9053), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective time of this section until 30 days after publication hereof in the FEDERAL REGISTER (60 Stat. 237; 5 U.S.C. 1001 et seq.) because the time intervening between the date when information upon which this section is based become available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on June 14, 1960.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period beginning at 12:01 a.m., P.s.t., June 19, 1960, and ending at 12:01 a.m., P.s.t., June 26, 1960, are hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 418,500 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: June 16, 1960.

FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

[Avocado Order 20]

PART 969—AVOCADOS GROWN IN SOUTH FLORIDA

Limitation of Shipments

§ 969.320 Avocado Order 20.

(a) *Findings.* (1) (i) Notice was published in the May 21, 1960, daily issue of the FEDERAL REGISTER (25 F.R. 4512) that consideration was being given to proposals regarding the establishment of grade and maturity regulations to be applicable to shipments of avocados pursuant to the provisions of the marketing agreement, as amended, and Order No. 69, as amended (7 CFR Part 969), regulating the handling of avocados grown in south Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674).

(ii) After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice which were submitted by the Avocado Administrative Committee (established pursuant to the said amended marketing agreement and order), it is hereby found that the regulation hereinafter set forth is in accordance with the provisions of the said amended marketing agreement and order and will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 20, 1960. This section establishes maturity and quality requirements designed to prevent the shipment of avocados which are immature and of undesirable quality; it is necessary that such requirements be made effective at the time and for the periods specified herein in order to effectuate the declared policy of the act; and compliance with this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a.m., e.s.t., June 20, 1960, and ending at 12:01 a.m., e.s.t., April 30, 1961, no handler shall handle any avocados unless such avocados grade at least U.S. Combination.

(2) After the effective time of this section, no handler shall handle (i) any avocados of the Arue variety unless the individual fruit in each lot of such avocados weighs at least 14 ounces; and (ii) any of the varieties of avocados listed in Column 1 of the following Table I prior to the date listed for the respective variety in Column 2 of such table and thereafter each such variety shall be handled only in conformance with subparagraphs (3), (4), (5), and (8) of this paragraph:

TABLE I

Variety (1)	Date (2)	Minimum weight or diameter (3)	Date (4)	Minimum weight or diameter (5)	Date (6)	Minimum weight or diameter (7)	Date (8)

(3) During the period from 12:01 a.m., e.s.t., of the date listed for the respective variety in Column 2 of Table I and 12:01 a.m., e.s.t., of the date listed for the respective variety in Column 4 of such table, no handler shall handle any avocados of such variety unless the individual fruit weighs at least the ounces specified for the respective variety in Column 3 of such table or is of at least the diameter specified for such variety in said Column 3;

(4) During the period from 12:01 a.m., e.s.t., of the date listed for the respective variety in Column 4 of Table I and 12:01 a.m., e.s.t., of the date listed for the respective variety in Column 6 of such table, no handler shall handle any avocados of such variety unless the individual fruit weighs at least the ounces specified for the respective variety in Column 5 of such table or is of at least the diameter specified for such variety in said Column 5;

(5) During the period from 12:01 a.m., e.s.t., of the date listed for the respective variety in Column 6 of Table I and 12:01 a.m., e.s.t., of the date listed for the respective variety in Column 8 of such table, no handler shall handle any avocados of such variety unless the individual fruit weighs at least the ounces specified for the respective variety in Column 7 of such table or is of at least the diameter specified for such variety in said Column 7;

(6) After the effective time of this section, the varieties of the West Indian type of avocados not listed in said Table I shall not be handled except in accordance with the following terms and conditions:

(i) During the period beginning at 12:01 a.m., e.s.t., June 20, 1960, and ending at 12:01 a.m., e.s.t., June 27, 1960, the individual fruit in each lot of such avocados shall weigh at least 16 ounces.

(ii) During the period beginning at 12:01 a.m., e.s.t., June 27, 1960, and ending at 12:01 a.m., e.s.t., July 25, 1960, the individual fruit in each lot of such avocados shall weigh at least 14 ounces.

(iii) During the period beginning at 12:01 a.m., e.s.t., July 25, 1960, and ending at 12:01 a.m., e.s.t., September 12, 1960, the individual fruit in each lot of such avocados shall weigh at least 12 ounces.

(iv) Any lot of such avocados may be handled without regard to the minimum weight requirements of this subparagraph (6) if the exterior seed-coat of the individual fruit is of a brown color characteristic of a mature avocado, or if such avocados, when mature, normally change color to any shade of red or purple and any portion of the skin of the individual fruit has changed to the color normal for that fruit when mature.

(7) After the effective time of this section, the varieties of avocados not covered by subparagraphs (2) through (6) of this paragraph shall not be handled except in accordance with the following terms and conditions:

(i) Such avocados shall not be handled prior to 12:01 a.m., e.s.t., September 19, 1960.

(ii) During the period beginning at 12:01 a.m., e.s.t., September 19, 1960, and ending at 12:01 a.m., e.s.t., October 17, 1960, the individual fruit in each lot of such avocados shall weigh at least 15 ounces.

(iii) During the period beginning at 12:01 a.m., e.s.t., October 17, 1960, and ending at 12:01 a.m., e.s.t., December 19, 1960, the individual fruit in each lot of such avocados shall weigh at least 13 ounces.

(iv) Any lot of such avocados may be handled without regard to the minimum weight requirements of this subparagraph (7) if the exterior seed-coat of the individual fruit is of a brown color characteristic of a mature avocado, or if such avocados, when mature, normally change color to any shade of red or purple and any portion of the skin of the individual fruit has changed to the color normal for that fruit when mature.

(8) Notwithstanding the provisions of subparagraphs (2) through (7) of this paragraph regarding the minimum weight or diameter for individual fruit, up to 10 percent, by count, of the individual fruit contained in each lot may weigh less than the minimum specified weight and be less than the minimum specified diameter: *Provided,* That such avocados weigh not more than two ounces less than the applicable specified weight for the particular variety as prescribed in Columns 3, 5, or 7 of Table I or in subparagraphs (2), (6), and (7). Such tolerances shall be on a lot basis, but not to exceed double such tolerances shall be permitted for an individual container in a lot.

(c) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order, the term "diameter" shall means the greatest dimension measured at right angles to a line from the stem to the blossom end of the fruit, and the term "U.S. Combination" shall have the same meaning as set forth in the United States Standards for Florida Avocados (§§ 51.3050 to 51.3069 of this title).

The provisions of this regulation shall become effective at 12:01 a.m., e.s.t., June 20, 1960.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: June 16, 1960.

FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 60–5667; Filed, June 17, 1960; 8:50 a.m.]

[Milk Order 98]

PART 998—MILK IN CORPUS CHRISTI, TEXAS, MARKETING AREA

Order Amending Order; Correction

In F.R. Doc. 60–2952, filed March 30, 1960, and published on March 31, 1960, in column 1, 25 F.R. 2725, in the last sentence of § 998.44(a), the phrase "assigned to Class II milk" should be corrected to read "assigned to Class I milk".

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Issued at Washington, D.C., this 15th day of June 1960, to be effective on and after the 1st day of April 1960.

CLARENCE L. MILLER,
Assistant Secretary.

[F.R. Doc. 60–5652; Filed, June 17, 1960; 8:51 a.m.]

[Apricot Order 5]

PART 1020—APRICOTS GROWN IN DESIGNATED COUNTIES IN WASHINGTON

Limitation of Shipments

§ 1020.305 Apricot Order 5.

(a) *Findings.* (1) Pursuant to the marketing agreement, and Order No. 120 (7 CFR Part 1020), regulating the handling of apricots grown in designated counties in Washington, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the Washington Apricot Marketing Committee, established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of apricots, in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 20, 1960. A reasonable determination as to the supply of, and the demand for, such apricots must await the development of the crop and adequate information thereon was not available to the Washington Apricot Marketing Committee until May 24, 1960; recommendation as to the need for, and the extent of, regulation of shipments of such apricots was made at the meeting of said committee on May 24, 1960, after consideration of all available information relative to the supply and demand conditions for such apricots, at which time the recommendation and supporting information were submitted to the Department; necessary supplemental data for consideration in connection with the specification of the provisions of this section were not available until June 1, 1960; shipments of the current crop of such apricots will begin on or about June 20, 1960, and this section should be applicable, insofar as practicable, to all shipments of such apricots in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a.m., P.s.t., June 20, 1960, and ending at 12:01 a.m., P.s.t., October 1, 1960, no handler shall handle any container of apricots unless:

(i) Such apricots grade not less than Washington No. 1: *Provided,* That such apricots are at least reasonably uniform in color;

(ii) Such apricots measure not less than 1⅝ inches in diameter: *Provided,* That apricots of the Blenheim variety and apricots of the Tilton variety when packed in unlidded wooden boxes may measure not less than 1¼ inches, and: *Provided further,* That not more than 10 percent, by count, of such apricots may fail to meet the applicable minimum diameter requirement; and

(iii) Such apricots when packed in lidded containers are row-faced: *Provided,* That this requirement shall not apply to apricots in experimental containers approved pursuant to § 1020.110.

(2) All apricots handled during the period specified in this regulation are subject also to all applicable container restrictions which are in effect pursuant to this part during such period.

(3) Notwithstanding any other provisions of this section, any individual shipment of apricots which, in the aggregate, does not exceed 150 pounds, net weight, may be handled without regard to the restrictions specified in this paragraph (b) or in § 1020.41 or § 1020.55.

(4) Terms used in the marketing agreement and order shall, when used herein, have the same meaning as given to the respective term in said marketing agreement and order; "diameter" and "Washington No. 1" shall have the same meaning as when used in the Washington State Department of Agriculture Standards for Apricots (1953); and "reasonably uniform in color" means that the apricots in the individual container do not show sufficient variation

in color to materially affect the general appearance of the apricots.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: June 15, 1960.

FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 60–5651; Filed, June 17, 1960; 8:51 a.m.]

Title 13—BUSINESS CREDIT AND ASSISTANCE

Chapter I—Small Business Administration

[Amdt. 6]

PART 107—SMALL BUSINESS INVESTMENT COMPANIES

Miscellaneous Amendments

Pursuant to authority contained in sections 304 and 308, Public Law 85–699, 72 Stat. 694, as amended by the Small Business Investment Act Amendments of 1960, Public Law 86–502, there are amended, as set forth below, §§ 107.102–1(a), 107.103, 107.103–1, 107.301, 107.301–1(d), 107.302, 107.304, 107.304–1(h), and 107.304–1(i) of Part 107, of Subchapter B, Chapter I of Title 13 of the Code of Federal Regulations.

Information and effective date. The Small Business Investment Act of 1958 was amended by the Small Business Investment Act Amendments of 1960. These statutory amendments require certain amendments to the regulations as published in the FEDERAL REGISTER on December 4, 1958 (23 F.R. 9383). Simultaneously with the publishing of these amendments there is to be published in the FEDERAL REGISTER a notice of certain proposed changes in § 107.304–1 (a) through (g) of the regulations.[1] Until these proposed changes become effective, the present § 107.304–1 (a) through (g) remain in effect. Since the amendments listed above are technical in nature to comply with the amendment to the Act and impose no additional controls on Licensees, these amendments and regulations shall become effective upon publication in the FEDERAL REGISTER.

The Small Business Investment Company Regulation (23 F.R. 9383), as amended (25 F.R. 1397, 2354, 3316, 5374), is hereby further amended by:

1. Adding the following new sentence to § 107.102–1(a): "Such Act has been amended by the Small Business Investment Act Amendments of 1960, which became effective June 11, 1960." As amended § 107.102–1(a) reads as follows:

§ 107.102–1 Statement.

(a) The Small Business Investment Act of 1958 became law August 21, 1958. Such Act has been amended by the Small Business Investment Act Amendments of 1960, which became effective June 11, 1960.

2. Deleting the paragraph numbered (4) in § 107.103 and inserting in lieu thereof a new paragraph (4). As amended § 107.103(4) reads as follows:

§ 107.103 Statutory provisions; definitions.

* * * * *

(4) The term "State" includes the several States, the Territories and possessions of the United States, the Commonwealth of Puerto Rico, and the District of Columbia;

3. Adding the following to the first paragraph of § 107.103–1: ", as amended by the Small Business Investment Act Amendments of 1960." As amended § 107.103–1, first paragraph, reads as follows:

§ 107.103–1 Definitions.

Act. "Act" means the Small Business Investment Act of 1958, as amended by the Small Business Investment Act Amendments of 1960.

§ 107.103–1 [Amendment]

4. Deleting the last paragraph of § 107.103–1, defining "State."

§ 107.301 [Amendment]

5. Deleting the paragraph numbered (9) of § 107.301 and respectively redesignating the paragraphs thereof numbered (10) and (11) as (9) and (10).

6. Deleting the second paragraph of § 107.301–1 and inserting in lieu thereof a new paragraph. As amended § 107.301–1, second paragraph, reads as follows:

§ 107.301–1 Charter requirements.

The charter of a Licensee shall constitute a grant of being or continued existence as a corporate entity, by a State or SBA, in the form of a permit or certificate of incorporation or amendment or otherwise, with the specific and sole powers and authority recited below. In the case of a charter issued by a State, such powers and authority can be expressed and granted in any manner consistent with the laws of such State and requirements of the State officials charged with such responsibilities, provided that each such charter shall contain the following provision:

This corporation is organized and chartered expressly for the purpose of operating under the Small Business Investment Act of 1958, as amended by the Small Business Investment Act Amendments of 1960, and will operate in the manner and shall have the powers, responsibilities and be subject to the limitations provided by said act and the regulations issued by the Small Business Administration thereunder.

7. Deleting § 107.301–1(d) and inserting in lieu thereof a new paragraph (d). As amended § 107.301–1(d) reads as follows:

§ 107.301–1 Charter requirements.

* * * * *

(d) To provide equity capital to small-business concerns (as defined by SBA) under the conditions authorized by section 304 of the act and regulations, with the right to sell or dispose of securities so acquired in such manner and under such terms and conditions as the Licensee shall determine.

8. Deleting the first word of § 107.302 (b) and inserting in lieu thereof the following: "Notwithstanding the provisions of section 6(a)(1) of the Bank Holding Company Act of 1956, shares". As amended § 107.302(b) reads as follows:

§ 107.302 Statutory provisions; capital stock and subordinated debentures.

CAPITAL STOCK AND SUBORDINATED DEBENTURES

* * * * *

(b) Notwithstanding the provisions of section 6(a)(1) of the Bank Holding Company Act of 1956, shares of stock in small business investment companies shall be eligible for purchase by national banks, and shall be eligible for purchase by other member banks of the Federal Reserve System and nonmember insured banks to the extent permitted under applicable State law; except that in no event shall any such bank hold shares in small business investment companies in an amount aggregating more than 1 percent of its capital and surplus.

9. Deleting § 107.304 and inserting in lieu thereof the following:

§ 107.304 Statutory provisions; provision of equity capital for small-business concerns.

PROVISION OF EQUITY CAPITAL FOR SMALL-BUSINESS CONCERNS

SEC. 304. (a) It shall be a function of each small business investment company to provide a source of equity capital for incorporated small-business concerns, in such manner and under such terms as the small business investment company may fix in accordance with the regulations of the Administration.

(b) Before any capital is provided to a small-business concern under this section—

(1) the company may require such concern to refinance any or all of its outstanding indebtedness so that the company is the only holder of any evidence of indebtedness of such concern; and

(2) except as provided in regulations issued by the Administration, such concern shall agree that it will not thereafter incur any indebtedness without first securing the approval of the company and giving the company the first opportunity to finance such indebtedness.

(c) Whenever a company provides capital to a small-business concern under this section, such concern shall have the right, exercisable in whole or in such part as such concern may elect, to become a stockholder-proprietor by investing in the capital stock of the company 5 per centum of the amount of the capital so provided, in accordance with regulations prescribed by the Administrator.

§ 107.304–1 [Amendment]

10. Deleting § 107.304–1(h) in its entirety. This paragraph is reserved.

11. Deleting the first sentence of § 107.304–1(i) and inserting in lieu thereof the following: "Section 304(a) of the act states that Licensees provide a source of equity capital for incorporated small-business concerns in accordance with the regulations of SBA." As amended § 107.304–1(i) reads as follows:

§ 107.304–1 Sale and purchase of convertible debentures.

* * * * *

(i) Section 304(a) of the act states that Licensees provide a source of equity capital for incorporated small-business concerns in accordance with the regulations of SBA. This requirement of the act will be satisfied by the inclusion in the Proposal for the prior approval of SBA of the standard terms, provisions and conditions, including the initial pricing policy, intended to be imposed by a Licensee generally in connection with the purchase of convertible debentures from small-business concerns. However, under the free principles of the market place, a Licensee and small business concerns may negotiate the specific terms and conditions applicable to the financing of the particular small business concern without obtaining the participation in such negotiation or approval of SBA for each transaction, and may negotiate any special terms and conditions that are reasonably applicable to the situation without approval of SBA unless such special terms and conditions constitute a major variance from the policies of the Licensee stated in its Proposal and previously approved by SBA. The agreement on such special terms and conditions may be made conditional on approval from SBA. Requests for approval of any such special terms and conditions will receive prompt consideration and decision by SBA. (See also § 107.308–7(c).)

Dated: June 14, 1960.

PHILIP MCCALLUM,
Administrator.

[F.R. Doc. 60–5631; Filed, June 17, 1960; 8:49 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 60–WA–150]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Modification

The purpose of this amendment to § 600.294 of the regulations of the Administrator is to redescribe Red Federal airway No. 94.

Red 94 is described in part utilizing the Otis AFB, Falmouth, Mass., nondirectional radio beacon located at latitude 41°36'15" N., longitude 70°32'31" W. This radio beacon was relocated on September 15, 1955, to latitude 41°36'04" N., longitude 70°35'00" W. Section 600.294 is being amended accordingly, so as to correctly describe Red 94. The control areas associated with this airway are so designated that they will automatically conform to the redescribed airway. Therefore, no amendment relating to control areas is necessary.

Since this action does not involve the designation of additional airspace and imposes no additional burden on the public, compliance with the notice, public procedure, and effective date requirements of section 4 of the Administrative Procedure Act is unnecessary and it may be made effective on less than 30 days notice.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), the following action is taken:

In the text of § 600.294 "latitude 41° 36'15", longitude 70°32'31"," is deleted and "latitude 41°36'04" N., longitude 70°35'00" W.," is substituted therefor.

This amendment shall become effective upon the date of publication in the FEDERAL REGISTER.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60–5593; Filed, June 17, 1960; 8:45 a.m.]

[Airspace Docket No. 60–LA–6]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Modification

On April 7, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 3003) stating that the Federal Aviation Agency was considering an amendment to § 600.6006 of the regulations of the Administrator which would modify the segment of VOR Federal airway No. 6 between Sacramento, Calif., and Lovelock, Nev.

As stated in the notice, Victor 6 presently extends in part from Sacramento, Calif., to Lovelock, Nev., including a north alternate between Sacramento and Reno, Nev. The Federal Aviation Agency is modifying Victor 6 by realigning it from the Sacramento VOR via a VOR to be installed approximately October 1, 1960, near Lake Tahoe, Calif., at latitude 39°10'50" N., longitude 120°16'07" W., to the Reno, Nev., VOR. In addition, the north alternate from Sacramento to Reno is being realigned via the Sacramento VOR 038° True and the Reno VOR 257° True radials, and a new south alternate is being designated between the Reno VOR and the Lovelock VOR via a VOR to be installed approximately May 4, 1960, near Fallon, Nev., at latitude 39°30'58" N., longitude 118°59'47" W., direct station to station. Subsequent to the publication of the notice, the Fallon and Lake Tahoe VORs were rescheduled for commissioning approximately November 1, 1960.

United Air Lines commented on the failure of the proposal to include a direct route between Lake Tahoe and Fallon, which would by-pass Reno and suggested immediate action be initiated to establish this route. The Aircraft Owners and Pilots Association recommended that the Fallon VOR be relocated nearer the Fallon civil and military airports, to be utilized as a landing aid.

The action suggested by United Air Lines was published in the FEDERAL REGISTER on April 2, 1960, as a notice of proposed rule making in Airspace Docket No. 60–WA–63 (25 F.R. 2807). The Fallon VOR will be usable as an approach aid to the Fallon airports at its present location. Establishment of this VOR south of its proposed site would result in an overlap of the airway into the Fallon Restricted Area (R–268).

No other adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), the following action is taken:

In the text of § 600.6006 (24 F.R. 10504; 25 F.R. 582) "intersection of the Sacramento omnirange 055° True and the Reno omnirange 230° True radials; Reno, Nev., omnirange station, including a north alternate between the Sacramento, Calif., omnirange station via the Reno, Nev., omnirange station via the intersection of the Sacramento omnirange 040° True and the Reno VOR 257° radials; Lovelock, Nev., omnirange station;" is deleted and "Lake Tahoe, Calif., VOR; Reno, Nev., VOR, including a N alternate from the Sacramento VORTAC to the Reno VOR via the INT of the Sacramento VORTAC 038° True and the Reno VOR 257° True radials; Lovelock, Nev., VORTAC, including a S alternate from the Reno VOR to the Lovelock VORTAC via the Fallon, Nev., VOR;" is substituted therefor.

This amendment shall become effective 0001 e.s.t., January 12, 1961.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60–5594; Filed, June 17, 1960; 8:45 a.m.]

[Airspace Docket No. 60–NY–26]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Modification

The purpose of this amendment to § 600.6016 of the regulations of the Administrator is to change the name of the Shadyside, Md., VOR to the Nottingham, Md., VOR.

The above action is being taken in order to eliminate misunderstanding and confusion resulting from the assignment of the same descriptive name to two navigational aid facilities in close approximation to each other; the Shadyside VOR and the Shadyside non-directional radio beacon. The name change, Shadyside, Md., to Nottingham, Md., VOR is being reflected in the description of VOR Federal airway No. 16. No amendment to the control areas associated with this airway is necessary.

Since this amendment imposes no additional burden on the public, compliance with the notice, public procedure,

and effective date requirements of Section 4 of the Administrative Procedure Act is unnecessary.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), the following action is taken:

In § 600.6016 (24 F.R. 10507, 25 F.R. 171, 1819, 2385, 3022) "Shadyside, Md., VOR;" is deleted and "Nottingham, Md., VOR;" is substituted therefor.

This amendment shall become effective 0001 e.s.t., August 25, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5596; Filed, June 17, 1960; 8:45 a.m.]

[Airspace Docket No. 60-NY-2]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Revocation of a Segment of Federal Airway, Associated Control Areas and Reporting Point

On March 9, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 2017) stating that the Federal Aviation Agency proposed to revoke the segment of Red Federal airway No. 13 between Providence, R.I., and Franklin, Mass., its associated control areas and reporting points.

Although the notice stated that the Franklin, Mass., Intersection (intersection of the north course of the Providence, R.I., radio range and the southwest course of the Boston, Mass., radio range) would be revoked as a designated reporting point, this action is unnecessary, as it has already been accomplished in Airspace Docket No. 60-WA-6 (25 F.R. 1240). However, the caption of § 601.4213, will require modification in order to correctly reflect the terminals of Red 13.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the Notice, the following actions are taken:

1. Section 600.213 (24 F.R. 10496, 10874) is amended to read:

§ 600.213 Red Federal airway No. 13 (Crystal Lake, Pa., to Providence, R.I.).

From the Crystal Lake, Pa., RBN via the Stewart AFB, N.Y., RBN; Poughkeepsie, N.Y., RR; Hartford, Conn., RR to the Providence R.I., RR.

2. Section 601.213 (24 F.R. 10544, 10874) is amended to read:

§ 601.213 Red Federal airway No. 13 control areas (Crystal Lake, Pa., to Providence, R.I.)

All of Red Federal airway No. 13.

3. Section 601.4213 (24 F.R. 10594, 10874; 25 F.R. 1240) is amended to read:

§ 601.4213 Red Federal airway No. 13 (Crystal Lake, Pa., to Providence, R.I.).

Poughkeepsie, N.Y., RR.

These amendments shall become effective 0001 e.s.t., August 25, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5595; Filed, June 17, 1960; 8:45 a.m.]

[Airspace Docket No. 59-LA-31]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Modification of Federal Airway and Domestic VOR Reporting Point

On March 12, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 2108) stating that the Federal Aviation Agency proposed to modify VOR Federal airway No. 6 between Oakland, Calif., and Sacramento, Calif., and redesignate Bay Point, Calif., Domestic VOR reporting point.

The Notice mentioned the necessity of redesignating the Bay Point, Calif., Domestic VOR reporting point as the intersection of the Oakland VOR 039° True and the Modesto, Calif., VOR 292° True radials. However, the Modesto VOR has been decommissioned. Action is taken herein to designate Bay Point Domestic VOR reporting point as the intersection of the Oakland VOR 039° True and the Napa, Calif., VOR 117° True radials.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, the following actions are taken:

In the text of § 600.6006 (24 F.R. 10504, 25 F.R. 582) "From the INT of the Oakland omnirange 221° and the Salinas VOR 319° radials via the Oakland VOR; Sacramento, Calif., VOR, including a south alternate via the INT of the Oakland VOR 077° and the Sacramento VOR 192° radials;" is deleted and "From the INT of the Oakland, Calif., VORTAC 221° True and the Salinas, Calif., VORTAC 319° True radials via the Oakland VORTAC; INT of the Oakland VORTAC 039° True and the Sacramento, Calif., VORTAC 212° True radials; Sacramento VORTAC, including a S alternate via the INT of the Oakland VORTAC 077° True and the Sacramento VORTAC 192° True radials;" is substituted therefor.

In the text of § 601.7001 (24 F.R. 10606) "Bay Point INT: The INT of the Oakland, Calif., VOR direct radial to the Sacramento, Calif., VOR with the Modesto, Calif., VOR 292° T radial." is deleted and "Bay Point INT: The INT of the Oakland, Calif., VORTAC 039° True and the Napa, Calif., VORTAC 117° True radials." is substituted therefor.

These amendments shall become effective 0001 e.s.t. August 25, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5598; Filed, June 17, 1960; 8:45 a.m.]

[Airspace Docket No. 59-KC-88]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Revocation of Federal Airway and Associated Control Areas

On March 2, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 1830) stating that the Federal Aviation Agency was proposing to revoke the segment of VOR Federal airway No. 89 and its east alternate from Chadron, Nebr., to Rapid City, S. Dak., together with its associated control areas. Although not mentioned in the notice, the segment of Victor 89 between Chadron and Rapid City penetrates the Scenic Restricted Area (R-190) and is excluded from R-190 in the airway's description. Since this action revokes the portion of Victor 89 which penetrates R-190, the reference to R-190 in the description of Victor 89 is no longer required and is deleted.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, § 600.6089 (24 F.R. 10514, 9986, 25 F.R. 2009) and § 601.6089 (24 F.R. 10600) are amended to read:

§ 600.6089 VOR Federal airway No. 89 (Denver, Colo., to Chadron, Nebr.).

From the Denver, Colo., VOR via the Cheyenne, Wyo., VORTAC, including an east alternate from the Denver VOR to the Cheyenne VORTAC via the Gill, Colo., VOR and the INT of the Gill VOR 003° True and the Cheyenne VORTAC 181° True radials; to the Chadron, Nebr., VOR, including an east alternate from the Cheyenne VORTAC to the Chadron VOR via the Scottsbluff, Nebr., VORTAC.

§ 601.6089 VOR Federal airway No. 89 control areas (Denver, Colo., to Chadron, Nebr.).

All of VOR Federal airway No. 89 including east alternates.

These amendments shall become effective 0001 e.s.t., August 25, 1960.

(Secs. 307(a), and 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5599; Filed, June 17, 1960; 8:45 a.m.]

[Airspace Docket No. 59-KC-82]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Designation of Federal Airway and Associated Control Areas

On January 30, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 815) stating that the Federal Aviation Agency proposed to designate VOR Federal airway No. 479 and its associated control areas from Wind Lake, Wis., to Milwaukee, Wis.

The Air Transport Association objected to the designation of the airway because there seemed to be no necessity for the airway. The ATA later withdrew its objection after a more detailed explanation was given as to why the airway was required for the management of air traffic. The Aircraft Owners and Pilots Association offered no objections. However, they questioned why the airway was not designated direct between Northbrook, Ill., and Milwaukee. A Northbrook/Wind Lake airway segment is not required at this time nor would it be compatible with terminal traffic control procedures presently employed in the Chicago, Ill., terminal area.

No other adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, Parts 600 (24 F.R. 10487) and 601 (24 F.R. 10530) are amended by adding the following:

§ 600.6479 VOR Federal airway No. 479 (Wind Lake, Wis., to Milwaukee, Wis.).

From the INT of the Milwaukee, Wis., VOR 161° True and the Janesville, Wis., VOR 076° True radials to the Milwaukee VOR.

§ 601.6479 VOR Federal airway No. 479 control areas (Wind Lake, Wis., to Milwaukee, Wis.).

All of VOR Federal airway No. 479.

These amendments shall become effective 0001 e.s.t. August 25, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5600; Filed, June 17, 1960; 8:45 a.m.]

[Airspace Docket No. 59-KC-42]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Extension and Modification of Federal Airways and Associated Control Areas

On October 2, 1959, a notice of proposed rule-making was published in the FEDERAL REGISTER (24 F.R. 7966) stating that the Federal Aviation Agency was proposing to extend VOR Federal airway No. 120 and its associated control areas from Miles City, Mont., to Mason City, Iowa via Dupree, S. Dak., Pierre, S. Dak., and Sioux Falls, S. Dak.

Subsequent to publication of the notice, it was determined that the proposed alignment of Victor 120 between Pierre, and Sioux Falls, will not permit the required lateral separation with the western segment of the south alternate to VOR Federal airway No. 26, at the Pierre VOR, nor with the southern segment of the west alternate to VOR Federal airway No. 15, at the Sioux Falls VOR. Accordingly, these segments of alternate airways should be realigned to coincide with the enroute radials of Victor 120. Since these are minor changes of 004° and 003° respectively, they will be realigned herein concurrently with the designation of Victor 120.

Although not mentioned in the notice, the captions to §§ 600.6120 and 601.6120 are changed to reflect the correct location of the Mullan Pass VOR. The control areas associated with Victors 15 and 26 are so designated that they will automatically conform to the modified airways. Accordingly, no amendment relating to such control areas is necessary. However, the caption to § 600.6015, pertaining to control areas for Victor 15 is changed to reflect the actual terminals.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), §§ 600.6015 (24 F.R. 10507), 600.6026 (24 F.R. 10509), 600.6120 (24 F.R. 10516), 601.6015 (24 F.R. 10598), 601.6120 (24 F.R. 10601) and 601.7001 (24 F.R. 10606) are amended as follows:

1. Section 600.6015 *VOR Federal airway No. 15 (Galveston, Tex., to Minot, N. Dak.).*

a. In the caption, delete "*(Galveston, Tex., to Minot, N. Dak.).*" and substitute therefor "*(Galveston, Tex., to Neosho, Mo., and Kansas City, Mo., to Minot, N. Dak.).*"

b. In the text, delete "INT of the Sioux City VOR 340° and the Sioux Falls VOR 169° radials; Sioux Falls, S. Dak., VOR, including an east alternate; Huron, S. Dak., VOR, including a west alternate;" and substitute therefor "INT of the Sioux City VOR 340° True and the Sioux Falls, S. Dak., VORTAC 169° True radials; Sioux Falls VORTAC, including an east alternate; Huron, S. Dak., VOR, including a west alternate via the INT of the Sioux Falls VORTAC 288° True and the Huron VOR 140° True radials;".

2. In the text of § 600.6026 *VOR Federal airway No. 26 (Cherokee, Wyo., to Cleveland, Ohio.)*, delete "Huron, S. Dak., VOR, including a south alternate;" and substitute therefor "Huron, S. Dak., VOR, including a south alternate via the Pierre VOR 106° True and the Huron, S. Dak., VOR 254° True radials;".

3. Section 600.6120 *VOR Federal airway No. 120 (Mullan Pass., Mont., to Miles City, Mont.).*

a. In the caption, delete "*(Mullan Pass, Mont., to Miles City, Mont.).*" and substitute therefor "*(Mullan Pass, Idaho, to Mason City, Iowa).*"

b. In the text, delete "to the Miles City, Mont., omnirange station." and substitute therefor "Miles City, Mont.,

VORTAC; Dupree, S. Dak., VOR; Pierre, S. Dak., VOR; Sioux Falls, S. Dak., VORTAC, to the Mason City, Iowa, VORTAC."

4. In the caption of § 601.6015 *VOR Federal airway No. 15 control areas (Galveston, Tex., to Minot, N. Dak.)*, delete "*(Galveston, Tex., to Minot, N. Dak.)*." and substitute therefor "*(Galveston, Tex., to Neosho, Mo., and Kansas City, Mo., to Minot, N. Dak.)*."

5. In the caption of § 601.6120 *VOR Federal airway No. 120 control areas (Mullan Pass, Mont., to Miles City, Mont.)*, delete "*(Mullan Pase, Mont., to Miles City, Mont.)*." and substitute therefor "*(Mullan Pass, Idaho, to Mason City, Iowa)*."

6. In the text of § 601.7001 *Domestic VOR reporting, points*, add "Dupree, S. Dak., VOR."

These amendments shall become effective 0001 e.s.t., August 25, 1960.

(Secs. 307(a), 313(a) 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

[Airspace Docket No. 59-NY-21]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Modification of Control Area Extension

On January 23, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 611) stating that the Federal Aviation Agency proposed to modify the Quonset Point, R.I., control area extension.

Although the Notice stated that restricted areas within the modified control area extension would be included as control area, this is not considered feasible at this time because negotiations are presently in progress between the Federal Aviation Agency and the controlling agency of the restricted areas to modify or revoke the restricted areas concerned. Therefore, the modified Quonset Point control area extension will exclude the airspace which lies within the geographical limits of, and between the designated altitudes of, Restricted Areas (R-18) and (R-62) during their times of designation.

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), and for the reasons stated in the notice, § 601.1164 (24 F.R. 10555, 25 F.R. 109) is amended to read:

§ 601.1164 Control area extension (Quonset Point, R.I.).

The airspace bounded on the W by VOR Federal airway No. 139, on the N by the 102° True radial of the Providence, R.I., VOR, on the E by the Falmouth, Mass., control area extension (§ 601.1295), on the S by control area extension 1169, excluding the portion which lies within the geographic limits of, and between the designated altitudes of, the Nashawena, Mass., Restricted Area (R-62) and the No Man's Land Island, Mass., Restricted Area (R-18) during these restricted areas' times of designation.

This amendment shall become effective 0001 e.s.t. August 25, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5589; Filed, June 17, 1960; 8:45 a.m.]

[Airspace Docket No. 59-KC-51]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Modification of Control Zone

On January 5, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 62) stating that the Federal Aviation Agency was considering an amendment to § 601.2054 of the regulations of the Administrator which would modify the Hutchinson, Kans., control zone.

As stated in the notice, the Hutchinson control zone is presently designated in part within an 8-mile radius of the Hutchinson Air National Guard Field, with an extension to the south based on the south course of the Hutchinson radio range extending from the radio range to a point 23 miles south of the radio range; to the north based on the north course of the Hutchinson radio range extending from the radio range to a point 10 miles north of the radio range; and to the southwest based on the Hutchinson VOR 222° True radial extending from the Hutchinson Municipal Airport to a point 10 miles southwest of the VOR. The prescribed standard ADF instrument approach procedure for Hutchinson Air National Guard Field, based on the North Fork, Kans., radio beacon and the south course of the Hutchinson radio range is being revised to restrict descent to not less than 1,000 feet above the terrain until passing the North Fork radio beacon. Therefore, the retention of the control zone extension within 2 miles either side of the south course of the Hutchinson radio range extending from the radio range station to a point 23 miles south is not justified as an assignment of airspace, and the revocation thereof is in the public interest.

The Aircraft Owners and Pilots Association concurred in the revocation of the control zone extension based on the south course of the Hutchinson radio range. The AOPA, however, stated that it believed the control zone extension to the north based on the north course of the Hutchinson radio range extending from the radio range to a point 10 miles north of the range was not necessary as an assignment of controlled airspace for Hutchinson Air National Guard Field. The Federal Aviation Agency has this north control zone extension under review and, if it is determined that the retention of this extension is not justified as an assignment of airspace, will revoke it.

Although in the notice, the control zone extension to the southwest based on the Hutchinson VOR 222° True radial was described as ten miles beyond the VOR, it is necessary to extend it to twelve miles beyond the VOR to provide full protection to the instrument approach.

One other comment was received from the Department of the Air Force which concurred with the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), § 601.2054 (24 F.R. 10573) is amended to read:

§ 601.2054 Hutchinson, Kans., control zone.

Within a 5-mile radius of the geographical center (latitude 38°04'00" N., longitude 97°51'35" W.) of the Hutchinson, Kans., Municipal Airport, within an 8-mile radius of the geographical center (latitude 37°55'35" N., longitude 97°54'20" W.) of the Hutchinson Air National Guard Field, within 2 miles either side of the 222° True radial of the Hutchinson VORTAC extending from the Hutchinson Municipal Airport to a point 12 miles southwest of the VORTAC, and within 2 miles either side of the north course of the Hutchinson RR extending from the RR to a point 10 miles north.

This amendment shall become effective 0001 e.s.t. August 25, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5590; Filed, June 17, 1960; 8:45 a.m.]

[Airspace Docket No. 59-AN-2]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Modification of Control Zone and Control Area Extension

On December 12, 1959, a notice of proposed rule making was published in the FEDERAL REGISTER (24 F.R. 10081) stating that the Federal Aviation Agency was considering amendments to Part 601 and §§ 601.1114 and 601.1984 of the regulations of the Administrator which would modify the Bettles, Alaska, control area extension and control zone.

As stated in the notice, the Bettles control zone is designated within a 5-mile radius of Bettles Airport. The present Bettles control area extension is designated within 5 miles either side of the southeast course of the Bettles radio range extending from the radio range to a point 25 miles southeast. The Federal Aviation Agency is modifying the Bettles control zone by designating extensions to the south and southeast, based on the Bettles radio range to provide protection for aircraft conducting radio range and ADF instrument approaches. The Federal Aviation Agency is also designating an additional control area extension at Bettles to the south to provide protection for aircraft executing missed approach procedures in connection with ADF approaches. In addition, § 601.1984, relating to 5-mile radius zone is amended by deleting "Bettles, Alaska: Bettles Airport.".

This action will result in the Bettles control zone being designated within a 5-mile radius of the Bettles Airport, within 2 miles either side of the southeast course of the Bettles radio range from the 5-mile radius zone to a point 12 miles southeast of the radio range, and within 2 miles either side of a line bearing 211° True from the Bettles radio range from the 5-mile radius zone to a point 12 miles south of the radio range; and the Bettles control area extension will be designated within 5 miles either side of a line bearing 211° True from the Bettles radio range to a point 25 miles south of the radio range, and within 5 miles either side of the southeast course of the Bettles radio range to a point 25 miles southeast of the radio range.

The Aircraft Owners and Pilots Association objected to the control zone extension which would extend to a distance of 12 miles from the radio range because "The need for flight of aircraft at an altitude below 1,000 feet above ground at a distance beyond 5 miles is not established in this proposal". However, in accordance with the prescribed radio range and ADF instrument approaches, the procedure turn on the radio range procedure is completed at 2,000 feet MSL within 10 nautical miles and then descent is made to cross the range at 1,500 feet MSL which is 860 feet above the surface of the airport, and the procedure turn on the ADF procedure is completed at 3,000 feet MSL within 10 nautical miles and then descent is made to cross the range at 1,200 feet MSL which is 560 feet above the surface of the airport. Therefore, the Federal Aviation Agency considers that the control zone extensions based on the 211° True bearing and the southeast course of the radio range are required for the full protection of the instrument approaches.

No other adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), the following actions are taken:

1. In Part 601 (24 F.R. 10530) add:

§ 601.2460 Bettles, Alaska, control zone.

Within a 5-mile radius of the geographical center of Bettles Airport, Bettles, Alaska (latitude 66°55'00" N., longitude 151°31'00" W.), within 2 miles either side of the SE course of the Bettles radio range extending from the 5-mile radius zone to a point 12 miles SE of the RR, and within 2 miles either side of a line bearing 211° from the Bettles RR extending from the 5-mile radius zone to a point 12 miles S of the RR.

§ 601.1984 [Amendment]

2. In § 601.1984 (24 F.R. 10570) delete "Bettles, Alaska: Bettles Airport."

3. Section 601.1114 is amended to read:

§ 601.1114 (24 F.R. 10552) Control area extension (Bettles, Alaska).

Within 5 miles either side of a line bearing 211° from the Bettles, Alaska, RR to a point 25 miles S of the RR, and within 5 miles either side of the SE course of the Bettles, Alaska, RR, extending from the RR to a point 25 miles SE.

These amendments shall become effective 0001 e.s.t., August 25, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5591; Filed, June 17, 1960; 8:45 a.m.]

[Airspace Docket No. 60-WA-119]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Modification of Control Zone

The purpose of this amendment to § 601.2358 of the regulations of the Administrator is to modify the Clovis, N. Mex., control zone.

The Clovis control zone presently includes the airspace within a 5-mile radius of Cannon AFB, N. Mex., and within 2 miles either side of a line bearing 222° True extending from the Air Force Base to a point 7½ miles southwest. The Department of the Air Force has been advised the Federal Aviation Agency that the radio beacon located southwest of Cannon AFB, and the center of Cannon AFB, are both incorrectly depicted on aeronautical charts. This results in aeronautical charts showing the extended center line of the instrument runway as not being lined up with the radio beacon. The Federal Aviation Agency is modifying the control zone, to correct this erroneous depiction on aeronautical charts, by designating the Clovis control zone within a 5-mile radius of the geographical center of Cannon AFB (latitude 34°23'01" N., longitude 103°18'58" W.) and within 2 miles either side of a line bearing 231° True from the AFB extending from the 5-mile radius zone to the Cannon radio beacon (latitude 34°18'48" N., longitude 103°25'12" W.).

Since this amendment is minor in nature, and does not involve the designation of additional airspace, compliance with the notice, public procedure, and effective date requirements of section 4 of the Administrative Procedure Act is unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, this amendment will become effective more than 30 days after publication.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), § 601.2358 (24 F.R. 10588) is amended to read:

§ 601.2358 Clovis, N. Mex., control zone.

Within a 5-mile radius of the geographical center of Cannon Air Force Base (latitude 34°23'01" N., longitude 103°18'58" W.) and within 2 miles either side of a line bearing 231° True from the AFB extending from the 5-mile radius zone to the Cannon RBN.

This amendment shall become effective 0001 e.s.t. August 25, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5592; Filed, June 17, 1960; 8:45 a.m.]

[Airspace Docket No. 60-KC-8]

PART 602—ESTABLISHMENT OF CODED JET ROUTES AND NAVIGATIONAL AIDS IN THE CONTINENTAL CONTROL AREA

Modification of Coded Jet Route

The purpose of this amendment to § 602.110 of the regulations of the Administrator is to modify the segment of L/MF coded jet route No. 10 between Kansas City, Mo., and Effingham, Ill.

The segment of J–10–L between Kansas City and Effingham is presently designated via the Belleville, Ill. (Scott AFB) radio range. The Department of the Air Force has advised that the Scott AFB radio range will be decommissioned in the near future. Therefore, it is necessary to realign the segment of J–10–L between Kansas City and Effingham via the St. Louis, Mo., radio range. Such action is being taken herein.

Since this amendment will not involve the designation of additional airspace and will impose no additional burden on the public, compliance with the Notice, and public procedures provisions of section 4 of the Administrative Procedure Act is unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, this amendment will become effective more than 30 days after publication.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), the following action is taken:

In the text of § 602.110 (25 F.R. 3708) "From Kansas City, Mo., RR via Belleville, Ill. (Scott AFB), RR; INT of Belleville (Scott AFB) RR NE course and Effingham RR W course;" is deleted and "From the Kansas City, Mo., RR via the St. Louis, Mo., RR;" is substituted therefor.

This amendment shall become effective 0001 e.s.t. August 25, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5588; Filed, June 17, 1960; 8:45 a.m.]

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 7663 c.o.]

PART 13—PROHIBITED TRADE PRACTICES

Albert Ehlers, Inc.

Subpart—Discriminating in price under Sec. 2, Clayton Act—Price Discrimination under 2(a): § 13.690 *Additional deliveries not charged for;* § 13.700 *Arbitrary or improper functional discounts;* § 13.710 *Cash discounts;* § 13.770 *Quantity rebates or discounts;* § 13.795 *Warehouse rental and service;* [Discriminating in price under Sec. 2, Clayton Act]—Payment for services or facilities for processing or sale under 2(d): § 13.824 *Advertising expenses.*

(Sec. 6, 38 Stat. 722; 15 U.S.C. 46. Interpret or apply sec. 2, 49 Stat. 1527; 15 U.S.C. 13) [Cease and desist order Albert Ehlers, Inc., Brooklyn, New York, Docket 7663, April 27, 1960]

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a Brooklyn, N.Y., distributor of coffee, tea, spices, extracts, and dried foods to wholesale jobbers, chain stores, restaurants, etc., with discriminating in price between competing customers in violation of section 2(a) of the Clayton Act by means of (1) three classifications of price lists with the lowest applied to customers taking warehouse deliveries, the next to those taking delivery by drop shipment, and the highest to other independent retail grocers, and with additional discounts for cash to the first two classes, but none at all to others; (2) 2 percent payable quarterly for warehousing in addition to aforesaid lower prices; (3) end of year quantity rebates; (4) advertising and promotional allowances; (5) a coordinating discount of 1 percent of total purchases to customers stocking a full line of respondent's products; and (6) granting substantial quantities of free goods upon the opening of new stores; and in violation of section 2(d) of the Clayton Act by paying sums of money as compensation for advertising furnished in connection with the sale of respondent's products—such as $20,000 paid to Food Fair Stores, Inc., Linden, N.J.; $14,500 paid to Grand Union Co., Paterson, N.J.; and $10,000 paid to Wakefern Food Corp., Elizabeth, N.J.—without making comparable allowances available to competitors of said favored customers.

Accepting a consent agreement, the hearing examiner made his initial decision and order to cease and desist which became on April 27 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondent Albert Ehlers, Inc., its officers, employees, agents and representatives, directly or through any corporate or other device, in connection with the sale or distribution of food products in commerce, as "commerce" is defined in the Clayton Act, as amended, do forthwith cease and desist from discriminating directly or indirectly in the price of such products of like grade and quality:

1. By selling such products to any purchaser at net prices higher than the net prices charged any other purchaser competing in the resale or distribution of such products.

2. By selling such products to any purchaser at a price which is lower than the price charged any other purchaser engaged in the same line of commerce, where such lower price undercuts the price at which the purchaser charged the lower price may purchase such products of like grade and quality from another seller.

It is further ordered, That respondent Albert Ehlers, Inc., its officers, employees, agents and representatives, directly or through any corporate or other device, in the course of its business in commerce, as "commerce" is defined in the Clayton Act, as amended, do forthwith cease and desist from: Making or contracting to make, to or for the benefit of any customer, any payment of anything of value as compensation or in consideration for any advertising or other services or facilities furnished by or through such customer, in connection with the handling, resale or offering for resale of products manufactured, sold, or offered for sale by respondent, unless such payment or consideration is affirmatively offered or otherwise made available on proportionally equal terms to all other customers competing in the resale or distribution of such products.

By "Decision of the Commission," etc., report of compliance was required as follows:

It is ordered, That respondent herein shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist.

Issued: April 27, 1960.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

[F.R. Doc. 60-5621; Filed, June 17, 1960; 8:47 a.m.]

[Docket 7774 c.o. etc.]

PART 13—PROHIBITED TRADE PRACTICES

Records, Inc., et al.

Records, Inc., et al., Docket 7774 c.o.; Time Records, Incorporated, et al., Docket 7765 c.o.; Edward S. Cohn trading as Lesco Distributors, Docket 7692 c.o.; Jamie Record Co., Docket 7724 c.o.; Volkwein Brothers, Inc., et al., Docket 7793 c.o.

Subpart—Bribing Customers' Employees: § 13.315 *Employees of private concerns.*

(Sec. 6, 38 Stat. 722; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended, 15 U.S.C. 45) [Cease and desist orders, Records, Inc., et al., Boston, Mass., Docket 7774, Apr. 14, 1960; Time Records, Incorporated, et al., New York, N.Y., Docket 7765, Apr. 21, 1960; Edward S. Cohn trading as Lesco Distributors, Philadelphia, Pa., Docket 7692, Apr. 26, 1960; Jamie Record Co., Philadelphia, Pa., Docket 7724, Apr. 26, 1960; and Volkwein Brothers, Inc., et al., Pittsburgh, Pa., Docket 7793, Apr. 26, 1960]

In the Matters of Records, Inc., a Corporation, and Cecil Stern, Individually, and as an Officer of Said Corporation; Time Records, Incorporated, a Corporation, Brent Music Corp., a Corporation, and Robert Shad, Individually, and as an Officer of Said Corporations; Edward S. Cohn, an Individual Trading as Lesco Distributors; Jamie Record Co., a Corporation; and Volkwein Brothers, Inc., a Corporation, and Carl R. Volkwein, and Walter E. Volkwein, Individually, and as Officers of Said Corporation

These cases were heard by hearing examiners on the complaints of the Commission charging record manufacturers and distributors with giving concealed "payola" to television and radio disc jockeys as inducement to play their records in order to increase sales.

Accepting consent agreements, the hearing examiners made their initial decisions and orders to cease and desist which became, in due time, the decisions of the Commission.

The orders to cease and desist, combining the respondents in these five cases, are as follows:

It is ordered, That respondents Records, Inc., a corporation, and its officers, and Cecil Steen, individually, and as an officer of said corporation; Time Records, Incorporated, a corporation, Brent Music Corp., a corporation, and their officers, and Robert Shad, individually and as an officer of said corporations; Edward D. Cohn, an individual trading as Lesco Distributors (erroneously designated in the complaint as Edward S. Cohn), or by any other name; Jamie Record Co., a corporation, and its officers; and Volkwein Brothers, Inc., a corporation, and its officers, and Carl R. Volkwein and Walter E. Volkwein, individually, and as officers of said corporation; and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with phonograph records which have been distributed in commerce, or which are used by radio or television stations in broadcasting programs in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(1) Giving or offering to give, without requiring public disclosure, any sum of money or other material consideration, to any person, directly or indirectly, to induce that person to select, or participate in the selection of, and the broadcasting of, any such records in which respondents, or any of them, have a financial interest of any nature;

(2) Giving or offering to give, without requiring public disclosure, any sum of money, or other material consideration, to any person, directly or indirectly, as an inducement to influence any employee of a radio or television broadcasting station, or to any other person, in any manner, to select, or participate in the selection of, and the broadcasting of, any such records in which respondents, or any of them, have a financial interest of any nature.

There shall be "public disclosure" within the meaning of this order, by any employee of a radio or television broadcasting station, or any other person, who selects or participates in the selection and broadcasting of a record when he shall disclose, or cause to have disclosed, to the listening public at the time the record is played, that his selection and broadcasting of such record are in consideration for compensation of some nature, directly or indirectly received by him or his employer.

By "Decision of the Commission", etc., in each case, reports of compliance were required as follows:

It is ordered, That respondents herein shall, within sixty (60) days after service upon them of these orders, file with the Commission reports in writing setting forth in detail the manner and form in which they have complied with the orders to cease and desist.

Issued: April 15, 1960 (D. 7774); April 27, 1960 (D. 7793); April 28, 1960 (D. 7765, 7692, 7724).

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

Title 32—NATIONAL DEFENSE

Chapter V—Department of the Army

SUBCHAPTER G—PROCUREMENT

PART 590—GENERAL PROVISIONS

PART 596—CONTRACT CLAUSES

PART 598—PATENTS AND COPYRIGHTS

PART 602—GOVERNMENT PROPERTY

PART 606—SUPPLEMENTAL PROVISIONS

Miscellaneous Amendments

1. Sections 590.111, 590.150, and 590.601–4 are revised to read as follows:

§ 590.111 Reports of suspected criminal conduct and non-competitive practices.

Reports of possible violations of Federal criminal statutes in connection with procurement and related matters, including reports of possible fraud or violation of antitrust laws, will be made in accordance with Subpart F, Part 1 of this title and this part.

§ 590.150 Administration and interpretation.

The administration and interpretation of Subchapter A, Chapter 1 of this title and this subchapter are the responsibility of the Deputy Chief of Staff for Logistics, Headquarters, Department of the Army (Chief, Contracts Branch).

§ 590.601–4 Protection of lists.

See § 1.601–4 of this title.

2. Revise § 590.603 and redesignate § 590.603–1 as § 590.603–50, as follows:

§ 590.603 Grounds for listing and treatment to be accorded listed concerns.

See § 1.603 of this title.

§ 590.603–50 Total restrictions.

* * * * * *

3. Revoke § 596.150–1, add new § 598.107–7, and revise paragraph (a)(1) in § 598.202–1, as follows:

§ 596.150–1 Progress payments clause. [Revoked]

§ 598.107–7 Contracts placed for NASA.

(a) Requests made by National Aeronautics and Space Administration (NASA), in accordance with § 9.107–7 (a)(1) of this title, requiring that the NASA "Property Rights in Inventions" clause be used in contracts for work which is funded only in part by NASA are predicated upon the basis that the project is a NASA project, or a project jointly planned by NASA and the Department of the Army to which the Department of the Army is contributing funds. Department of the Army contracts initiated prior to any proposed contribution of funds by NASA, without a request by NASA for change in specifications, shall contain the "Patent Rights" clause in § 9.107–2(b) or § 9.107–3 of this title, as appropriate; and the communication from NASA making funds available to the Department of the Army for such purpose will not be expected to require use of the NASA "Property Rights in Inventions" clause in such cases.

(b) Questions concerning whether a project is a NASA project or a Department of the Army project, or whether the work to be done under any particular contract is of the type which requires use of the NASA "Property Rights in Inventions" clause, may be coordinated directly with National Aeronautics and Space Administration, Office of the General Counsel for Patents.

§ 598.202–1 Acquisition of data.

(a) *General*—(1) *Data pricing requirements.* Where data is to be required under a contract, Invitations for Bids and Requests for Proposals shall include the following clause:

DATA PRICING

Where data is specified for delivery, bidders are requested to insert opposite the data items the price of such data. If the price of the data is included in the price of the end items the statement "data price included in the price of the end items" may be used. If the bidder does not insert the price as requested above, or inserts the words "No Charge for Data", or similar language, the Government will consider and the bidder agrees that the data price is included in the cost of the appropriate end items.

4. Add new Subpart H to Part 602, as follows:

Subpart H—Transfer of Title to Equipment to Nonprofit Education or Research Institutions

Sec.
602.800 Scope of subpart.
602.800–50 Policy.
602.801 Purpose of the legislation.
602.802 Transfer of title.
602.802–50 Administrative requirements.
602.802–51 Statistical data.

AUTHORITY: §§ 602.800 to 602.802–51 issued under sec. 3012, 70A Stat. 157; 10 U.S.C. 3012. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314.

§ 602.800 Scope of subpart.

The policies and procedures set forth in this subpart and Subpart H, Part 13 of this title, apply only to transfers of title under research contracts. Policies and procedures applicable to transfer of title under research grants are stated in AR 70–5 (Administrative Army Regulations).

§ 602.800–50 Policy.

Transfer of title to equipment may be effected at the time of acquisition, during the performance of the contract, or at the conclusion of the contract. Effort will be made to effect transfer of title to equipment at the time of acquisition in order to reduce administrative burden. The screening of equipment (exclusive of reportable production

equipment) as required in this part will be in relation to requirements, first, by the Department of Defense and, then, by other Government agencies for such equipment for use in research activities only.

§ 602.801 Purpose of the legislation.

See § 13.801 of this title.

§ 602.802 Transfer of title.

In addition to the policy contained in § 13.802 of this title, the following will apply:

(a) The contracting officer may transfer to the contractor title to any item of equipment categorized under the provisions of § 13.802(a)(1) (i) and (ii) of this title, without screening or referral to higher authority for approval.

(b) As to any item of equipment which, because of its nature, it would be impracticable or uneconomical to remove from the contractor's possession (§ 13.802(a)(2)(i) of this title):

(1) If the acquisition cost was $1,000 or less, the contracting officer may transfer title to the contractor without screening or referral to higher authority; and

(2) Regardless of the acquisition cost, the contracting officer may transfer title to the contractor upon approval by the Head of the Procuring Activity, his designee or designees, based upon a determination by the Head of the Procuring Activity, his designee or designees, that screening is not feasible.

(c) If the acquisition cost of any item of equipment was in excess of $1,000 but not in excess of $25,000 (exclusive of that equipment referred to in § 602.802 (b) of this chapter and § 13.802(a)(2)(i) of this title, the contracting officer may transfer title to the contractor only upon approval by the Head of the Procuring activity, his designee or designees, based upon a determination by the Head of the Procuring Activity, his designee or designees, that:

(1) The applicable criteria in § 13.802 (a) of this title have been met; and

(2) After such screening as he considers necessary, there is no research requirement within the Department of Defense which would preclude such a transfer of title.

The determination shall be final and conclusive unless determined by a court of competent jurisdiction to have been fraudulent, capricious, or so grossly erroneous as necessarily to imply bad faith.

(d) If the acquisition cost of any item of equipment was in excess of $25,000 and the item is reportable under AR 755–6 (Administrative Army Regulations), it shall be reported to the Armed Forces Supply Support Center (AFSSC) for additional screening for research requirements with interested Government agencies (§ 13.802(a)(2)(ii) of this title). If any such item of equipment is not reportable under AR 755–6, the procedure will be followed as set forth in paragraph (c) of this section.

§ 602.802–50 Administrative requirements.

Contract files will contain the following data:

(a) Where any item of equipment has an acquisition cost of $1,000 or less.

(1) Written determination of the contracting officer that the applicable criteria in § 13.802(a) of this title have been met;

(2) Documentation justifying such determination; and

(3) A copy of the transfer of title instrument.

(b) Where any item of equipment has an acquisition cost in excess of $1,000 but not in excess of $25,000.

(1) Prior approval of the Head of the Procuring Activity or his designee, including a finding that after such "reasonable check" as he considers appropriate, that there is no Department of Defense research requirement which would preclude the proposed transfer, and that the applicable criteria of § 13.802(a) of this title have been met;

(2) Written determination of the contracting officer, based on the foregoing approval; and

(3) A copy of the transfer of title instrument.

(c) Where any item of equipment has an acquisition cost in excess of $25,000 (as defined in § 602.802(d)).

(1) Identical documentation as required in paragraph (b) of this section, and

(2) A finding that no research requirement by interested Government agencies exist which would preclude transfer of title to the contractor.

The office maintaining property accountability records will be advised of the transfer of title.

§ 602.802–51 Statistical data.

In order to meet Congressional requirements for annual reporting of the transfers effected, heads of procuring activities will be prepared to submit when requested the following data:

(a) Names and locations of institutions receiving title to equipment.

(b) Nomenclature of description of equipment transferred.

(c) Acquisition cost of equipment transferred.

5. Revise §§ 606.201(a), 606.202, 606.203–4(a)(4), and 606.208(c), as follows:

§ 606.201 Documentary evidence of purchases.

(a) *Requirement.* All purchase transactions made by a contracting officer shall be evidenced by written contracts (§ 1.201–6 of this title) on approved contract forms, as prescribed in Part 16 of this title and Part 605 of this chapter, and in applicable procuring activity instructions, except those in which payments are made simultaneously with receipt of the supplies or services.

§ 606.202 Execution of contracts; requirements.

(a) *Availability of funds.* Prior to the incurrence of an obligation, the contracting officer shall obtain a written statement from the individual (normally the finance and accounting officer) responsible for the underlying allotment. Such statement shall (1) contain a citation of the proper funds to be charged; (2) reflect that sufficient funds are available for payment of the contractual obligation to be incurred; and (3) be made a part of the contract file. (§ 590.–311 of this chapter.) All contracts, purchase orders, and delivery orders shall reflect the complete accounting classification citation chargeable. The signature of a contracting officer on a contract, purchase order, or delivery order constitutes assurance of the availability and sufficiency of the funds cited. The contracting officer shall be responsible for insuring that final delivery, acceptance and payment, under the terms of the contract, are completed prior to expiration of the period in which the funds cited in the contract are authorized for expenditure.

(b) *Contracting Officer's signature.* In the case of formal advertising, the personal signature of the contracting officer on the award consummates the contract. In the case of negotiated contracts, the contracting officer shall personally sign on behalf of the United States after the contractor has signed, except where otherwise required by the particular contract form. In addition, the contracting officer's rank or title shall be indicated. Proxy and facsimile signatures shall not be used.

(c) *Signature by agents of contractors.* Contracts executed on behalf of contractors by agents must be accompanied by evidence, satisfactory to the contracting officer, of the agent's authority to do so.

(d) *Contracts with corporations.* Contracts with a corporation shall be executed in the official corporate name of the contractor. The amount and type of evidence to be required to determine the authority of a particular corporate officer to bind a corporation is for administrative determination by the contracting officer, subject to the limitation that the interest of the Government shall be protected. The contracting officer need not require that corporations execute a certificate provided he obtains other evidence which satisfactorily shows that the agent is empowered to bind the corporation. However, where a corporate certificate is considered necessary or desirable, it may be executed on a separate sheet, identified by contract number, and placed in the contract file.

(e) *Contracts with partnerships.* Contracts entered into with partnerships shall be executed in the partnership name and shall enumerate the names of all the partners. The contract need be signed by only one partner provided the authority of the particular partner to effectively bind the partnership has been established. The amount and type of evidence to be required to determine the authority of a particular partner to bind a partnership is for administrative determination by the contracting officer, subject to the limitation that the interest of the Government shall be protected.

(f) *Presigned contracts subject to approval.* Contracts subject to the approval of higher authority as prescribed by this subchapter or by instructions of heads of procuring activities or both, are not binding on the Government until so approved, even though signed by both parties.

(g) *Contracts subject to approval of award.* Where approval of award of a contract is required either by § 606.204 or by instructions of heads of procuring activities or both, no contract shall be entered into or signed by a contracting officer until approval to award the contract has been obtained.

(h) *Date of signature.* Where contracts, agreements, orders requiring acceptance, amendments, and similar documents require one or more signatures in order to constitute a valid obligation of funds, the signatures shall be affixed prior to the expiration of the period for obligation of the appropriation or fund involved; and the actual date when each signature is affixed shall be placed adjacent to the signature. However, the date of execution of a notice of award or letter contract shall be the date of obligation of the funds covered thereby, notwithstanding that a definitive contract is issued thereafter and is effective on the date of execution of the notice of award or letter contract.

§ 606.203–4 System of numbering.

(a) *Contracts.* • • •

(4) The figure "1" relates directly to the station number assigned to the activity and represents the first contract made by the particular activity. Contracts will be numbered by each activity in numerical sequence beginning with number 1 and going through 99,999 without regard to the fiscal year, type of contract, or procuring activity. Contracts issued at each activity beyond 99,999 will be identified by a new series of numbers distinguished by the use of the capital letter "A" at the end thereof. Any additional series thereafter will use the capital letter "B," "C," "D," etc. This subparagraph, of itself, does not require that a new series of numbers beginning with No. 1 be instituted; however, a new series of numbers will be instituted simultaneously with the assignment of a new station to an activity.

§ 606.208 Contracts pertaining to the Army Industrial Fund.

• • • • • •

(c) *Distribution.* There will be retained at the site of operations the originals of all contracts and related documents supporting disbursements from, and collections for, the Army Industrial Fund at the installation or activity concerned, only when authorized by the Assistant Secretary of Defense (Comptroller) upon assignment of such activity for site audit by the General Accounting Office. Where a contract provides for payment from the Army Industrial Fund and other funds, an authenticated copy of the contract and related documents will be distributed as prescribed in § 606.206.

[C 22, APP, May 23, 1960] Sec. 3012, 70A Stat. 157; 10 U.S.C. 3012. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314)

BRUCE EASLEY,
Major General, U.S. Army,
Acting The Adjutant General.

Title 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 2124]

[Wyoming 066609]

WYOMING

Partially Revoking Stock Driveway Withdrawals Nos. 63 and 128 (Wyoming Nos. 10 and 13)

By virtue of the authority vested in the Secretary of the Interior by section 10 of the act of December 29, 1916 (39 Stat. 865; 43 U.S.C. 300) as amended, it is ordered as follows:

The departmental order of February 10, 1919, establishing Stock Driveway Withdrawal No. 128, Wyoming No. 13, and the departmental order of July 7, 1932, enlarging Stock Driveway Withdrawal No. 63, Wyoming No. 10, are hereby revoked so far as they affect the following-described lands:

SIXTH PRINCIPAL MERIDIAN

STOCK DRIVEWAY WITHDRAWAL NO. 128

T. 46 N., R. 93 W.,
Sec. 13, lot 7.

The area described contains 37.99 acres.

STOCK DRIVEWAY WITHDRAWAL NO. 63

T. 55 N., R. 101 W.,
Sec. 25, SE¼NE¼ and N½N½;
Sec. 26, N½N½;
Sec. 27, N½N½;
Sec. 28, N½N½;
Sec. 29, N½NE¼.

The areas described contain 680 acres.

The lands are included in withdrawals for reclamation purposes either of April 20, 1928, in connection with the Shoshone Project, or of September 12, 1958, in connection with the Hanover-Bluff Unit, Missouri River Basin Project.

ROGER ERNST,
Assistant Secretary of the Interior.

JUNE 13, 1960.

[F.R. Doc. 60–5625; Filed, June 17, 1960; 8:49 a.m.]

[Public Land Order 2125]

[894072]

NEVADA

Partially Revoking the Executive Order of March 8, 1920 (Public Water Reserve No. 70)

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910 (36 Stat. 847; 43 U.S.C. 141), and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. The Executive order of March 8, 1920, which established Public Water Reserve No. 70, is hereby revoked so far as it affects the following-described land in Nevada:

MOUNT DIABLO MERIDIAN

T. 44 N., R. 52 E.,
Sec. 8, SE¼NE¼.

The area described contains 40 acres.

2. The land is located within the boundaries of the Elko Grazing District in Elko County, Nevada, adjoining the Humboldt National Forest on the west slope of Bull Run Mountain. The elevation is between 6,000 and 7,000 feet, having an undulating type topography suitable chiefly for the grazing of livestock.

3. Subject to any existing valid rights and the requirements of applicable law, the land is hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications, and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications and selections under the nonmineral public land laws presented prior to 10:00 a.m. on July 19, 1960, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The land has been open to applications and offers under the mineral leasing laws and to locations under the mining laws for metalliferous minerals. They will be open to location for nonmetalliferous minerals at 10:00 a.m. on July 19, 1960.

4. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the land shall be addressed to the Manager, Land Office, Bureau of Land Management, Reno, Nevada.

ROGER ERNST,
Assistant Secretary of the Interior.

JUNE 13, 1960.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Parts 904, 990, 996, 999, 1019]

[Docket Nos. AO–14–A30; AO–302–A2; AO–308–A12; AO–204–A11; AO–306–A1]

MILK IN GREATER BOSTON, MASS.; SOUTHEASTERN NEW ENGLAND; SPRINGFIELD, MASS., WORCESTER, MASS.; AND CONNECTICUT MARKETING AREAS

Notice of Recommended Decision and Opportunity To File Written Exceptions to Proposed Amendments to Tentative Marketing Agreements and to Orders

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to proposed amendments to the tentative marketing agreements and orders regulating the handling of milk in the Greater Boston, Massachusetts; Southeastern New England; Springfield, Massachusetts; Worcester, Massachusetts; and Connecticut marketing areas. Interested persons may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington, D.C., not later than the close of business the 15th day after publication of this decision in the FEDERAL REGISTER. The exceptions should be filed in quadruplicate.

Preliminary statement. The hearing on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreements and to the orders, were formulated, was conducted at Boston, Massachusetts, Providence, Rhode Island, Hartford, Connecticut, and Worcester, Massachusetts, on September 9 to October 8, 1959, pursuant to notice thereof which was issued August 19, 1959 (24 F.R. 6847).

The material issues on the record of the hearing relate to:

1. Extension of the Boston, Southeastern New England and Worcester marketing areas.
2. Modification of the pooling provisions under the five orders.
3. Revisions in the definitions and treatment of producer-handlers.
4. Modification of the exempt milk provisions.
5. Revisions in the accounting, classification and assignment provisions.
6. Class I price under the Southeastern New England and Connecticut orders.
7. The level of Class II price.
8. Pricing of diverted milk under the Connecticut order.
9. Review of the need and basis for compensatory payments.
10. Modification of the "take-out payback" seasonal pricing plan under the Connecticut order.
11. Nearby farm location differentials.
12. Payment dates.
13. Marketing service program under the Boston order.
14. Administrative assessment.
15. Other miscellaneous issues.

Findings and Conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Extension of the Boston, Southeastern New England and Worcester marketing areas.* The Greater Boston marketing area should be extended to include the cities and towns of Ashland, Ayer, Burlington, Holliston, Hopkinton, Littleton, Marlborough, North Reading, Sherborn and Wilmington in Middlesex County, the town of Lynnfield in Essex County, the towns of Hingham and Hull in Plymouth County, the towns of Avon, Canton, Cohasset, Dover, Holbrook, Medfield, Norwood, Randolph, Sharon, Stoughton, Walpole and Westwood in Norfolk County and the town of Southborough in Worcester County.

Until July 1, 1959, the towns of Burlington, Lynnfield, North Reading and Wilmington constituted a narrow corridor separating the Boston and Merrimack Valley marketing areas. The area was served almost exclusively by Boston and/or Merrimack Valley regulated handlers. With the consolidation of the Boston and Merrimack Valley orders the four towns now constitute an unregulated corridor within the Boston marketing area.

Within the past year a Boston handler has established gallon jug stores supplied exclusively with unregulated milk in the towns of Burlington and North Reading. This milk is procured, for the most part, from unregulated sources in northern New England at prices closely reflecting the Boston blend price, and is processed in the handler's unregulated Woonsocket, Rhode Island, plant. It is estimated that such milk is obtained at a price advantage of approximately $1.00 to $1.20 per hundredweight below the Class I price regulated handlers are required to pay under the order.

The four-town area in 1950 had a population of approximately 19,000 and there has been a continued population growth since that time. Regulated handlers have lost about 10 percent of the sales in this area since the gallon stores have opened. In addition the stores draw considerable patronage from the surrounding regulated towns. Proponents testified that a random check made just prior to the hearing indicated that about 50 percent of the cars stopping at those gallon jug stores were registered in cities and towns presently included in the marketing area.

The four-town area in question, because of location, constitutes a natural extension of the marketing area. Regulated handlers, who are the principal suppliers, are at a disadvantage in competing for sales, and they have lost and are continuing to lose sales to unregulated milk. It is proper, therefore, that these towns be consolidated into the marketing area.

The towns of Ayer and Littleton, having a civilian population of 8,000 in 1950, include the military establishment of Fort Devens. The civilian population is presently served by seven Boston or Worcester regulated handlers and five unregulated dealers. Regulated handlers make about 60 percent of the civilian sales. At least one of the unregulated dealers will become fully regulated by virtue of extension of the Worcester marketing area hereinafter proposed. The civilian population obviously will depend primarily on regulated milk and these towns should be added to the Boston area on this basis.

The primary intent in requesting regulation of milk marketing in these two towns, however, was to bring within regulation milk supplied to the military installation. Fort Devens is served on the basis of contract bids and the total sales on the basis of current staffing approximate six million pounds annually. The installation was once served primarily by regulated handlers using regulated milk, but in recent years it has been served almost exclusively with unregulated milk. This unregulated milk in reality is usually a part of the New England regulated milk supply. But when a handler obtains the contract at the installation he removes the milk from regulation and when the contract is terminated the milk is returned to regulation. This has had an unstabilizing effect upon marketing channels and upon producer returns.

The towns of Hingham, Hull and Cohasset form a small unregulated pocket at the southeast corner of the Boston marketing area and the northeast corner of the Southeastern New England marketing area. According to the 1950 census the combined population of the three-town area was 17,731, exclusive of summer residents who move in from the nearby metropolitan area during the vacation months and increase Class I sales significantly. The area is preponderantly served by Boston handlers, though to some extent it is also served by Southeastern handlers. While there has been no significant competition from unregulated milk, nevertheless, by location and by virtue of its extensive coverage by Boston handlers' routes, it is an integral part of the Boston marketing area.

The towns of Hingham and Hull were initially excluded from the Southeastern New England marketing area because of their integral relationship to the Boston market. The town of Cohasset, not initially proposed for regulation under the Southeastern New England order, is also integrally related to the Boston market. The inclusion of these towns will not significantly affect the status of any person presently doing business there. Potentially, however, the area presents an opportunity for unregulated handlers to establish retail stores and create a situation similar to that which occurred in the towns of Burlington and North Reading, as previously discussed. It is appropriate, therefore, that Hingham and Hull be included in the marketing area at this time.

The cities and towns of Ashland, Holliston, Hopkinton, Marlborough, Sherborn and Southborough are contiguous to the western boundary of the existing marketing area and are preponderantly served by presently regulated handlers. Ten of the 19 handlers doing business there are Boston handlers and two are Worcester handlers. Approximately 70 percent of the business in these six towns is done by regulated handlers.

Approximately 50 percent of the total population of this six-town area resides within the city of Marlborough. While the remaining five towns are significantly less densely populated, nevertheless their location relative to Marlborough and the presently regulated area under the Boston and Worcester orders affords opportunity for exploiting unregulated milk and regulated handlers in recent years have met with increasing competition from such milk. Continuing technological improvements in the processing and distribution of milk have made the specialized milk store a practical and efficient method of retailing milk. A single, unregulated plant can supply a chain of stores widely scattered over southern New England, and in this way it has become practical for unregulated handlers to serve scattered concentrations of population. Several supply plants have been withdrawn from regulation to supply unregulated milk for such operations here and in other areas herein proposed for regulation. To preserve the integrity of regulation, it is necessary, therefore, to extend the marketing area to cover this territory in which regulated handlers are the primary distributors.

The situation in that part of Norfolk County which is not now regulated or hereinbefore recommended for regulation (Cohasset) is substantially similar to that in the six-town area previously discussed. The situation has been further accentuated by the fact that certain regulated handlers, in an effort to meet unregulated competition, have adjusted their operations, by use of the exempt milk provisions of the orders, to enable them to serve unregulated areas with unregulated milk. Changes in the exempt milk provisions hereinafter proposed would tend to deter these exempt milk operations. As previously pointed out, however, it is now desirable to extend the area of regulation to cover that territory in which regulated handlers are the primary handlers. The problem concerning the presently unregulated parts of Norfolk County is one of determining what segment should most appropriately be added to Boston and what segment should be added to Southeastern New England.

The Norfolk County towns hereinbefore set forth are served primarily by handlers regulated under the Boston or Southeastern New England orders and by one other substantial distributor who would be brought under full regulation by the revision in the exempt milk provisions hereinafter proposed. While it cannot be concluded definitely for each of these towns that Boston handlers, rather than Southeastern New England handlers, do the preponderance of the business, the area, by location, represents an appropriate extension of the Boston marketing area. The provisions of the two orders, as herein proposed to be amended, are so integrated that there should be no serious consequence if it develops that one or more of these towns is in fact served primarily by Southeastern rather than Boston handlers.

The towns of Pepperell and Dunstable in Middlesex County were also proposed for addition to the Boston marketing area. These towns are substantially rural in character. They had a combined population in 1950 of only 3200 and there is no evidence of significant population growth since that time. While the regulated handlers doing business here do meet substantial competition from unregulated handlers, it was not established that this competitive situation has resulted in market disorder of such a magnitude as to warrant regulation.

The Southeastern marketing area should be extended to include the towns of Bellingham, Foxborough, Franklin, Medway, Millis, Norfolk, Plainville and Wrentham in Norfolk County and the towns of Blackstone, Hopedale, Mendon, Milford and Millville in Worcester County. These towns are served primarily by handlers presently regulated under the Southeastern New England order and by handlers who would be brought under that regulation by the charges in the exempt milk provision hereinafter discussed. The situation relative to the use of unregulated milk is identical to that in the adjacent areas hereinbefore proposed for addition to the Boston area, and extension of regulation is necessary for the same reason. The question in the case of the Norfolk County towns and the town of Milford in Worcester County is whether regulation under Boston or Southeastern New England would be more appropriate. It is concluded that these towns are more closely associated with the Southeastern New England market and, therefore, should be included in that marketing area.

Regulation should not be extended to include the towns of Northbridge, Uxbridge, or Douglas. The town of Northbridge was at one time regulated under the Worcester order, but it was removed following an amendment hearing in which it was established that the preponderance of business in the town was done by a large number of producer-handlers located either in Northbridge or in Uxbridge. This situation continues to exist: Regulated handlers do little business in these two towns. Regulation was opposed by those producer-handlers who historically have held virtually an exclusive market.

The town of Douglas is largely taken up by a State park. It was proposed for regulation under the Southeastern order, but in fact there are no Southeastern handlers operating in the town.

The Worcester marketing area should be extended to add the cities of Fitchburg, Gardner, and Leominster and the towns of Charlton, Dudley, Lancaster, Lunenburg, Northborough, Oxford, Princeton, Southbridge, Sterling, Sutton, Upton, Webster, Westborough, and Westminster—all in Worcester County.

The cities of Fitchburg, Gardner, and Leominster, commonly referred to as the Tri-city area, are situated to the north of the present Worcester marketing area. In 1950 they had a combined population of more than 87,000, which was nearly 45 percent as large as that of the city of Worcester, which is the hub of the present marketing area. While about one-fourth of the business in these three towns is done by presently regulated dealers, 35 to 40 percent of the business is done by dealers who are using unregulated milk purchased from sources outside the State of Massachusetts but within the procurement area of the New England federally regulated markets. In recent years more and more handlers have been dropping local producers to use unregulated milk. There now is only one large dealer who still buys from local producers.

Unless the area is placed under regulation many of the remaining nearby Massachusetts producers will lose their local market and be forced to look to the adjacent Federal order markets as outlets for their milk.

As previously indicated, the cost advantage of using unregulated milk over federally regulated milk is approximately a dollar per hundredweight, and since the price established under the State order for this area is slightly in excess of the Federal order price the cost advantage of unregulated milk over State controlled milk is even greater. The cost advantage of unregulated milk therefore is a substantial inducement for handlers to increase their purchases of such milk and to develop unregulated Class I sales operations in the area. Regulated handlers using regulated milk obviously cannot compete effectively with such operations.

While regulation of Gardner, Fitchburg, and Leominster will greatly relieve the disorderly marketing situation in northern Worcester County, an even greater degree of market stability will be achieved by regulating also the immediately adjacent towns of Westminster, Lunenburg, Princeton, Sterling, and Lancaster. These towns are preponderantly served by presently regulated handlers and by handlers who will be brought under regulation by inclusion of the Tri-city area. For the most part,

they also are ideally situated for the extension of unregulated milk operations which would tend to draw sales from the present marketing area and/or the Tri-city area. The towns of Princeton and Sterling are served almost exclusively by presently regulated handlers.

The towns of Ashburnham, Ashby, Templeton, Hubbardston, and Townsend should not be added to the Worcester marketing area. They are substantially rural in character and they are less favorably situated for gallon jug store operations than the towns herein proposed for regulation. These towns are served largely by dealers who do the preponderance of their business in other unregulated areas.

The towns of Northborough, Westborough and Upton form a narrow corridor between the present Worcester marketing area and the marketing areas of Boston and Southeastern New England as hereinbefore proposed to be extended. Handlers regulated under these orders now have approximately 80 percent of the Class I sales here, and extension of the Worcester regulation will prevent repetition of the previously discussed store situation which has developed in other unregulated corridors.

The towns of Charlton, Oxford, Sutton, Southbridge, Dudley, and Webster are located adjacent to and between the present Connecticut and Worcester marketing areas. Worcester handlers have the preponderance of business in the towns of Charlton, Oxford, and Sutton and also have substantial sales in the remaining three towns. A substantial Connecticut handler operates a bottling plant in the town of Dudley and has general distribution in that town and in the adjacent towns of Webster and Southbridge. In addition, other Connecticut handlers also have distribution here. It is concluded that Worcester and Connecticut regulated handlers do the preponderance of business in these three towns, and that orderly marketing will be enhanced by their inclusion in the Worcester marketing area.

Extension of regulation to include the six-town area was proposed by several Worcester handlers who testified that they operated at a serious competitive disadvantage in competition with unregulated operations in the area. They further pointed out that the present disorderly marketing conditions created by the presence of unregulated milk could be increased by the establishment of store outlets in the area. The six-town area has a population in excess of 50,000 and is served by an excellent transportation network. It thus represents an excellent opportunity for unregulated milk operations similar to those which have sprung up in other unregulated corridors. It is appropriate, therefore, that this six-town area be added to the Worcester marketing area.

The towns of Sturbridge and Northbridge should not be included in such marketing area. The Northbridge situation was previously discussed under the extension of the Southeastern New England marketing area and its inclusion in the Worcester area at this time is inappropriate for the reason stated when its inclusion in the Southeastern area was denied. The town of Sturbridge presently is served by only one regulated handler in competition with five small unregulated dealers. There is no indication of market disorder which would require its regulation at this time.

The towns of Barre, Brookfield, East Brookfield, Hardwick, New Braintree, North Brookfield, Oakham, Ware, and West Brookfield are served extensively by presently regulated handlers. There is no indication that unregulated milk in any way has been a disruptive factor in these nine towns. Regulation was requested to eliminate the possibility of gallon jug stores being established on the perimeter of the marketing area from which unregulated milk sales would provide disadvantageous competition for regulated milk. The towns in question are primarily rural in character and there is no indication, other than in the town of Ware, that regulated Worcester handlers have had any competitive problems. The competition complained of in the town of Ware was from a fully regulated handler under the Springfield order, and it is not apparent how regulation of this town would in any way alter this competitive situation.

2. *Pool plant provisions.* The provisions of the several New England orders should be revised to provide generally for regulation of a plant under the order for that market in which it disposes of the greater proportion of its Class I milk on routes or, in the case of supply plants, that market to which the greater proportion of its shipments are made.

Virtually all the milk in the New England area is qualified for disposition as fluid milk in one or all of the Federal order markets in New England. While there are technical differences in the several health ordinances in effect and in their application, nevertheless, the markets draw milk from a generally common supply area. Producers and/or plant operators have a broad choice of markets and milk can be expected to associate with that market which, in the judgment of the individuals or companies concerned, offers the most attractive financial remuneration.

Prior to the advent of regulation in Southeastern New England and Connecticut, the Boston pool carried most of the reserve supplies for the entire New England area. In order to hold the Class I sales for which the pool carried the reserve supply, it was desirable to maintain low pooling requirements and to pool any plant meeting such requirements, even though such plant by performance might be more closely associated with one of the regulated secondary markets (Merrimack Valley, Springfield and Worcester).

The advent of regulation in the Southeastern New England and Connecticut markets has changed substantially the supply situation in the New England area. Most of the manufacturing plants which process milk in excess of Class I needs are now, and will undoubtedly continue to be, associated with the Boston pool. Nevertheless, it is expected that the two new orders will carry their own market reserves. In the interest of orderly marketing, the provisions of the respective orders must be drafted to facilitate the movement of milk as between markets and to promote alignment of blended prices as between markets. This can best be accomplished by providing more uniform basic plant definitions and pooling requirements. It is concluded, therefore, that the plant and receiving plant definitions under the Southeastern New England order should be revised to conform with such definitions under the three older New England orders, and that the plant definition under each of these four orders should be further modified in conformity with the provisions of the Connecticut order to make clear that the definition does not include separate facilities used to hold or store packaged fluid milk products or other milk products in finished form in transit on routes.

The present plant and receiving plant definitions under the Southeastern New England order are identical to those of the Boston order in effect prior to April 1, 1959. These provisions were modified effective April 1, 1959 to conform more closely to the conditions of bulk tank handling and to permit the pricing of milk at country transfer points, which are substantial facilities operated by bona fide handlers with financial responsibility. The present definitions of the three oldest orders are equally appropriate for the Southeastern New England order, for the identical reasons stated in the Assistant Secretary's decision of March 24, 1959 (24 F.R. 2441) in proposing their adoption in the Boston and secondary markets.

The plant and receiving plant definitions under the Connecticut order do not need to be modified with respect to the maintenance of holding facilities. No evidence was submitted to show that, in terms of the situation in this market, these definitions have not operated satisfactorily.

The three oldest New England orders presently use Class I disposition (both to plants and on routes) in the market area as one criterion for pooling distributing plants. The Connecticut and Southeastern New England orders use "route" disposition. It is concluded that route disposition in the marketing area should be used as a uniform standard for distributing plants under each of the several orders. It is appropriate that route sales include all disposition of fluid milk products classified as Class I, other than in bulk to a plant or in packaged form to a plant which packages fluid milk products for Class I disposition. Bulk movements as between plants should be treated as plant transfers as should package movements to plants which are also packaging plants. Class I disposition from any such transferee plant properly should be considered as route disposition of such plant. Packaged sales to nonpackaging plants are no different than sales to other peddlers or vendors and sales from such plants, as in the case of sales by vendors, should be counted as route sales of the packaging plant.

In conjunction with this conclusion, it is proposed that the handler definition be extended to include peddlers, bobtailers and similar persons. As nonpool handlers, such persons will be required to file reports with the market administrator relative to their receipts and disposition of milk in order that he may ascertain where the milk is disposed of.

The plant definition, as hereinbefore provided, excludes buildings and facilities used primarily to store packaged fluid milk products in transit on routes. This is intended to make clear that routes emanating from distribution depots are to be considered as routes of the originating plant, whether such depots are operated by the same handler, or by bobtailers, vendors, peddlers or similar distributors. This treatment is presently prescribed under the existing Connecticut order language.

Under the present provisions of the Southeastern New England order, a receiving plant with route distribution must dispose of 10 percent of its producer receipts as Class I milk in the marketing area on routes, and at least 50 percent of such receipts as Class I, to qualify for pooling. Under the Connecticut order, such a plant must dispose of 10 percent of its producer receipts as Class I milk in the marketing area on routes and 50 percent of its total receipts as Class I to qualify for pooling. Under the three older orders such a plant must dispose of 10 percent of its overall receipts as Class I milk in the marketing area to qualify for pooling. A plant located in excess of a prescribed distance from the market is termed a country plant and must meet different requirements. These three latter orders also prevent pooling of a distributing plant during certain months of the year which did not operate as a pool plant during other prescribed months of the year. A distributing plant meeting the requirements of the Boston order and of any other order presently is regulated under the Boston order, even though it might do the greater proportion of its business in another market.

With virtually all the concentrated area of sales under regulation, it is appropriate and desirable that distributing plants be regulated in that market in which they do the greater proportion of their Class I business. This result can best be accomplished by providing identical pooling standards under each of the respective orders. The language of the Connecticut order is most appropriate for this purpose. Since all distributing plants presently pooled under the several orders are primarily Class I operations, it is not expected that any plant presently pooled will be denied pooling status because of these modifications. Nevertheless, should the adoption of this language result in nonpool status for any plant presently pooled, such result is concluded appropriate. A distributing plant which utilizes less than 50 percent of its fluid milk receipts in Class I obviously cannot be considered as primarily associated with a fluid market, and the pooling of such a plant would adversely affect returns to producers for the fluid market. A plant which has less than 10 percent of its producer receipts disposed of in any marketing area should not be considered as substantially associated with such local market. Full regulation of plants with only a minor part of their distribution in the local market is not necessary and might well have the result of placing such plants at a competitive disadvantage in supplying the market with which they are primarily associated.

With the requirement that a distributing plant must have at least a 50 percent Class I utilization to qualify for pooling, it is no longer necessary to retain the flush season exclusion for distributing plants, since a plant entering the market for the first time during the flush months should not have a detrimental effect on the pool. Hence, there need be no concern of pool riding.

It is recognized that because of the close geographical relationship of the several marketing areas some plants, as a result of losses or gains in sales as between markets, might occasionally shift from one pool to another. This situation most likely could occur in the case of some of the smaller handlers operating in areas where two or more of the marketing areas adjoin. While such a situation might be disconcerting to the plant operator, it would have no significant effect on him, his producers, or any supply plants shipping to such plant, since class prices are identical as between markets and blended prices will be closely aligned. The pooling requirements for distributing plants as herein proposed are identical under each of the orders, and provision is made whereby supply plants which meet the pooling requirements under any of the New England orders in each of the months of July through November have automatic pooling status under any such order during the flush production months.

It is desirable that the principle of regulating a distributing plant in that market in which it has the greater proportion of its route sales be preserved. Any modification of this principle would tend to enhance or deflate the Class I sales in one pool to the disadvantage or advantage of the other. It is unlikely that there will be any significant occurrence of plant shifts as a result of this conclusion. Nevertheless, should any plant exist which has approximately equal route sales in two markets, and such plant is shifted between pools on the basis of minor losses or gains in route sales in one market as compared to another, such result must be concluded to be appropriate.

The present "city" and "country" plant definitions in the three older orders, in conjunction with the pooling provisions, establish different pooling requirements for distributing plants solely on the basis of location. The continued application of this principle would tend to deter the intent to pool distributing plants in the market in which they do the greater proportion of their Class I business. Plants performing similar functions should be accorded similar treatment and distance should reflect only difference in prices as between plants. It is concluded, therefore, that distance from market should not be a factor in pooling requirement.

The pooling requirements for supply plants under each of the respective orders should be modified to provide, (1) more uniform shipping requirements, (2) greater flexibility for plants to move from one pool to another, and (3) assurance of pooling status under some order during the flush for any plant which was pooled under any of these orders in each of the short production months.

Under the existing provisions of the Boston order a supply plant must meet specified performance requirements in each month in the case of city plants, while country plants must ship 10 percent of their producer receipts in the month of August and make at least token shipments every other month thereafter. Any plant meeting the pooling requirements in any month is pooled in such month unless the operator thereof requests nonpool status. A plant operated as a nonpool plant in any month of July through March cannot hold pooling status in the months of April through June if operated by the same handler or an affiliate.

With respect to supply plants the Worcester and Springfield orders provide 50 and 30 percent shipping requirements, respectively, and a plant pooled in each of the months of October through February has automatic pooling status in the months of March through September. As in the case of the Boston order, any plant operated as a nonpool plant during any of the short production months cannot be pooled during the flush if operated by the same handler or an affiliate.

In the case of the Connecticut order a supply plant must qualify for pooling in each of the months of July through November to hold automatic pooling status in the following months of December through June, but any plant is qualified for pooling in any month in which it meets the 30 percent shipping requirement. The Southeastern New England order also provides a 30 percent shipping requirement for supply plants in the months of July through November but, similar to the three older orders, denies pooling status during the flush to a plant which held nonpool status in any of the short months and is operated by the same handler or an affiliate. The Connecticut and Southeastern New England orders exempt from pooling any plant which met the pooling requirements but was a pool plant under another Federal order. Such nonpool status in any month for any qualified supply plant does not deter automatic pooling during the flush months. Similarly, the Springfield and Worcester orders defer to each other and to the Boston order but do not recognize the Southeastern New England or Connecticut orders.

The varied requirements for supply plants presently contained in the several orders deter the orderly movement of plants from one order to another in response to market needs and resulting price incentives. Handlers' efforts to assure reasonable alignments of blends through movements of plants and/or milk within the limits provided in the orders have not necessarily accommodated the situation, and have provoked

considerable dissatisfaction on the part of affected producers.

It is concluded that with respect to supply plants the months of July through November should be adopted under each of the orders as the qualifying months for automatic pooling during the subsequent months of December through June. The months of July through November, presently used in the Southeastern New England and Connecticut orders, also generally represent the months of shortest production and/or greatest need in the New England area as a whole. It is appropriate, therefore, that such months be adopted as the qualifying months for automatic pooling in the remaining months to provide continuity of pooling provisions as among the several orders.

Pooling qualification for supply plants should be contingent on meeting specified shipping requirements to pool distributing plants, or to other plants not regulated under another Federal order which utilize at least 50 percent of their total receipts of fluid milk products in Class I and dispose of not less than 10 percent of such receipts as Class I milk in the marketing area on routes. This requirement is generally applicable under the Southeastern New England and Connecticut orders, but no distinction is made as to whether the transferee plant is regulated under another Federal order. As a result, certain handlers with distribution in both the Boston and Southeastern New England markets have pooled their bottling and distributing plants under the Boston order and their supply plants have been moved back and forth between the two pools. It is concluded that market stability in the area will be enhanced if, with only specified exceptions hereinafter discussed, supply plants are required to pool under that order regulating the distributing plant(s) to which qualifying shipments are made.

It is proposed that the shipping requirement under the Worcester order be reduced from 50 to 30 percent to conform with the provisions of the Springfield, Connecticut and Southeastern New England markets. Worcester is a small market and the bulk of the receipts are direct receipts from nearby producers. It is not expected that the lower shipping requirement will result in any additional plants being pooled under this order. Nevertheless, should such result obtain, it cannot be considered inappropriate. While it is not intended that shipping requirements be so low as to attract milk primarily associated with manufacturing outlets, too high a shipping requirement may tend to deter an appropriate sharing of market supply, particularly if lower requirements are provided in surrounding Federal orders.

The Boston market is substantially different in structure than the other four markets, in that here the great majority of the milk moves to market through supply plants. Handlers have generally concentrated their manufacturing operations in particular plants, and have maintained other plants primarily as reserve supplies. The multiplicity of ownerships involved and plant associations which have been made under the existing order provisions would be seriously disrupted, and pool supply plants of long standing might be denied pooling status, if the performance requirements were established at the same level provided in the other four markets. Nevertheless, some more stringent requirements are necessary and desirable to deter plants from associating with the Boston pool solely because of the ease of pooling. It is concluded, therefore, that a supply plant under the Boston order should be required to ship 15 per cent of its producer receipts in any month of July through November to hold pooling status in such month. However, provision should be made whereby, in the case of two or more supply plants operated by the same handler, such plants may be considered as a system and after the first month in which the 15 percent shipment from each individual plant therein is met, the performance of the system would then determine qualification of all of the plants therein.

Requirement that the individual plant meet the prescribed shipping percentage in the first month of pooling is necessary to demonstrate such plant's right to association with the pool and is consistent with the present pooling provisions. Since the multiple plant handler has considerable flexibility in his operations he could, if he continues to qualify his plants as a system, also qualify each plant therein individually. Provision for system pooling, however, will serve to minimize uneconomic and unnecessary transportation and/or receiving costs on the part of the handler to assure pooling status for each of his supply plants.

Notwithstanding the privilege of system pooling, it is intended that the actual shipping performance of each individual plant shall determine under which order such plant shall be regulated. Hence, any plant included in a system under the Boston order, which plant makes sufficient shipments to one of the other orders to qualify as a pool plant under such other order, would be regulated under that order in any month when such shipments exceeded its shipments to the Boston market.

Any plant which a handler might later wish to add to his system should be required to meet the 15 percent shipping requirement apart from the remainder of the system in the first month in which it is associated with the market. Such requirement is similar to that placed on other system plants in the pool and serves to establish a bona fide association with the market.

Most of the manufacturing plants in the New England area are now, and will continue to be, associated with the Boston pool. Milk in excess of fluid requirements in the other four markets, by and large, is disposed of through Boston pool plants. Under normal circumstances, for most economical handling such milk is moved to Boston bottling plants, and an equivalent amount of Boston pool milk is held upcountry for manufacture. A plant normally pooled under one of the other four orders might well ship a greater quantity of milk to a Boston distributing plant and, under a rigid rule of regulation in that market to which the greater shipments were made, would necessarily be regulated under the Boston order. This would force onto the Boston pool most of the surplus for the entire New England area. At the same time the utilization in the other markets would be held relatively high. Under such circumstances Boston handlers would likely be unwilling to handle such milk moving from other markets. It is appropriate therefore that the Boston pooling provisions be so drafted that a supply plant meeting the pooling requirements could, nevertheless, hold nonpool status during any of the months of July through November by notification to the market administrator that such plant is to be considered a nonpool plant if such nonpool status would result in full regulation under another of the New England orders and no milk received from such plant by a Boston pool plant were assigned to Class I under the provisions of the Boston order. This procedure will implement the orderly disposition of the reserve supply of the five-market area.

It is neither necessary nor appropriate to require plants which have had a bona fide association with a market during each of the short production months to make shipments during the flush season to retain pooling status. During the months of flush production, supplies of milk received at plants located in or near the marketing area may be sufficient to supply the market's fluid needs. In such case, it would be more economical to leave the more distant milk in the country for manufacturing and utilize the nearby milk for Class I use. It is provided therefore that each of the respective orders shall provide automatic pooling status during the flush production months for any supply plant which met the pooling requirements under such order in each of the short production months. Without specific direction from the operator thereof, any plant which met the applicable pooling requirements under two or more orders in each of the short production months would be pooled during the flush production months under that order under which the greatest proportion of its producer receipts was pooled during the short production months. However, such plant, would have, in fact, established a bona fide association with each of the markets for which it met the pooling requirements. It is deemed appropriate, therefore, that the operator thereof be permitted to choose pooling under any of the orders, for which the plant has qualified, on a month-to-month basis during the flush months by requesting nonpool status in his normal market.

A plant which continuously met the pooling requirements under the several orders in each of the short production months, but not continuously under any one order, should have automatic pooling status under some order during the flush months, since it would have demonstrated amply its association with the regulated markets of New England. Such automatic pooling status appropriately should be available under that order under which the greatest proportion of its producer receipts were pooled during the preceding short production months. Should the operator of such plant not wish to pool his plant in this manner it is desirable that he be permitted to request nonpool status for such plant. In that event the plant would be eligible to pool under one of the other orders by meeting the applicable shipping requirements in such month. Such plant would not have qualified for automatic pooling on the basis of shipments to any single market, and should the operator thereof later elect to return to that market in which he was initially provided automatic pooling status, the plant should appropriately be pooled only if it meets the current shipping requirements.

In any situation where a plant acquires automatic pooling status in a market in which it did not meet the pooling requirements in each of the short production months, but nevertheless met the pooling requirements in another market in each of the preceding short months, the operator thereof should be permitted to elect pooling status in such latter market by proper notification to the respective market administrators. As in the previous situation, the plant should be permitted to return to the market in which it was initially provided automatic pooling only by meeting the current shipping requirements.

Any plant which qualifies for automatic pooling status under one or more of the several orders, but nevertheless elects not to be pooled under any order during any flush production month, should be considered to have forfeited automatic pooling status, and such plant should be permitted to pool in any subsequent month of such period only by meeting the current shipping requirements. It is unlikely that any plant would elect nonpool status in any flush month unless the milk received there was intended for use in an outside Class I market. It would be inappropriate to permit a plant to withdraw from the pool to supply an outside market and to return to automatic pooling status when such outlets were no longer available. It is appropriate, therefore, that any plant withheld from pooling under all of the orders during any flush month shall forfeit its automatic pooling status and be permitted to pool during any remaining months of such period only by meeting the current shipping requirements.

Except as hereinbefore provided, any supply plant which was a nonpool plant under all of the New England Federal orders during any of the months of July through November should not be permitted pool plant status in any of the immediately following months of December through June in which it is operated by the same handler, an affiliate of the handler or any person who controls or is controlled by the handler. It would be inappropriate to permit a plant to hold pooling status under any of these orders during the flush months of production if the milk regularly received there is withdrawn from regulation during the short production months (when such milk would be most needed by the local regulated markets) to supply outside Class I markets.

The pooling provisions of the three older orders condition pooling eligibility on plant licenses and individual producer permits issued pursuant to the Massachusetts General Laws. The pooling provisions herein recommended prescribe performance requirements which plants must meet. Any plant meeting such requirements has sufficiently demonstrated its association with the market and its right to participate in the equalization pool. Hence, it will not be necessary to rely upon health approvals under the recommended amendments.

Each of the orders other than Connecticut now make provision for the pooling of plants within specified locations which are operated by an association of producers. Such provision was adapted in recognition of the fact that only very limited manufacturing facilities were available near these markets, and that much of the burden of handling local milk in excess of fluid needs would likely fall upon the several cooperatives with membership among the nearby producers. Such cooperatives operate surplus handling facilities at plants within each of the respective marketing areas and except in the case of Connecticut, milk received at such plants otherwise would not be eligible for pooling since the plants involved have no route sales and could not under normal circumstances meet the shipping requirements for supply plants.

It is intended that any plant qualifying under this provision should be functioning solely as a balancing and surplus disposal plant. Nevertheless, the orders other than Boston are not specific in this regard, and in the case of Southeastern New England at least one plant qualified under this provision has received no milk from producers and has no processing facilities. It is concluded that, except for Connecticut, the respective orders should be modified to specifically provide pooling status for a receiving plant located in the marketing area and operated by a cooperative association if the quantity of Class I milk disposed of on routes from such plant does not exceed two percent of its total receipts of fluid milk products. The two-percent tolerance is necessary to protect a plant's pooling status in the event of minor route sales through error or accident. Without some tolerance, such accidental disposition would result in forfeiture of pooling status for the milk involved and if this situation occurred in any of the months of July through November, the plant would also be disqualified for pooling in the following months of December through June.

No change is proposed in the Connecticut order since the existing order provisions have accommodated the pooling of the cooperative's surplus manufacturing plant in that market.

One cooperative association with several supply plants presently pooled under the Connecticut order proposed that automatic pooling status be granted to their plant at Great Barrington, Massachusetts, on the grounds that such plant was a balancing plant for the Connecticut market. The plant in question has no manufacturing facilities and virtually all of the milk received there from producers is shipped to plants in the marketing area. There is no basis for distinguishing this plant from any other supply plant associated with the market and it should therefore be pooled only so long as it meets the regular pooling requirements of the order.

3. *Modification of producer-handler definition.* The producer-handler definition in the Boston, Springfield and Worcester orders should be modified more nearly to conform with the present definition in the Southeastern New England order. Small producer-handlers whose own-farm production or route sales of Class I milk (whichever is less) does not exceed an average of 1,000 quarts per day during the month should be permitted to purchase fluid milk products (packaged or bulk) from fully regulated plants under any of the New England Federal orders without restriction. A small tolerance should be provided whereby large producer-handlers can obtain minor quantities of specialty items or balancing supplies without affecting their status as producer-handlers.

The Boston order presently defines a producer-handler as a dairy farmer who operates a plant from which he disposes of Class I milk (from his own farms located within 80 miles of Boston) and who receives no milk from other dairy farmers, except other producer-handlers. The Springfield and Worcester definitions are essentially the same but with no mileage limitation on farm location.

Hence, under the three older orders a dairy farmer operating a processing plant, and who receives no milk from other dairy farmers, is exempted from pooling his own milk regardless of the extent to which he relies upon the pool for balancing supplies. This is a significant advantage to producer-handlers in that it allows them to realize a Class I return on virtually all of their own milk production. This advantage can be translated into unstabilized marketing conditions for all milk in the market. There has been considerable incentive for dairy farmers in close proximity to the market to develop producer-handler type operations.

Typically, a producer-handler conducts a small family-type operation, processing, bottling and distributing only his own farm production. Full regulation of such individuals provides considerable administrative difficulties. Normally, exemption from regulated status is made in a Federal order for such individuals on the grounds that such businesses are so small that they have little or no effect upon the pool. When such operations become substantial and rely upon the pool to carry their supplemental supplies and necessary surplus, the normal basis for exempting their own production from pricing and pooling no longer exists. It is provided therfore that the three older orders be amended to provide (except in the case of an individual whose receipts of milk of his own production, or his Class I milk

disposed of on his own routes, whichever is less, do not exceed 2,150 pounds on a daily average basis during the month) that producer-handler status may be maintained only so long as the individual involved relies only on own farm production as a source of supply. To provide some accommodation for the purchase of speciality items and for protection against unanticipated shortages, a small tolerance should be provided, whereby such a handler can in any month purchase milk, either packaged or bulk, from fully regulated plants under any of the New England Federal orders in an amount not to exceed two percent of the milk handled by him, without affecting his status. A two percent tolerance is presently provided to certain distributing plants to prevent inclusion or exclusion from the pool because of accidental or inadvertent sales in the market. A similar percentage tolerance is appropriate in the purchase of milk by producer-handlers.

Under existing circumstances it is unlikely that a small operator with no more than 2,150 pounds of own farm production or route sales on a daily basis could be a disruptive factor in these markets. Accordingly, it is proposed that such an individual be permitted to make unlimited purchases, either in packaged form or in bulk, from fully regulated plants under any of the New England Federal orders, without affecting his status as a producer-handler. This provision will serve to accommodate the small producer-handler and at the same time facilitate administration of the order.

In order to maintain producer-handler status, it is provided that the maintenance, care and management of the dairy animals and other resources necessary to produce the milk, and the processing, packaging and distribution of the milk shall be the personal enterprise of and the personal risk of the person involved. These standards are intended to distinguish the family-type operation normally involved, and to bring under full regulation operations which attempt to masquerade as producer-handlers in their normal concept through leases, rental arrangements, and other devices designed to circumvent regulation by the order.

Large operations which receive milk from their own farm production, but no milk directly from dairy farmers, and which rely on other plants for substantial supplemental supplies either in bulk or packaged form, are not significantly different from the operations of regular handlers. In addition, such individuals do not assume the risk or cost of providing a full supply. If they are accorded producer-handler status, the pool does not receive the benefits of their Class I sales but acts as a supply balance and carries their necessary surplus. Such operators should not be considered as producer-handlers, but should be accorded status similar to that of any other handler receiving milk directly from farms. If they sell a sufficient proportion of their milk in the marketing area, they would attain pool status and participate in the equalization pool.

The receipt of milk by a handler from a person who is a producer-handler under any of the New England Federal orders should be regarded as a receipt of unregulated milk, since such milk will not be priced or pooled at the producer-handler's plant. Under the proposed amended definition of a producer-handler in the three oldest orders, it no longer would be possible for a person to retain such status if he received unregulated milk from another producer-handler.

The producer-handler definition under the Southeastern New England order appears to have accommodated the situation in that market. Nevertheless, because of the close interrelationship of the Southeastern New England, Boston and Worcester markets it is desirable that identical definition and treatment of producer-handlers be provided under each of these orders. In line with the conclusions previously reached in regard to producer-handlers under the three older orders it is appropriate that the size limitation on small producer-handlers be increased from 500 quarts to 1,000 quarts and such individual should be permitted to receive unlimited quantities of supplemental milk from fully regulated plants under any of the New England orders in either packaged or bulk form, rather than only in packaged form from Southeastern New England pool plants as presently provided. It is also appropriate that large producer-handlers be permitted a total two percent tolerance for purchasing milk from fully regulated plants under any of the New England orders in the same manner proposed for the three older orders. These changes will tend to permit producer-handlers under the Southeastern New England order greater flexibility of operation without significant effect to the pool, and will facilitate the operations of producer-handlers doing business in both the Southeastern New England and Boston (or Worcester) markets. Unless similar treatment is provided it is possible that a person doing business in any of the oldest markets and in the Southeastern New England market might meet the producer-handler definition in such older market but nevertheless be required to pool under the Southeastern order.

No change should be made in the definition or treatment of producer-handlers under the Connecticut order. This matter was carefully considered by the Assistant Secretary in his decision of February 9, 1959 (24 F.R. 1049) and, except for the fact that the gallon jug has since been legalized in Connecticut, there were no additional facts offered which were not previously considered. While it is possible that the institution of the gallon jug may have a substantial impact in the Connecticut market, particularly as it relates to producer-handler type operations, it cannot be concluded on the basis of this record that producer-handlers there should be more strictly regulated at this time.

Producer-handlers in Connecticut proposed that the order provision be liberalized to permit them to buy supplemental milk from each other as well as from pool sources. Such individuals already enjoy a preferential market in that they are not required to equalize their Class I sales through the pool. A producer-handler buying milk from another producer-handler is, in fact, buying from another dairy farmer. This is no different than any other handler buying milk from dairy farmers and hence no different treatment should be provided.

4. *Modification of the exempt milk provisions.* The exempt milk provisions of the Boston, Connecticut, Southeastern New England, Springfield and Worcester orders should be modified to restrict their application to the handling of milk during temporary periods when the plant in which the milk is normally processed and packaged cannot be used because of extraordinary circumstances beyond the plant operator's control. In addition, the exempt milk provision of each of the New England orders should be extended to include certified milk. However, no change should be made in this provision under the Connecticut order as it relates to the handling of milk between State institutions.

The exempt milk provisions, originally designed to accommodate customs of the local New England markets, have been subject to increasing abuse since early 1956. The three oldest orders were amended on May 1, 1957, to restrict to prescribed emergency situations the privilege of a regulated plant to package milk for an unregulated plant as exempt milk. This action was taken after certain handlers had used the exempt milk provision as a mechanism for influencing blended price relationships between regulated markets and for using unregulated milk for out-of-area Class I sales which otherwise would have accrued to the pool.

The three oldest orders now recognize three categories of milk movements under the exempt milk provisions. The first grants exemption to milk received at a regulated plant from a dairy farmer which is packaged and returned to the dairy farmer. The second permits milk to be received at a regulated plant from an unregulated plant for packaging and returned to the unregulated plant during periods when the unregulated plant cannot operate because of extraordinary circumstances beyond the handler's control. The third exemption covers milk received at a regulated plant from an unregulated plant as packaged fluid milk products in return for an equivalent quantity of bulk milk.

The Southeastern New England order recognizes only the latter two categories, as does the Connecticut order. However, the Connecticut order also exempts certain movements between State institutions.

While it is probable that certain regulated handlers have used the exempt milk provisions to meet unregulated competition in the surrounding unregulated areas, milk distributed by regulated handlers as exempt milk has been an important factor contributing to the unstable marketing conditions in the areas hereinbefore proposed to be brought under

regulation. While the privilege was originally granted to give regulated handlers greater flexibility in procuring special packaging, it has generally been used for an entirely different purpose and has resulted in substantial losses of Class I sales to the regulated markets.

It is recognized that damage caused by storm, fire, flood, and the like may render a plant temporarily unusable and a dealer may have to devise an emergency program for handling milk during such situation. While the orders should not deter the handling of milk under such circumstances, they also should not promote practices which lead to loss of Class I sales by the pool. It is concluded, therefore, that the application of the exempt milk provision as it applies to the processing of milk for regulated plants at unregulated plants should be placed on the same basis now applicable to the processing of milk for unregulated plants at regulated plants i.e., only when a plant is rendered nonoperative under extraordinary circumstances entirely beyond the handler's control. However, the provision should not be applicable in case of ordinary plant breakdown or work stoppages involving situations which are clearly the usual risk of any handler. These are readily distinguishable from extraordinary circumstances which are completely beyond the handler's control.

The exempt milk provisions of the three oldest orders, as they apply to the processing and packaging of milk and return thereof to the dairy farmer who produced it, have also tended to weaken the effectiveness of the Federal order program and should be eliminated. Many dairy farmers distributing their own milk have had complete freedom in utilizing the facilities of regulated plants for custom processing and packaging of their own milk which is then distributed both inside and outside the regulated areas in direct competition with regulated milk. Such transactions in earlier years were inconsequential, but in recent years they have clearly illustrated the inequality of this provision. In the past few years, for example, one dairy farmer has developed a chain of 15 dairy stores which are supplied largely by his own milk under the exempt milk provisions. He enjoys a preferential Class I market without carrying the burden of surplus associated therewith. When he needs supplemental milk he purchases it from the processing handler and his excess milk is delivered as pool milk. He thus enjoys a significant cost advantage over other regulated handlers without substantial investment in processing facilities of any kind. In May 1959 there were 62 dairy farmers, of varying size, utilizing the exempt milk provisions in this manner.

A dairy farmer-distributor should not be permitted to maintain a preferential Class I market outside the scope of regulation. The production resources which he maintains are the same as those of any other producer, and he has no additional investment in processing facilities which entitles him to a preferential return over other producers. His milk is received at pool plants in the same manner as that from other producers, and it should be priced and pooled in the same manner and under the same rules as other producer milk is priced and pooled.

The exempt milk provisions of each of the orders should be extended to include milk which is received, processed and disposed of as certified milk.

A proposal for such exemption was made by a handler now operating as a producer-handler who distributes both certified and regular milk. The milk which he disposes of as certified milk is produced on his own farm and processed in his own plant in accordance with requirements promulgated by the American Association of Medical Commissions. His production in excess of his certified milk requirements is supplemented by purchases from other handlers, and this milk is also processed through his plant after his certified milk is processed and is distributed on his own routes along with his certified milk.

Insofar as can be ascertained from the record, there are only two producers of certified milk in the federally regulated markets of New England, both being in the Boston market. The largest producer of such milk, a multiple plant handler, has been required to pool his certified milk operation since the inception of the Boston order. Notwithstanding this fact, certified milk is a very specialized product, the production requirements for which are far more rigid than for other fluid milk. Certified milk sells for a price substantially higher than that for other milk and it is sold under conditions not generally competitive with other milk. The circumstances under which certified milk is produced and marketed are such that an expansion in its production sufficient to be a disturbing factor in the market appears extremely remote. To the contrary, it has over the years become increasingly of lesser importance volumewise.

Since certified milk is clearly not a competitive product and because of its minor importance and high cost of production it is appropriate that milk produced and disposed of as packaged certified milk or packaged certified skim milk be exempted from pricing and pooling. If certified milk is to be considered as exempt milk under the Boston pool, it is equally appropriate that it have freedom of transfer between plants in the Boston market as well as to plants in other New England markets. The assignment provision of the several orders as presently constituted, and as hereinafter proposed to be modified, accommodate such movements. However, if Boston handlers are free to move certified milk into the other markets, it is also equally appropriate that handlers in outside markets, federally regulated or unregulated, be provided the same freedom. It is necessary, to implement this conclusion, that the assignment provision of the several orders be modified to permit receipts of packaged certified milk and skim milk to be deducted from Class I prior to the assignment of producer receipts.

Exemption from pooling and filing reports under the Southeastern New England order was requested for charitable and educational institutions which have own farm production and processing facilities. The proponent of this proposal offered no appropriate standards by which it could be determined what institutes or establishments might properly qualify as "charitable" or "educational", and had no specific knowledge of the number or type of institutions which might be involved. While certain exemptions are provided in the Connecticut order they are specifically applicable only to State owned and operated institutions or establishments. These exemptions would not appropriately cover the institution to which proponent's request was directed.

Since the specific institution in question is now operating in the status of a producer-handler and there was no indication of contemplated change in status, there is no apparent need for further exemption from pooling. Exemption from reporting could not appropriately be granted under any circumstances. The order now provides that each nonpool handler shall make reports at such time and in such manner as the market administrator may prescribe. The market administrator thus has discretion as to the type and extent of reports which proponent and handlers in similar status must make, but under any circumstances must require reports at such time and in such detail as is necessary to satisfy himself of the continuing status of the nonpool handler.

It was also proposed that the Southeastern New England order be amended to provide that any dairy farmer, pool handler, producer-handler, or producer with own farm production who used part of such milk, either raw or processed for his family, employees or livestock be exempted from reporting such milk up to a specified limit. A producer-handler is exempted from pricing and pooling under the present provision of the order and makes only such reports as the market administrator may require to determine his continuing status. In the case of a producer, only that milk which is actually delivered to a pool handler is regulated. Hence, the requested exemption would have no substantive value in the case of either producer-handlers or producers; it would have significance only to pool handlers.

The integrity of the Federal regulation is dependent on the requirement that each handler shall be required to make a full accounting of his receipts and utilization in the class in which the milk is utilized and at the specified prices. Milk disposed of for livestock feed is presently classified and priced in the lowest use classification. Milk which is used by the family or given or sold to employees is no different than any other disposition for fluid consumption and properly should be classified and priced in Class I. Producers should not be expected to take a lesser return for their milk simply because the handler wishes to consume it himself or give it to employees.

5. *Revision of the classification, assignment and accounting provisions.* The classification provisions of the Boston order should be revised to provide that bulk fluid milk products moved from a regulated plant of a pool handler or a

buyer-handler to fully regulated plants under the Connecticut, Southeastern New Engand, or New York-New Jersey orders shall be classified in the class in which assigned in the transferee market.

Under the present order provisions such transfers are Class I up to the total quantity of the same form of fluid milk products so moved which is utilized as Class I milk in the transferee plant. This provision is generally applicable to transfers to any plant not regulated under the Boston order.

The existing transfer provisions were drafted to accommodate a situation when much of the New England area was not under Federal regulation and were necessary because the Boston pool carried the reserve supply for the entire New England area. It was appropriate therefore, that the pool obtain a Class I return on milk supplied to surrounding markets. With the advent of regulation in Connecticut and Southeastern New England, the situation has substantially changed. These markets are expected to generally carry their own reserve supplies and the respective orders for these markets are so constructed that, during the season when supplemental supplies would most likely be needed, for fluid uses, milk obtained from any other Federal order market would be assigned to Class I. The mandatory Class I classification under the Boston order tends to deter movements of Boston milk to the two newer markets because of the possible cost to the transferee handler resulting from incompatible classification as between orders. The Connecticut and Southeastern New England orders defer to Boston in the classification of milk moving to Boston and it is equally appropriate that Boston defer in the case of reverse movements. Occasionally, milk has been moved from Boston pool plants to manufacturing plants in the New York-New Jersey market, which carries its own reserve supplies. Such milk should be classified in Class I only to the extent it is assigned to Class I there. Milk normally does not move beyond New York-New Jersey and is not likely to so move unless required for Class I use. Milk moved to such distant markets should be classified as Class I milk.

No change should be made in the procedure for classification of fluid milk products moved from Boston plants to Springfield and Worcester or to unregulated markets. The Springfield and Worcester markets are small markets and carry only limited reserve supplies. They have historically relied upon the Boston pool for balancing supplies and there is no reason to expect that this situation will change. It is appropriate, therefore, that the Boston pool receive a Class I credit on transfers to these markets. This conclusion is equally applicable in the case of transfers to unregulated markets.

Any fluid milk products which a regulated handler transfers to the plant of a producer-handler should be classified as Class I and should not be subject to reclassification. In view of the fact that producer-handlers are accorded special status as to their own production it is only equitable that when such a handler obtains milk from the pool that it be assigned as Class I use. This is necessary to prevent the producer-handler from assigning his own surplus to the pool.

The classification provisions of the Springfield and Worcester orders also should be amended to provide, in the case of fluid milk products transferred to the Connecticut or Southeastern New England markets, that such transfers be classified in the class in which assigned in the transferee market. This procedure is followed in the case of transfers between the Worcester and Springfield markets and to the Boston or New York-New Jersey markets and it is appropriate to extend its application to movements to the two newer markets.

Packaged fluid milk products moved to any plant obviously are intended for Class I utilization and should be so classified on the basis of such movement.

The assignment provisions of the Boston order should be revised to provide general priority of assignment of producer receipts to Class I. Priority of assignment to Class II utilization should be given to receipts from unregulated sources and then to receipts from other Federal order sources. No change should be made, however, in the present procedure under which receipts of packaged fluid milk products from other Federal order plants and receipts of exempt milk are assigned to Class I.

Under the existing order provisions, receipts of outside milk which include Federal order bulk receipts (with specified exceptions for milk originating in the New York-New Jersey market), are assigned to Class II, regardless of the extent of actual Class II utilization in the receiving plant. Each handler accounts to the pool for the utilization value of his total disposition at the appropriate class prices and is credited at the Class II price for all receipts of outside milk. To the extent that Class I utilization exceeds pool receipts, the handler thus makes a compensatory payment on the volume of such excess Class I utilization regardless of the classification and pricing of such milk in the originating market in the case of receipts from other Federal order markets. While the adjacent New England orders defer to the Boston classification, thus precluding the possibility of a compensatory charge, this would not be true in the case of Federal order receipts from outside the New England and New York-New Jersey areas. While there is no indication that milk has been received at Boston pool plants from Federal order markets outside of New England or the New York-New Jersey area or that such milk, if received, was in fact subject to an improper compensatory charge, nevertheless the possibility does exist and should therefore be eliminated.

Under the existing order provisions, bulk receipts of Order 27 pool milk are assigned to Class I during the months of August through March and in the remaining months such receipts are assigned to Class II, in each case regardless of actual use. Under the revisions herein proposed, no differentiation is made between receipts of Order 27 milk and receipts of other Federal order milk. All other Federal order milk is assigned to the highest available use class in the transferee plant after the assignment of producer milk and receipts from regulated plants.

Where importations of other Federal order milk are needed for Class I use, opportunity should be provided whereby the originating market can retain the Class I value of such milk. Since the advent of regulation in Southeastern New England, substantial volumes of pool milk from that market have moved to Boston regulated plants, which milk has been processed there and distributed as Class I milk in both the Southeastern New England and Boston marketing areas. The Class I utilization value of such milk has in all cases accrued to the Boston pool. In some situations this Southeastern milk was actually needed for Class I use and in other cases the movements were made as the most efficient means of handling milk surplus to the Southeastern New England market. The latter milk displaced Boston producer milk which in turn was held at upcountry points for manufacturing uses.

Southeastern New England interests contend that the present assignment procedure is unfair and that Southeastern New England producers should share in the Class I utilization of any milk moved to Boston plants and utilized in Class I. However, it cannot be concluded that adoption of their views would tend to promote equities as between markets in all situations. It is appropriate in situations where the Boston handler's producer receipts are insufficient to cover his Class I utilization, that other Federal order receipts be credited with the residual Class I sales. Where the movement to Boston plants represents a surplus disposal and the milk involved, in reality, merely displaces available Boston producer receipts, however, the exporting Federal order market has no valid claim to Class I disposition. The modifications in the assignment procedure hereinafter set forth will implement these conclusions.

Situations may arise in which milk is received from several other Federal order markets and the problem becomes one of determining which milk shall be credited with the residual Class I use. In such cases a pro rata assignment provides equitable treatment. However, in cases where the transferee plant has route sales in the originating market, the transfers from such market should take priority of assignment to such residual Class I use up to the equivalent volume of route sales into such market from the transferee plant.

The existing assignment provisions of the Boston order are drafted to minimize the transportation costs borne by the pool. No change was proposed in this regard and no change is herein recommended. While the procedure for the computation of location adjustments has been separated from the assignment provisions, the general procedure for computing each pool handler's obligation for producer milk received is unchanged.

The assignment provisions of the Springfield and Worcester orders should also be revised to provide that bulk receipts from other Federal order plants except Boston shall be assigned to the highest remaining use class after the prior assignment of local pool receipts. Receipts of Boston pool milk should continue to be assigned to Class I for reasons previously stated. While under the existing assignment procedure receipts from Order 27 pool plants are assigned to Class I and receipts from Worcester regulated plants are assigned by agreement, it is appropriate that such receipts be treated in the same manner as receipts from other Federal order markets.

Under the modification of the compensatory payment provision hereinafter proposed, no payment would be applicable to other Federal order milk properly classified and priced in the originating market in accordance with its actual use. Accordingly, unless producer milk is first assigned to the highest use value, there can be no assurance that milk from outside markets would not be used to displace producer milk in Class I whenever it was advantageous to the purchasing handler. If the order permitted handlers to obtain such milk for Class I use when it was advantageous to do so while producer milk was utilized in Class II, the order would not be effective in carrying out the purposes of the Act and the market would be deprived of a dependable supply of milk.

The allocation provisions of the Southeastern New England and Connecticut orders should be revised to better implement the intent expressed in the respective decisions of the Secretary (23 F.R. 8205; 24 F.R. 1049) in providing for the assignment of a specified percentage of producer milk to Class II, prior to the assignment of bulk receipts from other Federal order plants. In addition, provision should be made for the clearing of inventories each month by specific assignment of opening inventory to final disposition in the current month.

The milk from producers who are the regular suppliers of milk for the regulated market should be given priority in the assignment of Class I utilization at pool plants. Milk which is received from other sources should be assigned to the lowest available use classification. Notwithstanding, it must be recognized that during the months of shortest production and greatest demand regulated handlers may find it necessary to procure supplemental supplies from adjacent Federal order markets in order to meet their full Class I needs, even though their total producer receipts equal or exceed their total Class I disposition during the month. This situation could exist as the result of day-to-day variations in receipts and sales. While it is not intended that milk from other markets shall displace local producer milk in Class I, nevertheless if producer milk is not available at the time when needed, local producers cannot expect to receive a Class I credit at such times.

The present allocation procedure was intended to implement the procurement of necessary supplemental milk from other Federal order markets without penalty to the handler procuring such supplies. In addition, the Southeastern New England order also provides for a five percent assignment of producer milk to Class II prior to the assignment of other Federal order receipts in other than the months of shortest production and greatest demand. This procedure was provided in recognition of the fact that many smaller handlers had long standing arrangements with Boston pool handlers for procuring certain specialty items or balancing supplies and similarly, this, as in other months, was intended to permit continuation of these relationships to the extent necessary, without penalty to the local handler.

Notwithstanding the intent of these allocation procedures, they have not fully accomplished the intended result. While specified percentages of producer milk are allocated to Class II in the current month, closing inventories have expanded Class II utilization so that significant quantities of necessary purchases from other Federal order markets, particularly Boston, have been classified in Class II. The procedure for reclassification of opening inventory assigned to Class I in the immediately succeeding month gives priority to producer milk in Class II in the preceding month, including the producer milk specifically assigned to Class II prior to the allocation of other Federal order milk. Accordingly, much of the necessary other Federal order purchases, classified as Class I in the originating market, have nevertheless been assigned to Class II in the transferee market.

Various proposals considered at the hearing would revise the allocation procedures. The intent of all such proposals was freer movement of milk as between markets and greater equities in the classification of other Federal order receipts.

The dissatisfaction with the present provisions stem, in part, from the fact that the three older orders generally provide a mandatory Class I classification on milk moving to either Connecticut or Southeastern New England. The classification of bulk milk moving between the several orders in the class in which assigned in the transferee market, as hereinbefore proposed, will relieve the burden which has resulted from incompatible classification of milk moving between orders. Nevertheless, handlers in other markets may be reluctant to sell milk for other than Class I use and it is therefore desirable that the present procedure of reserving specified percentages of producer milk in Class II prior to the assignment of other Federal order milk be preserved. The intent of this procedure, however, will be implemented, if wherever possible, other Federal order receipts are assigned to Class II only to the extent of remaining Class II use, exclusive of closing inventory. In addition, a similar procedure should be followed in the assignment of opening inventories. These changes will simplify the problem of inventory reclassification adjustments by generally permitting final classification of all other Federal order receipts and opening inventories in the current month.

It must be recognized, however, that under some circumstances purchases from other Federal order plants may be so extensive in relation to producer receipts that some Federal order milk is necessarily assigned to closing inventory. Should such inventory be reclassified in the following month a reclassification charge would be necessary on any such milk not classified and priced as Class I in the originating market.

The revisions hereinbefore proposed in the classification provisions of the several orders would provide that milk moving between the local markets be classified in accordance with its classification in the transferee market. Hence, under normal circumstances any other Federal order milk in opening inventory would have been classified in the originating market in Class II. Theoretically, any reclassification resulting from a Class I assignment of other Federal order milk in opening inventory should be returned as a credit to the originating market. However, administratively this would be a complicated procedure and the amounts involved would not appear to justify such procedure. It is concluded therefore that all inventory reclassification credits should accrue to the local pool.

Where inventories represent only unpriced other source or producer milk receipts in the immediately preceding month, the computation of each handler's obligations for inventory reclassification should provide for the payment of the difference between the previous month's applicable Class II price and the current month's applicable Class I price, at the nearest plant location from which an equivalent amount of Class II milk was received in the previous month. A similar procedure should apply on any other Federal order milk on which a reclassification charge is required.

These changes in the allocation procedure, and in the computation of each pool handler's obligation, will accommodate the intent of the various proposals for amendment of these provisions, and at the same time generally preserve the principle of priority of Class I assignment for local producer milk.

No change should be made in the method of accounting required under the Connecticut and Southeastern New England orders. Each of these orders presently provide that milk and milk products shall be accounted for on a skim milk and butterfat basis and priced in accordance with the form in which or the purpose for which such skim milk and butterfat is used or disposed of as either Class I milk or Class II milk. The reasons therefor were fully set forth in the decisions of the Secretary issued in connection with the promulgation of these two orders and there were no new facts presented not previously considered in reaching these decisions.

The classification provisions of the Connecticut and Southeastern New England orders should be amended to provide a specific Class II classification for skim milk and butterfat in the form of fluid milk products lost under circumstances completely beyond the control of the handler or any employee or agent who might be involved. Such classification should be applicable only in the case of plant or truck damage or destruction by fire, flood or other similar catastrophe

in which the milk involved was physically destroyed and such loss can be substantiated by records satisfactory to the market administrator. Loss in this manner is not presently provided for under these orders and accordingly, except insofar as covered by the shrinkage allowance, presently would be classified in Class I. The handler, under the circumstances, obviously would realize no return on milk so lost except as he might be covered by insurance. Nevertheless, producers should not be involved and must be remunerated for all the milk which the handler has received from them. A Class II value is concluded to be appropriate under these circumstances.

It is not intended that this provision shall be applicable to milk lost through faulty pipe connections, opened or leaking valves, broken hoses, contamination and similar accidents which must be considered normal business hazards. Milk lost in such manner is part of the normal shrinkage experience in any milk operation and such losses are adequately provided for under the shrinkage provisions.

Under the terms of these orders skim milk and butterfat processed into other than fluid milk products is accounted for as a Class II disposition when such products are made. Losses of such products would not affect the classification of the milk if the loss can be substantiated to the satisfaction of the market administrator.

The classification provisions of the Southeastern New England order should be amended to provide a Class II classification for both skim milk and butterfat contained in any fluid milk product dumped if prescribed conditions are met. The present requirement of six hours notice to the market administrator prior to dumping should be deleted and provision should be made for advance notice of intent to dump at the request of and in accordance with instructions of the market administrator. No change should be made in the requirement for filing reports following dumping under this order or under the Connecticut order.

The present provisions of the Southeastern New England order provide for a Class II classification only for skim milk dumped. Under normal circumstances the butterfat content of any fluid milk product is salvageable for use in ice cream and certain other nonfluid products, and it is unlikely that any handler would find it necessary to dump any significant quantity of butterfat. Nevertheless, should such dumping occur it is appropriate that a Class II classification be provided since cream is a Class II product under this order. Verification of actual quantities dumped is very difficult. Therefore, it is appropriate that the market administrator be given opportunity to witness any dumping operation. The present rigid six hours' notice requirement, however, may be excessive in some situations and may be insufficient in other situations. Accordingly, it is concluded that the manner and extent of advance notice should be left to the discretion of the market administrator. No change, however, should be made in the two-day reporting requirement on any dumping not witnessed by the market administrator or his agent. Verification of such dumping necessarily must be largely on the basis of records, and it would be a relatively simple matter for a handler to simulate dumping on the basis of constructed records intended to cover excess shrinkage experience or incomplete accounting. Such procedure would be greatly simplified if dumpage reports were not required until after summary reports were completed. It is therefore appropriate that unwitnessed dumping continue to be reported as it occurs.

No change should be made in the basis of allocating shrinkage under the Connecticut order. The order now provides a maximum allowance of two percent on producer milk and in cases involving transfer of bulk milk between plants one-half percent is alloted to the receiving plant and one and one-half percent to the transferee plant. Handlers proposed that the shrinkage provisions be changed to conform with those of the other New England orders which generally provide a two percent shrinkage allowance on the total milk handled.

Under normal circumstances it would not be expected that milk would pass through more than two plants in its movement from the farm where produced to its ultimate disposition as fluid milk on routes or in nonfluid products. Furthermore, a 2 percent total shrinkage allowance is a reasonable allowance on any particular volume of milk. This was established in the original hearing as indicated by the Secretary in his decision of February 9, 1959 and was reaffirmed on the record of this hearing. It is therefore unnecessary and would be inappropriate to permit a handler a greater percentage shrinkage allowance in Class II. The problem appears to rest in the distribution of this shrinkage allowance as between plants. The alternative would be to limit the shrinkage allowance to the original receiving plant or to permit agreement between handlers on each load of milk transferred as to who would take the shrinkage or how it should be prorated. This latter procedure would create unnecessary administrative problems and would accomplish no more than can be accomplished under the present provision. The allowance of one-half percent of shrinkage to the original receiving plant is concluded to be a reasonable allowance for receiving operations and gives assurance to the operator thereof that he will be able to account for his actual shrinkage experience, within this limit, as Class II milk. It also assures the transferee handler of a reasonable share of the total allowable shrinkage. Notwithstanding, should the parties involved be proprietary handlers and agree that a different proration would be more equitable between them, appropriate adjustments would be made in the price at which such milk is transferred. Should the transferor-handler be a cooperative, however, any such adjustment of the shrinkage allowance would not be permissible if it resulted in a price less than that provided by the order.

No change should be made in the Connecticut order in the classification of fluid milk products sold to bakeries or in the classification of and accounting for nonfat dry milk used to produce concentrated milk, half-and-half and reconstituted or fortified skim milk. It was proposed that sale of fluid milk products to bakeries be Class I rather than Class II and that nonfat dry milk used to produce or fortify such specified products be accounted for on a volume rather than skim milk equivalent basis. The reasons for the present procedure were fully set forth in the Secretary's decision of February 9, 1959 (24 F.R. 1049), and no new facts were presented not previously considered in adapting the present procedures.

No change should be made in the classification of ending inventory of fluid milk products under the Southeastern New England order. Such inventory is presently classified as Class II in the current month. A reclassification charge of the difference between the previous month's Class II price and the current month's Class I price is made on any opening inventory which is assigned to Class I in the current month. This procedure tends to assure equal product cost among handlers for milk disposed of in Class I. Since the Class I price may change substantially on a month-to-month basis, the classification of ending inventory as Class I would provide substantial opportunity for handlers to speculate by either building or depleting inventories from month-to-month for the purpose of gaining a cost advantage and producers would not receive the full use value for their milk.

6. *Class I price revisions.* The Class I price under the Southeastern New England order should be established at the identical level presently provided under the other four New England Federal orders in lieu of the seven-cent higher price presently provided. This present price level was established on the basis that Boston handlers dispose of substantial quantities of milk into the Southeastern area, both directly on routes and by bulk shipments to regulated plants, and the seven-cent differential was intended to reflect the transportation cost of moving milk between Boston and Providence. In addition, since the Southeastern New England market was a deficit market a higher price would encourage the association of additional milk supplies, and thus contribute to a general alignment of blended prices as between markets.

While blended prices have tended to equate, largely through the application of the pool plant, transfer, and classification provisions, the Southeastern pool has lost increasing volumes of Class I sales to the Boston pool. Many areas of the Southeastern market are as favorably located in relation to Boston as to Providence and accordingly the present seven-cent differential is not a true measurement of transportation costs. Multiple plant handlers, with plants in both the Boston and Southeastern pools, have tended to increase their Boston distribution in the Southeastern area because of the price differential. Other handlers have adjusted their business to assure regulation under the Boston rather than under the Southeastern order. Still other handlers have disposed of their local producers in favor of Boston pool purchases; and finally, handlers buying supplemental milk have increased their procurement of Boston pool milk.

The manner in which handlers have adjusted their business since the initiation of regulation in Southeastern New England clearly demonstrates that the higher price in this market has generally operated to the detriment of local producers. Recent shifts and projected shifts in distribution operation of the larger handlers point up the need for an identical Class I price level as between the New England markets. Further, the area extensions hereinbefore recommended will substantially increase the interrelationship of the two markets and unless identical price levels are established, the Southeastern pool will undoubtedly lose substantial Class I sales as fringe area handlers adjust their procurement programs to eliminate the advantage which their Boston competitors now enjoy.

No change should be made in the Class I pricing provision of the Connecticut order relative to packaged fluid milk products sold on routes in the Order 27 marketing area or to the Order 27 pool plants.

One Connecticut handler with route sales into the Order 27 marketing area contended that he operates at a competitive disadvantage with Order 27 handlers wherever the Order 27 Class I price is less than the Connecticut Class I price. He proposed that the possibility of this situation occurring be eliminated by requiring him to account for his Class I sales in the Order 27 area at the applicable Order 27 price.

The classified pricing plan in effect in the Connecticut order, and generally applicable in all orders issued by the Secretary, establishes one level of price for milk which is sold as fluid milk products for fluid consumption and another, lower price, or prices, for the necessary surplus of the market which is disposed of in lower valued manufactured products. It is intended that the price level effective under the Connecticut order shall bring forth an adequate supply to meet the fluid demand of the marketing area, but not necessarily a quantity to fulfill the requirements of outside markets at prices different from the price established for milk sold in the marketing area. Producer milk sold for fluid uses outside the Connecticut marketing area has the same characteristics of bulk and perishability, is produced under identical conditions and costs, and is subject to the same transportation costs of moving from the farm to the handlers' pool plant, as is milk disposed of inside the marketing area. Different health and sanitation requirements in the New York-New Jersey market might result in somewhat different costs of producing milk for this market only, but would have no effect on cost of producing milk sold to Connecticut handlers.

Class prices in the New York-New Jersey market may be either higher or lower than such prices in the Connecticut market. Under usual circumstances the variation in basic price for milk of similar quality and use in the various Federal order markets reflect differences in transportation costs only. These basic prices may be adjusted to reflect differences in seasonality of production and the local supply-demand situation. The New York-New Jersey and New England order Class I prices generally have been maintained at very nearly the same level over the longer term. While the New England prices have been somewhat higher than the Order 27 prices during the past year, this is a temporary situation, largely the result of new regulation in Southeastern New England and Connecticut.

7. *Class II price.* No change should be made in the level of the Class II price under the several orders. The Class II price under each of the orders is presently established by an identical formula and basically at the same level. The Class II location differentials reflect the cost of moving fluid cream from each zone to the market. In addition, the Boston order provides a butter-cheese adjustment applicable to milk disposed of in butter and hard cheeses during the months of April, May, June, and July under specified circumstances when the Class II price is computed on the basis of cream and nonfat dry milk quotations.

It was proposed that Class II price at plants in the marketing area be increased by an amount reflecting the cost of moving nonfat dry milk to the market from the 201–210 mile zone and that the location differentials be increased to reflect such transportation costs. It was also proposed that the Class II price under the Connecticut order be increased by 10 cents during the months of July and August, and that a butter-cheese adjustment be provided in that order to be effective during the flush production months.

As has been previously indicated in this decision, a large proportion of the surplus manufacturing facilities in the New England area are associated with the Boston pool and Boston pool milk not needed for fluid use is held upcountry for manufacture. Much of the surplus in the other markets is moved to Boston bottling plants where it replaces an equivalent amount of Boston pool milk for Class I use, which is in turn held upcountry for manufacturing uses. This procedure tends to minimize transportation charges for moving milk and results in maximum savings to the pools and to producers. The bulk of the Class II disposition in the marketing area represents milk of local producers processed through manufacturing facilities maintained by cooperative associations. In large measure, the milk processed at such plants represents the seasonal surplus and reserve supplies of smaller handlers, and, except for the existence of these facilities, some producers in the nearby areas would be left without a market for their milk.

The basic Class II price is directly related to values for milk utilized in manufactured products which compete in a national market. Cooperative associations operating plants in the marketing area would be placed at a competitive disadvantage with a higher marketing area Class II price, and it is likely that the milk of local producers in excess of Class I needs would be left without a regular market.

A higher marketing area Class II price would apply to only a small fraction of the total milk supply in the New Enland markets, and would not materially affect the cost of Class II milk for multiplant handlers. Handlers operating only country plants would not be affected at all by such increased Class II price. Accordingly, no change should be made in the marketing area Class II price or the Class II location differentials on the basis of this record.

An increase in the Connecticut Class II price during the months of July and August without a corresponding increase in the Class II price in the adjacent Federal order markets would tend to deter the association of milk with the Connecticut pool during these months. The months of July and August are the initial qualifying months for automatic flush season pooling in Connecticut and are proposed herein to be such under each of the New England orders. Under the revised pooling provisions herein recommended, plants could retain pooling status under one of the other New England orders during July and August to benefit from a lower Class II price and still qualify for automatic pooling status under the Connecticut order during the flush months. This procedure would tend to produce greater disparities in producer prices as between markets during July and August to the detriment of producers in adjacent markets. Such a situation would not tend to promote orderly marketing in the area.

Existing manufacturing facilities in the Connecticut market and available in the adjacent Federal order markets are sufficient to handle any prospective market surplus. No consequential volumes of milk have been processed into butter or cheese and it would be inappropriate to encourage such disposition when adequate facilities exist for processing milk into higher valued manufactured products.

8. *Pricing of diverted milk under the Connecticut order.* The Connecticut order should be revised to provide for the pricing of diverted milk at the location of the pool plant from which such milk was diverted. The number of days of diversion permitted should be revised to 8 days during the months of July through September and 12 days during the months of October through March, with unlimited diversion permitted during the months of April through June.

Under the existing order provisions, diverted milk is priced at the location of the plant to which diverted, and producers are paid for such milk on the basis of the same location. Twelve days of diversion are permitted in any of the months of July through November and unlimited diversion is permitted in the months of December through June.

Unlike the other New England orders, which deter handlers from withholding milk from the market during the short

months of production and then receiving it as producer milk during the flush production months when outside Class I markets may not be available, the Connecticut order was drafted so as to facilitate free entry of producers to the market at any time. Liberal diversion provisions were included to assure orderly disposition of milk in excess of fluid needs. It was recognized, however, that under such provisions, handlers might associate with plants in the marketing area milk which was not intended essentially for fluid milk consumption in the market, but rather for the purpose of drawing the marketing area blended price, notwithstanding the fact, that such milk was received on a regular basis at upcountry manufacturing plants. To deter this result, it was provided that diverted milk should be priced at the plant to which the diversion was made.

Producers contend that the present pricing provisions do not provide for equitable returns among all producers and that the varying prices returned to individual producers whose milk may be diverted part of the month creates confusion and dissatisfaction in the production area.

It is concluded that milk which has a bona fide association with the local market, but which is diverted when not needed for fluid uses, should be priced at the plant from which diverted. However, to protect the integrity of regulation more limited diversion privileges are needed to establish more clearly what milk is, in fact, sufficiently associated with the market to justify participation in the pool. During those months of greatest need and lowest production there is little need for diversions except to assure the orderly disposition of weekend and other short-run surplus. Diversions on 8 days (4 days in the case of every-other-day delivery) during the months of July through September and 12 days (6 days in the case of every-other-day delivery) during the months of October through March will accommodate this situation.

The months of April through June are the months of highest production and it is desirable that handlers be permitted liberal diversion privileges to nonpool plants to expedite disposition of the necessary seasonal surplus. These are also the months in which monies are withheld from the producers under the "take-out and pay-back" seasonal incentive plan, and it is unlikely that any substantial additional supplies would associate with the market unless there was a prospective outlet for such milk during the "pay-back" months. Accordingly, it is not necessary to invoke any restriction on diversion privileges during these months.

9. *Compensatory payments.* No change should be made in the application of the compensatory payment provisions under the Southeastern New England and Connecticut orders. The need for and basis of making such payments was clearly established in the respective decisions of the Secretary (23 F.R. 8205; 24 F.R. 1049) in the promulgation of these orders and no evidence was presented at this hearing which was not considered in reaching the conclusions set forth in those decisions.

The compensatory payment provisions of the Boston, Springfield and Worcester orders should be revised to eliminate such payments on receipts from other Federal order markets which were classified and priced as Class I in the originating market. The amount of compensatory payment on unregulated milk used in Class I, in all cases, should be the difference between the applicable Class I and Class II prices at the location of the originating plant. The compensatory payment on unregulated milk from the States of Connecticut, Massachusetts, Rhode Island, and Maine no longer should be computed on a different basis.

The minimum class prices established under each of these orders apply only on producer milk received at plants subject to full regulation under such order. However, milk may be disposed of for Class I utilization by and from plants not subject to full regulation. Such unregulated plants may sell milk in bulk form to fully regulated plants that in turn use it in supplying their Class I outlets or they may sell Class I milk directly on routes in the marketing area, including sales to government installations.

The role of the compulsory classification system and the minimum prices as set forth in a Federal order is to insure that the price competition from reserve and excess milk will not break the market price for Class I milk, thereby destroying the incentive necessary to encourage adequate production. Because the classified pricing plan of an order is applicable only to fully regulated plants, it is necessary, in order to provide continued stability in the market, to remove any advantage an unregulated plant may attain with respect to sales in the regulated market. Such plants have a real financial incentive to find a means to sell excess milk at prices somewhat less than current Class I levels so long as the price is higher than its value when used in manufactured dairy products. If unregulated plant operators were allowed to dispose of their surplus milk for Class I purposes in the regulated market without some compensatory or neutralizing provision in the order, the disposition of such milk, because of its price advantage relative to fully regulated milk, would displace the fully regulated milk in Class I uses in the regulated market. The plan of Congress as contemplated under the Agricultural Marketing Agreement Act of 1937, as amended, of returning minimum prices to the producers for the regulated market, would be defeated.

Provisions for compensatory payments are necessary in each of the respective orders to insure against the displacement of producer milk for the purpose of cost advantage and to thereby preserve the integrity of the classified pricing programs of such orders.

Provision for partial regulation through compensatory payments makes it possible for a handler operating outside the regulated market to use the facilities of fully regulated plants for disposing of surplus milk not needed for his outside market without imposing the financial burden of such surplus on producers of the regulated market. Compensatory payments also make it possible for a handler outside the regulated market to maintain small amounts of regular sales in the regulated market without subjecting his greater outside sales to full regulation.

Requiring such outside handler to be fully regulated would mean that he would be required to account to the pool at the full Class I price for all of the milk sold outside the regulated market which is in competition with milk not subject to regulation. Such a requirement for a dealer with little business within the regulated market could readily induce him to abandon his sales in the regulated market. Permitting a handler to continue to sell milk to customers in the regulated market without any form of price regulation would give such handler a competitive advantage as compared to the handler whose primary business is within the regulated market and who consequently is subject to full regulation.

There are a number of local dealers in the area immediately adjacent to the regulated markets who now have direct distribution in the several regulated markets, some of whom maintain unregulated status under the present orders. The area extensions, hereinbefore recommended, may change the status of some of these handlers. In addition, however, other local handlers, not presently doing business in any of the regulated markets, under the amended orders, will have sales in the regulated markets but will operate in unregulated status. Also, there are a number of substantial dealers in the adjacent unregulated areas, many of whom could readily extend their distribution routes into the regulated markets and by preserving their unregulated status could operate with a substantial price advantage over regulated handlers. The compensatory payment provisions prevent such unregulated milk from having a price advantage over regulated milk.

The compensatory payment applicable to unpriced other source milk disposed of in the regulated markets from distributing plants which do not acquire pool status should be the same as those applicable to other source milk distributed from pool plants. It would not be possible to maintain market stability in the New England regulated markets under the classified pricing programs in effect, and as herein proposed to be amended, if nonpool handlers were allowed to distribute unpriced milk in the marketing area without compensatory payments. Handlers distributing such unpriced milk in the regulated markets have the same opportunities to buy milk at the opportunity cost level as do the operators of pool plants who purchase other source milk. In addition, however, the operator of a nonpool plant would undoubtedly have surplus milk in his own plant which he would willingly dispose of on any basis that would yield a higher return than the surplus value. It would be particularly easy to dispose of such milk for Class I use in the regulated markets by bidding for large contracts such as hospitals, defense establishments and other types of institutions. With surplus outlets as the alternative, and no compensatory payments to make, the nonpool handlers would have considerable incentive or margin to underbid the seller of priced milk for such sales. Providing for some method of compensating for, or neutralizing the effect of, the advantage created by unregulated milk, therefore, is an essential and necessary provision of the order.

The rate of compensatory payment on outside milk should be the difference between the Class I price and the value of milk for manufacturing uses at the zone location of the originating plant. Class I milk under the New England orders is priced at the plant where the milk is received from producers. Hence, the compensatory payment on outside milk which is assigned to Class I milk should be computed at the same stage of marketing process to be directly comparable. No allowances are made under the orders for costs or profits of handlers in moving producer milk in subsequent stages of marketing. Neither should they be made for outside milk.

The Class II price established under the orders is considered a fair and economic measure of the value of milk in manufacturing uses in New England and hence represents an appropriate value for outside milk not sold in a Class I outlet.

No compensatory payment should be applicable on other source milk which has been classified and priced as Class I in the originating Federal order market.

The Secretary has, in fact, determined that the Class I price applicable on such milk at the originating plant was appropriate under similar price criteria, and it is intended that such milk shall be free to move into whatever market it finds an outlet, without further pricing. The Class I prices under Federal orders are established at levels which are intended to bring forth an adequate, but not excessive supply of milk for the regulated market and prices as between markets are generally aligned, reflecting only differences to compensate for transportation costs involved in moving milk between markets and the supply-demand situation in the local market. Normally, the price in any particular market will not be higher than the cost of purchasing alternative supplies. If a price does become misaligned the remedy is not to impose a compensatory payment but rather to adjust the price.

A unique situation exists in the opportunity available to handlers to move skim milk from the New York-New Jersey market (Order No. 27) into the New England markets at considerable cost advantage over skim milk priced under the New England orders. Under the butterfat accounting system used in Order No. 27 it is possible that skim milk received in producer milk under that order may not carry a Class I price. This situation provides an opportunity for handlers in the New England markets to purchase skim milk from Order No. 27 plants at its value for manufacturing purposes for disposition in Class I. This is not a problem of price alignment as previously discussed but a difference in classification. This situation can be dealt with best by the application of a compensatory payment. A compensatory payment is necessary therefore in the case of skim milk, as such, entering the New England markets for Class I use from Order No. 27 pool plants, to remove any cost advantage in the use of such skim milk. Such payment should be at the difference between the Class I price and the Class II price under the respective orders for the zone location of the originating plants.

10. *Take-out pay-back plan.* No change should be made in the seasonal incentive pricing plan presently provided under the Connecticut order. The seasonality of pricing in the Class I pricing formula under the Connecticut order is identical to that under the other New England orders. In addition, the order now provides for a deduction of 15 cents per hundredweight from the amounts otherwise payable to each producer during the months of April, May and June, and one-third of the aggregate amount of such deduction is paid to producers on a hundredweight basis in each of the months of July, August and September. Producers proposed that the amount of the "take-out" be increased to 25 cents while handlers proposed elimination of the plan.

A "take-out and pay-back" plan was operated under the State milk order in the Connecticut market for a number of years and such plan was effective in promoting a more even production pattern in the market. With the advent of Federal regulation in April 1959, the Secretary concluded that such a plan would complement the seasonality of pricing set forth in the pricing formula in encouraging a more even seasonal pattern of production.

The order has not been in effect a sufficient time to appraise the effectiveness of the present pricing mechanism in achieving its intended result. It cannot be concluded therefore that elimination of the take-out-pay-back plan is desirable or necessary. Neither is it apparent that a higher take-out is desirable. The Connecticut price generally has been favorable in relation to the prices paid in adjacent competing markets and the greatest differences have occurred in the pay-back months of July, August and September. The amount by which the Connecticut price has exceeded the price in adjacent markets during these months should be sufficient to attract an adequate milk supply. Therefore, no change should be made in the plan at this time.

11. *Nearby farm location differentials.* No change should be made in the nearby farm location differential provisions in the Connecticut order. The present provisions provide for the deduction from the pool of sufficient funds to return to producers in specified nearby areas 46 and 23 cents, respectively, in excess of the applicable uniform price. The present 46-cent nearby location differential area includes all of the State of Connecticut, that portion of New York State lying east of the Hudson River and south of the New York State Extension of the Massachusetts Turnpike, and that portion of Massachusetts lying south of the Massachusetts Turnpike. The present 23-cent nearby location differential area includes that portion of New York State east of the Hudson River, north of the New York State extension of the Massachusetts Turnpike, and south of the northern boundaries of North Greenbush, Sand Lake and Stephentown townships in Rensselaer County.

Various proposals considered at the hearing would eliminate the nearby location differential, extend the 46-cent area, and extend the 23-cent area.

As stated in the Secretary's decision of February 9, 1959 (24 F.R. 1049), the present provisions were established in recognition of the higher Class I utilization, and higher returns that nearby producers had customarily received over more distant producers. In addition, the use of a nearby differential was expected to implement price alignments with adjacent Federal order markets and thus assure Connecticut handlers of the ability to compete in the purchase of milk on reasonable terms with dealers in adjacent markets.

Notwithstanding the intent of the nearby location differentials nearby producers in the Connecticut market have, in fact, gained only slightly from such differentials. More than 90 percent of the total milk in the pool has been subject to these differentials and accordingly nearby producers in the 46-cent area have paid from 40 to 43 cents to gain 46 cents. Although the Connecticut blend prices have been substantially in excess of the NewYork-New Jersey price in competing areas, this situation would not have been changed appreciably in the absence of a nearby location differential provision. Perhaps a more restricted area might have implemented price alignment to a greater extent in Columbia County, New York. The record of this hearing, however, does not provide an adequate basis for revising the existing areas.

Proponents for extension of the nearby differential area contended that adoption of their proposals would make all the direct delivery milk eligible for the farm location differential and would eliminate price differences presently existing between neighboring farms delivering milk to the same plants. While this would result, it must be recognized that further extensions would merely increase the presently existing price disparities between Connecticut and New York-New Jersey in parts of Columbia and Rensselaer Counties. In addition, the territory of proposed extension is also a Boston supply area. Any increase in the Connecticut price at this point would create further procurement problems for Boston handlers operating here. Therefore that extension of the existing area would not accommodate the situation.

Complete elimination of the nearby farm location differential would improve slightly the price disparities existing in the Dutchess County and Columbia County areas now in the 46-cent area and would not significantly affect returns to producers in Connecticut. It would, however, increase the price to producers in the existing 23-cent area by

about 17 cents and the price to upcountry producers by about 42 cents, where Connecticut prices already exceed prices in competing markets. Hence, elimination of the nearby differential would merely extend the problem of disparate prices as between markets in a common supply area.

On the basis of this hearing record it is concluded, therefore, that no changes should be made in the nearby farm location differential provision of the Connecticut order.

The nearby differential area under the Worcester order should be extended to include the towns of New Ipswich, Greenville, Mason, Brookline, and Hollis, New Hampshire. These towns are presently in the location differential zone under the Boston order. Handlers who would be brought under regulation by the extension of the Worcester order as hereinbefore proposed buy milk from producers in the towns of New Ipswich, Greenville, and Mason. Unless these towns are included, it is likely that these producers will seek an outlet with Boston handlers to take advantage of the higher price paid producers in the nearby area. At least one Worcester producer is located in the town of Hollis and it is likely that additional supplies would be procured from this area if the Boston and Worcester prices were better aligned at this point. Brookline, which lies between Hollis and Mason, should be included in the same differential areas as these two towns.

Extension of the marketing areas as hereinbefore proposed would step-up competition for milk supplies in the immediately adjacent local areas. For competitive reasons it is desirable that producers qualifying for the nearby differential under the Boston order should likewise be in a position to qualify under the Worcester order.

No change should be made in the nearby location differentials presently provided under the Boston, Worcester, Springfield, and Southeastern New England orders. The existing rates have provided appropriate competitive price alignment between the nearby and upcountry areas and among Federal order markets.

12. *Revision of payment dates.* The Greater Boston, Springfield and Worcester orders should be revised to provide for final payment to producers by the 20th day of the succeeding month. No change should be made in dates of payment to producers under the Southeastern New England order. However, the date for making payments to the administrative and marketing service funds should be advanced from the 20th to the 16th day after the end of the month to correspond with the date for making payment to the producer-settlement fund.

The three oldest orders presently require final payment to producers by the 25th day of the succeeding month while the Southeastern New England order requires payment by the 20th day. Bargaining cooperatives with producer members under the three oldest orders proposed advancement of the payment date to the 20th while operating cooperatives generally opposed the proposal. Handlers under the Southeastern New England order proposed moving the payment date provided in that order to the 25th day.

It is desirable that producers be paid as promptly as possible after the end of each pooling period. Under the existing payment schedule of the three oldest orders handlers actually may retain monies due producers for 40 days in the case of deliveries made on the 1st and 16th of the month and a maximum of 25 days in the case of deliveries made on the 15th and the 30th of the month. This appears to be an unreasonably long time to require producers to extend credit to handlers. Since the uniform price is announced on the 12th day of the succeeding month requirement of payment by the 20th should provide adequate time in which to clear the pool, prepare producer payrolls, and issue individual producer checks. This can be accomplished by requiring payments to the pool on the 18th of the month and payments from the pool on the 20th of the month.

Payments to the administrative fund and the marketing service fund should be required on the 18th, when payments are due the producer-settlement fund.

With the advancement of final payment to the 20th, it is appropriate that the advance payment date for milk received during the first fifteen days of the preceding month be advanced to the 5th of the month. The existing provision which waives the advance payment if final payment is made by the 17th should be deleted. All other payment dates are being advanced five days. This date cannot be so advanced because handlers could not be required to make final payment on the day that the blended price is announced.

While handlers who have not previously made payment before the 25th will necessarily have to make adjustments in order to make payments by the 20th, the benefits to producers of earlier payments necessarily outweigh any additional cost to handlers. Some of the large handlers operating in the three markets customarily have paid by the 20th of each month and many Federal orders require final settlement by the 15th day after the end of the month. Requirement of final payment by the 20th is therefore reasonable and appropriate.

No change should be made in the date on which handlers are required to file reports with the market administrator. Sufficient time must be provided for processing individual handler reports preparatory to the announcement of the blended price, clearing of the pool, and payment of producers. No additional time can be provided if this schedule is to be met.

Under each of the five New England orders the date on which the interest charges on overdue accounts accrue should be changed to the day following the clearance date of the producer-settlement fund. The Greater Boston, Springfield and Worcester orders now specify the 11th day of the month following that in which payment is due for the addition of interest charges, while the Southeastern New England and Connecticut orders provide for computing such interst charges from the first day of the following month.

The effect of the interest charges on overdue accounts is to encourage timely payment of obligations. Prompt payment of obligations is important to effect clearance of the producer-settlement fund and to assure that sufficient funds are available to complete payment to creditor handlers.

Certain handlers under the three oldest markets have found that payments to the producer-settlement fund can be delayed under the present orders until the 10th day of the following month without penalty and they consistently delay payments until such date. If all handlers were to avail themselves of this opportunity, the pool would become bankrupt before clearance could be made each month unless a substantially larger cash reserve were to be retained by the market administrator.

When credit is extended it is only good business practice for the creditor to be remunerated with appropriate interest and such interest should begin to accrue promptly when any obligation becomes overdue.

13. *Marketing service provision in the Boston order.* Provision should be made in the Boston order for performing marketing services for producers, such as verifying the weights and tests of producer milk and dissemination of market information. The services should be provided by the market administrator and the cost should be borne by the producers receiving the services. Where a cooperative association is actually performing for its member producers the services which the market administrator would otherwise provide under this provision, such producers who are members of such an association would not be subject to the marketing service deduction.

While a market service provision has not been included in the Boston order in recent years, a similar provision is provided in each of the other New England orders. Necessarily, because of the importance of the Boston market in the New England area, the marketing information disseminated by the respective market administrators of the other New England orders has generally covered the highlights of the Boston market. Such information, compiled and disseminated at the cost of nonmember producers in the adjacent markets, has been generally available to Boston producers on direct request or through the medium of the State Universities, extension agencies, and local newspapers. Accordingly, Boston producers should stand their proportionate share of the cost of such work.

In addition, the States from which Boston draws its milk supply have in the past conducted extensive butterfat testing programs and have supervised adequately the checking of scales at country plants. With the advent of bulk tank handling, however, the situation has changed significantly. The samples for butterfat testing must be taken, and checking weights of producer milk must be done at the farm rather than at the plant in the case of producers with farm tanks. Hence the work previously done at less than a hundred country plants must now be carried out at hundreds of farms which have no cooperative affiliation. The respective States have neither the personnel nor the funds to carry out an adequate check testing and weight verification program. It is desirable, therefore, that funds be available to supplement the State work to the extent necessary.

Provision should be made for a maximum deduction of two cents per hundredweight on receipts of milk from all nonmember producers. This rate of deduction appears reasonable in view of the substantial number of producers involved, and should provide the necessary funds to support an adequate marketing service program. Should experience indicate that such service can be performed at a lesser rate, provision is made whereby the Secretary may adjust the rate downward without the necessity of calling a hearing to consider the matter.

No change should be made in the maximum rate of the marketing service deduction allowable under the Southeastern New England order. This is a maximum rate and provision is made whereby it can be reduced should it be determined that the services can be performed for a lesser rate.

Under usual circumstances the determination of a lesser rate than the maximum prescribed by an order is the responsibility of the Secretary. However, the Southeastern New England, Springfield, and Worcester orders each provide that this determination shall be made by the market administrator. It is desirable that this responsibility be retained by the Secretary since he has the responsibility of determining which cooperatives are qualified associations and which associations actually are performing adequate marketing services. Because of the general overlapping of the supply areas for the New England markets it is desirable that generally compatible marketing services be performed by each market administrator. This can best be accomplished if the decision is left to the Secretary as to the amount of funds necessary.

14. *Administrative assessment.* No change should be made in the maximum rate of the administrative assessment prescribed under the Southeastern New England order. The rate of 5 cents per hundredweight set forth in the order is a maximum rate and provision is made whereby such assessment may be reduced by the Secretary at any time he determines that a lesser amount would provide sufficient funds for the administration of the order. Official notice is taken of the fact that effective December 1, 1959 the rate of assessment was reduced from 5 to 4½ cents per hundredweight. The proposed change to 2 cents per hundredweight would not provide adequate administrative funds.

The administrative assessment should not be extended to cover producer-handlers. The order is intended to exempt producer-handlers except for the filing of reports as required by the market administrator to permit ascertainment of continuing status as producer-handlers. Except for intermittent verification of reports no substantial time or money would be involved in administration of the order as it applies to producer-handlers, and it is therefore neither necessary nor appropriate that they be required to contribute to the administrative assessment fund.

As has been previously indicated, it is intended that the orders shall permit free movement of milk as among regulated markets. In line with this conclusion, it is desirable that there be no administrative assessment on receipts from other Federal order markets. Such milk is subject to administrative assessment in the originating market, and the assessment rate may be more or less than the rate in the transferee market. Since primary responsibility for audit of the originating handler's books and records would rest with the market administrator in the originating market, the local market administrator would incur little expense in connection with such milk. Accordingly, the administrative assessment provisions of each of the New England orders, except Connecticut, should be revised to implement this conclusion.

15. *Miscellaneous.* The handler definitions under the Southeastern New England order should not be revised to include the operator of a plant located in the marketing area from which no fluid milk products are disposed of directly or indirectly in the marketing area.

The existing provision defines a handler as any person who operates a plant from which fluid milk products are disposed of, directly or indirectly, in the marketing area. This definition is sufficiently broad to include any plant operator who could conceivably have any monetary obligation to the pool.

Proponents argued that their proposal would simplify the problem of order administration by requiring a report from any plant located in the marketing area, which plants could conceivably have disposition in the marketing area.

Any plant with marketing area Class I disposition must report under the existing provisions of the order. The proposed change would in no way alter such handler's obligations under the order. It would, however, place an additional burden on certain plants for which reports would serve no useful purpose.

The "dairy farmer for other markets" definition under each of the orders, other than Connecticut, should be modified to exclude a dairy farmer whose milk is delivered to a pool plant during the flush months of December through June but who was not a producer during each of the months of July through November because the plant to which he now delivers was a pool plant under another Federal order.

With the greater flexibility provided for plants to move between pools it is essential that the dairy farmer regularly delivering to a plant retain producer status in the same market in which such plant is currently pooled. Unless this is accomplished dairy farmers who have held producer status on a month-to-month basis throughout the short production months, but not necessarily in the same market, would be denied such status during the flush, notwithstanding the fact that the plant to which they have customarily shipped currently held pool plant status. This result would defeat the purpose of the liberalized pooling requirements since plants would be deterred from shifting from one market to another because of the prospective loss of producer status by their regular shippers during the flush months.

Subparagraph (1) of the "dairy farmer for other markets" definition in the three oldest orders, which deals with the dairy farmer whose milk is purchased by a dealer who does not operate a regulated plant but whose milk is moved to a regulated plant directly from the farm should be revised to exclude an individual who is a producer under another Federal order. The Secretary's decision of March 24, 1959 (24 F.R. 2441) clearly established that it was not intended that this definition should include a dairy farmer who was a producer under another Federal order but whose milk was diverted to a regulated plant. The amendatory language, while implementing this conclusion as it relates to a situation where only one handler is involved, did not cover the situation where the unregulated plant is operated by a different handler. While no situation has thus far arisen involving this sort of transaction, it was propdsed at this hearing that the revision be made to conform with the intent of the aforementioned decision.

The "dairy farmer for other markets" definition under the Southeastern New England order should also be further modified to exclude a dairy farmer who is a producer under another Federal order and whose milk is received at a fully regulated plant as diverted milk.

It is intended that handlers have the privilege of diverting producer milk in bulk under one order to a plant regulated under another order. Under many circumstances this represents the most efficient means of handling bulk tank milk and it is unnecessary to require physical receipt at the transferring handler's plant. Milk so diverted should be treated as an interorder transfer and classified and priced in the class assigned to the transferee market.

The "dairy farmer" definition under the Southeastern New England order should be clarified by changing the reference "bulk" milk to "milk delivered in other than packaged form". The term "bulk" milk, as now generally used refers to milk moved via bulk tank as contrasted to cans. In order that there can be no question of meaning, it is appropriate that the reference to bulk milk be deleted.

With the advent of bulk tank handling the dairy farmer under normal circumstances loses control of his milk when it is transferred at the farm from his farm bulk tank to the handler's pickup tanker. In some instances milk actually picked up by the handler at the farm may be lost through accident enroute to the plant. In such event the milk cannot be received at a plant and the present provision of the order would not require

the handler to account for it. In such situations the handler has, in fact, taken over responsibility for the milk and he should be held responsible for it. This can be accomplished by revising the producer milk definition in the Southeastern New England order to include milk actually picked up at the farm but not delivered to any plant, if milk was received at the handler's pool plant from such dairy farmer during the same month as producer milk.

The producer definition under the Southeastern New England order should be revised to permit diversion to another pool plant of the same handler provided that no location differential is involved.

Diversions are presently permitted to pool plants of other handlers or to the plant of buyer-handlers. At least one handler operates two pool bottling plants in the Southeastern New England marketing area. The present order language would appear to preclude diversions between such plants, whereas, in fact, such procedure could have no detrimental effect on the pool. This would not be true in the case of diversion between plants located in different zones. If such diversions were permitted a handler could associate milk with his marketing area plant and yet regularly receive it at his country plant. The net savings in transportation would more than compensate him for the higher price at which he would be required to account to the pool, and the producers involved would receive returns higher than justified based on the location of the plant of actual receipt, to the detriment of other producers in the market.

No change should be made in the procedure for computing the producer butterfat differential under the Connecticut order. The existing procedure is identical with that prescribed in the other New England orders except for rounding to the nearest full cent. A handler proposal would eliminate the rounding to provide for an identical differential in each of the several orders, while a producer proposal would revise the procedure of computation by elimination of the use of the cream quotation and providing for the use of current New York butter quotations.

As has been previously pointed out, the several New England markets draw from a generally common supply area. A different butterfat differential is a source of confusion to producers who have alternative markets. Ideally, the procedure of computation should be identical, and if simplification of the procedure is desirable, it should be accomplished in all of the orders at the same time. The present procedure has proven satisfactory in the three oldest New England orders over an extended period of time, and no change could be made in these orders or in the Southeastern New England order on the basis of this record.

While rounding to the nearest full cent, as provided under the Connecticut order, does result in a different differential than that used in the adjacent orders, Connecticut producers have been accustomed to payment on this basis and generally opposed change. It is concluded, therefore, that no change should be made on the basis of this record.

Provision should be made in the Connecticut order for written notice of butterfat tests to producers whose milk is purchased on the basis of composite tests, within 7 days of the end of each sampling period. The State laws require that handlers hold their composite samples for ten days after the end of the sampling period. Unless a producer has knowledge of his test before the samples are disposed of, he has no basis for further check even though he believes the test reported to be in error. Handlers now customarily advise producers of their test in the statement which accompanies their checks issued not later than the 22d day after the end of the month. Since ten-day composites are the practice in the market, the samples would have been disposed of before the producer has knowledge of his test. It is appropriate, therefore, that handlers who buy on the basis of composite tests be required to notify producers within 7 days after each test. Such a requirement is not necessary in the case of handlers buying on the basis of daily samples. The testing in such cases is done by the State and producers are notified of their tests by the State.

The area in which there are no plant location differentials under the Connecticut order should not be extended.

A cooperative association which operates a receiving plant at Great Barrington, Massachusetts, proposed that the plant location differential applicable there be eliminated so that no adjustment would apply to the Class I price for the cost of moving milk to the market.

The Connecticut order provides zoning adjustments which recognize the principle that milk similarly used and located should be similarly priced. Milk originating nearest the market should command a higher price than milk located at greater distances. This higher price ordinarily should be based on the difference in cost for moving such milk to the marketing area. The rates presently provided as adjustments for location in the Class I and uniform price are 33 cents per hundredweight for milk received at a plant located outside Connecticut or an adjacent town in Massachusetts and Rhode Island and 50 to 60 miles from Hartford. The Great Barrington plant is located in the 50–60 mile zone from Hartford, and the handler's obligations to the pool and the prices returned to his producers reflects the location differential applicable for this zone.

Although the Great Barrington plant is unique in that it performs in a nearby location a market supply function which is ordinarily performed by more distant plants, there is no valid basis for extension of the no-location-differential zone to include such plant. It performs as a supply plant for the Connecticut market, receiving and assembling milk, and at additional transportation cost moving it to handlers as required. The additional cost of transporting milk received at this plant to its final destination at the distributing plants must be recognized in the Class I and uniform price.

The provisions of the Connecticut order relating to "start" and "stop" notices should be revised to require prompt notices only for those producers whose milk is not directed to or from a handler's plant by a cooperative association.

The Connecticut order presently requires a handler to file with the market administrator a "start" notice on every producer from whom the handler receives milk within 20 days of the first delivery to the plant. A "stop" notice must be filed within 15 days after the fifth consecutive day of no delivery. The Southeastern New England order presently requires notification within five days after a producer first starts delivery and, in the case of cessation of deliveries for five consecutive days, prompt notification to the market administrator is required.

The primary purpose of "start" and "stop" notices is to assist the market administrator and cooperative associations in their marketing service programs. However, in many situations in the Connecticut market, the cooperative association moves its member's milk from plant to plant as needed on a day-to-day basis. In such cases the cooperative is fully aware of where its members' milk is being delivered and notice by the receiving handler serves no useful purpose.

Where the producer negotiates directly with the handler for a market or leaves a handler on his own initiative, his cooperative association may not have knowledge of where his milk is currently delivered. This information can be obtained from the market administrator if the handler is required to give notice thereof. Where the producer is not a member of a cooperative association, his location of current delivery is essential if the market administrator is to perform the marketing service for which such producer is paying. Prompt notice is therefore essential and accordingly the 20-day requirement presently provided in the Connecticut order should be reduced to 5 days to conform with similar requirements in the Southeastern New England order.

Certain of the information presently supplied to the market administrator in the "start" and "stop" notices is needed promptly following the close of each month to facilitate preaudit work in the market administrator's office. It is provided therefore that for those producers whose milk is directed to or from the handler's plant by a cooperative association, the handler shall, in lieu of the present start or stop notice, supply such of the information as the market administrator shall require on or before the 8th day after the end of the month.

The payment provisions of the Southeastern New England order should be revised to delete the present requirement that all deductions must be authorized in writing. However, it should be made clear that the burden for proving that any deduction is authorized shall rest with the handler.

Handlers contend that the present requirement is unreasonable and impractical particularly as it relates to supplies which producers customarily purchase through the handler by way of the trucker. It is concluded that written authorization need not be required to maintain the integrity of regulation. However, the handler must be held responsible to prove to the satisfaction of the market administrator that any deduction made was, in fact, authorized and was properly chargeable to the producer.

The date for adjusting errors in payments under both the Southeastern New England and Connecticut orders should be revised to provide that such adjustments shall be paid on the date for making payments for the month in which notification is given. The orders presently provide that such adjustments are due on the date for making payments for the month following that in which notification is given. It is intended that obligations incurred under the orders shall be paid promptly. There is no reason why adjustment billings issued by the market administrator following verification of a handler's reports, books, records or accounts should not be paid as promptly as the original billings. Under the present Connecticut order language, for example, adjustment payments due producers would not be due for as long as 73 days in the case of billing made on the 1st day of the month. The proposed revision would reduce this time by 30 days.

The Connecticut order should not be amended to provide specifically, in the case of bulk tank milk, that the handler shall be held accountable for the volume of milk which his agent picked up at the farm. Under normal circumstances it is expected that the market administrator would consider that the volume of milk which the handler or his agent picked up at the farm, as indicated on the slips left with the producers was, in fact, delivered to his plant and the burden of proof to the contrary necessarily rests with the handler. Since the producer has full opportunity to read the stick measurement prior to pickup or concurrently with the hauler at the time of pickup, stick readings are the final and only valid measurement of each producer's milk. Milk may, of course, be lost by accident in transit. In such a case the existing order language would not require the handler to account to the pool for such milk since it was not received at a plant. Nevertheless it is likely that the handler would necessarily have to pay the producer the blended market price or have to contend with an unhappy producer. Thus, the existing order language does not present any substantial administrative problem.

Since a very high proportion of the milk received by Connecticut handlers is milk of cooperative association members which is picked up at the farm by haulers contracted for or employed by the cooperative, the situation is somewhat different than in the other New England markets. It would be inappropriate to require the handler to pay for milk on the basis of stick measures for which he had no direct responsibility. While the cooperative takes the position that their driver is, in fact, the agent of the handler it is not clear that this is true. It would be desirable in situations where the cooperative is actually marketing its member milk, picking it up at the farm and delivering it to the handler's plant, that the cooperative be held as the responsible handler. Such position meets neither the approval of the cooperative nor of the proprietary handlers. Since no serious problem appears to have arisen to date, and any dissatisfaction in regard to weights and tests have thus far been satisfactorily adjusted between the cooperative and the handler, it is concluded that no change should be made on the basis of this record. If a change is desired the problem should be given more complete consideration at a future hearing.

Other changes in the order as hereinafter proposed involve elimination of obsolete language or are conforming changes to implement the intent of the proposed order revision hereinbefore discussed.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested persons in the markets. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested persons are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid orders and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreements and the orders as hereby proposed to be amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing areas, and the minimum prices specified in the proposed marketing agreements and the orders as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreements and the orders as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, marketing agreements upon which a hearing has been held.

Recommended marketing agreements and orders amending the orders. The following orders amending the orders regulating the handling of milk in the Greater Boston, Massachusetts; Southeastern New England; Springfield, Massachusetts; Worcester, Massachusetts; and Connecticut marketing areas are recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreements are not included in this decision because the regulatory provisions thereof would be the same as those contained in the orders, as hereby proposed to be amended.

Milk in Greater Boston Marketing Area

DEFINITIONS

§ 904.1 General definitions.

(a) "Act" means Public Act No. 10, 73d Congress, as amended, and re-enacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended.

(b) "Greater Boston, Massachusetts, marketing area", also referred to as the "marketing area", means the territory included within the boundary lines of the following Massachusetts cities and towns:

Andover.	Merrimac.
Arlington.	Methuen.
Ashland.	Milton.
Avon.	Nahant.
Ayer.	Natick.
Bedford.	Needham.
Belmont.	Newton.
Beverly.	North Andover.
Billerica.	North Reading.
Boston.	Norwood.
Braintree.	Peabody.
Brookline.	Quincy.
Burlington.	Randolph.
Cambridge.	Reading.
Canton.	Revere.
Chelmsford.	Salem.
Chelsea.	Saugus.
Cohasset.	Sharon.
Dedham.	Sherborn.
Dover.	Somerville.
Dracut.	Southborough.
Everett.	Stoneham.
Framingham.	Stoughton.
Groveland.	Swampscott.
Haverhill.	Tewksbury.
Hingham.	Tyngsborough.
Holbrook.	Wakefield.
Holliston.	Walpole.
Hopkinton.	Waltham.
Hull.	Watertown.
Lawrence.	Wayland.
Lexington.	Wellesley.
Littleton.	Westford.
Lowell.	West Newbury.
Lynn.	Weston.
Lynnfield.	Westwood.
Malden.	Weymouth.
Marblehead.	Wilmington.
Marlborough.	Winchester.
Medfield.	Winthrop.
Medford.	Woburn.
Melrose.	

(c) "Route" means any delivery to retail or wholesale outlets (including any disposition by a vendor, from a plant store, or to a vending machine) of fluid milk products classified as Class I milk pursuant to § 904.15(a), other than in bulk to a plant or in packaged form to a plant which packages fluid milk products for Class I disposition: *Provided*, That disposition of packaged fluid milk products from a plant which does no packaging of fluid milk products, or disposition from any building or facility other than a plant, shall be considered

as a continuation of the routes of the plant where such fluid milk products are packaged.

(d) "Emergency period" means the period of time for which the market administrator declares that an emergency exists in that the milk supply available to the marketing area from producers is insufficient to meet the demand for Class I milk in the marketing area.

§ 904.2 Definitions of persons.

(a) "Person" means any individual, partnership, corporation, association, or any other business unit;

(b) "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States authorized to exercise the powers and perform the duties of the Secretary of Agriculture;

(c) "Dairy farmer" means any person who produces milk which is moved from his farm to a plant other than as packaged milk;

(d) "Dairy farmer for other markets" means any person described in subparagraphs (1), (2) and (3) of this paragraph:

(1) Any dairy farmer with respect to milk which is purchased from him by a dealer who does not operate a regulated plant during the month and which milk is moved to another dealer's regulated plant directly from the dairy farmer's farm; except that the term shall not apply to any dairy farmer with respect to milk which is considered as a receipt from a producer under the provisions of another Federal order.

(2) Any dairy farmer with respect to milk which is purchased from him by a handler and moved to a regulated plant, if that handler caused milk from the same farm to be moved as nonpool milk to any plant during the same month, except that the term shall not apply to any dairy farmer with respect to milk which is considered as a receipt from a producer under the provisions of another Federal order.

(3) Any dairy farmer whose milk is received by a handler at a regulated plant during any of the months of December through June from a farm from which the handler received nonpool milk during any of the preceding months of July through November, except that the term shall not apply if all such nonpool milk was considered as a receipt from a producer under another New England Federal order or of own production of a producer-handler under any New England Federal order.

(4) As used in this paragraph, the terms "handler" and "dealer" include affiliates of and persons who control or are controlled by the handler or dealer.

(e) "Producer" means any dairy farmer whose milk is moved from his farm to a pool plant, or to any other plant as diverted milk; except that the term shall not include any person who is a producer-handler under this or any other Federal order, a dairy farmer for other markets, nor a dairy farmer with respect to milk which is considered as a receipt from a producer under the provisions of another Federal order.

(f) "Association of producers" means any cooperative marketing association which the Secretary determines to be qualified pursuant to the provisions of the act of Congress of February 18, 1922, known as the "Capper-Volstead Act," and to be engaged in making collective sales or marketing of milk or its products for the producers thereof.

(g) "Dealer" means any person who during the month operates a plant at which he engages in the business of receiving fluid milk products for resale or manufacture into milk products, whether or not he disposes of any fluid milk products in the marketing area.

(h) "Handled" means (1) any person who during the month operates a pool plant or any other plant from which fluid milk products are disposed of, directly or indirectly, in the marketing area or (2) any person in his capacity as a subdealer, vendor, or peddler selling fluid milk products on routes from such plants.

(i) "Pool handler" means any handler who operates a pool plant.

(j) "Producer-handler" means any person meeting the conditions of subparagraph (1) or (2) of this paragraph, who is both a dairy farmer and a handler who processes milk from his own farm production, distributing all or a portion of such milk as Class I milk in the marketing area on routes: *Provided*, That the maintenance, care and management of the dairy herd and other resources and facilities necessary to produce the milk and the processing, packaging and distribution of the milk are the personal enterprise and risk of such person and a greater proportion of fluid milk products are distributed in this marketing area on routes than in any other Federal order marketing area: (1) Whose own farm production or Class I sales, whichever is less, does not exceed 2,150 pounds on a daily average during the month, and whose only source of supply for fluid milk products is milk of his own farm production and fluid milk products from regulated plants under any of the New England Federal orders, or (2) whose only source of supply for fluid milk products is milk of his own farm production and fluid milk products from regulated plants under any of the New England Federal orders in an amount not to exceed two percent of his own farm production.

§ 904.3 Definitions of plants.

(a) "Plant" means the land and buildings, together with their surroundings, facilities and equipment, constituting a single operating unit or establishment which is operated exclusively by one or more persons engaged in the business of handling fluid milk products for resale or manufacture into milk products, and which is used for the handling or processing of milk or milk products: *Provided*, That this definition shall not include any separate building, premises, equipment and facilities used primarily to hold or store packaged fluid milk products in finished form in transit on routes.

(b) "City plant" means any plant which is located not more than 40 miles from the State House in Boston.

(c) "Country plant" means any plant which is located more than 40 miles from the State House in Boston.

(d) "Receiving plant" means any plant at which facilities are maintained and used for washing and sanitizing cans or tank trucks and to which milk is moved from dairy farmers' farms in cans and is there accepted, weighed or measured, sampled, and cooled; or to which milk is moved from dairy farmers' farms in tank trucks and is there transferred to stationary equipment in the building or to other vehicles.

(e) "Pool plant" means any receiving plant which meets the applicable conditions and requirements for pool plant status contained in §§ 904.20 and 904.21, except a pool plant under another Federal order, the plant of a producer-handler under any Federal order, or a plant from which emergency milk is received.

(f) "Distributing plant" means any plant from which fluid milk products processed and packaged at the plant are distributed in the marketing area on routes.

(g) "Regulated plant" means (1) any pool plant, or (2) any other plant (except the plant of a producer-handler under any Federal order) in any month in which at least 50 percent of its total receipts of fluid milk products is disposed of as Class I milk and not less than 10 percent of such receipts is disposed of in the marketing area on routes, unless the market administrator determines that such plant disposes of a greater percentage of its Class I milk in another marketing area on routes.

(h) "Supply plant" means any receiving plant, other than a regulated distributing plant, from which fluid milk products are shipped in bulk to a distributing plant.

(i) "Other Federal order plant" means a pool plant under another Federal order, or any plant which is not a regulated plant under the provisions of this part but at which all fluid milk products handled become subject to the classification and pricing provisions of a Federal milk order.

§ 904.4 Definitions of milk and milk products.

(a) "Milk" means the commodity received from a dairy farmer as cow's milk. The term also includes milk so received which later has its butterfat content adjusted to at least one-half of one percent but less than 10 percent; frozen milk; reconstituted milk; and 50 percent of the quantity by weight of "half and half".

(b) "Fluid milk products" means milk, flavored milk, skim milk, flavored skim milk, cultured skim milk, buttermilk, and concentrated milk, either individually or collectively.

(c) "Packaged fluid milk products" means fluid milk products which have been placed in containers for disposition to retail or wholesale outlets.

(d) "Skim milk" means that fluid product of milk which remains after the removal of cream, and which contains less than one-half of one percent of butterfat.

(e) "Half and half" means any fluid milk product, except concentrated milk, the butterfat content of which has been adjusted to at least 10 percent but less than 16 percent.

(f) "Concentrated milk" means the concentrated, unsterilized milk product, resembling plain condensed milk, which is disposed of to retail or wholesale outlets in fluid form for human consumption.

(g) "Cream" means that portion of milk, containing not less than 16 percent of butterfat, which rises to the surface of milk on standing, or is separated from it by centrifugal force. The term also includes sour cream; frozen cream; milk and cream mixtures containing 16 percent or more of butterfat; and 50 percent of the quantity, by weight, of "half and half".

(h) "Producer milk" means milk which a handler has received as milk from producers. The quantity of milk received by a handler from producers shall include any milk of a producer which was not received at a plant but which the handler or an agent of the handler has accepted, measured, sampled, and transferred from the producer's farm tank into a tank truck during the month, and such milk shall be considered as received at the pool plant at which other milk from the same farm of that producer is received by the handler during the month.

(i) "Outside milk" means:

(1) All receipts of fluid milk products from sources other than producers, regulated plants, and other Federal order plants, but not including receipts of exempt milk or emergency milk.

(2) All other receipts of milk products, whether or not originally derived from producer milk, which are not fluid milk products but are combined with or converted into fluid milk products, and including cream or other such milk products received or produced at the handler's plant during a prior month.

(j) "Exempt milk" means:

(1) Milk received at a regulated plant in bulk from an unregulated plant to be processed and packaged, and for which an equivalent quantity of packaged fluid milk products is returned to the operator of the unregulated plant during the same month, if such receipt of bulk milk and return of packaged fluid milk products occur during an interval in which the facilities of the unregulated plant at which the milk is usually processed and packaged are temporarily unusable because of fire, flood, storm, or similar extraordinary circumstances completely beyond the handler's control; or

(2) Milk produced and processed in accordance with the standards of purity and quality for certified milk established by the American Association of Medical Milk Commissions and disposed of as packaged certified milk or packaged certified skim milk.

(k) "Diverted milk" means milk which a pool handler reports as having been moved from a dairy farmer's farm to one of his pool plants, but which he caused to be moved from that farm to another plant, provided such movement is specifically reported and the conditions of subparagraph (1) or (2) of this paragraph have been met. Diverted milk shall be considered to have been received at the pool plant from which it was diverted:

(1) The handler caused milk from that farm to be moved to such pool plant on a majority of the delivery days, during the 12 months ending with the current month, on which the handler either caused milk to be moved from the farm as producer milk, or caused milk to be moved as producer milk from the farm by tank truck; or

(2) The handler caused the milk to be moved from that farm in a tank truck in which it was intermingled with milk from other farms, the milk from a majority of which farms was diverted from the same pool plant during the month in accordance with the preceding provisions of this paragraph.

(l) "Emergency milk" means fluid milk products received at a regulated plant during an emergency period from a plant which was an unregulated plant in the month immediately preceding the month in which the emergency period became effective.

MARKET ADMINISTRATOR

§ 904.10 Designation of market administrator.

The agency for the administration of this part shall be a market administrator selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 904.11 Powers of market administrator.

The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To make rules and regulations to effectuate its terms and provisions;

(c) To receive, investigate, and report to the Secretary complaints of violations of its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 904.12 Duties of market administrator.

The market administrator, in addition to the duties described in other sections of this part, shall:

(a) Within 45 days following the date upon which he enters upon his duties execute and deliver to the Secretary a bond conditioned upon the faithful performance of his duties, in an amount and with sureties thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to exercise his powers and perform his duties;

(c) Pay out of the funds provided by § 904.72, the cost of his bond, his own compensation, and all other expenses necessarily incurred in the maintenance and functioning of his office;

(d) Keep such books and records as will clearly reflect the transactions provided for in this part and surrender the same to his successor, or to such other person as the Secretary may designate;

(e) Prepare and disseminate for the benefit of producers, consumers, and handlers, statistics and information concerning the operation of this part;

(f) Promptly verify the information contained in the reports submitted by handlers; and

(g) Give each of the producers delivering to a plant, as reported by the handler, prompt written notice of his actual or potential loss of producer status for the first month in which the plant's status has changed or is changing to that of a nonpool plant.

CLASSIFICATION

§ 904.15 Classes of utilization.

All milk and milk products received by a handler shall be classified as Class I milk or Class II milk. Subject to §§ 904.16 and 904.17, the classes of utilization shall be as follows:

(a) Class I milk shall be:

(1) All milk and milk products sold, distributed, or disposed of as or in milk;

(2) All milk and milk products sold, distributed, or disposed of for human consumption as or in flavored milk, skim milk, flavored or cultured skim milk, or buttermilk;

(3) Ninety-eight percent, by weight, of the milk and milk products used to produce concentrated milk; and

(4) All milk and milk products the utilization of which is not established as Class II milk.

(b) Class II milk shall be all milk and milk products the utilization of which is established:

(1) As being sold, distributed, or disposed of other than as specified in subparagraphs (1), (2), and (3) of paragraph (a) of this section; and

(2) As plant shrinkage, not in excess of 2 percent of the volume of fluid milk products and cream handled.

§ 904.16 Classification of fluid milk products moved to other plants

Any fluid milk products moved from a regulated plant to any other plant shall be classified as follows:

(a) As Class I milk if moved as packaged fluid milk products to any other plant;

(b) As Class I milk if moved to the plant of a producer-handler under any Federal order;

(c) In the class to which assigned under §§ 904.25 and 904.26 if moved as bulk fluid milk products to any other handler's regulated plant;

(d) In the class to which assigned under the other order, if moved as bulk fluid milk products to a regulated plant under the Connecticut, Southeastern New England, or New York-New Jersey order;

(e) As Class I milk up to the total quantity of the same form of fluid milk products so moved which is utilized as Class I milk at the transferee plant, if moved as bulk fluid milk products to any plant other than a regulated plant under the Boston, Connecticut, Southeastern New England, or New York-New Jersey order or the plant of a producer-handler under any Federal order; and

(f) As Class I milk if moved as bulk fluid milk products to any plant other than a regulated plant under any New England Federal order or the New York-New Jersey order and thence to another plant located outside the New England States and New York State.

§ 904.17 Responsibility of handlers in establishing the classification of milk.

The burden rests upon the handler who operates a plant to account for any milk and milk products received or available at the plant, and to prove that they should not be classified as Class I milk.

DETERMINATION OF POOL PLANT STATUS

§ 904.20 Basic pooling requirements.

Each receiving plant shall be considered to have met the basic pooling requirements in any month in which it meets the applicable conditions of this section.

(a) It is a distributing plant with total Class I disposition of at least 50 percent of its total receipts of fluid milk products and Class I route disposition in the marketing area of not less than 10 percent of its receipts from dairy farmers, and such route disposition in the marketing area exceeds its Class I route disposition in any other New England Federal marketing area.

(b) It is a plant located in the marketing area which is operated by an association of producers and the Class I route disposition from the plant does not exceed 2 percent of the total receipts of fluid milk products at the plant.

(c) It is a supply plant from which at least 15 percent of its total receipts of milk from dairy farmers is shipped as bulk fluid milk products to regulated distributing plants.

(d) For any month of August through November, it is one of a group of supply plants:

(1) From which the handler ships at least 15 percent of the combined total receipts of milk from dairy farmers as bulk fluid milk products to regulated distributing plants; and

(2) For which he requests continuation of pool plant status which such plants held under his operation in the preceding month.

(e) It is a supply plant which would otherwise fail to qualify as a pool plant under any Federal order and from which at least 15 percent of its total receipts of milk from dairy farmers is shipped as bulk fluid milk products to distributing plants each of which has total Class I disposition of at least 50 percent of its total receipts of fluid milk products and Class I route disposition in the marketing area of not less than 10 percent of such receipts.

§ 904.21 Supplementary pooling provisions for supply plants.

(a) Any supply plant shall have automatic pool plant status in any of the months of December through June, regardless of whether any fluid milk products are shipped to distributing plants during the month, if in each of the preceding months of July through November it was a pool plant or would have been a pool plant had it not been a pool plant under another New England Federal order, unless:

(1) The plant has automatic pool plant status for such month under another New England Federal order and a greater quantity of the receipts from dairy farmers at the plant during the preceding July through November period was pooled under the other order than was pooled under this part;

(2) The plant is designated as a nonpool plant pursuant to paragraph (e) of this section; or

(3) The plant was a nonpool plant under all of the New England Federal orders in a prior month of the current December through June period.

(b) Any supply plant shall have automatic pool plant status in any of the months of December through June, regardless of whether any fluid milk products are shipped to distributing plants during the month, if it was a pool plant under one or another of the New England Federal orders during each of the preceding months of July through November and a greater quantity of its receipts from dairy farmers during the July through November period was pooled under this part than under any other New England Federal order. However, no plant shall have automatic pool plant status under this paragraph for any month of such December through June period subsequent to a month for which the plant is designated as a nonpool plant pursuant to paragraph (e) of this section.

(c) Any supply plant, except a plant which has automatic pool plant status for such month under paragraph (a) or (b) of this section, shall be a nonpool plant in any month in which it meets the conditions and requirements for pool plant status under another New England Federal order and ships a greater quantity of bulk fluid milk products to regulated distributing plants under that order than it ships to regulated distributing plants under this part.

(d) Any supply plant shall be a nonpool plant in each of the months of December through June if it was a nonpool receiving plant under each of the New England Federal orders during any of the preceding months of July through November in which it was operated by the same handler, an affiliate of the handler, or any person who controls or is controlled by the handler, except as it was then operated as a producer-handler's plant under any New England Federal order.

(e) A supply plant shall be a nonpool plant in any of the months of December through June for which the market administrator has received, on or before the 16th day of the month, the handler's written request that the plant be designated as a nonpool plant for that month.

(f) A supply plant shall be a nonpool plant in any of the months of July through November for which the market administrator has received, on or before the 16th day of the month, the handler's written request that the plant be designated as a nonpool plant for that month, if:

(1) All of the fluid milk products received at regulated plants from such plant during the month are assigned to Class II milk pursuant to § 904.26; and

(2) The plant qualifies as a pool plant under the provisions of another New England Federal order in such month.

§ 904.25 Assignment of receipts at regulated plants to Class I milk.

Receipts at regulated plants shall be assigned to Class I milk in the following sequence:

(a) Receipts of exempt milk;

(b) Receipts of emergency milk eligible for assignment to Class I milk pursuant to § 904.27;

(c) Receipts from other Federal order plants of packaged fluid milk products classified and priced as Class I milk under the other Federal order;

(d) Receipts from other handlers' regulated plants of packaged fluid milk products;

(e) Receipts from other handlers' regulated plants of bulk fluid milk products for which classification as Class II milk has not been requested by both handlers;

(f) Receipts from producers;

(g) Receipts from other handlers' regulated plants of bulk fluid milk products not assigned to Class I milk under paragraph (e) of this section;

(h) Receipts from other Federal order plants of bulk fluid milk products subject to classification and pricing as Class I milk under the other Federal order if assigned to Class I milk under this order. If there are receipts from more than one other Federal order market, the remaining Class I milk shall be prorated between the originating markets, except that if the handler has route disposition in an originating market, the receipts from such market shall take priority of assignment to any residual Class I use up to the total quantity of route disposition in such market by the handler;

(i) Receipts from other Federal order plants of fluid milk products not assigned to Class I milk under paragraphs (c) and (h) of this section;

(j) Receipts of outside milk in the form of fluid milk products, in the order of the nearness of the unregulated plants to Boston according to their zone locations; and

(k) All other receipts, or available quantities of fluid milk products, from whatever source derived.

§ 904.26 Assignment of receipts at regulated plants to Class II milk.

Receipts at regulated plants of milk and milk products which are not assigned to Class I milk pursuant to § 904.25 shall be assigned to Class II milk.

§ 904.27 Emergency milk eligible for assignment to Class I milk.

Emergency milk received by a handler whose total use of Class II milk is in excess of 10 percent of the total volume of fluid milk products handled by him shall be assigned to Class II milk to the extent of such excess. For the purpose of this section, the handler's total Class II milk and total volume handled shall be the total of the respective quantities beginning on the first day on which emergency milk is received by the handler during the month and extending through the last such day in the month. If the quantity of emergency milk as to which specific Class II use is established is greater than the quantity otherwise assigned to Class II milk pursuant to this section, such greater quantity shall be assigned to Class II milk. Receipts of emergency milk not assigned to Class II milk shall be assigned to Class I milk.

REPORTS OF HANDLERS

§ 904.30 Pool handlers' reports of receipts and utilization.

On or before the 8th day after the end of each month each pool handler shall, with respect to the fluid milk products received by the handler during the month, report to the market administrator in the detail and form prescribed by the market administrator, as follows:

(a) The receipts of milk at each pool plant from producers, including the quantity, if any, received from his own production;

(b) The receipts of fluid milk products and cream at each plant from any other handler, assigned to classes pursuant to §§ 904.25 to 904.27;

(c) The receipts of outside milk and exempt milk at each plant; and

(d) The respective quantities which were sold, distributed, or used, including sales to other handlers and dealers, classified pursuant to §§ 904.15 to 904.17.

§ 904.31 Reports of nonpool handlers.

Each nonpool handler shall file with the market administrator reports relating to his receipts and utilization of fluid milk products and cream. The reports shall be made at the time and in the manner prescribed by the market administrator, except that any handler who receives outside milk during any month shall file the report on or before the 8th day after the end of the month.

§ 904.32 Reports regarding individual producers.

(a) Within 20 days after a producer moves from one farm to another, starts or resumes deliveries to any of a handler's pool plants, or starts delivering his milk to the handler's plant by tank truck, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the change took place, and the farm and plant locations involved. The report shall also state, if known, the plant to which the producer had been delivering prior to starting or resuming deliveries.

(b) Within 15 days after the 5th consecutive day on which a producer has failed to deliver to any of a handler's pool plants, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the last delivery was made, and the farm and plant locations involved. The report shall also state, if known, the reason for the producer's failure to continue deliveries.

(c) Each handler who is not an association of producers shall, upon request from any such association, promptly furnish it with information with respect to each of its producer members who starts, resumes, or stops deliveries to any of the handler's pool plants. Such information shall include the date on which the change took place, the producer member's post office address and farm location, and, if known, the plant to which he previously delivered, or the reason for his failure to continue deliveries. In lieu of his providing the information directly to the association, the handler may authorize the market administrator to furnish the association with such information, derived from the handler's reports and records.

§ 904.33 Reports of payments to producers.

Each pool handler shall submit to the market administrator, within 10 days after his request made not earlier than 20 days after the end of the month, his producer payroll for such month, which shall show for each producer:

(a) The daily and total pounds of milk delivered with the average butterfat test thereof; and

(b) The net amount of such handler's payments to such producer with the prices, deductions, and charges involved.

§ 904.34 Maintenance of records.

Each handler shall maintain detailed and summary records showing all receipts, movements, and disposition of milk and milk products during the month, and the quantities of milk and milk products on hand at the end of the month.

§ 904.35 Verification of reports.

For the purpose of ascertaining the correctness of any report made to the market administrator as required by this part or for the purpose of obtaining the information required in any such report where it has been requested and has not been furnished, each handler shall permit the market administrator or his agent, during the usual hours of business, to:

(a) Verify the information contained in reports submitted in accordance with this part;

(b) Weigh, sample, and test milk and milk products; and

(c) Make such examination of records, operations, equipment, and facilities as the market administrator deems necessary for the purpose specified in this section.

§ 904.36 Retention of records.

All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c(15)(A) of the Act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. The market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

§ 904.37 Notices to producers.

Each pool handler shall furnish each producer from whom he receives milk with information regarding the daily weight and composite butterfat test of the producer's milk, as follows:

(a) Within 3 days after each day on which he receives milk from the producer, the handler shall give the producer written notice of the daily quantity so received.

(b) Within 7 days after the end of any sampling period for which the composite butterfat test of the producer's milk was determined, the handler shall give the producer written notice of such composite test.

§ 904.38 Outside cream purchases.

Each handler shall report, as requested by the market administrator, his purchases, if any, of bottling quality cream from nonpool handlers, showing the quantity and the source of each such purchase and the cost thereof at Boston.

MINIMUM CLASS PRICES

§ 904.40 Class I price.

The Class I price per hundredweight at plants located in zone 21 shall be the New England basic Class I price per hundredweight determined for each month pursuant to § 904.48.

§ 904.41 Class II price.

The Class II price per hundredweight at plants located in zone 21 shall be determined for each month pursuant to this section.

(a) Subtract 52.5 cents from the weighted average price per 40-quart can of 40 percent bottling quality cream f.o.b. Boston, as reported by the United States Department of Agriculture for the month, divide the remainder by 33, multiply by 0.98, and multiply the result by 3.7.

(b) Multiply by 7.85 the simple average of the prices per pound of roller process and spray process nonfat dry milk for human consumption, in carlots, f.o.b. Chicago area manufacturing plants, as reported by the United States Department of Agriculture for the period from the 26th day of the preceding month through the 25th day of the month during which such milk is delivered.

(c) Add the results obtained in paragraphs (a) and (b) of this section, and from the sum subtract the amount shown below for the applicable month. Subject to paragraph (d) of this section, the result is the Class II price per hundredweight for milk received from producers at plants located in zone 21.

Month:	Amount (cents)
January and February	67
March and April	70
May and June	85
July	79
August and September	73
October, November, and December	67

(d) For each month in which no cream price, as described in paragraph (a) of this section, is reported, and for each month in which the amount determined pursuant to this paragraph is greater than the amount computed pursuant to paragraph (c) of this section, the amount determined pursuant to this paragraph shall be the Class II price per hundredweight of milk received from producers at plants located in zone 21.

(1) Adjust the average price for milk for manufacturing purposes, f.o.b. plants United States, as reported on a preliminary basis by the United States Department of Agriculture for the month, by subtracting for each one-tenth of 1 percent of average butterfat content above 3.7 percent, or adding for each one-tenth of 1 percent of average butterfat content below 3.7 percent, an amount per hundredweight which shall be calculated by the market administrator by multiplying by 0.125 the average of the daily prices, using the midpoint of any range as one price, for Grade A (92-score) butter at wholesale in the New York market as reported for the period between the 16th day of the preceding month and the 15th day, inclusive, of the current month by the United States Department of Agriculture.

(2) Adjust the result obtained in subparagraph (1) of this paragraph by the amount shown below for the applicable month:

Month:	Amount (cents)	Month:	Amount (cents)
January	+13	July	+08
February	+12	August	+17
March	−05	September	+14
April	−09	October	+16
May	−12	November	+17
June	−11	December	+17

§ 904.42 Zone price differentials.

The prices determined pursuant to §§ 904.40, 904.41, and 904.51 shall be subject to zone price differentials based upon the zone location of the plant at which the milk is received from producers.

(a) Each city plant shall be in the "City Plant" zone.

(b) The zone location of each country plant shall be based upon its highway mileage distance to Boston as determined by use of the appropriate State maps contained in Mileage Guide No. 6, and revisions thereof, issued by Household Goods Carriers' Bureau, Agent, Washington, D.C. The distance shall be the lowest highway mileage between Boston and the named point on the map which is nearest to the plant, over roads designated thereon as paved, first-class, all-weather roads. In the event that the named point is not located on a through first-class road, such other roads shall be used to reach a through first-class road as will result in the lowest highway mileage to Boston, except that such other roads shall not be used for a distance of more than 15 miles if it is otherwise possible to connect with a through first-class road. In any instance in which the map does not clearly show the mileage between points on a road, the mileage used shall be the mileage as determined by the highway authority for the State in which the road is located.

(c) The zone price differentials for each plant shall be those applicable to its zone location as shown in the following table:

DIFFERENTIALS FOR DETERMINATION OF ZONE PRICES

A Distance to Boston (miles)	B Zone	C Class I and blended price differentials (cents per hundredweight)	D Class II Price differentials (cents per hundredweight)
Within 40	City plant	+54.0	+5.8
41 to 60	6	+37.0	+3.8
61 to 70	7	+16.8	+3.7
71 to 80	8	+15.6	+3.5
81 to 90	9	+14.4	+3.2
91 to 100	10	+13.2	+3.0
101 to 110	11	+12.0	+2.9
111 to 120	12	+10.8	+2.6
121 to 130	13	+9.6	+2.4
131 to 140	14	+8.4	+2.1
141 to 150	15	+7.2	+1.6
151 to 160	16	+6.0	+1.3
161 to 170	17	+4.8	+1.2
171 to 180	18	+3.6	+0.6
181 to 190	19	+2.4	+0.4
191 to 200	20	+1.2	+0.1
201 to 210	21	(1)	(1)
211 to 220	22	−1.0	−0.6
221 to 230	23	−2.0	−0.7
231 to 240	24	−3.0	−0.9
241 to 250	25	−4.0	−0.9
251 to 260	26	−5.0	−1.2
261 to 270	27	−6.0	−1.3
271 to 280	28	−7.0	−1.5
281 to 290	29	−8.0	−1.6
291 to 300	30	−9.0	−1.8
301 to 310	31	−10.0	−2.3
311 to 320	32	−11.0	−2.4
321 to 330	33	−12.0	−2.5
331 to 340	34	−13.0	−2.8
341 to 350	35	−14.0	−2.8
351 to 360	36	−15.0	−3.0
361 to 370	37	−16.0	−3.1
371 to 380	38	−17.0	−3.3
381 to 390	39	−18.0	−3.4
391 to 400	40	−19.0	−3.5
401 to 410	41	−20.0	−3.5
411 to 420	42	−21.0	−3.5
421 to 430	43	−22.0	−3.5
431 to 440	44	−23.0	−3.5
441 to 450	45	−24.0	−3.5
451 and over	46 and over	(2)	−3.5

[1] No differential.
[2] Class I and blended price differentials applicable to plants located more than 450 miles from Boston shall be obtained by extending the table at the rate of one cent for each additional 10 miles except that in no event shall the Class I or blended price at any zone be less than the Class II price for the month for plants in such zone.

§ 904.43 Determination of zone locations of receipts from producers assigned to Class I milk.

For the purpose of determining the respective quantities of receipts from producers which are subject to the various zone price differentials, each pool handler's receipts from producers assigned to Class I milk pursuant to § 904.25(f) shall be considered to have originated at sources in the sequence and to the extent set forth in this section:

(a) Receipts from producers at the handler's city plant;

(b) Receipts from producers at each of the handler's country pool plants to the extent of the quantity of Class I milk disposed of:

(1) As route disposition in Maine, New Hampshire, and Vermont; and

(2) To unregulated plants from which no fluid milk products were disposed of as Class I milk, either directly or indirectly, outside the States of Maine, New Hampshire, and Vermont.

(c) Remaining receipts from producers at the handler's country pool plants, receipts of bulk fluid milk products from other Federal order plants, and receipts of outside milk in the form of fluid milk products not assigned to Class I milk pursuant to § 904.25(j), all in the order of the nearness of the originating plants to Boston according to their zone locations. The quantity determined for the zone location of any of the handler's country pool plants shall be the lesser of its receipts from producers or its shipments of fluid milk products reduced by its shipments of fluid milk products to plants located in the States of Maine, New Hampshire, Vermont, or New York for which utilization as Class II milk is established. Receipts from each dairy farmer for other markets shall be considered as receipts from the unregulated plant to which he ordinarily delivered.

§ 904.44 Butter and cheese adjustment.

During the months of April, May, June, and July, in which the Class II price is computed pursuant to § 904.41(c), the value of a pool handler's milk computed pursuant to § 904.50 shall be reduced by an amount determined as follows:

(a) Subtract from the price computed pursuant to § 904.41(c), the price computed pursuant to § 904.41(d) and divide by 3.7. The result is the butter and cheese differential.

(b) Determine the pounds of butterfat in Class II milk received from producers which was processed into salted butter, Cheddar cheese, American Cheddar cheese, Colby cheese, washed curd cheese, or part skim Cheddar cheese at a plant of the first handler of such butterfat or at a plant of a second person to which such butterfat was moved.

(c) Subtract such portion of the quantity determined in paragraph (b) of this section as was made into salted butter and disposed of by the handler or such second person in a form other than salted butter.

(d) Multiply the remaining pounds of butterfat determined pursuant to paragraph (c) of this section by the butter and cheese differential determined pursuant to paragraph (a) of this section.

§ 904.45 Use of equivalent factors in formulas.

If for any reason a price, index, or wage rate specified by this part for use in computing class prices and for other purposes is not reported or published in the manner described in this part, the market administrator shall use a price, index, or wage rate determined by the Secretary to be equivalent to or comparable with the factor which is specified.

§ 904.46 Announcement of class prices and differentials.

The market administrator shall make public announcements of class prices and differentials as follows:

(a) He shall announce the Class I price for each month on the 25th day of the preceding month, except that if such 25th day is a Sunday or legal holiday he shall announce the Class I price on the next succeeding work day.

(b) He shall announce the Class II price and the butter and cheese differential on or before the 5th day after the end of each month.

NEW ENGLAND BASIC PRICE FORMULA

§ 904.48 Computation of New England basic Class I price.

The New England basic Class I price per hundredweight of milk containing 3.7 percent butterfat shall be determined for each month pursuant to this section. The latest reported figures available to the market administrator on the 25th day of the preceding month shall be used in making the following computations, except that if the 25th day of the preceding month falls on a Sunday or legal holiday the latest figures available on the next succeeding work day shall be used.

(a) Compute the economic index as follows:

(1) Divide by 1.190 the monthly wholesale price index for all commodities as reported by the Bureau of Labor Statistics, United States Department of Labor, with the years 1947–49 as the base period.

(2) Using the data on per capita personal income, by States and regions, as published by the United States Department of Commerce, establish a "New England adjustment percentage" by computing the current percentage relationship of New England per capita personal income to per capita personal income in continental United States. Multiply by the New England adjustment percentage the quarterly figure showing the current annual rate of per capita disposable personal income in the United States as released by the United States Department of Commerce or the Council of Economic Advisors to the President. Divide the result by 20.50 to determine an index of per capita disposable personal income in New England.

(3) Multiply by 20 the average price per 100 pounds paid by farmers in the New England region for all mixed dairy feed of less than 29 percent protein content as reported by the United States Department of Agriculture for the month and divide the result by .8082 to determine the dairy ration index. Compute the average, weighted by the indicated factors, of the following farm wage rates reported for the New England region by the United States Department of Agriculture: Rate per month with board and room, 1; rate per month with house, 1; rate per week with board and room, 4.33; rate per week without board or room, 4.33; and the rate per day without board or room, 26. Divide the average wage rate so computed by 1.9833 to determine the wage rate index. Multiply the dairy ration index by 0.6 and the wage rate index by 0.4 and combine the two results to determine the grain-labor cost index.

(4) Divide by 7 the sum of three times the wholesale price index, the index of per capita disposable income in New England, and three times the grain-labor cost index determined pursuant to this paragraph. The result shall be known as the economic index.

(b) Compute an economic index price as follows:

(1) Multiply the economic index by $.0567, expressing the result to the nearest mill;

(2) Divide the Class I–A price for the month determined pursuant to Federal Order No. 27 and applicable to the 201–210-mile freight zone for 3.5 percent milk by the product of the utilization adjustment percentage and the seasonal adjustment factor which entered into the computation thereof, and then add $.08, expressing the result to the nearest mill;

(3) The economic index price shall be the price computed in subparagraph (1) of this paragraph, unless the difference between the result computed in subparagraph (1) of this paragraph and the result computed in subparagraph (2) of this paragraph exceeds 11 cents. In that event, the economic index price shall be the price computed pursuant to subparagraph (1) of this paragraph minus the amount of the excess above 11 cents if the result under subparagraph (1) of this paragraph is the greater, and plus the amount of the excess above 11 cents if the result under subparagraph (2) of this paragraph is the greater.

(c) Compute a supply-demand adjustment factor as follows:

(1) Combine into separate monthly totals the receipts from producers for Greater Boston, Connecticut, Southeastern New England, Springfield, and Worcester and the Class I milk from producers for the same markets as announced by the respective market administrators in the statistical reports for such markets for the second and third months preceding the month for which the price is being computed.

(2) Divide the five-market total of Class I producer milk by the five-market total of receipts from producers for each of the two months for which computations were made pursuant to subparagraph (1) of this paragraph.

(3) Divide each of the percentages determined in subparagraph (2) of this paragraph into the following base Class I percentage for the respective month, multiply each result by 100, and compute a simple average of the resulting percentages. The result shall be known as the percentage of base supply.

Month:	Base Class I percentage
January	71.6
February	69.8
March	65.1
April	61.1
May	55.5
June	56.7
July	69.3
August	74.7
September	75.8
October	76.5
November	77.9
December	73.0

(4) The supply-demand adjustment factor shall be the figure in the following table opposite the bracket within which the percentage of base supply falls. When the percentage of base supply falls in an interval between brackets, the supply-demand adjustment factor shall be the figure shown for the next higher bracket if the factor for the previous month was based on a bracket higher than such interval, and shall be the figure for the next lower bracket if the factor for the previous month was based on a bracket lower than such interval.

Percentage of base supply: [1]	Supply-demand adjustment factor
90.5–91.5	1.06
92.0–93.0	1.05
93.5–94.5	1.04
95.0–96.0	1.03
96.5–97.5	1.02
98.0–99.0	1.01
99.5–100.5	1.00
101.0–102.0	.99
102.5–103.5	.98
104.0–105.0	.97
105.5–106.5	.96
107.0–108.0	.95
108.5–109.5	.94

[1] If the percentage of base supply calculated according to subparagraph (4) of this paragraph falls outside the extremes shown in this column, the supply-demand adjustment factor shall be determined by extending the table at the indicated rate of extension.

(d) The seasonal adjustment factor shall be the factor listed below for the month for which the price is being computed.

Month:	Seasonal adjustment factor
January and February	1.04
March	1.00
April	.92
May and June	.98
July	.96
August	1.00
September	1.04
October, November, and December	1.08

(e) Multiply the economic index price determined pursuant to paragraph (b) of this section by the product of the supply-demand adjustment factor determined pursuant to paragraph (c) of this section times the seasonal adjustment factor determined pursuant to paragraph (d) of this section. The New England basic Class I price shall be the price set forth in column 3 of the following table opposite the range within which the result of this computation falls.

Range		New England basic Class I price
At least—	But less than—	
[1] $4.99	$5.00	$4.97
5.00	5.20	5.19
5.20	5.52	5.41
5.52	5.74	5.63
5.74	5.96	5.85
5.96	6.18	6.07
6.18	6.40	6.29
6.40	6.62	6.51
6.62	6.84	6.73
6.84	[1] 7.06	6.95

[1] If the result of the computation specified in this paragraph is less than $4.26 or is $7.05 or more, the New England basic Class I price shall be determined by extending the table at the indicated rate of extension.

(f) Notwithstanding the provisions of the preceding paragraphs of this section, the New England basic Class I price for November or December of each year shall not be lower than such price for the immediately preceding month.

§ 904.50 Computation of value of milk received from producers.

For each month, the market administrator shall compute the value of milk received from producers by each pool handler in the following manner:

(a) Multiply the quantities of milk received from producers assigned to Class I milk pursuant to § 904.25, at zone locations as determined pursuant to § 904.43, by the prices pursuant to §§ 904.40 and 904.42;

(b) Multiply the quantities of milk received from producers at plants in each zone, less the quantities priced in each zone pursuant to paragraph (a) of this section, by the prices pursuant to §§ 904.41 and 904.42;

(c) Add together the resulting value of each class; and

(d) Adjust the value determined in paragraph (c) of this section as provided in § 904.44.

§ 904.51 Computation of the basic blended price.

The market administrator shall compute the basic blended price per hundredweight of milk delivered during each month in the following manner:

(a) Combine into one total the respective values of milk computed pursuant to § 904.50 and the payments required pursuant to § 904.65 for each handler from whom the market administrator has received at his office, prior to the 11th day after the end of such month, the report for such month and the payments required pursuant to §§ 904.61(b) and 904.65 for the preceding month;

(b) Add the amount of unreserved cash on hand at the close of business on the 10th day after the end of the month from payments made to the market administrator by handlers pursuant to §§ 904.61, 904.62, 904.65, and 904.67;

(c) Deduct the amount of the plus differentials, and add the amount of the minus differentials, which are applicable pursuant to § 904.64;

(d) Divide by the total quantity of pool milk for which a value is determined pursuant to paragraph (a) of this section; and

(e) Subtract not less than 4 cents nor more than 5 cents for the purpose of retaining a cash balance in connection with the payments set forth in §§ 904.61 and 904.62. This result, which is the minimum blended price for milk containing 3.7 percent butterfat received from producers at plants located in zone 21, shall be known as the basic blended price.

§ 904.52 Announcement of blended prices.

On the 12th day after the end of each month the market administrator shall mail to all pool handlers and shall publicly announce:

(a) Such of these computations as do not disclose information confidential pursuant to the Act;

(b) The zone blended prices per hundredweight resulting from adjustment of the basic blended price by the differentials pursuant to § 904.64; and

(c) The names of the pool handlers, designating those whose milk is not included in the computations because of failure to make reports or payments pursuant to this part.

PAYMENTS FOR MILK

§ 904.60 Advance payments.

On or before the 5th day after the end of each month, each pool handler shall make payment to producers for the approximate value of milk received during the first 15 days of such month. In no event shall advance payment be at a rate less than the Class II price for such month.

§ 904.61 Final payments.

Each pool handler shall make payment for the total value of milk received during such month as required to be computed pursuant to § 904.50, as follows:

(a) On or before the 20th day after the end of each month, to each producer at not less than the basic blended price per hundredweight, subject to the differentials provided in §§ 904.63 and 904.64, for the quantity of milk delivered by such producer; and

(b) To producers, through the market administrator, by paying to the market administrator on or before the 18th day after the end of each month, or receiving from the market administrator on or before the 20th day after the end of each month, as the case may be, the amount by which the payments at the basic blended price adjusted by the plant and farm location differentials provided in § 904.64 are less than or exceed the value of milk as required to be computed for each such handler pursuant to § 904.50, as shown in a statement rendered by the market administrator on or before the 15th day after the end of such month.

§ 904.62 Adjustments of errors in payments.

(a) Whenever verification by the market administrator of reports or payments of any handler discloses an error in payments made pursuant to §§ 904.61(b) and 904.65, the market administrator shall promptly issue to the handler a charge bill or a credit, as the case may be, for the amount of the error. Adjustment charge bills issued during the period from the 11th day of the prior month through the 10th day of the current month shall be payable by the handler to the market administrator on or before the 18th day of the current month. Adjustment credits issued during such period shall be payable by the market administrator to the handler on or before the 20th day of the current month.

(b) Whenever verification by the market administrator of the payment to any producer for milk delivered to any handler discloses payment to such producer of an amount less than is required by § 904.61(a), the handler shall make up such payment to the producer not later than the time of making final payment for the month in which such error is disclosed.

§ 904.63 Butterfat differential.

Each handler shall, in making payments to each producer for milk received from him, add for each one-tenth of 1 percent of average butterfat content above 3.7 percent, or deduct for each one-tenth of 1 percent of average butterfat content below 3.7 percent, an amount per hundredweight which shall be calculated by the market administrator as follows: Subtract 52.5 cents from the weighted average price per 40-quart can of 40 percent bottling quality cream, f.o.b. Boston, as reported by the United States Department of Agriculture for the period between the 16th day of the preceding month and the 15th day inclusive of the month during which such milk is delivered, and divide the remainder by 330. If the cream price described above is not reported as indicated the butterfat differential shall be determined by multiplying by 1.25 the average of the daily prices, using the midpoint of any range as one price, for Grade A (92-score) butter at wholesale in the New York market as reported for the period between the 16th day of the preceding month and the 15th day, inclusive, of the current month by the United States Department of Agriculture and dividing the result by 10.

§ 904.64 Location differentials.

The payments to be made to producers by handlers pursuant to § 904.61(a) shall be subject to the differential set forth in Column C of the table in § 904.42 and to further differentials as follows:

(a) With respect to milk delivered by a producer whose farm is located more than 40 miles from both the State House in Boston and the City Hall in Lawrence, but not more than 80 miles from the State House in Boston, there shall be added 23 cents per hundredweight, unless such addition gives a result greater than the Class I price pursuant to §§ 904.40 and 904.42 which is effective at the plant to which such milk is delivered, in which event there shall be added an amount which will give as a result such price.

(b) With respect to milk delivered by a producer whose farm is located not more than 40 miles from the State House in Boston or not more than 40 miles from the City Hall in Lawrence, there shall be added 46 cents per hundredweight, unless such addition gives a result greater than the Class I price pursuant to §§ 904.40 and 904.42 which is effective at the plant to which such milk is delivered, in which event there shall be added an amount which will give as a result such price.

§ 904.65 Payments on outside milk and receipts from other Federal order plants.

Within 18 days after the end of each month, handlers shall make payments to producers, through the market administrator, as follows:

(a) Each handler operating a regulated plant at which there are assigned to Class I milk receipts of outside milk, or receipts from other Federal order plants which are not classified and priced as Class I milk under the other Federal order, shall make payment as follows:

(1) On such receipts assigned pursuant to § 904.25 (i) or (j), at the difference between the price pursuant to § 904.40 and the price pursuant to § 904.41 applicable at the zone location of the unregulated plant. Receipts from each dairy farmer for other markets shall be considered as receipts from the unregulated plant to which he ordinarily delivered; and

(2) On quantities assigned pursuant to § 904.25(k) at the difference between the price pursuant to § 904.40 and the price pursuant to § 904.41 applicable at the handler's regulated plant nearest to Boston.

(b) Each handler, except a producer-handler under any Federal order, who operates an unregulated plant with route disposition in the marketing area shall make payment at the difference between the price pursuant to § 904.40 and the price pursuant to § 904.41 applicable at the zone location of the handler's plant on the quantity of such disposition which is in excess of the receipts at the plant of fluid milk products classified and priced as Class I milk under any Federal order, except that the same receipts of priced milk shall not be used to offset route disposition in this marketing area and in any other Federal marketing area.

§ 904.66 Deductions from payments to producers.

(a) In making payments to producers as required by §§ 904.60 and 904.61(a), the burden shall rest upon the handler making deductions from such payments to prove that each deduction is properly authorized, and properly chargeable to the producer.

(b) Each association of producers may file with a handler who is not an association of producers, a claim for authorized deductions from the payments otherwise due to its producer members for milk delivered to such handler. Such claim shall contain a list of the producers for which such deductions apply, an agreement to indemnify the handler in the making of the deductions, and a certification that the association has an unterminated membership contract with each producer listed authorizing the claimed deduction. Such deductions shall be made by the handler in accordance with the association's claim, and shall be paid by the handler to the association on or before the 20th day after the end of each month with an accompanying statement showing the pounds of milk delivered by each producer from whom the deduction was made.

§ 904.67 Adjustment of overdue accounts.

Any balance due, pursuant to §§ 904.61, 904.62, and 904.65, to or from the market administrator on the 20th day of any month, for which remittance has not been received in, or paid from, his office by the close of business on that day, shall be increased one-half of 1 percent effective the 21st day of such month: *Provided*, That any remittance received by the market administrator after the 20th day of any month in an envelope which is postmarked not later than the 18th day of such month, shall be considered under this section to have been received by the 20th of the month.

§ 904.68 Statements to producers.

In making the payments to producers prescribed by § 904.61(a), each pool handler shall furnish each producer with a supporting statement, in such form that it may be retained by the producer, which shall show:

(a) The month and the identity of the handler and of the producer;

(b) The total pounds and average butterfat test of milk delivered by the producer;

(c) The minimum rate or rates at which payment to the producer is required under the provisions of § 904.61 (a);

(d) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(e) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deductions claimed under §§ 904.66 and 904.70 together with a description of the respective deductions; and

(f) The net amount of payment to the producer.

MARKETING SERVICES

§ 904.70 Marketing service deductions.

In making payments to producers pursuant to § 904.61(a), each handler with respect to all milk received from each producer except himself and except any producer who is a member of an association of producers which the Secretary determines is performing the services set forth in this section, shall deduct 2 cents per hundredweight, or such lesser amount as the Secretary shall determine to be sufficient, and shall, on or before the 18th day after the end of each month, pay such deductions to the market administrator. Such moneys shall be expended by the market administrator only in providing for market information to, and for verification of weights, samples, and tests of milk delivered by, such producers. The market administrator may contract with an association or associations of producers for the furnishing of the whole or any part of such services to, or with respect to the milk delivered by, such producers.

ADMINISTRATION EXPENSE

§ 904.72 Payments of administration expense.

Within 18 days after the end of each month, each handler shall make payment to the market administrator of his pro rata share of the expense of administration of this part. The payment shall be at the rate of 3 cents per hundredweight, or such lesser rate as the Secretary may from time to time prescribe, and shall apply to all of the handler's receipts, during the month, of milk from producers, of outside milk, and of exempt milk processed at a regulated plant.

OBLIGATIONS

§ 904.73 Termination of obligations.

The provisions of this section shall apply to any obligation under this order for the payment of money irrespective of when such obligation arose.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month, during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the act, a petition claiming such money.

MISCELLANEOUS PROVISIONS

§ 904.80 Effective time.

The provisions of this part, or any amendments to its provisions, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 904.81.

§ 904.81 Suspension or termination.

The Secretary may suspend or terminate this part or any provision thereof whenever he finds that it obstructs or does not tend to effectuate the declared policy of the act. This part shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

§ 904.82 Continuing obligations.

If, upon the suspension or termination of any or all provisions of this part, there are any obligations arising under it, the final accrual or ascertainment of which requires further acts by any person, such further acts shall be performed notwithstanding such suspension or termination.

§ 904.83 Liquidation after suspension or termination.

Upon the suspension or termination of any or all provisions of this part the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this part, over and above the amount necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 904.84 Agents.

The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

Milk in Southeastern New England Area

1. Delete paragraph (b) of § 990.1 and substitute therefor the following:

(b) "Southeastern New England marketing area", hereinafter referred to as the "marketing area", means all of the territory included within the boundary lines of the State of Rhode Island (excluding Block Island), the Massachusetts counties of Barnstable, Bristol, Dukes County and Plymouth (excluding the towns of Hingham and Hull); the towns of Bellingham, Foxborough, Franklin, Medway, Millis, Norfolk, Plainville, and Wrentham in Norfolk County, and the towns of Blackstone, Hopedale, Mendon, Milford, and Millville in Worcester County, together with all piers, docks and wharves connected therewith and craft moored thereat and including all territory within such boundaries occupied by Government (municipal, state and Federal) installations, institutions; and other establishments.

2. Delete paragraph (c) of § 990.1 and substitute therefor the following:

(c) "Route" means any delivery to retail or wholesale outlets (including any disposition by a vendor, from a plant store, or to a vending machine) of fluid milk products classified as Class I milk pursuant to § 990.21(a), other than in bulk to a plant or in packaged form to a plant which packages fluid milk products for Class I disposition: *Provided*, That disposition of packaged fluid milk products from a plant which does no packaging of fluid milk products, or disposition from any building or facility other than a plant, shall be considered as a continuation of the route(s) of the plant where such fluid milk products are packaged.

3. Delete paragraph (c) of § 990.2 and substitute therefor the following:

(c) "Dairy farmer" means any person who produces milk which is moved from his farm to a plant other than as packaged milk.

4. Delete paragraph (d) of § 990.2 and substitute therefor the following:

(d) "Dairy farmer for other markets" means any person described in subparagraphs (1), (2), and (3) of this paragraph:

(1) Any dairy farmer with respect to milk which is purchased from him by a dealer who does not operate a regulated plant during the month and which milk is moved to another handler's regulated plant directly from the dairy farmer's farm, except that the term shall not apply to any dairy farmer with respect to milk which is considered as a receipt from a producer under the provisions of another Federal order;

(2) Any dairy farmer with respect to milk which is purchased from him by a handler and moved to a regulated plant if that handler caused milk from the same farm to be moved as nonpool milk to any plant during the same month, except that the term shall not apply to any dairy farmer with respect to milk which is considered as a receipt from a producer under the provisions of another Federal order;

(3) Any dairy farmer whose milk is received by a handler at a regulated plant during any of the months of December through June from a farm from which the handler received nonpool milk during any of the preceding months of July through November, except that the term shall not apply if all such nonpool milk was considered as a receipt from a producer under another New England Federal order or of own production of a producer-handler under any New England Federal order;

(4) As used in this paragraph, the terms "handler" and "dealer" include affiliates of, and persons who control or are controlled by, the handler or dealer.

5. Delete paragraph (e) of § 990.2 and substitute therefor the following:

(e) "Producer" means any dairy farmer (except a dairy farmer for other markets, any person holding producer-handler status under any Federal order or a dairy farmer who is a producer under another Federal order with respect to milk diverted from a plant subject to such other order) whose milk is delivered from his farm to a pool plant or is diverted in accordance with subparagraphs (1) through (5) of this paragraph if the handler, in filing his monthly report pursuant to § 990.30 reports the milk as receipts from a producer at such pool plant: *Provided*, That any dairy farmer whose milk is diverted on more than the number of days specified shall not be considered to qualify under this paragraph with respect to any of his deliveries of milk during such month:

(1) To the regulated plant of another handler;

(2) To a regulated plant of the same handler in the same plant zone;

(3) To an unregulated plant during any month of July through September on not more than 8 days (4 days in the case of every-other-day delivery) during such month;

(4) To an unregulated plant during any month of October through March on not more than 12 days (6 days in the case of every-other-day delivery) during such month; or

(5) To an unregulated plant during any month of April through June.

6. Delete paragraph (g) of § 990.2 and substitute therefor the following:

(g) "Handler" means (1) any person who during the month operates a pool plant or any other plant from which fluid milk products are disposed of, directly or indirectly, in the marketing area, or (2) any person in his capacity as a subdealer, vendor, or peddler selling fluid milk products on routes from such plants.

7. Delete paragraph (i) of § 990.2 and substitute therefor the following:

(i) "Producer-handler" means any person meeting the conditions of subparagraph (1) or (2) of this paragraph, who is both a dairy farmer and a handler who processes milk from his own farm production, distributing all or a portion of such milk as Class I milk in the marketing area on routes: *Provided*, That the maintenance, care, and management of the dairy herd and other resources and facilities necessary to produce the milk and the processing, packaging and distribution of the milk are the personal enterprise and risk of such person and a

greater proportion of fluid milk products are distributed in this marketing area on routes than in any other Federal order marketing area: (1) Whose own farm production or Class I sales, whichever is less, does not exceed 2,150 pounds on a daily average during the month, and whose only source of supply for fluid milk products is milk of his own farm production and fluid milk products from regulated plants under any of the New England Federal orders, or (2) whose only source of supply for fluid milk products is milk of his own farm production and fluid milk products from regulated plants under any of the New England Federal orders in an amount not to exceed two percent of own farm production.

8. Delete paragraphs (j) and (k) of § 990.2 and substitute therefor a new paragraph (j) as follows:

(j) "Dealer" means any person who during the month operates a plant at which he engages in the business of receiving fluid milk products for resale or manufacture into milk products, whether or not he disposes of any fluid milk products in the marketing area.

9. Delete paragraph (a) of § 990.3 and substitute therefor the following:

(a) "Plant" means the land and buildings, together with their surroundings, facilities and equipment, constituting a single operating unit or establishment which is operated exclusively by one or more persons engaged in the business of handling fluid milk products for resale or manufacture into milk products, and which is used for the handling or processing of milk or milk products: *Provided*, That this definition shall not include any separate building, premises, equipment or facilities used primarily to hold or store packaged fluid milk products in transit on routes.

10. Delete paragraph (b) of § 990.3 and substitute therefor the following:

(b) "Receiving plant" means any plant at which facilities are maintained and used for washing and sanitizing cans or tank trucks and to which milk is moved from dairy farmers' farms in cans and is there accepted, weighed or measured, sampled, and cooled; or to which milk is moved from dairy farmers' farms in tank trucks and is there transferred to stationary equipment in the building or to other vehicles.

11. Delete paragraph (c) of § 990.3 and substitute therefor the following:

(c) "Pool plant" means:

(1) Any receiving plant (except the plant of a producer-handler under any Federal order) from which at least 10 percent of its total receipts of milk directly from dairy farmers is disposed of during the month within the marketing area on routes and not less than 50 percent of its total receipts of fluid milk products is disposed of during the month as Class I milk, unless the market administrator determines that such plant disposed of a greater proportion of its Class I milk in another Federal order marketing area on routes than was so disposed of in this marketing area.

(2) Any receiving plant located in the marketing area and operated by an association of producers in any month in which the quantity of Class I milk disposed of on routes from such plant does not exceed two percent of its total receipts of fluid milk products, or

(3) Except as provided in subdivisions (i) to (iv) of this subparagraph any receiving plant from which not less than 30 percent of its receipts of milk directly from dairy farmers is shipped during the month as fluid milk products to a pool plant qualified pursuant to subparagraph (1) of this paragraph or to a regulated plant other than a pool plant.

(i) During any of the months of July through November any plant qualified as a pool plant pursuant to this subparagraph and also meeting the shipping requirements for pooling under another Federal order shall be exempt from the provisions of this part (except as provided in §§ 990.30(b), 990.31(a) and (e), 990.32 and 990.33, if the market administrator determines that a greater proportion of fluid milk products was shipped during such month to regulated plants under such other order, unless such greater shipments were made to Boston regulated plants and the plant operator elects nonpool status under the Boston order during such month,

(ii) Any plant which was a pool plant pursuant to this subparagraph in each of the months of July through November or which held pooling status under one or another of the New England Federal orders in each month of such period but had the greater proportion of its producer receipts pooled under this part during such period shall be a pool plant in the immediately succeeding months of December through June, unless the operator thereof gives written notice to the market administrator on or before the 16th day of any such month that the plant is a nonpool plant for such month: *Provided*, That any such plant which was a nonpool plant in any of the months of July through November and for which nonpool status is requested for any month of December through June or any plant which was a pool plant in each of such months of July through November but which is operated as a nonpool plant under all of the New England Federal orders in any of the months of December through June shall be a pool plant in any subsequent month of such period only if it meets the shipping requirements pursuant to this subparagraph.

(iii) Any plant which was not a pool plant under this part during each of the months of July through November but which met the pooling requirements pursuant to this subparagraph in each of such months shall be a pool plant in any of the months of December through June, if written request for pooling status is made to the market administrator on or before the 16th day of such month and such plant is not a pool plant under another Federal order in such month, except that if such plant was a nonpool plant under all of the New England orders in any of the months of December through June, it shall be a pool plant in any subsequent months of such period only if it meets the shipping requirements pursuant to this subparagraph.

(iv) Any plant which was a nonpool plant under all of the New England orders during any of the months of July through November shall not be a pool plant in any of the months of December through June in which it is operated by the same handler, an affiliate or any person who controls or is controlled by the handler, except as it was then operated as a producer-handler plant.

12. Add a new paragraph (d) at the end of § 990.3 to read as follows:

(d) "Regulated plant" means (1) any pool plant, or (2) any other plant (except the plant of a producer-handler under any Federal order) in any month in which at least 50 percent of its total receipts of fluid milk products is disposed of as Class I milk and not less than 10 percent of such receipts is disposed of in the marketing area on routes, unless the market administrator determines that such plant disposes of a greater proportion of its Class I milk in another marketing area on routes.

13. Delete from paragraph (a) of § 990.4 the phrase "at a plant".

14. Delete paragraph (f) of § 990.4 and substitute therefor the following:

(f) "Producer milk" means only skim milk and butterfat contained in milk (1) received at a pool plant directly from producers, or (2) diverted from a pool plant in accordance with the conditions set forth in § 990.2(e): *Provided*, That in instances where it can be established to the satisfaction of the market administrator that milk was transferred, by a handler or his agent, from the producer's farm tank into a tank truck during the month, and such milk was not delivered to any plant because of loss or destruction by accident or faulty equipment en route to the plant, such milk shall be accounted for as a receipt of producer milk at the pool plant of the handler where milk from the same farm was received as producer milk during the month.

15. Delete the language of § 990.4(g) following the semicolon at the end of subparagraph (1) and substitute therefor the following:

(2) Received at a pool plant in the form of packaged fluid milk products from a nonpool plant in return for which an equivalent quantity of skim milk and butterfat in the form of bulk milk is moved from a pool plant for processing and packaging during the same month, if such receipt and return occurs during an interval in which the facilities of the pool plant at which the milk is usually processed and packaged are temporarily unusable because of fire, flood, storm, or similar extraordinary circumstances completely beyond the dealer's control; or

(3) In milk produced and processed in accordance with the standards of purity and quality for certified milk established by the American Association of Medical Milk Commissions and disposed of as packaged certified milk or packaged certified skim milk.

16. Add a new paragraph (i) at the end of § 990.4 to read as follows:

(l) "Packaged fluid milk products" means fluid milk products which have been placed in containers for disposition to retail or wholesale outlets.

17. Delete subparagraph (3) of § 990.21 (b) and substitute therefor the following:

(3) Contained in fluid milk products dumped if the conditions of § 990.31(e) are met by the handler;

18. Delete the word "and" and immediately preceding subparagraph (5) of § 990.21(b) and add a new subparagraph (6) immediately after subparagraph (5) of § 990.21(b) as follows: "and (6) contained in fluid milk products lost under extraordinary circumstances completely beyond the control of the handler, if such loss is substantiated by records satisfactory to the market administrator."

19. Delete § 990.22(b) and substitute therefor the following:

(b) As Class I milk if moved to the plant of a producer-handler under this or any other Federal order.

20. Delete § 990.24 and substitute therefor the following:

§ 990.24 Assignment of skim milk and butterfat classified.

(a) For each month, the market administrator shall correct for mathematical and other obvious errors, the reports submitted by each handler pursuant to § 990.30 and shall compute the total pounds of skim milk and butterfat in each class for such handler: *Provided*, That when nonfat milk solids derived from nonfat dry milk, condensed skim milk, or any other product condensed from milk or skim milk, are utilized by such handler, the total pounds of skim milk computed shall reflect a volume equivalent to the skim milk used to produce such nonfat milk solids.

(b) Skim milk shall be assigned in the following manner:

(1) Subtract from the pounds of skim milk in Class I milk the pounds of skim milk received during the month as exempt milk.

(2) Subtract from the remaining pounds of skim milk in Class I milk the pounds of skim milk received during the month in packaged fluid milk products from fully regulated plants under the provisions of another Federal order.

(3) Subtract from the pounds of skim milk in each class, beginning with Class II milk, the pounds of skim milk received during the month in other source milk in a form other than fluid milk products.

(4) Subtract from the remaining pounds of skim milk in each class, beginning with Class II milk, the pounds of skim milk received during the month in other source milk in the form of fluid milk products other than from fully regulated plants under the provisions of another Federal order.

(5) Subtract from the remaining pounds of skim milk in Class II milk the pounds of skim milk in inventory of fluid milk products on hand at the end of the month.

(6) (i) During the months of July through September, subtract from the remaining pounds of skim milk in Class II milk a quantity equal to such remainder or to 15 percent of the pounds of skim milk in receipts of producer milk, whichever is less.

(ii) During the months of October through June, subtract from the remaining pounds of skim milk in Class II milk a quantity equal to such remainder or to 5 percent of the pounds of skim milk in receipts of producer milk, whichever is less.

(7) Subtract from the remaining pounds of skim milk in Class II milk a quantity equal to such remainder or the pounds of skim milk in bulk fluid milk products received during the month from fully regulated plants under the provisions of another Federal order, whichever is less.

(8) Subtract from the remaining pounds of skim milk in each class, beginning with Class II milk, the pounds of skim milk in inventory of fluid milk products on hand at the beginning of the month.

(9) Add to the remaining pounds of skim milk in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (5) of this paragraph.

(10) Subtract from the remaining pounds of skim milk in each class, beginning with Class I milk, the pounds of skim milk in bulk fluid milk products received during the month from fully regulated plants under the provisions of another Federal order and not assigned pursuant to subparagraph (7) of this paragraph.

(11) Add to the remaining pounds of skim milk in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (6) of this paragraph.

(12) Assign to the remaining pounds of skim milk in each class, beginning with Class I milk, the pounds of skim milk in:

(i) Receipts of fluid milk products from pool plants of other handlers not subject to a zone price differential;

(ii) Receipts of producer milk at the handler's pool plants not subject to a zone price differential;

(iii) Receipts of producer milk at the handler's pool plants to which a zone price differential is applicable equal to the pounds of skim milk disposed of in fluid milk products directly from these plants as Class I milk outside the marketing area;

(iv) Receipts of fluid milk products from pool plants of other handlers not assigned pursuant to subdivision (i) of this subparagraph, in the order of the nearness of the plants to Providence according to their zone locations; and

(v) Receipts of producer milk at the handler's pool plants, not assigned pursuant to subdivisions (ii) and (iii) of this subparagraph, in the order of the nearness of the plants to Providence according to their zone locations.

(13) Any remaining pounds of skim milk in each class not assigned shall be known as "overage".

(c) Butterfat shall be allocated in accordance with the same procedure prescribed for skim milk in paragraph (b) of this section.

(d) Add the pounds of skim milk and butterfat in each class, pursuant to paragraphs (b) and (c) of this section.

21. Delete the proviso in § 990.30.

22. Delete paragraph (e) of § 990.31 and substitute therefor the following:

(e) Each regulated handler dumping pursuant to § 990.21(b)(3) shall give the market administrator such advance notice of intention to dump as the market administrator may require. For each dumping not witnessed by the market administrator or his agent each handler shall mail or deliver to the market administrator within 48 hours following such dumping a report in writing as prescribed by the market administrator, showing the date on which the dumping was made and the quantity dumped, such report to be signed by both the person who dumped the product and the person authorized to sign reports for the handler made pursuant to § 990.30 (if the latter person is not available to sign the report within the 48-hour period, the signature of the plant manager or superintendent shall be made on the report).

23. Delete paragraph (a) of § 990.40 and substitute therefor the following:

(a) *Class I price.* The Class I price shall be the New England basic Class I price per hundredweight determined pursuant to § 990.41 plus 54 cents.

24. In § 990.45 change the reference "§ 990.20" to "§ 990.22".

25. In paragraph (a) of § 990.46 change the reference "§ 990.24(b)(1)" to "§ 990.24 (b)(3) or (c)".

26. Delete paragraph (b) of § 990.46 and substitute therefor the following:

(b) Each pool handler who received other source milk which is allocated to Class I pursuant to § 990.24(b)(4) or (c) shall make payment on the quantity so allocated at the difference between the Class I and Class II price computed pursuant to § 990.40 for the zone location of the nonpool plant from which such milk was received: *Provided*, That for the purposes of this paragraph, other source milk received from dairy farmers for other markets shall be considered as received from the nonpool plant to which they ordinarily delivered.

27. In paragraph (c) of § 990.46 change the reference "§ 990.24(b)(4)" to "§ 990.24(b)(10)".

28. Delete in paragraph (d) of § 990.46 the parenthetical phrase "(except a buyer-handler)" and substitute therefor the phrase "operating an unregulated plant".

29. Delete the period at the end of paragraph (d) of § 990.46 and add the following: ": *Provided*, That the same receipts of priced milk shall not be used to offset Class I sales in both this market and any other Federal order market."

30. Delete in paragraph (e) of § 990.46 the word "buyer-handler" and substitute therefor the words "handler operating a regulated plant other than a pool plant".

31. In paragraph (c) of § 990.50 change the reference "§ 990.24(b)(10)" to "§990.24(b)(13)."

32. Delete paragraph (d) of § 990.50 and substitute therefor the following:

(d) Add an amount computed by multiplying the difference between the Class II price for the preceding month and the Class I price for the current month applicable at the nearest plant location from which an equivalent quantity of skim milk and butterfat, respectively, was allocated to Class II in the preceding month by the hundredweight of skim milk and butterfat, respectively, subtracted from Class I milk pursuant to § 990.24 (b)(8) and (c) for the month which is in excess of the hundredweight of skim milk and butterfat, respectively, allocated to Class II milk pursuant to § 990.24 (b)(10) and (c) during the preceding month and classified and priced as Class I under the provisions of another Federal order.

33. Delete the proviso as it appears in subparagraph (1) of § 990.60(a).

34. Delete subparagraph (2) of § 990.60 (a) and substitute therefor the following:

(2) On or before the 20th day after the end of each month, for the quantity of milk received during the month, at not less than the basic blended price per hundredweight computed pursuant to § 990.51 subject to the differentials provided in §§ 990.61, 990.62, and 990.63 less payments made to such producer pursuant to subparagraph (1) of this paragraph: *Provided*, That with respect to each deduction for hauling or for any other purpose made from such payment, the burden shall rest upon the handler making the deduction to prove that each deduction is authorized and properly chargeable to the producer: *And provided further*, That if by such date such handler has not received full payment from the market administrator pursuant to § 990.66 for such milk, he may reduce pro rata his payment to producers by not more than the amount of such underpayment. Payment to producers shall be completed thereafter not later than the date next following for making payment pursuant to this paragraph after receipt of the balance due from the market administrator.

35. In § 990.64 insert after the phrase "all payments made by handlers" the words "of monies due producers".

36. Delete the words "following that" as they appear near the end of paragraph (c) of § 990.67.

37. Delete § 990.68 and substitute therefor the following:

§ 990.68 Overdue accounts.

Any unpaid obligation of a handler or of the market administrator pursuant to § 990.46; and § 990.65 to § 990.70 shall be increased one-half of one percent on the 19th day of the month and on the same day of each month thereafter until such obligation is paid.

38. Delete the words "market administrator" as they first appear in paragraph (a) of § 990.69 and substitute therefor the word "Secretary".

39. Delete the word "20th" as it appears in paragraph (a) of § 990.69 and substitute therefor the word "16th".

40. Delete the phrase "as determined by the Secretary, which" as it appears in paragraph (b) of § 990.69 and substitute therefor the phrase "which the Secretary determines".

41. Delete the word "20th" as it appears in paragraph (b) of § 990.69 and substitute therefor the word "16th".

42. Delete the word "20th" as it appears in § 990.70 and substitute therefor the word "16th".

43. Delete paragraphs (a), (b) and (c) of § 990.70 and substitute therefor the following:

(a) Each pool handler shall make such payment with respect to all: (1) Receipts of producer milk including such handler's own production; (2) receipts of exempt milk; and (3) receipts of other source milk classified as Class I except receipts from fully regulated plants under another Federal order.

(b) Each handler operating a regulated plant other than a pool plant shall make such payment with respect to receipts of other source milk in his plant which are classified as Class I except receipts from fully regulated plants under another Federal order.

(c) Except as provided in paragraph (b) of this section each nonpool handler shall make such payment with respect to any disposition of Class I milk in the marketing area on routes in excess of his receipts of pool milk or milk from fully regulated plants under another Federal order and classified and priced as Class I.

Milk in Springfield Marketing Area

DEFINITIONS

§ 996.1 General definitions.

(a) "Act" means Public Act No. 10, 73d Congress, as amended, and reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended.

(b) "Springfield, Massachusetts, marketing area," also referred to as the "marketing area", means the territory included within the boundary lines of the following Massachusetts cities and towns:

Agawam.	Northampton.
Chicopee.	South Hadley.
Easthampton.	Springfield.
East Longmeadow.	Westfield.
Holyoke.	West Springfield.
Longmeadow.	Wilbraham.
Ludlow.	

(c) "Route" means any delivery to retail or wholesale outlets (including any disposition by a vendor, from a plant store, or to a vending machine) of fluid milk products classified as Class I pursuant to § 996.15(a) other than in bulk to a plant or in packaged form to a plant which packages fluid milk products for Class I disposition: *Provided*, That disposition of packaged fluid milk products from a plant which does no packaging of fluid milk products, or disposition from any building or facility other than a plant shall be considered as a continuation of the route(s) of the plant where such fluid milk products are packaged.

§ 996.2 Definitions of persons.

(a) "Person" means any individual, partnership, corporation, association or any other business unit;

(b) "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States authorized to exercise the powers and perform the duties of the Secretary of Agriculture;

(c) "Dairy farmer" means any person who produces milk which is moved from his farm to a plant other than as packaged milk;

(d) "Dairy farmer for other markets" means any person described in subparagraphs (1), (2) and (3) of this paragraph:

(1) Any dairy farmer with respect to milk which is purchased from him by a dealer who does not operate any regulated plant during the month and which milk is moved to another dealer's regulated plant directly from the dairy farmer's farm, except that the term shall not apply to any dairy farmer with respect to milk which is considered as receipts from a producer under the provisions of another Federal order.

(2) Any dairy farmer with respect to milk which is purchased from him by a handler and moved to a regulated plant, if that handler caused milk from the same farm to be moved as nonpool milk to any plant during the same month, except that the term shall not apply to any dairy farmer with respect to milk which is considered as receipts from a producer under the provisions of another Federal order.

(3) Any dairy farmer whose milk is received by a handler at a regulated plant during any of the months of December through June from a farm from which the handler received nonpool milk during any of the preceding months of July through November, except that the term shall not apply if all such nonpool milk was considered as receipts from a producer under another New England Federal order or of own production of a producer-handler under any New England Federal order.

(4) As used in this paragraph, the terms "handler" and "dealer" include affiliates of, and persons who control or are controlled by the handler or dealer.

(e) "Producer" means any dairy farmer whose milk is moved from his farm to a pool plant, or to any other plant as diverted milk; except that the term shall not include any person who is a producer-handler under this or any other Federal order, a dairy farmer for other markets, nor a dairy farmer with respect to milk which is considered as receipts from a producer under the provisions of another Federal order.

(f) "Association of producers" means any cooperative marketing association which the Secretary determines to be qualified pursuant to the provisions of the act of Congress of February 18, 1922, known as the "Capper-Volstead Act," and to be engaged in making collective sales or marketing of milk or its products for the producers thereof.

(g) "Dealer" means any person who during the month operates a plant at which he engages in the business of receiving fluid milk products for resale or manufacture into milk products, whether or not he disposes of any fluid milk products in the marketing area.

(h) "Handler" means: (1) Any person who, during the month, operates a pool plant or any other plant from which fluid milk products are disposed of, directly or indirectly, in the marketing area or (2) any person in his capacity as a subdealer, vendor, or peddler selling fluid milk products on routes from such plants.

(i) "Pool handler" means any person who operates a pool plant.

(j) "Producer-handler" means any person meeting the conditions of subparagraph (1) or (2) of this paragraph who is both a dairy farmer and a handler, processing milk from his own production and distributing all or a portion of such milk in the marketing area on routes: *Provided*, That the maintenance, care and management of the dairy herd and other resources and facilities necessary to produce the milk and the processing, packaging and distribution of the milk are the personal enterprise and risk of such person and a greater proportion of fluid milk products are distributed in this marketing area on routes than in any other Federal order marketing area.

(1) Whose own farm production or Class I sales, whichever is less, does not exceed 2,150 pounds on a daily average during the month, and whose only source of supply for fluid milk products is milk of his own farm production and fluid milk products from regulated plants under any of the New England Federal orders, or

(2) Whose only source of supply for fluid milk products is milk of his own farm production and fluid milk products from regulated plants under any of the New England Federal orders in an amount not in excess of two percent of own farm production.

§ 996.3 Definitions of plants.

(a) "Plant" means the land and buildings, together with their surroundings, facilities and equipment, constituting a single operating unit or establishment which is operated exclusively by one or more persons engaged in the business of handling fluid milk products for resale or manufacture into milk products, and which is used for the handling or processing of milk or milk products, except that this definition shall not include any separate building, premise, equipment or facility used primarily to hold or store packaged fluid milk products in transit on routes.

(b) "City plant" means any plant which is located within 10 miles of the marketing area.

(c) "Country plant" means any plant which is located beyond 10 miles of the marketing area.

(d) "Receiving plant" means any plant at which facilities are maintained and used for washing and sanitizing cans or tank trucks and to which milk is moved from dairy farmers' farms in cans and is there accepted, weighed or measured, sampled, and cooled; or to which milk is moved from dairy farmers' farms in tank trucks and is there transferred to stationary equipment in the building or to other vehicles.

(e) "Pool plant" means any receiving plant which meets the applicable conditions and requirements for pool plant status contained in §§ 996.20 and 996.21, except a pool plant under another Federal order or the plant of a producer-handler under any Federal order.

(f) "Distributing plant" means any plant from which fluid milk products processed and packaged at the plant are distributed in the marketing area or routes.

(g) "Regulated plant" means: (1) Any pool plant, or (2) any other plant (except the plant of a producer-handler under any Federal order) in any month in which at least 50 percent of its total receipt of fluid milk products is disposed of as Class I milk and not less than 10 percent of such receipts is disposed of in the marketing area on routes, unless the market administrator determines that such plant disposes of a greater percentage of its Class I milk in another Federal order marketing area or routes.

(h) "Supply plant" means any receiving plant, other than a regulated distributing plant, from which fluid milk products are shipped in bulk to a distributing plant.

(i) "Other Federal order plant" means a pool plant under another Federal order, or any plant which is not a regulated plant under the provisions of this part but at which all fluid milk products handled become subject to the classification and pricing provisions of a Federal milk order.

§ 996.4 Definitions of milk and milk products.

(a) "Milk" means the commodity received from a dairy farmer as cow's milk. The term also includes milk so received which later has its butterfat content adjusted to at least one-half of one percent but less than 10 percent; frozen milk; reconstituted milk; and 50 percent of the quantity by weight of "half and half".

(b) "Fluid milk products" means milk, flavored milk, skim milk, flavored skim milk, cultured skim milk, buttermilk, and concentrated milk, either individually or collectively.

(c) "Packaged fluid milk products" means fluid milk products which have been placed in containers for disposition to retail or wholesale outlets.

(d) "Skim milk" means that fluid product of milk which remains after the removal of cream, and which contains less than one-half of one percent of butterfat.

(e) "Half and half" means any fluid milk product, except concentrated milk, the butterfat content of which has been adjusted to at least 10 percent but less than 16 percent.

(f) "Concentrated milk" means the concentrated, unsterilized milk product, resembling plain condensed milk, which is disposed of to retail or wholesale outlets in fluid form for human consumption.

(g) "Cream" means that portion of milk, containing not less than 16 percent of butterfat, which rises to the surface of milk on standing, or is separated from it by centrifugal force. The term also includes sour cream; frozen cream; milk and cream mixtures containing 16 percent or more of butterfat; and 50 percent of the quantity, by weight, of "half and half".

(h) "Producer milk" means milk which a handler has received as milk from producers. The quantity of milk received by a handler from producers shall include any milk of a producer which was not received at a plant but which the handler or an agent of the handler has accepted, measured, sampled, and transferred from the producer's form tank into a tank truck during the month, and such milk shall be considered as received at the pool plant at which other milk from the same farm of that producer is received by the handler during the month.

(i) "Outside milk" means:

(1) All receipts of fluid milk products from sources other than producers, regulated plants, and other Federal order plants, but not including receipts of exempt milk.

(2) All other receipts of milk products, whether or not originally derived from producer milk, which are not fluid milk products but are combined with or converted into fluid milk products, and including cream or other such milk products received or produced at the handler's plant during a prior month.

(j) "Exempt milk" means:

(1) Milk received at a regulated plant in bulk from an unregulated plant to be processed and packaged, and for which an equivalent quantity of packaged fluid milk products is returned to the operator of the unregulated plant during the same month, if such receipt of bulk milk and return of packaged fluid milk products occur during an interval in which the facilities of the unregulated plant at which the milk is usually processed and packaged are temporarily unusable because of a fire, flood, storm, or similar extraordinary circumstances completely beyond the dealer's control; or

(2) Packaged fluid milk products received at a regulated plant from an unregulated plant in return for an equivalent quantity of bulk milk moved from a regulated plant for processing and packaging during the same month, if such movement of bulk milk and receipt of packaged fluid milk products occur during an interval in which the facilities of the regulated plant at which the milk is usually processed and packaged are temporarily unusable because of fire, flood, storm, or similar extraordinary circumstances completely beyond the handler's control; or

(3) Milk produced and processed in accordance with the standards of purity and quality for certified milk established by the American Association of Medical Milk Commissions and disposed of as packaged certified milk or packaged certified skim milk.

(k) "Diverted milk" means milk which a pool handler reports as having been moved from a dairy farmer's farm to one of his pool plants, but which he caused to be moved from that farm to another plant, provided such movement is specifically reported and the conditions of subparagraph (1) or (2) of this paragraph have been met. Diverted milk shall be considered to have been received at the pool plant from which it was diverted.

(1) The handler caused milk from that farm to be moved to such pool plant on a majority of the delivery days, during the 12 months ending with the current month, on which the handler either caused milk to be moved from the farm as producer milk, or caused milk to be moved as produced milk from the farm by tank truck; or

(2) The handler caused the milk to be moved from that farm in a tank truck in which it was intermingled with milk from other farms, the milk from a majority of which farms was diverted from the same pool plant during the month in accordance with the preceding provisions of this paragraph.

MARKET ADMINISTRATOR

§ 996.10 Designation of market administrator.

The agency for the administration of this part shall be a market administrator selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 996.11 Powers of market administrator.

The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To make rules and regulations to effectuate its terms and provisions;

(c) To receive, investigate, and report to the Secretary complaints of violations of its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 996.12 Duties of market administrator.

The market administrator, in addition to the duties described in other sections of this part, shall:

(a) Within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond conditioned upon the faithful performance of his duties, in an amount and with sureties thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to exercise his powers and perform his duties;

(c) Pay, out of the funds provided by § 996.72, the cost of his bond, his own compensation, and all other expenses necessarily incurred in the maintenance and functioning of his office;

(d) Keep such books and records as will clearly reflect the transactions provided for in this part and surrender the same to his successor, or to such other person as the Secretary may designate;

(e) Prepare and disseminate for the benefit of producers, consumers, and handlers, statistics and information concerning the operation of this part;

(f) Promptly verify the information contained in the reports submitted by handlers; and

(g) Give each of the producers delivering to a plant, as reported by the handler, prompt written notice of his actual or potential loss of producer status for the first month in which the plant's status has changed or is changing to that of a nonpool plant.

CLASSIFICATION

§ 996.15 Classes of utilization.

All milk and milk products received by a handler shall be classified as Class I milk or Class II milk. Subject to §§ 996.16 and 996.17, the classes of utilization shall be as follows:

(a) Class I milk shall be:

(1) All milk and milk products sold, distributed, or disposed of as or in milk;

(2) All milk and milk products sold, distributed, or disposed of for human consumption as or in flavored milk, skim milk, flavored or cultured skim milk, or buttermilk;

(3) Ninety-eight percent, by weight, of the milk and milk products used to produce concentrated milk; and

(4) All milk and milk products the utilization of which is not established as Class II milk.

(b) Class II milk shall be all milk and milk products the utilization of which is established:

(1) As being sold, distributed, or disposed of other than as specified in subparagraphs (1), (2), and (3) of paragraph (a) of this section; and

(2) As plant shrinkage, not in excess of 2 percent of the volume of fluid milk products and cream handled.

§ 996.16 Classification of fluid milk products moved to other plants.

Any fluid milk products moved from a regulated plant to any other plant shall be classified as follows:

(a) As Class I milk if moved as packaged fluid milk products to any other plant;

(b) As Class I milk if moved to the plant of a producer-handler under any Federal order;

(c) In the class to which it is assigned under §§ 996.25 and 996.26 if moved as bulk fluid milk products to any other handler's regulated plant;

(d) In the class to which assigned under the other order, if moved as bulk fluid milk products to a regulated plant under another New England Federal order or the New York-New Jersey order;

(e) As Class I milk up to the total quantity of the same form of fluid milk products so moved which it utilized as Class I milk at the transferee plant, if moved as bulk fluid milk products to any plant other than a regulated plant under any New England Federal order or the New York-New Jersey order or the plant of a producer-handler under any Federal order; and

(f) As Class I milk if moved as bulk fluid milk products to any plant other than a regulated plant under any New England Federal order or the New York-New Jersey order and thence to another plant located outside the New England States and New York State.

§ 996.17 Responsibility of handlers in establishing the classification of milk.

The burden rests upon the handler who operates a plant to account for any milk and milk products received or available at the plant, and to prove that they should not be classified as Class I milk.

DETERMINATION OF POOL PLANT STATUS

§ 996.20 Basic pooling requirements.

Each receiving plant shall be considered to have met the basic pooling requirements in any month in which it meets the applicable conditions of this section.

(a) It is a distributing plant with total Class I disposition of at least 50 percent of its total receipts of fluid milk products and Class I route disposition in the marketing area of not less than 10 percent of its receipts from dairy farmers, and such route disposition in the marketing area exceeds its Class I route disposition in any other New England Federal marketing area.

(b) It is a plant located in the marketing area which is operated by an association of producers and the Class I route disposition from the plant does not exceed 2 percent of the total receipts of fluid milk products at the plant.

(c) It is a supply plant from which at least 30 percent of its total receipts of milk from dairy farmers is shipped as bulk fluid milk products to regulated distributing plants.

§ 996.21 Supplementary pooling provisions for supply plants.

(a) Any supply plant shall have automatic pool plant status in any of the months of December through June, regardless of whether any fluid milk products are shipped to distributing plants during the month, if in each of the preceding months of July through November it was a pool plant or would have been a pool plant had it not been a pool plant under another New England Federal order, unless:

(1) The plant has automatic pool plant status for such month under another New England Federal order and a greater quantity of the receipts from dairy farmers at the plant during the preceding July through November period was pooled under the other order than was pooled under this part;

(2) The plant is designated as a nonpool plant pursuant to paragraph (e) of this section; or

(3) The plant was a nonpool plant under all of the New England Federal orders in a prior month of the current December through June period.

(b) Any supply plant shall have automatic pool plant status in any of the months of December through June, regardless of whether any fluid milk products are shipped to distributing plants during the month, if it was a pool plant under one or another of the New England Federal orders during each of the preceding months of July through November and a greater quantity of its receipts from dairy farmers during the July through November period was pooled under this part than under any other New England Federal order. However, no plant shall have automatic pool plant status under this paragraph for any month of such December through June period subsequent to a month for which the plant is designated as a nonpool plant pursuant to paragraph (e) of this section.

(c) Any supply plant, except a plant which has automatic pool plant status for such month under paragraph (a) or (b) of this section, shall be a nonpool plant in any month in which it meets the conditions and requirements for pool plant status under another New England Federal order and ships a greater quantity of bulk fluid milk products to regulated distributing plants under that order than it ships to regulated distributing plants under this part. However, no plant shall be barred from pool plant status under this paragraph for any month in which the greater quantity of such shipments is made to regulated distributing plants under the Boston order but the plant is designated as a nonpool plant under that order at the handler's request.

(d) Any supply plant shall be a nonpool plant in each of the months of December through June if it was a nonpool receiving plant under each of the New England Federal orders during any of the preceding months of July through November in which it was operated by the same handler, an affiliate of the handler, or any person who controls or is controlled by the handler, except as it was then operated as a producer-handler's plant under any New England Federal order.

(e) A supply plant shall be a nonpool plant in any of the months of December through June for which the market administrator has received, on or before the 10th day of the month, the handler's written request that the plant be designated as a nonpool plant for that month.

ASSIGNMENT OF RECEIPTS TO CLASSES

§ 996.25 Assignment of receipts at regulated plants to Class I milk.

Receipts at regulated plants shall be assigned to Class I milk in the following sequence:

(a) Receipts of exempt milk;

(b) Receipts from other Federal order plants of packaged fluid milk products classified and priced as Class I milk under the other Federal order;

(c) Receipts from other handlers' regulated plants of packaged fluid milk products;

(d) Receipts from regulated plants under the Boston order of bulk fluid milk products classified as Class I milk under the Boston order;

(e) Receipts from other handlers' regulated city plants of bulk fluid milk products for which classification as Class II milk has not been requested by both handlers;

(f) Receipts from producers at each of the handler's country pool plants to the extent of the quantity of Class I milk disposed of outside the marketing area without being received at a city plant;

(g) Receipts from producers at the handler's city plant;

(h) Receipts from other handlers; regulated country plants of bulk fluid milk products for which classification as Class II milk has not been requested by both handlers, in the order of the nearness of the originating plants to Springfield according to their zone locations;

(i) Receipts from producers at the handler's country plants not assigned pursuant to paragraph (f) of this section, in the order of the nearness of the plants to Springfield according to their zone locations;

(j) Receipts from other handlers' regulated plants of bulk fluid milk products not assigned to Class I milk under paragraphs (e) and (h) of this section, in the order of the nearness of the originating plants to Springfield according to their zone locations;

(k) Receipts from other Federal order plants of bulk fluid milk products not assigned to Class I milk under paragraph (d) of this section but subject to classification and pricing as Class I milk under the other Federal order if assigned to Class I milk under this part. If there are receipts from more than one other Federal order market, the remaining Class I milk shall be prorated between the originating markets, except that if the handler has route disposition in an originating market, the receipts from such market shall take priority of assignment to any residual Class I use up to the total quantity of route disposition in such market by the handler;

(l) Receipts from other Federal order plants of fluid milk products not assigned to Class I milk under paragraphs (b), (d), and (k) of this section;

(m) Receipts of outside milk in the form of fluid milk products, in the order of the nearness of the unregulated plants to Springfield according to their zone locations; and

(n) All other receipts, or available quantities of fluid milk products, from whatever source derived.

§ 996.26 Assignment of receipts at regulated plants to Class II milk.

Receipts at regulated plants of milk and milk products which are not assigned to Class I milk pursuant to § 996.25 shall be assigned to Class II milk.

REPORTS OF HANDLERS

§ 996.30 Pool handlers' reports of receipts and utilization.

On or before the 8th day after the end of each month each pool handler shall, with respect to the milk products received by the handler during the month, report to the market administrator in the detail and form prescribed by the market administrator, as follows:

(a) The receipts of milk at each pool plant from producers, including the quantity, if any, received from his own production;

(b) The receipts of fluid milk products at each plant from any other handler, assigned to classes pursuant to § 996.25 and 996.26;

(c) The receipts of outside milk and exempt milk at each plant; and

(d) The quantities from whatever source derived which were sold, distributed, or used, including sales to other handlers and dealers, classified pursuant to §§ 996.15 through 996.17.

§ 996.31 Reports of nonpool handlers.

Each nonpool handler shall file with the market administrator reports relating to his receipts and utilization of fluid milk products. The reports shall be made at the time and in the manner prescribed by the market administrator, except that any handler who receives outside milk during any month shall file the report on or before the 8th day after the end of the month.

§ 996.32 Reports regarding individual producers.

(a) Within 20 days after a producer moves from one farm to another, starts or resumes deliveries to any of a handler's pool plants, or starts delivering his milk to the handler's plant by tank truck, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the change took place, and the farm and plant locations involved. The report shall also state, if known, the plant to which the producer had been delivering prior to starting or resuming deliveries.

(b) Within 15 days after the 5th consecutive day on which a producer has failed to deliver to any of a handler's pool plants, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the last delivery was made, and the farm and plant locations involved. The report shall also state, if known, the reason for the producer's failure to continue deliveries.

§ 996.33 Reports of payments to producers.

Each pool handler shall submit to the market administrator, within 10 days after his request made not earlier than 20 days after the end of the month, his producer payroll for such month, which shall show for each producer:

(a) The daily and total pounds of milk delivered with the average butterfat test thereof; and

(b) The net amount of such handler's payments to such producer with the prices, deductions, and charges involved.

§ 996.34 Maintenance of records.

Each handler shall maintain detailed and summary records showing all receipts, movements, and disposition of milk and milk products during the month, and the quantities of milk and milk products on hand at the end of the month.

§ 996.35 Verification of reports.

For the purpose of ascertaining the correctness of any report made to the market administrator as required by this part or for the purpose of obtaining the information required in any such report where it has been requested and has not been furnished, each handler shall permit the market administrator or his agent, during the usual hours of business, to:

(a) Verify the information contained in reports submitted in accordance with this part;

(b) Weigh, sample, and test milk and milk products; and

(c) Make such examination of records, operations, equipment, and facilities as the market administrator deems necessary for the purpose specified in this section.

§ 996.36 Retention of records.

All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c(15)(A) of the Act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. The market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

§ 996.37 Notices to producers.

Each pool handler shall furnish each producer from whom he receives milk with information regarding the daily weight and composite butterfat test of the producer's milk, as follows:

(a) Within 3 days after each day on which he receives milk from the producer, the handler shall give the producer written notice of the daily quantity so received.

(b) Within 7 days after the end of any sampling period for which the composite butterfat test of the producer's milk was determined, the handler shall give the producer written notice of such composite test.

MINIMUM CLASS PRICES

§ 996.40 Class I price at city plants.

The Class I price per hundredweight at city plants shall be the New England basic Class I price per hundredweight determined for each month pursuant to § 996.48 plus 54 cents.

§ 996.41 Class II price at city plants.

The Class II price per hundredweight at city plants shall be the Class II price determined for each month pursuant to § 904.41 of the Boston order plus 5.8 cents.

§ 996.42 Country plant zone price differentials.

In the case of receipts at country plants, the prices determined pursuant to §§ 996.40, 996.41, and 996.51 shall be subject to zone price differentials based upon the zone location of the plant at which the milk is received from producers.

(a) The zone location of each country plant shall be based upon its highway mileage distance to Springfield as determined by use of the appropriate State maps contained in Mileage Guide No. 6, and revisions thereof, issued by Household Goods Carriers' Bureau, Agent, Washington, D.C. The distance shall be the lowest highway mileage between Springfield and the named point on the map which is nearest to the plant, over roads designated thereon as paved, first-class, all-weather roads. In the event that the named point is not located on a through first-class road, such other roads shall be used to reach a through first-class road as will result in the lowest highway mileage to Springfield, except that such other roads shall not be used for a distance of more than 15 miles if it is otherwise possible to connect with a through first-class road. In any instance in which the map does not clearly show the mileage between points on a road, the mileage used shall be the mileage as determined by the highway authority for the State in which the road is located.

(b) The zone price differential for each country plant shall be those applicable to its zone location as shown in the following table.

COUNTRY PLANT ZONE PRICE DIFFERENTIALS

A Distance to Springfield (miles)	B Zone	C Class I and blended price differentials (cents per hundredweight)	D Class II price differentials (cents per hundredweight)
40 or less	4	−17.0	−2.0
41 to 50	5	−24.8	−2.0
51 to 60	6	−26.0	−3.0
61 to 70	7	−27.2	−3.0
71 to 80	8	−28.4	−3.0
81 to 90	9	−29.6	−3.0
91 to 100	10	−40.8	−3.0
101 to 110	11	−42.0	−4.5
111 to 120	12	−43.2	−4.5
121 to 130	13	−44.4	−4.5
131 to 140	14	−45.6	−4.5
141 to 150	15	−46.8	−4.5
151 to 160	16	−48.0	−5.0
161 to 170	17	−49.2	−5.0
171 to 180	18	−50.4	−6.0
181 to 190	19	−51.6	−6.0
191 to 200	20	−52.8	−6.0
201 to 210	21	−54.0	−7.0
211 to 220	22	−55.0	−7.0
221 to 230	23	−56.0	−7.0
231 to 240	24	−57.0	−7.0
241 to 250	25	−58.0	−7.0
251 to 260	26	−59.0	−8.0
261 to 270	27	−60.0	−8.0
271 to 280	28	−61.0	−8.0
281 to 290	29	−62.0	−8.0
291 to 300	30	−63.0	−8.0
301 and over	31 and over	(1)	−8.0

[1] Class I and blended price differentials applicable to plants located more than 300 miles from Springfield shall be obtained by extending the table at the rate of one cent for each additional 10 miles, except that in no event shall the Class I or blended price at any zone be less than the Class II price for the month for plants in such zone.

§ 996.44 Use of equivalent factors in formulas.

If for any reason a price, index, or wage rate specified by this part for use in computing class prices and for other purposes is not reported or published in the manner described in this order, the market administrator shall use a price, index, or wage rate determined by the Secretary to be equivalent to or comparable with the factor which is specified.

§ 996.45 Announcement of class prices.

The market administrator shall make public announcements of the class prices as follows:

(a) He shall announce the Class I price for each month on the 25th day of the preceding month, except that if such 25th day is a Sunday or legal holiday he shall announce the Class I price on the next succeeding work day.

(b) He shall announce the Class II price on or before the 5th day after the end of each month.

NEW ENGLAND BASIC PRICE FORMULA

§ 996.48 Computation of New England basic Class I price.

The New England basic Class I price per hundredweight of milk containing 3.7 percent butterfat shall be determined for each month pursuant to this section. The latest reported figures available to the market administrator on the 25th day of the preceding month shall be used in making the following computations, except that if the 25th day of the preceding month falls on a Sunday or legal holiday the latest figures available on the next succeeding work day shall be used.

(a) Compute the economic index as follows:

(1) Divide by 1.190 the monthly wholesale price index for all commodities as reported by the Bureau of Labor Statistics, United States Department of Labor with the years 1947–49 as the base period.

(2) Using the data on per capita personal income, by States and regions, as published by the United States Department of Commerce, establish a "New England adjustment percentage" by computing the current percentage relationship of New England per capita personal income to per capita personal income in continental United States. Multiply by the New England adjustment percentage the quarterly figure showing the current annual rate of per capita disposable personal income in the United States as released by the United States Department of Commerce or the Council of Economic Advisers to the President. Divide the result by 20.50 to determine an index of per capita disposable personal income in New England.

(3) Multiply by 20 the average price per 100 pounds paid by farmers in the New England region for all mixed dairy feed of less than 29 percent protein content as reported by the United States Department of Agriculture for the month and divide the result by .8082 to determine the dairy ration index. Compute the average, weighted by the indicated factors, of the following farm wage rates reported for the New England region by the United States Department of Agriculture: Rate per month with board and room, 1; rate per month with house, 1; rate per week with board and room, 4.33; rate per week without board or room, 4.33; and the rate per day without board or room, 26. Divide the average wage rate so computed by 1.9833 to determine the wage rate index. Multiply the dairy ration index by 0.6 and the wage rate index by 0.4 and combine the two results to determine the grain-labor cost index.

(4) Divide by 7 the sum of three times the wholesale price index, the index of per capita disposable income in New England, and three times the grain-labor cost index determined pursuant to this paragraph. The result shall be known as the economic index.

(b) Compute an economic index price as follows:

(1) Multiply the economic index by $.0567, expressing the result to the nearest mill;

(2) Divide the Class I–A price for the month determined pursuant to Federal Order No. 27 and applicable to the 201–210-mile freight zone for 3.5 percent milk by the product of the utilization adjustment percentage and the seasonable adjustment factor which entered into the computation thereof, and then add $.08, expressing the result to the nearest mill;

(3) The economic index price shall be the price computed in subparagraph (1) of this paragraph, unless the difference between the result computed in subparagraph (1) of this paragraph and the result computed in subparagraph (2) of this paragraph exceeds 11 cents. In that event, the economic index price shall be the price computed pursuant to subparagraph (1) of this paragraph minus the amount of the excess above 11 cents if the result under subparagraph (1) of this paragraph is the greater, and plus the amount of the excess above 11 cents if the result under subparagraph (2) of this paragraph is the greater.

(c) Compute a supply-demand adjustment factor as follows:

(1) Combine into separate monthly totals the receipts from producers for Greater Boston, Connecticut, Southeastern New England, Springfield, and Worcester and the Class I milk from producers for the same markets as announced by the respective market administrators in the statistical reports for such markets for the second and third months preceding the month for which the price is being computed.

(2) Divide the five-market total of Class I producer milk by the five-market total of receipts from producers for each of the two months for which computations were made pursuant to subparagraph (1) of this paragraph.

(3) Divide each of the percentages determined in subparagraph (2) of this paragraph into the following base Class I percentage for the respective month, multiply each result by 100, and compute a simple average of the resulting percentages. The result shall be known as the percentage of base supply.

Month:	Base class I percentage
January	71.6
February	69.8
March	65.1
April	61.1
May	55.5
June	56.7
July	69.3
August	74.7
September	75.8
October	76.5
November	77.9
December	73.0

(4) The supply-demand adjustment factor shall be the figure in the following table opposite the bracket within which the percentage of base supply falls. When the percentage of base supply falls in an interval between brackets, the supply-demand adjustment factor shall be the figure shown for the next higher bracket if the factor for the previous month was based on a bracket higher than such interval, and shall be the figure for the next lower bracket if the factor for the previous month was based on a bracket lower than such interval.

Percentage of base supply: [1]	Supply-demand adjustment factor
90.5–91.5	1.06
92.0–93.0	1.05
93.5–94.5	1.04
95.0–96.0	1.03
96.5–97.5	1.02
98.0–99.0	1.01
99.5–100.5	1.00
101.0–102.0	.99
102.5–103.5	.98
104.0–105.0	.97
105.5–106.5	.96
107.0–108.0	.95
108.5–109.5	.94

[1] If the percentage of base supply calculated according to subparagraph (4) of this paragraph falls outside the extremes shown in this column, the supply-demand adjustment factor shall be determined by extending the table at the indicated rate of extension.

(d) The seasonal adjustment factor shall be the factor listed below for the month for which the price is being computed.

Month:	Seasonal adjustment factor
January and February	1.04
March	1.00
April	.92
May and June	.88
July	.96
August	1.00
September	1.04
October, November and December	1.06

(e) Multiply the Economic Index price determined pursuant to paragraph (b) of this section by the product of the supply-demand adjustment factor determined pursuant to paragraph (c) of this section times the seasonal adjustment factor determined pursuant to paragraph (d) of this section. The New England basic Class I price shall be the price set forth in column 3 of the following table opposite the range within which the result of this computation falls.

Range		New England basic Class I price
At least—	But less than—	
[1] $4.86	$5.08	$4.97
5.08	5.30	5.19
5.30	5.52	5.41
5.52	5.74	5.63
5.74	5.96	5.85
5.96	6.18	6.07
6.18	6.40	6.29
6.40	6.62	6.51
6.62	6.84	6.73
6.84	[1] 7.06	6.95

[1] If the result of the computation specified in this paragraph is less than $4.86 or is $7.06 or more, the New England basic Class I price shall be determined by extending the table at the indicated rate of extension.

(f) Notwithstanding the provisions of the preceding paragraphs of this section, the New England basic Class I price for November or December of each year shall not be lower than such price for the immediately preceding month.

Blended Prices to Producers

§ 996.50 Computation of value of milk received from producers.

For each month, the market administrator shall compute the value of milk received from producers by each pool handler in the following manner:

(a) Multiply the quantities of milk received from producers assigned to Class I milk pursuant to § 996.25 by the applicable prices pursuant to §§ 996.40 and 996.42;

(b) Multiply the quantities of milk received from producers assigned to Class II milk pursuant to § 996.26 by the applicable prices pursuant to §§ 996.41 and 996.42; and

(c) Add together the resulting value of each class.

§ 996.51 Computation of the basic blended price.

The market administrator shall compute the basic blended price per hundredweight of milk delivered during each month in the following manner:

(a) Combine into one total the respective net values of milk computed pursuant to § 996.50 and the payments required pursuant to § 996.65 for each handler from whom the market administrator has received at his office, prior to the 11th day after the end of such month, the report for such month and the payments required pursuant to §§ 996.61(b) and 996.65 for the preceding month;

(b) Add the amount of unreserved cash on hand at the close of business on the 10th day after the end of the month from payments made to the market administrator by handlers pursuant to §§ 996.61, 996.62, 996.65, and 996.67;

(c) Deduct the amount of the plus differentials, and add the amount of the minus differentials, which are applicable pursuant to § 996.64;

(d) Divide by the total quantity of pool milk for which a value is determined pursuant to paragraph (a) of this section; and

(e) Subtract not less than 4 cents nor more than 5 cents for the purpose of retaining a cash balance in connection with the payments set forth in §§ 996.61 and 996.62. This result, which is the minimum blended price for milk containing 3.7 percent butterfat received from producers at city plants, shall be known as the basic blended price.

§ 996.52 Announcement of blended prices.

On the 12th day after the end of each month the market administrator shall mail to all pool handlers and shall publicly announce:

(a) Such of these computations as do not disclose information confidential pursuant to the Act;

(b) The zone blended prices per hundredweight resulting from adjustment of the basic blended price by the differentials pursuant to § 996.64; and

(c) The names of the pool handlers, designating those whose milk is not included in the computations because of failure to make reports or payments pursuant to this part.

Payments for Milk

§ 996.60 Advance payments.

On or before the 5th day after the end of each month, each pool handler shall make payment to producers for the approximate value of milk received during the first 15 days of such month. In no event shall such advance payment be at a rate less than the Class II price for such month.

§ 996.61 Final payments.

Each pool handler shall make payment for the total value of milk received during such month as required to be computed pursuant to § 996.50, as follows:

(a) On or before the 20th day after the end of each month, to each producer at not less than the basic blended price per hundredweight, subject to the differentials provided in §§996.63 and 996.64, for the quantity of milk delivered by such producer; and

(b) To producers, through the market administrator, by paying to the market administrator on or before the 18th day after the end of each month, or receiving from the market administrator on or before the 20th day after the end of each month, as the case may be, the amount by which the payments at the basic blended price adjusted by the plant and farm location differentials provided in § 996.64 are less than or exceed the value of milk as required to be computed for each such handler pursuant to § 996.50, as shown in a statement rendered by the market administrator on or before the 15th day after the end of such month.

§ 996.62 Adjustments of errors in payments.

(a) Whenever verification by the market administrator of reports or payments of any handler discloses an error in payments made pursuant to §§ 996.61(b) and 996.65, the market administrator shall promptly issue to the handler a charge bill or a credit, as the case may be, for the amount of the error. Adjustment charge bills issued during the period from the 11th day of the prior month through the 10th day of the current month shall be payable by the handler to the market administrator on or before the 18th day of the current month. Adjustment credits issued during such period shall be payable by the market administrator to the handler on or before the 20th day of the current month.

(b) Whenever verification by the market administrator of the payment to any producer for milk delivered to any handler discloses payment to such producer of an amount less than is required by § 996.61(a), the handler shall make up such payment to the producer not later than the time of making final payment for the month in which such error is disclosed.

§ 996.63 Butterfat differential.

Each handler shall, in making payments to each producer for milk received from him, add for each one-tenth of 1 percent of average butterfat content above 3.7 percent, or deduct for each one-tenth of 1 percent of average butterfat content below 3.7 percent, the amount per hundredweight determined for the corresponding month pursuant to § 904.63 of this chapter.

§ 996.64 Location differentials.

The payments to be made to producers by handlers pursuant to § 996.61(a) shall be subject to the differentials set forth in Column C of the table in § 996.42 and to further differentials as follows:

(a) With respect to milk delivered by a producer whose farm is located in any of the following cities or towns, there shall be added 23 cents per hundredweight, unless such addition gives a result greater than the Class I price pursuant to §§ 996.40 and 996.42 which is effective at the plant to which such milk is delivered, in which event there shall be added an amount which will give as a result such price:

Massachusetts	
Becket.	Sandisfield.
Florida.	Savoy.
Hinsdale.	Washington.
Otis.	Windsor.
Peru.	
New Hampshire	
Chesterfield.	Westmoreland.
Vermont	
Brattleboro.	Newfane.
Dover.	Putney.
Dummerston.	Wilmington.
Marlboro.	

(b) With respect to milk delivered by a producer whose farm is located in Franklin, Hampshire, Hampden, or Worcester Counties in Massachusetts, or in any of the following cities or towns, there shall be added 46 cents per hundredweight, unless such addition gives a result greater than the Class I price pursuant to §§ 996.40 and 996.42 which is effective at the plant to which such milk is delivered, in which event there shall be added an amount which will give as a result such price:

Connecticut	
Ellington.	Somers.
Enfield.	Stafford.
Granby.	Suffield.
New Hampshire	
Hinsdale.	Winchester.
Vermont	
Guilford.	Vernon.
Halifax.	Whittingham.
Readsboro.	

§ 996.65 Payments on outside milk and receipts from other Federal order plants.

Within 18 days after the end of each month, handlers shall make payments to producers, through the market administrator as follows:

(a) Each handler operating a regulated plant at which there are assigned to Class I milk receipts of outside milk, or receipts from other Federal order plants which are not classified and priced as Class I milk under the other Federal order, shall make payment as follows:

(1) On such receipts assigned pursuant to § 996.25 (l) or (m), at the difference between the price pursuant to § 996.40 and the price pursuant to § 996.41 applicable at the zone location of the unregulated plant. Receipts from each dairy farmer for other markets shall be considered as receipts from the unregulated plant to which he ordinarily delivered; and

(2) On quantities assigned pursuant to § 996.25(n) at the difference between the price pursuant to § 996.40 and the price pursuant to § 996.41 applicable at the handler's regulated plant nearest to Springfield.

(b) Each handler, except a producer-handler under any Federal order, who operates an unregulated plant with route disposition in the marketing area shall make payment at the difference between the price pursuant to § 996.40 and the price pursuant to § 996.41 applicable at the zone location of the handler's plant on the quantity of such disposition which is in excess of the receipts at the plant of fluid milk products classified and priced as Class I milk under any Federal order, except that the same receipts of priced milk shall not be used to offset route disposition in this marketing area and in any other Federal marketing area.

§ 996.66 Deductions from payments to producers.

In making payments to producers as required by §§ 996.60 and 996.61(a), the burden shall rest upon the handler making deductions from such payments to prove that each deduction is properly authorized, and properly chargeable to the producer.

§ 996.67 Adjustment of overdue accounts.

Any balance due, pursuant to §§ 996.61, 996.62, and 996.65, to or from the market administrator on the 20th day of any month, for which remittance has not been received in, or paid from, his office by the close of business on that day, shall be increased one-half of 1 percent effective the 21st day of such month: *Provided*, That any remittance received by the market administrator after the 20th day of any month in an envelope which is postmarked not later than the 18th day of such month, shall be considered under this section to have been received by the 20th of the month.

§ 996.68 Statements to producers.

In making the payments to producers prescribed by § 996.61(a), each pool handler shall furnish each producer with a supporting statement, in such form that it may be retained by the producer, which shall show:

(a) The month and the identity of the handler and of the producer;

(b) The total pounds and average butterfat test of milk delivered by the producer;

(c) The minimum rate or rates at which payment to the producer is required under the provisions of § 996.61 (a);

(d) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(e) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deductions claimed under §§ 996.66, 996.70, and 996.71, together with a description of the respective deductions; and

(f) The net amount of payment to the producer.

MARKETING SERVICES

§ 996.70 Marketing service deduction; nonmembers of an association of producers.

In making payments to producers pursuant to § 996.61(a), each handler shall, with respect to all milk delivered by each producer other than himself during each month, except as set forth in § 996.71, deduct 3 cents per hundredweight, or such lesser amount as the Secretary shall determine to be sufficient, and shall, on or before the 18th day after the end of each month, pay such deductions to the market administrator. Such moneys shall be expended by the market administrator only in providing for market information to, and for verification of weights, samples, and tests of milk delivered by, such producers. The market administrator may contract with an association or associations of producers for the furnishing of the whole or any part of such services to, or with respect to the milk delivered by, such producers.

§ 996.71 Marketing service deduction; members of an association of producers.

In the case of producers who are members of an association of producers which the Secretary determines is actually performing the services set forth in § 996.70, each handler shall, in lieu of the deductions specified in § 996.70, make such deductions from payments made pursuant to § 996.61(a) as may be authorized by such producers and pay, on or before the 20th day after the end of each month, such deductions to such associations, accompanied by a statement showing the pounds of milk delivered by each producer from whom the deduction was made.

ADMINISTRATION EXPENSE

§ 996.72 Payment of administration expense.

Within 18 days after the end of each month, each handler shall make payment to the market administrator of his pro rata share of the expense of administration of this part. The payment shall be at the rate of 4 cents per hundredweight, or such lesser rate as the Secretary may from time to time prescribe, and shall apply to all of the handler's receipts, during the month, of milk from producers, of outside milk, and of exempt milk processed at a regulated plant.

OBLIGATIONS

§ 996.73 Termination of obligations.

The provisions of this section shall apply to any obligation under this part for the payment of money irrespective of when such obligation arose.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two year after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the Act, a petition claiming such money.

MISCELLANEOUS PROVISIONS

§ 996.80 Effective time.

The provisions of this part, or any amendments to its provisions, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 996.81.

§ 996.81 Suspension or termination.

The Secretary may suspend or terminate this part or any provision thereof whenever he finds that it obstructs or does not tend to effectuate the declared policy of the Act. This part shall, in any event, terminate whenever the provisions of the Act authorizing it cease to be in effect.

§ 996.82 Continuing obligations.

If, upon the suspension or termination of any or all provisions of this part, there are any obligations arising under it, the final accrual or ascertainment of which requires further acts by any person, such further acts shall be performed notwithstanding such suspension or termination.

§ 996.83 Liquidation after suspension or termination.

Upon the suspension or termination of any or all provisions of this part, the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected, pursuant to the provisions of this part, over and above the amount necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 996.84 Agents.

The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

Milk in Worcester, Mass., Marketing Area

DEFINITIONS

§ 999.1 General definitions.

(a) "Act" means Public Act No. 10, 73d Congress, as amended, and reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended.

(b) "Worcester, Massachusetts, marketing area", also referred to as the "marketing area", means the territory included within the boundary lines of the following Massachusetts cities and towns:

Auburn.	Oxford.
Boylston.	Paxton.
Charlton.	Princeton.
Clinton.	Rutland.
Dudley.	Worcester.
Fitchburg.	Shrewsbury.
Gardner.	Southbridge.
Grafton.	Spencer.
Holden.	Sterling.
Lancaster.	Sutton.
Leicester.	Upton.
Leominster.	Webster.
Lunenburg.	Westborough.
Millbury.	West Boylston.
Northborough.	Westminster.

(c) "Route" means any delivery to retail or wholesale outlets (including any disposition by a vendor, from a plant store, or to a vending machine) of fluid milk products classified as Class I pursuant to § 999.15(a) other than in bulk to a plant or in packaged form to a plant

which packages fluid milk products for Class I disposition: *Provided*, That disposition of packaged fluid milk products from a plant which does no packaging of fluid milk products, or disposition from any building or facility other than a plant shall be considered as a continuation of the route(s) of the plant where such fluid milk products are packaged.

§ 999.2 Definitions of persons.

(a) "Person" means any individual, partnership, corporation, association, or any other business unit;

(b) "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States authorized to exercise the powers and perform the duties of the Secretary of Agriculture;

(c) "Dairy farmer" means any person who produces milk which is moved from his farm to a plant other than as packaged milk;

(d) "Dairy farmer for other markets" means any person described in subparagraph (1), (2) or (3) of this paragraph:

(1) Any dairy farmer with respect to milk which is purchased from him by a dealer who does not operate any regulated plant during the month and which milk is moved to another dealer's regulated plant directly from the dairy farmer's farm, except that the term shall not apply to any dairy farmer with respect to milk which is considered as receipts from a producer under the provisions of another Federal order.

(2) Any dairy farmer with respect to milk which is purchased from him by a handler and moved to a regulated plant, if that handler caused milk from the same farm to be moved as nonpool milk to any plant during the same month, except that the term shall not apply to any dairy farmer with respect to milk which is considered as receipts from a producer under the provisions of another Federal order.

(3) Any dairy farmer whose milk is received by a handler at a regulated plant during any of the months of December through June from a farm from which the handler received nonpool milk during any of the preceding months of July through November, except that the term shall not apply if all such nonpool milk was considered as receipts from a producer under another New England Federal order or of own production of a producer-handler under any New England Federal order.

(4) As used in this paragraph, the terms "handler" and "dealer" include affiliates of, and persons who control or are controlled by, the handler or dealer.

(e) "Producer" means any dairy farmer whose milk is moved from his farm to a pool plant, or to any other plant as diverted milk; except that the term shall not include any person who is a producer-handler under this or any other Federal order, a dairy farmer for other markets, nor a dairy farmer with respect to milk which is considered as receipts from a producer under the provisions of another Federal order.

(f) "Association of producers" means any cooperative marketing association which the Secretary determines to be qualified pursuant to the provisions of the act of Congress of February 18, 1922, known as the "Capper-Volstead Act," and to be engaged in making collective sales or marketing of milk or its products for the producers thereof.

(g) "Dealer" means any person, who during the month operates a plant at which he engages in the business of receiving fluid milk products for resale or manufacture into milk products, whether or not he disposes of any fluid milk products in the marketing area.

(h) "Handler" means: (1) Any person who, during the month, operates a pool plant or any other plant from which fluid milk products are disposed of, directly or indirectly, in the marketing area, or (2) any person in his capacity as a subdealer, vendor, or peddler selling fluid milk products on routes from such plants.

(i) "Pool handler" means any handler who operates a pool plant.

(j) "Producer-handler" means any person meeting the conditions of subparagraph (1) or (2) of this paragraph who is both a dairy farmer and a handler, processing milk from his own production and distributing all or a portion of such milk in the marketing area on routes: *Provided*, That the maintenance, care and management of the dairy herd and other resources and facilities necessary to produce the milk and the processing, packaging and distribution of the milk are the personal enterprise and risk of such person and a greater proportion of fluid milk products are distributed in this marketing area or routes than in any other Federal order marketing area:

(1) Whose own farm production or Class I sales, whichever is less, does not exceed 2,150 pounds on a daily average during the month and whose only source of supply for fluid milk products is milk of his own farm production and fluid milk products from regulated plants under any of the New England Federal orders, or

(2) Whose only source of supply for fluid milk products is milk of his own farm production and fluid milk products from regulated plants under any of the New England Federal orders in an amount not in excess of two percent of own farm production.

§ 999.3 Definitions of plants.

(a) "Plant" means the land and buildings, together with their surroundings, facilities and equipment, constituting a single operating unit or establishment which is operated exclusively by one or more persons engaged in the business of handling fluid milk products for resale or manufacture into milk products, and which is used for the handling or processing of milk or milk products, except that this definition shall not include any separate building, premise, equipment or facility used primarily to hold or store packaged fluid milk products in transit on routes.

(b) "City plant" means any plant which is located within 10 miles of the marketing area.

(c) "Country plant" means any plant which is located beyond 10 miles of the marketing area.

(d) "Receiving plant" means any plant at which facilities are maintained and used for washing and sanitizing cans or tank trucks and to which milk is moved from dairy farmers' farms in cans and is there accepted, weighed or measured, sampled, and cooled; or to which milk is moved from dairy farmers' farms in tank trucks and is there transferred to stationary equipment in the building or to other vehicles.

(e) "Pool plant" means any receiving plant which meets the applicable conditions and requirements for pool plant status contained in §§ 999.20 and 999.21, except a pool plant under another Federal order, or the plant of a producer-handler under any Federal order.

(f) "Distributing plant" means any plant from which fluid milk products processed and packaged at the plant are distributed in the marketing area on routes.

(g) "Regulated plant" means: (1) Any pool plant, or (2) any other plant (except the plant of a producer-handler under any Federal order) in any month in which at least 50 percent of its total receipts of fluid milk products is disposed of as Class I milk and not less than 10 percent of such receipts is disposed of in the marketing area on routes, unless the market administrator determines that such plant disposes of a greater percentage of its Class I milk in another Federal order marketing area on routes.

(h) "Supply plant" means any receiving plant, other than a regulated distributing plant, from which fluid milk products are shipped in bulk to a distributing plant.

(i) "Other Federal order plant" means a pool plant under another Federal order, or any plant which is not a regulated plant under the provisions of this order but at which all fluid milk products handled become subject to the classification and pricing provisions of a Federal milk order.

§ 999.4 Definitions of milk and milk products.

(a) "Milk" means the commodity received from a dairy farmer as cow's milk. The term also includes milk so received which later has its butterfat content adjusted to at least one-half of one percent but less than 10 percent; frozen milk; reconstituted milk; and 50 percent of the quantity by weight of "half and half".

(b) "Fluid milk products" means milk, flavored milk, skim milk, flavored skim milk, cultured skim milk, buttermilk, and concentrated milk, either individually or collectively.

(c) "Packaged fluid milk products" means fluid milk products which have been placed in containers for disposition to retail or wholesale outlets.

(d) "Skim milk" means that fluid product of milk which remains after the removal of cream, and which contains less than one-half of one percent of butterfat.

(e) "Half and half" means any fluid milk product, except concentrated milk, the butterfat content of which has been adjusted to at least 10 percent but less than 16 percent.

(f) "Concentrated milk" means the concentrated, unsterilized milk product, resembling plain condensed milk, which is disposed of to retail or wholesale outlets in fluid form for human consumption.

(g) "Cream" means that portion of milk, containing not less than 16 percent of butterfat, which rises to the surface of milk on standing, or is separated from it by centrifugal force. The term also includes sour cream; frozen cream; milk and cream mixtures containing 16 percent or more of butterfat; and 50 percent of the quantity, by weight, of "half and half".

(h) "Producer milk" means milk which a handler has received as milk from producers. The quantity of milk received by a handler from producers shall include any milk of a producer which was not received at a plant but which the handler or an agent of the handler has accepted, measured, sampled, and transferred from the producer's farm tank into a tank truck during the month, and such milk shall be considered as received at the pool plant at which other milk from the same farm of that producer is received by the handler during the month.

(i) "Outside milk" means:

(1) All receipts of fluid milk products from sources other than producers, regulated plants, and other Federal order plants, but not including receipts of exempt milk.

(2) All other receipts of milk products, whether or not originally derived from producer milk, which are not fluid milk products but are combined with or converted into fluid milk products, and including cream or other such milk products received or produced at the handler's plant during a prior month.

(j) "Exempt milk" means:

(1) Milk received at a regulated plant in bulk from an unregulated plant to be processed and packaged, and for which an equivalent quantity of packaged fluid milk products is returned to the operator of the unregulated plant during the same month, if such receipt of bulk milk and return of packaged fluid milk products occur during an interval in which the facilities of the unregulated plant at which the milk is usually processed and packaged are temporarily unusable because of a fire, flood, storm, or similar extraordinary circumstances completely beyond the dealer's control; or

(2) Packaged fluid milk products received at a regulated plant from an unregulated plant in return for an equivalent quantity of bulk milk moved from a regulated plant for processing and packaging during the same month, if such movement of bulk milk and receipt of packaged fluid milk products occur during an interval in which the facilities of the regulated plant at which the milk is usually processed and packaged are temporarily unusable because of a fire, flood, storm, or similar extraordinary circumstance completely beyond the handler's control, or

(3) Milk produced and processed in accordance with the standards of purity and quality for certified milk established by the American Association of Medical Milk Commissions and disposed of as packaged certified milk or packaged certified skim milk.

(k) "Diverted milk" means milk which a pool handler reports as having been moved from a dairy farmer's farm to one of his pool plants, but which he caused to be moved from that farm to another plant, provided such movement is specifically reported and the conditions of subparagraph (1) or (2) of this paragraph have been met. Diverted milk shall be considered to have been received at the pool plant from which it was diverted.

(1) The handler caused milk from that farm to be moved to such pool plant on a majority of the delivery days, during the 12 months ending with the current month, on which the handler either caused milk to be moved from the farm, as producer milk or caused milk to be moved as producer milk from the farm by tank truck; or

(2) The handler caused the milk to be moved from that farm in a tank truck in which it was intermingled with milk from other farms, the milk from a majority of which farms was diverted from the same pool plant during the month in accordance with the preceding provisions of this paragraph.

Market Administrator

§ 999.10 Designation of market administrator.

The agency for the administration of this part shall be a market administrator selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 999.11 Powers of market administrator.

The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To make rules and regulations to effectuate its terms and provisions;

(c) To receive, investigate, and report to the Secretary complaints of violations of its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 999.12 Duties of market administrator.

The market administrator, in addition to the duties described in other sections of this part, shall:

(a) Within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond conditioned upon the faithful performance of his duties, in an amount and with sureties thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to exercise his powers and perform his duties;

(c) Pay, out of the funds provided by § 999.72, the cost of his bond, his own compensation, and all other expenses necessarily incurred in the maintenance and functioning of his office;

(d) Keep such books and records as will clearly reflect the transactions provided for in this part and surrender the same to his successor, or to such other person as the Secretary may designate;

(e) Prepare and disseminate for the benefit of producers, consumers, and handlers, statistics and information concerning the operation of this part;

(f) Promptly verify the information contained in the reports submitted by handlers; and

(g) Confirm of the producers delivering to a plant as reported by the handler prompt written notice of his actual or potential loss of producer status for the first month in which the plant's status has changed or is changing to that of a nonpool plant.

Classification

§ 999.15 Classes of utilization.

All milk and milk products received by a handler shall be classified as Class I milk or Class II milk. Subject to §§ 999.16 and 999.17, the classes of utilization shall be as follows:

(a) Class I milk shall be:

(1) All milk and milk products sold, distributed, or disposed of as or in milk;

(2) All milk and milk products sold, distributed, or disposed of for human consumption as or in flavored milk, skim milk, flavored or cultured skim milk, or buttermilk;

(3) Ninety-eight percent, by weight, of the milk and milk products used to produce concentrated milk; and

(4) All milk and milk products the utilization of which is not established as Class II milk.

(b) Class II milk shall be all milk and milk products the utilization of which is established:

(1) As being sold, distributed, or disposed of other than as specified in subparagraphs (1), (2), and (3) of paragraph (a) of this section; and

(2) As plant shrinkage, not in excess of 2 percent of the volume of fluid milk products and cream handled.

§ 999.16 Classification of fluid milk products moved to other plants.

Any fluid milk products moved from a regulated plant to any other plant shall be classified as follows:

(a) As Class I milk if moved as packaged fluid milk products to any other plant;

(b) As Class I milk if moved to the plant of a producer-handler under any Federal order;

(c) In the class to which it is assigned under §§ 999.25 and 999.26 if moved as bulk fluid milk products to any other handler's regulated plant;

(d) In the class to which assigned under the other order, if moved as bulk fluid milk products to a regulated plant under another New England Federal order or the New York-New Jersey order;

(e) As Class I milk up to the total quantity of the same form of fluid milk products so moved which is utilized as Class I milk at the transferee plant, if moved as bulk fluid milk products to any plant other than a regulated plant under any New England Federal order or the New York-New Jersey order or the plant of a producer-handler under any Federal order; and

(f) As Class I milk if moved as bulk fluid milk products to any plant other than a regulated plant under any New England Federal order or the New York-New Jersey order and thence to another plant located outside the New England States and New York State.

§ 999.17 Responsibility of handlers in establishing the classification of milk.

The burden rests upon the handler who operates a plant to account for any milk and milk products received or available at the plant, and to prove that they should not be classified as Class I milk.

Determination of Pool Plant Status

§ 999.20 Basic pooling requirements.

Each receiving plant shall be considered to have met the basic pooling requirements in any month in which it meets the applicable conditions of this section.

(a) It is a distributing plant with total Class I disposition of at least 50 percent of its total receipts of fluid milk products and Class I route disposition in the marketing area of not less than 10 percent of its receipts from dairy farmers, and such route disposition in the marketing area exceeds its Class I route disposition in any other New England Federal marketing area.

(b) It is a plant located in the marketing area which is operated by an association of producers and the Class I route disposition from the plant does not exceed 2 percent of the total receipts of fluid milk products at the plant.

(c) It is a supply plant from which at least 30 percent of its total receipts of milk from dairy farmers is shipped as bulk fluid milk products to regulated distributing plants.

§ 999.21 Supplementary pooling provisions for supply plants.

(a) Any supply plant shall have automatic pool plant status in any of the months of December through June, regardless of whether any fluid milk products are shipped to distributing plants during the month, if in each of the preceding months of July through November it was a pool plant or would have been a pool plant had it not been a pool plant under another New England Federal order, unless:

(1) The plant has automatic pool plant status for such month under another New England Federal order and a greater quantity of the receipts from dairy farmers at the plant during the preceding July through November period was pooled under the other order than was pooled under this part;

(2) The plant is designated as a nonpool plant pursuant to paragraph (e) of this section; or

(3) The plant was a nonpool plant under all of the New England Federal orders in a prior month of the current December through June period.

(b) Any supply plant shall have automatic pool plant status in any of the months of December through June, regardless of whether any fluid milk products are shipped to distributing plants during the month, if it was a pool plant under one or another of the New England Federal orders during each of the preceding months of July through November and a greater quantity of its receipts from dairy farmers during the July through November period was pooled under this order than under any other New England Federal order. However, no plant shall have automatic pool plant status under this paragraph for any month of such December through June period subsequent to a month for which the plant is designated as a nonpool plant pursuant to paragraph (e) of this section.

(c) Any supply plant, except a plant which has automatic pool plant status for such month under paragraph (a) or (b) of this section, shall be a nonpool plant in any month in which it meets the conditions and requirements for pool plant status under another New England Federal order and ships a greater quantity of bulk fluid milk products to regulated distributing plants under that order than it ships to regulated distributing plants under this part. However, no plant shall be barred from pool plant status under this paragraph for any month in which the greater quantity of such shipments is made to regulated distributing plants under the Boston order but the plant is designated as a nonpool plant under that order at the handler's request.

(d) Any supply plant shall be a nonpool plant in each of the months of December through June if it was a nonpool receiving plant under each of the New England Federal orders during any of the preceding months of July through November in which it was operated by the same handler, an affiliate of the handler, or any person who controls or is controlled by the handler, except as it was then operated as a producer-handler's plant under any New England Federal order.

(e) A supply plant shall be a nonpool plant in any of the months of December through June for which the market administrator has received, on or before the 16th day of the month, the handler's written request that the plant be designated as a nonpool plant for that month.

Assignment of Receipts to Classes

§ 999.25 Assignment of receipts at regulated plants to Class I milk.

Receipts at regulated plants shall be assigned to Class I milk in the following sequence:

(a) Receipts of exempt milk;

(b) Receipts from other Federal order plants of packaged fluid milk products classified and priced as Class I milk under the other Federal order;

(c) Receipts from other handlers' regulated plants of packaged fluid milk products;

(d) Receipts from regulated plants under the Boston order of bulk fluid milk products classified as Class I milk under the Boston order;

(e) Receipts from other handlers' regulated city plants of bulk fluid milk products, for which classification as Class II milk has not been requested by both handlers;

(f) Receipts from producers at each of the handler's country pool plants to the extent of the quantity of Class I milk disposed of outside the marketing area without being received at a city plant;

(g) Receipts from producers at the handler's city plant;

(h) Receipts from other handlers' regulated country plants of bulk fluid milk products, for which classification as Class II milk has not been requested by both handlers, in the order of the nearness of the originating plants to Worcester according to their zone locations;

(i) Receipts from producers at the handler's country plants not assigned pursuant to paragraph (f) of this section, in the order of the nearness of the plants to Worcester according to their zone locations;

(j) Receipts from other handlers' regulated plants of bulk fluid milk products not assigned to Class I milk under paragraphs (e) and (h) of this section, in the order of the nearness of the originating plants to Worcester according to their zone locations;

(k) Receipts from other Federal order plants of bulk fluid milk products not assigned to Class I milk under paragraph (d) of this section but subject to classification and pricing as Class I milk under the other Federal order if assigned to Class I milk under this part. If there are receipts from more than one other Federal order market, the remaining Class I milk shall be prorated between the originating markets, except that if the handler has Class I route disposition in an originating market, the receipts from such market shall take priority of assignment to any residual Class I use up to the total quantity of Class I route disposition in such market by the handler;

(l) Receipts from other Federal order plants of fluid milk products not assigned to Class I milk under paragraphs (b), (d), and (k) of this section;

(m) Receipts of outside milk in the form of fluid milk products, in the order of the nearness of the unregulated plants to Worcester according to their zone locations; and

(n) All other receipts, or available quantities of fluid milk products, from whatever source derived.

§ 999.26 Assignment of receipts at regulated plants to Class II milk.

Receipts at regulated plants of milk and milk products which are not assigned to Class I milk pursuant to § 999.25 shall be assigned to Class II milk.

Reports of Handlers

§ 999.30 Pool handlers' reports of receipts and utilization.

On or before the 8th day after the end of each month each pool handler shall, with respect to the milk products received by the handler during the month report to the market administrator in the detail and form prescribed by the market administrator, as follows:

(a) The receipts of milk at each pool plant from producers, including the quantity, if any, received from his own production;

(b) The receipts of fluid milk products at each plant from any other handler, assigned to classes pursuant to §§ 999.25 and 999.26;

(c) The receipts of outside milk and exempt milk at each plant; and

(d) The quantities from whatever source derived which were sold, distributed, or used, including sales to other handlers and dealers, classified pursuant to §§ 999.15 through 999.17.

§ 999.31 Reports of nonpool handlers.

Each nonpool handler shall file with the market administrator reports relating to his receipts and utilization of fluid milk products. The reports shall be made at the time and in the manner prescribed by the market administrator, except that any handler who receives outside milk during any month shall file the report on or before the 8th day after the end of the month.

§ 999.32 Reports regarding individual producers.

(a) Within 20 days after a producer moves from one farm to another, starts or resumes deliveries to any of a handler's pool plants, or starts delivering his milk to the handler's plant by tank truck, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the change took place, and the farm and plant locations involved. The report shall also state, if known, the plant to which the producer had been delivering prior to, starting or resuming deliveries.

(b) Within 15 days after the 5th consecutive day on which a producer has failed to deliver to any of a handler's pool plants, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the last delivery was made, and the farm and plant locations involved. The report shall also state, if known, the reason for the producer's failure to continue deliveries.

§ 999.33 Reports of payments to producers.

Each pool handler shall submit to the market administrator, within 10 days after his request made not earlier than 20 days after the end of the month, his producer payroll for such month, which shall show for each producer:

(a) The daily and total pounds of milk delivered with the average butterfat test thereof; and

(b) The net amount of such handler's payments to such producer with the prices, deductions, and charges involved.

§ 999.34 Maintenance of records.

Each handler shall maintain detailed and summary records showing all receipts, movements, and disposition of milk and milk products during the month, and the quantities of milk and milk products on hand at the end of the month.

§ 999.35 Verification of reports.

For the purpose of ascertaining the correctness of any report made to the market administrator as required by this part or for the purpose of obtaining the information required in any such report where it has been requested and has not been furnished, each handler shall permit the market administrator or his agent, during the usual hours of business, to:

(a) Verify the information contained in reports submitted in accordance with this order;

(b) Weigh, sample, and test milk and milk products; and

(c) Make such examination of records, operations, equipment, and facilities as the market administrator deems necessary for the purpose specified in this section.

§ 999.36 Retention of records.

All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c(15)(A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. The market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

§ 999.37 Notices to producers.

Each pool handler shall furnish each producer from whom he receives milk with information regarding the daily weight and composite butterfat test of the producer's milk, as follows:

(a) Within 3 days after each day on which he receives milk from the producer, the handler shall give the producer written notice of the daily quantity so received.

(b) Within 7 days after the end of any sampling period for which the composite butterfat test of the producer's milk was determined, the handler shall give the producer written notice of such composite test.

Minimum Class Prices

§ 999.40 Class I price at city plants.

The Class I price per hundredweight at city plants shall be the New England basic Class I price per hundredweight determined for each month pursuant to § 999.48 plus 54 cents.

§ 999.41 Class II price at city plants.

The Class II price per hundredweight at city plants shall be the Class II price determined for each month pursuant to § 904.41 of the Boston order plus 5.8 cents.

§ 999.42 Country plant zone price differentials.

In the case of receipts at country plants, the prices determined pursuant to §§ 999.40, 999.41 and 999.51 shall be subject to zone price differentials based upon the zone location of the plant at which the milk is received from producers.

(a) The zone location of each country plant shall be based upon its highway mileage distance to Worcester as determined by use of the appropriate State maps contained in Mileage Guide No. 6, and revisions thereof, issued by Household Goods Carriers' Bureau, Agent, Washington, D.C. The distance shall be the lowest highway mileage between Worcester and the named point on the map which is nearest to the plant, over roads designated thereon as paved, first-class, all-weather roads. In the event that the named point is not located on a through first-class road, such other roads shall be used to reach a through first-class road as will result in the lowest highway mileage to Worcester, except that such other roads shall not be used for a distance of more than 15 miles if it is otherwise possible to connect with a through first-class road. In any instance in which the map does not clearly show the mileage between points on a road, the mileage used shall be the mileage as determined by the highway authority for the State in which the road is located.

(b) The zone price differentials for each country plant shall be those applicable to its zone location as shown in the following table.

Country Plant Zone Price Differentials

A	B	C	D
Distance to Worcester (miles)	Zone	Class I and blended price differentials (cents per hundredweight)	Class II price differentials (cents per hundredweight)
40 or less	4	−17.0	−2.0
41 to 50	5	−34.8	−2.0
51 to 60	6	−36.0	−3.0
61 to 70	7	−37.2	−3.0
71 to 80	8	−38.4	−3.0
81 to 90	9	−39.6	−3.0
91 to 100	10	−40.8	−3.0
101 to 110	11	−42.0	−4.5
111 to 120	12	−43.2	−4.5
121 to 130	13	−44.4	−4.5
131 to 140	14	−45.6	−4.5
141 to 150	15	−46.8	−4.5
151 to 160	16	−48.0	−6.0
161 to 170	17	−49.2	−6.0
171 to 180	18	−50.4	−6.0
181 to 190	19	−51.6	−6.0
191 to 200	20	−52.8	−6.0
201 to 210	21	−54.0	−7.0
211 to 220	22	−55.0	−7.0
221 to 230	23	−56.0	−7.0
231 to 240	24	−57.0	−7.0
241 to 250	25	−58.0	−7.0
251 to 260	26	−59.0	−8.0
261 to 270	27	−60.0	−8.0
271 to 280	28	−61.0	−8.0
281 to 290	29	−62.0	−8.0
291 to 300	30	−63.0	−8.0
301 and over	31 and over	(1)	−8.0

[1] Class I and blended price differentials applicable to plants located more than 300 miles from Worcester shall be obtained by extending the table at the rate of one cent for each additional 10 miles, except that in no event shall the Class I or blended price at any zone be less than the Class II price for the month for plants in such zone.

§ 999.44 Use of equivalent factors in formulas.

If for any reason a price, index, or wage rate specified by this part for use in computing class prices for any other purposes is not reported or published in the manner described in this part, the market administrator shall use a price, index, or wage rate determined by the Secretary to be equivalent to or comparable with the factor which is specified.

§ 999.45 Announcement of class prices.

The market administrator shall make public announcements of the class prices as follows:

(a) He shall announce the Class I price for each month on the 25th day of the preceding month, except that if such 25th day is a Sunday or legal holiday he shall announce the Class I price on the next succeeding work day.

(b) He shall announce the Class II price on or before the 5th day after the end of each month.

New England Basic Price Formula

§ 999.48 Computation of New England basic Class I price.

The New England basic Class I price per hundredweight of milk containing 3.7 percent butterfat shall be determined for each month pursuant to this section. The latest reported figures available to the market administrator on the 25th day of the preceding month shall be used in making the following computations, except that if the 25th day of the preceding month falls on a Sunday or legal holiday the latest figures available on the next succeeding work day shall be used.

(a) Compute the economic index as follows:

(1) Divide by 1.190 the monthly wholesale price index for all commodities as reported by the Bureau of Labor Statistics, United States Department of Labor, with the years 1947–49 as the base period.

(2) Using the data on per capita personal income, by States and regions, as published by the United States Department of Commerce, establish a "New England adjustment percentage" by computing the current percentage relationship of New England per capita personal income to per capita personal income in continental United States. Multiply by the New England adjustment percentage the quarterly figure showing the current annual rate of per capita disposable personal income in the United States as released by the United States Department of Commerce or the Council of Economic Advisers to the President. Divide the result by 20.50 to determine an index of per capita disposable personal income in New England.

(3) Multiply by 20 the average price per 100 pounds paid by farmers in the New England region for all mixed dairy feed of less than 29 percent protein content as reported by the United States Department of Agriculture for the month and divide the result by .8062 to determine the dairy ration index. Compute the average, weighted by the indicated factors, of the following farm wage rates reported for the New England region by the United States Department of Agriculture: Rate per month with board and room, 1; rate per month with house, 1; rate per week with board and room, 4.33; rate per week without board or room, 4.33; and the rate per day without board or room, 26. Divide the average wage rate so computed by 1.9633 to determine the wage rate index. Multiply the dairy ration index by 0.6 and the wage rate index by 0.4 and combine the two results to determine the grain-labor cost index.

(4) Divide by 7 the sum of three times the wholesale price index, the index of per capita disposable income in New England, and three times the grain-labor cost index determined pursuant to this paragraph. The result shall be known as the economic index.

(b) Compute an economic index price as follows:

(1) Multiply the economic index by $.0567, expressing the result to the nearest mill;

(2) Divide the Class I–A price for the month determined pursuant to Federal Order No. 27 and applicable to the 201–210 mile freight zone for 3.5 percent milk by the product of the utilization adjustment percentage and the seasonal adjustment factor which entered into the computation thereof, and then add $0.08, expressing the result to the nearest mill;

(3) The economic index price shall be the price computed in subparagraph (1) of this paragraph, unless the difference between the result computed in subparagraph (1) of this paragraph and the result computed in subparagraph (2) of this paragraph exceeds 11 cents. In that event, the economic index price shall be the price computed pursuant to subparagraph (1) of this paragraph minus the amount of the excess above 11 cents if the result under subparagraph (1) of this paragraph is the greater, and plus the amount of the excess above 11 cents if the result under subparagraph (2) of this paragraph is the greater.

(c) Compute a supply-demand adjustment factor as follows:

(1) Combine into separate monthly totals the receipts from producers for Greater Boston, Connecticut, Southeastern New England, Springfield, and Worcester and the Class I milk from producers for the same markets as announced by the respective market administrators in the statistical reports for such markets for the second and third months preceding the month for which the price is being computed.

(2) Divide the five-market total of Class I producer milk by the five-market total of receipts from producers for each of the two months for which computations were made pursuant to subparagraph (1) of this paragraph.

(3) Divide each of the percentages determined in subparagraph (2) of this paragraph into the following base Class I percentage for the respective month, multiply each result by 100, and compute a simple average of the resulting percentages. The result shall be known as the percentage of base supply.

Month:	Base Class I percentage
January	71.6
February	69.8
March	65.1
April	61.1
May	55.5
June	56.7
July	69.3
August	74.7
September	75.8
October	76.5
November	77.9
December	73.0

(4) The supply-demand adjustment factor shall be the figure in the following table opposite the bracket within which the percentage of base supply falls. When the percentage of base supply falls in an interval between brackets, the supply-demand adjustment factor shall be the figure shown for the next higher bracket if the factor for the previous month was based on a bracket higher than such interval, and shall be the figure for the next lower bracket if the factor for the previous month was based on a bracket lower than such interval.

Percentage of base supply: [1]	Supply-demand adjustment factor
90.5–91.5	1.06
92.0–93.0	1.05
93.5–94.5	1.04
95.0–96.0	1.03
96.5–97.5	1.02
98.0–99.0	1.01
99.5–100.5	1.00
101.0–102.0	.99
102.5–103.5	.98
104.0–105.0	.97
105.5–106.5	.96
107.0–108.0	.95
108.5–109.5	.94

[1] If the percentage of base supply calculated according to subparagraph (4) of this paragraph falls outside the extremes shown in this column, the supply-demand adjustment factor shall be determined by extending the table at the indicated rate of extension.

(d) The seasonal adjustment factor shall be the factor listed below for the month for which the price is being computed.

Month:	Seasonal adjustment factor
January and February	1.04
March	1.00
April	.92
May and June	.88
July	.96
August	1.00
September	1.04
October, November, and December	1.08

(e) Multiply the Economic Index price determined pursuant to paragraph (b) of this section by the product of the supply-demand adjustment factor determined pursuant to paragraph (c) of this section times the seasonal adjustment factor determined pursuant to paragraph (d) of this section. The New England basic Class I price shall be the price set forth in column 3 of the following table opposite the range within which the result of this computation falls.

Range		New England basic Class I price
At least—	But less than—	
[1] $4.88	$5.08	$4.97
5.08	5.20	5.19
5.20	5.32	5.41
5.32	5.74	5.63
5.74	5.96	5.85
5.96	6.18	6.07
6.18	6.40	6.29
6.40	6.62	6.51
6.62	6.84	6.73
6.84	[1] 7.06	6.95

[1] If the result of the computation specified in this paragraph is less than $4.88 or is $7.06 or more, the New England basic Class I price shall be determined by extending the table at the indicated rate of extension.

(f) Notwithstanding the provisions of the preceding paragraphs of this section, the New England basic Class I price for November or December of each year shall not be lower than such price for the immediately preceding month.

BLENDED PRICES TO PRODUCERS

§ 999.50 Computation of value of milk received from producers.

For each month, the market administrator shall compute the value of milk received from producers by each pool handler in the following manner:

(a) Multiply the quantities of milk received from producers assigned to Class I milk pursuant to § 999.25 by the applicable prices pursuant to §§ 999.40 and 999.42;

(b) Multiply the quantities of milk received from producers assigned to Class II milk pursuant to § 999.26 by the applicable prices pursuant to §§ 999.41 and 999.42; and

(c) Add together the resulting value of each class.

§ 999.51 Computation of the basic blended price.

The market administrator shall compute the basic blended price per hundredweight of milk delivered during each month in the following manner:

(a) Combine into one total the respective net values of milk computed pursuant to §§ 999.50 and the payments required pursuant to § 999.65 for each handler from whom the market administrator has received at his office, prior to the 11th day after the end of such month, the report for such month and the payments required pursuant to §§ 999.61(b) and 999.65, for the preceding month;

(b) Add the amount of reserved cash on hand at the close of business on the 10th day after the end of the month from payments made to the market administrator by handlers pursuant to §§ 999.61, 999.62, 999.65 and 999.67;

(c) Deduct the amount of the plus differentials, and add the amount to the minus differentials, which are applicable pursuant to § 999.64;

(d) Divide by the total quantity of pool milk for which a value is determined pursuant to paragraph (a) of this section; and

(e) Subtract not less than 4 cents nor more than 5 cents for the purpose of retaining a cash balance in connection with the payments set forth in §§ 999.61 and 999.62. This result, which is the minimum blended price for milk containing 3.7 percent butterfat received from producers at city plants, shall be known as the basic blended price.

§ 999.52 Announcement of blended prices.

On the 12th day after the end of each month the market administrator shall mail to all pool handlers and shall publicly announce:

(a) Such of these computations as do not disclose information confidential pursuant to the act;

(b) The zone blended prices per hundredweight resulting from adjustment of the basic blended prices by the differentials pursuant to § 999.64; and

(c) The names of the pool handlers, designating those whose milk is not included in the computations because of failure to make reports or payments pursuant to this part.

PAYMENTS FOR MILK

§ 999.60 Advance payments.

On or before the 5th day after the end of each month, each pool handler shall make payment to producers for the approximate value of milk received during the first 15 days of such month. In no event shall such advance payment be at a rate less than the Class II price for such month.

§ 999.61 Final payments.

Each pool handler shall make payment for the total value of milk received during such month as required to be computed pursuant to § 999.50, as follows:

(a) On or before the 20th day after the end of each month, to each producer at not less than the basic blended price per hundredweight, subject to the differentials provided in §§ 999.63 and 999.64, for the quantity of milk delivered by such producer; and

(b) To producers, through the market administrator, by paying to the market administrator on or before the 18th day after the end of each month, or receiving from the market administrator on or before the 20th day after the end of each month, as the case may be, the amount by which the payments at the basic blended price adjusted by the plant and farm location differentials provided in § 999.64 are less than or exceed the value of milk as required to be computed for each such handler pursuant to § 999.50, as shown in a statement rendered by the market administrator on or before the 15th day after the end of such month.

§ 999.62 Adjustments of errors in payments.

(a) Whenever verification by the market administrator of reports or payments of any handler discloses an error in payments made pursuant to §§ 999.61(b) and 999.65, the market administrator shall promptly issue to the handler a charge bill or a credit, as the case may be, for the amount of the error. Adjustment charge bills issued during the period from the 11th day of the prior month through the 10th day of the current month shall be payable by the handler to the market administrator on or before the 18th day of the current month. Adjustment credits issued during such period shall be payable by the market administrator to the handler on or before the 20th day of the current month.

(b) Whenever verification by the market administrator of the payment to any producer for milk delivered to any handler discloses payment to such producer of an amount less than is required by § 999.61(a), the handler shall make up such payment to the producer not later than the time of making final payment for the month in which such error is disclosed.

§ 999.63 Butterfat differential.

Each handler shall, in making payments to each producer for milk received from him, add for each one-tenth of 1 percent of average butterfat content above 3.7 percent, or deduct for each one-tenth of 1 percent of average butterfat content below 3.7 percent, the amount per hundredweight determined for the corresponding month pursuant to § 904.63 of this chapter.

§ 999.64 Location differentials.

The payments to be made to producers by handlers pursuant to § 999.61(a) shall be subject to the differentials set forth in Column C of the table in § 999.42, and to further differentials as follows:

(a) With respect to milk delivered by a producer whose farm is located in Franklin, Hampshire, Hampden, Worcester, Middlesex, or Norfolk Counties in Massachusetts, or in the towns of Brookline, Greenville, Hinsdale, Hollis, Mason, and New Ipswich in New Hampshire, or Vernon, Vermont, there shall be added 46 cents per hundredweight, unless such addition gives a result greater than the Class I price pursuant to §§ 999.40 and 999.42 which is effective at the plant to which such milk is delivered, in which event there shall be added an amount which will give, as a result, such price.

§ 999.65 Payments on outside milk and receipts from other Federal order plants.

Within 18 days after the end of each month, handlers shall make payments to producers, through the market administrator as follows:

(a) Each handler operating a regulated plant at which there are assigned to Class I milk receipts of outside milk, or receipts from other Federal order plants which are not classified and priced as Class I milk under the other Federal order, shall make payment as follows:

(1) On such receipts assigned pursuant to § 999.25 (l) or (m), at the difference between the price pursuant to § 999.40 and the price pursuant to § 999.41 applicable at the zone location of the unregulated plant. Receipts from each dairy farmer for other markets shall be considered as receipts from the unregulated plant to which he ordinarily delivered; and

(2) On quantities assigned pursuant to § 999.25(h) at the difference between the price pursuant to § 999.40 and the price pursuant to § 999.41 applicable at the handler's regulated plant nearest to Worcester.

(b) Each handler, except a producer-handler under any Federal order, who operates an unregulated plant from which there is Class I route disposition in the marketing area shall make payment at the difference between the price pursuant to § 999.40 and the price pursuant to § 999.41 applicable at the zone location of the handler's plant on the quantity of such disposition which is in excess of the receipts at the plant of fluid milk products classified and priced as Class I milk under any Federal order, except that the same receipts of priced milk shall not be used to offset Class I route disposition in this marketing area and in any other Federal marketing area.

§ 999.66 Deductions from payments to producers.

In making payments to producers as required by §§ 999.60 and 999.61(a), the burden shall rest upon the handler making deductions from such payments to prove that each deduction is properly authorized, and properly chargeable to the producer.

§ 999.67 Adjustment of overdue accounts.

Any balance due, pursuant to §§ 999.61, 999.62 and 999.65, to or from the market administrator on the 20th day of any month, for which remittance has not been received in, or paid from, his office by the close of business on that day, shall be increased one-half of one percent effective the 21st day of such month: *Provided*, That any remittance received by the market administrator after the 20th day of any month in an envelope which is postmarked not later than the 18th day of such month, shall be considered under this section to have been received by the 20th of the month.

§ 999.68 Statements to producers.

In making the payments to producers prescribed in § 999.61(a), each pool handler shall furnish each producer with a supporting statement in such form that it may be retained by the producer, which shall show:

(a) The month and the identity of the handler and of the producer;

(b) The total pounds and average butterfat test of milk delivered by the producer;

(c) The minimum rate or rates at which payment to the producer is required under the provisions of § 999.61(a);

(d) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(e) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deductions claimed under §§ 999.66, 999.70 and 999.71, together with a description of the respective deductions; and

(f) The net amount of payment to the producer.

MARKETING SERVICES

§ 999.70 Marketing service deduction—nonmembers of an association of producers.

In making payments to producers pursuant to § 999.61(a), each handler shall, with respect to all milk delivered by each producer other than himself during each month, except as set forth in § 999.71, deduct 3 cents per hundredweight, or such lesser amount as the Secretary shall determine to be sufficient, and shall, on or before the 18th day after the end of each month, pay such deductions to the market administrator. Such moneys shall be expended by the market administrator only in providing for market information to, and for verification of weights, samples, and tests of milk delivered by, such producers. The market administrator may contract with an association or associations of producers for the furnishing of the whole or any part of such services to, or with respect to the milk delivered by, such producers.

§ 999.71 Marketing service deduction—members of an association of producers.

In the case of producers who are members of an association of producers which the Secretary determines is performing the services set forth in § 999.70, each handler shall, in lieu of the deductions specified in § 999.70, make such deductions from payments made pursuant to § 999.61(a) as may be authorized by such producers and pay, on or before the 20th day after the end of each month, such deductions to such associations, accompanied by a statement showing the pounds of milk delivered by each producer from whom the deduction was made.

ADMINISTRATION EXPENSE

§ 999.72 Payment of administration expense.

Within 18 days after the end of each month, each handler shall make payment to the market administrator of his pro rata share of the expense of administration of this part. The payment shall be at the rate of 4 cents per hundredweight, or such lesser rate as the Secretary may from time to time prescribe, and shall apply to all of the handler's receipts, during the month, of milk from producers, of outside milk, and of exempt milk processed at a regulated plant.

OBLIGATIONS

§ 999.73 Termination of obligations.

The provisions of this section shall apply to any obligation under this part for the payment of money irrespective of when such obligation arose.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this order to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the act a petition claiming such money.

MISCELLANEOUS PROVISIONS

§ 999.80 Effective time.

The provisions of this order, or any amendments to its provisions, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 999.81.

§ 999.81 Suspension or termination.

The Secretary may suspend or terminate this order or any provision thereof whenever he finds that it obstructs or does not tend to effectuate the declared policy of the act. This part shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

§ 999.82 Continuing obligations.

If, upon the suspension or termination of any or all provisions of this part, there are any obligations arising under it, the final accrual or ascertainment of which requires further acts by any person, such

further acts shall be performed notwithstanding such suspension or termination.

§ 999.83 Liquidation after suspension or termination.

Upon the suspension or termination of any or all provisions of this part the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this part, over and above the amount necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 999.84 Agents.

The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

Milk in Connecticut Marketing Area

1. Delete paragraph (c) of § 1019.1 and substitute therefor the following:

(c) "Route" means any delivery to retail or wholesale outlets (including any disposition by a vendor, from a plant store, or to a vending machine) of fluid milk products classified as Class I milk pursuant to § 1019.21(a), other than in bulk to a plant or in packaged form to a plant which packages fluid milk products for Class I disposition: *Provided*, That disposition of packaged fluid milk products from a plant which does no packaging of fluid milk products, or disposition from any building or facility other than a plant, shall be considered as a continuation of the route(s) of the plant where such fluid milk products are packaged.

2. Delete paragraph (e) of § 1019.2 and substitute therefor the following:

(e) "Producer" means any dairy farmer (except a producer-handler under any Federal order or a dairy farmer who is a producer under another Federal order) who produces milk which is received during the month at a pool plant, or is diverted by a pool handler from a pool plant to a nonpool plant in accordance with subparagraph (1), (2) or (3) of this paragraph, if such pool handler, in filing the report required pursuant to § 1019.30, reports such milk as received from a producer at such pool plant: *Provided*, That any dairy farmer whose milk is diverted during any month of July through November, inclusive, on more than the number of days specified shall not be considered to qualify under this paragraph with respect to any of his deliveries of milk during such month.

(1) To a nonpool plant during any month of July through September on not more than 8 days (4 days in the case of every-other-day delivery) during such month.

(2) To a nonpool plant during any month of October through March on not more than 12 days (6 days in the case of every-other-day delivery) during such month.

(3) To a nonpool plant during any month of April through June.

3. Delete paragraph (g) of § 1019.2 and substitute therefor the following:

(g) "Handler" means (1) any person who during the month operates a pool plant or any other plant from which fluid milk products are disposed of directly or indirectly in the marketing area, (2) any person in his capacity as a subdealer, vendor or peddler selling fluid milk products on routes from such plants, or (3) any association of producers with respect to the milk of any producer which it causes to be diverted to a nonpool plant for the account of such association under the conditions of § 1019.2(e).

4. Insert the word "separate" immediately before the word "building" in the proviso of § 1019.3(a) and delete the words "or other milk products in finished form" as they appear in subparagraph (1) of such proviso.

5. Delete § 1019.3(e) and substitute therefor the following:

(e) "Pool plant" means (1) any receiving plant (except the plant of a producer-handler under any Federal order) from which at least 10 percent of its total receipts of milk directly from dairy farmers is disposed of during the month within the marketing area on routes and not less than 50 percent of its total receipts of fluid milk products is disposed of during the month as Class I milk, unless the market administrator determines that such plant disposed of a greater porportion of its Class I milk in another Federal order marketing area on routes than was so disposed of in this marketing area;

(2) Except as provided in subdivision (i) through (iv) of this subparagraph any receiving plant from which not less than 30 percent of its receipts of milk directly from dairy farmers is shipped during the month as fluid milk products to a pool plant qualified pursuant to subparagraph (1) of this paragraph or to a regulated plant other than a pool plant:

(i) During any of the months of July through November, any plant qualified as a pool plant pursuant to this subparagraph and also meeting the shipping requirements for pooling under another Federal order shall be exempt from the provisions of this order, except as provided in §§ 1019.30(b), 1019.31(b), 1019.33, and 1019.34, if the market administrator determines that a greater proportion of fluid milk products was shipped during such month to regulated plants under such other order unless such greater shipments were made to Boston regulated plants and the plant operator elects nonpool status under the Boston order during such month;

(ii) Any plant which was a pool plant pursuant to this subparagraph in each of the months of July through November or which held pooling status under one or another of the New England Federal orders in each month of such period but had the greater proportion of its producer receipts pooled under this order during such period shall be a pool plant in the immediately succeeding months of December through June, unless the operator thereof gives written notice to the market administrator on or before the 16th day of any such month that the plant is a nonpool plant for such month: *Provided*, That any such plant which was a nonpool plant in any of the months of July through November and for which nonpool status is requested for any month of December through June, or any plant which was a pool plant in each of such months of July through November, but which is operated as a nonpool plant under all of the New England Federal orders in any of the months of December through June shall be a pool plant in any subsequent month of such period only if it meets the shipping requirements pursuant to this subparagraph;

(iii) Any plant which was not a pool plant under this order during each of the months of July through November but which met the pooling requirements pursuant to this subparagraph in each of such months shall be a pool plant in any of the months of December through June, if written request for pooling status is made to the market administrator on or before the 16th day of such month and such plant is not a pool plant under another Federal order in such month, except that if such plant was a nonpool plant under all of the New England orders in any of the months of December through June it shall be a pool plant in any subsequent month of such period only if it meets the shipping requirements pursuant to this subparagraph;

(iv) Any plant which was a nonpool plant under all of the New England orders during any of the month of July through November shall not be a pool plant in any of the month of December through June in which it is operated by the same handler, an affiliate of the handler or any person who controls or is controlled by the handler, except as it was then operated as a producer-handler plant.

6. Add a new paragraph (d) at the end of § 1019.3 to read as follows:

(d) "Regulated plant" means (1) any pool plant, or (2) any other plant (except the plant of a producer-handler under any Federal order) in any month in which at least 50 percent of its total receipts of fluid milk products is disposed of as Class I milk and not less than 10 percent of such receipts is disposed of in the marketing area on routes, unless the market administrator determines that such plant disposes of a greater percentage of its Class I milk in another marketing area on routes.

7. Delete paragraph (g) (2) of § 1019.4 and substitute therefor the following:

(2) Received at a pool plant in the form of packaged fluid milk products from a nonpool plant in return for which an equivalent quantity of skim milk and butterfat in the form of bulk milk is moved from a pool plant for processing and packaging during the same month, if such receipt and return occurs during an interval in which the facilities of the pool plant at which the milk is usually processed and packaged are temporarily unusable because of fire, flood, storm, or similar extraordinary circumstances completely beyond the handler's control.

8. Delete the word "or" immediately preceding subparagraph (3) of § 1019.4 (g) and add the word "or" immediately following subparagraph (3) together with a new subparagraph (4) as follows:

(4) Milk produced and processed in accordance with the standards of purity and quality for certified milk established by the American Association of Medical Milk Commissions and disposed of as packaged certified milk or packaged certified skim milk.

9. Delete paragraph (l) of § 1019.4 and substitute therefor the following:

(l) "Packaged fluid milk products" means fluid milk products which have been placed in containers for disposition to retail or wholesale outlets.

10. Delete the word "and" immediately preceding subparagraph (b) (6) of § 1019.21 and add a new subparagraph (b) (7) immediately after subparagraph (b) (6) of § 1019.21 as follows: "and (7) contained in fluid milk products lost under extraordinary circumstances completely beyond the control of the handler, if such loss is substantiated by records satisfactory to the market administrator."

11. Insert at the end of § 1019.22(b) the words "under this or any other Federal order".

12. Delete § 1019.24(b) and substitute therefor the following:

(b) Allocate skim milk in the following manner:

(1) Subtract from the pounds of skim milk in Class I milk the pounds of skim milk received during the month as exempt milk.

(2) Subtract from the remaining pounds of skim milk in Class I milk the pounds of skim milk in packaged fluid milk products received during the month:

(i) From fully regulated plants under another Federal order, and

(ii) From any pool plant or any plant which receives its entire supply from a pool plant.

(3) Subtract from the total pounds of skim milk in Class II milk, the pounds of skim milk shrinkage allocated pursuant to § 1019.21(b)(5).

(4) Subtract from the remaining pounds of skim milk in each class, beginning with Class II milk the pounds of skim milk received during the month in other source milk in a form other than fluid milk products.

(5) Subtract from the remaining pounds of skim milk in each class, beginning with Class II milk, the pounds of skim milk in other source milk in the form of fluid milk products received during the month from other than fully regulated plants under the provisions of another Federal order.

(6) Subtract from the remaining pounds of skim milk in Class II milk the pounds of skim milk in inventory of fluid milk products on hand at the end of the month.

(7) During the months of July through November, subtract from the remaining pounds of skim milk in Class II milk a quantity equal to such remainder or 15 percent of the pounds of skim milk in receipts of producer milk, whichever is less.

(8) Subtract from the remaining pounds of skim milk in Class II milk a quantity equal to such remainder or the pounds of skim milk in bulk fluid milk products received during the month from fully regulated plants under the provisions of another Federal order, whichever is less.

(9) Subtract from the remaining pounds of skim milk in each class, beginning with Class II milk, the pounds of skim milk in inventory of fluid milk products on hand at the beginning of the month.

(10) Add to the remaining pounds of skim milk in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (6) of this paragraph.

(11) Subtract from the remaining pounds of skim milk in each class beginning with Class I milk, the pounds of skim milk in bulk fluid milk products received during the month from fully regulated plants under the provisions of another Federal order and not assigned pursuant to subparagraph (8) of this paragraph.

(12) Add to the remaining pounds of skim milk in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (7) of this paragraph.

(13) Subtract from the remaining pounds of skim milk in each class, respectively, the skim milk received in bulk from other pool plants and assigned to such class.

(14) Add to the pounds of skim milk in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (3) of this paragraph.

(15) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk in the producer milk of such handler subtract such excess (hereinafter referred to as "overage") from the remaining pounds of skim milk in each class in sequence beginning with Class II milk.

13. Delete subparagraphs (1) and (2) of § 1019.31(a), renumber subparagraph (3) as subparagraph (4), and substitute therefor the following:

(1) Within 5 days after a producer moves from one farm to another, starts or resumes delivery to any of a handler's pool plants, or starts delivering his milk to the handler's plant by tank truck, in the case of a producer whose milk was directed to such pool plant by other than an association of producers, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the change took place, and the farm and plant locations involved. The report shall also state, if known, the plant to which the producer had been delivering prior to starting or resuming deliveries;

(2) Promptly after the 5th consecutive day on which a producer has failed to deliver to any of a handler's pool plants, in the case of a producer whose milk was directed to such pool plant by other than an association of producers, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the last delivery was made, and the farm and plant locations involved. The report shall also state, if known, the reason for the producer's failure to continue deliveries;

(3) On or before the 8th day after the end of each month, with respect to other producers from whom milk was received during the month, such of the information specified in subparagraphs (1) and (2) of this paragraph as the market administrator shall request;

14. Delete § 1019.32 and substitute therefor the following:

§ 1019.32 Notices to producers.

(a) Within 7 days after the end of each sampling period for which a composite butterfat test of a producer's milk was determined, each pool handler shall give the producer written notice of such composite test.

(b) In making payments to producers prescribed in § 1019.60(a) each pool handler shall furnish each producer with a supporting statement of the information set forth in subparagraph (1) through (6) of this paragraph in such form that it may be retained by the producer: *Provided*, That in the case of producers for whom the handler makes payment to a cooperative association pursuant to § 1019.60(b), the information specified in subparagraphs (1), (2), and (5) of this paragraph shall be furnished by the handler to such cooperative association on or before the 14th day after the end of the month for which such payment is due:

(1) The month and the identity of the handler and of the producer;

(2) The total pounds and average butterfat test of milk delivered by the producer;

(3) The minimum rate or rates at which payment to the producer is required under the provisions of § 1019.60 (a);

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight of each deduction claimed by the handler, together with a description of the respective deductions; and

(6) The net amount of payment to the producer.

15. In § 1019.42(b) change the reference "§ 1019.24(b)(1) to (8)" to "§ 1019.24(b)(1) to (12)".

16. In § 1019.46(a) change the reference "§ 1019.24(b)(2)" to "§ 1019.24(b)(4)".

17. In § 1019.46(b) change the reference "§ 1019.24(b)(3)" to "§ 1019.24(b)(5)".

18. In § 1019.46(c)(1) change the reference "§ 1019.24(b)(5)" to "§ 1019.24(b)(11)".

19. In § 1019.46(c)(2) change the reference "§ 1019.24(b)(5)" to "§ 1019.24(b)(11)".

19a. In § 1019.46(d) insert immediately after the words "Each handler" the phrase "(except a producer-handler under this or any other Federal order)" and immediately after the word "payment" insert the words "by the 19th day of the following month".

20. Delete § 1019.47.

21. In § 1019.50(c) change the reference "§ 1019.24(b)(12)" to "§ 1019.24(b)(15)".

22. Delete paragraph (d) of § 1019.50 and substitute therefor the following:

(d) Add an amount computed by multiplying the difference between the Class II price for the preceding month and the Class I price for the current month applicable at the nearest plant location from which an equivalent quantity of skim milk and butterfat respectively, was allocated to Class II in the preceding month, by the hundredweight of skim milk and butterfat respectively, subtracted from Class I milk pursuant to § 1019.24 (b)(9) and (c) for the month which is in excess of the hundredweight of skim milk and butterfat respectively, allocated to Class II milk pursuant to § 1019.24 (b)(11) and (c) during the preceding month and classified and priced as Class I under the provisions of another Federal order.

23. Delete the words "following that" as they appear near the end of § 1019.67.

24. Delete § 1019.68 and substitute therefor the following:

§ 1019.68 Adjustment of overdue accounts.

Any unpaid obligation of a handler pursuant to §§ 1019.46, 1019.65, 1019.69, and 1019.70 shall be increased one-half of one percent effective the 21st day of such month and on the 21st day of each month thereafter until such obligation is paid.

Issued at Washington, D.C., this 15th day of June 1960.

ROY W. LENNARTSON,
Deputy Administrator.

Agricultural Research Service

[9 CFR Part 84]

PULLORUM DISEASE AND FOWL TYPHOID

Proposed Restrictions on Interstate Movement of Poultry

Notice is hereby given that it is proposed to amend Subchapter C, Chapter I, Title 9, Code of Federal Regulations, pursuant to sections 4–7 of the Act of May 29, 1884, as amended, and sections 1 and 2 of the Act of February 2, 1903, as amended (21 U.S.C. 111–113, 115, 117, 120, 121), by adding a new Part 84—Pullorum Disease and Fowl Typhoid of Poultry, to read:

§ 84.1 Definitions.

As used in this part, the following terms shall have the meanings set forth in this section.

(a) *Poultry.* Live chickens, ducks, geese, swans, turkeys, pigeons, doves, pheasants, grouse, partridges, quail, guinea fowl, and peafowl, of all ages.

(b) *Hatching eggs.* Eggs of poultry for hatching.

(c) *Hatchery.* Hatchery equipment on one premises operated or controlled by any person for the hatching of poultry.

(d) *Division.* The Animal Disease Eradication Division, Agricultural Research Service, United States Department of Agriculture.

(e) *State.* Any State, Territory, or the District of Columbia.

(f) *Interstate.* From any State into or through any other State.

(g) *Federal inspector.* An inspector of the Agricultural Research Service, United States Department of Agriculture, responsible for the function involved.

(h) *State inspector.* An inspector regularly employed in livestock or poultry sanitary work of a State or a political subdivision thereof, who is authorized by such State or political subdivision to perform the function involved.

(i) *Accredited veterinarian.* A veterinarian specifically approved by the United States Department of Agriculture to perform the function involved.

(j) *National Poultry Improvement Plan.* The voluntary poultry improvement plan as set forth in Part 145 of this chapter.

(k) *National Turkey Improvement Plan.* The voluntary turkey improvement plan as set forth in Part 146 of this chapter.

(l) *Moved.* Shipped, transported or otherwise moved or delivered or received for movement, by any person.

(m) *Pullorum disease.* The contagious, infectious, and communicable disease of poultry known as pullorum disease.

(n) *Fowl typhoid.* The contagious, infectious, and communicable disease of poultry known as fowl typhoid.

§ 84.2 Notice relating to existence of pullorum disease and fowl typhoid.

Notice is hereby given that both pullorum disease and fowl typhoid exist in each State. There is evidence that both diseases are communicable and can be transmitted from infected parent stock through the egg to offspring as well as from bird-to-bird and through contamination of hatcheries.

§ 84.3 Notice of regulation.

Notice is hereby given that in order to preserve the gains already made toward the eradication of pullorum disease and fowl typhoid, to prevent the interstate spread thereof, and to protect the poultry of the United States, it is necessary to regulate the interstate movement of poultry and hatching eggs as provided in this part.

§ 84.4 Interstate movement of affected poultry.

Poultry and hatching eggs affected with pullorum disease or fowl typhoid, shall not be moved interstate for any purpose.

§ 84.5 General restriction.

Poultry and hatching eggs, not affected with pullorum disease or fowl typhoid, shall not be moved interstate except as provided in this part.

§ 84.6 Permitted movement of poultry and hatching eggs.

(a) Poultry and hatching eggs, not known to be affected with pullorum disease or fowl typhoid, may be moved interstate under this part if accompanied by a certificate signed by the owner or shipper of such poultry or hatching eggs stating: (1) Name and address of consignor; (2) date of shipment; (3) name and address of the consignee; (4) name and location of the flock of origin, or the hatchery of origin if such movement is from a hatchery; (5) number of birds or eggs contained in the shipment; (6) breed, strain, cross or trade-name identification of the birds or eggs contained in the shipment; (7) that the flock of origin has been tested as prescribed in paragraph (c) of this section by either the standard pullorum-typhoid tube agglutination test, the rapid serum plate test, or the rapid whole-blood test using polyvalent antigen, for pullorum and fowl typhoid, and that no reactors have been found, and (8) that the poultry or hatching eggs contained in the shipment have not been exposed to equipment contaminated with pullorum or fowl typhoid nor to poultry or hatching eggs from flocks which have not qualified as described in subparagraph (7) of this paragraph. If the consignor is a qualified participant in the National Poultry Improvement Plan or the National Turkey Improvement Plan, and if the poultry or hatching eggs qualify under either § 145.10 (f) or (g) of this chapter or § 146.10 (e) or (f) of this chapter, they may be moved interstate under this part provided that the shipment is accompanied by a certificate signed by the participant giving the information specified in this paragraph (a) and indicating the official pullorum-typhoid classification of the poultry or hatching eggs.

(b) One copy of each certificate shall be immediately forwarded by the consignor direct to the Veterinarian in Charge for the Division in the State of origin of such shipment; one copy shall be retained by the shipper; and one copy shall be delivered to the carrier and accompany the shipment to destination.

(c) The test specified in paragraph (a)(7) of this section must be conducted at least 21 days subsequent to the last test upon which any reactors were found. All testing for purposes of paragraph (a) of this section must have been done within 12 months preceding interstate movement, by either a Federal or State inspector, an accredited veterinarian, or an agent properly authorized by the appropriate State official.

(d) Records showing the test results upon which each certificate is based shall be maintained by the signer of the certificate for a period of 12 months following the date the certificate was issued and shall be available for inspection by Federal and State inspectors upon request during said period.

§ 84.7 Containers for shipping poultry and hatching eggs.

Shipments of poultry and hatching eggs shall be made in new, clean containers, except that poultry may be shipped in used wood or metal crates if the crates have been thoroughly cleaned and disinfected in "Cresylic disinfectant" in accordance with §§ 71.10 (a)(1) and 71.11 of this chapter prior to each use thereof.

§ 84.8 Poultry for immediate slaughter.

Poultry not known to be affected with pullorum disease or fowl typhoid may be moved interstate to a processing plant for immediate slaughter without complying with the provisions of § 84.6.

§ 84.9 Other movements.

The Director of Division may provide for the movement, not otherwise provided for in this part, of poultry, not known to be affected with pullorum disease or fowl typhoid, under such conditions as he may prescribe to prevent the spread of these diseases. The Director of Division will promptly notify the appropriate livestock sanitary official of the States involved of any such action.

Any person who wishes to submit written data, views, or arguments concerning the foregoing proposed regulations may do so by filing them with the Director, Animal Disease Eradication Division, Agricultural Research Service, United States Department of Agriculture, Washington 25, D.C., within 90 days after publication hereof in the FEDERAL REGISTER.

Done at Washington, D.C., this 13th day of June, 1960.

M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

FEDERAL AVIATION AGENCY

[14 CFR Parts 600, 601, 608]

[Airspace Docket No. 60-NY-24]

FEDERAL AIRWAYS, CONTROL AREAS, REPORTING POINTS AND RESTRICTED AREAS

Designation of Restricted Area/Military Climb Corridor; Modification of Federal Airways and Associated Control Areas and Reporting Points and Control Area Extension

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to §§ 600.277, 600.6029, 600.6213, 601.277, 601.1341, 601.4277, 601.6213 and 608.17 of the regulations of the Administrator, the substance of which is stated below.

The Federal Aviation Agency has under consideration a proposal by the Department of the Air Force to designate a Restricted Area/Military Climb Corridor at Dover Air Force Base, Dover, Del. The Military Climb Corridor, designated as a Restricted Area would be used by the high-speed, high-rate-of-climb Century Series Air Defense aircraft while departing from the airbase on active air defense missions. The Restricted Area would provide protection for high-speed air defense aircraft and other users of the airspace during the climb phase of the air defense aircraft mission. The proposed Restricted Area/Military Climb Corridor would be designated on radials from the Dover AFB TVOR and TACAN, thereby permitting use of the climb corridor by either VOR or TACAN equipped air defense aircraft. It would extend along the Dover AFB TVOR and TACAN 184° True radials from 5 statute miles south to 32 statute miles south of the airbase, having a width at the beginning from 1 statute mile west of the TACAN 184° True radial to 2.3 statute miles east of the TVOR 184° True radial, and expanding uniformly to a width at the outer extremity from 2.3 statute miles west of the TACAN 184° True radial to 2.3 statute miles east of the TVOR 184° True radial. The lower altitude limits in graduated steps would extend from 2,000 feet MSL to 19,000 feet MSL. The upper altitude limits would extend from 15,000 feet MSL to 27,000 feet MSL. Time of use would be continuous. The controlling agency would authorize aircraft to operate within the Climb Corridor when not in use by active air defense aircraft. The controlling agency would be Dover AFB Approach Control.

Concurrently with the proposed designation of the Restricted Area/Military Climb Corridor at Dover AFB, the Federal Aviation Agency is considering modification of the segment of VOR Federal airway No. 29 between Salisbury, Md., and Kenton, Del., by realigning it from the Salisbury VOR via the intersection of the Salisbury VOR 340° and the Kenton VOR 242° True radials, to the Kenton VOR. This modification would align this segment of Victor 29 west of the proposed Climb Corridor and would permit optimum use of altitudes on the airway segment while the Climb Corridor is in use. It is also proposed to revoke the segment of Red Federal airway No. 77 and its associated control areas from the point of intersection with the southeast course of the Andrews, Md., radio range, to the Dover, Del., radio beacon. The designation of the proposed Restricted Area/Military Climb Corridor would preclude the effective use of airspace on this airway segment. Concurrently with the revocation of this segment of Red 77, the Federal Aviation Agency is considering modification of VOR Federal airway No. 213 which presently extends, in part, from Hopewell, Va., to Tappahannock, Va. (the point of intersection of the Hopewell VOR 019° True radial and the Brooke, Va., VOR direct radial to the Cape Charles, Va., VOR), at which point it terminates. It is proposed to extend Victor 213 and its associated control areas northeastward from Tappahannock via the Patuxent River, Md. (Navy) VOR to the Kenton VOR, excluding the portion which coincides with the Patuxent, Md., Restricted Area (R-71). This extension of Victor 213 would provide a substitute airway for the segment of Red 77 proposed for revocation. In addition, the Federal Aviation Agency is considering modification of the Dover control area extension (§ 601.1341) to include the airspace within the proposed Restricted Area/Military Climb Corridor and substitute in its description VOR Federal airways No. 16 and No. 239 for Red Federal airway No. 77 and Blue Federal airway No. 49. This modification would provide control area within the Restricted Area/Military Climb Corridor for use by air traffic management when the climb corridor is not in active use by air defense aircraft.

The control areas associated with VOR Federal airway No. 29 are so designated that they would automatically conform to the modified airway. Accordingly, no amendment relating to such control areas would be necessary.

If these actions are taken:

(1) The Dover, Del., (Dover AFB) Restricted Area/Military Climb Corridor (R–595) (Washington Chart) would be designated as follows:

Description. That area based on the 184° True radials of the Dover AFB TVOR (latitude 39°07'40" N., longitude 75°27'38" W.) and Dover AFB TACAN (latitude 39°07'56" N., longitude 75°28'04" W.) beginning 5 statute miles south of the airbase and extending 32 statute miles south of the airbase, having a width at the beginning from 1 statute mile west of the TACAN 184° True radial to 2.3 statute miles east of the TVOR 184° True radial and expanding uniformly to a width at the outer extremity from 2.3 statute miles west of the TACAN 184° True radial to 2.3 statute miles east of the TVOR 184° True radial.

Designated altitudes.
2,000' MSL to 15,000' MSL from 5 statute miles south of the airbase to 6 statute miles south of the airbase. 2,000' MSL to 24,000' MSL from 6 to 7 statute miles south of the airbase. 2,000' MSL to 27,000 MSL from 7 to 10 statute miles south of the airbase. 6,000' MSL to 27,000' MSL from 10 to 15 statute miles south of the airbase. 10,000' MSL to 27,000' MSL from 15 to 20 statute miles south of the airbase. 15,000' MSL to 27,000' MSL from 20 to 25 statute miles south of the airbase. 19,000' MSL to 27,000' MSL from 25 to 32 statute miles south of the airbase.

Time of use. Continuous.

Controlling agency. Dover AFB, Del., Approach Control.

(2) VOR Federal airway No. 29 segment from Salisbury, Md., to Kenton, Del., would be redesignated from the Salisbury VOR via the intersection of the Salisbury VOR 340° and the Kenton VOR 242° True radials, to the Kenton VOR.

(3) Red Federal airway No. 77 and its associated control areas from the point of intersection with the southeast course of the Andrews, Md., radio range to Dover, Del., radio beacon would be revoked. The caption to § 601.4277 relating to reporting points on Red Federal airway No. 77 would be amended to coincide with the modified airway.

(4) VOR Federal airway No. 213 and its associated control areas would be extended from its present terminating point at Tappahannock, Va., via the 227° True radial of the Patuxent, Md. (Navy), VOR via the Patuxent (Navy) VOR to the Kenton, Del., VOR excluding the

portion which coincides with the Patuxent, Md., Restricted Area (R-71).

(5) The Dover, Del., control area extension would be redescribed as that airspace south of the Kenton, Del., VOR, bounded on the north by VOR Federal airway No. 16, on the east by VOR Federal airway No. 239, on the southeast by VOR Federal airway No. 1, on the southwest by VOR Federal airway No. 29, excluding the portion which coincides with the Milford, Del., Restricted Area (R-12) during its time of designation.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica 30, N.Y. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 14, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5616; Filed, June 17, 1960; 8:47 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 59-LA-5]

CONTROL AREAS

Withdrawal of a Proposal To Designate a Control Area Extension

In a notice of proposed rule making published in the FEDERAL REGISTER as Airspace Docket No. 59-LA-5 on November 10, 1959 (24 F.R. 9169), it was stated that the Federal Aviation Agency proposed to designate a control area extension northwest of Alamosa, Colo. Other airspace actions now under consideration, including the designation of a VOR Federal airway between Alamosa and Gunnison, Colo., would eliminate the requirement for designation of the control area extension as proposed in Airspace Docket No. 59-LA-5.

In consideration of the foregoing, the Notice of Proposed Rule Making contained in Airspace Docket No. 59-LA-5 is hereby withdrawn.

Sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D. C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5604; Filed, June 17, 1960; 8:46 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60-NY-39]

CONTROL AREAS

Designation of Control Area Extension

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to Part 601 of the regulations of the Administrator, the substance of which is stated below.

The Federal Aviation Agency has under consideration designation of a control area extension at Rutland, Vt., to include the area bounded on the north, east and south by a line extending from the point of intersection on the eastern boundary of VOR Federal airway No. 91 at latitude 43°50'55" N., longitude 73°-10'45" W., to latitude 43°52'30" N., longitude 72°58'00" W.; thence to latitude 43°27'30" N., longitude 72°49'30" W.; thence to the eastern boundary of VOR Federal airway No. 91 at latitude 43°21'-40" N., longitude 73°28'45" W.; bounded on the west by the eastern boundary of VOR Federal airway No. 91. This control area extension would provide protection to aircraft operating under instrument flight rule conditions when conducting arrival and departure procedures to and from the Rutland, Vt., airport. It would also provide protection to aircraft departing Westover Air Force Base using standard departure tracks.

If this action is taken, the Rutland, Vt., control area extension would be designated as that airspace bounded on the north, east and south by a line extending from a point at the eastern boundary of VOR Federal airway No. 91 at latitude 43°50'55" N., longitude 73°10'45" W., to latitude 43°52'30" N., longitude 72°58'-00" W.; thence to latitude 43°27'30" N., longitude 72°49'30" W.; thence to the eastern boundary of VOR Federal airway No. 91 at latitude 43°21'40" N., longitude 73°28'45" W.; bounded on the west by the eastern boundary of VOR Federal airway No. 91.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica 30, N.Y. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 14, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5601; Filed, June 17, 1960; 8:45 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60-LA-22]

CONTROL AREAS

Designation of Control Area Extension

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to Part 601 of the regulations of the Administrator, the substance of which is stated below.

The Federal Aviation Agency has under consideration designation of a control area extension at Cut Bank, Mont., within a 35-mile radius of the Cut Bank VOR in the east quadrant, and within a 30-mile radius of the Cut bank VOR in the west quadrant. This would protect aircraft executing prescribed holding procedures and standard instrument approach procedures at Cut Bank Airport.

If this action is taken, the Cut Bank, Mont., control area extension would be designated within a 35-mile radius of the Cut Bank VOR clockwise from the Cut Bank VOR 059° True radial to the 136° True radial; and within a 30-mile radius of the Cut Bank VOR clockwise from the Cut Bank VOR 216° True radial to the 347° True radial.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, 5651 West Manchester Avenue, P.O. Box 90007, Airport Station, Los Angeles 45, Calif. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5603; Filed, June 17, 1960; 8:46 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60-LA-30]

CONTROL AREAS

Designation of Control Area Extension

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to Part 601 of the regulations of the Administrator, the substance of which is stated below.

The Federal Aviation Agency has under consideration designation of a control area extension at Helena, Mont., to include the area east of Helena within a 35-mile radius of the Helena VOR extending clockwise from VOR Federal airway No. 2, north alternate, to VOR Federal airway No. 127; the area within 6 miles to the north and 10 miles to the south of the 089° and 269° True radials of the Helena VOR extending from 8 miles east to 30 miles west of the VOR, and the area northwest of Helena bounded on the east by VOR Federal airway No. 21, on the south by Victor 2 and on the northwest by VOR Federal airway No. 257. This would protect aircraft executing high altitude holding procedures and jet penetrations at the Helena County-City Airport, based on the Helena VOR.

If these actions are taken, the Helena, Mont., control area extension would be designated as that area east of Helena within a 35-mile radius of the Helena VOR extending clockwise from VOR Federal airway No. 2 North, to VOR Federal airway No. 127; the area within 6 miles north and 10 miles south of the 089° and 269° True radials of the Helena VOR extending from 8 miles east to 30 miles west of the VOR; and the area northwest of Helena bounded on the east by VOR Federal airway No. 21, on the south by VOR Federal airway No. 2 and on the northwest by VOR Federal airway No. 257.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, 5651 West Manchester Avenue, P.O. Box 90007, Airport Station, Los Angeles 45, Calif. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5605; Filed, June 17, 1960; 8:46 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60-AN-17]

CONTROL ZONES

Designation

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to Part 601 of the regulations of the Administrator, the substance of which is stated below.

The Federal Aviation Agency has under consideration the designation of a control zone at Sitka, Alaska, within a 5-mile radius of the Sitka Harbor Seaplane Base and within 2 miles either side of the northeast and the southwest courses of the Sitka radio range extending from the 5-mile radius zone to 2 miles southwest of the radio range. The designation of this control zone would provide protection for aircraft executing the prescribed instrument approach procedure based on the radio range for approaches to the Sitka Harbor Seaplane Base.

If this action is taken, the Sitka, Alaska, control zone would be designated within a 5-mile radius of the Sitka Harbor Seaplane Base (latitude 57°03'30"N., longitude 135°21'30" W.), and within 2 miles either side of the northeast and southwest courses of the Sitka radio range extending from the 5-mile radius zone to two miles southwest of the radio range.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, P.O. Box 440, Anchorage, Alaska. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5611; Filed, June 17, 1960; 8:46 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60-WA-84]

CONTROL AREAS

Modification of Control Area Extension

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 601.1006 of the regulations of the Administrator, the substance of which is stated below.

The present Lake Charles, La., control area extension is designated within a 40-mile radius of the Lake Charles, La., VOR; within 5 miles either side of the 334° True radial of the Lake Charles VOR extending from the 40-mile radius area to a point 58 miles northwest of the VOR; within 5 miles either side of the 058° True radial of the VOR extending from the VOR to a point 42 miles northeast; and 5 miles either side of the 113° True radial of the Lufkin, Tex., VOR extending from the VOR to the Lake Charles 40-mile radius control area extension. The Federal Aviation Agency has under consideration the modification of this control area extension by adding an extension to the northwest bounded by a line beginning at a point on the arc of the Lake Charles 40-mile radius control area at latitude 30°24'00" N., longitude 93°42'00" W., thence north northwest to a point at latitude 31°08'00" N., longitude 94°02'00" W., thence northeast to latitude 31°23'00" N., longitude 93°28'00" W., thence southeast to latitude 30°43'00" N., longitude 93°04'00" W., thence along the arc of the Lake Charles 40-mile radius control area to the point of beginning. This modification would provide protection for aircraft arriving and departing Chennault Air Force Base, La., and also provide protection for aircraft holding on the Chennault AFB TACAN prior to approaching the Air Force Base for landing. The Federal Aviation Agency is also considering revoking the portion of the control area extension 5 miles either side of the Lufkin VOR 113° True radial. Aircraft movement statistics indicate that insufficient use is made of this segment of the Lake Charles control area extension to warrant its continued designation.

If this action is taken, the Lake Charles, La., control area extension would be redesignated within a 40-mile radius of the Lake Charles VOR, within 5 miles either side of the Lake Charles VOR 058° True radial from the 40-mile radius area to a point 42 miles northeast of the VOR, and the adjacent area to the northwest bounded by a line beginning on the 40-mile arc at latitude 30°24'00" N., longitude 93°42'00" W.; extending to latitude 31°08'00" N., longitude 94°02'00" W.; thence to latitude 31°23'00" N., longitude 93°28'00" W.; thence to the 40-mile arc at latitude 30°43'00" N., longitude 93°04'00" W.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, P.O. Box 1689, Fort Worth 1, Tex. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5608; Filed, June 17, 1960; 8:46 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60-KC-25]

CONTROL AREAS

Modification of Extension

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 601.1105 of the regulations of the Administrator, the substance of which is stated below.

The Muskegon, Mich., control area extension is presently designated within a 15-mile radius of the Muskegon County Airport. The Federal Aviation Agency has under consideration the modification of the Muskegon control area extension by adding the area southeast of Muskegon bounded on the northeast by VOR Federal airway No. 2 South, on the southeast by VOR Federal airway No. 193, and on the west by VOR Federal airway No. 55. This expansion of the Muskegon control area extension would provide protection for aircraft while being radar vectored to and from the Kent County Airport, Grand Rapids, Mich., and for aircraft holding at the Hudsonville, Mich., intersection. In addition, the description of the Muskegon control area extension presently excludes the portion which coincides with the Little Sable Point Restricted Area (R-437). This restricted area was revoked on May 7, 1959 (24 F.R. 2234). Therefore, references to this restricted area would be deleted from the description of the Muskegon control area extension.

If this action is taken, the Muskegon, Mich., control area extension would be designated within a 15-mile radius of the Muskegon County Airport (latitude 43°10'16" N., longitude 86°14'09" W), and within the area southeast of Muskegon bounded on the northeast by VOR Federal airway No. 2 South, on the southeast by VOR Federal airway No. 193, and on the west by VOR Federal airway No. 55.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, 4825 Troost Avenue, Kansas City 10, Mo. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5606; Filed, June 17, 1960; 8:46 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60-KC-10]

CONTROL AREAS

Modification of Extension

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 601.1187 of the regulations of the Administrator, the substance of which is stated below.

The Jackson, Mich., control area extension is presently designated within five miles either side of a 313° True bearing extending from the Jackson nondirectional radio beacon to a point 25 miles northwest. The Federal Aviation Agency has under consideration the modification of the Jackson control area extension by revoking the present control area extension and designating that area east of Jackson bounded on the west by VOR Federal airway No. 45, on the northeast by VOR Federal airway No. 2, on the southeast by VOR Federal airway No. 11, and on the south by VOR Federal airway No. 90 as the Jackson control area extension. The present Jackson control area extension is encompassed within a portion of the Lansing, Mich., control area extension (Section 601.1261) and the control areas associated with Victor 45 and VOR Federal airway No. 100. Revocation of the present Jackson control area extension would eliminate this unnecessary duplication of control areas. Redesignation of the Jackson control area extension within the proposed area east of Jackson would provide protection for aircraft while being radar vectored to and departing from airports in the Detroit, Mich., terminal area.

If these actions are taken, the Jackson, Mich., control area extension would be modified by revoking the present control area extension and by designating a new control area extension within the area bounded on the west by VOR Federal airway No. 45, on the northeast by VOR Federal airway No. 2, on the southeast by VOR Federal airway No. 11, and on the south by VOR Federal airway No. 90.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, 4825 Troost Avenue, Kansas City 10, Mo. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5607; Filed, June 17, 1960; 8:46 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60-LA-3]

CONTROL AREAS

Modification of Extension

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 601.1247 of the regulations of the Administrator, the substance of which is stated below.

The Las Vegas, Nev., control area extension is designated to include the airspace south of Las Vegas bounded on the northeast by VOR Federal airway No. 135, on the southeast by VOR Federal airway No. 245, on the south by VOR Federal airway No. 210, and on the northwest by VOR Federal airway No. 21; the airspace east of Las Vegas lying within 5 miles either side of a line extending from the intersection of the Mormon Mesa, Nev., VOR 185° True radial and the Las Vegas VOR 086° True radial to the intersection of the southeast course of the Las Vegas radio range and the north course of the Needles, Calif., radio range.

The Federal Aviation Agency has under consideration modification of this control area by the addition of an extension to the southwest of Las Vegas, bounded on the north by VOR Federal airway No. 105, on the southeast by VOR Federal airway No. 8 north alternate and on the southwest by the Goffs, Calif., VOR 323° True radial. This would provide protection for aircraft utilizing an additional jet approach procedure predicated on the Las Vegas VOR and permit recovery of military jet aircraft in an area off-airways and separated from the large volume of transcontinental en route traffic on VOR Federal airways No. 8 north alternate, 21, 1508, 1510 and 1529. Also, the Federal Aviation Agency is proposing to revoke that portion of the Las Vegas control area extension east of Las Vegas based on the Mormon Mesa VOR 185° and the Las Vegas VOR 086° True radials. It has been determined that this portion of the Las Vegas control area extension is no longer required for air traffic management purposes and it appears that the revocation thereof would be in the public interest.

If this action is taken, the Las Vegas, Nev., control area extension would be redesignated as follows:

The area south of Las Vegas, Nev., bounded on the northeast by VOR Federal airway No. 135, on the southeast by VOR Federal airway No. 245, on the south by VOR Federal airway No. 210 and on the northwest by VOR Federal airway No. 21; the area southwest of Las Vegas bounded on the north by VOR Federal airway No. 105, on the southeast by VOR Federal airway No. 8 north alternate and on the southwest by the Goffs, Calif., VOR 323° True radial.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, 5651 West Manchester Avenue, P.O. Box 90007, Airport Station, Los Angeles 45, Calif. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5602; Filed, June 17, 1960; 8:45 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60-FW-19]

CONTROL AREAS

Modification of Extension

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 601.1335 of the regulations of the Administrator, the substance of which is stated below.

The Federal Aviation Agency is considering enlarging the Lafayette, La., control area extension. The present Lafayette control area extension is designated within 5 miles either side of the 352° True radial of the Lafayette VOR, extending from the VOR to 15 miles north, and within 5 miles either side of a line bearing 007° True from the Lafayette non-directional radio beacon extending from the beacon to 15 miles north, and the airspace east of Lafayette bounded on the northwest by VOR Federal airway No. 70, on the northeast by VOR Federal airway No. 114 and on the

south by VOR Federal airway No. 20. It is proposed to expand the control area to the south within 5 miles either side of the Lafayette VOR 172° True radial extending from the VOR to 15 miles south, and to the northwest of Lafayette within a 20-mile radius of the Lafayette VOR extending clockwise from VOR Federal airway No. 20 north alternate to VOR Federal airway No. 70 north alternate. The present holding pattern airspace areas for aircraft holding at the Lafayette VOR and at the Lafayette radio beacon are not entirely within control area. This modification would provide the additional control area required for the protection of aircraft arriving and departing the Lafayette terminal area and aircraft holding at Lafayette.

If this action is taken, the Lafayette, La., control area extension would be designated northwest of Lafayette, La., within a 20-mile radius of the Lafayette VOR extending clockwise from VOR Federal airway No. 20 north alternate to VOR Federal airway No. 70 north alternate; northeast of Lafayette within the area bounded on the west and north by Victor 70 north alternate, on the northeast by VOR Federal airway No. 114, and on the south by VOR Federal airway No. 20; and within 5 miles either side of the Lafayette VOR 172° True radial extending from the VOR to 15 miles south.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, P.O. Box 1689, Fort Worth 1, Tex. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5609; Filed, June 17, 1960; 8:46 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60-AN-9]

CONTROL ZONES

Modification

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to Part 601 and § 601.1984 of the regulations of the Administrator, the substance of which is stated below.

The present Kotzebue, Alaska, control zone is designated within a 5-mile radius of the Wien Memorial Airport. The Federal Aviation Agency is considering modifying the control zone by designating an extension northeast of the Wien Memorial Airport within 2 miles either side of the 048° True bearing from the Kotzebue radio beacon, extending from the 5-mile radius zone to a point 12 miles northeast of the radio beacon. This modification would provide protection for aircraft conducting instrument approaches to the Wien Memorial Airport during instrument flight rule conditions.

If this action is taken, the Kotzebue, Alaska, control zone would be designated within a 5-mile radius of the Wien Memorial Airport (latitude 66°53'02" N., longitude 162°37'33" W.), and within 2 miles either side of the 048° True bearing from the Kotzebue radio beacon extending from the 5-mile radius zone to a point 12 miles northeast of the radio beacon.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, P.O. Box 440, Anchorage, Alaska. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5612; Filed, June 17, 1960; 8:47 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60-FW-29]

CONTROL ZONES

Modification

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 601.2039 of the regulations of the Administrator, the substance of which is stated below.

The Tulsa, Okla., control zone is presently designated within a 5-mile radius of the Tulsa Municipal Airport; within 2 miles either side of the northeast course of the Tulsa radio range extending to a point 12 miles northeast of the radio range; within 2 miles either side of the north course of the Tulsa ILS localizer extending to a point 12 miles north of the Owasso, Okla., radiobeacon; and within 2 miles either side of the 088° and 268° True radials of the Tulsa VORTAC extending to a point 12 miles east of the VORTAC. The Federal Aviation Agency is considering modifying this control zone by reducing the length of the north extension based on the Owasso radiobeacon and reducing the length of the east extension based on the Tulsa VORTAC. The prescribed instrument approach procedure based on the Owasso radiobeacon and the Tulsa VORTAC have been revised so that the extension north of the Owasso radiobeacon and east of the Tulsa VORTAC are no longer required. In addition, it is proposed to designate a control zone extension within two miles either side of the ILS localizer south course extending from the 5-mile radius zone to the ILS outer marker (latitude 36°05'50" N., longitude 95°53'18.8" W.). This modification would provide protection for aircraft conducting prescribed instrument approaches to the Tulsa Municipal Airport.

If these actions are taken, the Tulsa, Okla., control zone would be designated within a 5-mile radius of the Tulsa Municipal Airport (latitude 36°12'01.3" N., longitude 95°53'14.8" W.); within 2 miles either side of the ILS localizer north course extending from the 5-mile radius zone to the Owasso, Okla., radiobeacon; within 2 miles either side of the northeast course of the Tulsa radio range, extending from the 5-mile radius zone to 12 miles northeast of the radio range; within two miles either side of the Tulsa VORTAC 268° True radial, extending from the 5-mile radius zone to the VORTAC; and within two miles either side of the ILS localizer south course, extending from the 5-mile radius zone to the ILS outer marker.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, P.O. Box 1689, Fort Worth 1, Tex. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5614; Filed, June 17, 1960; 8:47 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60-WA-152]

CONTROL ZONES

Modification

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 601.2111 of the regulations of the Administrator, the substance of which is stated below.

The Louisville, Ky., control zone is presently designated within a 5-mile radius of Standiford Field and within a 5-mile radius of Bowman Field extending 2 miles either side of the Standiford Field ILS localizer course from the localizer to the limits of the Fort Knox, Ky., restricted area, extending 2 miles either side of the 122° and 302° True radials of the Louisville VOR from the Standiford Field control zone to a point 10 miles southeast of the VOR and extending 2 miles either side of the 154° and 334° True radials of the Louisville VOR from the Bowman Field control zone to a point 10 miles southeast of the VOR. The Federal Aviation Agency has under consideration modification of the Louisville control zone by redesignating the extensions to the southeast and southwest, and designating an extension to the northeast. A review of the published instrument approach procedures to Standiford and Bowman Fields indicate that the present designated southwest extension based on the Standiford Field ILS southwest course and the extensions southeast based on the 122°/302° and the 154°/334° True radials of the Louisville VOR exceed the control zone requirements necessary to provide protection for aircraft conducting instrument approaches based on the Standiford ILS southwest course and the Louisville VOR. Therefore, it is proposed to reduce the size of the Louisville control zone extensions to the southwest and southeast by redesignating them to include only the airspace within 2 miles either side of the Standiford Field ILS southwest course extending from the Standiford 5-mile radius zone to the ILS outer marker, within 2 miles either side of the 301° True radial of the Louisville VOR extending from the Standiford 5-mile radius zone to the VOR, and within 2 miles either side of the 331° True radial of the Louisville VOR extending from the Bowman Field 5-mile radius zone to the VOR. It is also proposed to designate an extension within 2 miles either side of the Standiford Field ILS localizer northeast course extending from the Standiford 5-mile radius zone to the intersection of the localizer northeast course and the Louisville VOR 328° True radial. This extension would provide protection for aircraft conducting instrument approaches to Standiford Field utilizing the Standiford ILS northeast course.

If this action is taken, the Louisville, Ky., control zone would be designated within a 5-mile radius of Standiford Field (latitude 38°10'33" N., longitude 85°44'12" W.), within a 5-mile radius of Bowman Field (latitude 38°13'40" N., longitude 85°39'45" W.), within 2 miles either side of the Standiford Field ILS localizer northeast course extending from the Standiford 5-mile radius zone to the intersection of the localizer northeast course and the Louisville VOR 328° True radial, within 2 miles either side of the Standiford Field ILS localizer southwest course extending from the Standiford 5-mile radius zone to the ILS outer marker, within 2 miles either side of the 301° True radial of the Louisville VOR extending from the Standiford 5-mile radius zone to the VOR, and within 2 miles either side of the 331° True radial of the Louisville VOR extending from the Bowman Field 5-mile radius zone to the VOR.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5616; Filed, June 17, 1960; 8:47 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60-FW-37]

CONTROL ZONES

Modification

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 601.2250 of the regulations of the Administrator, the substance of which is stated below.

The Tyler, Tex., control zone is presently designated within a 5-mile radius of Pounds Field, Tyler, Tex., and within 2 miles either side of the 283° True bearing of the Tyler radio beacon extending from the radio beacon to a point 5 miles northwest. The Federal Aviation Agency is considering modifying the Tyler control zone by revoking the control zone extension to the northwest based on the 283° True bearing from the Tyler radio beacon. The instrument approach procedure based on the Tyler radio beacon has been cancelled. Therefore, there is no longer a requirement for an extension based on the Tyler radio beacon. Concurrently, it is proposed to designate an extension to the northwest, based on the northwest course of the Pounds Field ILS localizer extending from the 5-mile radius zone to the outer marker, and an extension to the southeast based on the southeast course of the Pounds Field ILS localizer extending from the 5-mile radius zone to the Lake Tyler intersection (intersection of the southeast course of the Pounds Field ILS localizer and the 256° True radial of the Gregg County, Tex., VOR). This would provide protection for aircraft conducting prescribed ADF and ILS approaches to Pounds Field.

If this action is taken, the Tyler, Tex., control zone would be designated within a 5-mile radius of Pounds Field, Tyler, Tex. (latitude 32°21'17" N., longitude 95°23'55" W.); within 2 miles either side

of the northwest course of the Pounds Field ILS localizer extending from the 5-mile radius zone to the ILS outer marker; and within 2 miles either side of the southeast course of the Pounds Field ILS localizer extending from the 5-mile radius zone to the Lake Tyler intersection.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, P.O. Box 1689, Fort Worth 1, Tex. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5615; Filed, June 17, 1960; 8:47 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60-FW-10]

CONTROL ZONES

Designation and Modification

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to Part 601 and § 601.2286 of the regulations of the Administrator, the substance of which is stated below.

The Columbus, Ga., control zone is presently designated within a 5-mile radius of Muscogee County Airport including the airspace within 2 miles either side of the northeast course of the Columbus radio range extending southward to include a 5-mile radius of the Lawson Army Airfield, within 2 miles either side of the southwest course of the Columbus radio range extending from the radio range station to a point 10 miles southwest, and within 2 miles either side of the 150° and 330° True radials of the Columbus VOR extending from the Muscogee County Airport to a point 3 miles northwest of the VOR excluding the portion of the control zone which coincides with Restricted Area R-129. The Federal Aviation Agency has under consideration modification of the Columbus, Ga., control zone and the designation of a separate control zone for Lawson Army Airfield, Ga. A review of the published instrument approach procedures to Muscogee County Airport and Lawson Army Airfield shows that there are no published instrument approach procedures which require the presently designated control zone extension connecting Muscogee County Airport and Lawson Army Airfield. It is, therefore, proposed to revoke this extension. The instrument approach procedure based on the Columbus, Ga., VOR is being revised. This would permit the control zone extension to the northwest to be redesignated to extend from the 5-mile radius zone to the Columbus VOR. Because of the variance in weather at these airports, it is proposed to provide a separate control zone designation at Lawson Army Airfield to include the airspace within a 5-mile radius of Lawson Army Airfield and within 2 miles either side of the southwest course of the Columbus radio range extending from the radio range station, to 12 miles southwest.

If these actions are taken, the Columbus, Ga., control zone would be redesignated within a 5-mile radius of the Muscogee County Airport (latitude 32° 30'55" N., longitude 84°56'25" W.), within 2 miles either side of the 149° True radial of the Columbus VOR extending from the 5-mile radius zone to the VOR and within 2 miles either side of the 054° True bearing from the Columbus outer marker extending from the 5-mile radius zone to the outer marker, excluding that portion of the Columbus control zone which would coincide with the Fort Benning, Ga., Restricted Area (R-129). The Lawson Army Airfield, Ga., control zone would be designated within a 5-mile radius of Lawson Army Airfield (latitude 32°20'20" N., longitude 84°59'35" W.), and within 2 miles either side of the southwest course of the Columbus radio range extending from the radio range station to 12 miles southwest, excluding the portion of the Lawson control zone which would coincide with the Fort Benning, Ga., Restricted Area (R-129).

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, P.O. Box 1689, Fort Worth 1, Tex. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington D.C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5613; Filed, June 17, 1960; 8:47 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60-LA-16]

CONTROL ZONES

Modification

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 601.2445 of the Regulations of the Administrator, the substance of which is stated below.

The Beale, Calif., control zone is designated within a 5-mile radius of a point centered at latitude 39°07'55" N., longitude 121°26'06" W., on Beale Air Force Base, Calif. The Federal Aviation Agency has under consideration redesignation of this control zone within a 5-mile radius of Beale AFB and within 2 miles west of and 3 miles east of the 162° True radial of the Beale AFB terminal VOR, extending from the 5-mile radius zone to the Beale terminal VOR. This would protect aircraft executing standard instrument approaches utilizing the 162° True radial of the Beale AFB terminal VOR and the 347° True radial of the Beale AFB TACAN.

If this action is taken, the Beale, Calif., control zone would be designated within a 5-mile radius of Beale Air Force Base (latitude 39°08'10" N., longitude 121°26'05" W.), and within 2 miles west of and 3 miles east of the 162° True radial of the Beale AFB terminal VOR extending from the 5-mile radius zone to the terminal VOR.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, 5651 West Manchester Avenue, P.O. Box 90007, Airport Station, Los Angeles 45, Calif. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5617; Filed, June 17, 1960; 8:47 a.m.]

[14 CFR Parts 601, 608]

[Airspace Docket No. 60-WA-156]

CONTROL AREAS, CONTROL ZONES AND RESTRICTED AREAS

Modification of Control Area Extension, Control Zone and Restricted Areas

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to §§ 601.1270, 601.2010, and 608.46 of the regulations of the Administrator, the substance of which is stated below.

The Harrisburg, Pa., control area extension is presently designated within a 15-mile radius of the Harrisburg VOR. The Harrisburg control zone is presently designated within a 5-mile radius of Harrisburg-York State Airport and within 2 miles either side of the east and west courses of the Harrisburg radio range extending 10 miles east and west of the radio range station. The Indiantown Gap, Pa., Restricted Area (R-69) (New York Chart), is presently designated for artillery firing from the surface to 18,000 feet MSL on a continuous basis. The controlling agency for Restricted Area R-69 is the U.S. Second Army Headquarters at Fort Meade, Md. The Federal Aviation Agency has under consideration modification of the Harrisburg control area extension to include the airspace within and adjacent to the Indiantown Gap Restricted Area (R-69) and northeast of the Tower City, Pa., VOR, bounded on the north by VOR Federal airway No. 30, on the east by the New York control area extension, on the south and southeast by VOR Federal airway No. 162 and on the west by VOR Federal airway No. 31. This modification would provide additional control area for air traffic management of aircraft arriving and departing the Harrisburg terminal area from the northeast when the Restricted Area is not in use by the Second Army, and for holding jet aircraft destined to land at Olmsted AFB.

The Federal Aviation Agency is also considering modification of the Harrisburg control zone by revoking the extensions based on the east and west courses of the Harrisburg radio range; designating an extension to the southwest within 2 miles either side of the Harrisburg-York State Airport ILS localizer southwest course, extending from the Harrisburg-York State Airport 5-mile radius zone to the ILS outer marker; designating a 5-mile radius zone around Olmsted AFB; designating an extension to the west of the Harrisburg-York State Airport within 2 miles either side of the 098° True radial of the Harrisburg VOR, extending from the Harrisburg-York State Airport 5-mile radius zone to the VOR. These modifications would provide protection for aircraft conducting instrument approaches into the Harrisburg-York State Airport and Olmsted AFB during instrument flight rules weather conditions.

Concurrently, the Federal Aviation Agency is considering modification of the Indiantown Gap, Restricted Area (R-69) by redesignating its time of use from March 1 through May 31, and September 1 through November 30, annually on Saturdays and Sundays only, from 0800 to 1800 e.s.t.; and annually from June 1 to August 31, on a continuous basis. The Federal Aviation Agency, New York Air Route Traffic Control Center would be designated as the controlling agency.

If these actions are taken, the Harrisburg, Pa., control area extension would be redesignated within a 15-mile radius of the Harrisburg VOR including the airspace northeast of the Harrisburg VOR, bounded on the north by VOR Federal airway No. 30, on the east by the New York control area extension, on the south and southeast by VOR Federal airway No. 162 and on the west by VOR Federal airway No. 31. The Harrisburg control zone would be redesignated to include the airspace within a 5-mile radius of the Harrisburg-York State Airport (latitude 40°12'59" N., longitude 76°51'03" W.), within a 5-mile radius of the Olmsted AFB (latitude 40°11'39" N., longitude 76°45'39" W.), within 2 miles either side of the 098° True radial of the Harrisburg VOR extending from the Harrisburg-York State Airport 5-mile radius zone to the VOR and within 2 miles either side of the Harrisburg-York State Airport ILS localizer southwest course extending from the 5-mile radius zone to the ILS outer marker. The Indiantown Gap, Pa., Restricted Area (R-69) (New York Chart) time of designation would be redesignated as March 1 through May 31, and September 1 through November 30, on Saturdays and Sundays only from 0800 to 1800 EST, annually; and annually from June 1 through August 31, on a continuous basis. The Federal Aviation Agency, New York Air Route Traffic Control Center would be designated as the controlling agency.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica 30, N.Y. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued at Washington, D.C. on June 13, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5610; Filed, June 17, 1960; 8:46 a.m.]

[14 CFR Part 608]

[Airspace Docket No. 60-WA-155]

RESTRICTED AREAS

Revocation

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 608.55 of the regulations of the Administrator, the substance of which is stated below.

The Fort Lewis, Wash., Restricted Area (R-503), is presently described as the area bounded by a line beginning at a point on Highway U.S. 99 at latitude 47°06'35" N., longitude 122°34'05" W.; extending southeasterly along the road to the Northern Pacific Railroad at latitude 47°05'22" N., longitude 122°30'15"

W.; thence extending southerly along the railroad to latitude 47°09'10" N., longitude 122°31'25" W.; thence extending northwesterly to the western edge of VOR Federal airway No. 23 at latitude 47°04'28" N., longitude 122°35'15" W.; thence extending northerly along the western edge of VOR Federal airway No. 23 to the point of beginning at latitude 47°06'35" N., longitude 122°34'05" W. The designated altitudes are surface to 1,500 feet MSL. The time of designation is continuous. The controlling agency is the Commanding General, Fort Lewis, Wash.

The Federal Aviation Agency has under consideration the revocation of this restricted area. In response to Special Airspace Regulation No. 1 report and other supplementary data, the Department of Army indicated that the maximum ordinate of the small arms and rocket firing activity conducted in Restricted Area R-503 does not exceed 90 feet above ground. In addition, it appears that the ordnance demolition activity conducted in Restricted Area R-503 could be conducted in adjacent restricted areas. Therefore, it appears that retention of this restricted area is unjustified as an assignment of airspace, and that revocation thereof would be in the public interest.

If this action is taken, Fort Lewis, Wash., Restricted Area (R-503) would be revoked.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, 5651 West Manchester Avenue, P.O. Box 90007, Airport Station, Los Angeles 45, Calif. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C. on June 14, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5619; Filed, June 17, 1960; 8:47 a.m.]

SMALL BUSINESS ADMINISTRATION

[13 CFR Part 107]

SMALL BUSINESS INVESTMENT COMPANIES

Notice of Proposed Rule Making

Notice is hereby given that pursuant to authority contained in sections 304 and 308, Pub. Law 85-699, 72 Stat. 694, as amended by the Small Business Investment Act Amendments of 1960, it is proposed to amend, as set forth below §§ 107.102-1(d)(2); 107.103-1, paragraph 6, definition of operating territory; 107.201-5(c); 107.304-1; 107.305-1(b) and 107.306-1 (a), (b), and (c) of Part 107 of Subchapter B, Chapter I, of Title 13 of the Code of Federal Regulations. Part 107, Subchapter B, Chapter I, of Title 13 of the Code of Federal Regulations governing the establishment and operation of small business investment companies chartered or licensed by the Small Business Administration to operate under the Small Business Investment Act of 1958, and to carry out the provisions of said Act, was published in the FEDERAL REGISTER on December 4, 1958 (23 F.R. 9383), and became effective on publication in the FEDERAL REGISTER. Prior to final adoption of such amendment of regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in triplicate, to the Small Business Investment Division, Small Business Administration, Washington 25, D.C., within a period of 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Information. The amendments under consideration change the provisions of the sections referred to above so as to provide regulations in compliance with statutory changes contained in section 6 of the Small Business Investment Act Amendments of 1960. This section requires that companies shall provide a source of equity capital for incorporated small business concerns in accordance with the regulations of the Small Business Administration.

It is proposed to amend the Small Business Investment Company Regulations as follows:

The Small Business Investment Company Regulations (23 F.R. 9383), as amended (25 F.R. 1397, 2354, 3316, 5374) is hereby further amended by:

Section 107.102-1(d)(2), 107.103-1, paragraph six, definition of operating territory, 107.201-5(c), 107.305-1(b), and 107.306-1 (a), (b), (c) are amended as follows:

Wherever the words "convertible debentures", "convertible debenture bond" or "debenture bond" appear in said sections such words shall be deleted and there shall be inserted, in lieu thereof, the words "Equity Securities".

Section 107.304-1 is amended to read as follows:

§ 107.304-1 Equity Capital for incorporated small business concerns.

(a) Each Licensee shall constitute a source of Equity Capital for incorporated small business concerns; which capital shall be supplied in a manner and under terms consistent with regulations of the Administration.

(b) "Equity Capital" means funds received by an incorporated small business concern from a Licensee as the consideration for the issuance of Equity Securities by such concern to such Licensee.

(c) "Equity Securities" means:

(1) Certificates of stock of any class, granting such rights and containing such limitations as may be negotiated between the Licensee and small business concern, provided, however, that whenever any such stock provides a right to convert to another class of stock, stock purchase warrants or options shall not be issued by the small business concern in connection with the purchase of such securities, and

(2) Instruments which evidence a debt and which provide either an option to convert all or any portion of the outstanding principal amount of such debt into stock of the small business concern, or provide nondetachable or detachable stock purchase warrants or options.

The purchase price per share of shares available under warrants or options acquired in connection with the purchase of Equity Securities, shall be at no less than the sound book value of such shares, as defined herein, at the time the warrant or option is issued, and the total cost of such shares shall not exceed the amount of equity capital provided by the securities with which the warrant or option was issued, except as the warrant or option may provide for successive increases in the price per share of optioned shares.

(d) Collateral may secure Equity Securities which evidence a debt.

(e) Equity Securities which evidence a debt shall have stated maturities of not less than five years. Further, Equity Securities which evidence a debt shall not be amortized during the first five years thereof at a rate greater than the equivalent of five years' straight-line amortization.

(f) A Licensee shall not purchase any type Equity Securities if the purpose of such purchase or acquisition is to furnish the small business concern with financing for a period of less than five years' duration.

(g) Equity Securities which evidence a debt shall be callable at par or at negotiated premiums, in whole or in part, by the issuer on any interest payment date, upon three months' notice; provided that any right to convert the debt may be exercised prior to the effective date of such call.

(h) Equity Securities which are convertible into stock shall be convertible at a price or prices per share not less than the sound book value of such stock as determined at the time of the issuance of said securities. "Sound book value" for the purposes hereof shall be determined through consideration of all pertinent factors including the actual value of the assets of the small business concern and the relationship of the earnings of such concern to its invested capital.

(i) Stock purchase warrants or options shall expire not later than five years from the date of the issuance of the Equity Securities in connection with which such warrant or option is obtained.

(j) Two or more Licensees may participate in the purchase of Equity Securities, provided that a single Licensee does not exceed the limitations imposed by § 107.306-1.

(k) Wherever Equity Securities involve debt any Licensee may require small business concerns to refinance any or all of its outstanding indebtedness so that the Licensee is the only holder of any evidence of indebtedness of such concern.

(l) Wherever Equity Securities involve debt any Licensee may require such concern to agree not to incur any additional indebtedness without first securing the approval of the Licensee and giving the Licensee the first opportunity to finance such additional indebtedness: *Provided, however,* That the Licensee shall allow appropriate exceptions for open account or other short-term credit.

(m) Whenever a Licensee purchases Equity Securities of a small business concern under this section, such concern shall have the right, exercisable in whole or in such part as such concern may elect, to become a stockholder-proprietor by investing in the capital stock of the company 5 per centum of the amount of capital so provided. The price of such stock sold by the Licensee to the small business concern under this section shall not be greater than (1) the book value determined in conformity with generally accepted accounting principles, or (2) the fair market value, whichever is the higher. Factors which may be taken into consideration in determining fair market value may include, among others, market quotations, recent public or private sales, and the liquidating value, earnings, and dividend record of the Licensee's stock.

Dated: June 14, 1960.

PHILIP MCCALLUM,
Administrator.

[AA 659.3]

SHOEBOARD FROM CANADA

Determination of No Sales at Less Than Fair Value

JUNE 13, 1960.

A complaint was received that shoeboard from Canada was being sold in the United States at less than fair value within the meaning of the Antidumping Act of 1921.

I hereby determine that shoeboard from Canada is not being, nor likely to be, sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)).

Statement of reasons. Shoeboard identical or similar to that sold for exportation to the United States is sold for home consumption in Canada in the case of most items. Comparison was, accordingly, made between purchase price and home market price. In the few instances where neither such nor similar merchandise was sold in the home market, comparison was made with third country price or constructed value.

The comparison disclosed no sales to the United States at less than home market price, third country price, or constructed value, with the exception of several items of shoeboard sold by two manufacturers prior to October 1959 and November 23, 1959, respectively. None of the sales made since the above dates have been at less than the comparable fair value, due to revisions in the manufacturers' pricing. The evidence available indicates that there is no likelihood of future sales at less than fair value. The volume of sales at a dumping price was deemed to be not more than insignificant.

This determination and the statement of reasons therefor are published pursuant to section 201(c) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(c)).

[SEAL] A. GILMORE FLUES,
Acting Secretary of the Treasury.

DEPARTMENT OF COMMERCE

Bureau of Foreign Commerce

[File 26-434]

MAIRECO EXPORT-IMPORT G.m.b.H. AND EMMERICH KURUC

Order Denying Export Privileges for an Indefinite Period

In the matter of Maireco Export-Import G.m.b.H., Emmerich Kuruc, 166 Waehringer Guertel, Vienna IX, Austria, Respondents; File 26-434.

The Director, Investigation Staff, Bureau of Foreign Commerce, has applied for an order denying to Maireco Export-Import G.m.b.H. and Emmerich Kuruc all export privileges for an indefinite period because of their failure to furnish responsive answers to written interrogatories served upon the said firm in connection with an investigation being conducted under authority of the Export Control Act.

This application was made pursuant to § 382.15 of the Export Regulations, and in accordance with the practice thereunder, was referred to a Compliance Commissioner of the Bureau of Foreign Commerce who, after reviewing the evidence in support thereof, has recommended that it be granted.

After reviewing and considering the Compliance Commissioner's report, the application, and the evidence submitted in support of the application, the following are my findings of fact: (1) The Maireco firm and Emmerich Kuruc, its apparent manager, were and are engaged in business and located in Vienna, Austria, where service of a subpoena upon them was impracticable; (2) a proper investigation was and is being conducted by the Investigation Staff of the Bureau of Foreign Commerce to determine whether there may have been what appeared to be unauthorized uses of general licenses and unauthorized diversions of transistors, photomultiplier tubes, and other electronic equipment exported from the United States to Maireco, the respondent herein, and to Allround Establishment, Inc., Vaduz, Liechtenstein, with whom the Maireco firm and its manager appeared to be associated; (3) written interrogatories were duly served upon the Maireco firm; and (4) Maireco did not answer the interrogatories within ten days after service as required by written and oral notification in the letter of interrogatories and at the time of service; and Maireco's answers which were subsequently furnished were not full, direct, and responsive, and did not contain satisfactory reasons for not furnishing adequate and responsive answers.

In consequence, it is concluded that the Maireco firm and its manager, Emmerich Kuruc, without reasonable cause or adequate explanation, have failed and refused to furnish responsive answers to the interrogatories duly served upon the Maireco firm as required by Section 382.15 of the Export Regulations.

Now, therefore, in view of the foregoing, and being of the opinion that the following order is reasonable and necessary to protect the public interest and to achieve effective enforcement of the Export Control Act of 1949, as amended, and regulations, licenses and orders pursuant thereto: *It is hereby ordered.*

I. All outstanding validated export licenses in which the respondents, Maireco Export-Import G.m.b.H. and Emmerich Kuruc, or any of them, appear or participate as purchaser, intermediate or ultimate consignee, or otherwise, are hereby revoked and shall be returned forthwith to the Bureau of Foreign Commerce for cancellation.

II. Henceforth and so long as export controls shall be in effect, the respondents, their successors or assigns, officers, partners, representatives, agents, and employees hereby are denied all privileges of participating, directly or indirectly, in any manner or capacity, in any exportation of any commodity or technical data from the United States to any foreign destination, including Canada. Without limitation of the generality of the foregoing denial of export privileges, participation in an exportation is deemed to include and prohibit participation by them or any of them, directly or indirectly, in any manner or capacity, (a) as parties or as representatives of a party to any validated export license application, (b) in the preparation or filing of any export license application or of any document to be submitted therewith, (c) in the obtaining or using of any validated or general export license or other export control document, (d) in the receiving, ordering, buying, selling, delivering, using, or disposing in any foreign country of any commodities or technical data in whole or in part exported or to be exported from the United States, and (e) in the storing, financing, forwarding, transporting, or other servicing of such exports from the United States.

III. This denial of export privileges shall extend not only to the respondents, but also to any person, firm, corporation, partnership or business organization with which any of them may be now or hereafter related by affiliation, ownership, control, position of responsibility or other connection in the conduct of trade which may involve exports from the United States or services connected therewith. This denial of export privileges shall extend to Allround Establishment, Inc., Vaduz, Liechtenstein, which is deemed to be related to Maireco Export-Import G.m.b.H. and Emmerich Kuruc, the respondents herein, within the terms hereof.

IV. This order shall remain in effect until the respondents provide satisfactory answers, written information and documents in response to the interrogatories heretofore served upon Maireco Export-Import G.m.b.H., or give adequate reasons for their failure so to do, except insofar as this order may be amended or modified hereafter in accordance with the Export Regulations.

V. During the time when any respondent or related party is prohibited from engaging in any activity within the scope of Part II hereof, no person, firm, corporation, partnership or other business organization, whether in the United States or elsewhere, without prior disclosure to and specific authorization from the Bureau of Foreign Commerce, shall do any of the following acts, directly or indirectly, in any manner or capacity, on behalf of or in any association with any such respondent or related party, or whereby any such respondent or related party may obtain any benefit therefrom or have any interest or participation therein, directly or indirectly: (a) Apply for, obtain, transfer, or use any license, shipper's export declaration, bill of lading, or other export control document relating to any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States, by, to or for any such respondent or related party denied export privileges; or (b) order, buy, receive, use, sell, deliver, store, dispose of, forward, transport, finance, or otherwise service or participate in, any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States.

VI. In accordance with the provisions of § 382.11(c) of the Export Regulations, the respondents may move, at any time prior to the cancellation or termination hereof, to vacate or modify this indefinite denial order by filing an appropriate application therefor, supported by evidence, with a Compliance Commissioner, and they may request an oral hearing thereon, which, if requested, will be held before a Compliance Commissioner at Washington, D.C. at the earliest convenient date.

Dated: June 10, 1960.

FRANK W. SHEAFFER,
Acting Director,
Office of Export Supply.

Federal Maritime Board

FREE TIME AND DEMURRAGE CHARGES

Notice of Agreement Filed for Approval

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916 (39 Stat. 733, 46 U.S.C. 814):

Agreement No. 6015-4, modifies the basic agreement of the parties which provides for free time and demurrage charges to be assessed cargo loaded at the Malayan Union and Colony of Singapore, Indonesia, Siam, Philippine Islands, Japan and the East Coast of Asia North of Singapore, and discharged at New York Harbor. The purpose of the modification is to (1) revise the precedure for the resolution of questions arising in regard to the determination of the free time period and the assessment of pier demurrage charges pursuant to the terminal tariff of the parties and (2) to authorize the adoption of terminal tariff rules and regulations which permit the parties to deliver import cargo prior to the payment of charges incurred thereby pursuant to the terminal tariff and, in like manner to establish reasonable conditions under which the privilege of delivery of cargo prior to payment of such charges may be withheld.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D.C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: June 15, 1960.

By order of the Federal Maritime Board.

JAMES L. PIMPER,
Secretary.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

Notice of Areas To Be Governed by the Several Principal Meridians

JUNE 13, 1960.

This notice defines the areas in Alaska to be governed by the several principal meridians previously established for the survey of the public lands in that State.

1. *Fairbanks Meridian.* The Fairbanks Meridian shall govern the survey of the public lands in the area south of that governed by the Umiat Principal Meridian; east of that governed by the Kateel River Principal Meridian; north of that governed by the Seward Meridian and the Copper River Meridian; and west of the boundary between the United States and Canada. That area is bounded as follows:

On the North by the parallel of 68° North latitude (which is the south boundary of the area governed by the Umiat Principal Meridian as defined in the notice of December 31, 1956, 22 F.R. 152).

On the West by the meridian of 153° West longitude (which is the east boundary of the area governed by the Kateel River Principal Meridian as defined in the notice of October 17, 1956, 21 F.R. 8123).

On the South (west of the 4th Guide Meridian East) by the south boundary of Township 22 South; the 4th Guide Meridian East, with theoretical offsets at the 4th and 3d Standard Parallels South; and (east of the 4th Guide Meridian East) the 2d Standard Parallel South, all under the Fairbanks Meridian.

On the East by the boundary between the United States and Canada.

2. *Seward Meridian.* The Seward Meridian shall govern the survey of the public lands in southwestern Alaska, including the Aleutian Islands, in the area south of that governed by the Kateel River Principal Meridian and the Fairbanks Meridian, and west of the area governed by the Copper River Meridian. That area is bounded as follows:

On the North (east of the 153d Meridian) by the south boundary of Township 22 South, Fairbanks Meridian; the 153d Meridian; and (west of the 153d Meridian) the parallel of 63° North latitude (which is the south boundary of the area governed by the Kateel River Principal Meridian as defined in the Notice of October 17, 1956, 21 F.R. 8123), except that all public land surveys on St. Lawrence Island in the Bering Sea shall be governed by the Kateel River Principal Meridian.

On the East (between the south boundary of Township 22 South, Fairbanks Meridian, and Prince William Sound) by the 3d Guide Meridian East, Seward Meridian, with theoretical offsets at the 8th, 7th, 6th, 5th, 4th, and 3d Standard Parallels North; all public land surveys on Glacier Island and Montague Island Groups in Prince William Sound shall be governed by the Seward Meridian.

3. *Copper River Meridian.* The Copper River Meridian shall govern the survey of the public lands in southeastern Alaska, south and east of the areas governed by the Fairbanks and Seward Meridians. That area is bounded as follows:

On the North (east of the 4th Guide Meridian East, Fairbanks Meridian) by the 2d Standard Parallel South, Fairbanks Meridian; the 4th Guide Meridian East, Fairbanks Meridian, with theoretical offsets at the 3d and 4th Standard Parallels South; and (west of the 4th Guide Meridian East, Fairbanks Meridian) the south boundary of Township 22 South, Fairbanks Meridian.

On the West (between the south boundary of Township 22 South, Fairbanks Meridian, and Prince William Sound) by the 3d Guide Meridian East, Seward Meridian, with theoretical offsets at the 8th, 7th, 6th, 5th, 4th, and 3d Standard Parallels North, Seward Meridian; all public land surveys on Glacier Island and Montague Island Groups in Prince William Sound shall be governed by the Seward Meridian.

On the South and East by the boundary between the United States and Canada.

4. *Kateel River Principal Meridian.* The Kateel River Principal Meridian shall govern the survey of the public lands in northwestern Alaska south of the area governed by the Umiat Principal Meridian, west of the area governed by the Fairbanks Meridian, and north of the area governed by the Seward Meridian. The area governed by the Kateel River Principal Meridian is defined in the Notice of October 17, 1956, 21 F.R. 8123, as lying west of 153° West longitude between 63° and 68°22' North latitude. In addition, all public land surveys on St. Lawrence Island in the Bering Sea shall be governed by this meridian.

5. *Umiat Principal Meridian.* The Umiat Principal Meridian shall govern the survey of the public lands in northern Alaska, in the area north of that governed by the Fairbanks Meridian and the Kateel River Principal Meridian. The area governed by the Umiat Principal Meridian is defined in the Notice of December 31, 1956, 22 F.R. 152, as lying east of 153° West longitude, north of 68° North latitude; and west of 153° West longitude, north of 68°22' North latitude.

6. Minor variations in the boundaries described herein will be permitted when the survey of the public lands will be expedited, or the administration of the lands and resources promoted thereby.

EARL J. THOMAS,
Acting Director.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 6517; FCC 60-690]

WESTERN UNION TELEGRAPH CO. AND POSTAL TELEGRAPH, INC.

Order Scheduling Oral Argument

In the matter of the application for merger of The Western Union Telegraph Company and Postal Telegraph, Inc., Docket No. 6517.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 15th day of June 1960;

The Commission having under consideration:

(a) The Order herein released March 3, 1960, wherein the Commission set for hearing the Petition filed jointly February 1, 1960, by The Western Union Telegraph Company (Western Union), and Barnes Investing Corporation (Barnes) for appropriate action to make possible the consummation of an attached agreement for the sale of the Western Union cable operations to Barnes;

(b) Its Memorandum Opinion and Order herein released April 22, 1960, wherein the problems resulting from the fact that Barnes had not yet obtained the funds necessary to consummate the proposed purchase of the Western Union International Telegraph Facilities were considered; wherein the Commission set forth its position that the proposal as it then stood did not constitute a plan as required by the Commission's Order; and wherein it was made clear that further postponements in this matter to secure funds cannot be permitted;

(c) Its Memorandum Opinion and Order herein released on May 27, 1960, wherein the view was expressed that, absent the financial ability of an entity seeking to acquire the cables, there can be no divestment so that the holding of hearings on the complex issues involved in the instant plan would be "futile"; and
